c. When the cost of construction per unit of benefited shore length is not reasonably uniform for the entire project area, and division into relatively few substantial compartments within which this condition is met is not practicable, it will be necessary to compute the Federal share of construction cost on a section-by-section basis for all or part of the benefited shore length. When applying this method in extreme cases, it may be necessary to treat each individual parcel of benefited shore in a given category as a separate section. The net effect is the same as division of the benefited shore length into a large number of compartments and the procedure outlined in paragraph A-2b is applicable.

A-3. *Projects Including Periodic Nourishment as a Construction Measure* are discussed in § 282.7(d). Periodic beach nourishment may be recommended as a construction measure. In the case of the projects for which the costs of initial work (beach restoration or structures) and of periodic nourishment are uniformly distributed over the shore, the formula given in paragraph A-2a will be applied and the percentage of Federal participation will be the same for both initial work and periodic nourishment. In cases of nonuniform cost distribution for either the initial construction or the periodic nourishment, or both, the level of Federal participation will be computed in accordance with paragraphs A-2b and A-2c, and will not necessarily be the same for initial construction and periodic nourishment.

A-4 *Projects Providing Minor or Indefinite Incidental Benefits to Privately Owned Shores.*

a. When the cost of works designed to benefit only publicly-owned shores would equal or exceed the cost of works which would in addition, benefit adjoining privately-owned shores, the benefits to the privately-owned shores, if trivial in amount, may be considered as incidental and the Federal share of construction costs may be computed by the following formula:

Federal share of total construction cost, in percent=

$$\left\{\left[\frac{\text{Category I frontage}}{\text{Total frontage}}\right] + \left[\frac{\text{Category II frontage}}{\text{Total frontage}} \times 0.7\right] + \left[\left(\frac{\text{All other frontage}}{\text{Total frontage}}\right) \times 0.5\right]\right\} 100$$

b. When, as may occur in the case of periodic beach nourishment, private shores beyond projects limits ultimately may receive benefits of indefinite nature and amount from the project, such benefits will be classed as incidental and these benefits and the shores involved will not be considered in determining the Federal share of project costs.

A-5 *Projects Which Reduce Federal Cost of Maintaining Authorized Navigation Projects.* Federal aid may be recommended for that portion of the project cost allocated to navigation, in addition to the aid determined pursuant to paragraphs A-1 through A-4. For purposes of this computation allocations will be made on a proportionate benefit basis with benefits limited to the alternative costs. The total Federal share of costs expressed as percentage (T) for the feature which results in the navigation benefits may be computed as a percentage of the total first cost for that feature by application of the following formula:

$$T = \left[\frac{N}{N + B} \times 100\right] + \left[\frac{B}{N + B} \times T_e\right]$$

where: N=Navigation benefits of feature, limited to alternative costs of dredging;

B=Beach erosion control benefits, limited to the cost of the alternative to provide the same beach protection benefits.

T_e=Federal share of cost of the shore protection features which results in navigation benefits, in percent, computed in accordance with paragraphs A-1 through A-4.

A-6. *Multiple Purpose Projects.* In the case of multiple purpose projects, such as those for shore protection and other purposes as hurricane protection and navigation (where new navigation features are involved rather than maintenance of an existing Federal project), the procedures outlined in paragraph A-1 through A-4 will be applied only to the portion of the total construction costs allocated to shore protection. Allocation of costs between functions will normally be made by the Separable Costs-Remaining Benefits (SCRB) method (see EM 1160-2-101).

APPENDIX B

EXAMPLE COMPUTATIONS FOR COST SHARING ON SHORE PROTECTION PLANS

B-1. *Example 1.* The following is a simplified example of cost apportionment between Federal and local interests for an economically justified shore protection project where shores in both public and private ownership are involved and significant public benefits are generated through protection of private shores. It is assumed that a coordinated plan is proposed, that no section can be omitted, that the benefits to private shores are not incidental, that public benefits can be associated with only a portion of the private shores protected, and that the cost of protection per unit of benefitted shore length is reasonably uniform for the entire project area. If periodic nourishment is involved in this case, cost apportionment therefor would be on the same basis.

Item	Shore Capacity I	II	III	IV	V	Total
Length, feet	500	10,000	3,000	4,500	2,000	20,000
Ownership	Federal	Public non-Fed (Conserv Area)	Public non-Fed	Private	Private	
Benefits (av.ann.$)						
Public	5,000	75,000	30,000	50,000	-	160,000
Private	-	-	-	25,000	40,000	65,000
Total	5,000	75,000	30,000	75,000	40,000	225,000
Computation of Federal share of construction cost	The formula given in paragraph A-2a is applicable. The Federal share expressed as a percent of the total first cost would be:					

$$\left\{\left[\frac{500}{20,000}\right] + \left[\frac{10,000}{20,000} \times 0.7\right] + \left[\left(\frac{3,000}{20,000}\right) + \left(\frac{4,500}{20,000} \times \frac{50,000}{75,000}\right)\right] \times 0.5\right\} 100 =$$

$$\{[0.025] + [0.35] + [0.15 + 0.15]\ 0.5\}\ 100 = 52.5 \text{ percent}$$

B-2. *Example 2* is substantially the same as Example 1, except that the cost of protection per unit of shore length is not reasonably uniform and division into two compartments is necessary. For simplicity, shore categories in each of these compartments have been limited to four. In actual cases shores in all five categories might be found in all compartments.

[3710-92-C]

Item	Reach of Shore Compartment 1		Compartment 2		Total	
Length, feet	15,000		5,000		20,000	
Construction cost, $:						
Total	750,000		625,000		1,375,000	
Per foot of shore	50.00		125.00		68.75	
Shore length by shore categories, feet:						
I	500		-		500	
II	9,000		1,000		10,000	
III	2,000		1,000		3,000	
IV	3,500		1,000		4,500	
V	-		2,000		2,000	
Total	15,000		5,000		20,000	
Benefits by shore categories, av. ann. $1,000:	Public	Private	Public	Private	Public	Private
I	5	-	-	-	5	-
II	60	-	15	-	75	-
III	15	-	15	-	30	-
IV	20	10	30	15	50	25
V	-	-	-	40	-	40
Total	100	10	60	55	160	65

Computation of Federal share of construction cost

The formula given in paragraph A-2a is applicable and is applied separately for each compartment.

Compartment 1

Federal share of construction cost for compartment, in percent =

$$\left\{\left[\frac{500}{15,000}\right] + \left[\frac{9,000}{15,000} \times 0.7\right] + \left[\left(\frac{2,000}{15,000}\right) + \left(\frac{3,500}{15,000}\right) \left(\frac{20}{30}\right) 0.5\right\}\ 100 = 59.7 \text{ percent}$$

Compartment 2

$$\left\{\left[\frac{1,000}{5,000} \times 0.7\right] + \left[\left(\frac{1,000}{5,000}\right) + \left(\frac{1,000}{5,000} \times \frac{30}{45}\right)\right] \times 0.5\right\}\ 100 = 30.7 \text{ percent}$$

Total Project

Compartment	Construction Cost, $	Federal share of Construction Cost %	$
1	750,000	59.7	448,000
2	625,000	30.7	192,000
Total Project	1,375,000	46.5	640,000

B-3. *Example 3* is substantially the same as Example 1 except that it is assumed that certain features of the project involved would reduce Federal costs of maintaining an authorized Federal navigation project by $10,000 annually. This benefit is in addition to those shore protection benefits shown in Example 1. The proportionate share of shore protection benefits also accruing from those same features is assumed to be $70,000. Average annual benefits for those project features thus would be:

Shore protection	$70,000
Navigation	10,000
Total	$80,000

The Federal share of construction costs of those project features which do not contribute to the navigation benefit would be 52.5 percent, as computed in Example 1. The Federal share of construction costs for the project features contributing the navigation benefit, computed in accordance with formula given in paragraph A-5 and expressed as a percent of total construction cost for those features, would be:

$$\left(\frac{10,000}{80,000} \times 100\right) + \left(52.5 \times \frac{70,000}{80,000}\right) = 58.5 \text{ percent}$$

B-4. *Example 4* is similar to Example 2, except that the construction plan includes provision for periodic beach nourishment at an estimated average annual cost of $100,000 which would benefit the entire project frontage.

Item	Reach of Shore		
	Compartment 1	Compartment 2	Total
Length, feet	15,000	5,000	20,000
Construction cost, $			
Initial measures:			
Total	545,000	455,000	1,000,000
Per feet of shore	36.33	91.00	50.00
Periodic nourishment:(*)			
Total (Av. Ann.)	75,000	25,000	100,000
Per feet of shore (Av. Ann.)	5.00	5.00	5.00

(*) Total cost of periodic nourishment distributed between compartments on a frontage basis.

Shore length by shore categories, feet:	Same as Example 2	Same as Example 2	Same as Example 2
Benefits by shore categories, Av. Ann. $1,000	Same as Example 2	Same as Example 2	Same as Example 2
Computation of Federal share of construction cost	The formula given in paragraph A-2a is applicable and is applied separately for each compartment. The Federal aid percentages are as in Example 2:		
	Compartment 1	59.7 percent	
	Compartment 2	30.7 percent	

Federal aid for the project as a whole is computed as follows:

Initial Measures

Compartment	Construction Cost, $	Federal Share of Construction Cost	
		%	$
1	545,000	59.7	325,000
2	455,000	30.7	140,000
Total	1,000,000	46.5(*)	465,000

(*) This figure is the same as the result for Example 2 because the lengths and benefits by shore categories, and the relative compartment costs, are the same as for Example 2.

Periodic Nourishment

Compartment	Periodic Nourishment Cost Av. Ann. $	Federal Share of Cost for Periodic Nourishment for Period to be Specified	
		%	Av. Ann. $
1	75,000	59.7	44,800
2	25,000	30.7	7,700
Total	100,000	52.5(*)	52,500

(*) Note that the Federal share of periodic nourishment costs for the project as a whole is not the same as the Federal share of other construction costs. (Paragraph A-3.)

B-5. *Comment on Examples.* The foregoing examples have been simplified for purposes of illustration, particularly in regard to the matter of uniformity of cost. In typical project cases, shore categories may be extensively intermixed and there may be a wide range of unit costs of protection in each category. Choice of the method for computation of Federal costs must be made on the basis of the conditions encountered in individual cases. The principal alternatives available are between computation on the basis of the project as a whole as opposed to computation on a compartment-by-compartment or section-by-section basis. Reports should contain sufficient detail on costs, benefit occurrence, and alternative costs to support selection of the method of computation used.

PART V

INTERSTATE COMMERCE COMMISSION

CANONS OF CONDUCT GOVERNING THE BEHAVIOR OF MEMBERS AND EMPLOYEES

V 4 4 / 1 5 J A 2 2 7 9 UMI

[7035-01-M]

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

PART 1000—THE COMMISSION

Canons of Conduct; Revision

AGENCY: Interstate Commerce Commission.

ACTION: Final Rules.

SUMMARY: The Commission has adopted revised Canons of Conduct governing the behavior of members and employees. The new Canons, which have been approved by the Civil Service Commission and become effective on publication of this notice, reflect the Commission's analysis of public response to the proposed revised Canons published for comment in the FEDERAL REGISTER on May 10, 1978 (43 FR 20208). The new rules simplify, clarify, and update the agency's previous Canons. They set forth explanatory guidelines for each Canon and add supplemental Canons that apply only to members of the Commission.

EFFECTIVE DATE: January 22, 1979.

FOR FURTHER INFORMATION CONTACT:

Frederick W. Read, III, 202-275-1857.

SUPPLEMENTARY INFORMATION: In response to the FEDERAL REGISTER notice soliciting public comment on the proposed revised Canons of Conduct, the Commission received written submissions from 23 persons, all of whom are employees of the agency. Some of the comments suggested language intended to eliminate alleged ambiguities, while others proposed substantive changes. We have carefully considered those comments in drafting the final revised Canons.

The final Canons and Guidelines differ in a number of respects from the revised Canons originally proposed. The following paragraphs describe those Canons and Guidelines which have been significantly modified and explain the reasons for the changes made. It should be noted that proposed Canon 22 has been deleted, necessitating the renumbering of Canons 23-31 as 22-30.

These revised Canons and Guidelines were approved by the Office of Personnel Management on January 4, 1979, and are effective January 22, 1979.

Canon 11: As the introductory statement to the Commission's Canons of Conduct, Canon 11 articulates the general standard of conduct by which Commission members and employees must abide. As originally proposed, Canon 11 represented no change from the "standard of conduct" statement in the Commission's former canons. We now believe, however, that the language of Canon 11 should be expanded to emphasize the special public trust and responsibility borne by those in government service. This expanded focus will enhance Canon 11's function as a statement of the "general standard of conduct" for Commission members and employees. The new language is inspired by Section 101 of Executive Order 11222 and § 735.101 of the Civil Service Commission regulations, as well as by the Commission's former "standard of conduct" statement.

Canon 13: This canon prohibits Commission members and employees from having "any direct interest in any for-hire transportation company whether or not subject to the Interstate Commerce Act." It also delineates certain forbidden indirect interests in transportation enterprises.

Some comments criticized Canon 13 as overly stringent. One comment argued that the canon should not prohibit financial interests in non-ICC regulated transportation companies. In that same vein, another comment stated that the prohibition should not apply to transportation companies having an extremely attenuated or nonexistent connection with Commission regulation. It should be recognized, however, that these criticized aspects of Canon 13 represent no change from our old canons and are merely a continuation of established Commission policy.

The prohibition of Canon 13 is, in essence, an agency-wide application of the Congressional policy reflected in 49 U.S.C. 10301(d), 10306(e), and 10344(e) (formerly Section 205(i) of the Interstate Commerce Act, 49 U.S.C. 305(i)), which provide that no Commission member, administrative law judge, employee board member, or joint board member may own securities of a carrier providing transportation by any mode.

Of course, any broad or absolute prohibition can lead to absurd results in isolated instances. For example, one comment observed that the Canon 13 proscription would reach interests in a local taxi service, a bush airline in Canada, or a jitney in Manila. But we are not aware of any significant problems caused by the agency-wide application of this prohibition in the past. The guidelines accompanying Canon 13 contain a provision permitting the Ethics Counselor to grant waivers in exceptional cases "based on serious financial hardships." In order to avoid the possibility of absurd results under the absolute prohibition of the canon, we have now added a "remoteness of interest" factor to the guidelines for the Ethics Counselor to consider in determining whether to grant a waiver.

One comment was critical of the two percent limitation in Canon 13(b)(2). The thrust of the comment was that it is unreasonable to expect members or employees to keep track of the various interests and holdings of conglomerates, especially when the conglomerates themselves are not required to report individual investments that account for less than 10 percent of their assets or income.

While this aspect of Canon 13 may ultimately need further refinement, we have not altered the proposed canon at this time. An assessment of where workable lines should be drawn can be made as we gain experience under this canon. In any event, the two-part nature of the test in Canon 13(b) should limit the applicability of the two percent standard.

Canon 13(c) prohibits the holding of any interest in a mutual fund or other enterprise which has "more than ten percent of its assets invested in or derives more than ten percent of its income from any for-hire transportation *company* • • •." The use of "company" in the singular may suggest that a mutual fund, to be covered by the prohibition, must have more than 10 percent of its assets invested in a *single* for-hire transportation company. In other words, it could be contended that an employee could own a mutual fund that has as much as 50 percent of its assets invested in transportation companies, so long as no more than 10 percent is invested in any single company. We intend, however, to reach all mutual funds or other enterprises that have more than 10 percent of their assets cumulatively invested in transportation entities. Accordingly, we have changed "company" to the plural "companies."

One comment suggested that Canon 13's prohibitions should be extended to include financial interests in private carriers. Of course, Commission decisions can in some instances affect companies that operate private fleets. But the same can be said of *any* company that uses transportation services, whether private or for-hire. Following such logic would effectively foreclose Commission personnel from holding a financial interest in almost *any* enterprise.

We do not believe that such a harsh result is either necessary or desirable. The for-hire/private distinction was also in the old canons, and we are not aware that it has led to any problems or abuse. Since the prohibition of Canon 13 applies to all for-hire transportation companies, the canon encompasses every firm regulated by this agency plus some not subject to our regulation. This provision thus goes

further than similar rules of other agencies.

Defining the scope of financial ownership prohibitions necessarily entails some difficult line-drawing. Certain limitations are inherent in the process. One can easily argue that, in a specific factual setting, the prohibition is too broad or too narrow. Nonetheless, we believe that Canon 13 draws the line in the right place. To the extent that the prohibition goes too far, the waiver mechanism may serve to mitigate its effects. Where the prohibition does not reach a possible conflict, other provisions of the canons, including Canon 14 (disqualifying interests) and Canon 15(b) (the catch-all provision), furnish adequate safeguards against abuse.

Subparts (b) and (c) of Canon 13 prohibit certain types of indirect ownership in transportation companies. The guidelines provide that, in determining the propriety of their financial holdings, "members and employees may rely on the most recent financial statement issued by the enterprise."

One comment noted that this language could be construed to require employees to be aware of financial statements that ordinarily are unavailable to security holders. For example, critical information might be contained in documents filed with federal or state regulatory bodies and not easily accessible to security holders.

We do not intend to hold employees accountable for information in financial statements that are ordinarily unavailable to them. Consequently, for the sake of clarity, we have added the phrase "to security holders" after the word "enterprises" in the above-quoted language from the guidelines.

Canon 14: Members and employees may not participate in any matter in which they have a substantial pecuniary interest or in which their impartiality could be questioned. The guidelines indicate that this canon also applies to the interests and business relationships of parents, spouses, or children of Commission members and employees.

One comment urged that the guidelines be expanded by including the financial interests and relationships of grandparents, siblings, grandchildren, and in-laws of Commission members and employees. We have not adopted this suggestion. It is doubtful that a relative outside the immediate family or household would be in any better position to influence a member's or employee's participation in a proceeding than a close friend. To require disqualification in all cases that in some way might affect a relative outside the immediate family or household would be overly broad and impractical. The number of such relatives could be large, and they might be geographically dispersed. This could make it extremely difficult for a member or employee to stay informed of the current financial interests and business relationships of these relatives.

However, we have added "other relatives (including in-laws) residing in the immediate household" to the class of relatives described in the guidelines. This change tightens the canons by covering additional situations in which there may be a potential conflict or an appearance of a conflict. The revision should not pose an unwarranted burden, because a member or employee should be able to keep track of the financial interests and business relationships of relatives residing within his or her immediate household. Moreover, such an approach corresponds to the practice of the Civil Service Commission, which, in interpreting an analogous provision of its own rules, has extended the class of relatives whose financial interests must be *reported* (see discussion of Canon 26, *infra*) to include in-laws residing in the employee's immediate household.

Canon 15: As originally proposed, Canon 15 (like former Canon 14) prohibited members and employees from soliciting or accepting any gift, entertainment, or favor "which might reasonably be interpreted as being of such a nature that it could affect their impartiality." The quoted clause has been criticized on the ground that it could be used as a loophole to justify acceptance of improper gifts or entertainment. Specifically, a person might argue that his or her acceptance of excessive gifts should be excused because they could not reasonably be interpreted as affecting his or her impartiality. We believe this criticism has merit and accordingly have deleted the phrase.

On the other hand, we have added an exception to proposed Canon 15(a) to make it clear that the prohibition against acceptance of things of monetary value does not preclude a member or employee from accepting a loan from a financial institution on customary terms. The new language is taken from the Civil Service Commission's rules.

The third paragraph of the proposed guidelines to Canon 15 specified that regulated entities, associations of same, or firms who represent regulated entities to a substantial extent are included among the entities from whom gifts may not be accepted. We have now added the word "individuals" before "firms" in the guidelines to make it clear that persons who represent regulated entities are also covered by the prohibition.

Several comments criticized exception (ii) of Canon 15(a), which permits "acceptance of food or refreshments of *nominal value* on *infrequent* occasions in the course of a luncheon, dinner, or other meeting or an inspection tour where a member or employee may properly be in attendance." They contended that the underlined terms were subject to varying interpretations and did not give employees a clear standard to follow. For example, one employee wondered whether six or eight lunches per year would be considered "infrequent" and whether numerous lunches worth only a few dollars each and received from different regulated entities would be viewed cumulatively and thus as of more than "nominal value."

Although the language in question is taken verbatim from Executive Order 11222 and Civil Service Commission regulations, we agree that additional clarification is appropriate. Therefore, we have amplified the guidelines by adding three paragraphs dealing with the scope of exception (ii).

In addition, a number of employees requested clarification concerning what types of industry-related events they may properly attend. We have modified the first sentence of paragraph 3 under section (4) of the guidelines to Canon 15 to clarify this matter by drawing a distinction between working sessions and primarily social events. Bureau and Office heads are responsible for approving attendance at working sessions but approval by the Chairman or the Ethics Counselor is needed where primarily social events are involved.

A related question raised by the comments is whether Commission personnel authorized to attend a working industry-related meeting—for example, to address a luncheon meeting of an industry association or to participate in a seminar sponsored by such an association—may properly attend a social hour or dinner connected with the authorized event but preceding or following the actual working session. For example, an association will commonly sponsor a dinner or cocktail party the evening before or the evening after a seminar or conference. Such dinners or parties are frequently complimentary (paid for by the sponsor) or included in the cost of registration.

We believe that valuable business-related discussions may take place at these kinds of events and that attendance at them may further the very purposes sought to be served by the employee's participation in the working portion of the conference by allowing the employee to hear in an informal setting the views of a segment of the public affected by the Commission's regulatory activity. However, some limitations on attendance at such events are necessary in order to avoid an appearance of impropriety. The guidelines have been revised to in-

V 4 4 / 1 5 J A 2 2 7 9 UMI

dicate that such attendance will be considered proper if the event is not at a time significantly removed from the business meeting and is not of a lavish nature.

A collateral issue suggested by the comments is whether an employee's spouse may properly attend events that the employee is authorized to attend. For example, when an employee is addressing a luncheon meeting, may his or her spouse attend and accept the lunch?

Although the issue is not easy to resolve, we believe that a spouse should be allowed to accompany an employee to an authorized event (and accept any food or refreshments the employee may accept), if the circumstances suggest that spouses are expected to attend and if the couple pays any travel and lodging expenses that may be occasioned by the spouse's attendance.

Several comments objected to the provision in the proposed guidelines under Canon 15 that the Chairman had to approve any annual leave taken to extend an out-of-town business trip for personal purposes. We are now convinced that a better way to ensure proper use of official travel is to monitor it closely at the immediate supervisory level. If the employee's supervisor determines that he or she can be spared for a further period on annual leave, there is no good reason why this should be forbidden. The purpose of the official portions of trips and their benefit to the Commission should be the relevant factors used to determine whether approval is justified. The revised guideline implements this approach.

The second paragraph of section (1) of the Canon 15 guidelines explains that free transportation is included within the phrase "gift, gratuity, entertainment, favor, loan, or any other thing of monetary value," as used in the canon. This canon prohibits acceptance of valuable free trips, such as intercity air, bus, or rail travel, but is not intended to prohibit acceptance of free incidental ground transportation except when it is feasible to identify the employee's fare for the transportation. For example, it would be proper for an employee to accept a ride in a host organization's courtesy bus or the private automobile of an officer of the organization; it would not be appropriate, however, to accept reimbursement from an organization for the cost of a taxi or airport bus.

Site inspections performed by Commission staff may involve travel between various sites in vehicles operated by regulated entities. We believe that such transportation may properly be accepted because it is for a valid business purpose and not of any personal benefit to the employee or of significant monetary value. An employee should not accept such transportation, however, if it would involve significant expense to the regulated entity. Doubts should be resolved by contacting the Ethics Counselor or a Deputy Ethics Counselor.

Acceptance by employees of unsolicited advertising or promotional material of nominal value, such as pens, note pads, and calendars, is allowed primarily to avoid burdening employees with a duty to return such unsolicited items. However, we do not encourage the use or display of such items in Commission offices and the guidelines have been expanded to remind employees to exercise discretion so that an appearance of impropriety is not created.

Section (2) of the proposed guidelines for Canon 15 would have required members and employees to pay their own travel and subsistence expenses in connection with their consideration of proposals for future employment with any person or group in the proscribed category. Various comments argued that such a guideline would be more restrictive than the general practice in private industry and government, would work an unnecessary hardship on Commission employees, and would effectively reduce employment opportunities in cities other than where an employee currently works. We were urged instead to permit an employee to accept reimbursement for reasonable travel and living expenses if the employment negotiations are undertaken in good faith.

We generally agree with that suggestion. Reimbursement for travel expenses incurred in connection with out-of-town employment interviews is a common and accepted practice in many professions. Even the government provides such reimbursement in certain circumstances to persons being considered for employment. The evil addressed by the guideline is that a regulated carrier (or its representative) might seek to influence an employee by providing free travel and living expenses under the guise of negotiations for future employment. That is, of course, a valid concern, and the proposed guideline would have largely eliminated the possibility of such a ruse. However, it would also have barred reimbursement even where there is a genuine prospect of future employment. This could prove to be a rather severe restriction on Commission employees who seek jobs in the private sector.

Civil Service Commission regulations expressly permit acceptance of reimbursement for reasonable travel and living expenses in connection with good faith employment negotiations. They provide that the prohibition against accepting gifts and entertainment does not preclude "an employee from receipt of *bona fide* reimbursement, unless prohibited by law, for expenses of travel and such other necessary subsistence as is compatible with this part for which no Government payment or reimbursement is made." 5 CFR 735.202(f). The regulation makes clear, however, that this should not be interpreted to permit an employee to receive payment for "excessive personal living expenses, gifts, entertainment, or other personal benefits."

In our judgment, there is no compelling reason to depart substantially from the policy reflected in this Civil Service Commission regulation. Reimbursement for reasonable travel and subsistence expenses incurred during employment negotiations with a regulated entity or its representative should not ordinarily create an appearance of a conflict of interest so long as the negotiations are in good faith and the employee refrains from participating in any matter in which the prospective employer is involved (see Canon 18). An employee accepting such reimbursement receives no real financial gain, because it merely covers reasonable expenses actually incurred. Although the employee benefits from the opportunity to discuss prospective employment, it is equally for the convenience of the prospective employer that the expenses are incurred. Viewed in this light, it seems appropriate to permit reimbursement for reasonable expenses. Of course, reimbursement for lavish or excessive outlays will not be permitted.

We recognize, however, that there may be potential for abuse in a system that does not provide any monitoring of such reimbursement. And there is always the possibility that an employee will feel, or appear to feel, a subtle gratitude to a company that paid his or her way to travel for an out-of-town interview. To alleviate these concerns, we have adopted the following approach.

First, to insure that there is a mechanism for monitoring such reimbursement for possible abuse, we have instituted a confidential reporting requirement. Reimbursement may be accepted only if relevant details are reported promptly to the Director of Personnel who will treat the reports as strictly confidential. Some employees may be reluctant to tell persons within the Commission that they are considering employment elsewhere. But since the reports will be maintained in confidence, we believe that limited disclosure is a reasonable price to pay for the freedom to accept travel reimbursement.

Second, to minimize any possibility of an appearance of impropriety, we have amended Canon 18, which requires an employee to avoid participating in any matter involving a regulated entity (or its representative) with which he or she is negotiating for employment, by extending the disqualification for a period of six months following the termination of such negotiations. This change will provide a reasonable cooling-off period. The prohibition will apply regardless of whether the employee receives any reimbursement.

Canon 16: One comment focused on the provision in the guidelines to Canon 16 that allows the Chairman to authorize disclosure of confidential or official information prior to the official release date. The writer of the comment interpreted the guidelines to permit the Chairman to release the information prematurely to selected parties and suggested that such a practice would amount to a denial of due process.

We agree that release of confidential or official information to only selected parties is improper. However, the guideline does not contemplate such a practice. Rather, it should be interpreted as permitting the Chairman to authorize advance release in appropriate cases only if all parties receive the information at the same time. Early release can be desirable when Congress, the courts, or other government agencies need speedy notification of a particular Commission action. Early release is most likely to be appropriate with respect to actions of a broad public interest nature such as car service orders, enforcement actions against carriers or shippers, policy statements, or directed railroad service. In such cases, the procedures are often informal and there are no "parties" as such.

Canon 17: One comment criticized as vague and overly broad the language of Canon 17(a)(3), which bars any outside activity that might "bring discredit upon, or cause unfavorable criticism of, the Commission."

We agree with the comment and have deleted subsection (a)(3). The stricken language is similar to that of the old Canon 22 ("immoral or notoriously disgraceful conduct"), which has been completely revised in the new Canon 23. We believe that new Canon 23 serves the same purpose as subsection (a)(3) and is distinctly better worded. Since subsection (a)(3) is superfluous, we have eliminated it.

Another comment suggested that advance authorization to engage in outside employment or activities should not be required and that, in any event, the particular section chief rather than the Director of Personnel should be the authorizing official.

We disagree and have made no change in proposed Canon 17 or the accompanying guidelines. Advance authorization is clearly required if the agency is to maintain any check on outside activities. In order to assure a uniform policy on outside activities, the Director of Personnel should make the final decision after considering the recommendations of the employee's supervisors.

It was further suggested that our Canons should incorporate an Executive Order provision that prohibits any Presidential appointee from accepting compensation for any consultation, lecture, writing, or appearance that involves subject matter within the responsibility of that appointee's agency or that draws substantially upon data or ideas that have not become part of the body of public information. See 5 CFR 735.203(c).

We have adopted this proposal by adding a new subsection (c) to Canon 17. The provision applies, of course, only to members of the Commission and will simply serve to remind them of the limitation in question.

Canon 18: For the reasons discussed under Canon 15, we have amended Canon 18 by extending the disqualification for a period of six months following the termination of employment negotiations.

Canon 21: One comment suggested that Canon 21 should be revised to refer specifically to drugs. Although we intended to include drugs under the term "intoxicants" in the Canon as originally proposed, we have reworded Canon 21 in accordance with this suggestion to remove any possible ambiguity.

We emphasize that this canon does not condone the use of *illegal* drugs even if such use does *not* impair an employee's ability to function on the job. Any use of such substances is clearly barred by proposed Canon 23 (now renumbered Canon 22).

Proposed Canon 22: We have eliminated this canon, which dealt with employee indebtedness and was opposed by a number of comments as an unwarranted invasion of personal privacy. Although this provision was contained in our previous Canons and based on Civil Service Commission regulations, existing personnel procedures are adequate to deal with any problems posed by employee indebtedness. We see no reason to touch on this matter in the Canons. Accordingly, we have eliminated this canon and renumbered the remaining canons.

Canon 25: We have substantially expanded Appendix II, referred to in Canon 25, to give a more complete description of statutory ethical provisions applicable to all government employees. We believe that the previous descriptions were too brief to give employees useful information regarding the statutory provisions.

Because Congress may change these statutory provisions from time to time and the summaries provided are necessarily abbreviated, employees are cautioned not to rely solely on the descriptions in Appendix II but to consult the statutes or seek the advice of the Ethics Counselor to resolve particular questions.

Canon 26: The proposed guidelines explained that an employee's financial statement should include the interests of a spouse, minor child, or any "blood relation" living in the employee's immediate household. The Civil Service Commission's current view is that "blood relation" should include in-laws. In order to remove any ambiguity, we have changed the guideline to refer to "any relative (including in-laws)" residing in the employee's immediate household. This change does not require an employee to report the interests of relatives such as grandparents, siblings, and grandchildren who do not live in the employee's immediate household, because a general reporting requirement with respect to the financial interests of such persons would be too burdensome. It would be unduly onerous to require employees to keep informed of the financial holdings of relatives residing elsewhere. See the discussion under Canon 14, *supra.*

Several comments focused on the positions to be included in Appendix I, which lists those positions whose incumbents must file confidential financial statements. The comments disagreed on which positions are sensitive enough to warrant requiring the incumbents to file a statement. Rather than delay adoption of these Canons while we review which positions should be included, we will address this matter more fully at a later time. Meanwhile, we point out that Canon 26 establishes procedures by which employees may request a review if they believe their positions have been improperly designated as requiring submission of a financial statement.

The proposed Canon and guidelines omitted any reference to employees serving in an "acting" status in the positions listed in Appendix I. We believe that an employee serving in an "acting" status for more than 30 days should file a financial statement, and we have added a provision to that effect to the guidelines.

To simplify changes to the list of positions requiring submission of financial statements, Appendix I contains a prefatory statement that the list is subject to change by the Chairman without FEDERAL REGISTER notice. This will also make it unnecessary to obtain Civil Service Commission approval for routine changes in the list. With respect to changes in position titles, the "Chairman" means the Director of

V 4 4 / 1 5 J A 2 2 7 9 UMI

Personnel under delegation of authority.

We have made no effort in connection with Canon 26 to take account of the new financial disclosure provisions of the Ethics in Government Act of 1978, Pub. L. 95-521. We will make any appropriate changes at the proper time in light of Civil Service Commission guidance.

Canon 27: One comment suggested that the Chief Administrative Law Judge review the financial statements of all ALJ's to avoid potential conflicts of interest in the assignment of cases. This suggestion is based on a recent recommendation by the Comptroller General that the agencies institute such a procedure. We agree with this proposal and, accordingly, have added a new subsection (c) to Cannon 27 incorporating the suggested provision.

Canon 28: Some modification of the proposed canon, which deals with employment disclosure requirements for employee relatives, is appropriate. Specifically, we adopt the approach followed in Canons 14 and 26 and have added "any relatives (including in-laws) residing in the immediate household" to the class of persons subject to the employment disclosure requirements. Including relatives living within the same household should encompass those having interests in common and having the opportunity to engage in communications which may result in premature disclosure of agency information. A reporting requirement limited to those within the same household should not cause an undue burden.

Canon 28 imposes a new reporting requirement and takes effect 30 days after publication of the revised Cannons. At that time Commission members and employees must be in compliance with this family employment disclosure provision.

Canon 30: One comment suggested that the guidelines should contain, at least in general terms, an enumeration of the disciplinary or remedial actions that might be taken for specific offenses.

We have not adopted this suggestion. It is impractical to formulate a schedule of offenses and corresponding punishments. Determining appropriate punishments is a delicate matter, requiring the utmost flexibility. Each case must depend on its own facts and circumstances. A "scorecard" approach is simply not appropriate.

Additional Canons of Conduct for Members: In the course of our evaluation of the proposed canons, we have also scrutinized the additional canons that apply to Commission members only. Generally, we believe that they should be adopted as proposed. However, certain modifications of proposed Canon 3(a) are in order.

Several aspects of the proposed canon could cause confusion. Although the second sentence of proposed Canon 3(a) prohibits *ex parte* communications with respect to adjudicatory proceedings, the third sentence states that, in the context of rulemaking, members "have a duty to solicit the views of interested persons." The juxtaposition of these two statements, and the language used, could, contrary to our intention, be read as encouraging "off-the-record" contacts in rulemaking proceedings.

The unintended thrust of this language could conflict with the prohibition against *ex parte* contacts in formal rulemaking (see 5 U.S.C. 557(d)), and the caution required of an agency in informal rulemakings in light of *Home Box Office* v. *FCC*, 567 F. 2d 9 (D.C. Cir. 1977). Consequently, we have deleted the second and third sentences of proposed Canon 3(a). The Commission already has rules governing *ex parte* communications (see 49 CFR Part 1100, App. C), and deletion of these two sentences should eliminate possible confusion and resulting legal problems. Moreover, the policy underlying the third sentence, *i.e.*, the need for members to communicate with those affected by regulation, is addressed in the last sentence of Canon 3(a). Additionally, we have deleted as superfluous the phrase "rulemaking and administrative" in the last sentence.

We have also deleted "unreasonable hospitality" from the last sentence of Canon 3(a). The implication that "reasonable hospitality" is proper could have run counter, in certain circumstances, to the strictures of Canon 15 of the general canons. Since Canon 1 of Subpart C commits the members to observing "the standards of personal conduct in the Canons of Conduct for Members and Employees," Canon 15 governs the acceptance by members of gifts, entertainment, and favors (*i.e.*, hospitality). Therefore, the "unreasonable hospitality" language of Canon 3(a) served no useful purpose and might have been misleading in some instances.

Miscellaneous: The revised Canons and guidelines impose several new reporting or disclosure requirements. As with the new reporting requirement under Canon 28, these will take effect 30 days after publication of the revised Canons. The Ethics Counselor is authorized to extend the effective date for a reasonable time for good cause upon request of an individual employee.

In addition to the changes discussed above, we have made several minor technical changes in the Canons and guidelines that do not require discussion.

Subpart B—Canons of Conduct

Sec.

1000.735-11 General standard of conduct.
1000.735-12 Interpretation and advisory service.
1000.735-13 Prohibited financial interests.
1000.735-14 Disqualifying interests.
1000.735-15 Gifts, entertainment, and favors.
1000.735-16 Disclosure and misuse of information.
1000.735-17 Outside employment and other activity.
1000.735-18 Future employment.
1000.735-19 Ex parte communication.
1000.735-20 Use of Federal property.
1000.735-21 Use of intoxicants.
1000.735-22 Prohibited conduct.
1000.735-23 Intermediaries.
1000.735-24 Gambling, betting, and lotteries.
1000.735-25 Miscellaneous statutory provisions.
1000.735-26 Statements of employment and financial interests.
1000.735-27 Review of statements of employment and financial interests.
1000.735-28 Disclosure of employment of parent, spouse, child, or other relative.
1000.735-29 Specific provisions governing special Government employees.
1000.735-30 Disciplinary and other remedial action.

AUTHORITY: Sec. 6, 36 Stat. 915, as amended, secs. 12, 20, 24 Stat. 383, as amended, 386 as amended, sec. 25, 41 Stat. 498, as amended, sec 220, 49 Stat. 563 as amended, sec. 313, 54 Stat. 944, as amended, sec. 412, 56 Stat. 294, as amended; 45 U.S.C. 29, 49 U.S.C. 12, 20, 26, 320, 913, 1012, 5 CFR Part 735.

Subpart B—Canons of Conduct

§ 1000.735-11 General standard of conduct.

Members and employees of the Commission hold a public trust. To honor that trust, they must maintain unusually high standards of honesty, integrity, and impartiality in all aspects of their official conduct. They shall perform their duties fairly and expeditiously and with a view to carrying out the national transportation policy. They shall be courteous and prompt in serving the public.

§ 1000.735-12 Interpretation and advisory service.

(a) The Commission's General Counsel shall be the Ethics Counselor. The Director of Personnel shall be the principal Deputy Ethics Counselor. The Ethics Counselor, with the approval of the Chairman, shall designate additional Deputy Ethics Counselors as he or she deems necessary or appropriate to carry out his or her responsibilities under these Canons.

(b) On January 1 and June 30 of each year, the Ethics Counselor shall report to the Commission on the operation of the Canons and guidelines with any recommendations the Ethics Counselor deems advisable.

(c) The Director of Personnel shall furnish copies of the Canons of Conduct and guidelines to each new member and new employee upon his or her entrance on duty. The Ethics Counselor shall annually, or as circumstances may warrant, bring to the attention of each member or employee the Canons of Conduct and guidelines. The Ethics Counselor shall inform all members and employees of the names of the Deputy Ethics Counselors and of the procedures for seeking advice concerning the interpretation and application of these Canons.

§ 1000.735-13 Prohibited financial interests.

Members and employees shall not be employed by, or hold any official relation to, or own any securities of, or be in any manner pecuniarily interested in carriers to the extent prohibited by the Interstate Commerce Act. This Canon prohibits (a) any direct interest in any for-hire transportation company whether or not subject to the Interstate Commerce Act, (b) any interest in any company that (1) owns or controls and (2) has more than two percent of its assets invested in or derives more than two percent of its income from a for-hire transportation company whether or not subject to the Interstate Commerce Act, and (c) any interest in any company, mutual fund, or other enterprise which in turn has an interest of more than ten percent of its assets invested in or derives more than ten percent of its income from for-hire transportation companies whether or not subject to the Interstate Commerce Act.

GUIDELINES

The two-percent and ten-percent limitations of (b) and (c) should be interpreted as applying only to direct holdings of a company, mutual fund, or other enterprise, and not to indirect holdings. In determining whether these limitations are applicable, members and employees may rely on the most recent financial statement issued by the enterprise to security holders.

Where a previously-proper holding of a member or employee becomes prohibited because of the enterprise's acquisition of an interest in a for-hire transportation company, the holding must be disposed of within nine months.

The financial interests prohibited by this section are absolute unless a waiver, based on serious financial hardship or remoteness of interest, is obtained from the Ethics Counselor.

§ 1000.735-14 Disqualifying interests.

(a) Members and employees shall not participate in any matter in which they have a substantial pecuniary interest or in which their impartiality might reasonably be questioned.

(b) Once members or employees have been disqualified from participating in any matter, they shall not engage in any discussion or be present during any action relating to the matter.

GUIDELINES

Members and employees should disqualify themselves whenever, in their own judgment, a disqualifying interest exists. If an employee's disqualification to participate in a matter is questioned by someone else and the employee declines to disqualify himself or herself, the final determination as to whether the employee should be disqualified will be made by the Chairman. A member is the sole judge of his or her own disqualification.

A "substantial pecuniary interest" should be interpreted to include any situation in which members or employees, or their parents, spouses, children, or other relatives (including in-laws) residing in the same household, have a direct or indirect financial interest that could be materially affected.

Matters in which members or employees' "impartiality might reasonably be questioned" should be interpreted to include, among other things, any matter in which they or their parents, spouses, children, or other relatives (including in-laws) residing in the same household have a past or present association with a party or a representative of a party affected by the matter which reasonably appears to affect their decision.

§ 1000.735-15 Gifts, entertainment, and favors.

(a) Members and employees of the Commission shall not solicit or accept, directly or indirectly, any gift, gratuity, entertainment, favor, loan, or any other thing of monetary value, from any person, association, or group, that (1) has, or is seeking to obtain, contractual or other business or financial relationships with the Commission; or (2) conducts operations or activities that are subject to regulation by the Commission; or (3) has interests which may be substantially affected by the member's or employee's performance or nonperformance of his or her official duty; or (4) is in any way attempting to affect the member's or employee's official actions. The requirements of this subparagraph do not apply to (i) obvious family or personal relationships when the circumstances make it clear that it is those relationships rather than the business of the persons concerned which are the motivating factors; (ii) acceptance of food or refreshments of nominal value on infrequent occasions in the course of a luncheon, dinner, or other meeting or an inspection tour where a member or employee may properly be in attendance; (iii) acceptance of unsolicited advertising or promotional material of nominal intrinsic value, such as pens, pencils, note pads, calendars, and other similar items; or (iv) acceptance of loans from banks or other financial institutions on customary terms of finance for proper and usual activities of members or employees, such as home mortgage loans.

(b) Members and employees shall avoid any action, whether or not specifically prohibited, which might result in, or create the appearance of: (1) Using public office for private gain; (2) giving preferential treatment to any person; (3) impeding Commission efficiency or economy; (4) losing complete independence or impartiality; (5) making a Commission decision outside official channels; or (6) affecting adversely the confidence of the public in the integrity of the Commission.

(c) Members and employees shall not solicit a contribution from any other member or employee, or make a donation for a gift to a member or employee in a superior official position, or accept gifts from members or employees receiving less salary than themselves. This subparagraph does not prohibit a voluntary gift or donation of nominal value made on a special occasion such as marriage, illness, or retirement.

(d) Members and employees shall not accept a gift, present, decoration, or other thing from a foreign government unless authorized by Congress as provided by the Constitution and in 5 U.S.C. 7342.

GUIDELINES

(1) This canon is designed to prohibit conduct which gives the appearance of or creates an actual conflict of interest for members or employees.

The term "gift, gratuity, entertainment, favor, loan, or any other thing of monetary value" includes such things as invitations to lunches, dinners, parties, or other social events; tickets to cultural or sporting events; free use of facilities such as hotels or other accommodations; free transportation; free use of club privileges or similar facilities.

The persons, associations, and groups from whom gifts and other things of value may not be accepted include, but are not limited to, regulated entities, associations of regulated entities, and individuals or firms whose work involves to a substantial extent the representation of regulated entities.

A policy favoring the prohibitions of this canon rather than stretching the exceptions is intended.

(2) Members and employees considering possible proposals for future employment with persons, associations, or groups described in the canon and these guidelines may accept reimbursement for reasonable travel and subsistence expenses actually incurred during employment negotiations provided they promptly report the relevant details concerning the reimbursement to the Director of Personnel, who shall treat the reports as strictly confidential. At a minimum, the following information should be reported: name and address of prospective employer; dates of any travel and hotel accommodations; statement of amount reimbursed, itemized to show travel, lodging, and meals. These reports will be kept strictly confidential and will not be considered in any personnel actions affecting the persons filing them, unless they show evidence of improper conduct.

V 4 4 / 1 5 J A 2 2 7 9 UMI

While this guideline permits members and employees to accept reimbursement for reasonable expenses related to *bona fide* employment negotiations, it should not under any circumstances be interpreted to permit reimbursement for lavish or excessive personal expenses. Members and employees are also reminded of the requirements of Canon 18 governing withdrawal from participation in matters affecting a prospective employer both during and after negotiations.

(3) The "obvious family or personal relationship" exception permits the exchange of gifts and entertainment where it is clear that the offering is prompted by the personal of family relationship. If the donor's business interests might be the motivating factor behind the gift or entertainment, the member or employee should carefully consider the circumstances surrounding the offer before accepting. The purpose of this exception is to avoid interfering with a member's or employee's personal relationships which unrelated to his or her job.

A gift or entertainment from a relative is normally permissible, unless it appears that it is motivated by the relative's business interests. In the case of personal friends who would otherwise be forbidden donors, members and employees should carefully consider the circumstances surrounding gifts and entertainment and should take reasonable steps to avoid the appearance of a conflict of interest. For example, members and employees are free to meet such personal friends for lunch or dinner but to avoid the appearance of a conflict of interest should pay their own checks. Similarly, members and employees may accept gifts from such personal friends on a special occasion, such as a birthday, wedding, or Christmas, if such gifts are normally exchanged by them. But members and employees should consider whether the donor would have offered the item of value if he or she were in a different business and if the recipient were not a Commission employee. If there is doubt concerning the application of the exception, the gift should not be accepted.

(4) Exception (ii) applies to those events at which members and employees may properly be in attendance.

Members may attend any event which in their own opinion will benefit the Commission and assist in performing their official duties, as long as attendance will not reflect adversely on their impartiality. In deciding whether to attend an event members should carefully consider (1) the identity of the sponsor, (2) the location, (3) the duration, (4) the purpose, and (5) the persons expected to attend.

Employees may properly attend events sponsored by a person or entity subject to Commission regulation if the event can reasonably be classified as a business meeting involving a formal program designed to be informative or educational. Attendance at events of this nature is subject to approval by the head of the Bureau or Office involved. Where an event is primarily social in character, employees may attend only where their attendance is ruled to be proper by the Chairman or the Ethics Counselor. Attendance will be authorized only if it will further the interests of and provide benefits to the Commission, in light of the employee's job duties and level of responsibility.

Attendance at primarily social events sponsored by a broadly-based group with members from many different organizations or companies, such as the ICC Practitioners, and attended by large numbers of persons in addition to Commission members or employees, will normally be authorized, unless the circumstances create an appearance of impropriety. Attendance at events sponsored by one or a few companies, or by other narrowly-based groups, or at events to which only Commission members and employees are invited, will be closely scrutinized; attendance will be authorized only if there is a clear benefit to the Commission and the public interest.

When authorizing an employee to attend an event which is sponsored by a person or entity subject to Commission regulation and which is to last more than one day, the approving official will designate the period of time the employee may be in attendance, based on his or her judgment as to which segments of the event are relevant to the employee's responsibilities. An employee authorized to attend an out-of-town event may remain at the event for a longer period only upon the express approval of his or her Bureau or Office head. An employee's time away from the office beyond that spent attending that portion of an event which is relevant to the employee's responsibilities will be charged to annual leave.

When attending a meeting or other event, members and employees may accept a plaque or similar memento in honor of their appearance and any item of nominal value given to all participants.

(5) The phrase "luncheon, dinner, or other meeting," as used in exception (ii), refers primarily to working sessions that are integrated with a lunch, dinner, or refreshments. For example, an employee in attendance at a day-long seminar that includes a luncheon or dinner as part of the program, or an employee speaking to a luncheon or dinner gathering, may accept the accompanying meal.

The exception also extends to a social hour or dinner event connected with an authorized working session if the social hour or meal is not significantly removed in time from the working session and would not be considered lavish entertainment. For example, an employee scheduled to address a convention meeting or to participate in a panel discussion ordinarily may attend a related social hour sponsored by the host organization on the evening before or the evening after the working meeting, if it is reasonable to expect that attendance may lead to business-related discussions that will further the purposes sought to be served by the employee's participation in the working portion of the conference.

Employees may not otherwise accept invitations to primarily social gatherings sponsored by entities within the class identified in the canon unless authorized to do so by the Chairman or the Ethics Counselor.

The phrase "nominal value," as used in exception (ii), does not lend itself to precise quantification. It may have a different meaning in different situations. In some circumstances, food and refreshments served as part of a working lunch may properly be viewed as of nominal value if the cost is less than ten dollars. The nominal value limitation in that context is designed to preclude lavish meals or entertainment. In connection with an inspection tour, by contrast, only refreshments worth about one dollar or less—the equivalent, for example, of coffee and a doughnut—may ordinarily be viewed as of nominal value. The purpose of the nominal value limitation in the inspection tour context is to allow an employee to accept normal social courtesies but not to accept more substantial food or refreshment that is unwarranted in light of the circumstances.

(6) The "advertising or promotional material" exception is intended to include only inexpensive items that businesses commonly distribute to large numbers of persons. While acceptance of such items is permitted, their display in Commission offices is not encouraged, and discretion should be exercised so that an appearance of impropriety is not created. Candy, fruit, alcoholic beverages, and similar items do not ordinarily fall within this exception.

(7) Although the canon allows members and employees to accept some gifts, it does not *require* acceptance of anything. Members and employees may always decline gifts that the canon permits them to accept.

(8) Subsection (c) does not prohibit the voluntary exchange of inexpensive gifts on occasions such as birthdays or holidays.

§ 1000.735–16 Disclosure and misuse of information.

Members and employees of the Commission shall not use for personal gain or disclose to unauthorized persons confidential information not available to the general public. They shall not disclose or release official information prior to the time authorized for its release.

GUIDELINES

"Confidential information not available to the general public" includes proprietary information submitted to the Commission with the reasonable expectation that it will be treated confidentially. "Official information" includes decisional orders and other agency actions that have not yet been served or otherwise officially released to the public.

This canon prohibits disclosure or release of information in either category to persons not employed by the Commission or employees whose official responsibilities do not require access to the information. The Chairman of the Commission may authorize disclosure or release of confidential information or official information prior to the official release date if he or she determines, in individual cases or in an appropriate class of cases, that such disclosure or release would further important interests of the Commission or the public and would neither significantly compromise the rights of any person nor allow any person improperly to use such information for private financial gain.

§ 1000.735–17 Outside employment and other activity.

(a) Members and employees shall not engage in any outside employment or other outside activity, including teaching, lecturing, writing, consultation, discussion, or appearance, with or without compensation, in circumstances which might (1) reasonably result in a conflict of interest or an apparent conflict of interest between their private interests and their official Government duties and responsibilities, or (2) interfere with the efficient performance of their official duties.

(b) Advance authorization for employees to engage in outside employment or other outside activity described in paragraph (a) of this section shall, in any event, be obtained from the Director of Personnel, via supervising channels. See Manual—Administration 22-781 and 24-311.

(c) Members shall not receive compensation or anything of monetary value for any consultation, lecture, discussion, writing, or appearance the subject matter of which is devoted substantially to the responsibilities, programs, or operations of the Commission, or which draws substantially on official data or ideas that have not become part of the body of public information.

GUIDELINES

Outside employment will not be authorized unless it is confined strictly to nonworking hours and will not interfere with employees' performance of their official duties.

§ 1000.735–18 Future employment.

If a member or employee of the Commission entertains a proposal for future employment by any entity subject to regulation by the Commission or by associations or representatives of such entities, the member or employee must refrain from participating in the decision or disposition of any matter in which the person, association, or representative is known to have a direct or substantial interest both during such negotiations and for a period of six months after termination of negotiations. If employment is accepted, the member or employee must continue to refrain from participating in such matters until he or she severs the connection with the Commission.

§ 1000.735–19 Ex parte communication.

Members and employees of the Commission must conform to the standards adopted by the Commission reprinted in Appendix C of the Rules of Practice of the Commission (Part 1100 of this chapter).

§ 1000.735–20 Use of Federal property.

Members and employees of the Commission shall not directly or indirectly use, or allow the use of, Federal property of any kind, including property leased to the Government, for other than officially approved activities. They also have a positive duty and responsibility to protect and conserve all Federal property, which is entrusted or issued to them.

§ 1000.735.–21 Use of intoxicants.

Members and employees of the Commission shall not use alcohol, drugs, or other intoxicants so as to impede the discharge of their official duties.

§ 1000.735–22 Prohibited conduct.

Members and employees shall not engage in criminal or dishonest conduct, conduct that significantly interferes with their effective performance of official responsibilities, or conduct that is materially incompatible with their official position.

GUIDELINES

This canon is intended to prohibit unlawful or dishonest conduct. It will not be construed to prohibit legitimate private conduct or to prevent members or employees from exercising rights guaranteed by the laws and Constitution of the United States.

§ 1000.735–23 Intermediaries.

Members and employees of the Commission shall not recommend or suggest the use of any nongovernment intermediary (individual, firm, corporation, or other entity) offering any service as consultant, agency representative, attorney, expeditor, or specialist for the purpose of assisting in any negotiations, transactions, or other business with or before this Commission. However, making available general reference lists of non-governmental intermediaries, the use of which is authorized by the Secretary of the Commission, will not be deemed to violate this section.

GUIDELINES

"General reference lists" refers only to such lists of licensed attorneys and registered practitioners as may be compiled and maintained by a state or local bar association, the ICC Practitioners Association, the Motor Carrier Lawyers Association, and similar organizations. Lists compiled by employees on the basis of their own knowledge or experience are not "general reference lists" within the meaning of the Canon.

§ 1000.735–24 Gambling, betting, and lotteries.

Members and employees shall not participate, while on federally owned or leased property or while on duty for the Commission, in any gambling activity including the operation of a gambling device, in conducting a lottery or pool, in a game for money or property, or in selling or purchasing a numbers slip, ticket, chance, voice, share, or any similar item.

§ 1000.735–25 Miscellaneous statutory provisions.

Members and employees shall acquaint themselves with the statutory provisions described in Appendix II to this subpart, which relate to ethical and other conduct as a member and employee of the Commission and the Government.

§ 1000.735–26 Statements of employment and financial interests.

(a) All employees in the positions specified in Appendix I to this subpart shall submit to the Director of Personnel within 30 days after their entrance on duty a confidential statement of employment and financial interests on ICC Form No. 1164. Pursuant to the grievance procedures enumerated in the Manual-Administration 22–725, employees so specified may file and have reviewed a complaint that the positions have been improperly designated as requiring the submission of a statement of employment and financial interests.

(b) Any changes in, or additions to, the information contained in an employee's statement of employment and financial interests shall be reported in a supplementary statement as of June 30 each year. Where no changes or additions occur, a negative report is required.

GUIDELINES

The financial statements required by this section are in addition to, and not in substitution for, or in derogation of, any similar requirement imposed by law, order, or regulation. The submission of financial statements by employees does not permit them or any other person to participate in matters in which participation is prohibited by law, order, or regulation. Notwithstanding the filing of these statement, employees shall at all times avoid acquiring financial interests or taking other actions that would result in a violation of the conflict-of-interest provisions of 18 U.S.C. 208 or these Canons of Conduct.

In the event that any required information, including holdings placed in trust, is not known to the employee but is known to another person, the employee should request that other person to submit the information on his or her behalf and should report the request in Part IV of ICC Form 1164.

The interest, if any, of a spouse, minor child, or any relative (including in-laws) residing in an employee's immediate household shall be reported as his or her interest. If that information is to be supplied by others, this should be indicated in Part IV of ICC Form 1164. Information will not be required if the reporting individual certifies that he or she has no knowledge of the required information, has made every reasonable effort to obtain it, and neither derives nor expects to derive any benefit from the financial interests involved.

Employees are not required to submit any information relating to their connection with, or interest in, a professional society or a charitable, religious, social, fraternal, recreational, public service, civil, or political organization or any similar organization not conducted as a business enterprise or engaged in the ownership or operation of a business enterprise. Educational and other institutions doing research and development or related work involving grants of money from contracts with the Government are deemed "business enterprises" for reporting purposes and should be included.

Any person designated to serve in an "acting" status in one of the positions listed

V 4 4 / 1 5 J A 2 2 7 9 UMI

in Appendix I shall file a financial statement in accordance with this canon within 30 days after serving in an "acting" capacity for 30 days.

§ 1000.735–27 Review of statements of employment and financial interests.

(a) The Director of Personnel shall review employees' annual statements and supplementary statements of employment and financial interests to ascertain conflicts of interest or the appearance of conflicts of interest.

(b) Financial statements shall be kept confidential. The Director of Personnel is responsible for maintaining the statements in confidence and shall not allow access to, or allow information to be disclosed from, these statements except as provided by law or regulation.

(c) The Chief Administrative Law Judge shall review the financial statements of all Administrative Law Judges to avoid conflicts of interest in the assignment of cases. This review shall be in addition to the review by the Director of Personnel.

GUIDELINES

Whenever, following review of the annual and supplementary statements of employment and financial interests, a conflict of interest may exist or appear to exist, the Director of Personnel shall notify the employee concerned, who shall promptly submit an explanation to the Director of Personnel regarding the existence or the appearance of a conflict of interest.

If, after reviewing the employee's explanation and after consulting with the Ethics Counselor, the Director of Personnel concludes that the conflict or appearance of a conflict of interest does exist, the Director of Personnel shall advise the employee of the steps necessary to remedy the situation.

§ 1000.735–28 Disclosure of employment of parent, spouse, child, or other relative.

Each employee whose parent, spouse, or child, or any other relative (including in-laws) residing in the immediate household, is employed by an entity subject to regulation by the Commission shall promptly notify the Director of Personnel of the relative's employment and furnish a detailed statement of the relative's job duties and responsibilities. The employee shall promptly notify the Director of Personnel of any change in the relative's employment, including a change in job duties or responsibilities.

GUIDELINES

The term "employed by an entity subject to regulation by the Commission" includes those who represent and perform a majority of their services for such an entity, as well as those directly employed by such an entity.

Each notification furnished under subparagraph (a) will be reviewed by the Director of Personnel to determine whether the situation presents a conflict of interest or appearance of a conflict of interest.

Whenever, in the opinion of the Director of Personnel, the situation may present a conflict of interest or appearance of a conflict of interest, the Director of Personnel shall notify the employee, who shall promptly submit an explanation regarding the existence or the appearance of a conflict of interest, together with any additional information requested by the Director of Personnel.

If, after reviewing the submitted explanation and information and after consulting with the Ethics Counselor, the Director of Personnel concludes that the situation does present a conflict of interest or an appearance of a conflict of interest, the Director of Personnel shall advise the employee of the necessary steps to remedy the situation. The Director of Personnel may, after consulting with the employee and the employee's Bureau or Office Head, take any personnel action that may be appropriate to eliminate the conflict of interest or appearance of a conflict of interest.

§ 1000.735–29 Specific provisions governing special Government employees.

(a) Special Government employees, as defined in 18 U.S.C. 202, shall not use (1) their Government employment for a purpose that is, or gives the appearance of being, motivated by a desire for private gain for themselves or another person, particularly one with whom they have family, business, or financial ties; (2) any inside information obtained as a result of Government employment for private gain for themselves or another person either by direct action on their part or by counsel, recommendation, or suggestion to another person, particularly one with whom they have family, business, or financial ties; (3) the Government to coerce, or give the appearance of coercing, a person to provide financial benefit to themselves, or another person, particularly one with whom they have family, business, or financial ties.

(b) Special Government employees shall adhere to all Canons of Conduct specified in this subpart except §§ 1000.735-17(b) and 1000.735-26. In lieu thereof, each special Government employee shall submit a statement of his or her employment and financial interest on ICC Form No. 1163 to the Director of Personnel at the time of his or her employment and shall keep the statement current throughout employment by submitting supplementary statements whenever any change in or addition to the information contained in the statement occurs.

§ 1000.735–30 Disciplinary and other remedial action.

Any violation of these Canons of Conduct by an employee shall be cause for appropriate disciplinary or other remedial action as provided in the Manual—Administration 22-751, which may be in addition to any penalty prescribed by law.

APPENDIX I—EMPLOYEES REQUIRED TO SUBMIT PERIODIC DISCLOSURE STATEMENTS (49 CFR 1000.735–26)

The following list of positions required to file financial statements is subject to change by the Chairman without publication in the FEDERAL REGISTER. The Commission's Director of Personnel maintains at all times a current list of such positions.

OFFICE OF THE CHAIRMAN

1. Attorneys (or other professional staff).
2. Confidential Assistant to the Chairman.
3. Writer Editor (Assistant to the Chairman).
4. Public Information Officer.
5. Director, Policy Review Office.
6. Small Business Assistance Officer.
7. Congressional Relations Officer.
8. Deputy Congressional Relations Officer.
9. Chief, Clearance Unit.

COMMISSIONERS' OFFICES

1. Attorneys (or other professional staff).
2. Confidential Assistants to the Commissioners.

OFFICE OF THE MANAGING DIRECTOR

1. Managing Director.
2. Assistant Managing Director.
3. Assistant Managing Director (Operations and Assessment).
4. Assistant to the Managing Director (Field Operations).
5. Attorney-Adviser (General).
6. Director of Personnel.
7. Chief, Budget and Fiscal Office.
8. Assistant Chief, Budget and Fiscal Office.
9. Section Chiefs.
10. Chief, Procurement and Property Management Branch, Section of Administrative Services.

OFFICE OF THE REGIONAL MANAGING DIRECTORS (FIELD)

1. Regional Managing Directors.
2. Assistant Regional Managing Directors.
3. Regional Auditors.
4. Assistant Regional Auditors.
5. Regional Counsels.
6. Assistant Regional Counsels.
7. Regional Operations Directors.
8. Assistant Regional Operations Directors.
9. Chief Special Agents.
10. Officers in Charge, all offices.

OFFICE OF THE SECRETARY

1. Secretary.
2. Assistant Secretary.
3. Chief, Section of Dockets and Service.

OFFICE OF THE GENERAL COUNSEL

1. General Counsel.
2. Deputy General Counsel.
3. Associate General Counsels.

RAIL SERVICES PLANNING OFFICE

1. Director.
2. Section Chiefs.
3. Branch Chiefs.

OFFICE OF HEARINGS

1. Chief Administrative Law Judge.
2. Assistant Chief Administrative Law Judges.
3. Administrative Law Judges.

OFFICE OF PROCEEDINGS

1. Director.
2. Associate Director.
3. Deputy Directors.
4. Assistant Deputy Directors.
5. Chief, Section of Case Control and Information.
6. Chief, Section of Energy and Environment.
7. Branch Chiefs, Section of Finance.
8. Branch Chiefs, Section of Rates.
9. Branch Chiefs, Section of Operating Rights.
10. Chairmen and Members of Employee Boards.

BUREAU OF ACCOUNTS

1. Director.
2. Assistant Director.
3. Assistant to the Director.
4. Section Chiefs.
5. Assistant Section Chiefs.
6. Branch Chiefs.

BUREAU OF ECONOMICS

1. Director.
2. Assistant Director.
3. Assistant to the Director.
4. Section Chiefs.

BUREAU OF INVESTIGATIONS AND ENFORCEMENT

1. Director.
2. Assistant Director.
3. Assistant to the Director.
4. Section Chiefs.

BUREAU OF OPERATIONS

1. Director.
2. Assistant Director.
3. Assistant to the Director.
4. Section Chiefs.
5. Assistant Section Chiefs.
6. Branch Chiefs.
7. Chairmen and Members of Employee Boards.

BUREAU OF TRAFFIC

1. Director.
2. Assistant Director.
3. Section Chiefs.
4. Branch Chiefs.
5. Chairmen and Members of Employee Boards.

APPENDIX II—MISCELLANEOUS STATUTORY PROVISIONS

Members and employees have an affirmative duty to acquaint themselves with all statutory provisions relating to the lawfulness and propriety of their official conduct. The following provisions, most of which apply to federal employees and officials in general, are presented in summary form. The actual text should be consulted for the particulars of prohibited conduct, as well as for specific exceptions and exemptions.

1. *Code of Ethics for Government Service*

All members and employees shall observe those fundamental principles of conduct in public service declared in House Concurrent Resolution 175, Code of Ethics for Government Service, which states in general terms those concepts of high obligations and responsibilities, as well as rights and privileges, attendant upon service for our Government. (72 Stat. B 12).

2. *Compensation to public officials for claims, contracts, etc.* (18 U.S.C. 203)

No public official shall directly or indirectly receive or solicit compensation for services rendered by himself or herself, or another, in relation to any application, contract, claim, controversy, or other matter in which the United States has a direct and substantial interest.

No person shall knowingly directly or indirectly give, promise, or offer any compensation to a public official for services rendered.

Violation of these prohibitions is punishable by a maximum fine of $10,000, or imprisonment for not more than two years, or both; and removal.

3. *Prosecution of claims against and other matters affecting the Government by officers and employees* (18 U.S.C. 205)

No officer or employee of the United States shall act as agent or attorney, or receive any gratuity, for the prosecution or assistance in the prosecution of any claim against the United States.

No officer or employee of the United States shall act as agent or attorney for anyone in connection with any proceeding, application, contract, controversy or other matter in which the United States has a direct and substantial interest.

Violation of these prohibitions is punishable by a maximum fine of $10,000, or imprisonment for not more than two years, or both.

4. *Post employment conflict of interest* (18 U.S.C. 207)

No officer or employee of the United States Government, after his or her employment has ceased, shall knowingly act as attorney, or otherwise represent any other person, or make any written oral communication with the intent to influence, on behalf of any other person, in connection with any judicial or other proceeding, application, contract, claim, controversy, charge, or other matter in which the United States has a direct and substantial interest and in which he or she participated personally and substantially as an officer or employee.

No Government officer or employee, within two years after his or her employment has ceased, shall knowingly act as attorney or otherwise represent any other person in connection with any judicial or other proceeding, application, contract, claim, controversy, charge or other matter in which the United States has a direct and substantial interest and which was actually pending under his or her official responsibility within a period of one year prior to the termination of such responsibility, and in which he or she participated personally and substantially as an officer or employee.

No officer or employee who has been employed in a position for which the basic rate of pay is GS-17 or greater and who has had significant decision-making or supervisory responsibility, within one year after such employment has ceased, shall knowingly act as attorney, or otherwise represent anyone other than the United States, or make any oral or written communication with the intent to influence, to the agency in which he or she served as an officer or employee, in connection with any judicial or other proceeding, application, contract, claim, controversy, charge, or other matter, which is pending before such agency or in which such agency has a direct and substantial interest.

Violation of these prohibitions is punishable by a maximum fine of $10,000, or imprisonment for not more than two years, or both.

No partner of an officer or employee of the United States Government shall act as agent or attorney for anyone other than the United States in connection with any judicial or other proceeding, application, contract, claim, controversy, charge, or other matter in which the United States has a direct and substantial interest, and in which such officer or employee has personally and substantially participated.

Violation of this prohibition is punishable by a maximum fine of $5,000, or imprisonment for not more than one year, or both.

5. *Annual public financial disclosure requirements* (Sections 201–211 of the Ethics in Government Act of 1978)

Each Government officer or employee, whose position is classified at GS-16 or above, shall file with the designated agency official at the agency by which he or she is employed, on or before May 15 of each year, a report containing the following information concerning the preceding calendar year:

(1) The source, type, and amount of earned income from any source other than current employment by the United States Government;

(2) The source, date, and amount of honoraria earned, aggregating $100 or more in value;

(3) The source and type of unearned income received exceeding $100 in amount or value, that amount or value to be listed by category, for example, "not more than $1,000";

(4) The source and a brief description of any gifts of transportation, lodging, food, or entertainment, aggregating $250 or more in value received from any source other than a relative. Items received as personal hospitality or with a fair market value of $35 or less need not be aggregated;

(5) The source and brief description of all other gifts aggregating $100 or more in value. Gifts received from a relative or with a fair market value of $35 or less need not be aggregated;

(6) The source and a brief description of reimbursements received from any source aggregating $250 or more in value;

(7) The identity and category of value of any interest in property held in a business, or for investment or the production of income, which has a fair market value exceeding $1,000;

(8) The identity and category of value of the total liabilities owed to any creditor, other than a relative, which exceeds $10,000 at any time during the preceding year, excluding any mortgage secured by the reporting individual's personal residence, or motor vehicle loan;

(9) The date, category of value, and a brief description of any purchase, sale, or exchange in real property (other than a personal residence), stocks, bonds, and other forms of securities, which exceeds $1,000;

(10) The identity of all positions held with any business enterprise, non-profit organization, labor organization, and educational or other institution. Positions held with any religious, social, or political entity, or of an honorary nature need not be reported;

(11) A description of the date, parties, and terms of any agreement with respect to future employment, leave of absence, continuation of payments by a former employer, and continuing participation in an employee benefit plan;

(12) Required information described in numbers 1 through 9 of this provision shall be included in each report with respect to the spouse and dependent children of the

V 4 4 / 1 5 J A 2 2 7 9 UMI

reporting individual, with certain modifications;

(13) A description of holdings of an income from a trust or other financial arrangement. Holdings of or the source of income from any qualified blind trust, as defined in this section, need not be reported, but the individual shall report the category of the amount of income received;

Any report filed under this provision will be available to the public upon request.

Any individual who knowingly and willfully falsifies or fails to file or report required information shall be liable to a maximum civil penalty of $5,000, and personnel or other action in accordance with applicable law or regulation.

6. *Acts affecting a personal financial interest* (18 U.S.C. 208)

No officer or employee of the United States shall participate personally and substantially, through decision, in relation to any judicial or other proceeding, application, contract, claim, controversy, or other matter in which he or she has a direct or indirect financial interest.

Prior full disclosure of financial interest and written determination that such interest is not substantial may permit such participation.

Violation of this prohibition is punishable by a maximum fine of $10,000, or imprisonment for not more than two years, or both.

7. *Unathorized use of documents relating to claims* (18 U.S.C. 285)

No one, without authority, shall remove or use any document prepared, or intended to be used, to procure the payment of any claim against the United States.

Violation of this prohibitions is punishable by a maximum fine of $5,000, or imprisonment for not more than five years, or both.

8. *Salary of government officials and employees payable only by United States* (18 U.S.C. 209)

No official or employee of the United States shall receive compensation for services as an officer or employee of the Government from any source other than the Government of the United States.

No individual or entity shall pay or supplement the salary of any such officer or employee for services as an officer or employee of the United States.

Violation of these prohibition is punishable by a maximum fine of $5,000, or imprisonment for more than one year, or both.

9. *Bribery of public officials* (18 U.S.C. 201)

No person or entity shall directly or indirectly give, offer, or promise anything of value to a public official with intent to: (a) Influence any official act, (b) influence such public official to commit or allow the commission of any fraud on the United States, or (c) induce such public official to act in violation of his or her lawful duty.

No public official shall directly or indirectly solicit, accept, or agree to receive anything of value for himself or herself, or another, in return for: (a) Being influenced in the performance of any official act, (b) being influenced to commit or allow the commission of any fraud on the United States, or (c) being induced to act in violation of his or her official duty.

Violation of these prohibitions is punishable by a fine of not more than $20,000 or three times the monetary equivalent of the thing of value, whichever is greater, or a maximum of 15 years' imprisonment, or both; and removal.

10. *Acceptance or solicitation to obtain appointive public office* (18 U.S.C. 211)

No one shall solicit or receive money or anything of value in consideration for assistance in obtaining for any person appointive office or employment with the United States.

Violation of this prohibition is punishable by a maximum fine of $1,000, or imprisonment for not more than one year, or both.

11. *Gifts to superior* (5 U.S.C. 7351)

No employee shall (a) solicit a contribution from another employee for a gift to a superior, (b) make a donation as a gift to a superior, or (c) accept a gift from one to whom he or she is an official superior.

Violation of these prohibitions is punishable by a maximum penalty of removal.

12. *Lobbying with appropriated funds* (18 U.S.C. 1913)

No officer or employee of the United States, in the absence of express authorization by Congress, shall use, directly or indirectly, money appropriated by Congress to pay for any personal service, written matter, or other device intended to influence a Member of Congress to favor or oppose any legislation or appropriation by Congress.

Violation of this prohibition is punishable by a maximum fine of $500, or imprisonment for not more than one year, or both; and removal.

13. *Disclosure of confidential information* (18 U.S.C. 1905)

No officer or employee of the United States shall publish, disclose, or make known in any manner or to any extent not authorized by law, any confidential information made known to him or her in the course of his or her employment or official duties.

Violation of this prohibition is punishable by a maximum fine of $1,000, or imprisonment for not more than one year, or both; and removal.

14. *Disclosure of classified information* (18 U.S.C. 798)

No one shall knowingly and willfully communicate or otherwise make available to an unauthorized person, or publish or use in any manner prejudicial to the interest of the United States, any classified information.

Violation of this prohibition is punishable by a maximum fine of $10,000, or imprisonment for not more than ten years, or both.

15. *Excessive and habitual use of intoxicants* (5 U.S.C. 7352)

No individual shall habitually use intoxicating beverages to excess.

Violation of this prohibition is punishable by removal.

16. *Misuse of franking privilege* (18 U.S.C. 1719)

No one shall make use of any official envelope, label, or endorsement authorized by law, to avoid the payment of postage on private letters, packages, or other matters in the mail.

Violation of this prohibition is punishable by a maximum fine of $300.

17. *Interference with Civil Service Examinations* (18 U.S.C. 1917)

No member or employee of the United States Civil Service Commission or an individual in the public service shall willfully and corruptly obstruct an individual in respect of his or her right of examination for competitive service, or falsely grade or report on the examination or proper standing of an individual examined; or make a false representation concerning the examination grade or proper standing of an individual examined; or furnish to an individual any special information for the purpose of improving or harming the prospects of an individual examined, being employed, or promoted.

Violation of these prohibitions is punishable, for each offense, by a maximum fine of $1,000, or imprisonment for not more than one year, or both.

18. *Fraud and false statements* (18 U.S.C. 1001)

No one, concerning any matter within the jurisdiction of the United States, shall knowingly and willfully falsify or conceal a material fact, or make any false, fictitious, or fraudulent statements, or make or use any document knowing such document to contain any false, fictitious, or fraudulent statement.

Violation of these prohibitions is punishable by a maximum fine of $10,000, or imprisonment for not more than five years, or both.

19. *Concealment, mutilation, or destruction of Government documents* (18 U.S.C. 2071)

No one shall willfully and unlawfully conceal, remove, mutilate, falsify, destroy, or intentionally carry away any Government document.

Violation of this prohibition is punishable by a maximum fine of $2,000, or imprisonment for not more than three years, or both. Violation by one having custody of such document shall result in the custodian's removal from office.

20. *Forgery of Government transportation requests* (18 U.S.C. 508)

No one shall forge or counterfeit, knowingly alter, use, or sell any form or request provided by the Government for transportation by common carrier.

Violation of this prohibition is punishable by a maximum fine of $5,000, or imprisonment for not more than ten years, or both.

21. *Misuse of Government vehicles* (31 U.S.C. 638a(c))

No officer or employee of the Government shall willfully use or authorize the use of any Government-owned or leased passenger motor vehicle or aircraft for other than official purposes.

Violation of this prohibition is punishable by a maximum penalty of removal.

22. *Accounting for public money* (18 U.S.C. 643)

An officer or employee of the United States who receives public money which he or she is not authorized to retain as salary must render an account of such money as provided by law.

An officer or employee who fails to render such an account is guilty of embezzlement, and shall be fined a sum equal to the amount of money embezzled, or imprisoned for not more than ten years, or both.

23. *Theft of Government money or property* (18 U.S.C. 641)

No one shall embezzle, steal, or knowingly convert, or, without authority, sell or convey documents, money, or things of value of the United States.

No one shall receive or retain such items knowing them to be embezzled, stolen or converted.

Violation of these prohibitions is punishable by a maximum fine of $10,000, and imprisonment for not more than ten years, or both.

24. *Wrongful conversion of property of another* (18 U.S.C. 654)

No officer or employee of the United States shall embezzle or wrongfully convert to his or her own use money or property of another which comes into his or her control in the execution of such employment of office.

Violation of this prohibition is punishable by a fine of not more than the value of the money or property thus converted, or imprisonment for not more than ten years, or both.

25. *Restrictions on political activities* (5 U.S.C. 7321-7327)

No federal employee shall use his or her official authority or influence for the purpose of interfering with or affecting the result of an election; or shall take an active part in political management, or in political campaigns (5 U.S.C. 7324).

Violation of these prohibitions is punishable by a maximum penalty of removal.

26. *Solicitation of political contributions* (18 U.S.C. 602)

No public official or employee of the United States shall directly or indirectly solicit or receive contributions for any political purpose whatever from any other such officer or employee.

Violation of this prohibition is punishable by a maximum fine of $5,000, or imprisonment for not more than three years, or both.

27. *Solicitation of political contributions in federal buildings* (18 U.S.C. 603)

No one shall solicit or receive any contribution of money or other thing of value for any political purpose in any Federal building.

Violation of this prohibition is punishable by a maximum fine of $5,000, or imprisonment for not more than three years, or both.

28. *Pecuniary interest in regulated carrier* (49 U.S.C. 10301(d), 10306(e), and 10344(e))

No Commission member, administrative law judge, employee board member, or joint board member may have a pecuniary interest in, hold an official relation to, or own stock in or bonds of, a carrier providing transportation by any mode.

29. *Members' outside employment* (49 U.S.C. 10301(d))

A member of the Commission may not engage in another business, vocation, or employment.

30. *Officers and employees acting as agents of foreign principals* (18 U.S.C. 219)

No officer or employee of the United States shall act as an agent of a foreign principal registered under the Foreign Agents Registration Act of 1938, as amended. (22 U.S.C. 611 *et seq.*)

Violation of this prohibition is punishable by a maximum fine of $10,000, or imprisonment for not more than two years, or both.

31. *Striking against the Government* (15 U.S.C. 7311(3), 18 U.S.C. 1918(3))

An individual shall not accept or hold a position in the Government of the United States, if he or she participates in a strike against the Government.

Violation of this prohibition is punishable by a maximum fine of $1,000, or imprisonment for not more than one year and a day, or both.

Subpart C—Additional Canons of Conduct for Members

Sec.
1000.736-1 General policy.
1000.736-2 Maintaining independence.
1000.736-3 Official duties.
1000.736-4 Extra-official activities.
1000.736-5 Qualification to participate.

AUTHORITY: Sec. 6, 36 Stat. 915, as amended, secs. 12, 20, 24 Stat. 383, as amended, 386, as amended, sec. 25, 41 Stat. 498, as amended, sec. 220, 49 Stat. 563 as amended, sec. 313, 54 Stat. 944, as amended, sec. 412, 56 Stat. 294, as amended; 45 U.S.C. 29, 49 U.S.C. 12, 20, 26, 320, 913, 1012, 5 CFR Part 735.

§ 1000.736-1 General policy.

Members of the Interstate Commerce Commission should participate in establishing, maintaining, and enforcing, and should themselves observe, high standards of conduct so that the integrity and independence of the Commission may be preserved. The provisions of these canons should be construed and applied to further that objective. Members of the Commission shall observe the standards of personal conduct in the Canons of Conduct for Members and Employees as set forth in Subpart B of this part.

§ 1000.736-2 Maintaining independence.

Members should not allow their family, social, or other relationships to influence their official conduct or judgment. They should not lend the prestige of their office to advance the private interests of others; nor should members convey the impression that they are subject to influence by others. Members should not change or tailor their views to appease any particular interest or group.

§ 1000.736-3 Official duties.

(a) Official duties, both administative and adjudicative, should be carried out diligently and impartially. Insofar as it is consistent with the dignity and responsibilities of their official positions, members should maintain contact with the persons outside the agency who may be affected by their functions.

(b) Members have the obligation to urge the Congress, whenever necessary, to amend, modify, or repeal particular parts of the statutes they administer.

(c) The members' decision to investigate should be based only on the facts known to them and the reasonable inferences from those facts. A member should never suggest, vote for, or participate in an investigation for reasons of animus, prejudice, or vindictiveness.

(d) Members have the obligation to adopt rules necessary to carry out the national transportation policy. The rules should not be burdensome; on the other hand, necessary rules should be adopted, modified, or repealed as changing requirements demand.

§ 1000.736-4 Extra-official activities.

Members must not engage in any business, employment, or vocation while in office, nor may they use the power of their offices or the influence of their names to promote the business interests of others. Members may participate in nonbusiness endeavors, such as civic and charitable activities, that do not reflect adversely upon their impartiality or interfere with the performance of official duties.

§ 1000.736-5 Qualification to participate.

Members should disqualify themselves in any matter in which their impartiality might reasonably be questioned. They should weigh carefully the question of their qualification in any matter where they or their relatives or former business associates or clients are involved. If an interested person suggests that a member should disqualify himself or herself in a particular matter because of bias or prejudice, the member shall be the sole judge of his or her own qualification.

* * * * * *

Decided December 20, 1978.

By the Commission, Chairman O'Neal, Vice Chairman Christian, Commissioners Brown, Stafford, Gresham, and Clapp.

H. G. HOMME, Jr.,
Secretary.

NONDISCRIMINATION ON THE BASIS OF HANDICAP IN PROGRAMS AND ACTIVITIES RECEIVING OR BENEFITING FROM FEDERAL FINANCIAL ASSISTANCE

V 4 4 / 1 5 J A 2 2 7 9 UMI

[3410-01-M]

DEPARTMENT OF AGRICULTURE

Office of the Secretary

[7 CFR Part 15b]

PROGRAMS AND ACTIVITIES RECEIVING OR BENEFITING FROM FEDERAL FINANCIAL ASSISTANCE

Nondiscrimination on the Basis of Handicap

AGENCY: Department of Agriculture.

ACTION: Proposed rules.

SUMMARY: The Department of Agriculture proposes to add a new Part 15b to its rules and regulations contained in Title 7 of the Code of Federal Regulations. These rules are intended to implement section 504 of the Rehabilitation Act of 1973, 29 U.S.C. 706, which provides that "no otherwise qualified individual • • • shall, solely by reason of his handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program receiving Federal financial assistance". The regulation defines and forbids acts of discrimination against qualified handicapped persons in employment and in operation of programs and activities receiving assistance from the Department. This rule is issued in accordance with the procedures, standards and guidelines, 45 CFR Part 85, effective January 13, 1978, implementing Executive Order 11914, "Nondiscrimination with Respect to the Handicapped in Federally Assisted Programs".

DATES: Comments must be received on or before April 23, 1979.

ADDRESS: Comments must be submitted to James Frazier, Director, Office of Equal Opportunity, U.S. Department of Agriculture, Washington, D.C. 20250, Phone: 202-447-4256.

Comments are available for public inspection in the Office of Equal Opportunity, Civil Rights Division, Room 4119, Auditor's Building, 201 14th Street, SW., Washington, D.C. 20250, Monday-Friday, 8:30 a.m. to 5:00 p.m.

FOR FURTHER INFORMATION CONTACT:

William C. Payne, Jr., Civil Rights Division, Office of Equal Opportunity, Washington, D.C. 20250, Phone: 202-447-7328 (Teletypewriter available).

SUPPLEMENTARY INFORMATION: Section 504 of the Rehabilitation Act of 1973 provides that no qualified handicapped person shall, on the basis of handicap, be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program or activity receiving Federal financial assistance. On April 26, 1976, the president issued Executive Order 11914, under which the Department of Health, Education, and Welfare is required to coordinated governmentwide enforcement of section 504. As lead agency, HEW published its final regulation implementing section 504 on May 4, 1977. See 45 CFR Part 84. In accordance with Executive Order 11914, HEW issued on January 13, 1978, final standards, procedures and guidelines to be followed by each Federal agency in issuing section 504 regulations. See 45 CFR Part 85.

The rules proposed by this Department are intended to be consistent with the HEW standards and guidelines. Because the Department has many common recipients of Federal financial assistance with HEW, the proposed rules incorporate most of the HEW section 504 regulations.

The differences between the HEW regulations and the proposed rules are minor. The definition for "Secretary" and "Department" have been changed to reflect the Department of Agriculture. Throughout the rules, "Secretary" has been substituted for "Director".

The definition of "section 504," § 15b.3(c), the definition of "handicapped person," § 15d.3(k), and the sections on discrimination prohibited, § 15b.4(b)(iii), § 15b.4(b) and § 15b.4(e) reflect wording found in the more recent HEW guidelines. See 45 CFR Part 85.

Section 15b.6(C)(2) requires all recipients to keep records of their self-evaluation. the HEW regulations, on the other hand, require only recipients with 15 or more employees to keep such records. Since all recipients are required to complete a self-evaluation, we believe that all recipients should be required to maintain such records.

Consistent with the HEW regulations, on the other hand, require only recipients with 15 or more employees to keep such records. Since all recipients are required to complete a self-evaluation, we believe that all recipients should be required to maintain such records.

Consistent with the HEW guidelines, § 15b.8 impose a notification requirement on all recipients, § 15b.10 requires coordination of sections 502 and 503 of the Act and § 15b.11 requires interagency cooperation.

Except to the extent noted above, these regulations follow the language in HEW's regulations at 45 CFR Part 84.

A draft impact analysis which addresses regulatory options for implementing Section 504 of the Rehabilitation Act of 1973 is available upon request.

Copies of the regulations are also available on tape or in braille and will be provided upon request.

In consideration of the above, it is proposed that Part 15b be added to Title 7 of the Code of Federal Regulations to read as set forth below.

Dated: January 16, 1979.

BOB BERGLAND
Secretary.

PART 15b—NONDISCRIMINATION ON THE BASIS OF HANDICAP IN PROGRAMS AND ACTIVITIES RECEIVING OR BENEFITING FROM FEDERAL FINANCIAL ASSISTANCE

Subpart A—General Provisions

Sec.
15b.1 Purpose.
15b.2 Application.
15b.3 Definitions.
15b.4 Discrimination prohibited.
15b.5 Assurances required.
15b.6 Remedial action, voluntary action, and self-evaluation.
15b.7 Designation of responsible employees and adoption of grievance procedures.
15b.8 Notice.
15b.9 Administrative requirements for small recipients.
15b.10 Coordination with sections 502 and 503.
15b.11 Interagency cooperation.
15b.12 Effect of State or local law or other requirements and effect of employment opportunities.

Subpart B—Employment Practices

15b.13 Discrimination prohibited.
15b.14 Reasonable accomodation.
15b.15 Employment criteria.
15b.16 Preemployment inquiries.

Subpart C—Program Accessibility

15b.17 Discrimination prohibited.
15b.18 Existing facilities.
15b.19 New construction.

Subpart D—Preschool, Elementary, and Secondary Education

15b.20 Application of this subpart.
15b.21 Location and notification.
15b.22 Free appropriate public education.
15b.23 Educational setting.
15b.24 Evaluation and placement.
15b.25 Procedural safeguards.
15b.26 Nonacademic services.
15b.27 Preschool and adult education programs.
15b.28 Private education programs.

Subpart E—Postsecondary Education

15b.29 Application of this subpart.
15b.30 Admissions and recruitment.
15b.31 Treatment of students; general.
15b.32 Academic adjustments.
15b.33 Housing.
15b.34 Financial and employment assistance to students.
15b.35 Nonacademic services.

Subpart F—Health, Welfare, Social and Other Services

15b.36 Application of this subpart.
15b.37 Health, welfare, social and other services.
15b.38 Drug and alcohol addicts.
15b.39 Education of institutionalized persons.

Subpart G—Procedures

15b.40 Procedures.

Subpart A—General Provisions

§ 15b.1 Purpose.

The purpose of this part is to effectuate section 504 of the Rehabilitation Act of 1973, which is designed to eliminate discrimination on the basis of handicap in any program or activity receiving Federal financial assistance.

§ 15b.2 Application.

This part applies to each recipient of Federal financial assistance from the Department of Agriculture and to each program or activity that receives or benefits from such assistance.

§ 15b.3 Definitions.

As used in this part, the term:

(a) "Executive Order" means Executive Order 11914, titled "Nondiscrimination with Respect to the Handicapped in Federally Assisted Programs," issued on April 28, 1976.

(b) "The Act" means the Rehabilitation Act of 1973, Pub. L. 93-112, as amended by the Rehabilitation Act Amendments of 1974, Pub. L. 93-516, 29 U.S.C. 794.

(c) "Section 504" means section 504 of the Rehabilitation Act of 1973, Pub. L. 93-112, as amended by the Rehabilitation Act Amendments of 1974, Pub. L. 93-516, 29 U.S.C. 794.

(d) "Education of the Handicapped Act" means that statute as amended by the Education for all Handicapped Children Act of 1975, Pub. L. 94-142, 20 U.S.C. 1401 et seq.

(e) "Department" means the Department of Agriculture and includes each of its operating agencies and other organizational units.

(f) "Secretary" means the Secretary of Agriculture or any officer or employee of the Department to whom the Secretary has heretofore delegated, or to whom the Secretary may hereafter delegate, the authority to act under the regulations in this part.

(g) "Recipient" means any State or its political subdivision, any instrumentality of a State or its political subdivision, any public or private agency, institution, organization, or other entity, or any person to which Federal financial assistance is extended directly or through another recipient, including any successor, assignee, or transferee of a recipient, but excluding the ultimate beneficiary of the assistance.

(h) "Applicant for assistance" means one who submits an application, request, or plan required to be approved by a Department offical or by a recipient as a condition of becoming a recipient.

(i) "Federal financial assistance" means any grant, loan, contract (other than a procurement contract or a contract of insurance or guaranty), cooperative agreement, or any other arrangement by which the Department provides or otherwise makes available assistance in the form of:

(1) Funds;

(2) Services of Federal personnel; or

(3) Real and personal property or any interest in or use of such property, including:

(i) Transfers or leases of such property for less than fair market value or for reduced consideration; and

(ii) Proceeds from a subsequent transfer or lease of such property if the Federal share of its fair market value is not returned to the Federal Government.

(j) "Facility" means all or any portion of buildings, structures, equipment, roads, walks, parking lots, or other real or personal property or interest in such property.

(k) "Handicapped Person." (1) "Handicapped persons" means any person who (i) has a physical or mental impairment which substantially limits one or more major life activities, (ii) has a record of such an impairment, or (iii) is regarded as having such an impairment.

(2) As used in paragraph (k)(1) of this section, the phrase:

(i) "Physical or mental impairment" means (A) any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: Neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive, digestive; genitourinary; hemic and lymphatic; skin; and endocrine; or (B) any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities. The term "physical or mental impairment" includes, but is not limited to, such diseases and conditions as orthopedic, visual, speech, and hearing impairments, cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, mental retardation, emotional illness and drug addiction and alcoholism.

(ii) "Major life activities" means functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning and working.

(iii) "Has a record of such an impairment" means has a history of, or has been misclassified as having, a mental or physical impairment that substantially limits one or more major life activities.

(iv) "Is regarded as having an impairment" means (A) has a physical or mental impairment that does not substantially limit major life activities but that is treated by a recipient as constituting such a limitation; (B) has a physical or mental impairment that substantially limits major life activities only as a result of the attitudes of others toward such impairments, or (C) has none of the impairments defined in paragraph (k)(2)(i) of this section but is treated by a recipient as having such an impairment.

(l) "Qualified handicapped person" means:

(1) With respect to employment, a handicapped person who, with reasonable accommodation, can perform the essential functions of the job in question;

(2) With respect to public preschool, elementary, secondary, or adult educational services, a handicapped person, (i) of an age during which nonhandicapped persons are provided such services, (ii) of any age during which it is mandatory under State law to provide such services to handicapped persons, or (iii) to whom a State is required to provide a free appropriate public education under section 612 of the Education of the Handicapped Act; and

(3) With respect to postsecondary and vocational education services, a handicapped person who meets the academic and technical standard requisite to admission or participation in the recipient's education program or activity;

(4) With respect to other services, a handicapped person who meets the essential eligibility requirements for the recipient of such services.

(m) "Handicap" means any condition or characteristic that renders a person a handicapped person as defined in paragraph (k) of this section.

§ 15b.4 Discrimination prohibited.

(a) General. No qualified handicapped person shall, on the basis of handicap, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity which receives or benefits from Federal financial assistance.

(b) Discriminatory actions prohibited. (1) A recipient, in providing any aid, benefit, or service, may not, directly or through contractual, licensing, or other arrangements, on the basis of handicap:

(i) Deny a qualified handicapped person the opportunity to participate in or benefit from the aid, benefit, or service;

(ii) Afford a qualified handicapped person an opportunity to participate in or benefit from the aid, benefit, or service that is not equal to that afforded others;

(iii) Provides a qualified handicapped person with an aid, benefit, or service that is not as effective in affording equal opportunity to obtain

V 4 4 / 1 5 J A 2 2 7 9 UMI

the same result, to gain the same benefit, or to reach the same level of achievement as that provided to others;

(iv) Provide different or separate aid, benefits, or services to handicapped persons or to any class of handicapped person unless such action is necessary to provide qualified handicapped persons with aid, benefits, or services that are as effective as those provided to others;

(v) Aid or perpetuate discrimination against a qualified handicapped person by providing significant assistance to an agency, organization, or person that discriminates on the basis of handicap in providing any aid, benefit, or service to beneficiaries of the recipients program;

(vi) Deny a qualified handicapped person the opportunity to participate as a member of planning or advisory boards; or

(vii) Otherwise limit a qualified handicapped person in the enjoyment of any right, privilege, advantage, or opportunity enjoyed by others receiving an aid, benefit, or service.

(2) For purposes of this part, aids, benefits, and services, to be equally effective, are not required to produce the identical result or level of achievement for handicapped and nonhandicapped persons, but must afford handicapped persons equal opportunity to obtain the same result, to gain the same benefit, or to reach the same level of achievement, in the most integrated setting appropriate to the person's needs.

(3) Despite the existence of separate or different programs or activities provided in accordance with this part, a recipient may not deny a qualified handicapped person the opportunity to participate in such programs or activities that are not separate or different.

(4) A recipient may not, directly or through contractual or other arrangements, utilize criteria or methods of administration (i) that have the effect of subjecting qualified handicapped persons to discrimination on the basis of handicap, (ii) that have the purpose or effect of defeating or substantially impairing accomplishment of the objectives of the recipient's program with respect to handicapped persons, or (iii) that perpetuate the discrimination of another recipient if both recipients are subject to common administrative control or are agencies of the same State.

(5) In determining the site or location of a facility, an applicant for assistance or a recipient may not make selections (i) that have the effect of excluding handicapped persons from, denying them the benefits of, or otherwise subjecting them to discrimination under any program or activity that receives or benefits from Federal financial assistance or (ii) that have the purpose or effect of defeating or substantially impairing the accomplishment of the objectives of the program or activity with respect to handicapped persons.

(6) As used in this section, the aid, benefit, or service provided under a program or activity receiving or benefiting from Federal financial assistance includes any aid, benefit, or service provided in or through a facility that has been constructed, expanded, altered, leased or rented, or otherwise acquired, in whole or in part, with Federal financial assistance.

(c) Programs limited by Federal law. The exclusion of nonhandicapped persons from the benefits of a program limited by Federal statute or executive order to handicapped persons or the exclusion of a specific class of handicapped persons from a program limited by Federal statute or executive order to a different class of handicapped persons is not prohibited by this part.

(d) Recipients shall administer programs and activities in the most integrated setting appropriate to the needs of qualified handicapped persons.

(e) Recipients shall take appropriate steps to ensure communications with their applicants, employees, and beneficiaries are available to persons with impaired vision and hearing.

§ 15b.5 Assurances required.

(a) *Assurances.* An applicant for Federal financial assistance for a program or activity to which this part applies shall submit an assurance, on a form specified by the Secretary, that the program will be operated in compliance with this part. An applicant may incorporate these assurances by reference in subsequent applications to the Department.

(b) *Duration of obligation.* (1) In the case of Federal financial assistance extended in the form of real property or to provide real property or structures on the property, the assurance will obligate the recipient or, in the case of a subsequent transfer, the transferee, for the period during which the real property or structures are used for the purpose for which Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits.

(2) In the case of Federal financial assistance extended to provide personal property, the assurance will obligate the recipient for the period during which it retains ownership or possession of the property.

(3) In all other cases, the assurance will obligate the recipient for the period during which Federal financial assistance is extended.

(c) *Covenants.* (1) Where Federal financial assistance is provided in the form of real property or interest in the property from the Department, the instrument effecting or recording this transfer shall contain a covenant running with the land to assure nondiscrimination for the period during which the real property is used for purpose for which the Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits.

(2) Where no transfer of property is involved but property is purchased or improved with Federal financial assistance, the recipient shall agree to include the covenant described in paragraph (b)(2) of this section in the instrument effecting or recording any subsequent transfer of the property.

(3) Where Federal financial assistance is provided in the form of real property or interest in the property from the Department, the covenant shall also include a condition coupled with a right to be reserved by the Department to revert title to the property in the event of a breach of the covenant. If a transferee of real property proposes to mortgage or otherwise encumber the real property as security for financing construction of new, or improvement of existing, facilities on the property for the purposes for which the property was transferred, the Secretary may, upon request of the transferee and if necessary to accomplish such financing and upon such conditions as the Secretary deems appropriate, agree to forebear the exercise of such right to revert title for so long as the lien of such mortgage or other encumbrance remains effective.

§ 15b.6 Remedial action, voluntary action, and self-evaluation.

(a) *Remedial action.* (1) If the Secretary finds that a recipient has discriminated against persons on the basis of handicap in violation of section 504 of this part, the recipient shall take such remedial action as the Secretary deems necessary to overcome the effects of the discrimination.

(2) Where a recipient is found to have discriminated against persons on the basis of handicap in violation of section 504 or this part and where another recipient exercises control over the recipient that has discriminated, the Secretary, where appropriate, may require either or both recipients to take remedial action.

(3) The Secretary may, where necessary to overcome the effects of discrimination in violation of section 504 or this part, require a recipient to take remedial action (i) with respect to handicapped persons who are no longer participants in the recipient's program but who were participants in the program when such discrimination occurred or (ii) with respect to handicapped persons who would have been participants in the program had the discrimination not occurred.

(b) *Voluntary action.* A recipient may take steps, in addition to any action that is required by this part, to overcome the effects of conditions that resulted in limited participation in the recipient's program or activity by qualified handicapped persons.

(c) *Self-evaluation.* (1) A recipient shall, within one year of the effective date of this part:

(i) Evaluate, with the assistance of interested persons, including handicapped or organizations representing handicapped persons, its current policies and practices and the effects thereof that do not or may not meet the requirements of this part;

(ii) Modify, after consultation with interested persons, including handicapped persons or organizations representing handicapped persons, any policies and practices that do not meet the requirements of this part; and

(iii) Take, after consultation with interested persons, including handicapped persons or organizations representing handicapped persons, appropriate remedial steps to eliminate the effects of any discrimination that resulted from adherence to these policies and practices.

(2) A recipient shall, for at least three years following completion of the evaluation required under paragraph (c)(1) of this section, maintain on file, make available for public inspection, and provide to the Secretary upon request: (i) A list of the interested persons consulted, (ii) a description of areas examined and any problems identified, and (iii) a description of any modifications made and of any remedial steps taken.

§ 15b.7 Designation of responsible employee and adoption of grievance procedures.

(a) *Designation of responsible employee.* A recipient that employs fifteen or more persons shall designate at least one person to coordinate its efforts to comply with this part.

(b) *Adoption of grievance procedures.* A recipient that employs fifteen or more persons shall adopt grievance procedures that incorporate appropriate due process for the prompt and equitable resolution of complaints alleging any action prohibited by this part. Such procedures need not be established with respect to complaints from applicants for employment or from applicants for admission to postsecondary educational institutions.

§ 15b.8 Notice.

(a) A recipient shall take appropriate initial and continuing steps to notify participants, beneficiaries, applicants, and employees, including those with impaired vision or hearing, and unions or professional organizations holding collective bargaining or professional agreements with the recipient that it does not discriminate on the basis of handicap in violation of section 504 or this part. The notification shall state, where appropriate, that the recipient does not discriminate in admission or access to, or treatment or employment in, its programs and activities. The notification shall also include an identification of the responsible employee designated pursuant to § 15b.7(a). A recipient shall make the initial notification required by this paragraph within 90 days of the effective date of this part. Methods of initial and continuing notification may include but are not limited to the posting of notices, publication in newspapers and magazines, placement of notices in recipients' publications, and distribution of memoranda or other written communications.

(b) If a recipient publishes or uses recruitment materials or publications containing general information that it makes available to participants, beneficiaries, applicants or employees, it shall include in those materials or publications a statement of the policy described in paragraph (a) of this section. A recipient may meet the requirement of the paragraph either by including appropriate inserts in existing materials and publications or by revising and reprinting the materials and publications.

§ 15b.9 Administrative requirements for small recipients.

The Secretary may require any recipient with fewer than fifteen employees, or any class of such recipients, to comply with § 15b.7, in whole or in part, when the Secretary finds a violation of this part or finds that such compliance will not significantly impair the ability of the recipient or class of recipients to provide benefits or services.

§ 15b.10 Coordination with sections 502 and 503.

(a) Agencies and other organizational units within the Department shall consult with Architectural and Transportation Barriers Compliance Board in developing requirements for the accessibility of new facilities and alterations, as required in § 15b.19, and in enforcing such requirements with respect to facilities that are subject to section 502 of the Rehabilitation Act of 1973, as amended, as well as section 504.

(b) Agencies and other organizational units within the Department shall consult and coordinate with the Department of Labor in enforcing requirements concerning employment discrimination with respect to recipients that are also Federal contractors subject to section 503 of the Rehabilitation Act of 1973, as amended.

§ 15b.11 Interagency cooperation.

(a) Where each of a substantial number of recipients is receiving assistance for similar or related purposes from two or more agencies or where two or more agencies cooperate in administering assistance for a given class of recipients, the agencies shall (1) coordinate compliance with section 504 and (2) designate one of the agencies as the primary agency for section 504 compliance purposes.

(b) Any agency conducting a compliance review or investigating a complaint of an alleged section 504 violation shall notify any other affected agency upon discovery of its jurisdiction and shall inform it of the findings made. Reviews or investigations may be made on a joint basis.

§ 15b.12 Effect of State or local law or other requirements and effect of employment opportunities.

(a) The obligation to comply with this part is not obviated or alleviated by the existence of any State or local law or other requirement that, on the basis of handicap, imposes prohibitions or limits upon the eligibility of qualified handicapped persons to receive services or to practice any occupation or profession.

(b) The obligation to comply with this part is not obviated or alleviated because employment opportunities in any occupation or profession are or may be more limited for handicapped persons than for nonhandicapped persons.

Subpart B—Employment Practices

§ 15b.13 Discrimination prohibited.

(a) General.

(1) No qualified handicapped person shall, on the basis of handicap, be subjected to discrimination in employment under any program or activity receiving Federal financial assistance.

(2) A recipient that receives assistance under the Education of the Handicapped Act shall take positive steps to employ and advance in employment qualified handicapped persons in programs assisted under that Act.

(3) A recipient shall make all decisions concerning employment under any program or activity to which this part applies in a manner which ensures that discrimination on the basis of handicap does not occur and may not limit, segregate, or classify applicants or employees in any way that ad-

V 4 4 / 1 5 J A 2 2 7 9 UMI

versely affects their opportunities or status because of handicap.

(4) A recipient may not participate in a contractual or other relationship that has the effect of subjecting qualified handicapped applicants or employees to discrimination prohibited by this subpart. This includes relationships with employment and referral agencies, with labor unions, with organizations providing or administering fringe benefits to employees of the recipient, and with organizations providing training and apprenticeship programs.

(b) Specific activities. The provisions of this subpart apply to:

(1) Recruitment, advertising, and the processing of applications for employment;

(2) Hiring, upgrading, promotion, award of tenure, demotion, transfer, layoff, termination, right to return from layoff, and rehiring;

(3) Rates of pay or any other form of compensation and changes in compensation;

(4) Job assignments, job classifications, organizational structures, position descriptions, lines of progression, and seniority lists;

(5) Leaves of absence, sick leave, or any other leave;

(6) Fringe benefits available by virtue of employment, whether or not administered by the recipient;

(7) Selection and financial support for training, including apprenticeship, professional meetings, conferences, and other related activities, and selection for leaves of absence to pursue training;

(8) Employer sponsored activities, including social or recreational programs; and

(9) Any other condition, or privilege of employment.

(c) A recipient's obligation to comply with this subpart is not affected by any inconsistent term of any collective bargaining agreement to which it is a party.

§ 15b.14 Reasonable accommodation.

(a) A recipient shall make reasonable accommodation to the known physical or mental limitations of an otherwise qualified handicapped applicant or employee unless the recipient can demonstrate that the accommodation would impose an undue hardship on the operation of its program.

(b) Reasonable accommodation may include: (1) Making facilities used by employees readily accessible to and usable by handicapped persons, and (2) job restructuring, part-time or modified work schedules, acquisition or modification of equipment or devices, the provision of readers or interpreters, and other similar actions.

(c) In determining pursuant to paragraph (a) of this section whether an accommodation would impose an undue hardship on the operation of a recipient's program, factors to be considered include:

(1) The overall size of the recipient's program with respect to number and type of facilities, and size of budget;

(2) The type of the recipient's operation, including the composition and structure of the recipient's workforce; and

(3) The nature and cost of the accommodation needed.

(d) A recipient may not deny any employment opportunity to a qualified handicapped employee or applicant if the basis for the denial is the need to make reasonable accommodation to the physcial or mental limitations of the employee or applicant.

§ 15b.15 Employment criteria.

(a) A recipient may not make use of any employment test or other selection criterion that screens out or tends to screen out handicapped persons or any class of handicapped persons unless:

(1) The test score or other selection criterion, as used by the recipient, is shown to be job-related for the position in question, and (2) alternative job-related tests or criteria that do not screen out or tend to screen out as many handicapped persons are not shown by the Secretary to be available.

(b) A recipient shall select and administer tests concerning employment so as best to ensure that when administered to an aplicant or employee who has a handicap that impairs sensory, manual, or speaking skills, the test results accurately reflect the applicant's or employee's job skills, aptitude, or whatever other factor the test purports to measure, rather than reflecting the applicant's or employee's impaired sensory, manual, or speaking skills (except where those skills are the factors that the test purports to measure).

§ 15b.16 Preemployment inquiries.

(a) Except as provided in paragraphs (b) and (c) of this section. A recipient may not conduct a preemployment medical examination or may not make preemployment inquiry of an applicant as to whether the applicant is a handicapped person or as to the nature or severity of a handicap. A recipient may, however, make preemployment inquiry into an applicant's ability to person job-related functions.

(b) When a recipient is taking remedial action to correct the effects of past discrimination pursuant to § 15b.6(a), when a recipient is taking voluntary action to overcome the effects of conditions that resulted in limited participation in its federally assisted program or activity pursuant to § 15b.6(b), or when a recipient is taking affirmative action pursuant to section 503 of the Act, the recipient may invite applicants for employment to indicate whether and to what extent they are handicapped *Provided,* That:

(1) The recipient states clearly on any written questionnaire used for this purpose or makes clear orally if no written questionnaire is used that the information requested is intended for use solely in connection with its remedial action obligations or its voluntary or affirmative action efforts; and

(2) The recipient states clearly that the information is being requested on a voluntary basis, that it will be kept confidential as provided in paragraph (d) of this section, that refusal to provide it will not subject the applicant or employee to any adverse treatment, and that it will be used only in accordance with this part.

(c) Nothing in this section shall prohibit a recipient from conditioning an offer of employment on the results of a medical examination conducted prior to the employee's entrance on duty. *Provided,* That: (1) All entering employees are subjected to such an examination regardless of handicap, and (2) the results of such an examination are used only in acccordance with the requirements of this part.

(d) Information obtained in accordance with this section as to the medical condition or history of the applicant shall be collected and maintained on separate forms that shall be accorded confidentiality as medical records except that:

(1) Supervisors and managers may be informed regarding restrictions on the work or duties of handicapped persons and regarding necessary accommodation;

(2) First aid and safety personnel may be informed, where appropriate, if the condition might require emergency treatment; and

(3) Government officials investigating compliance with the Act shall be provided relevant information upon request.

Subpart C—Program Accessibility

§ 15b.17 Discrimination prohibited.

No qualified handicapped person shall, because a recipient's facilities are inaccessible to or unusable by handicapped persons, be denied the benefits of, be excluded from participation in, or otherwise be subjected to discrimination under any program or activity to which this part applies.

§ 15b.18 Existing facilities.

(a) *Program accessibility.* A recipient shall operate each program or activity to which this part applies so that the program or activity when viewed in its entirety is readily accessible to and usable by handicapped persons. This paragraph does not necessarily require a recipient to make each of its existing facilities or every part of an existing facility accessible to and usable by handicapped persons.

(b) *Methods.* A recipient may comply with the requirement of paragraph (a) of this section through such means as redesign of equipment, reassignment of classes or other services to accessible buildings, assignment of aides to beneficiaries, home visits, delivery of health, welfare, or other social services at alternate accessible sites, alteration of existing facilities and construction of new facilities in conformance with the requirement of § 15b.19, or any other methods that result in making its program or activity accessible to handicapped persons. A recipient is not required to make structural changes in existing facilities where other methods are effective in achieving compliance with paragraph (a) of this section. In choosing among available methods for meeting the requirement of paragraph (a) of this section, a recipient shall give priority to those methods that offer programs and activities to handicapped persons in the most integrated setting appropriate.

(c) *Small health, welfare, or other social service providers.* If a recipient with fewer than fifteen employees that provides health, welfare, or other social services finds, after consultation with a handicapped person seeking its services, that there is no method of complying with paragraph (a) of this section other than making a significant alteration in its existing facilities, the recipient may, as an alternative, refer the handicapped person to other providers of those services that are accessible.

(d) *Time period.* A recipient shall comply with the requirement of paragraph (a) of this section within sixty days of the effective date of this part except that where structural changes in facilities are necessary, such changes shall be made within three years of the effective date of this part, but in any event as expeditiously as possible.

(e) *Transition plan.* In the event that structural changes to facilities are necessary to meet the requirement of paragraph (a) of this section, a recipient shall develop, within six months of the effective date of this part, a transition plan setting forth the steps necessary to complete such changes. The plan shall be developed with the assistance of interested persons, including handicapped persons or organizations representing handicapped persons. A copy of the transition plan shall be made available for public inspection. The plan shall, at a minimum:

(1) Identify physical obstacles in the recipient's facilities that limit the accessibility of its program or activity to handicapped persons;

(2) Describe in detail the methods that will be used to make the facilities accessible;

(3) Specify the schedule for taking the steps necessary to achieve full program accessibility and, if the time period of the transition plan is longer than one year, identify steps that will be taken during each year of the transition period; and

(4) Indicate the person responsible for implementation of the plan.

(f) *Notice.* The recipient shall adopt and implement procedures to ensure that interested persons, including persons with impaired vision or hearing, can obtain information as to the existence and location of services, activities, and facilities that are accessible to and usable by handicapped persons.

§ 15b.19 New construction.

(a) *Design and construction.* Each facility or part of the facility constructed by, on behalf of, or for the use of a recipient shall be designed and constructed in such manner that the facility or part of the facility is readily accessible to and usable by handicapped persons, if the construction was commenced after the effective date of this part.

(b) *Alteration.* Each facility or part of a facility which is altered by, on behalf of, or for the use of a recipient after the effective date of this part in a manner that affects or could affect the usability of the facility or part of the facility shall, to the maximum extent feasible, be altered in such manner that the altered portion of the facility is readily accessible to and usable by handicapped persons.

(c) *American National Standards Institute accessibility standards.* Design, construction, or alteration of facilities in conformance with the "American National Standard Specifications for Making Buildings and Facilities Accessible to, and Usable by, the Physically Handicapped," published by the American National Standards Institute, Inc. (ANSI A117.1–1961)(R1971)),[1] which is incorporated by reference in this part, shall constitute compliance with paragraphs (a) and (b) of this section. Departures from particular requirements of those standards by the use of other methods shall be permitted when it is clearly evident that equivalent access to the facility or part of the facility is thereby provided.

Subpart D—Preschool, Elementary, and Secondary Education

§ 15b.20 Application of this subpart.

This subpart applies to preschool, elementary, secondary, and adult education programs and activities that receive or benefit from Federal financial assistance and to recipients that operate, or that receive or benefit from Federal financial assistance for the operation of, such programs or activities.

§ 15b.21 Location and notification.

A recipient that operates a public elementary or secondary education program shall annually:

(a) Undertake to identify and locate every qualified handicapped person residing in the recipient's jurisdiction who is not receiving a public education; and

(b) Take appropriate steps to notify handicapped persons and their parents or guardians of the recipient's duty under this subpart.

§ 15b.22 Free appropriate public education.

(a) General. A recipient that operates a public elementary or secondary education program shall provide a free appropriate public education to each qualified handicapped person who is in the recipient's jurisdiction, regardless of the nature or severity of the persons's handicap.

(b) Appropriate education. (1) For the purpose of this subpart, the provision of an appropriate education is the provision of regular or special education and related aids and services that (i) are designed to meet individual educational needs of handicapped persons as adequately as the needs of nonhandicapped persons are met and (ii) are based upon adherence to procedures that satisfy the requirements of § 15b.23, § 15b.24, and § 15b.25.

(2) Implementation of an individualized education program developed in accordance with the Education of the Handicapped Act is one means of meeting the standard established in paragraph (b)(1)(i) of this section.

(3) A recipient may place a handicapped person in or refer such person to a program other than the one that it operates as its means of carrying out the requirements of this subpart. If so, the recipient remains responsible for ensuring that the requirements of this subpart are met with respect to any handicapped person so placed or referred.

(c) *Free education*—(1) *General.* For the purpose of this section, the provision of a free education is the provision of educational and related services without cost to handicapped persons or their parents or guardians, except for those fees that are imposed on nonhandicapped persons or their parents or guardians. It may consist either of the provision of free services or, if a recipient places a handicapped person in or refers such person to a program not operated by the recipient as its means of carrying out the re-

[1] Copies obtainable from American National Standards Institute, Inc., 1430 Broadway, New York, New York 10018.

V 4 4 / 1 5 J A 2 2 7 9 UMI

quirements of this subpart, or payment of the costs of the program. Funds available from any public or private agency may be used to meet the requirements of this subpart. Nothing in this section shall be construed to relieve an insurer or similar third party from an otherwise valid obligation to provide or pay for services provided to a handicapped person.

(2) *Transportation.* If a recipient places handicapped persons in or refers such persons to a program not operated by the recipient as its means of carrying out the requirements of this subpart, the recipient shall ensure that adequate transportation to and from the program is provided at no greater cost than would be incurred by the persons or their parents or guardians if the persons were placed in the program operated by the recipient.

(3) *Residential placement.* If placement in a public or private residential program is necessary to provide a free appropriate public education to handicapped persons because of their handicap, the program, including nonmedical care and room and board, shall be provided at no cost to the persons or their parents or guardians.

(4) *Placement of handicapped persons by parents.* If a recipient has made available in conformance with the requirements of this section and § 15b.23, a free appropriate public education to a handicapped person and the person's parents or guardian choose to place the person in a private school, the recipient is not required to pay for the person's education in the private school. Disagreements between a parent or guardian and a recipient regarding whether the recipient has made such a program available or otherwise regarding the question of financial responsibility are subject to the due process procedures of § 15b.25

(d) *Compliance.* A recipient may not exclude any qualified handicapped person from a public elementary or secondary education after the effective date of this part.

§ 15b.23 Educational setting.

(a) *Academic setting.* A recipient to which this subpart applies shall educate, or shall provide for the education of each qualified handicapped person in its jurisdiction with persons who are not handicapped to the maximum extent appropriate to the needs of the handicapped person. A recipient shall place a handicapped person in the regular educational environment operated by the recipient unless it is demonstrated by the recipient that the education of the person in the regular environment with the use of supplementary aids and services cannot be achieved satisfactorily. Whenever a recipient places a person in a setting other than the regular educational environment pursuant to this paragraph, it shall take into account the proximity of the alternate setting to the person's home.

(b) *Nonacademic setting.* In providing or arranging for the provision of nonacademic and extracurricular services and activities, including meals, recess periods, and the services and activities set forth in § 15b.26(a)(2), a recipient shall ensure that handicapped persons participate with nonhandicapped persons in such activities and services to the maximum extent appropriate to the needs of the handicapped person in question.

(c) *Comparable facilities.* If a recipient, in compliance with paragraph (a) of this section, operates a facility that is identifiable as being for handicapped persons, the recipient shall ensure that the facility and the services and activities provided therein are comparable to the other facilities, services, and activities of the recipient.

§ 15b.24 Evaluation and placement.

(a) *Placement evaluation.* A recipient that operates a public elementary or secondary education program shall conduct an evaluation in accordance with the requirements of paragraph (b) of this seciton of any person who, because of handicap, needs or is believed to need special education or related services before taking any action with respect to the initial placement of the person in a regular or special education program and any subsequent significant change in placement.

(b) *Evaluation procedures.* A recipient to which this subpart applies shall establish standards and procedures for the evaluations and placement of persons who, because of handicap, need or are believed to need special education or related services which ensure that:

(1) Tests and other evaluation materials have been validated for the specific purpose for which they are used and are administered by trained personnel in conformance with the instructions provided by their producer;

(2) Tests and other evaluation materials include those tailored to assess specific areas of educational need and not merely those which are designed to provide a single general intelligence quotient; and

(3) Tests are selected and administered so as best to ensure that, when a test is administered to a student with impaired sensory, manual, or speaking skills, the test results accurately reflect the student's aptitude or achievement level or whatever other factor the test purports to measure, rather than reflecting the student's impaired sensory, manual, or speaking skills (except where those skills are the factors that the test purports to measure).

(c) *Placement procedures.* In interpreting evaluation data and in making placement decisions, a recipient shall (1) draw upon information from a variety of sources, including aptitude and achievement tests, teacher recommendations, physical condition, social or cultural background, and adaptive behavior, (2) establish procedures to ensure that information obtained from all such sources is documented and carefully considered, (3) ensure that the placement decision is made by a group of persons, including persons knowledgeable about the child, the meaning of the evaluation data, and the placement options, and (4) ensure that the placement decision is made in conformity with § 15b.23.

(d) *Reevaluation.* A recipient to which this section applies shall establish procedures, in accordance with paragraph (b) of this section, for periodic reevaluation of students who have been provided special education and related services. A reevaluation procedure consistent with the Education for the Handicapped Act is one means of meeting this requirement.

§ 15b.25 Procedural safeguards.

A recipient that operates a public elementary or secondary education program shall establish and implement, with respect to actions regarding the identification, evaluation, or educational placement of persons who, because of handicap, need or are believed to need special instruction or related services, a system of procedural safeguards that includes notice, an opportunity for the parents or guardian of the person to examine relevant records, an impartial hearing with opportunity for participation by the person's parents or guardian and representation by counsel, and a review procedure. Compliance with the procedural safeguards of seciton 615 of the Education of the Handicapped Act is one means of meeting this requirement.

§ 15b.26 Nonacademic services.

(a) *General.* (1) A recipient to which this subpart applies shall provide nonacademic and extracurricular services and activities in such manner as is necessary to afford handicapped students an equal opportunity for participation in such services and activities.

(2) Nonacademic and extracurricular services and activities may include counseling services, physical recreational athletics, transportation, health services, recreational activities, special interest groups or clubs sponsored by the recipient, referrals to agencies which provide assistance to handicapped persons, and employment of students, including both employment by the recipient and assistance in making available outside employment.

(b) *Counseling services.* A recipient to which this subpart applies that provides personal, academic, or vocational counseling, guidance, or placement services to its students shall provide these services without discrimination on the basis of handicap. The recipient shall ensure that qualified handicapped students are not counseled toward more restrictive career objectives than are nonhandicapped students with similar interests and abilities.

(c) *Physical education and athletics.* (1) In providing physical education courses and athletics and similar programs and activities to any of its students, a recipient to which this subpart applies may not discriminate on the basis of handicap. A recipient that offers physical education courses or that operates or sponsors interscholastic, club, or intramural athletics shall provide to qualified handicapped students an equal opportunity for participation in these activities.

(2) A recipient may offer to handicapped students physical education and athletic activities that are separate or different from those offered to nonhandicapped students only if separation of differentiation is consistent with the requirements of § 15b.23 and only if no qualified handicapped student is denied the opportunity to compete for teams or to participate in courses that are not separate of different.

§ 15b.27 Preschool and adult education programs.

A recipient to which this subpart applies that operates a preschool education or day care program or activity or an adult education program or activity may not, on the basis of handicap, exclude qualified handicapped persons from the program or activity and shall take into account the needs of such persons in determining the aid, benefits, or services to be provided under the program or activity.

§ 15b.28 Private education programs.

(a) A recipient that operates a private elementary or secondary education program may not, on the basis of handicap, exclude a qualified handicapped person from such program if the person can, with minor adjustments, be provided an appropriate education, as defined in § 15b.22(b)(1), within the recipient's program.

(b) A recipient to which this section applies may not charge more for the provision of an appropriate education to handicapped persons than to nonhandicapped persons except to the extent that any additional charge is justified by a substantial increase in cost to the recipient.

(c) A recipient to which this section applies that operates special education programs shall operate such programs in accordance with the provisions of § 15b.24 and § 15b.25. Each recipient to which this section applies is subject to the provisions of §§ 15b.23, 15b.26 and 15b.27.

Subpart E—Postsecondary Education

§ 15b.29 Application of this subpart.

This Subpart E applies to postsecondary education programs and activities, including postsecondary vocational education programs and activities, that receive or benefit from Federal financial assistance and to recipients that operate, or that receive or benefit from Federal financial assistance for the operation of, such programs or activities.

§ 15b.30 Admissions and recruitment.

(a) *General.* Qualified handicapped persons may not, on the basis of handicap, be denied admission or be subjected to discrimination in admission or recruitment by a recipient to which this subpart applies.

(b) *Admissions.* In administering its admission policies, a recipient to which this subpart applies:

(1) May not apply limitations upon the number or proportion of handicapped persons who may be admitted;

(2) May not make use of any test or criterion for admission that has a disproportionate, adverse effect on handicapped persons or any class of handicapped persons unless (i) the test or criterion, as used by the recipient, has been validated as a predictor of success in the education program or activity in question and (ii) alternate tests or criteria that have a less disproportionate, adverse effect are not shown by the Secretary to be available;

(3) Shall assure itself that (i) admissions tests are selected and administered so as best to ensure that, when a test is administered to an applicant who has a handicap that impairs sensory, manual, or speaking skills, the test results accurately reflect the applicant's aptitude or achievement level or whatever other factor the test purports to measure, rather than reflecting the applicant's impaired sensory, manual, or speaking skills (except where those skills are the factors that the test purports to measure); (ii) admissions tests that are designed for persons with impaired sensory, manual, or speaking skills are offered as often and in as timely a manner as are other admissions tests; and (iii) admissions tests are administered in facilities that, on the whole, are accessible to handicapped persons; and

(4) Except as provided in paragraph (c) of this section, may not make preadmission inquiry as to whether an applicant for admission is a handicapped person but, after admission, may make inquiries on a confidential basis as to handicaps that may require accommodation.

(c) *Preadmission inquiry exception.* When a recipient is taking remedial action to correct the effects of past discrimination pursuant to § 15b.6(a) or when a recipient is taking voluntary action to overcome the effects of conditions that resulted in limited participation in its federally assisted program or activity pursuant to § 15b.6(b), the recipient may invite applicants for admissions to indicate whether and to what extent they are handicapped; *Provided,* That:

(1) The recipient states clearly on any written questionnaire used for this purpose or makes clear orally if no written questionnaire is used that the information requested is intended for use solely in connection with its remedial action obligations or its voluntary action efforts; and

(2) The recipient states clearly that the information is being requested on a voluntary basis, that it will be kept confidential, that refusal to provide it will not subject the applicant to any adverse treatment, and that it will be used only in accordance with this part.

(d) *Validity studies.* For the purpose of paragraph (c)(2) of this section, a recipient may base prediction equations on first year grades, but shall conduct periodic validity studies against the criterion of overall success in the education program or activity in question in order to monitor the general validity of the test scores.

§ 15b.31 Treatment of students; general.

(a) No qualified handicapped student shall, on the basis of handicap, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any academic, research, occupational training, housing, health, insurance, counseling, financial aid, physical education, athletics, recreation, transportation, other extracurricular, or other postsecondary education program or activity to which this subpart applies.

(b) A recipient to which this subpart applies that considers participation by students in education program or activities not operated wholly by the recipient as part of, or equivalent to, an education program or activity operated by the recipient shall assure itself that the other education program or activity, as a whole, provides an equal opportunity for the participation of qualified handicapped persons.

(c) A recipient to which this subpart applies may not, on the basis of handicap, exclude any qualified handi-

V 4 4 / 1 5 J A 2 2 7 9 UMI

capped student from any course of study, or other part of its education program or activity.

(d) A recipient to which this subpart applies shall operate its programs and activities in the most integrated setting appropriate.

§ 15b.32 Academic adjustments.

(a) *Academic requirements.* A recipient to which this subpart applies shall make such modifications to its academic requirements as are necessary to ensure that such requirements do not discriminate or have the effect of discriminating, on the basis of handicap, against a qualified handicapped applicant or student. Academic requirements that the recipient can demonstrate are essential to the program of instruction being pursued by such student or to any directly related licensing requirement will not be regarded as discriminatory within the meaning of this section. Modifications may include changes in the length of time permitted for the completion of degree requirements, substitution of specific courses required for the completion of degree requirements, and adaptation of the manner in which specific courses are conducted.

(b) *Other rules.* A recipient to which this subpart applies may not impose upon handicapped students other rules, such as the prohibition of tape recorders in classrooms or of dog guides in campus buildings, that have the effect of limiting the participation of handicapped students in the recipient's education program or activity.

(c) *Course examinations.* In its examinations or other procedures for evaluating students' academic achievement in its program, a recipient to which this subpart applies shall provide such methods for evaluating the achievement of students who have a handicap that impairs sensory, manual, or speaking skills as will best ensure that the results of the evaluation represents the student's achievement in the course, rather than reflecting the student's impaired sensory, manual, or speaking skills (except where such skills are the factors that the test purports to measure).

(d) *Auxiliary aids.* (1) A recipient to which this subpart applies shall take such steps as are necessary to ensure that no handicapped student is denied the benefits of, excluded from participation in, or otherwise subjected to discrimination under the education program or activity operated by the recipient because of the absence of educational auxiliary aids for students with impaired sensory, manual, or speaking skills.

(2) Auxiliary aids may include taped texts, interpreters or other effective methods of making orally delivered materials available to students with hearing impairments, readers in libraries for students with visual impairments, classroom equipment adapted by use by students with manual impairments, and other similar services and actions. Recipients need not provide attendants, individually prescribed devices, readers for personal use or study, or other devices or services of a personal nature.

§ 15b.33 Housing.

(a) Housing providing by the recipient. A recipient that provides housing to its nonhandicapped students shall provide comparable, convenient, and accessible housing to handicapped students at the same cost as to others. At the end of the transition period provided for in Subpart C of this part, such housing shall be available in sufficient quantity and variety so that the scope of handicapped students' choice of living accommodation is, as a whole, comparable to that of nonhandicapped students.

(b) *Other housing.* A recipient that assists any agency, organization, or person in making housing available to any of its students shall take such action as may be necessary to assure itself that such housing is, as a whole, made available in a manner that does not result in discrimination on the basis of handicap.

§ 15b.34 Financial and employment assistance to students.

(a) *Provision of financial assistance.* (1) In providing financial assistance of qualified handicapped persons, a recipient to which this subpart applies may not (i), on the basis of handicap, provide less assistance than is provided to nonhandicapped persons, limit eligibility for assistance, or otherwise discriminate or (ii) assist any entity or person that provides assistance to any of the recipient's students in a manner that discriminates against qualified handicapped persons on the basis of handicap.

(2) A recipient may administer or assist in the administration of scholarships, fellowships, or other forms of financial assistance established under wills, trusts, bequests, or similar legal instruments that require awards to be made on the basis of factors that discriminate or have the effect of discriminating on the basis of handicap only if the overall effect of the award of scholarships, fellowships, and other forms of financial assistance is not discriminatory on the basis of handicap.

(b) *Assistance in making available outside employment.* A recipient that assists any agency, organization, or person in providing employment opportunities to any of its students shall assure itself that such employment opportunities, as a whole, are made available in a manner that would not violate Subpart B if they were provided by the recipient.

(c) *Employment of students by recipients.* A recipient that employs any of its students may not do so in a manner that violates Subpart B.

§ 15b.35 Nonacademic services.

(a) *Physical education and athletics.* (1) In providing physical education courses and athletics and similar programs and activities to any of its students, a recipient to which this subpart applies may not discriminate on the basis of handicap. A recipient that offers physical education courses or that operates or sponsors intercollegiate, club, or intramural athletics shall provide to qualified handicapped students an equal opportunity for participation in these activities.

(2) A recipient may offer to handicapped students physical education and athletic activities that are separate or different only if separation or diffferentiation is consistent with the requirements of § 15b.31(d) and only if no qualified handicapped student is denied the opportunity to compete for teams or to participate in courses that are not separate or different.

(b) *Counseling and placement services.* A recipient to which this subpart applies that provides personal, academic, or vocational counseling, guidance, or placement services to its students shall provide these services without discrimination on the basis of handicap. The recipient shall ensure that qualified handicapped students are not counseled toward more restrictive career objectives than are nonhandicapped students with similar interests and abilities. This requirement does not preclude a recipient from providing factual information about licensing and certification requirements that may present obstacles to handicapped persons in their pursuit of particular careers.

(c) *Social organizations.* A recipient that provides significant assistance to fraternities, sororities, or similar organizations shall assure itself that the membership practices of such organizations do not permit discrimination otherwise prohibited by this subpart.

Subpart F—Health, Welfare, Social and Other Services

§ 15b.36 Application of this subpart.

This Subpart F applies to health, welfare, social and other programs and activities that receive or benefit from Federal financial assistance and to recipients that operate, or that receive or benefit from Federal financial assistance for the operation of such programs or activities.

§ 15b.37 Health, Welfare, Social and Other Services.

(a) *General.* In providing health, welfare, social and other services or benefits, a recipient may not, on the basis of handicap:

(1) Deny a qualified handicapped person these benefits or services;

(2) Afford a qualified handicapped person an opportunity to receive benefits or services that is not equal to that offered nonhandicapped persons;

(3) Provide a qualified handicapped person with benefits or services that are not as effective (as defined in § 15b.4(b)) as the benefits or services provided to others;

(4) Provide benefits or services in a manner that limits or has the effect of limiting the participation of qualified handicapped persons; or

(5) Provide different or separate benefits or services to handicapped persons except where necessary to provide qualified handicapped persons with benefits and services that are as effective as those provided to others.

(b) *Notice.* A recipient that provides notice concerning benefits or services or written material concerning waivers of rights or consent to treatment shall take such steps as are necessary to ensure that qualified handicapped persons, including those with impaired sensory or speaking skills, are not denied effective notice because of their handicap.

(c) *Emergency treatment for the hearing impaired.* A recipient hospital that provides health services or benefits shall establish a procedure for effective communication with persons with impaired hearing for the purpose of providing emergency health care.

(d) *Auxiliary aids.* (1) A recipient to which this subpart applies that employs fifteen or more persons shall provide appropriate auxiliary aids to persons with impaired sensory, manual, or speaking skills, where necessary to afford such persons an equal opportunity to benefit from the service in question.

(2) The Secretary may require recipients with fewer than fifteen employees to provide auxiliary aids where the provision of aids would not significantly impair the ability of the recipient to provide its benefits or services.

(3) For the purpose of this paragraph, auxiliary aids may include brailled and taped material, interpreters, and other aids for persons with impaired hearing or vision.

§ 15b.38 Drug and alcohol addicts.

A recipient to which this subpart applies that operates a general hospital or outpatient facility may not discriminate in admission or treatment against a drug or alcohol abuser or alcoholic who is suffering from a medical condition, because of the person's drug or alcohol abuse or alcoholism.

§ 15b.39 Education of institutionalized persons.

A recipient to which this subpart applies and that operates or supervises a program or activity for persons who are institutionalized because of handicap shall ensure that each qualified handicapped person, as defined in § 15b.3(k)(2), in its program, or activity is provided an appropriate education, as defined in § 15b.22(b). Nothing in this section shall be interpreted as altering in any way the obligations of recipients under Subpart D of this part.

Subpart G—Procedures

§ 15b.40 Procedures.

The procedural provisions applicable to Title VI of the Civil Rights Act of 1964 apply to this part. These procedures are found in 7 CFR 15.5—15.11 and 7 CFR 15.60 et seq.

UNIVERSITY COAL RESEARCH LABORATORIES PROGRAM

Proposed Rulemaking and Public Hearing Regarding Policies and Procedures for the University Coal Research Laboratories Program

AGENCY: Department of Energy.

ACTION: Notice of proposed rulemaking and public hearing.

SUMMARY: The Department of Energy proposes to establish the policies and procedures to be followed in the selection and designation of thirteen university coal research laboratories as authorized by Title VIII of Pub. L. 95-87, the Surface Mining Control and Reclamation Act of 1977, as amended by Title VI, Section 604 of Pub. L. 95-617, the Public Utilities Regulatory Policies Act of 1978. The university coal research laboratories are established for the purpose of carrying out advanced research and training related to one or more problems of coal energy resources and conversion. At least one of the coal laboratories so designated must be located within each of the major coal provinces of the United States, including Alaska, but no more than one per state. Ten of the thirteen laboratories authorized must be located in states with abundant coal reserves and all the laboratories must be administered by institutions of higher education with experience and expertise in coal research and with the capacity to establish and operate the coal laboratory. The proposed regulation includes definitions and interpretations of terms included in the authorizing legislation, discussion of proposed eligibility, selection, and evaluation criteria, funding and administrative information necessary for the preparation and submission of proposals for grants for the establishment of university coal research laboratories.

DATES: Comments must be received by March 19, 1979, 5:00 p.m., E.S.T.; The proposed effective date of the regulation would be 30 days after publication of the final regulation. The national hearing shall be held on February 23, 1979, 9:30 a.m., E.S.T., in Room 3000A, Federal Building, 12th and Pensylvania Avenue, N.W. Washington, D.C.

ADDRESSES: Send comments and requests to speak to the University Coal Research Laboratories Program, Office of Field Operations Management, Office of Energy Research, Department of Energy, 400 First Street, N.W., Room 501, Washington, D.C. 20545.

FOR FURTHER INFORMATION CONTACT:

Richard E. Stephens, Director, Division of Institutional Programs, Office of Field Operations Management, Office of Energy Research, Department of Energy, 400 First Street, N.W., Room 501, Washington, D.C. 20545, 202-376-9387 or 376-9188.

SUPPLEMENTARY INFORMATION:

I. Introduction

This regulation proposes to add a new part 320 to Subchapter B, Chapter II of Title 10 of the Code of Federal Regulations.

Title VIII of the Surface Mining Control and Reclamation Act of 1977, Pub. L. 95-87, as amended by Section 604 of the Public Utilities Regulatory Policies Act of 1978, Pub. L. 95-617, (hereafter referred to as the Act) authorizes the Administrator of the Energy Research and Development Administration (ERDA) to designate thirteen institutions of higher education at which university coal research laboratories will be established and operated. Section 301 of the Department of Energy Organization Act, Pub. L. 95-91 transferred to the Secretary of Energy all functions of the Administrator of ERDA with respect to the University Coal Research Laboratories Program.

The Congress in passing Title VIII of Pub. L. 95-87 recognized that the increased utilization of coal as an alternative energy source to petroleum and natural gas was to be of critical importance in assuring adequate future energy supplies for the Nation. The increase in coal utilization is dependent in part on increased scientific and technical understanding of various problems associated with the mining, processing and conversion of coal for energy purposes and the related need to assure an adequate supply of highly trained professional manpower for future energy-related programs in the public and private sectors. The Congress determined that these could be met in part through the increased participation and involvement of institutions of higher education in coal-related research and manpower development.

The University Coal Research Laboratories Program, as authorized in the Act, is designed to expand opportunities for coal research at institutions of higher education and through participation in such research, to develop new professional manpower for future energy-related programs.

In order to carry out these purposes, thirteen institutions of higher education are to be designated by the Department of Energy (DOE) as locations for the establishment and operation of university coal research laboratories. These laboratories are to conduct advanced research on selected problems in the extraction and utilization of coal resources. This research may involve the combined efforts of specialists from different academic disciplines and expertise and be directed at one or more specific coal research problems. Each designated laboratory is to be responsible for developing close and productive relationships with the private sector, other academic institutions, state and local government, and public groups to insure the exchange of information on the results of their laboratory research. Test facilities for the characterization of coal are also to be established at each laboratory to work in close cooperation with private industry. In addition, each laboratory is to develop programs for the training of students engaged in advanced study in disciplines related to coal as a source of energy.

II. General Comments

In implementing the provisions of this legislation, DOE has considered the potential roles of the university coal research laboratories in relation to other ongoing coal research supported by DOE with academic institutions, the DOE laboratories and private industry. DOE's extensive current coal research program is focused on numerous scientific and technical problems related to coal utilization. Recognizing that full public participation in the preliminary planning for the university coal research laboratories program will improve the ultimate quality and substance of this program, the DOE has consulted extensively with university scientists and administrators, representatives of the coal producing and user industry, and others interested in the proposed program. Five public meetings were held across the country in FY 1978 at which numerous suggestions and recommendations were made on the future development of this program. These recommendations have been carefully considered in the preparation of these proposed regulations.

In addition, DOE has received significant assistance in preparing these proposed regulations from the National Academy of Engineering. At the request of DOE, the Academy established a special committee of coal research experts from universities, industry and other Federal agencies to advise DOE on the prospective role of the university coal research laboratories and the criteria to be used by DOE in the selection and designation of these laboratories. The preliminary deliberations from this Academy Committee have been useful to DOE in the preparation of the proposed regulations and the final report of the Committee will provide further guidance to DOE in the implementation of the UCL Program.

Development of the University Coal Research Laboratories Program has involved the planning and preparation of program regulations governing the designation of the university coal research laboratories and the ultimate awarding of grants to implement these laboratory activities. Appropriations for the Program were not requested in FY 1979 since the time required for orderly development of the regulations would preclude grant awards before FY 1980. The next key milestones in the futher development of the program will include the issuance of the final regulations after receiving public comments and the publication of a Program Announcement to solicit proposals from institutions of higher education interested in and capable of operating coal research laboratories. Following the review and evaluation of these proposals, DOE will designate thirteen institutions of higher education at which University coal research laboratories will be established and operated. DOE funding of the designated laboratories will be subject to the availability of appropriations to the program in the FY 1980 budget and in subsequent years.

III. The Proposed Regulation

The proposed regulation describes the purpose and scope of the University Coal Research Laboratories Program, the eligibility requirements, proposed evaluation and selection criteria, the contents of and review procedures for proposals, and plans for continuing operation of the program.

Section 320.2 provides definitions for key terms in the University Coal Research Laboratories Program. Particular attention should be paid to the definitions of abundant coal reserves, major coal provinces, and institutions of higher education. For further reference and guidance, it is also suggested that interested parties consult the following technical references:

Demonstrate Coal Reserve Base of the United States on January 1, 1976. Table 2, U.S. Bureau of Mines, Division of Coal, August 1977.

PACER—Data Entry, Retrieval and Update for the National Coal Resource Data System, Phase I, Figure 2, Coal Provinces of the Coterminous United States. U.S. Geological Survey Professional Paper 978, 1978.

The eligibility requirements for the program are included in Section 320.7. The definition of the term "institution of higher educatrion" is significant to this section as is the requirement to certify sources, availability and commitment of cost-sharing funds to meet requirements stipulated in Sections 802(b) and 804(b) of the Act. Information is also presented on the acceptability of consortium proposals.

Sections 320.8 and 320.9 provide requirements for proposal content and application procedures for the submission of proposals by eligible insitutions of higher education following the issuance of a Program Announcement by DOE. The Act specifies that 90 days shall be available for the preparation and submission of these proposals. Information is presented on the evaluation and selection procedures to be followed by the Department upon receipt of proposals. All eligible proposals will be reviewed, evaluated, and ranked by a technical review panel in accordance with the evaluation criteria of Section 320.11. Following the completion of the review and evaluation process and the consideration of programmatic factors (Section 320.12), DOE will designate the thirteen institutions at which university coal research laboratories will be established and operated (Section 320.10). These designations will be made within 90 days from the submission of porposals.

Section 320.11 lists the evaluation criteria against which the proposals will be reviewed and ranked. These criteria shall include but not necessarily be limited to: (a) Understanding of the Objectives of the UCL Program and Functions of the UCL; (b) Qualifications of the Eligible Institution; (c) Scientific and Technical Merit of the Proposed Program; (d) Program Management Plans; and (e) Fiscal Management.

Following the designation of the thirteen laboratories and subject to the availability of funds, DOE will initiate the grant award process. As described in Section 320.13, specific funding to be provided each laboratory will depend on such factors as the availability of appropriated funds, the nature and proposed costs of each designated laboratory's program and DOE administrative judgment. Awards will be made as grants following the procedures developed in the DOE *Federal Assistance Regulation*. The proposed DOE *Federal Assistance Regulation* was published in 43 FR 36962 on August 4, 1978.

Proposed Section 320.14 lists the limitations on the funding any coal research laboratory may receive as specified by the Act. Depending on the level of appropriated funds, DOE allocation of funds to the UCL's will be in accordance with the following priorities: (a) research operating expenses; (b) movable research equipment; and (c) construction of facilities and related acquisition of fixed equipment and startup costs.

Procedures for continuation awards are included in proposed Section 320.15. Tentative budget levels for subsequent year operations of the designated laboratories will be agreed to for planning purposes by DOE and the individual laboratories at the outset of the program. Specific funding levels for each coal laboratory in subsequent years will depend on program performance, proposed research and program plans for the next program year and the availability of approrpriated funds.

DOE's interpretation of the Act's cost sharing requirements is included in proposed Section 320.16. Specifically, 50 percent cost sharing is required for the operating expenses portion of each laboratory's program. Such cost-sharing must be in cash, in property, or in service of equivalent value. Proposers must certify as to the source, availability, and commitment of cost-sharing funds.

Subsequent sections of the proposed regulation provide for the allocation of invention and patent rights under the program. The preparation of reports and dissemination of information and the termination of the overall program if the present authorization is not extended beyond FY 1984.

IV. Opportunity for Public Comment

Interested individuals and groups are invited to submit written comments with respect to the proposed regulation to the University Coal Research Laboratories Program, Office of Field Operations Management, Office of Energy Research, Department of Energy, 400 First Street, Rm. 501, Washington, D.C. 20545. All comments and related information should be received by March 19, 1979, in order to ensure consideration.

A public hearing on the proposed regulation will be held at 9:30 a.m. on February 23, 1979, in Room 3000A, Federal Building, 12th and Pennsylvania Avenue, NW., Washington, D.C., to receive oral presentations from interested persons. Any person who has an interest in the proposed regulation may make a written request for an opportunity to make an oral presentation or to ask specific questions about this proposed regulation. Such a request must be received not later than three days prior to the public hearing.

Conduct of Hearings. DOE reserves the right to arrange the schedule of presentations to be heard at the public hearing and to establish the procedures governing the conduct of the hearing. The length of each presentation may be limited, based on the number of persons requesting to be heard.

A DOE official will be designated as presiding officer to chair the hearing. This will not be a judicial or evidentiary-type hearing. Any participant who wishes to ask a question at the

V 4 4 / 1 5 J A 2 2 7 9 UMI

hearing may submit the question, in writing, to the presiding officer. The presiding officer will determine whether the question is relevant and material, and whether the time limitations permit it to be presented for answer. Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made and the entire record of the hearing, including the transcript, will be retained by DOE and made available for inspection at the DOE Freedom of Information Office, Room GA-152, Forrestal Building, 1000 Independence Avenue, NW., Washington, D.C. 20585, between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday. Any person may purchase a copy of the transcript from the reporter.

In accordance with DOE's obligations under the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321 et seq., an evaluation of the potential environmental impacts of the proposed regulation has been prepared by DOE. Based on an environmental assessment of the proposed regulation, DOE has determined that this regulation will not constitute a major Federal action having a significant effect on the quality of the human environment. Accordingly, an environmental impact statement will not be prepared. However, DOE has an obligation to review specific programs proposed for funding under this regulation and determine whether a site-specific environmental review is required.

In accordance with its plans for implementing Executive Order 12044, Improving Government Regulations (43 FR 18634, May 1, 1978) DOE has determined that this proposed regulation is significant because Congress and the DOE regard expanded utilization of coal to be of widespread concern and that the proposed University Coal Research Laboratories can make important contributions to this national objective. DOE has also determined that this proposed regulation will have no major economic impacts, as defined in DOE Order 2030.1, December 12, 1978, and that a regulatory analysis of this program is not required.

V. Text of the Authorizing Legislation

For convenience, the texts of the provisions of Title VIII of the Surface Mining Control and Reclamation Act and the amending legislation authorizing the University Coal Research Laboratories Program are reprinted below.

SURFACE MINING ACT—TITLE VIII—UNIVERSITY COAL RESEARCH LABORATORIES

Establishment of University Coal Research Laboratories

Section 801(a). The Administrator, Energy Research and Develop Administration (hereafter referred to as "Administrator" in this title), after consultation with the National Academy of Engineering, is authorized and directed to designate ten institutions of higher education at which university coal research laboratories will be established and operated.

(b) In making designations under this section, the Administrator shall consider the following criteria:

(1) The institution of higher education shall be located in a State with abundant coal reserves.

(2) The institution of higher education shall have experience in coal research, expertise in several areas of coal research, and potential or currently active, outstanding programs in coal research.

(3) The institution of higher education has the capacity to establish and operate the coal laboratories to be assisted under this title.

(c) Not more than one coal laboratory established pursuant to this title shall be located in a single State and at least one coal laboratory shall be established within each of the major coal provinces recognized by the Bureau of Mines, including Alaska.

(d) The Administrator shall establish a period, not in excess of ninety days after the date of enactment of this Act, for the submission of applications for designation under this section. Any institution of higher education desiring to be designated under this title shall submit an application to the Administrator in such form, at such time, and containing or accompanied by such information as the Administrator may reasonably require. Each application shall—

(1) describe the facilities to be established for coal energy resources and conversion research and research on related environmental problems including facilities for interdisciplinary academic research projects by the combined efforts of specialists such as mining engineers, mineral engineers, geochemists, mineralogists, mineral economists, fuel scientists, combustion engineers, mineral preparation engineers, coal petrographers, geologists, chemical engineers, civil engineers, mechanical engineers, and ecologists;

(2) set forth a program for the establishment of a test laboratory for coal characterization which, in addition, may be used as a site for the exchange of coal research activities by representatives of private industry engaged in coal research and characterization;

(3) set forth a program for providing research and development activities for students engaged in advanced study in any discipline which is related to the development of adequate energy supplies in the United States. The research laboratory shall be associated with an ongoing educational and research program on extraction and utilization of coal.

(e) The Administrator shall designate the ten institutions of higher education under this section not later than ninety days after the date on which such applications are to be submitted.

FINANCIAL ASSISTANCE

Sec. 802(a) The Administrator is authorized to make grants to any institution of higher education designated under section 801 to pay the Federal share of the cost of establishing (including the construction of such facilities as may be necessary) and maintaining a coal laboratory.

(b) Each institution of higher education designated pursuant to section 801 shall submit an application to the Administrator. Each such applicant shall—

(1) set forth the program to be conducted at the coal laboratory which includes the purposes set forth in § 801(d);

(2) provide assurances that the university will pay from non-Federal sources the remaining costs of carrying out the program set forth;

(3) provide such fiscal control and funds accounting procedures as may be necessary to assure the proper disbursement of an accounting for Federal funds received under this title;

(4) provide for making an annual report which shall include a description of the activities conducted at the coal laboratory and an evaluation of the success of such activities, and such other necessary reports in such form and containing such information as the Administrator may require, and for keeping such records and affording such access thereto as may be necessary to assure the correctness and verification of such reports; and

(5) set forth such policies and procedures as will insure that Federal funds made available under this section for any fiscal year will be so used as to supplement and, to the extent practical, increase the level of funds that would, in the absence of such Federal funds, be made available for the purposes of the activities described in subsections 801(d)(1), (2), and (3), and in no case supplant such funds.

Limitation of Payments

Sec. 803(a) No institutions of higher education may receive more than $4,000,000 for the construction of its coal research laboratory, including initially installed fixed equipment, nor may it receive more than $1,5,000,000 for initially installed movable equipment, nor may it receive more than $500,000 for new program startup expenses.

(b) No institution of higher education may receive more than $1,500,000 per year from the Federal Government for operating expenses.

Payments

Sec. 804(a) From amounts appropriated pursuant to section 806, the Administrators shall pay to each institution of higher education having an application approved under this title an amount equal to the Federal share of the cost of carrying out that application. Such payments may be in installments, by way of reimbursement, or by way of advance with necessary adjustments on account of underpayments or overpayments.

(b) The Federal share of operating expenses for any fiscal year shall not exceed 50 per centum of the cost of the operation of a coal research laboratory.

Advisory Council on Coal Research

Sec. 805 (a) There is established an Advisory Council on Coal Research which shall be composed of

(1) The Administrator ERDA, Who shall be Chairman;

(2) The Director of the Bureau of Mines of the Department of the Interior;

(3) The President of the National Academy of Sciences;

(4) The President of the National Academy of Engineering;

(5) The Director of the United States Geological Survey; and

(6) Six members appointed by the Administrator from among individuals who, by virtue of experience or training, are knowledgeable in the field of coal research and mining, and who are representatives of institutions of higher education, industrial users of coal and coal-derived fuels, the coal industry, mine workers, non-industrial consumer groups, and institutions concerned with the preservation of the environment.

(b) The Advisory Council shall advise the Administrator with respect to the general administration of this title, and furnish such additional advice as he may request.

(c) The Advisory Council shall make an annual report of its findings and recommendations (including recommendations for changes in the provisions of this title) to the President not later than December 31 of each calendar year. The President shall transmit each such report to the Congress.

(d)(1) Members of the Council who are not regular officers or employees of the United States Government shall, while serving on business of the Council, be entitled to receive compensation at rates fixed by the Administrator but not exceeding the daily rate prescribed for GS-18 of the General Schedule under section 5332 of title 5, United States Code, and while so serving away from their homes or regular places of business, they may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code, for persons in the Government service employed intermittently.

(2) Members of the Council who are officers or employees of the Government shall be reimbursed for travel, subsistence, and other necessary expenses incurred by them in carrying out their duties on the Council.

(e) Whenever a member of the Council appointed under clauses (1) through (5) is unable to attend a meeting, that member shall appoint an appropriate alternate to represent him for that meeting.

Authorization of Appropriations

Sec. 806. There are authorized to be appropriated not to exceed $30,000,000 for the fiscal year ending September 30, 1979 (including the cost of construction, equipment, and startup expenses), and $7,500,000 beginning with the fiscal year 1980 each fiscal year thereafter through the fiscal year ending June 30, 1983, to carry out the provisions of this title.

PUBLIC UTILITY REGULATORY POLICIES ACT

Section 604. Coal Research Laboratories

(a) Designation—So much of section 801 of the Surface Mining Control and Reclamation Act of 1977 as precedes subsection (b) of paragraph (2) thereof is amended to read as follows: "Establishment of University Coal Research Laboratories"

"Sec. 801(a) The Secretary of Energy, after consultation with the National Academy of Engineering, shall designate thirteen institutions of higher education at which university coal research laboratories will be established and operated. Ten such designations shall be made as provided in subsection (e) and the remaining three shall be made in fiscal year 1980.

"(b) In making designations under this section, the Administrator shall consider the following criteria:

"(1) Those ten institutions of higher education designated as provided in subsection (e) shall be located in a State with abundant coal reserves."

(b) Authorization of Appropriations—Section 806 of such Act is amended to read as follows:

Authorization of Appropriations

Sec. 806(a) For the ten institutions referred to in the last sentence of section 801(a), there are authorized to be appropriated not to exceed $30,000,000 for the fiscal year ending September 30, 1979 (including the cost of construction, equipment, and startup expenses), and not to exceed $7,500,000 for the fiscal year 1980 and for each fiscal year thereafter through the fiscal year ending before October 1, 1984, to carry out the provisions of this title.

(b) For the three remaining institutions referred to in the last sentence of section 801(a), there are authorized to be appropriated not to exceed $6,500,000 for the fiscal year 1980 (including the cost of construction, equipment, and startup expenses), and not to exceed $2,000,000 for each fiscal year after fiscal year 1980 ending before October 1, 1984, to carry out the provisions of this title.

(c) Conforming Amendment—Title VIII of such Act is amended by striking out the terms "Administrator" and "Administrator, ERDA" in each place they appear and substituting "Secretary of Energy" in each such place.

In consideration of the foregoing, it is proposed to amend Chapter II of Title 10 of the Code of Federal Regulations by establishing Part 320 as set forth below.

Issued in Washington, D.C., January 17, 1979.

JOHN M. DEUTCH,
Director of Energy Research.

Subchapter B, Chapter II of Title 10 is amended by establishing Part 320 as follows:

PART 320—UNIVERSITY COAL RESEARCH LABORATORIES PROGRAM

Sec.

320.1 Purpose and scope.
320.2 Definitions.
320.3 Establishment of the program.
320.4 Program objectives.
320.5 Functions of a university coal research laboratory.
320.6. Management.
320.7 Eligibility requirements.
320.8 Content of application.
320.9 Application Procedures.
320.10 Evaluation and selection Procedures.
320.11 Evaluation criteria.
320.12 Programmatic factors.
320.13 Program implementation.
320.14 Limitations on the use of funds.
320.15 Program continuation.
320.16 Cost sharing.
320.17 General requirements.
320.18 Inventions and patents.
320.19 Reporting and dissemination of information.
320.20 Proposal information.
320.21 UCL program termination.

AUTHORITY: Surface Mining Control and Reclamation Act of 1977, Pub. L. 95-87, Title VIII, as amended by the Public Utili-

V 4 4 / 1 5 J A 2 2 7 9 UMI

ties Regulatory Policies Act of 1978, Pub. L. 95-617, Titie VI, Sec. 604, Department of Energy Organization Act, Pub. L. 95-91, Section 644, et seq.

§ 320.1 Purpose and scope.

This part contains the requirements for the conduct of a University Coal Research Laboratories Program, the selection of thirteen institutions of higher education at which the laboratories are to be located and grant awards to establish the laboratories as authorized by Title VIII, Section 801 of the Surface Mining Control and Reclamation Act of 1977 (Pub. L. 95-87) as amended.

§ 320.2 Definitions.

As used in this chapter, the term—

(a) "Abundant Coal Reserves" means a state with a demonstrated coal reserve base in excess of 1.5 billion tons.

(b) "Act" means the Surface Mining Control and Reclamation Act of 1977, as amended by the Public Utility Regulatory Policies Act of 1978, Pub. L. 95-617, Title VI, Sec. 604, Coal Research Laboratories.

(c) "Coal Research" means research that will advance efforts to expand the use of coal as a source of energy. The research may include, but not necessarily be restricted to, investigations relating to resource development, mining, beneficiation, direct utilization, conversion, environmental and health effects, transportation, and institutional impacts. The research may relate to coal of any rank and grade.

(d) "DOE" means the Department of Energy.

(e) "DOE Selection Official" means the Secretary of Energy or his designee vested with the final authority and responsibility to select and designate the University Coal Research Laboratories.

(f) "Institution of Higher Education" means a four-year university or college with established programs in several areas of coal research and related educational activities and accredited master's and/or doctoral degree programs in disciplines related to coal research. An institution of higher education for purposes of eligibility includes single institutions meeting the above qualifications, or a consortium or partnership of institutions which are collectively qualified. A consortium or partnership of institutions must clearly designate a lead institution for fiscal and reporting purposes. The location of the lead institution shall be considered the "home state" for purposes of meeting limitations of the Act.

(g) "Major Coal Provinces" means the division of the coal fields of the United States into coal provinces as determined by the U.S. Geological Survey (USGS). The USGS has determined the following coal provinces: (1) Alaska, (2) Eastern, (3) Gulf, (4) Interior, (5) Northern Great Plains, (6) Pacific, and (7) Rocky Mountains.

The following table further defines the "Major Coal Provinces" by listing all of the states which fall within each province regardless of the abundance of coal reserves. States meeting the abundant coal reserve criteria (in excess of 1.5 billion tons) are italicized:

(1) Alaska Province
Alaska
(2) Eastern Province
Alabama
Connecticut
Florida
Georgia
Kentucky
Maine
Maryland
Massachusetts
Mississippi
New Jersey
New Hampshire
New York
North Carolina
Ohio
Pennsylvania
Rhode Island
South Carolina
Tennessee
Vermont
Virginia
West Virginia
(3) Gulf Province
Georgia
Florida
Kentucky
Louisiana
Mississippi
Missouri
Tennessee
Texas
(4) Interior Province
Arkansas
Illinois
Indiana
Iowa
Kansas
Kentucky
Michigan
Minnesota
Missouri
Nebraska
New Mexico
North Dakota
Ohio
Oklahoma
South Dakota
Texas
Wisconsin
(5) Northern Great Plains Province
Colorado
Kansas
Montana
Nebraska
North Dakota
South Dakota
Wyoming
(6) Pacific Province
Arizona
Colorado
Idaho
Montana
Nevada
New Mexico
Oregon
Texas
Utah
Washington
Wyoming

(h) "Operating expenses" includes such costs associated with the development and operation of an ongoing research and related education program as salaries and wages, fringe benefits, travel, publication, computer supplies, research equipment up to $500 in value and other direct and indirect costs associated with the operation of a coal research laboratory. This item does not include costs associated with the construction of laboratory facilities and buildings or the acquisition and installation of major equipment.

(i) "State" means the states of the United States.

§ 320.3 Establishment of program.

There is established a University Coal Research Laboratories Program under the direction of the Office of Energy Research of DOE for the purposes of expanding research on coal and the training of advanced students and others through participation in such research.

This program shall consist of thirteen coal research laboratories located at institutions of higher education which have the potential for and are capable of establishing and operating such a facility. At least ten of the network of thirteen authorized coal research laboratories will be located in states with abundant coal reserves. There will be at least one University Coal Research Laboratory designated in each of the coal provinces but not more than one in any state. The University Coal Research Laboratories Program will build upon and strengthen existing coal-related research capabilities at the selected universities.

§ 320.4 Program objectives.

The broad objectives of the University Coal Research Laboratories Program (hereafter referred to as the UCL Program) are as follows:

(a) The establishment of a network of coal research laboratories at institutions of higher education which are committed to conducting coal research;

(b) The stimulation of coal research in institutions of higher education;

(c) The training of advanced students and others through participation in coal-related research;

(d) The establishment of test laboratories for the characterization of coal in support of UCL research efforts; and

(e) The promotion of exchange of coal research information.

§ 320.5 Functions of a university coal research laboratory.

Within the scope of the UCL Program objectives, each UCL shall conduct a research program which addresses significant coal-related research problems and which provides coal research experience to advanced students and others. The coal research program shall build on existing or potential institutional capabilities and resources and focus a majority of the research effort in one or more programmatic research areas reflecting these institutional strengths. Each UCL coal research program shall represent a balance between research and training and, within institutional capabilities, shall address coal research problems of general and/or regional nature. To bring the broadest range of capabilities to bear on its research problems, each UCL shall engage in collaborative research where appropriate through cooperative arrangements with other academic institutions, laboratories, industry or other organizations. Each UCL shall propose a program for a test laboratory for coal characterization to perform in support of its research activities. This test laboratory may be used as a site for the exchange of coal research activities by representatives of private industry engaged in coal research and characterization but shall not provide services in competition with commercial laboratories capable of offering these services. Each UCL shall establish and maintain regular communication with the public and private sectors, including state and local governments, the coal producing industry, coal users, the general public and other institutions and organizations concerned with the problems and issues of research on coal as a source of energy. Through such interactions, each UCL shall disseminate information on its research accomplishments and seek inputs concerning research needs and problems.

§ 320.6 Management.

(a) The UCL Program shall be managed by a Program Director, University Coal Research Laboratories Program, located within the Office of Energy Research, DOE.

(b) Each UCL shall be managed by a director selected by the institution.

§ 320.7 Eligibility requirements.

(a) To be eligible to be designated for participation in the UCL Program, the applicant must be an institution of higher education and have accredited masters and/or doctoral degree programs in disciplines related to ongoing and proposed areas of coal research and education. The institution must have experience in coal research, and expertise in several areas of coal research and the potential for, or currently active, outstanding programs in coal research. The institution must have the demonstrated capacity to establish and operate a coal research laboratory.

(b) To be eligible, an institution shall have or propose to establish such policies and procedures as will insure that the Federal share of funds made available under the UCL Program will be used to supplement and, to the extent practical, increase the level of funds that would, in the absence of such Federal funds, be made available for the purposes of the activities proposed for the UCL and in no case supplant such funds.

(c) As a condition of eligibility, an applicant must submit a certification of the source, availability and commitment of non-Federal funds to meet cost-sharing requirements.

(d) Only one proposal will be accepted from a single institution. An institution which is part of a consortium or partnership shall be subject to this restriction if that institution has been designated as the lead institution in a consortium or partnership proposal.

§ 320.8 Content of application.

(a) Institutions of higher education meeting the eligibility requirements as set forth in § 320.7, may submit an application prepared in compliance with this regulation and the UCL Program Announcement to compete for designation and Federal assistance as a university coal research laboratory. Ten copies of the application proposal must be submitted to the Program Director, University Coal Research Laboratories Program, Office of Energy Research, DOE.

(b) The application proposal shall contain, but not necessarily be limited to the following information;

(1) A summary statement of institutional eligibility for application to the UCL Program.

(2) A summary of scope, quality and history of established coal research and education activities including ongoing coal research and education programs, faculty involvement, student participation, publications, facilities and equipment.

(3) A statement of goals and objectives of the proposed UCL.

(4) A description of the organizational structure and management proposed for the UCL.

(5) A summary of the general plan for research and education activities proposed for the UCL through FY 1984, including a summary of technical projects to be undertaken, investigators and facilities to be committed, involvement of advanced students, a program for a test laboratory for coal characterization, facility and equipment needs, levels and man-years of effort and projected budget requirements.

(6) Detailed project proposals for each individual program activity proposed in the summary general plan to permit separate peer review and evaluation of these projects.

(7) Institutional certification of the source, availability and commitment of proposed non-Federal funds to meet cost participation requirements.

(c) The contents of the application proposal described under (b), above, shall be approximately sixty pages in length, exclusive of appendices which shall include specific project proposals (Subsection 6, above), supportive information concerning ongoing coal-related research and education activities and other relevant information.

(d) Additional information on the format and content for application proposals are contained in a University Coal Research Laboratories Program Announcement, notice of which shall be published in the FEDERAL REGISTER.

§ 320.9 Application procedures.

An eligible institution of higher education may submit a proposal to DOE in response to the UCL Program Announcement. This Program Announcement will specify the closing date for the submission of proposals. No more than 90 days will be provided for the preparation and submission of proposals.

§ 320.10 Evaluation and selection procedures.

(a) Proposals submitted in response to the UCL Program Announcement will be reviewed and evaluated in accordance with the following procedures:

(1) An initial review will be conducted by the UCL Program Office to determine if the proposing institution meets the eligibility requirements contained in Sec. 320.7 and to determine if the proposal is complete as required by this regulation and the Program Announcement.

(2) Applications from institutions that do not meet the eligibility requirements shall be rejected.

(3) Proposals from institutions meeting the conditions of eligibility shall be reviewed, evaluated, and ranked in accordance with the evaluation criteria (§ 320.11) by Technical Reviewers appointed by the Director, Office of Energy Research, from among qualified technical experts in areas related to coal research.

(4) Subsequent to the review, evaluation, and ranking of all proposals by the Technical Reviewers, a further analysis of programmatic factors

(§ 320.12) will be carried out in the selection process by a DOE Selection Panel appointed by the Director, Office of Energy Research.

(5) The DOE Selection Official, assisted by the DOE Selection Panel and based on the evaluation of selection criteria and programmatic factors, will designate thirteen institutions which individually and collectively are considered to have the greatest potentiality for meeting the objectives of a balanced national UCL Program of coal research and research-related training.

(6) At the discretion of the DOE Selection Official, ten UCL institutions in states with abundant coal reserves may be designated initially in the selection process and three additional institutions may be designated subsequently without regard to the abundance of state coal reserves.

(7) After designation of the UCL's, the UCL Program Office will enter into negotiations with such proposer to select and establish support levels for those program activities to be included in the grant award. Projects to be supported will be subject to the level of appropriated funds and UCL programmatic considerations.

(b) The DOE Selection Official shall announce the designated institutions at which University Coal Research Laboratories will be established and operated within 90 days of the closing date for the submission of proposals.

§ 320.11 Evaluation criteria.

(a) Proposals from institutions which meet the requirements of eligibility (§ 320.7) will be evaluated and ranked by DOE using criteria which may include, but not necessarily be limited to the following:

(1) Understanding of Objectives of UCL Program and Functions of the UCL.

(i) Perceptions of coal related needs, problems and issues to be met through research and training.

(ii) Awareness of the state-of-the-art in the principal areas of coal research proposed for the UCL.

(iii) The relationship of the proposed research to and the differences from current work in the same field(s).

(iv) Institutional rationale for participation in the UCL Program including relevance to the various programs and missions of the institution.

(v) Relationship of proposed plan to the functions of a UCL as set forth in § 320.5.

(2) Qualifications of Eligible Institution

(i) Scope, quality, and history of established coal research and education programs such as ongoing research and education programs, faculty involvement, student participation, publications, facilities and equipment.

(ii) Potential for attracting qualified advanced students.

(iii) Qualifications of the investigators committed to the UCL Program.

(iv) Role and qualifications of UCL Director.

(v) Existing facilities and equipment to be committed to UCL programs.

(3) Scientific and Technical Merit of the Proposed Program

(i) The quality of the proposed research.

(ii) The role of proposed research in the training of advanced students.

(iii) The degree to which the proposed research will advance scientific and technical understanding of the coal-related problem(s) under study.

(iv) The role of the test laboratory for coal characterization in support of proposed UCL research and education activities.

(v) Provisions for communicating research results and for interaction with various segments of the public and private sectors concerning UCL activities.

(4) Program Management Plans

(i) Program management plan proposed for UCL.

(ii) Plans for managing research and training activities carried on in collaboration with other organizations and institutions.

(iii) Reasonableness and appropriateness of the proposed cost plan specifically for UCL program administration.

(iv) Nature of institutional commitment to the UCL Program, including provisions for institutional support, cost-sharing, program continuity and the relationship of the UCL to the overall academic mission of the institution.

(v) Provisions for coordination between the UCL and, if present, a Mining and Mineral Resources Research Institute established and funded under provisions of Title III, Pub. L. 95-87, including program planning, organization, management, and avoidance of program duplication.

(5) Fiscal Management.

(i) The reasonableness and appropriateness of the total costs proposed for the UCL program including research, program operations, facilities, and equipment.

(ii) The justification presented for the major cost categories proposed (operating expenses, facilities, major equipment, etc.) with reference to § 320.14, Limitations on the Use of Funds.

(iii) Documentation of cost-sharing to meet the specific requirements on laboratory operating expenses and such cost-sharing as may be appropriate to facilities and equipment requests.

(b) All eligible UCL proposals will be reviewed and evaluated technically with respect to the above-listed evaluation criteria.

§ 320.12 Programmatic factors.

In making the final selection of the institutions to be designated as the site of a UCL, the following programmatic factors will be considered by the DOE Selection Panel:

(a) The ranking of proposals with respect to the evaluation criteria.

(b) The relative need for research on coals of different types and qualities distributed within the various coal provinces.

(c) Geographic distribution of the applicants with respect to coal provinces, coal reserves, and coal utilization.

(d) The best overall mix of research specialities, educational potential, and geographic distribution as determined by DOE of coal research programs among those proposed by the designated UCL institutions.

§ 320.13 UCL program implementation.

Subsequent to the designation of the UCL institutions and subject to the availability of UCL Program funds, the UCL Program Office shall initiate the grant award process. Funding of designated UCL's will depend on the funding requested and the nature of the proposed program by each UCL, the best mix of research and educational activities among the UCL's and the availability of appropriated funds to the UCL Program with the amount of the grant being determined through negotiation as cited above in Section 320.10. All awards will be subject to the availability of appropriated funds.

§ 320.14 Limitations on the use of funds.

(a) No UCL may receive more than the following total amount of Federal funds:

	Limit
Construction and fixed equipment.	$4.0 million
Movable equipment	$1.5 million
Start-up expenses	$0.5 million
Program operations (annual)	[1] $1.5 million

[1] Federal share shall not exceed 50 percent of the total operating costs for any fiscal year.

(b) The Director of the UCL Program will determine the amount of funds to be advanced to each designated UCL for the initial grant year based on estimates of amounts required to conduct all or parts of the proposed program as agreed to through negotiation with the UCL. Depending on levels of appropriation, the following priorities may apply in the allocation of UCL funds: (1) research program operating expenses; (2) acquisition of movable equipment; and (3) construction of facilities, acquisition of related fixed equipment and start-up costs.

§ 320.15 Program continuation.

(a) The budget levels for subsequent year funding of a UCL beyond the initial year will be agreed to for planning purposes during the negotiation of the initial UCL grant. Specific funding levels for subsequent years will be contingent upon (1) technical performance, (2) proposed continuation program plans and (3) availability of appropriations to the UCL Program. Renewable proposals will be required of each UCL at a time and in a format mutually agreed to between DOE and the UCL.

(b) Technical performance and technical program plans of each UCL will be reviewed by qualified review panels at intervals to be specified by the UCL Program Office.

(c) The UCL Program Office will determine the scope and level of continued support to each UCL based on program reviews and the allocation of available UCL Program funds.

(d) Subsequent year support to a UCL may be refused at the discretion of the DOE UCL Program Office based, for example, on past performance; failure to agree on a mutually acceptable continuation program plan; or the level of available UCL Program funds. In such instances, terminal funding at a reduced level for one (1) year may be authorized by the UCL Program Office.

§ 320.16 Cost sharing.

(a) DOE is authorized to make grants to pay a Federal share of the costs of establishing and maintaining a UCL, including construction of such facilities as may be necessary, to those institutions of higher education designated in the UCL Program.

(b) The Federal share of UCL operating expenses for any fiscal year shall not exceed 50 per centum of the cost of operation of a UCL.

(c) Cost sharing stipulated by the Act will be governed in accordance with prevailing OMB regulations, FMC 73-3, "Cost Sharing on Federal Research" and Circular A-110 "Uniform Administrative Requirements for Grants and Other Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organization." Cost sharing may vary in amount from project to project but the aggregate of cost sharing for the operating expenses portion of the UCL program must be of equivalent value and match or exceed expenditures of DOE funds in any given grant period. The grantee contributions to the costs of operating the UCL may be in any form, including cash or in-kind contributrions (the value of which is determined by DOE), from the institution or third parties, and for any category costs, direct or indirect, provided they are non-Federal and are not otherwise counted as cost sharing on other Federal projects. Institutions or organizations participating in collaborative projects of the UCL under a subgrant may make cost-sharing contributions which meet the cost-sharing requirement. Grantees must maintain adequate cost-sharing records as well as records of all expenditures.

§ 320.17 General requirements.

(a) Applicants for participation in the Program are required to comply with the provisions of the DOE Assistance Regulations applicable to grants awarded to institutions of higher education, and, as applicable, such other procedures applicable to grants under the program as DOE may from time to time to prescribe, and any Federal requirements applicable to grants awarded under the UCL program.

(b) Each grant under this part shall require that a recipient of support under the UCL program submit a final written report of activities supported in whole or in part by Federal funds made available under the program.

§ 320.18 Inventions and patents.

Each grant under the program shall be governed by the provisions of Section 9 of the Federal Nonnuclear Energy Research and Development Act of 1974, 42 U.S.C. 5908, and any agreements by DOE to waive title to inventions that may be made under the program shall be pursuant to the policies and procedures of the applicable provisions of the DOE Assistance Regulations.

§ 320.19 Reporting and dissemination of information.

(a) Each designated UCL shall submit semiannual and annual program performance reports to the DOE UCL Program Office. The annual report shall be submitted concurrent with the renewal proposal and shall include a description of the activities and such other information as may be required by DOE.

(b) The UCL institutions and DOE shall disseminate to the public in an appropriate manner information on coal research findings resulting from program activities of the UCL program. Prompt dissemination of UCL research results to the scientific and technical community shall be encouraged.

§ 320.20 Proposal information.

Information contained in proposals submitted in response to the subsequent UCL program solicitation shall be treated, handled, and disclosed, and information shall be provided to unsuccessful proposers, in accordance with the policies and procedures set forth in applicable DOE Assistance Regulations and the UCL Program Announcement.

§ 320.21 UCL Program termination.

The UCL Program is authorized to continue until the end of FY 1984. Continuation of the program will depend on the extension of the authorizing legislation and the availability of appropriated funds.

DEPARTMENT OF TRANSPORTATION

Coast Guard

WATERFRONT FACILITIES REGULATIONS UPDATE

V 4 4 / 1 5 J A 2 2 7 9 UMI

[4910-14-M]

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 78-023]

PART 126—HANDLING OF EXPLOSIVES OR OTHER DANGEROUS CARGOES WITHIN OR CONTIGUOUS TO WATERFRONT FACILITIES

Waterfront Facilities Regulations Update

AGENCY: Coast Guard, DOT.

ACTION: Final Rule.

SUMMARY: This amendment corrects regulations governing waterfront facilities which handle dangerous cargoes. Certain citations and definitions in the current regulations became outdated when parts of the code of Federal Regulations referred to in the current regulations were changed or relocated. This amendment updates the regulations to reflect these changes without changing the substantive content.

EFFECTIVE DATE: January 22, 1979.

FOR FURTHER INFORMATION CONTACT:

Lieutenant (Junior Grade) David G. Dickman, Port Safety and Law Enforcement Division (G-WLE-1/73), Room 7319, Department of Transportation, NASSIF Building, 400 Seventh Street S.W., Washington, DC 20590 (202-426-1927).

SUPPLEMENTARY INFORMATION: No notice of proposed rulemaking is being published because this rule is an editorial correction to current regulations and does not change the substantive content of these regulations. Therefore, public comment is impracticable and unnecessary. 5 U.S.C. 553(b)(3)(B).

Drafting Information

The principal persons involved in drafting this rule are: Lieutenant (Junior Grade) David G. Dickman, USCG, Project Manager, Office of Marine Environment and Systems, and Mr. Stephen Barber, Project Attorney, Office of the Chief Counsel.

Discussion of the New Regulations

In a separate rulemaking proceeding, the Coast Guard is currently involved in revising waterfront facilities regulations to reflect new initiatives under the Ports and Waterways Safety Act (33 U.S.C. §§ 1221-1227). As a part of this revision project an Advance Notice of Proposed Rulemaking for waterfront facilities was published on April 10, 1978 (43 FR 15107-15116). It is anticipated that this project will be completed in approximately two years. In the interim, this amendment corrects outdated references in the current waterfront facilities regulations pending publication of the revised regulations. No changes in the substantive content of the current regulations are made by these amendments.

The old 46 CFR Part 146 referred to in the current 33 CFR Part 126 has been split up into the following: 46 CFR Parts 146 and 148 covering shipment of dangerous cargoes by water; and 49 CFR Parts 170-179 covering shipment of "hazardous materials". References to the old 46 Part 146 are changed by this amendment to references to the current regulations. It should be noted that the current regulations include some cargoes not covered by the old 46 CFR Part 146. Only those cargoes in 49 CFR 172.101 classified as dangerous for transportation by vessel are covered under this amendment. This is done by excluding from regulation those materials preceded by an "A" in the Hazardous Materials Table, 49 CFR 172.101. These materials are subject to the provisions of 49 CFR 170-179 only for transportation by air; all other materials in the Table are classified as dangerous for transportation by vessel.

As a result of the new regulations pertaining to dangerous cargoes, several terms and definitions have also changed. In order to maintain consistency throughout the regulations pertaining to dangerous cargoes, definitions and terms used in 33 CFR Part 126 are amended to reflect these changes. Also, certain definitions formerly referred to by citation are now set forth in full in this amendment.

The regulation entitled "Captain of the Port Authority Update" (42 FR 48022) of 22 September 1977 changed the authority for 33 CFR Part 126 to the Ports and Waterways Safety Act of 1972. That Act has been superseded by the Ports and Waterways Safety Act (Pub. L. 95-474, October 17, 1978). The authority citation is amended to reflect this change. The Ports and Waterways Safety Act provides for the assessment of civil or criminal penalties for violations of regulations issued under its authority. It also authorizes regulations to promote safety and protect the marine environment. Thus, 33 CFR Part 126 now covers not only security concerns, but also safety concerns. Editorial changes are included in this amendment to reflect the new penalty provisions and the new safety concerns.

This final regulation has been evaluated under the Department of Transportation Policies for Improving Government Regulations published on March 8, 1978 (43 FR 9582). The final evaluation is available for public review at the above address. In consideration of the foregoing, 33 CFR Part 126 is amended as follows:

1. By revising the "Authority" heading in the table of contents to read:

AUTHORITY: 92 Stat. 1475 (Ports and Waterways Safety Act, as amended, 33 USC 1225); 49 CFR 1.46(n)(4).

2. By revising § 126.01 to read as follows:

§ 126.01 General definitions.

"Commandant" means the Commandant of the United States Coast Guard.

"Captain of the Port (COTP)" means the officer of the Coast Guard, under the command of a District Commander, so designated by the Commandant for the purpose of giving immediate direction to Coast Guard law enforcement activities within an assigned area.

"District Commander" means the officer of the Coast Guard designated by the Commandant to command a Coast Guard District.

"Net tons" means the net weight of a materials in tons.

"Net weight" means a measure of weight referring only to the contents of a package, tank or container and does not include the weight of any packaging material, or containing devices.

"Waterfront facility" means all piers, wharves, docks, and similar structures to which a vessel may be secured; areas of land, water, or land and water under and in immediate proximity to them; buildings on such structures or contiguous to them and equipment and materials on such structures or in such buildings. This term does not include facilities directly operated by the Department of Defense.

3. By revising § 126.05 to reads as follows:

§ 126.05 Designated waterfront facility.

(a) Designated waterfront facility. The term "designated waterfront facility" means a waterfront facility designated by § 126.13 for the handling and storage of, and for vessel loading and discharging of: any flammable or combustible liquid in bulk (46 CFR Parts 30-38); any hazardous material subject to the Dangerous Cargoes Regulations in 46 CFR Parts 146 and 148; and any hazardous material subject to the Hazardous Materials Regulations (49 CFR Parts 170-179), except for those materials preceded by an "A" in the Hazardous Materials Table, 49 CFR Part 172.101.

(b) Facility of particular hazard. The term "facility of particular hazard" means a designated waterfront facility which is authorized to handle in bulk quantities any of the commodities listed in Section 124.14(b) or any commodity for which a permit or written permission is required by 46 CFR 146.29-100; 49 CFR 176.100; or 49 CFR 176.415.

4. By revising § 126.07 to read as follows:

§ 126.07 Dangerous cargo.

The term "dangerous cargo" means all explosives and other hazardous materials or cargo covered by—

(a) Dangerous Cargoes, 46 CFR Parts 146 and 148;

(b) Tank Vessels, 46 CFR Parts 30-38; or

(c) Hazardous Materials, 49 CFR Parts 170-179, except for those materials preceded by an "A" in the hazardous Materials Table, 49 CFR 172.101.

5. By revising § 126.09 to read as follows:

§ 126.09 Designated dangerous cargo.

The term "designated dangerous cargo" means Explosives (commerical or military), Class A, as classified in 46 CFR Part 146 and 49 CFR Part 172.

6. By revising the text of § 126.11, and deleting the authority citation to the Dangerous Cargo Act (R.S. 4472, as amended, 46 U.S.C. 170) at the end of the section as follows:

§ 126.11 Waiver authority based on local or unusual conditions.

Whenever the Commandant, the District Commander, or the Captain of the Port finds that the application of any provisions contained in Sections 126.15 and 126.16 is not necessary to the safety or security of the port and vessels and waterfront facilities therein, or that its application is not practical because of local conditions or because the materials or personnel required for compliance are not available, or because the requirements of the national defense justify a departure from such provision, the Commandant, the District Commander, or the Captain of the Port may waive compliance with such provision, to the extent and under such requirements as they determine.

7. By revising § 126.13(b) to read as follows:

§ 126.13 Designation of waterfront facilities.

* * * * *

(b) Handling, storing, stowing, loading, discharging, or transporting dangerous cargo at any waterfront facility other than one designated by this section in hereby prohibited, and violation of this prohibition will subject the violator to the civil or criminal penalties provided in Section 13 of the Ports and Waterways Safety Act (33 U.S.C. § 1232).

8. By revising the text of § 126.15(g), (o)(2)(i) and (vii), and by deleting the authority citation to the Dangerous Cargo Act (R.S. 4472, as amended, 46 U.S.C. 170) at the end of the section as follows:

§ 126.15 Conditions for designation as designated waterfront facility.

* * * * *

(g) Maintenance stores and supplies. That supplies classified as dangerous by the provisions of the Hazardous Materials Regulations (49 CFR 170-179) except those materials preceded by an "A" in the Hazardous Materials Table, 49 CFR 172.101, to be used in connection with operation or maintenance of the property or facility, are not stored on any pier or wharf within the waterfront facility and are not stored elsewhere on the waterfront facility except in amounts necessary for normal current operating conditions; that these supplies are stored in a compartment remote from combustible material, constructed so as to be readily accessible and provide safe storage; that storage compartments are kept clean and maintained free of scrap materials, empty containers, soiled wiping rags, waste, and other debris; that covered metal containers are provided for disposal of used wiping cloths and are emptied at the end of each working day; and that clothing lockers are maintained clean and orderly and properly ventilated.

* * * * *

(o) * * *

(2) * * *

(i) Warning signs are displayed on the facility at the point of transfer facing shoreline and facing each way along the shoreline without obstruction, at all times during the coupling, transfer operation, and uncoupling. The warning signs chall conform to 46 CFR 151.45-2(e)(1) or 46 CFR 153.955.

* * * * *

(vii) Has in his possession a cargo information card for the specific cargo to be transferred. The information card shall conform to the specifications of 46 CFR 151.45-2(e)(3) (unmanned barges) or 46 CFR 153.907 (self-propelled vessels) and shall list all of the following items:

(A) Cargo identification characteristics.

(B) Emergency procedures.

(C) Firefighting procedures.

* * * * *

9. By revising § 126.25 to read as follows:

§ 126.25 Penalties for handling designated dangerous cargo without permit.

Handling, loading, discharging, or transporting any designated dangerous cargo without a permit, as provided under § 126.17, being in force, will subject persons responsible therefore to the civil or criminal penalties provided in Section 13 of the Ports and Waterways Safety Act, as amended (33 U.S.C. § 1232).

10. By revising the text of § 126.27, and by deleting the authority citation to the Dangerous Cargo Act (R.S. 4472, as amended, 46 U.S.C. 170) at the end of the section as follows:

§ 126.27 General permit for handling dangerous cargo.

A general permit is hereby issued for the handling, storing, stowing, loading, discharging or transporting of dangerous cargo (other than designated dangerous cargo) in bulk, portable tanks, containers, or packagings, at designated waterfront facilities, conditioned upon the observance and fulfillment of the following:

(a) The conditions set forth in § 126.15 shall at all times be strictly observed.

(b) The following classes of hazardous materials classified as dangerous for transportation by vessel as listed in the Hazardous Materials Regulations Table (49 CFR 172.101), in the amounts specified, shall not be handled, stored, stowed, loaded, discharged, or transported, except when contained within railroad or high vehicles being transported across or on waterfront facilities used primarily for the transfer of railroad or highway vehicles to or from a railroad car ferry or highway vehicle ferry, or carfloats, without prior notification to the Captain of the Port:

(1) Explosives, Class B, in excess of 1 net ton at any one time.

(2) Explosives, Class C, in excess of 10 net tons at any one time.

(3) Flammable liquids, in excess of 10 net tons at any one time.

(4) Flammable solids or oxidizers, in excess of 100 net tons at any one time.

(5) Flammable gases, in excess of 10 net tons at any one time.

(6) Poisons (Class A).

(7) Large quantities of radioactive materials as defined in 49 CFR 173.389(b) and Fissile Class III radioactive materials as defined in 49 CFR 173.389(a)(3).

(8) Bulk shipments of dangerous cargo considered to involve a particular hazard. A specific list of such commodities which by virtue of their properties would create unusual hazard if released, is found in § 124.14(b)(1) of this chapter.

(c) Explosives or other dangerous cargo prohibited from or not permitted for transportation by 46 CFR Parts 146 and 148 or 49 CFR Parts 170-179 shall not be present on the waterfront facility.

(d) Flammable liquids and compressed gases shall be so handled and stored as to provide maximum separation from acids, corrosive liquids, or combustible materials. Storage for flammable solids or oxidizers shall be so arranged as to prevent moisture coming in contact therewith.

(e) Acids and corrosive liquids shall be so handled and stored as to prevent such acids and liquids, in event of leakage, from contacting any organic materials.

(f) Poisonous gases, poisonous liquids, and poisonous solids shall be so handled and stored as to prevent their contact with acids, corrosive liquids, flammable liquids or flammable solids.

(g) Dangerous cargo which may be stored on the waterfront facility shall be arranged in such manner as to retard the spread of fire. This may be accomplished by interspersing dangerous cargo with inert or less combustible materials.

(h) All dangerous cargo stored on the waterfront facility shall be packaged, marked, and labled in accordance with 49 CFR Parts 170-179.

(i) Storage of all radioactive materials shall be so arranged as to preclude a gamma radiation in excess of 200 milliroentgens per hour or physical equivalent at any readily accessible surface.

11. By revising § 126.28 to read as follows:

§ 126.28 Ammonium nitrate, ammonium nitrate fertilizers, fertilizer mixtures, or nitro carbo nitrate; general provisions.

(a) When any item of ammonium nitrate, ammonium nitrate fertilizers, fertilizer mixtures, or nitro carbo nitrate, described and defined as an oxidizer by the regulations of 49 CFR Part 173 is handled, stored, stowed, loaded, discharged or transported on a waterfront facility, the following provisions shall apply:

(1) All outside containers shall be marked with the proper shipping name of the nitrate packed within the container.

(2) The building on a waterfront facility used for storage of any of these materials shall be of such construction as to afford good ventilation.

(3) Storage of any of these materials shall be at a safe distance from electric wiring, steam pipes, radiators or any heating mechanism.

(4) These materials shall be separated by a fire resistant wall or by a distance of at least 30 feet from organic materials or other chemicals and substances which could cause contamination such as flammable liquids, combustible liquids, corrosive liquids, chlorates, permanganates, finely divided metals, caustic soda, charcoal, sulfur, cotton, coal, fats, fish oils or vegetable oils.

(5) Storage of any of these materials shall be in a clean area upon clean wood dunnage, or on pallets over a clean floor. In the case of a concrete floor, storage may be made directly on the floor if it is first covered with a moisture barrier such as a polyethylene sheet or asphaltic laminated paper.

(6) Any spilled material shall be promptly and thoroughly cleaned up and removed from the waterfront facility. If any spilled material has remained in contact with a wooden floor for any length of time the floor shall be scrubbed with water and all spilled material shall be thoroughly dissolved and flushed away.

(7) An abundance of water for firefighting shall be readily available.

(8) Open drains, traps, pits or pockets which could be filled with molten ammonium nitrate if a fire occurred (and thus become potential detonators for the storage piles) must be eliminated or plugged.

NOTE.—See 49 CFR 176.415 for permit requirements for nitro carbo nitrate and certain ammonium nitrates.

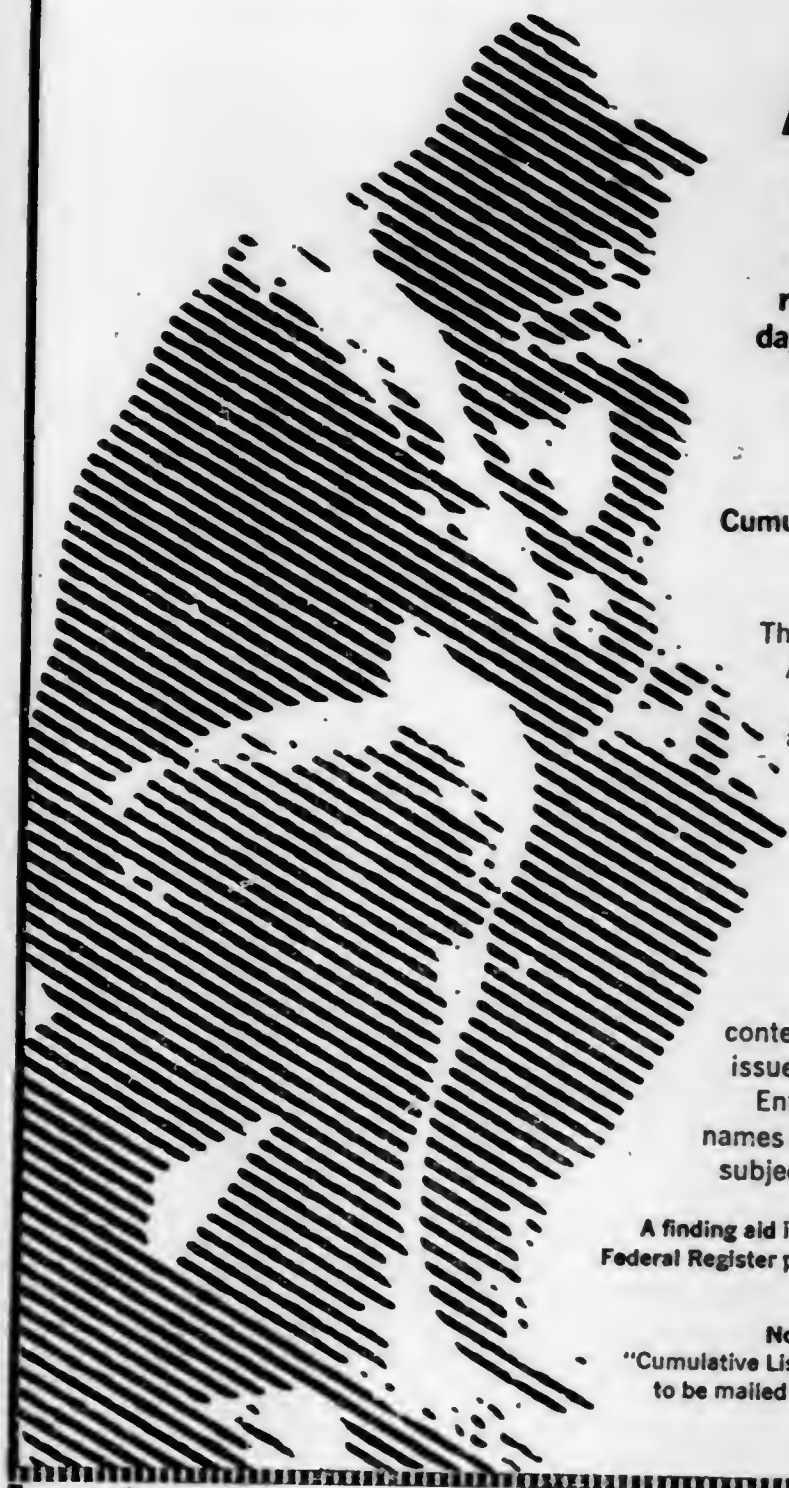
§ 126.29 and § 126.31 [Amended].

12. The authority citations to the Dangerous Cargo Act (R.S. 4472, as amended, 46 U.S.C. 170) following § 126.29 and § 126.31 are deleted.

13. By revising § 126.33 to read as follows:

§ 126.33 Penalties for handling dangerous cargo without permit.

Handling, storing, stowing, loading, discharging, or transporting any dangerous cargo covered by § 126.27 under circumstances not covered by the general permit granted in § 126.27 or when such general permit is not in force will subject persons responsible therefor to the civil or criminal penalties provided in Section 13 of the Ports and Waterways Safety Act, as amended (33 U.S.C. § 1232).



(92 Stat. 1475 (Ports and Waterways Safety Act, as amended, 33 USC 1225); 49 CFR 1.46(n)(4)).

Dated: January 15, 1979.

J. B. HAYES,
Admiral, U.S. Coast Guard
Commandant.

would you like to know

if any changes have been made in certain titles of the CODE OF FEDERAL REGULATIONS without reading the Federal Register every day? If so, you may wish to subscribe to the "Cumulative List of CFR Sections Affected," the "Federal Register Index," or both.

Cumulative List of CFR Sections Affected
$10.00
per year

The "Cumulative List of CFR Sections Affected" is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register, and is issued monthly in cumulative form. Entries indicate the nature of the changes.

Federal Register Index $8.00
per year

Indexes covering the contents of the daily Federal Register are issued monthly, quarterly, and annually. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Note to FR Subscribers: FR Indexes and the "Cumulative List of CFR Sections Affected" will continue to be mailed free of charge to regular FR subscribers.

Mail order form to:
Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402

There is enclosed $_____ for _____ subscription(s) to the publications checked below:

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

***NOTE: As of January 1, 1979, the Merit Systems Protection Board (MSPB) and the Office of Personnel Management (OPM) will publish on the Tuesday/Friday schedule. (MSPB and OPM are successor agencies to the Civil Service Commission.)**

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—
The President

Executive Order 12115 of January 19, 1979

Permanent American Cemetery in the Republic of Panama

By the authority vested in me as President by the Constitution and the laws of the United States of America, including Section 10 of the Act of March 4, 1923 (42 Stat. 1509), as amended (36 U.S.C. 132), and to implement the intent of the United States Senate (124 Cong. Rec. S 3857 of March 16, 1978) as set forth by Reservations (1) and (3) to the Resolution of Ratification of the Treaty Concerning the Permanent Neutrality and Operation of the Panama Canal, it is hereby ordered as follows:

1–101. The Secretary of State shall take all appropriate steps to complete, prior to the date of entry into force of the Treaty Concerning the Permanent Neutrality and Operation of the Panama Canal, hereinafter referred to as the Neutrality Treaty, the negotiations which have begun with the Republic of Panama for an agreement under which the United States of America would, upon the date of entry into force of such agreement and thereafter, administer as a permanent American cemetery such part of Corozal Cemetery as encompasses the remains of citizens of the United States of America.

1–102. Subject to the conclusion of the agreement referred to in Section 1–101 of this Order, the American Battle Monuments Commission shall administer that part of Corozal Cemetery which encompasses the remains of citizens of the United States of America, in accordance with the terms of the agreement with the Republic of Panama.

1–103. The Governor of the Canal Zone shall, to the extent funds are available, disinter from Mount Hope Cemetery, before entry into force of the Neutrality Treaty, and reinter in Corozal Cemetery the remains of United States citizens, and the remains of members of their immediate family that are buried with them. The Governor shall not remove from Mount Hope Cemetery the remains of any such person whose next of kin timely requests in writing that such remains not be disinterred. The Governor shall transport to the United States for reinterment the remains of any such person whose next of kin timely requests in writing that such remains be transported to the United States for reinterment.

1–104. The Secretary of Defense shall, to the extent funds are available, disinter from Corozal Cemetery and transport to the United States for reinterment the remains of United States citizens, and the remains of members of their immediate family buried with them, whose next of kin requests in writing by April 1, 1982, that such remains be transported to the United States for reinterment.

1–105. Subject to the availability of funds, all the costs incurred in the disinterment, reinterment in Corozal Cemetery, and transportation of remains required by this Order, including the costs of preparation, cremation if requested, and a casket or urn, shall be borne by the United States of America. The costs of reinterment in the United States, including any costs for funeral home services, vaults, plots, or crypts, will be the responsibility of the next of kin making the request, except to the extent otherwise provided by law, including any unused specific entitlements available pursuant to statute.

V 4 4 / 1 6 J A 2 3 7 9 UMI

1-106. (a) The Governor of the Canal Zone shall identify, to the extent feasible, the closest surviving next of kin of each deceased United States citizen buried in the Mount Hope and Corozal Cemeteries, and of such next of kin of each member of the immediate family that is buried with such United States citizen.

(b) The Governor shall provide notice to the next of kin of such deceased buried in Mount Hope Cemetery that the Government plans to remove the deceased to Corozal Cemetery unless the next of kin requests in writing, not later than three months after the first issuance of such notification, either that the remains not be removed from Mount Hope Cemetery, or that the remains be moved to, and reinterred in, the United States in a cemetery or other burial site designated by the next of kin.

(c) The Governor shall also provide notice to the next of kin of such deceased who are buried in Corozal Cemetery that the Government will disinter and transport such deceased to the United States for reinterment in a cemetery or other burial site designated by the next of kin, if the next of kin so requests in writing not later than April 1, 1982.

(d) The Governor shall publish the notices provided for in subsections (b) and (c) of this Section in appropriate newspapers, magazines and other periodicals, and utilize such other means of communicating with the next of kin that he finds to be practical and effective.

1-107. The Governor of the Canal Zone shall, before the entry into force of the Neutrality Treaty, fully advise the next of kin of all available options, and their implications, in those cases where a request has been made that remains not be removed from Mount Hope Cemetery.

1-108. The Secretary of the Army shall supervise the planned removal of the remains from Mount Hope Cemetery to Corozal Cemetery and shall ensure compliance with the wishes of any next of kin who, within the time specified in clause B(i) to the Third Reservation to the Neutrality Treaty, objects to such removal.

1-109. As used in this Order:

(a) "Next of kin" means the person whom the Governor of the Canal Zone determines to be the nearest living relative, by consanguinity or affinity, of a person buried at Mount Hope Cemetery or Corozal Cemetery.

(b) "Members of their immediate family" means the spouse, children, mother or father of the deceased United States citizen.

Title 5—Administrative Personnel

CHAPTER I—OFFICE OF PERSONNEL MANAGEMENT

CAREER AND CAREER-CONDITIONAL EMPLOYMENT, TEMPORARY AND TERM EMPLOYMENT, TRAINING, PAY ADMINISTRATION (GENERAL), AND RETIREMENT

Interim Regulations

AGENCY: Office of Personnel Management,

ACTION: Interim regulations with comments invited for consideration in final rulemaking.

SUMMARY: New regulations: (1) Implement section 3112 of title 5, as added by section 307 of the Civil Service Reform Act of 1978 by permitting noncompetitive conversion of veterans having a compensable service-connected disability of 30 percent or more to career or career-conditional appointment from any temporary appointment not limited to 60 days or less, and by permitting such veterans to be given temporary appointments noncompetitively; (2) implement section 4103 of title 5, as amended by section 304 of the Civil Service Reform Act of 1978 by permitting agencies to train employees for placement in other agencies in lieu of separation under conditions which would entitle the employees to severance pay; (3) implement section 5532 of title 5, as amended by section 308 of the Civil Service Reform Act of 1978 by permitting the Office of Personnel Management to make exceptions to the reduction in retired pay of regular military officers only if they retired before January 11, 1979, or were employed in a civilian position on October 13, 1978, and would have been eligible for retired or retainer pay but for age; by permitting the Office to make exceptions to the ceiling on combined income from retired or retainer pay and civilian salary of the retired members of the uniformed services for medical officer positions; and by making agencies responsible for notifying DOD military finance centers of Federal civilian pay changes of retired military personnel; and (4) implement section 306 of the Civil Service Reform Act of 1978 by adding major reorganization and major transfers of function as conditions permitting the Office to authorize early optional retirement.

DATES: Effective date: January 11, 1979, and until final regulations are issued. Comment date: Written comments will be considered if received no later than March 26, 1979.

ADDRESS: Send written comments to Office of the Associate Director for Staffing Services, Office of Personnel Management, Washington, D.C. 20415.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

SUPPLEMENTARY INFORMATION: Pursuant to section 553(d)(3) of title 5, U.S.C., the Director finds that good cause exists for making this amendment effective in less than 30 days, in order to provide continuity of operations and to give immediate and timely effect to the appropriate provisions of the Civil Service Reform Act of 1978.

Accordingly, 5 CFR is amended as follows: (1) Part 315 is amended by adding a new § 315.703d, as follows:

PART 315—CAREER AND CAREER-CONDITIONAL EMPLOYMENT

§ 315.703d Disabled veterans.

(a) Subject to requirements concerning qualifications and probationary period published by the Office in the Federal Personnel Manual, an agency may convert the employment of a disabled veteran who has a compensable service-connected disability of 30 percent or more to career or career-conditional employment from a temporary limited appointment of more than 60 days.

(b) *Tenure on conversion.* (1) Except as provided in subparagraph (2) of this paragraph, a person converted under paragraph (a) of this section becomes a career-conditional employee.

(2) A person appointed under paragraph (a) of this section becomes a career employee if excepted from the service requirement for career tenure by § 315.201(c).

(c) *Acquisition of competitive status.* A person converted under paragraph (a) of this section acquires a competitive status automatically on completion of probation.

(5 U.S.C. 3112)

---

(2) Part 316 is amended by amending subparagraph (4) and adding subparagraph (5) to § 316.402(b), as follows:

PART 316—TEMPORARY AND TERM EMPLOYMENT

§ 316.402 Authorities for temporary appointments.

(a) *General rule.* An agency may make and extend a temporary limited appointment only with specific authorization from the Office, except under the conditions published by the Office in the Federal Personnel Manual or as provided in paragraph (b) of this section.

(b) *Noncompetitive temporary limited appointments.* An agency may give a temporary limited appointment, without regard to the existence of an appropriate register, to:

(1) A person with eligibility for reinstatement;

(2) A person eligible for career or career-conditional appointment under §§ 315.601, 315.605, or 315.606 of this chapter;

(3) A former temporary employee of the agency who was originally appointed from a register, subject to the conditions published in the Federal Personnel Manual;

(4) A veteran or disabled veteran as defined in section 2011(2)(A) of title 38, United States Code, who:

(i) Served on active duty in the armed forces of the United States between August 5, 1964, and May 7, 1975;

(ii) Completed not more than 14 years of education, unless compensably disabled or discharged because of service-connected disabilities, in which case the 14-year educational requirement does not apply; and

(iii) Is qualified to perform the duties of the position. An appointment under this subparagraph may be made only to a position at GS-7 or below, or the equivalent in another pay system, without time limitation after separation from the military service, and not later than September 30, 1981. A veteran who is an applicant for a position at GS-3 and below under this subparagraph is considered to be qualified to perform the duties of the position on

V 4 4 / 1 6 J A 2 3 7 9 UMI

the basis of his or her total military experience; or

(5) A disabled veteran who has a compensable service-connected disability of 30 percent or more.

(5 U.S.C. 3112)

PART 410—TRAINING

(3) Part 410 is amended by adding a new paragraph (d) to § 410.301, as follows:

§ 410.301 Scope and general conduct of training programs.

(a) The head of an agency shall determine the policies which are to govern the training of employees of the agency. These policies shall be set forth in writing and include a statement of the broad purposes for which training will be given and of the assignment of responsibilities for seeing that these purposes are achieved.

(b) The head of an agency also shall take such administrative action as is necessary to assure that:

(1) Plans and programs are developed to meet the short- and long-range training needs of the agency;

(2) Priorities are established for the training programs of the agency;

(3) Provision is made for the use of funds and man-hours, in accordance with established priorities, for the training programs of the agency;

(4) Employee self-development is fostered through a work environment in which self-development is encouraged, self-study materials are reasonably available, and self-initiated improvement in performance is recognized; and

(5) Information with respect to the general conduct of the training program of the agency is available to enable the Office, the President, and Congress to discharge their respective responsibilities under chapter 41 of title 5, United States Code.

(c) Training programs established by the agencies under chapter 41 of title 5, United States Code, shall, to the maximum extent feasible:

(1) Be based on short- or long-range needs, existing or reasonably foreseeable;

(2) Meet as many of these needs as possible, priority considered;

(3) Use work-assignment flexibility to provide experience to promote employee growth for the purpose of increasing the quality and quantity of work produced; and

(4) Be integrated with other personnel management and operating activities.

(d) As provided in subsection (b) of section 4103 of title 5, United States Code, an agency may train any employee of the agency to prepare the employee for placement in another agency when the following conditions are met:

(1) The head of the agency must determine that the employee will otherwise be separated under conditions which would entitle the employee to severance pay under section 5595 of title 5, United States Code;

(2) Before undertaking any training under this section, the head of the agency shall obtain verification from the Office of Personnel Management that there exists a reasonable expectation of placement in another agency;

(3) In selecting an employee for training under this section, the head of the agency shall consider:

(i) The extent to which the current skills, knowledge, and abilities of the employee may be utilized in the new position;

(ii) The employee's capability to learn skills and acquire knowledge and abilities needed in the new position; and

(iii) The benefits to the Government which would result from retaining the employee in the Federal service.

(5 U.S.C 4103)

PART 550—PAY ADMINISTRATION (GENERAL)

(4) Part 550 is amended by amending § 550.603 and adding § 550.604, as follows:

§ 550.603 Exceptions to reduction in retired or retainer pay.

(a) The Office may authorize exception to the restrictions in 5 U.S.C. 5532(b), without regard to the provisions of 5 U.S.C. 5532 (c) and (e), when the exception is warranted because of special or emergency employment needs of an agency in the executive branch or the government of the District of Columbia which otherwise cannot be readily met. This subsection applies only to:

(i) Any retired officer of a regular component of the uniformed services who was receiving retired pay on or before January 11, 1979; or

(ii) Any individual employed in a position on October 13, 1978, so long as the individual continues to hold any such position (disregarding any break in service of 3 days or less) if the individual, on that date, would have been entitled to retired or retainer pay but for the fact that the individual did not satisfy any applicable age requirement.

(b) Except as otherwise provided in subsection (a), the Office may, during the period until January 11, 1984, authorize exceptions to the restrictions in 5 U.S.C. 5532 (a), (b), and (c) only when necessary to meet special or emergency employment needs which result from a severe shortage of well qualified candidates in positions of medical officers which otherwise cannot be readily met. Such exception granted by the Office with respect to any individual shall terminate upon a break in service of 3 days or more.

§ 550.604 Responsibilities of military pay centers.

The Department of Defense military pay centers are responsible for determining the amount of military retired or retainer pay to be withheld. Federal agencies are responsible for notifying the Department of Defense concerning the Federal civilian pay of retired military personnel according to instructions provided in the Federal Personnel Manual.

(5 U.S.C. 5532)

PART 831—RETIREMENT

(5) Part 831 is amended by amending § 831.109, as follows:

§ 831.109 Major Reorganization, reduction in force, or transfer of function.

Determinations of major reorganization, major reduction in force, or major transfer of function for purposes of early optional retirement under section 8336(d)(2) of title 5, United States Code, as amended, will be made by the Office of Personnel Management only after receipt of written request to make the determinations from the agency head, or his designee.

(5 U.S.C. 8336(d)(2))

OFFICE OF PERSONNEL MANAGEMENT,
JAMES C. SPRY,
Special Assistant to the Director.

Title 7—Agriculture

CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTIONS, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

PART 180—REGULATIONS AND RULES OF PRACTICE UNDER THE PLANT VARIETY PROTECTION ACT

CORRECTION OF RULES

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notification of authority citation.

SUMMARY: The agency adopted final rules at 43 FR 9782 (March 10, 1978) relating to limits of reciprocity for Israeli nationals applying for plant variety protection on asexually-reproduced plants in the United States. This document adds the authority citation under which those rules were issued.

DATE: March 10, 1978.

FOR FURTHER INFORMATION CONTACT:

Bernard M. Leese (301) 344-2518.

SUPPLEMENTARY INFORMATION: The proper authority citation for the rule documents published at 43 FR 9782 is as follows:

(Section 6, 84 Stat. 1542, 7 U.S.C. 2326).

Dated: January 17, 1979.

JAMES E. SPRINGFIELD,
Acting Deputy Administrator, Marketing Program Operations.

CHAPTER XI—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS: MISCELLANEOUS COMMODITIES), DEPARTMENT OF AGRICULTURE

PART 1270—WOOL AND MOHAIR ADVERTISING AND PROMOTION

Subpart—Procedure for the Conduct of Referendums

APPENDIX I—AGREEMENT BETWEEN THE AMERICAN SHEEP PRODUCERS COUNCIL, INC., AND THE U.S. DEPARTMENT OF AGRICULTURE

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice of Effective Date.

SUMMARY: This document announces that the requisite number of sheep and wool producers voting in a referendum have approved a new agreement between the U.S. Department of Agriculture (USDA) and the American Sheep Producers Council, Inc., (ASPC). The agreement has been signed by the appropriate officials of ASPC and USDA and is now effective. The agreement authorizes USDA to make deductions from the incentive payments made to producers under the National Wool Act of 1954, as amended, on shorn wool and unshorn lambs marketed during the years 1978 through 1981. Amounts so deducted are to be used by ASPC for advertising and sales promotion programs and programs for the dissemination of information on product quality, production management, and marketing improvement for wool, sheep, or the products thereof.

EFFECTIVE DATE: December 18, 1978.

FOR FURTHER INFORMATION, CONTACT:

Ralph L. Tapp, Livestock, Poultry, Grain, and Seed Division, AMS, USDA, Washington, D.C., 20250, 202-447-3970.

SUPPLEMENTARY INFORMATION: Pursuant to Section 708 of the National Wool Act of 1954, as amended (7 U.S.C. 1787), a referendum was held among sheep and wool producers in the United States on August 21-September 1, 1978, to determine whether they approved a proposed new agreement between USDA and the American Sheep Producers Council, Inc. In the referendum, 24,692 producers, constituting 75.3 percent of the voting producers, voted in favor of the agreement and 8,105 producers or 24.7 percent voted against it. The producers voting in favor owned 5,137,091 sheep or 83.4 percent of the sheep or lambs owned by all the voting producers. Producers owning 1,023,530 sheep or 16.6 percent opposed the agreement. Anyone who owned sheep or lambs 6 months of age or older in the United States, continuously, for a period of at least 30 days during the calendar year 1977 was eligible to vote.

Under the new agreement, deductions will be made from payments on 1978 marketings at the rate of 2½ cents per pound of shorn wool marketed, and at a comparable rate, as determined by the Administrator, AMS, on unshorn lambs and yearlings (pulled wool) marketed; thereafter, the deductions shall be at such rates as the Administrator, AMS, and the ASPC may agree upon, but in no event shall the rates be in excess of the rates specified for calendar year 1978. Amounts so deducted are to be used by ASPC for advertising and sales promotion programs and programs for the dissemination of information on product quality, production management, and marketing improvement for wool, sheep, or the products thereof.

Under authority delegated to me (38 FR 22955, August 28, 1973; 30 FR 23076, June 26, 1974), I have determined that the agreement has the approval of the number of producers required by Section 708 of the National Wool Act of 1954, as amended, since more than two-thirds of the total number of producers, and producers of more than two-thirds of the total volume of production represented in the referendum, indicated approval of the agreement. The text of the agreement was published as Appendix I—Agreement between the American Sheep Producers Council, Inc., and the U.S. Department of Agriculture to Part 1270 and adopted July 25, 1978 (43 FR 32121).

The agreement was signed and became effective on December 18, 1978.

(Sec. 708, 68 Stat. 912, as amended, (7 U.S.C. 1787).)

Dated: January 17, 1979.

JAMES E. SPRINGFIELD,
Acting Deputy Administrator, Marketing Program Operations.

[FR Doc. 79-2280 Filed 1-22-79; 8:45 am]

[4410-10-M]

Title 8—Aliens and Nationality

CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

NOTIFICATION TO ALIENS OF THE AVAILABILITY OF FREE LEGAL SERVICES PROGRAMS

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Final Rule.

SUMMARY: This final rulemaking order amends the regulations of the Immigration and Naturalization Service to provide that aliens under exclusion and deportation proceedings must be advised of the availability of free legal services programs, and organizations recognized pursuant to 8 CFR 292.2. The regulation also establishes procedures and criteria under which organizations offering free legal services may qualify for appearance on the Service listing of such organizations which is to be furnished to the aliens. The regulations also provide that the alien be furnished with a Notice advising him of his appeal rights. These final rules are necessary and intended to establish procedures for informing aliens of the availability of free legal services programs in order to afford them full opportunity to obtain legal representation when involved in deportation or exclusion proceedings before this Service.

EFFECTIVE DATE: February 22, 1979.

FOR FURTHER INFORMATION CONTACT:

James G. Hoofnagle, Jr., Instructions Officer, Immigration and Naturalization Service. Telephone: (202) 633-3048

SUPPLEMENTARY INFORMATION: On September 27, 1978, the Service published a notice of proposed rulemaking at 43 FR 43721 which proposed amendments to 8 CFR 235.6(a), 236.2(a), 242.1(c), 242.2(a), 242.16(a), and 287.3, and proposed addition of a new Part 292a. The proposed amendments to the above cited sections of

the regulations provided that when the Service advises an alien of his right to counsel in proceedings before this Service, it will also advise him of the availability of free legal services programs located within the district in which the proceedings are to be held and also provide him with a list of such free legal services programs and a list of organizations recognized under 8 CFR 292.2 which are available in that district. In addition, at the time the alien is advised of his right to counsel and the availability of free legal services, he is to be provided with a copy of Form I-618, Written notice of Appeal Rights. New 8 CFR Part 292a which was proposed in the above referenced notice of proposed rulemaking sets forth the procedure and criteria under which organizations providing free legal services would apply to the Service to be place on the list required to be maintained in the various Service districts.

In response to this notice of proposed rulemaking, the Service received over 60 responses from legal aid societies, charitable organizations and other organizations which represent the interest of aliens in the United States, practicing attorneys and concerned individuals with respect to these proposed rules. The Service also received three petitions signed by numerous individuals and over 100 postal cards objecting to the proposed language of 8 CFR 287.3. A description of the major responses received in connection with this notice of proposed rulemaking, along with the response of the Service, follows.

The most vociferous criticism of the proposed rule was of the proposed amendment to 8 CFR 287.3. 8 CFR 287.3 deals generally with the manner in which the Service is to process aliens arrested without a warrant. The Service proposed to amend this section by providing that after the examining officer determines that formal proceedings will be instituted the alien arrested without a warrant shall be advised of the reason for his arrest, of his right to be represented by counsel of his own choice at no expense to the Government and that he shall be provided with a list of available free legal services programs and organizations recognized pursuant to 8 CFR 292.2 located in the district where his deportation hearing will be held. The responses criticized the timing of the advice to the alien of his right to counsel and of the availability of free legal services. The representations and petitions addressed to this point urged that the Service advise an alien arrested without a warrant of his right to counsel and of the availability of free legal services programs immediately upon his arrest prior to the commencement of any interrogation by immigration officers. They argue that to do otherwise is contrary to the alien's due process right and that to fail to provide the advice as to right to counsel prior to any interrogation renders the right to counsel meaningless. It is also contended that unless counsel is provided prior to interrogation, the alien will be unable to make knowing and intelligent waivers of any of his rights and will have already admitted deportability or made other damaging statements or have signed a request for voluntary return, thus, rendering any legal advice subsequently provided meaningless.

There is no statutory or constitutional mandate that advice be given to an alien during his interrogation. To safeguard the alien's procedural due process right, the advice concerning his right to counsel, including free legal services will be given to the alien at that stage in the interrogation when the immigration officer has determined that formal proceedings will be instituted.

Other representations which were submitted urged that the Immigration and Naturalization Service establish in this regulation criteria for determining indigency so these services would be provided on a uniform basis throughout the country and to insure that aliens not receive free legal services from a legal services organization in one part of the country, while under the same circumstances he may not receive such representation in another part of the country. The Service does not feel that it is appropriate to establish in these regulations standards for indigency which must be met before a legal services agency may accept a case of an alien based on indigency. The charters, regulations and statutory framework under which organizations funded by the Legal Services Corporation and other organizations which provide legal services to indigent persons operate, have their own standards for determining whether or not a person is or should be permitted to take advantage of those services based on indigency. The Service does not feel it would be appropriate to attempt to establish criteria for indigency in such a manner as to tell the various organizations providing legal services how to go about determining who will qualify. It is our view that the various organizations are responsible and should be permitted to establish criteria under which they will accept cases and that the Service has no place being involved in that determination.

In a number of representations, the criticism was raised that there was no provision to advise the alien of the availability of free legal services in writing, in English and in his own language, and that the written notice of appeal rights was printed only in English. With regard to notification to the alien in his own language, it has been the practice to provide interpreters if necessary. The Service will continue this practice and the rule will not be amended. The Form I-618, Written Notice of Appeal Rights, has been published in the Spanish language. Publication in other languages will be considered as the need arises.

A small number of individuals submitting representations complained that the Service was without authority to issue these regulations because they were contrary to the provisions of section 292 of the Immigration and Nationality Act. They base their argument on the fact that a number of the legal services organizations are funded by the Federal Legal Services Corporation; therefore, the money which they receive is Government money; and, as a result, an individual represented by a legal services corporation funded organization is being represented at the expense of the Government.

The Service finds no conflict between the limitation in section 292 of the Act and the availability of free legal services rendered by those organizations which are recipients of funds provided by certain Federal agencies or the Legal Service Corporation.

Several representations objected to vesting in the district directors and officers-in-charge final authority to grant applications by organizations to have their names appear on the Service list and suggested that the Board of Immigration Appeals be authorized to entertain appeals from such determinations. The proposed regulation will be redrafted to limit the grounds for denial of applications or removal from the list to the failure of the applicant organization to meet the qualifications set forth in new 8 CFR 292a.2. Provision will also be made for organizations to appeal decisions denying applications or removing an organization from the list to the Regional Commissioner. The proposed regulation will also be redrafted to allow an organization whose name appears on the list to apply for removal from the list to the district director of officer-in-charge.

A few representations suggested that there be included in the Service list the names of private attorneys and social services organizations who do not have attorneys on their staff. Private attorneys who are available to provide free legal services to aliens in deportation or exclusion proceedings can accomplish this objective by having their names appear on the bar association list under their referral system. Also, the proposal will be amended to provide that an organization may be listed if it retains, at no expense to the alien, attorneys to provide representation in exclusion or deportation proceedings.

One legal services organization suggested that no application form be required of them since the Legal Services Corporation could provide a list of the legal services organizations in the given area and that to require submission of applications would only consume time and paper. The application is only used as a medium to convey to the Service the desire, willingness and ability of the organization to provide free legal services in accordance with this regulation. Without the application the Service will not know which agencies are willing and available to provide free legal services for aliens in proceedings before the Service.

Another organization suggested that proposed 8 CFR 292a be modified to state that referral should be made to representatives, as well as attorneys. This would enable paralegals, law students and the like to engage in this work. The Service cannot amend the rule as recommended because under 8 CFR 292.2, only the Board of Immigration Appeals has authority to permit individuals who are not attorneys, to represent aliens. These individuals must be sponsored by the organization recognized under 8 CFR 292.2(b).

Accordingly, the following amendments will be made to the proposed rules:

1. A new subparagraph will be added to 8 CFR 103.1(m) relating to the appellate jurisdiction of Regional Commissioners to provide them jurisdiction in appeals of decisions dealing with application for or removal from, the listing of free legal services.

2. Proposed 8 CFR 292a.2 will be amended to provide that an organization may also be included on the Service list if it retains, at no expense to the alien, attorneys as defined in 8 CFR 1.1(f) who are available to render free legal services by representation in exclusion or deportation proceedings.

3. Proposed 8 CFR 292a.4 will be revised to provide that denial of an application to appear on the Service list must be based on the failure of the organization to meet the qualifications specified in 8 CFR 292a.2, and that the organization shall be advised of its right to appeal to the Regional Commissioner in accordance with 8 CFR 103.1 and 103.3.

4. Proposed 8 CFR 292a.5 will be amended to provide that removal of an organization from the list shall be based on the failure of the organization to meet the qualifications specified in 8 CFR 292a.2 and that such removal may be appealed to the Regional Commissioner in accordance with 8 CFR 103.1 and 103.3. In addition, this section will be amended to provide that a request for an organization to have its name removed from the list shall be honored by the District Director or Officer-in-Charge.

In the light of the foregoing, the following amendments are hereby made to Chapter I of Title 8 of the Code of Federal Regulations:

PART 103—POWERS AND DUTIES OF SERVICE OFFICERS; AVAILABILITY OF SERVICE RECORDS

1. In Part 103, § 103.1(m) is amended by adding a new subparagraph (22) to read as follows:

§ 103.1 Delegations of authority.

* * * * * *

(m) *Regional Commissioners.* * * *

* * * * * *

(22) Decisions on applications by organizations to be listed on the Service listing of free legal services programs and decisions to remove organizations from such list. See Part 292a of this chapter.

* * * * * *

PART 235—INSPECTION OF PERSONS APPLYING FOR ADMISSION

2. In Part 235, the title of § 235.6 is revised and the text of § 235.6(a) is revised as set forth below:

§ 235.6 Referral to immigration judge.

(a) *Notice.* If, in accordance with the provisions of section 235(b) of the Act, the examining immigration officer detains an alien for further inquiry before an immigration judge, he shall immediately sign and deliver to the alien a Notice to Alien Detained for Hearing by an Immigration Judge (Form I-122). If the alien is unable to read or understand the notice, it shall be read and explained to him by an employee of the Service, through an interpreter, if necessary, prior to such further inquiry. In addition, the alien shall be advised of his right to representation by counsel of his choice at no expense to the Government, and of the availability of free legal services programs qualified under Part 292a of this chapter and organizations recognized pursuant to § 292.2 of this chapter, located in the district where the alien is being detained. He shall, also be furnished with a list of such programs.

* * * * * *

PART 236—EXCLUSION OF ALIENS

3. § 236.2(a) is amended by revising the third sentence to read as follows:

§ 236.2 Hearing.

(a) *Opening.* * * * The Immigration Judge shall ascertain whether the applicant for admission is the person to whom Form I-122 was previously delivered by the examining immigration officer as provided in Part 235 of this chapter; enter a copy of such form in evidence as an exhibit in the case; inform the applicant of the nature and purpose of the hearing; advise him of the privilege of being represented by an attorney of his own choice at no expense to the Government, and of the availability of free legal services programs qualified under Part 292a of this chapter and organizations recognized pursuant to § 292.2, of this chapter located in the district where his exclusion hearing is to be held; and shall ascertain that the applicant has received a list of such programs; and request him to ascertain then and there whether he desires representation; advise him that he will have a reasonable opportunity to present evidence in his own behalf, to examine and object to evidence against him, and to cross-examine witnesses presented by the Government; and place the applicant under oath.

* * * * * *

PART 242—PROCEEDINGS TO DETERMINE DEPORTABILITY OF ALIENS IN THE UNITED STATES: APPREHENSION, CUSTODY, HEARING, AND APPEAL

4. § 242.1(c) is revised by adding three new sentences to the end thereof. As revised, § 242.1(c) reads as follows:

§ 242.1 Order to show cause and notice of hearing.

* * * * * *

(c) *Service.* Service of the order to show cause may be accomplished either by personal service or by routine service; however, when routine service is used and the respondent does not appear for hearing or acknowledge in writing that he has received the order to show cause, it shall be reserved by personal service. When personal delivery of an order to show cause is made by an immigration officer, the contents of the order to show cause shall be explained and the respondent shall be advised that any statement he makes may be used against him. He shall also be advised of his right to representation by coun-

V 4 4 / 1 6 JAN 23 79 UMI

sel of his own choice at no expense to the Government. He shall also be advised of the availability of free legal services programs qualified under Part 292a of this chapter and organizations recognized pursuant to § 292.2 of this chapter, located in the district where his deportation hearing will be held. He shall be furnished with a list of such programs, and a copy of Form I-618, Written Notice of Appeal Rights, regardless of the manner in which the service of the order to show cause was accomplished. Service of these documents shall be noted on Form I-213.

• • • • •

5. Section 242.2(a) is amended by changing the term "special inquiry officer" to "immigration judge" wherever it appears. Section 242.2(a) is further amended by adding three new sentences between the existing fourth and fifth sentences respecting advice to aliens concerning free legal services programs. The three sentences which are added read as follows:

§ 242.2 Apprehension, custody, and detention.

(a) *Warrant of arrest.* • • • He shall also be advised of the availability of free legal services programs qualified under Part 292a of this chapter and organizations recognized pursuant to § 292.2 of this chapter, located in the district where his deportation hearing will be held. He shall be furnished with a list of such programs, and a copy of Form I-618, Written Notice of Appeal Rights. Service of these documents shall be noted on Form I-213. • • •

6. Section 242.2(b) is amended by revising the title thereof as set forth below, and by changing the term "special inquiry officer" to "immigration judge" wherever it appears. Section 242.2(b) is further amended by adding four new sentences between the existing fifth and sixth sentences which pertain to notification of aliens of the availability of free legal services and appeal rights. The four sentences which are added read as follows:

• • • • •

(b) *Authority of immigration judge; appeals.* • • • In connection with such application the immigration judge shall advise the respondent of his right to be represented by counsel of his own choice at no expense to the Government. He shall also be advised of the availability of free legal services programs qualified under Part 292a of this chapter and organizations recognized pursuant to § 292.2 of this chapter, located in the district where his application is to be heard. The Immigration Judge shall ascertain that the respondent has received a list of such programs, and the receipt by the respondent of a copy of Form I-618, Written Notice of Appeal Rights. Upon rendering a decision on an application under this section, the Immigration Judge (or district director if he renders the decision) shall advise the alien of his appeal rights under this section. • • •

• • • • •

7. Section 242.16(a) is revised to read as follows:

§ 242.16 Hearing.

(a) *Opening.* The Immigration Judge shall advise the respondent of his right to representation, at no expense to the Government, by counsel of his own choice authorized to practice in the proceedings and require him to state then and there whether he desires representation; advise the respondent of the availability of free legal services programs qualified under Part 292a of this chapter and organizations recognized pursuant to § 292.2 of this chapter, located in the district where the deportation hearing is being held; ascertain that the respondent has received a list of such programs, and a copy of Form I—618, Written Notice of Appeal Rights; advise the respondent that he will have a reasonable opportunity to examine and object to the evidence against him, to present evidence in his own behalf and to cross-examine witnesses presented by the Government; place the respondent under oath; read the factual allegations and the charges in the order to show cause to the respondent and explain them in nontechnical language, and enter the order to show cause as an exhibit in the record. Deportation hearings shall be open to the public, except that the Immigration Judge may, in his discretion and for the purpose of protecting witnesses, respondents, or the public interest, direct that the general public or particular individuals shall be excluded from the hearing in any specific case. Depending upon physical facilities, reasonable limitation may be placed upon the number in attendance at any one time, with priority being given to the press over the general public.

• • • • •

PART 287—FIELD OFFICERS; POWERS AND DUTIES

8. Section 287.3 is amended by changing the term "special inquiry officer" to "immigration judge" wherever it appears. Section 287.3 is further amended by revising the fourth sentence and adding two new sentences, immediately preceding the existing fifth sentence. The amendments read as follows:

§ 287.3 Disposition of aliens arrested without warrant.

• • • After the examining officer has determined that formal proceedings under sections 236, 237, or 242 of the Act, will be instituted, an alien arrested without warrant of arrest shall be advised of the reason of his arrest and his right to be represented by counsel of his own choice, at no expense to the Government. He shall also be provided with a list of the available free legal services programs qualified under Part 292a of this chapter and organizations recognized pursuant to § 292.2 of this chapter, located in the district where his deportation hearing will be held. It shall be noted on Form I-213 that such a list was provided to the alien. • • •

• • • • •

---

9. A new Part 292a which reads as follows is hereby added:

PART 292a—LISTING OF FREE LEGAL SERVICES PROGRAMS

Sec.
292a.1 Listing.
292a.2 Qualifications.
292a.3 Applications.
292a.4 Approval and denial of applications.
292a.5 Removal of an organization from list.

AUTHORITY: Sec. 103; 8 U.S.C. 1103, Interpret or apply secs. 242 and 292 (8 U.S.C. 1252 and 1362).

§ 292a.1 Listing.

District directors and officers-in-charge shall maintain a current list of organizations qualified under this Part and organizations accredited under § 292.2 of this chapter within their respective jurisdictions for the purpose of providing aliens in deportation or exclusion proceedings with a list of such organizations as prescribed in this chapter.

§ 292a.2 Qualifications.

An organization which seeks to have its name appear on the Service list described in § 292a.1 must show that it is established in the United States, provides free legal services to indigent aliens, has on its staff attorneys as defined in § 1.1(f) of this chapter or retains, at no expense to the alien, attorneys as defined in § 1.1(f) of this chapter, who are available to render such free legal services by representation in deportation or exclusion proceedings. Bar associations which provide a referral service of attorneys who render pro bono assistance to aliens in deportation or exclusion proceedings may also qualify to have their names appear on the Service list. Listing of an organization qualified under this part is not equivalent to recognition under § 292.2 of this chapter.

§ 292a.3 Applications.

Applications by organizations to qualify for listing under this Part shall be submitted to the district director or officer-in-charge having jurisdiction over each area in which free legal services are being provided by the organization. The application shall be supported by a declaration signed by an authorized officer of the organization that the organization complies with all the qualifications set out in § 292a.2.

§ 292a.4 Approval and denial of applications.

District directors or officers-in-charge shall have the authority to grant or deny an application submitted by an organization under this Part, within their respective jurisdiction. If an application is denied, the applicant shall be notified of the decision in writing giving the grounds for such denial. Denial must be based on the failure of the organization to meet the qualifications specified in § 292a.2. The organization shall be advised of its right to appeal to the Regional Commissioner in accordance with §§ 103.1 and 103.3 of this chapter.

§ 292a.5 Removal of an organization from list.

If the district director or officer-in-charge is satisfied that an organization listed under § 292a. does not meet the qualifications as set out in § 292a.2, he shall notify the organization concerned, in writing, of his intention to remove its name from the Service list. The organization may submit an answer within 30 days from the date the notice was served. If, after considering the answer by the organization, in the event an answer is submitted, the district director or officer-in-charge determine that the organization does not qualify under § 292a.2, he shall remove its name from the list. Removal must be based on the failure of the organization to meet the qualifications specified in § 292a.2 of this chapter. The organization shall be advised of its right to appeal to the Regional Commissioner in accordance with §§ 103.1 and 103.3 of this chapter. If an organization applies to the district director or officer-in-charge to have its name removed from the Service list, that request shall be honored.

(Sec. 103; 8 U.S.C. 1103, Interpret or apply secs. 242 and 292 (8 U.S.C. 1252 and 1362).)

Effective date: The amendments contained in this order become effective on February 22, 1979.

Dated: January 18, 1979.

LEONEL J. CASTILLO,
Commissioner of Immigration and Naturalization.

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER B—PROCEDURAL REGULATIONS

[Regulation PR-192, Amdt. No. 2; Docket 34512]

PART 300—RULES OF CONDUCT IN BOARD PROCEEDINGS

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., January 18, 1979.

AGENCY: Civil Aeronautics Board.

ACTION: Final Rule.

SUMMARY: The Board, on its own initiative, is modifying its present *ex parte* rule to permit Board employees in non-hearing cases to consult with other federal agencies and in certain small community air service cases to consult with any interested persons. A written summary of any such communication would have to be placed in the docket for the case. In addition, the amendment will conform the definition of the class of communications barred by the rule to match the definition given in the Administrative Procedure Act, 5 U.S.C. 557(d), of proscribed *ex parte* communications.

DATES: Effective: January 18, 1979. Adopted: January 18, 1979.

FOR FURTHER INFORMATION CONTACT:

Thomas L. Ray, Office of the General Counsel, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428, 202-673-5424.

SUPPLEMENTAL INFORMATION: The Board's present rule on *ex parte* communications, 14 CFR 300.2, 300.3, was adopted in 1977 to substantially strengthen the earlier prohibition against *ex parte* communications. PR-166, adopted March 29, 1977, 42 FR 17436 (April 1, 1977). As a result of that strengthening, our rule is considerably stricter than the *ex parte* rule in the Administrative Procedure Act (APA), 5 U.S.C. 557(d), added by the Government in the Sunshine Act, Pub. L. 94-409, 90 Stat. 1241 (September 13, 1976). The principal difference is our own rule's coverage of more kinds of proceedings than are covered by the APA. The APA *ex parte* prohibition applies only to proceedings in which a hearing is required. We have found that the broader coverage of our rule is beneficial and, for the most part, requires no changes.

Our experience with the rule, however, has shown a need to modify it in some respects. First, there are communications in two kinds of non-hearing cases which need to be exempted from the bar against *ex parte* communications in order for us to properly carry out our duties. The first kind concerns the Board's responsibility under Section 419 of the Federal Aviation Act, 49 U.S.C. 1389, added by Section 33(a) of the Airline Deregulation Act of 1978 (Pub. L. 95-504) to arrange for the provision of essential air service to the small communities entitled to it. In determining the air service needs of the eligible communities, we are expressly directed by the legislation to consult with the communities and the appropriate state agencies. The Board, moreover, will probably need to discuss with the incumbent and applicant carriers how best to meet the service needs of these communities. Under our present rule, the *ex parte* prohibition would not begin to apply to a Section 419 proceeding until it became a "public proceeding" within the meaning of the rule. Nonetheless, even after institution of such a proceeding, we believe it likely that we will have discussions with the communities, states, and the carriers. To avoid cutting off these discussions, we have decided to amend the *ex parte* rule to exempt them from the prohibition against *ex parte* communications, so long as the proceeding has not been set for hear-

V 4 / 16 J A 23 79 UMI

ing. To preserve the fairness of our decision of such cases, however, we will require that a written summary be filed in the docket under Section 300.3 of our rules.

In addition, we have found from experience that the Board's duties from time to time require our staff to discuss with other federal agencies matters which are at issue in public proceedings. Such discussions are permitted by the APA in non-hearing cases, but not now by our own rule. We recently determined to waive the *ex parte* prohibition in two Board proceedings because we found it necessary for our staff to hold discussions with the Federal Aviation Administration and Department of Transportation. Orders 78-11-67 (November 16, 1978) and 78-11-68 (November 16, 1978). To avoid the need for such waivers in the future, we are amending our *ex parte* rule to permit discussions between our staff and other federal agencies in non-hearing cases. Like the discussions in Section 419 proceedings, however, a summary of such discussions with other agencies will have to be made publicly available. Communications concerning national defense and foreign policy matters, which are already exempted by paragraph (e), will retain that exemption and will not be subject to the requirement that a summary be made publicly available.

Secondly, the present rule was adopted shortly after Congress added a comprehensive *ex parte* prohibition to the Administrative Procedure Act (APA). The Board's rule, however, uses somewhat different language than the APA in defining the kind of communications considered to be *ex parte*. While the APA speaks of communications "relevant to the merits of the proceeding" from "interested persons," the Board's rule bans "any • • • statement that could influence a decision on any significant issue, of procedure or on the merits, in a public proceeding." We see no reason for preserving these differences in language, which can cause confusion without providing any benefit.[1] Accordingly, we will conform to the Board rule's description of the kind of communications prohibited by it to that of the APA.

Finally, our present rule's definition of "public proceeding" does not cover proceedings instituted by a show-cause order issued on the Board's own motion, rather than in response to a docket filing, *e. g.* the Board's reexamination through a show-cause proceeding of the International Air Transport Association (IATA) traffic conference machinery, Order 78-6-78 (June 9, 1978). When such cases are contested, they should be protected by the *ex parte* rule as soon as a document opposing the order's tentative findings is filed in the docket. This amendment of the rule therefore expands the definition of "public proceeding" so that it includes such show-cause proceedings.

The Board finds that the public interest requires that this amendment take effect immediately, since it will enable the Board to better carry out its responsibilities. In particular, the Board's staff, under a statutorily imposed timetable, has already begun work on the new small community service program mandated by Section 419 of the Act, and the Board is already taking action under that section. Furthermore, this amendment essentially concerns matters of agency procedure and practice which will not prejudice any party in a Board proceeding. We therefore find that notice and public procedure are contrary to the public interest, which requires that this amendment become effective immediately. We also find there is good cause for omitting the 30 days' advance notice ordinarily required for rulemaking.

While we have found a need to make this amendment effective immediately, we do wish to give the public an opportunity to comment on these rules. We are therefore issuing simultaneously a notice of proposed rulemaking in order to provide the public that opportunity.

Accordingly, effective January 18, 1979, the Board hereby amends Part 300, *Rules of Conduct in Board Proceedings* (14 CFR Part 300), as follows:

1. Paragraphs (a), (b)(1), (b)(3), and (c) of § 300.2 are amended to read as follows:

§ 300.2 Prohibited communications.

(a) *Basic requirement.* Except as provided in paragraphs (c), (d), and (e), there shall be no substantive communication in either direction between any concerned Board employee and any interested person outside the Board, concerning a public proceeding, until after final disposition of the proceeding, other than as provided by Federal statute or published Board rule or order.

(b) *Definitions.* For purposes of this part:

(1) A "substantive communication" is any written or oral communication relevant to the merits of the proceeding.

• • • • • •

(3) A "public proceeding" is one of the following:

(i) A proceeding for which a Federal statute requires a hearing, after the filing of the document initiating the proceeding, or a matter on which the Board has ordered a hearing at which an employee presides at the taking of evidence, after the issuance of the order (such a proceeding is referred to as a "hearing case," with any other proceeding sometimes referred to as a "nonhearing case").

(ii) A rulemaking proceeding, after the issuance by the Board of a notice requesting public comment.

(iii) A tariff filing after the Board has ordered an investigation or a complaint has been filed or docketed.

(iv) A proceeding initiated by a Board show-cause order, after the filing in the docket of an identifiable written opposition to the order's tentative findings.

(v) Any other proceeding initiated by a docket filing, after the filing in the docket of an identifiable written opposition to the initiating document.

(c) *General exceptions.* Paragraph (a) of this section shall not apply to the following:

(1) Informal communications • • •.

• • • • • •

(7) Nonhearing cases • • •.

(8) Nonhearing cases arising under Section 419 of the Federal Aviation Act, 49 U.S.C. 1389.

(9) In nonhearing cases, communications with other Federal agencies not exempted by paragraph (e) of this section.

2. § 300.3(a) is amended by adding the following new paragraphs (5) and (6):

§ 300.3 Reporting of communications.

(a) • • •

(5) Communications in nonhearing cases arising under Section 419 of the Federal Aviation Act, 49 U.S.C. 1389, made under § 300.2(c)(8).

(6) Communications in nonhearing cases with other agencies of the Federal government under § 300.2(c)(9).

• • • • • •

(Sections 204 and 1001 of the Federal Aviation Act of 1958 as amended, 72 Stat. 743, 788, 49 U.S.C. 1324, 1481).

By the Civil Aeronautics Board:

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc. 79-2341 Filed 1-23-79; 8:45 am]

[1] We note that the APA rule does not expressly proscribe communications involving a significant procedural issue. We assume, however, that a communication on a significant procedural issue relevant to a case's merits could be held barred by the APA rule.

[6320-01-M]

[Regulation PR-190; Amdt. No. 50; Docket 34304]

PART 302—RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. January 17, 1979.

AGENCY: Civil Aeronautics Board.

ACTION: Final Rule.

SUMMARY: In PR-191, also adopted today, the Board established new rules governing unused authority under the Airline Deregulation Act of 1978. This rule makes ancillary changes to the Board's Rules of Practice.

DATES: Adopted: January 17, 1979. Effective: January 17, 1979.

FOR FURTHER INFORMATION CONTACT: Mark Schwimmer, Office of the General Counsel, Civil Aeronautics Board, Washington, D.C. 20428 (202) 673-5442.

SUPPLEMENTARY INFORMATION: New rules governing unused authority appear in Part 321. This amendment of Part 302 revokes the old rules, which were in Subpart R. Conforming changes are also made in Subpart I. Supplementary information about these rules appears in PR-191, also adopted today.

Accordingly, the Civil Aeronautics Board amends Part 302, *Rules of Practice in Economic Proceedings* (14 CFR Part 302) as follows:

1. Section 302.901 is revised to read:

§ 302.901 Applicability.

This subpart sets forth the special rules applicable to proceedings for conferment and/or modification of route authority under sections 401 and 402 of the Federal Aviation Act of 1958. However, this subpart does not apply to applications for unused authority under section 401(d)(5) of the Act and Part 321 of this chapter or applications for automatic market entry under section 401(d)(7) and Part 322 of this chapter. For information as to other applicable rules, reference should be made to Subpart A of this part, to the Federal Aviation Act, and to the substantive rules (Parts 201 and 211 for the form of applications) and orders of the Board.

2. In § 302.908, paragraph (a) is revised to read:

§ 302.908 Applications for new or modified certificated route authority.

(a) This section applies to all applications filed under this part for new or modified certificated route authority except those filed under Subpart M or N and those filed in response to, and conforming to, an order instituting a route investigation. Except as modified by this section, the rules in Subpart A of this part continue to apply.

• • • • • •

Subpart R—[Revoked]

3. Subpart R—*Rules Applicable to Unused Authority Proceedings*, is revoked.

4. The Table of Contents is amended by deleting Subpart R.

By the Civil Aeronautics Board:

PHYLLIS T. KAYLOR,
Secretary.

[Reg. PR-191; Issuance of Part 321]

PART 321—UNUSED AUTHORITY PROCEDURES

Final Rule

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., January 17, 1979.

AGENCY: Civil Aeronautics Board.

ACTION: Final Rule.

SUMMARY: The CAB is revising the rules governing unused authority under the Airline Deregulation Act of 1978. The changes include (1) new format requirements and filing deadlines for certain existing types of documents; (2) new types of documents; (3) a drawing to establish priorities among applications and incumbent carriers' notices of intent to begin service that are filed on the same day; (4) procedures for disposition of these filings, and (5) interpretations of some provisions of the Act.

DATES: Adopted: January 17, 1979. Effective: January 17, 1979, except that the requirements in § 321.4 for notices of completion of 13 weeks of service, and for notices by incumbents (but not applicants) of inauguration of service are effective March 6, 1979.

FOR FURTHER INFORMATION CONTACT:

Mark Schwimmer, Office of the General Counsel, Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C. 20428; (202) 673-5442.

SUPPLEMENTARY INFORMATION: The unused or "dormant" authority provision of the Federal Aviation Act, section 401(d)(5), was added by the Airline Deregulation Act of 1978, Pub. L. 95-504. In anticipation of applications and incumbent carriers' notices of intent to begin service, to be filed upon the signing of the Deregulation Act, we established rules governing unused authority proceedings. These rules are found in Subpart R of 14 CFR Part 302, *Rules of Practice in Economic Proceedings*. (PR-180, October 18 1978; 43 FR 49529, October 24, 1978.) We later amended Subpart R to allow applications to include page citations instead of actual copies of Official Airline Guide pages used to demonstrate dormancy. (PR-183, November 2, 1978; 43 FR 52021, November 8, 1978.)

In PDR-59, we proposed substantial revisions of the unused authority rules (December 21, 1978; 43 FR 60283, December 27, 1978). In connection with these revisions, it was also proposed to transfer the rules from Subpart R to a new Part 321. The proposed changes included new names, format requirements, and filing deadlines for certain existing types of documents; new types of documents, with corresponding deadlines and service requirements; a drawing or computer lottery to establish priorities among applications and incumbents' notices filed on the same day; procedures for disposition of these filings; and interpretations of some provisions of the Act.

Eight air carriers, the Airport Operators Council International (AOCI), and the Port Authority of New York and New Jersey filed comments. After considering these comments, the Board is adopting Part 321 as proposed, except for the changes discussed below. We have decided to use a drawing rather than a computer-based lottery for establishing priorities among applications and incumbents' notices of intent to begin service that are filed on the same day. PR-190, also issued today, adopts the ancillary amendments to Part 302, *Rules of Practice in Economic Proceedings*, that were also proposed in PDR-59.

INTERPRETATIONS

"Commence service." Section 401(d)(5)(H) directs carriers awarded new authority on the basis of unused authority to "commence service" within 45 days after the award, with a corresponding requirement where the authority is seasonal. Otherwise, the Board is required to revoke the new authority. PDR-59 proposed interpreting this provision as though Congress had included wording in subparagraph (H) similar to that of subparagraph (G), where successful incumbents are explicitly directed to begin service and continue it at the minimum of five round-trips per week for 13 consecutive weeks (or for at least half the season).

Allegheny Airlines, Continental Airlines, and AOCI supported this proposed interpretation, while Trans World Airlines opposed it. Air Florida urged a delayed effective date.

V 4 4 / 1 6 J A 2 3 7 9 UMI

Supporters of the interpretation generally argued that it comports with Congress' intent to encourage real rather than token new service in markets that have unused authority. TWA argued that the Congressional remedy for failure of a new entrant to provide minimum service is the eligibility of that authority for further entry when it becomes dormant after 26 weeks, rather than loss of the new entrant's certificate. Section 401(d)(5)(H), however, directs the Board to revoke a new certificate if the carrier does not commence service within 45 days. If TWA's argument were valid, a carrier could, by performing a single flight on the 45th day, retain its new authority and block any new competition while providing no further service for 13 weeks, as long as it then finally began to perform five round-trips per week for the next 13 weeks. We do not believe that Congress intended "commence service" to mean so little. Moreover, TWA has not shown that the proposed interpretation is unreasonable. Accordingly, we are adopting the interpretation essentially as proposed.

Allegheny pointed out that the proposed interpretation, by keying the 13-week period of five-flights-per-week service to the day that the carrier actually begins service, would penalize carriers that begin immediately with limited service and intend to upgrade it to five flights per week by the 45th day. Such a carrier would not satisfy the proposed interpretation, since the minimum level of service would not have been provided for the "first 13 full calendar weeks after the day that it begins service." We did not intend this result, and the interpretation has been redrafted accordingly.

Air Florida argued that the interpretation of "commence service" should be given prospective effect only. It stated that carriers that were awarded authority long ago and in good faith developed operating plans based on their own less stringent but nonetheless reasonable interpretations should not be required to change those plans abruptly. It suggested that the interpretation be limited to awards of authority made after December 21, 1978 (the date the interpretation was proposed); for earlier awards, a carrier would need only to avoid creating a new dormancy by providing at least 13 weeks of minimum-level service during the first 26 weeks. We agree with Air Florida's argument that the interpretation should be given prospective effect only, but not with its suggested way of doing it. If carriers that received awards before the effective date of the interpretation were not subject to it at all, the "commence service" requirement could be made meaningless for those awards, as explained above in response to TWA's argument. Instead we are establishing March 4, 1979, as the critical date in the following manner: if the authority was awarded before January 20, 1979, the carrier need only begin to provide some service within 45 days of the award, but by March 4 it must begin to provide at least five round-trips per week and continue service of at least that level for 13 full calendar weeks. This approach provides as much lead time for old awards as it does for new ones.

Northwest Airlines asked whether, if the day on which a carrier is required to begin service falls on a Saturday, it may comply by having a schedule that, while effective on that Saturday, would not involve any flights until the following Monday since the schedule consisted solely of weekday service. We interpret the requirement as being satisfied by such a schedule, since it would be unnecessarily burdensome to require an anomalous weekend flight.

"Week" means calendar week. PDR-59 proposed to simplify the computation of dormancy periods by interpreting the term "week" to mean a calendar week running from Sunday through the following Saturday. TWA suggested that weeks be considered as running from Monday through Sunday, to conform with the Official Airline Guide's practice of numbering the days of the week in that order. Since no other commenter suggested the change, the OAG practice is a very minor consideration and is contrary to the conventional view of a week, and some expense would be involved in reprogramming the Board's computer, this suggestion is not being adopted.

Documents

Labeling. The proposed rule prescribed titles for all types of documents and specified that the governing subparagraph of section 401(d)(5) be indicated on the cover page. The rule has been redrafted to require the subparagraph to be included as part of the title.

Identification of Points. PDR-59 proposed that points be identified in applications by the Official Airline Guide's *city* codes instead of airport codes, with special provisions for cities served by multiple airports. The Port Authority of New York and New Jersey pointed out that Newark, which is often designated in certificates as a point distinct from New York, could not be properly identified under the proposed scheme because it does not have its own city code. The final rule accommodates this situation by specifying that when an airport is named in a certificate as a separate, non-hyphenated point, it shall be identified by airport code in parentheses after the city code for the area. Thus Newark would be identified as NYC(EWR).

Service of Documents. Delta suggested that applications should be required to be served on all carriers operating at each point named in the application, instead of merely on those carriers that operated in the named markets. This suggestion is not being adopted, since the general interest that a carrier has in markets involving the points it serves does not appear significant enough to warrant such an expansion of the service requirements. We are, however, adding a requirement that the mayor or other chief executive of each named point be served with applications and other documents. Since this requirement will facilitate participation by communities that have an important interest in unused authority proceedings and imposes no significant additional burden, we find that notice of proposed rulemaking on this point is unnecessary and not in the public interest.

Aircraft Information To Be Included in Applications. PDR-59 proposed that applications be required to include a minimal amount of additional information so that the Board could verify the certification that the applicant's aircraft meet FAA specifications. The proposal suggested the aircraft description set forth in proposed § 321.12 for applications requesting suspension of incumbents' authority, or some similar data. No comments addressed this subject. We are adopting this approach. Applicants must submit either a plan for obtaining aircraft, identified by type, that can be verified within 15 days by the Board's staff, or a list of aircraft identified by FAA registration number. However, for carriers that have not yet been found fit, willing, and able to provide scheduled service this plan or list is not limited to those aircraft that the applicant contemplates using in the market where it seeks authority, since section 401(d)(5) appears to contemplate a certification by the applicant that all its aircraft comply with applicable FAA requirements. Applicants that have already been found fit, willing, and able to provide scheduled service need only cite the most recent Board order establishing that finding and provide the plan or list for aircraft that they intend to use in the market applied for.

Schedule Information. In markets governed by subparagraph (D) or (E) of section 401(d)(5), the Board must issue a certificate to the first applicant not blocked by an incumbent's notice unless it finds that the issuance would be inconsistent with the public convenience and necessity. PDR-59 proposed in § 321.14 a special requirement for replies to answers to applications

in these markets when the answer alleges that issuance of a certificate would be inconsistent with the public convenience and necessity: the reply would have to indicate, by frequency and equipment type, what service the applicant would provide and what service (if any) it would discontinue in order to make aircraft available for the new service. Southern Airways argued that this information should be required in all applications because the reply stage is too late, while Delta argued that it should not be required even in replies. We reject these arguments, adopting the schedule information requirement as proposed.

Southern's argument is based on the incorrect assumption that replies would not be due until 42 days after an application. However, the schedule is as follows: Answers to the application are due 14 days after the application; replies by the applicant, 28 days after; and responses 42 days after. Therefore, opponents will have 14 days after the reply stage to prepare response based on the schedule information included in the reply. This is as much time as opponents would have if the information were required in all applications, because in that case the responses stage would be eliminated entirely.

Moreover, imposing the schedule information requirement on all applications would be unnecessarily burdensome, since most will probably not be opposed on public convenience and necessity grounds and some will be blocked by earlier-filed incumbents' notices or applications.

Delta likened unused authority proceedings under section 401(d)(5) to route proceedings under section 401(d)(1) that contemplate multiple permissive authority. It argued that the schedule information requirement is burdensome at any stage, and in the alternative that at most an illustrative service proposal should be required in replies. This argument lacks merit. The crucial distinction between these two types of route authority is that successful applicants under the unused authority provisions are required to begin service within a specified time. Providing the proposed schedule information in replies therefore is not excessively burdensome, because an applicant carrier will by reply time have some plans as to what its schedules will be.

Procedures

Drawing. Applications and incumbents' notices that are filed on the same day are considered essentially simultaneous. PDR-59 proposed alternative methods for randomly establishing the order in which such documents would be treated as having been filed. The first possibility, a conventional blind drawing, was a continuation of the method already being used on an interim basis. The alternative proposal was a computer-based lottery using random numbers, with seed numbers derived from documents' docket numbers and a rapid-advance digital clock that would be available in the Docket Section. American Airlines suggested that the drawing is straightforward and easily understood, while the computer approach is unnecessarily complicated. Delta also preferred a drawing, but suggested that if the computer approach is used, seed numbers be taken directly from the computer's real-time clock instead of the more complicated method that was proposed. Air Florida also preferred the drawing to a lottery, but stated that its first choice would be a professional sports-type draft system with rounds, as a more equitable method of distributing unused authority.

We have decided to adopt the drawing method in view of its established adequacy and the commenters' preference for it. The computer lottery appears not to inspire public confidence. Air Florida's suggestion of a sports-type draft, which is actually independent of the choice between a drawing and a computer lottery, is not being adopted. It is needlessly complicated in light of the small number of markets likely to be simultaneously receiving multiple applications and the varying groupings of carriers filing for those markets.

Five Days to File a New Application After a Retraction or Relinquishment.—To open markets earlier to new applicants, PDR-59 proposed a procedure whereby incumbents could retract (referred to in the proposal as "waive") their incumbents' notices, and winning applicants could relinquish their new authority before the deadline for beginning service. Proposed §§ 321.32 and 321.33 stated that new applications would be accepted on the first business day after the retraction or relinquishment was filed. Continental pointed out that this practice would provide virtually no notice of the market's new availability to prospective applicants. Unlike the other events that create an opportunity to apply, *i.e.*, the existence of a dormancy or a failure to begin service, there is no advance warning of the possibility of filing new applications. The proposed procedure would thus give an unfair advantage to carriers that can afford to have representatives check the Docket Section in Washington every day. Continental suggested that applications therefore not be accepted until the fifth business day after the retraction or relinquishment is filed. Continental's argument has merit. To minimize confusion in the Docket Section, however, we will accept new applications on the first through the fifth business day and treat them as if they were all filed on the fifth. In this special situation, five days' filings would be consolidated in a single drawing.

No Waiver Provision. TWA and Air Florida suggested that the rule include a waiver provision so that carriers could be relieved from requirements that are burdensome in special situations, particularly the "commence service" interpretation when circumstances beyond the carrier's control make compliance impossible. There is no need for such a waiver provision, however, since the Board's Section 416 exemption power (as liberalized by the Deregulation Act) is adequate to handle these situations.

Editorial Changes

The proposed definition of "minimum level" and "minimum level of service" merely incorporated by reference the service levels specified in Section 401(d)(5) of the Act. It has been redrafted to state these levels explicitly. Proposed § 321.6 addressed the separation of functions rule, 14 CFR 300.4. It has been redrafted to state more clearly that actions taken by the Bureau of Pricing and Domestic Aviation in administering Section 401(d)(5) will not be considered as creating a conflict with the separation of functions rule in any proceeding.

Federal Reports Act

This rule requires applicants and other participants in unused authority proceedings to provide the Board with certain information. By publishing this final rule, the Board has determined that this information is necessary and must be prepared and submitted. Accordingly, the following requirements are adopted subject only to review by the General Accounting Office pursuant to 44 U.S.C. 3512: The application requirements found in §§ 321.10 through 321.12; the requirements for incumbents' notices in §§321.20 and 321.21; the related requirements for responsive documents in §§ 321.13 through 321.15, 321.22, and 321.23; and the requirements for relinquishments and retractions in §§ 321.32 and 321.33. These specific requirements will be effective immediately, along with the rest of Part 321 (other than portions of § 321.4, as noted below). Interested persons are not precluded from applying for new routes or otherwise participating in unused authority proceedings. However, GAO will conduct its clearance review to ensure that a minimum burden is imposed upon these participants and that the information required is otherwise consistent with the Federal Reports Act. The Board will publish a notice of GAO's decision.

This rule also contains reporting requirements in § 321.4 that will be submitted to the General Accounting Office for review under the Federal Reports Act. The effective date of the requirements for notices of completion of 13 weeks of service, and for notices by incumbents (but not applicants) of inauguration of service, unless the Board hereafter indicates otherwise, is March 6, 1979, which reflects the inclusion of a 45-day period that that statute allows for such review (44 U.S.C. 3512(c)(2)).

THE RULE

Accordingly, the Civil Aeronautics Board adds a new Part 321 to Chapter II of Title 14, Code of Federal Regulations, to read:

PART 321—UNUSED AUTHORITY PROCEDURES

Subpart A—General

Sec.
321.1 Applicability.
321.2 Conformity with Subpart A of Part 302.
321.3 Definition.
321.4 Notices of inauguration and completion of 13 weeks of service.
321.5 Environmental evaluations and energy information not required.
321.6 No conflict with separation of functions rule.

Subpart B—Applications for Unused Authority and Related Documents.

321.10 General requirements for applications.
321.11 Contents of applications.
321.12 Additional requirements for applications that request suspension of unused authority.
321.13 Answers to applications.
321.14 Replies to answers to applications.
321.15 Responses to replies.

Subpart C—Incumbent Carriers' Notices of Intent To Begin Service and Related Documents

321.20 General requirements for incumbent carriers' notices of intent to begin service.
321.21 Contents of incumbents' notices.
321.22 Answers to incumbents' notices.
321.23 Replies to answers to incumbents' notices.

Subpart D—Processing of Documents

321.30 Simultaneous filings.
321.31 Disposition of applications and incumbents' notices.
321.32 Successful applicant's failure to commence service.
321.33 Successful incumbent carrier's failure to begin service.
321.34 Drawing.

Subpart E—Interpretations of the Act's Unused Authority Provisions

321.40 "Commence service".
321.41 "Week" means calendar week.

AUTHORITY: Secs. 204, 401, and 1001 of the Federal Aviation Act of 1958, as amended by Pub. L. 95-504, 72 Stat. 743, 754, and 788, 92 Stat. 1713; (49 U.S.C. 1324, 1371, and 1481).

Subpart A—General

§ 321.1 Applicability.

This part applies to applications for nonstop route authority where unused authority exists, filed under sections 401(d)(5)(A), (5)(B), (5)(D), and (5)(E), and to notices of incumbents' intent to begin service that are filed under section 401(d)(5)(G).

§ 321.2 Conformity with Subpart A of Part 302.

Except where they are inconsistent with this part, the provisions of Subpart A of Part 302 of this chapter shall apply to proceedings under this part.

§ 321.3. Definitions.

As used in this part:

"Application" means an application for nonstop route authority, on the basis of unused authority, under sections 401(d)(5)(A), (5)(B), (5)(D), or (5)(E).

"Applicant" means a person who files an application under this part.

"Minimum level" and "minimum level of service" mean service, pursuant to published flight schedules, of at least five round-trips per week for at least 13 weeks during a 26-week period for year-round certificates (section 401(d)(5)(A) and (5)(D)), and service, pursuant to published flight schedules, of at least five round-trips per week for at least half the weeks of a season for seasonal certificates (section 401(d)(5)(B) and (5)(E)).

"Section 41(d)(5)" refers to the unused authority program of the Act, 49 U.S.C. 1371(d)(5).

§ 321.4 Notices of inauguration and completion of 13 weeks of service.

(a) Every applicant that is awarded new authority and every carrier that files an incumbent's notice shall file a notice (1) within 7 days after inaugurating service between any pair of points covered by the award or incumbent's notice, and (2) within 7 days after completing 13 consecutive weeks of service of at least five nonstop nd trips per week. However, if an incumbent's notice states that service has already begun, the incumbent need not give the inauguration notice required by paragraph (a)(1) of this section.

(b) Notices required by paragraph (a) of this section shall be titled "Notice of Inauguration of Service ...der Subparagraph ——" or "Notice Completion of 13 Weeks of Service ...der Subparagraph ——," as applicable, indicating the subparagraph of section 401(d)(5) that governs the market or markets involved. They shall identify the pairs of points between which service has been inaugurated or carried on for 13 weeks.

(c) Notices described in paragraph (a) of this section shall be filed in the Docket Section in five copies, marked for the attention of the Director, Bureau of Pricing and Domestic Aviation.

(d) A copy of each notice described in paragraph (a) of this section shall be served on the U.S. Postal Service Headquarters, Law Department, Transportation Division, Washington, D.C. 20260.

§ 321.5 Environmental evaluations and energy information not required.

Notwithstanding any provision of Part 312 or Part 313 of this title, a person filing an application under this part is not required to file an environmental evaluation or energy information with the application.

§ 321.6 No conflict with separation of functions rule.

Actions taken by the Bureau of Pricing and Domestic Aviation to administer section 401(d)(5) will not be considered as creating a conflict with the Board's separation of functions rule, § 300.4 of this chapter, in this or any other Board proceeding.

Subpart B—Applications for Unused Authority and Related Documents

§ 321.10 General requirements for applications.

(a) Each application shall be titled "Application for Unused Authority under Subparagraph ——," indicating the subparagraph of section 401(d)(5) that governs it.

(b) An application may request nonstop authority in more than one market. However, applications shall not include requests for authority under more than one subparagraph of section 401(d)(5).

(c) An application may be amended after filing at any time before it is granted or dismissed to eliminate markets or correct errors, but not to add markets. Markets to be eliminated shall be listed by line number from the original application and city or airport codes as set forth in § 321.11(a)(1). Corrections shall be shown by setting forth the entire line from the table described in § 321.11(a) or (b), as applicable, with the corrected items underlined. Any necessary explanation of the correction shall be included in text or footnotes.

(d) Applications and amendments of applications shall be served on:

(1) All air carriers named in the application in accordance with § 321.11(a)(3) or (4).

(2) The airport authority of each airport the applicant proposes to use.

(3) The mayor or other chief executive of each point named in the application.

(4) The Federal Aviation Administration.

§ 321.11 Contents of applications.

Each application shall:

(a) Include a table with a separate, numbered line for each pair of points between which the applicant seeks nonstop route authority. The lines shall be alphabetized by the points named in them. Each line shall include the following information, with the columns of the table labeled accordingly:

(1) *Market.* The pair of points as specified in the inactive carrier's certificate, with each point identified by the Official Airline Guide's 3-letter city code. Where the inactive carrier only has authority to serve a point through a named airport or an airport is named in the certificate as a separate, non-hyphenated point, this situation shall be shown by adding the 3-letter airport code for the airport in parenthesis after the city code. (EXAMPLES: "WAS(IAD)" for Washington, to be served through Dulles International Airport, "NYC(EWR)" for Newark designated as a separate point.) Where a point is hyphenated in all or substantially all carriers' certificates, its single 3-letter code shall be used. (EXAMPLE: "MSP" for Minneapolis-St. Paul.) At points that are sometimes hyphenated and sometimes listed separately in certificates, the authority of the inactive carrier or carriers shall be shown by listing the city codes of the hyphenated cities in the order shown in each inactive carrier's certificate. (EXAMPLE: "SFO/OAK/SJC" for San Francisco-Oakland-San Jose.)

(2) *Period or season.* The beginning and ending dates of the 26-week period or season, as applicable, upon which the request for authority is based. If the dates differ for different inactive carriers, each set of dates shall be included. If a split period is relied on because of a strike, the computation shall be explained elsewhere in the application.

(3) *Active carriers.* The Official Airline guide's 2-letter carrier code for each air carrier, certificated or not, that has provided the minimum level of service between the points during the period or season described in paragraph (a)(2) of this section.

(4) *Inactive carriers.* The Official Airline Guide's 2-letter carrier code for each air carrier having certificate authority to provide nonstop round-trip service between the points that has not provided the minimum level of service during the time described in paragraph (a)(2) of this section.

(5) *Inactive period.* For each carrier named in paragraph (a)(4) of this section, the beginning and ending dates of below-minimum service during the period or season described in paragraph (a)(2) upon which the request for authority is based.

(6) *Suspension requested.* For applications governed by section 401(d)(5)(A) only: Whether or not the applicant requests suspension of the unused authority of incumbent air carriers.

(b) Include a table that lists, for each pair or points named in the application, the Official Airline Guide pages covering service for the entire 26-week period or season upon which the request for authority is based. There shall be a separate line for service in each direction. The page citations shall be to successive monthly issues of the Official Airline Guide, using consistently the editions of the 1st or the 15th of the month. The table shall be in the format shown in the following fictitious example:

	OAG EDITION OF—						
	5/1/78	6/1/78	7/1/78	8/1/78	9/1/78	10/1/78	11/1/78
ATL-DEN	140	143-4	151	146	137	142	145
DEN-ATL	311	315	329	317-8	304	313	316
•	•			•		•	
•							
•							

(c) Certify that the applicant's aircraft meet all applicable requirements established by the Secretary of Transportation for the carriage by aircraft of persons or property as a common carrier for compensation or hire or the carriage of mail by aircraft in commerce.

(d) For applicants not yet found by the Board to be fit, willing, and able to provide scheduled service: Describe the applicant's aircraft. The description shall consist of either a plan for obtaining aircraft, identified by type, that can be verified within 15 days by the Board's staff, or a list of aircraft identified by FAA registration number.

(e) For applicants already found by the Board to be fit, willing, and able to provide scheduled service: Cite the most recent Board order establishing that finding and describe, in the manner set forth in paragraph (d) of this section, any aircraft acquired or to be acquired since that finding that the applicant intends to use in exercising the authority sought.

(f) Certify that the applicant will obtain any necessary operating authority from the Federal Aviation Administration in time to begin exercising the nonstop route authority sought under this part within the time set forth in subparagraph (H)(I) or (H)(ii) of section 401(d)(5), as applicable.

(g) Certify that the applicant is able to conform to the rules, regulations, and requirements of the Board promulgated pursuant to the Act.

§ 321.12 Additional requirements for applications that request suspension of unused route authority.

(a) If an applicant for authority under section 410(d)(5)(A) wants the Board to suspend the unused authority of incumbent carriers as set forth in section 401(d)(5)(J), its application shall at a minimum include, in addition to the information set forth in § 321.11, the following:

(1) Information specific to each pair of points showing why suspension is necessary to encourage continued service between those points by the applicant;

(2) A list, by filing date and points, of all other applications filed or to be filed on the same day and within the preceding 45 days; and

(3) A description of the aircraft that the applicant intends to use in exercising the authority sought in the current application and all applications filed or to be filed on the same day and within the preceding 45 days. The description shall consist of either a plan for obtaining aircraft, identified by type, that can be verified with 15 days by the Board's staff, or a list of aircraft identified by FAA registration number.

(b) If the Board grants an application that does not include the information set forth in paragraph (a) of this section, the Board will not suspend the unused authority of incumbent carriers.

§ 321.13 Answers to applications.

(a) Any person may file an answer to an application. If the application is governed by subparagraph (A) or (B)

V 4 4 / 1 6 J A 2 3 7 9 UMI

of section 401(d)(5), the answer shall be filed within 7 calendar days after the application is filed. If the application is governed by subparagraph (D) or (E), the answer shall be filed within 14 days after the application is filed.

(b) Answers filed under this section shall be entitled "Answer to Application for Unused Route Authority under Subparagraph ——," indicating the subparagraph of section 401(d)(5) that governs the application.

(c) Each answer filed under this section shall include a table that, except as set forth in paragraph (d) of this section, repeats the lines included in the application in accordance with § 321.11(a) that are being answered. The items that the answer challenges in each line shall be underlined.

(d) The table required by paragraph (c) of this section shall also include the following three columns:

(1) After the column showing the market (§ 321.11(a)(1)): A column showing the applicant, identified by 2-letter carrier code.

(2) After the applicant column described in paragraph (d)(1) of this section: A column showing the docket number of application.

(3) After the last column: A column showing the type or types of objection that the answer raises, using the code numbers set out in paragraph (e) of this section. Each objection shall be explained to the extent necessary in the text of the answer.

(e) Objections shall be identified by the following code numbers:

(1) The application was filed under the wrong subparagraph of section 401(d)(5).

(2) The allegedly inactive carrier does not have certificate authority to provide nonstop service in the market.

(3) The allegedly inactive carrier has certificated nonstop authority, but did not have it throughout the 26-week period or season relied on.

(4) The authority of the allegedly inactive carrier has been suspended by the Board under section 401(g) of the Act, or under section 401(j) by an order that requires the carrier to obtain Board approval before resuming service.

(5) The 26-week period or season relied on includes more than 6 weeks of a labor dispute that interrupted the service of the allegedly inactive carrier.

(6) The authority in question was not unused because the allegedly inactive carrier served the point or points through at least one airport and was not required to serve through more than one airport.

(7) The allegedly inactive carrier in fact provided the minimum level of service.

(8) The unused authority relied on has already been the basis of an award that has not been revoked.

(9) For applications governed by section 401(d)(5)(D) or (5)(E) only: Award of the authority sought would not be consistent with the public convenience and necessity.

(0) Any other objection.

NOTE: This code is "0" and not "10."

(f) Answers filed under this section shall be served on the persons whose applications are being answered and on the persons listed in § 321.10(d).

§ 321.14 Replies to answers to applications.

(a) Any person may file a reply to an answer to an application.

(b) Replies filed under this section shall be titled "Reply to Answer to Application for Unused Authority under Subparagraph ——," indicating the subparagraph of section 401(d)(5) that governs the application.

(c) For applications governed by subparagraph (A) or (B) of section 401(d)(5): Replies shall be filed within 10 calendar days after the application is filed, and will be considered by the Board only to the extent practicable.

(d) For applications governed by subparagraph (D) or (E) of section 401(d)(5):

(1) Replies shall be filed within 28 calendar days after the application is filed.

(2) If an answer alleges that grant of the application would be inconsistent with the public convenience and necessity, the applicant's reply shall at a minimum indicate, by frequency and equipment type, what service it will provide and what service (if any) it will discontinue to make aircraft available for the new service.

(e) Replies filed under this section shall be served on the person that filed the answer and on all persons who were required to be served with the answer.

§ 321.15 Responses to replies.

(a) In the case of an application that is governed by subparagraph (D) or (E) of section 401(d)(5), any person may file a response to a reply filed under § 321.14.

(b) Responses shall be titled "Response to Application for Unused Authority under Subparagraph ——," indicating the subparagraph of section 401(d)(5) that governs the application.

(c) Responses shall be filed within 42 calendar days after the application is filed.

(d) Responses shall be served on the person that filed the reply and on all persons who were required to be served with the reply.

Subpart C—Incumbent Carriers' Notices of Intent To Begin Service and Related Documents

§ 321.20 General requirements for incumbent carriers' notices of intent to begin service.

(a) A carrier holding unused authority in a given market that intends to resume nonstop service such as to preclude a grant of authority to another carrier under section 401(d)(5) shall file a notice titled "Incumbent's Notice of Intent to Exercise Unused Authority under Subparagraph ——," indicating the subparagraph of section 401(d)(5) [(A), (B), (D), or (E)] that governs the authority addressed by the notice (hereafter called "incumbent's notice").

(b) An incumbent's notice may address service in more than one market. However, notices shall not address authority covered by more than one subparagraph of section 401(d)(5).

(c) An incumbent's notice may be amended in the manner set forth in § 321.10(c) for applications at any time before the Board announces by order that it is successful.

(d) An incumbent's notice shall be served on those persons whom the incumbent would be required by § 321.10(d) to serve if it were an applicant for unused authority.

§ 321.21 Contents of incumbent's notice.

Each incumbent's notice shall include a table with a separate, numbered line for each pair of points between which the carrier filing the notice intends to begin service within the time set forth in section 401(d)(5)(G)(i) or (G)(ii), as applicable. The lines shall be alphabetized by the points named in them. Each line shall include the following information:

(a) *Market.* The pair of points, identified as set forth in § 321.11(a)(1).

(b) *Period or season.* The beginning and ending dates of the 26-week period or season, as applicable, upon which the notice is based.

(c) *Date.* The date (not more than 30 days after the date of filing) on or before which the carrier intends to begin service between those points.

§ 321.22 Answers to incumbent's notices.

(a) Any person may file an answer to an incumbent's notice. The answer shall be filed within the time set forth in § 321.13(a) for answers to applications.

(b) Answers filed under this section shall be titled "Answer to Incumbent's Notice under Subparagraph ——," indicating the subparagraph of section 401(d)(5) that governs the authority addressed by the notice.

(c) Each answer filed under this section shall include a table that repeats

the lines included in the notice in accordance with § 321.21 with the air carrier that filed the notice and the basis or bases for the objection to the notice listed at the end of each line. The filer of the notice shall be identified by 2-letter air carrier code. The objections shall be listed by the following 2-letter codes and explained to the extent necessary in the text of the answer:

(1) "NX": That the notice does not comply with the requirements of section 401(d)(5).

(2) "NE": That the filer of the notice has previously filed a similar notice in the same market.

(3) "NA": That a valid application for the filer's unused authority was filed before the notice.

(4) "NR": Any other objection.

(d) Answers filed under this section shall be served as if they were answers filed under § 321.13 to applications.

§ 321.23 Replies to answers to incumbent's notices.

(a) Any person may file a reply to an answer to an incumbent's notice. The reply shall be filed within the time set forth in § 321.14 (c) or (d), as applicable, for replies to answers to applications.

(b) Replies filed this section shall be titled "Reply to Answer to Incumbent's Notice under Subparagraph —— ," indicating the subparagraph of section 401(d)(5) that governs the authority addressed by the notice.

(c) Replies filed under this section shall be served as if they were replies filed under § 321.14 to answers to applications.

Subpart D—Processing of Documents

§ 321.30 Simultaneous filings.

Applications and incumbents' notices that are filed on the same day will be considered essentially simultaneous. Each application and notice will be treated as a separate filing for each pair of points that it names. These filings will be treated for the purposes of section 401(d)(5) as if they were made in the order established in accordance with § 321.34.

§ 321.31 Disposition of applications and incumbents' notices.

For each pair of points named in a document filed under this part:

(a) If no air carrier had unused authority within the meaning of section 401(d)(5), the Board will deny all applications.

(b) If the earliest filed valid document that has not been amended to delete those points is an incumbent's notice, the Board will by order announce that the notice is successful and dismiss all applications for authority between those points.

(c) If the earliest filed valid document that has not been amended to delete those points is an application, the Board will dismiss all other applications for authority between those points and, except as set forth in paragraph (d) of this section, grant that application.

(d) If the application is governed by subparagraph (D) or (E) of section 401(d)(5) and the Board finds that issuance of a certificate is inconsistent with the public convenience and necessity, the Board will deny the application.

(e) Unsuccessful incumbents' notices will not be dismissed and may become successful as set forth in § 321.32(c).

(f) If more than one air carrier holds unused authority to provide round-trip nonstop service between those points, the Board will not dismiss any applications in accordance with paragraph (a) or (b) of this section until it has, with respect to each carrier holding unused authority, announced that a notice is successful, granted an application, or denied an application on the ground of inconsistency with the public convenience and necessity.

§ 321.32 Successful applicant's failure to commence service.

For each award to a person of new certificate authority between a pair of points under section 401(d)(5):

(a) Except as set forth in paragraphs (b) and (c) of this section, if that person does not "commence service" within the meaning of section 401(d)(5)(H) as defined in § 321.40, the Board will accept new applications for authority between those points on the first business day after the first day that the person is not in compliance with section 401(d)(5)(H),

(b) Except as set forth in paragraph (c) of this section, if that person, before being required by section 401(d)(5)(H) to "commence service" files and serves a "Relinquishment of Newly Awarded Authority" in the manner described in § 321.33(c) for retractions of incumbents' notices, the Board will accept new applications on the first business day after the day that the relinquishment is filed. All applications filed from the first through the fifth business day after the relinquishment is filed will be considered as if they were filed on the fifth business day.

(c) If, upon the noncompliance described in paragraph (a) of this section or the filing of a relinquishment described in paragraph (b), there is an outstanding valid incumbent's notice that has not been vitiated by the incumbent carrier's failure to exercise its unused authority, the Board will by order announce that the notice has become successful. Further unused authority proceedings for the pair of points will be governed by § 321.33.

(d) If the Board accepts new applications in accordance with paragraph (a) or (b) of this section or announces in accordance with paragraph (c) that an outstanding incumbent's notice has become successful, it will revoke the previously awarded new certificate authority.

§ 321.33 Successful incumbent carrier's failure to begin service.

For each pair of points for which the Board has announced that an incumbent's notice is successful:

(a) Except as set forth in paragraphs (b) and (c) of this section, if the incumbent carrier does not begin and maintain service in accordance with section 401(d)(5)(G)(i) or (G)(ii), as applicable, the Board will accept new applications for authority between those points on the first business day after the first day that the incumbent is not in compliance with section 401(d)(5)(G).

(b) If the incumbent carrier, before it is required by section 401(d)(5)(G) to begin service, files a retraction in accordance with paragraph (c) of this section, the Board will accept new applications on the first business day after the day that the retraction is filed. All applications filed from the first through the fifth business day after the retraction is filed will be considered as if they were filed on the fifth business day.

(c) Air carriers that decide not to begin service in accordance with their successful notices are encouraged to file, in the same docket, a document titled "Retraction of Incumbent's Notice under Subparagraph ——," indicating the subparagraph of section 401(d)(5) that governs the authority addressed by the notice. These documents shall:

(1) Identify the pair or pairs of points for which the notice is retracted;

(2) Identify the Board order announcing that the notices are successful; and

(3) Be served on all certificated air carriers and all persons required by § 321.20(d) to be served with incumbents' notices.

§ 321.34 Drawing.

(a) For each day on which one or more pairs of points receive essentially simultaneous filings, a drawing will be conducted for each such pair of points as follows: For each person who filed an application or incumbent's notice, a card bearing that person's name will be placed in an opaque container. The cards will be otherwise identical. The container will be covered and shaken thoroughly. A Board staff member will reach into the container and,

V 4 / 16 J A 23 79 UMI

without being able to see the cards, draw them out successively until all have been drawn.

(b) The order in which the cards are drawn will be the order in which the documents are considered to have been filed.

(c) Drawings will take place on the first Wednesday after the day that the essentially simultaneous documents are filed, unless the filers of those documents are notified otherwise. It will be open to the public. Information about the time and location can be obtained from the Office of the Secretary, Civil Aeronautics Board.

(d) The drawing process will not interfere with the filing of answers in accordance with §§ 321.13 and 321.22. In general, questions about the validity of applications and incumbents' notices will be resolved after the drawing.

(e) If (1) there is a dispute about the precise date on which authority can be applied for or protected by an incumbent's notice, and (2) documents for that authority are filed on more than one day, then a separate drawing will be conducted for each day's documents. When the correct date is determined, filings before that date will be disregarded. The drawings for filings on and after that date, ordered by day of filing, will establish the order in which the documents are considered to have been filed.

Subpart E—Interpretations of the Act's Unused Authority Provisions

§ 321.40 "Commence Service".

(a) The Board interprets the requirement of subparagraph (H)(i) of section 401(d)(5) that air carriers issued certificates under subparagraph (A) or (D) "commence service pursuant to such certificate within forty-five days of such issuance" as follows: Within 45 days after being granted authority, the air carrier shall begin service of at least five round-trips per week and shall continue to provide service of at least that level for 13 full calendar weeks. EXCEPTION: If the air carrier was granted authority before January 20, 1979, it shall begin to provide some service within 45 days, shall begin to provide service of at least five round-trips per week on or before March 4, 1979, and shall continue to provide service of at least that level for 13 full calendar weeks.

(b) The Board interprets the requirement of subparagraph (H)(ii) to "commence service pursuant to such [seasonal] certificate within fifteen days after the beginning of the first such season which begins on or after the date of such issuance" as follows: The air carrier shall begin to provide service within 15 days after the beginning of the season and provide a minimum of five round-trips per week for the first half of the season.

§ 321.41 "Week" means calendar week.

(a) Except as provided in paragraph (b) of this section, the Board considers the term "week", as used in this part and section 401(d)(5), to mean a 7-day period that begins on a Sunday and ends on the following Saturday.

(b) For the determination of 26-week periods or seasons that end before January 20, 1979, or the computation of inactive service within those intervals, the Board considers the term "week" to mean any 7-day period.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. C-2947]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Advertising Checking Bureau, Inc.

AGENCY: Federal Trade Commission.

ACTION: Final order.

SUMMARY: In settlement of alleged violations of Federal law prohibiting unfair acts and practices and unfair methods of competition, this consent agreement, among other things, requires a New York City administrator and auditor of cooperative advertising programs to cease designing or implementing cooperative advertising programs for their client which limit or restrict the rights of dealers to obtain cooperative advertising allowances for merchandise they have advertised or sold at other than regular or suggested retail prices.

DATES: Complaint and order issued January 4, 1979.[1]

FOR FURTHER INFORMATION CONTACT:

William A. Arbitman, Director, 9R, San Francisco Regional Office, Federal Trade Commission, 450 Golden Gate Ave., San Francisco, Calif. 94102. (415) 566-1270.

SUPPLEMENTARY INFORMATION: On Tuesday, August 8, 1978, there was published in the FEDERAL REGISTER, 43 FR 35054, a proposed consent agreement with analysis In the Matter of The Advertising Checking Bureau, Inc., a corporation, for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions, or objections regarding the proposed form of order.

Comments were filed and considered by the Commission. The Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered its order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, are as follows: Subpart-Combining or Conspiring: § 13.395 To control marketing practices and conditions; § 13.425 To enforce or bring about resale price maintenance; § 13.470 To restrain or monopolize trade. Subpart-Cutting Off Access To Customers Or Market: § 13.560 Interfering with distributive outlets. Subpart-Cutting Off Supplies Or Service: § 13.610 Cutting off supplies or service. Subpart-Maintaining Resale Prices: § 13.1145 Discrimination; § 13.1145-5 Against price cutters.

(Sec. 6, 38 Stat. 721; (15 U.S.C. 46). Interprets or applies sec. 5, 38 Stat. 719, as amended; (15 U.S.C. 45))

CAROL M. THOMAS,
Secretary.

[6750-01-M]

[Docket No. C-2944]

PART 13— PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

McDonnell Douglas Corp.

AGENCY: Federal Trade Commission.

ACTION: Final order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent agreement, among other things, requires a St. Louis, Co., Mo., aircraft manufacturer and its subsidiaries to cease offering or making payments to influential foreign entities for the purpose of preventing competition in the sale of their aircraft abroad; and to keep adequate documentation for all payments, brokerage fees, commissions, or political campaign contributions paid to any one foreign party which total annually in excess of $100,000. The firms would additionally be required to report to the Commission, within ten days, any corporate policy change which relates to foreign sales activities.

DATES: Complaint and order issued December 21, 1978.[1]

FOR FURTHER INFORMATION CONTACT:

FTC/C, Jaime Taronji, Jr., Washington, D.C., 20580. (202) 376-2894.

SUPPLEMENTARY INFORMATION: On Monday, August 21, 1978, there was published in the FEDERAL REGISTER, 43 FR 36973, a proposed consent agreement with analysis In the Matter of McDonnell Douglas Corporation, a corporation, for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions, or objections regarding the proposed form of order.

No comments having been received, the Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered its order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, are as follows: Subpart-Combining or Conspiring: § 13.410 To eliminate competition in conspirators' goods; § 13.470 To restrain or monopolize trade. Subpart-Corrective Actions and/or Requirements: § 13.533 Corrective actions and/or requirements; § 13.533-45 Maintain records. Subpart-Discriminating In Price Under Section 2, Clayton Act—Payment Or Acceptance Of Commission, Brokerage Or Other Compensation Under 2(c): § 13.810 Buyers' corporate or other agent.

(Sec. 6,38 Stat. 721; 15 U.S.C. Interpret or apply sec. 5, 38 Stat. 719, as amended; Sec. 2, 49 Stat. 1526; (15 U.S.C. 45, 13).)

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release Nos. 33-6016; 34-15502; 35-20891; 39-522; IC-10563; and IA-660]

AGENCY RULES RELATING TO CERTAIN FORMAL REQUIREMENTS FOR FILING OF DOCUMENTS

AGENCY: Securities and Exchange Commission.

ACTION: Final rules.

SUMMARY: The Commission is amending various rules under the federal securities laws to require that each page of all documents filed under those laws be numbered sequentially from the facing page of the filing form through the last page of that document, including any exhibits or attachments thereto. These amendments are designed to conform all filings received by the Commission to the requirements for implementation of the Commission's Micrographic Conversion Program.

EFFECTIVE DATE: March 9, 1979.

FOR FURTHER INFORMATION CONTACT:

Roderic L. Woodson, Special Counsel, Office of Reports and Information Services, Securities and Exchange Commission, Washington, D.C. 20549 (202-523-5530).

SUPPLEMENTARY INFORMATION: The Securities and Exchange Commission today announced the adoption of certain amendments to Rule 403 (17 CFR 230.403) under the Securities Act of 1933 (15 U.S.C. 77a et seq.); Rule 240.0-3 (17 CFR 240.0-3) under the Securities Exchange Act of 1934 (15 U.S.C. 78a et seq.); Rule 22 (17 CFR 250.22) under the Public Utility Holding Company Act of 1935 (15 U.S.C. 79 et seq.); Part 260 (17 CFR 260) under the Trust Indenture Act of 1939 (15 U.S.C. 77aaa et seq.); Rule 0-2 (17 CFR 270.0-2) under the Investment Company Act of 1940 (15 U.S.C. 80a et seq.); and Rule 0-4 (17 CFR 275.0-4) under the Investment Advisers Act of 1940 (15 U.S.C. 80b et seq.). The amendments are designed to conform all filings received by the Commission to the requirements for implementation of the Commission's Micrographic Conversion Program ("Micrographics Program" or "Program".) As developed, the Micrographics Program involves the conversion of all hard-copy filings received by the Commission under the Federal Securities laws to microform storage mediums. Upon completion of the Program, the Commission will maintain its official documents on film and dispose of all hard-copy documents after a period of time. In order to fully implement the Program, sequential page numbering of all documents filed is necessary to ensure the page and image verification procedures established under the Program. In the absence of an adequate verification procedure, the Commission's ability to authenticate documents in its possession may be substantially impaired. It should be noted, however, that the sequential numbering of filings required by these amendments are supplemental to internal numbering of any particular exhibit or attachment contained in a specific filing. The amendments require only the original document to be numbered sequentially. It is not necessary to number duplicate originals or conformed copies.

Although no particular numbering process is required, it will facilitate the implementation of the Micrographics Program if legible handwritten, typed, stamped, or printed sequential numbering systems are utilized. The insertion of pages with subnumbering systems (for example, pages 10a 10b, and 10c) should be avoided. The numbering in each filed document and the exhibits and attachments thereto need not correspond to the numbering in any subsequently filed document. Thus, for example, the numbering in a final prospectus need not be the same as that in a preliminary prospectus.

Prior public notice and comment are not required under the Administrative Procedure Act (5 U.S.C. 553) as these rules are amendments to the Commission's rules of procedure and practice. *See*, 5 U.S.C. 553(b)(A). However, because the nature of this rule-making will require some measure of preparation by registrants, the effective date of the rule will be postponed for a period of forty-five (45) days.

Accordingly, the Commission adopts the following amendments effective on March 9, 1979, pursuant to 15 U.S.C. 77s (48 Stat. 85); 15 U.S.C. 78w (48 Stat. 901); 15 U.S.C. 79c and 79t (49 Stat. 810, 833); 15 U.S.C. 77eee, 77ggg, 77nnn, 77sss (53 Stat. 1154, 1156, 1167, 1173); 15 U.S.C. 80w-37, 30c-39 (54 Stat. 841, 342); 15 U.S.C. 80b-3, 80b-4, 80b-11 (54 Stat. 850, 852, 855).

TEXT OF AMENDMENTS

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

Section 230.403 is amended by adding paragraph (d) to read as follows:

§ 230.403 Requirements as to paper, printing, and language.

* * * * *

(d) The manually signed original (or in the case of duplicate originals, one duplicate original) of all registrations, applications, statements, reports, or other documents filed under the Securities Act of 1933, as amended, shall be numbered sequentially (in addition to any internal numbering which otherwise may be present) by handwritten, typed, printed, or other legible form of notation from the facing page of the document through the last page of that document and any exhibits or attachments thereto. Further, the total number of pages contained in a num

[1] Copies of the Complaint and Decision and Order filed with the original document.

[1] Copies of the Complaint and the Decision and Order filed with the original document.

V 4 4 / 1 6 J A 2 3 7 9 UMI

bered original shall be set forth on the first page of the document.

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

Section 240.0-3 is amended by designating the existing paragraph as (a) and adding paragraph (b) to read as follows:

§ 240.0-3 Filing of material with the Commission.

. . . . . .

(a) All papers required to be filed with the Commission pursuant to the Act or the rules and regulations thereunder shall be filed at the principal office in Washington, D.C. Material may be filed by delivery to the Commission, through the mails or otherwise. The date on which papers are actually received by the Commission shall be the date of filing thereof if all of the requirements with respect to the filing have been complied with, except that if the last day on which papers can be accepted as timely filed falls on a Saturday, Sunday or holiday, such papers may be filed on the first business day following.

(b) The manually signed original (or in the case of duplicate originals, one duplicate original) of all registrations, applications, statements, reports, or other documents filed under the Securities Exchange Act of 1934, as amended, shall be numbered sequentially (in addition to any internal numbering which otherwise may be present) by handwritten, typed, printed, or other legible form of notation from the facing page of the document through the last page of that document and any exhibits or attachments thereto. Further, the total number of pages contained in a numbered original shall be set forth on the first page of the document.

PART 250—GENERAL RULES AND REGULATIONS, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

Section 250.22 is amended by adding paragraph (e) to read as follows:

§ 250.22 Applications and declarations.

. . . . . .

(e) The manually signed original (or in the case of duplicate originals, one duplicate original) of all registrations, applications, statements, reports, or other documents filed under the Public Utility Holding Company Act of 1935, as amended, shall be numbered sequentially (in addition to any internal numbering which otherwise may be present) by handwritten, typed, printed, or other legible form of notation from the facing page of the document through the last page of that document and any exhibits or attachments thereto. Further, the total number of pages contained in a numbered original shall be set forth on the first page of the document.

PART 260—GENERAL RULES AND REGULATIONS, TRUST INDENTURE ACT OF 1939

Part 260 is amended by adding a new section to read as follows:

§ 260.0-4 Sequential numbering of documents filed with the Commission.

The manually signed original (or in the case of duplicate originals, one duplicate original) of all registrations, applications, statements, reports, or other documents filed under the Trust Indenture Act of 1939 shall be numbered sequentially (in addition to any internal numbering which otherwise may be present) by handwritten, typed, printed, or other legible form of notation from the facing page of the document through the last page of that document and any exhibits or attachments thereto. Further, the total number of pages contained in a numbered original shall be set forth on the first page of the document.

PART 270—RULES AND REGULATIONS, INVESTMENT COMPANY ACT OF 1970

Section 270.0-2 is amended by adding paragraph (h) to read as follows:

§ 270.0-2 General requirements of papers and applications.

. . . . . .

(h) The manually signed original (or in the case of duplicate originals, one duplicate original) of all registrations, applications, statements, reports, or other documents filed under the Investment Company Act of 1940, as amended, shall be numbered sequentially (in addition to any internal numbering which otherwise may be present) by handwritten, typed, printed, or other legible form of notation from the facing page of the document through the last page of that document and any exhibits or attachments thereto. Further, the total number of pages contained in a numbered original shall be set forth on the first page of the document.

PART 275—RULES AND REGULATIONS, INVESTMENT ADVISERS ACT OF 1940

Section 275.0-4 is amended by adding paragraph (i) to read as follows:

§ 275.0-4 General requirements of papers and application.

. . . . . .

(i) The manually signed original (or in the case of duplicate original) one duplicate originals of all registrations, applications, statements, reports, or other documents filed under the Investment Advisers Act of 1940, as amended, shall be numbered sequentially (in addition to any internal numbering which otherwise may be present) by handwritten, typed, printed, or other legible form of notation from the facing page of the document through the last page of that document and any exhibits or attachments thereto. Further, the total number of pages contained in a numbered original shall be set forth on the first page of the document.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

JANUARY 17, 1979.

[4510-30-M]

Title 20—Employees' Benefits

CHAPTER V—EMPLOYMENT AND TRAINING ADMINISTRATION, DEPARTMENT OF LABOR

PART 620—TEMPORARY HOUSING FOR AGRICULTURAL WORKERS

Extension of Cutoff Date for Housing Standards

AGENCY: Employment and Training Administration, Labor.

ACTION: Final rule.

SUMMARY: The Department of Labor is amending its December 9, 1977 deletion of rules (42 FR 62133) by extending the January 1, 1979 cutoff date for the Employment and Training Administration (ETA) housing standards in 20 CFR Part 620. This extension will be in effect until the Department completes its related proposed rulemaking of September 1, 1978 (43 FR 39124) and will permit employers whose housing met the ETA standards at the time of their deletion to continue to follow those standards until a final rule is promulgated.

EFFECTIVE DATE: January 1, 1979.

FOR FURTHER INFORMATION CONTACT:

Edward A. Scheopner, Division of Labor Certification, U.S. Department of Labor, 601 "D" Street, N.W., Room 8408, Washington, D.C. 20213. Telephone: (202) 376-6525).

SUPPLEMENTARY INFORMATION: On December 9, 1977, at 42 FR 62133, the Employment and Training Administration of the Department of Labor (ETA) rescinded its regulations at 20 CFR Part 620 and adopted the temporary housing standards of the Occupational Safety and Health Administration of the Department of Labor (OSHA) at 29 CFR 1910.142. The purpose of rescinding the ETA regulations was to achieve a single set of housing standards for all temporary housing. In the preamble at 42 FR 62133 the Department explained that employers whose housing met ETA standards at the time of their deletion would be given until January 1, 1979 to bring their housing into compliance with the OSHA standards.

The Department received a number of comments requesting clarification and extension of the cutoff provision. In response to these comments, on September 1, 1978, ETA published a notice of proposed rulemaking which would allow for the modified application of the ETA housing standards in 20 CFR Part 620, past their January 1, 1979 expiration date, 43 FR 39124.

ETA received a substantial number of comments on its September 1, 1978 proposal which are currently under review in the process of reaching a final determination. It appears, however, that a final rule will not be promulgated prior to the January 1, 1979 expiration date for the ETA standards.

Accordingly, ETA hereby amends its final rule of December 9, 1977 by extending the regulation's cutoff date beyond January 1, 1979. The Department of Labor will continue to maintain the ETA standards, as currently applicable, until such time as the September 1, 1978 rulemaking procedure is concluded and a final rule promulgated.

In addition, notice is hereby given that ETA will maintain its current administrative practice of inspecting housing offered in interstate job orders for agricultural workers until such time as the September 1, 1978 rulemaking procedure is concluded and a final rule promulgated.

Signed at Washington, D.C., this 18th day of January 1979.

RAY MARSHALL,
Secretary of Labor.

[4310-02-M]

Title 25—Indians

CHAPTER I—BUREAU OF INDIAN AFFAIRS, DEPARTMENT OF THE INTERIOR

SUBCHAPTER F—ENROLLMENT

PART 41—PREPARATION OF ROLLS OF INDIANS

Qualifications for Enrollment and Deadline for filing

JANUARY 10, 1979.

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Amendment to Final Rule.

SUMMARY: The deadline for filing applications for enrollment to share in the distribution of judgment funds to the Saginaw, Swan Creek and Black River Bands of Chippewa Indians is being extended to insure that interested persons have adequate time in which to apply for enrollment.

EFFECTIVE DATE: January 23, 1979.

FOR FURTHER INFORMATION CONTACT:

Ms. Janet L. Parks, Chief, Branch of Tribal Enrollment Services, Bureau of Indian Affairs, 1951 Constitution Avenue, N.W., Washington, D.C. 20245, telephone 703-235-8275.

SUPPLEMENTARY INFORMATION: On page 41388 of the September 18, 1978, FEDERAL REGISTER there was published a notice of final rulemaking which amended Title 25 of the Code of Federal Regulations, Part 41, § 41.3 by adding a new paragraph (cc).

The amendment included in the regulations requirements for enrollment and a deadline for applying for enrollment to share in funds derived from a judgment awarded the Saginaw, Swan Creek and Black River Bands of Chippewa Indians by the Indian Claims Commission. The period for filing applications has been determined to be too short to insure that all interested persons have sufficient time in which to file applications. The deadline is, therefore, extended to April 1, 1979.

Since these regulations govern preparation of a roll to distribute judgment funds, the 30-day deferred effective date would serve no purpose and waiver of the deferred effective date would be to the advantage of potential applicants. The 30-day deferred effective date is dispensed with under the exception provided in subsection (d)(3) of 5 U.S.C. 553 (1970). Accordingly, this amendment will become effective January 23, 1979.

The Department of the Interior has determined that this document is not a significant rule and does not require a regulatory analysis under Executive Order 12044 and 43 CFR Part 14.

No further changes are made in the text of Part 41.

The principal author of this amendment is Janet L. Parks, Bureau of Indian Affairs.

Section 41.3(cc)(3) of Subchapter F, Chapter I, Title 25 of the Code of Federal Regulations is hereby amended to read as follows:

§ 41.3 Qualifications for enrollment and the deadline for filing.

. . . . . .

(cc) Saginaw, Swan Creek, and Black River Bands of Chippewa Indians.

. . . . . .

(3) Applications must be filed with the Superintendent, Michigan Agency, Bureau of Indian Affairs, P.O. Box 884, Sault Ste. Marie, Michigan 49783, on forms provided for that purpose. Applications for enrollment must be received by the Superintendent no later than the close of business, April 1, 1979.

FORREST J. GERRARD,
Assistant Secretary—Indian Affairs.

Title 29—Labor

CHAPTER XIV—EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

PART 1601—PROCEDURAL REGULATIONS

AGENCY: Equal Employment Opportunity Commission.

ACTION: Final Rule.

SUMMARY: On September 23, 1977, the Equal Employment Opportunity Commission published amendments to its procedural regulations (42 FR 47828) to reflect a comprehensive reorganization of its enforcement procedures and on October 14, 1977, published amendments (42 FR 55388) effectuating a reorganization of its headquarters offices. Subsequently, on July 18, 1978, the Commission amended these regulations (43 FR 30798) to provide for more specific instructions for its Office of Systemic Programs. Thereafter, the Commission adopted a reorganization of its field offices effective January 29, 1979. As a result of the field office reorganization, the Commission is further amending its procedural regulations.

EFFECTIVE DATE: January 29, 1979.

V 4 4 / 1 6 J A 2 3 7 9 UMI

FOR FURTHER INFORMATION CONTACT:

Constance L. Dupre, Associate General Counsel, Legal Counsel Division, Office of the General Counsel, EEOC, 2401 E Street, N.W., Washington, D.C. 20506, (202) 634-6595.

SUPPLEMENTARY INFORMATION: On July 20, 1977, the Equal Employment Opportunity Commission adopted a resolution revising its overall programs to improve its capacity to carry out the mission of the agency. Proposed procedural regulations were published on August 19, 1977, (42 FR 42022) explaining the changes the Commission sought to accomplish in its enforcement procedures. Those proposed regulations were adopted in final form on September 22, 1977, (42 FR 47828) and have been amended on two occasions, as noted above.

As the final step in the implementation of the Commission's July 20, 1977, resolution, the Commission adopted a comprehensive reorganization of its field office structure effective January 29, 1979. The major features of the new field office structure are the establishment of 22 full-service district offices and 37 area offices, which will serve as sub-units of the district offices, and the abolition of the 7 regional offices of the Commission and the 5 regional offices of the General Counsel. Programmatically, the 22 full-service district offices will perform the functions previously performed by regional offices of General Counsel, regional offices of the Commission and district offices. The major features of the charge-processing system of the new district offices are contained in the resolution adopted by the Commission on July 20, 1977, and published as Appendix A to the proposed procedural regulations on August 19, 1977 (42 FR 42022, 42034).

In September 1977, the Commission established three model district offices in Baltimore, Chicago and Dallas (42 FR 47863). At this time the Commission is eliminating the model district office/district office distinction and based on the experience of the model offices, is now establishing 22 full-service district offices and 37 area offices, which will serve as subunits of the district offices, as listed below:

1. The Atlanta District Office: the Greenville and Savannah Area Offices.
2. The Baltimore District Office: the Norfolk, Richmond and Washington, D.C. Area Offices.
3. The Birmingham District Office: the Jackson and Mobile Area Offices.
4. The Charlotte District Office: the Greensboro and Raleigh Area Offices.
5. The Chicago District Office.
6. The Cleveland District Office: the Cincinnati, Columbus, Dayton and Toledo Area Offices.
7. The Dallas District Office: the El Paso, Oklahoma City and Tulsa Area Offices.
8. The Denver District Office.
9. The Detroit District Office.
10. The Houston District Office: the San Antonio Area Office.
11. The Indianapolis District Office.
12. The Los Angeles District Office: the Bakersfield, Long Beach and San Diego Area Offices.
13. The Memphis District Office: the Louisville and Nashville Area Offices.
14. The Miami District Office: the Jacksonville and Tampa Area Offices.
15. The Milwaukee District Office: the Minneapolis Area Office.
16. The New Orleans District Office: the Little Rock Area Office.
17. The New York District Office: the Boston, Buffalo and Newark Area Offices.
18. The Philadelphia District Office: the Pittsburgh and Trenton Area Offices.
19. The Phoenix District Office: the Albuquerque Area Office.
20. The St. Louis District Office: the Kansas City Area Office.
21. The San Francisco District Office: the Fresno, Oakland, Sacramento and San Jose Area Offices.
22. The Seattle District Office.

The delegations of authority to the General Counsel to process charges under Section 707 of Title VII in Subpart G of this Part (§§ 1601.50 through 1601.59) are rescinded. In the future, 707 charges will be processed under the procedures set forth in Subpart B of this Part by the Office of Systemic Programs and the systemic units in the district offices.

Section 1601.5 is amended to reflect the supervisory structure among headquarters, district and area offices and to delineate the supervisory authority of the superior over the subordinate.

Delegations of authority to area directors are included in §§ 1601.10, 1601.14, 1601.19(g), 1601.20 and 1601.28(a) (2) and (c) in order to provide for the efficient processing of charges by area offices and to inform the public of the authority to be exercised at the area office level. Section 1601.8 is amended to substitute area offices for regional offices as appropriate places where charges can be filed.

The reference to directors of model offices in § 1601.16(b) is changed to district directors since all district directors will make the initial determination on a petition to revoke or modify a subpoena.

Previous printing errors in §§ 1601.2 and 1601.34 are corrected. In § 1601.2 region should have been religion. The section number for § 1601.34 was incorrectly printed as § 1601.134.

These regulations have been reviewed in accordance with Executive Order 12044. These regulations are not "substantial regulations" under section 2(e) of that Order nor do they require regulatory analysis under section 3 of that Order.

By virtue of the authority vested in the Commission under Title VII of the Civil Rights Act of 1964, as amended, 42 U.S.C. 2000e, the Equal Employment Opportunity Commission hereby publishes the following amendments to its procedural regulations, to be effective January 29, 1979.

Signed at Washington, D.C. this 18th day of January, 1979. For the Commission.

ELEANOR HOLMES NORTON,
Chair.

§§ 1601.50—1601.59 [Revoked]

1. Subpart G of this Part 1601, 29 CFR 1601.50 through 29 CFR 1601.59, is hereby rescinded.

2. 29 CFR 1601.2 is revised to read as follows:

§ 1601.2 Terms defined in Title VII of the Civil Rights Act of 1964, as amended.

The terms "person," "employer," "employment agency," "labor organization," "employee," "commerce," "industry affecting commerce," "State" and "religion" as used herein shall have the meanings set forth in section 701 of Title VII of the Civil Rights Act of 1964, as amended.

3. 29 CFR 1601.5 is revised to read as follows.

§ 1601.5 District; area; supervisory authority.

The term "district" as used herein shall mean that part of the United States or any territory thereof fixed by the Commission as a particular district. The term "district director" shall refer to that person designated as the Commission's chief officer in each district. The term "area" shall mean that part of the United States within a district fixed by the Commission as a particular sub-unit of a district. The term "area director" shall refer to that person designated as the Commission's chief officer in each area. Each district office will operate under the supervision of the Executive Director, through the Director of the Office of Field Services, and the General Counsel. Each area office will operate under the supervision of the district director. Any or all delegations, or actions taken, as provided by this Part may be revoked and/or exercised by the supervisor in keeping with the supervisory structure described in this section.

4. 29 CFR 1601.8 is revised to read as follows:

§ 1601.8 Where to make a charge.

A charge may be made in person or by mail at the offices of the Commission in Washington, D.C., or any of its district or area offices or with any designated representative of the Commission. The addresses of the Commission's district offices appear in § 1610.4.

5. 29 CFR 1601.10 is revised to read as follows:

§ 1601.10 Withdrawal of a charge by a person claiming to be aggrieved.

A charge filed by or on behalf of a person claiming to be aggrieved may be withdrawn only by the person claiming to be aggrieved and only with the consent of the Commission. The Commission hereby delegates authority to District Directors, Area Directors, the Director of the Office of Field Services and the Director of the Office of Systemic Programs, or their designees, to grant consent to a request to withdraw a charge, other than a Commissioner charge, where the withdrawal of the charge will not defeat the purposes of Title VII.

6. 29 CFR 1601.14 is revised to read as follows:

§ 1601.14 Service of charge or notice of charge.

(a) Within ten days after the filing of a charge in the appropriate Commission office, the Commission shall serve respondent a copy of the charge, by mail or in person, except when it is determined that providing a copy of the charge would impede the law enforcement functions of the Commission. Where a copy of the charge is not provided, the respondent will be served with a notice of the charge within ten days after the filing of the charge (including the date, place, circumstances and identity of the person filing the charge, or, in the case of a charge filed on behalf of any individual, the identity of the person or organization so filing).

(b) The District Directors, the Area Directors, the Director of the Office of Field Services and the Director of the Office of Systemic Programs, or their designees, are hereby delegated the authority to issue the notice described in paragraph (a) of this section.

7. 29 CFR 1601.16(b) is revised to read as follows:

§ 1601.16 Access to and production of evidence; testimony of witnesses; procedure and authority.

• • • • • •

(b) Any person served with a subpoena who intends not to comply therewith shall within five days (excluding Saturdays, Sundays and Federal legal holidays) after the date of service of the subpoena upon him or her, petition the General Counsel by mail to revoke or modify the subpoena. Such petition shall be mailed to 2401 E Street, N.W., Washington, D.C. 20506, and a copy thereof shall be served on the person who issued the subpoena. The petition shall separately identify each portion of the subpoena with which the petitioner does not intend to comply and shall state, with respect to each such portion, the grounds upon which the petitioner relies. A copy of the subpoena shall be attached to the petition and shall be designated "Attachment A." Within 8 days after receipt thereof or as soon thereafter as practicable, the General Counsel shall make a determination upon the petition, stating reasons, and shall submit the petition and determination to the Commission for its review. The Commission shall review the petition and make a final determination. A Commissioner who has issued a subpoena shall abstain from reviewing any petition to modify or revoke the subpoena. The Commission shall serve a copy of the final determination of the petition upon the petitioner. For purposes of this section, service shall be made and proof thereof established pursuant to section 11(4) of the National Labor Relations Act, as amended, 29 U.S.C. 161(4), as made applicable to Commission hearings and investigations by section 710 of Title VII: Provided, however, that, whenever the subpoena was issued by a District Director or the Director of the Office of Systemic Programs, the petition to revoke or modify the subpoena shall be mailed to the Director, within the 5 day period specified above, who will make a determination on the petition. Any petitioner who wishes to appeal the determination of the Director shall do so by following the standard procedures specified above. Such appeal shall, in addition, be clearly labeled as "Appeal of Petition to Revoke or Modify Subpoena," and shall attach the initial petition and determination, designated as "Attachments B and C." No argument not presented to the District Director or the Director of the Office of Systemic Programs will be considered by the Commission.

8. 29 CFR 1601.19(g) is revised to read as follows:

§ 1601.19 Dismissal: Procedure and authority.

• • • • • •

(g) The Commission hereby delegates authority to District Directors, the Director of the Office of Field Services and the Director of the Office of Systemic Programs, as appropriate, to dismiss charges[1] as limited by § 1601.21(d). The Commission hereby delegates authority to Area Directors to dismiss charges pursuant to paragraphs (a), (c), and (d) of this section, as limited by § 1601.21(d). The authority of the Commission to reconsider decisions and determinations as set forth in § 1601.21 (b) and (d) shall be applicable to this section.

9. 29 CFR 1601.20 is revised to read as follows:

§ 1601.20 Negotiated settlement.

(a) Prior to the issuance of a determination as to reasonable cause the Commission may encourage the parties to settle the charge on terms that are mutually agreeable. District Directors, Area Directors, the Director of the Office of Field Services and the Director of the Office of Systemic Programs, or their designees, shall have the authority to sign any settlement agreement which is agreeable to both parties. The Commission shall limit its undertaking in such settlements to an agreement not to process that charge further. Such settlements shall note that the Commission has made no judgment on the merits of the charge. Such an agreement shall not affect the processing of any other charge, including, but not limited to, a Commissioner charge or a charge the allegations of which are like or related to the individual allegations settled.

(b) In the alternative, the Commission may facilitate a settlement between the person claiming to be aggrieved and the respondent by permitting withdrawal of the charge pursuant to § 1601.10.

10. 29 CFR 1601.28(a)(2) and (c) are revised to read as follows:

§ 1601.28 Notice of right to sue: Procedure and authority.

(a) • • •

(2) When a person claiming to be aggrieved requests, in writing, that a notice of right to sue be issued, and the charge to which the request relates is filed against a respondent other than a government, governmental agency or political subdivision, the Commission may issue such notice as described in § 1601.28(e) with copies to all parties, at any time prior to the expiration of 180 days from the date of filing the charge with the Commission; provided, that the District Director, the Area Director, the Director of the Office of Field Services or the Director of the Office of Systemic Programs has determined that it is probable that the Commission will be unable to complete its administrative processing of the charge within 180 days from the filing of the charge and has attached a written certificate to that effect.

• • • • • •

(c) The Commission hereby delegates authority to District Directors, Area Directors, the Director of the Office of Field Services and the Director of the Office of Systemic Programs, or their designees, to issue notices of right to sue, in accordance with this section, on behalf of the Commission.[1]

[1]Formal Ratification-Notice is hereby given that the EEOC at a Commission meet-

Title 31—Money and Finance: Treasury

CHAPTER II—FISCAL SERVICE, DEPARTMENT OF THE TREASURY

PART 215—WITHHOLDING OF DISTRICT OF COLUMBIA, STATE, CITY AND COUNTY INCOME OR EMPLOYMENT TAXES BY FEDERAL AGENCIES

Amendments to City and County Tax Withholding Agreements

AGENCY: Fiscal Service, Treasury.

ACTION: Final Rule: Amendments.

SUMMARY: The Fiscal Service amends its regulations relating to withholding by Federal agencies of certain taxes of Federal employees. Recent legislation provides for the application of a city or county tax withholding agreement to Federal employees who are subject to the tax and are residents of the city or county, but are employed outside the city or county. The legislation prohibits mandatory withholding for Federal employees whose regular place of employment is not within the State in which the taxing city or county is located, unless the employee specifically consents to the withholding. This document amends the standard agreement provisions to implement the recent legislation.

EFFECTIVE DATE: December 14, 1978.

FOR FURTHER INFORMATION CONTACT:

Mrs. Paula Pickens, Government Accounting Systems Staff, Bureau of Government Financial Operations, Room 412, Annex No. 1, Department of the Treasury, Washington, D.C. 20226, (202-566-8374).

SUPPLEMENTARY INFORMATION: Because these amendments merely reflect changes in the law, they do not require prior notice or public comment. This document does not meet Treasury's criteria for a significant regulation.

AUTHORITY: Pub. L. 95-365, 92 Stat. 599 (5 U.S.C. 5520).

Accordingly, 31 CFR 215 is amended by revising Subpart C—Standard Agreement as follows:

In 31 CFR 215.8 paragraph (b) is revised to read as follows:

§ 215.8 Compliance by agencies.

* * * * *

(b) In the case of an agreement with a city or county, the head of each agency is required to withhold city or county income or employment taxes from the compensation of any employee of the agency who is subject to the tax, and

(1) Whose regular place of Federal employment is within the city or county, or

(2) Is a resident of the city or county.

* * * * *

In 31 CFR 215.12 paragraph (d) is revised to read as follows:

§ 215.12 Miscellaneous provisions.

Nothing in this agreement shall be deemed:

* * * * *

(d) To permit withholding of a city or county tax from the pay of a Federal employee who is not a resident of, or whose regular place of Federal employment is not within, the State in which the city or county is located, unless the employee consents to the withholding, or

* * * * *

These amendments are effective December 14, 1978.

Issued in Washington, D.C., January 15, 1979.

D. A. PAGLIAI,
Commissioner.

Title 32—National Defense

CHAPTER I—OFFICE OF THE SECRETARY OF DEFENSE

SUBCHAPTER R—CHARTERS

[DoD Directive 3030.1]

PART 365—OFFICE OF ECONOMIC ADJUSTMENT

AGENCY: Office of the Secretary of Defense.

ACTION: Final Rule—DoD Charter Directive 3030.1 [1]

SUMMARY: The Secretary of Defense has assigned functions and responsibilities to the Office of Economic Adjustment (OEA), and has delegated specific authorities. This Directive serves as the instrument that authorizes the OEA to carry out the charter.

EFFECTIVE DATE: November 29, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Howard G. Becker, Office of the Director for Organizational & Management Planning, Office of the Deputy Assistant Secretary of Defense (Administration), Washington, D.C. 20301, Telephone 202-697-0709.

SUPPLEMENTARY INFORMATION: This information is submitted in compliance with the requirements of section 552(a)(1) of Title 5, United States Code, and Recommendation 76-2 of the Administrative Conference of the United States.

Accordingly, 32 CFR, Chapter I, is amended by adding a new Part 365, reading as follows:

PART 365—OFFICE OF ECONOMIC ADJUSTMENT

Sec.
365.1 Purpose.
365.2 Mission.
365.3 Organization and Management.
365.4 Responsibilities and Functions.
365.5 Relationships.
365.6 Authority.
365.7 Administration.
365.8 Delegation of Authorities.

AUTHORITY: The provisions of this Part 365 are issued under 10 U.S.C. Chapter 4.

§ 365.1 Purpose.

(a) Pursuant to the authority vested in the Secretary of Defense under the provisions of title 10, United States Code, this Part establishes the Office of Economic Adjustment (hereafter referred to as the "OEA") with responsibilities, functions, authorities, and relationships as stated below.

(b) "Economic Adjustment" as used in this Part refers to responsibilities of the Secretary of Defense under Executive Order 12049, "Defense Economic Adjustment Programs," March 27, 1978, and related responsibilities stated in DoD Directive 5410.12,[1] "Economic Adjustment Assistance to Defense-Impacted Communities," April 21, 1973.

§ 365.2 Mission.

The OEA shall:

(a) Plan, direct, coordinate, and manage economic adjustment programs to alleviate serious social and economic impacts that may result from major changes in DoD activities.

(b) In cooperation with DoD Components, identify proposed changes that could result in adverse local impacts, and encourage local officials to initiate early economic adjustment planning on a contingency basis.

(c) Upon request, and in coordination with appropriate local, State and Federal agencies, assist community officials to develop and implement feasible adjustment plans that will alleviate the impact of DoD actions.

(d) Support the Secretary of Defense as chairperson of the Economic Adjustment Committee (EAC), Executive Order 12049, and serve as the permanent staff for the community assistance activities of the EAC. In this capacity, arrange meetings, conduct studies, develop recommendations, prepare reports, and initiate other appropriate staff actions.

§ 365.3 Organization and management.

(a) The OEA is established as a field activity of the Office of the Secretary of Defense, under the authority, direction and control of the Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics) (hereafter referred to as the "ASD(MRA&L))". It shall consist of a Director and subordinate organizational elements established by the Director within resources authorized by the Secretary of Defense.

(b) The Director, OEA, is also designated as the Assistant to the ASD(MRA&L) for Economic Adjustment, and as Executive Director of the Economic Adjustment Committee.

§ 365.4 Responsibilities and functions.

(a) The Director, OEA, shall:

(1) Serve as the principal staff adviser to the ASD(MRA&L) on economic adjustment program matters.

(2) Organize, direct, and manage the OEA and all resources assigned to the OEA.

(3) Design, establish, and manage a Defense Economic Adjustment Program to achieve the objectives and implement the provisions of Executive Order 12049 and DoD Directive 5410.12, "Economic Adjustment Assistance to Defense-Impacted Communities," April 21, 1973.

(4) Monitor program change activities of DoD Components and, as required, assist in the evaluation of possible impacts and the identification of adjustment actions that could alleviate such impacts.

(5) Develop and recommend strategies and action plans to lessen serious local impacts of DoD realinements, e.g., base closures, conversion of in-house activities to contract, major personnel reductions, and procurement cutbacks.

(6) Provide information and advice regarding the Economic Adjustment Program and the resources available to meet community economic adjustment needs.

(7) Plan, organize, coordinate, and administer economic adjustment assistance projects for communities, areas, and States adversely affected by DoD realinement actions.

(8) Assist local communities, areas, or States in expanding public service facilities to meet requirements generated by major expansions or the establishment of new DoD installations.

(9) Provide technical advice and assistance to Defense-dependent communities in efforts to diversify their economic base, reduce their vulnerability to change, and minimize the possible impact of future cutbacks.

(10) Evaluate DoD Economic Adjustment Program effectiveness.

(11) Develop, propose, and implement program improvements.

(12) Perform such other economic adjustment functions as may be assigned by the ASD(MRA&L).

(b) The ASD(MRA&L) shall:

(1) Recommend to the Secretary of Defense policies for the administration of economic adjustment programs.

(2) Provide policy guidance and management direction to the Director, OEA.

§ 365.5 Relationships.

(a) In the performance of assigned functions, the Director, OEA, shall:

(1) Establish and maintain effective liaison with DoD Components (and, after appropriate notification, with subordinate commands and installations, as required) for the timely exchange of information, and the coordination of realinements and economic adjustment plans and actions.

(2) Establish and maintain effective liaison with Federal domestic agency members of the EAC at headquarters and regional levels for timely exchange of information and the development, coordination, and support of economic adjustment assistance plans and actions.

(3) Use established facilities and services in the DoD and other governmental agencies whenever practical to achieve maximum efficiency and economy.

(b) Heads of DoD Components shall provide timely information and technical support to the Director, OEA, on matters within their respective fields of responsibilities and as may be necessary to carry out effectively the assigned responsibilities and functions of OEA.

§ 365.6 Authority.

The Director, OEA, is specifically authorized to:

(a) Obtain such information, advice, and assistance from other DoD Components as considered necessary, consistent with the policies and criteria of DoD Directive 5000.19, "Policies for the Management and Control of Information Requirements," March 12, 1976.

(b) Communicate directly with appropriate personnel in the Military Departments and other DoD Components on matters related to OEA responsibilities and functions.

(c) Exercise the administrative authorities contained in § 365.8 of the Part.

§ 365.7 Administration.

(a) The Director, OEA, shall be designated by the ASD(MRA&L).

(b) The OEA shall be authorized such personnel, facilities, funds, and other administrative support as the Secretary of Defense considers necessary.

(c) The Secretaries of Military Departments shall assign military personnel to the OEA within approved authorizations, and in accordance with established procedures for assignment to joint duty.

(d) Administrative support required for the OEA will be provided, through support and service agreements, by other DoD Components.

§ 365.8 Delegation of authorities.

Pursuant to the authority vested in the Secretary of Defense, and subject to his/her direction, authority and control, and in accordance with DoD policies, directives and instructions, the Director, OEA, or, in the absence of the Director, the person acting for him/her, is hereby delegated authority, as required in the administration and operation of OEA, to:

(a) Perform the following functions in accordance with the provisions of 5 U.S.C. 7532 (1976); Executive Order 10450, as amended, 3 CFR 936 (1949-1953 Compilation), reprinted at 5 U.S.C. 7311 (1976); and the DoD Directive 5210.7, "Department of Defense Civilian Applicant and Employee Security Program," September 2, 1966:

(1) Designate any position in OEA as a "sensitive" position;

Footnotes continued from last page

ing on March 12, 1974, formally ratified the acts of the District Directors of EEOC District Offices in issuing notices of right to sue pursuant to Commission practice instituted on October 15, 1969, and continued through March 18, 1974. 39 FR 10178 (March 18, 1974).

[1] Copies may be obtained, if needed, from the U.S. Naval Publications and Forms Center, 5801 Tabor Avenue, Philadelphia, PA. 19120 Attention: Code 301.

(2) Authorize, in case of an emergency, the appointment of a person to a sensitive position in OEA for a limited period of time for whom a full field investigation or other appropriate investigation, including the National Security Check, has not been completed; and

(3) Authorize the suspension, but not including termination of the services of an employee in the interest of national security in positions within OEA.

(b) Authorize and approve overtime work for OEA civilian employees in accordance with the provisions of the Federal Personnel Manual Supplement 990-1, § 550.111 (5 CFR 550.111 (1978)).

(c) Develop, establish and maintain an active and continuing Records Management Program, pursuant to 44 U.S.C.A. 3102 (Supp. 1978).

(d) Authorize the publication of advertisements, notices, or proposals in public periodicals, as required for the effective administration of OEA pursuant to 44 U.S.C. 3702 (1970).

(e) Establish and maintain, for the functions assigned, an appropriate publications system for the promulgation of regulations, instructions and reference documents, and changes thereto, pursuant to the policies and procedures prescribed in DoD Directive 5205.1, "Department of Defense Directives System," November 18, 1977.

(f) In coordination with the DASD (Administration), enter into support and services agreements with the Military Departments, other DoD Components or other Government agencies, as required for the effective and efficient performance of responsibilities and functions assigned to OEA.

(g) Enter into and administer contracts through the DASD (Administration) or with his/her approval, directly or through a Military Department, a DoD contract administration services component, or other Government department or agency, as appropriate, for supplies, equipment and services required to accomplish the mission of OEA. To the extent that any law or executive order specifically limits the exercise of such authority to persons at the Secretarial level of a Military Department, such authority will be exercised by the appropriate Under Secretary or Assistant Secretary of Defense.

The Director, OEA, may redelegate these authorities, as appropriate and in writing, except as otherwise specifically indicated above or as otherwise provided by law or regulation.

This delegation of authorities is effective immediately.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

JANUARY 18, 1979.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

PART 65—DELAYED COMPLIANCE ORDERS

Delayed Compliance Order for Cleveland Electric Illuminating Co., Eastlake, Ashtabula, Avon Lake and Cleveland, Ohio

AGENCY: U.S. Environmental Protection Agency.

ACTION: Final Rule.

SUMMARY: By this rule, the Administrator of U.S. EPA issues a Delayed Compliance Order to Cleveland Electric Illuminating Company (CEI). The Order requires the Company to bring air emissions from many of its fossil fuel-fired steam generating units at its Eastlake, Ashtabula, Avon Lake and Cleveland (Lake Shore) plants into compliance with certain regulations contained in the federally approved Ohio State Implementation Plan (SIP). CEI's compliance with the Order will preclude suits under the Federal enforcement and citizen suit provisions of the Clean Air Act for violations of the SIP regulations covered in the Order.

DATES: This rule takes effect January 23, 1979.

FOR FURTHER INFORMATION CONTACT:

Peter Kelly, Attorney, United States Environmental Protection Agency, Region V, 230 South Dearborn Street, Chicago, Illinois 60604, Telephone (312) 353-2082.

SUPPLEMENTARY INFORMATION: On August 14, 1978, the Acting Regional Administrator of U.S. EPA's Region V Office published in the FEDERAL REGISTER (43 FR 35960) a notice setting out the provisions of a proposed Federal Delayed Compliance Order for CEI. The notice asked for public comments and offered the opportunity to request a public hearing on the proposed Order. A public hearing was held on September 8, 1978, at Cleveland, Ohio.

Therefore, a Delayed Compliance Order effective this date is issued to CEI by the Administrator of U.S. EPA pursuant to the authority of Section 113(d)(1) of the Clean Air Act, 42 U.S.C. 7413(d)(1). The Order places CEI on a schedule to bring several of its fossil fuel-fired steam generating units at its Eastlake, Ashtabula, Avon Lake and Cleveland, Ohio, plants into compliance as expeditiously as practicable with Regulations AP-3-07 and AP-3-11, a part of the federally approved Ohio State Implementation Plan. CEI is unable to immediately comply with these regulations. The Order also imposes interim requirements which meet Sections 113(d)(1)(C) and 113(d)(7) of the Act, and emission monitoring and reporting requirements. If the conditions of the Order are met, it will permit CEI to delay compliance with the SIP regulations covered by the Order until April 15, 1980.

Compliance with the Order by CEI will preclude Federal enforcement action under Section 113 of the Act for violations of the SIP regulations covered by the Order. Citizen suits under Section 304 of the Act to enforce against the source are similarly precluded. Enforcement may be initiated, however, for violations of the terms of the Order, and for violations of the regulations covered by the Order which occurred before the Order was issued by U.S. EPA or after the Order is terminated. If the Administrator determines that CEI is in violation of a requirement contained in the Order, one or more of the actions required by Section 113(d)(9) of the Act will be initiated. Publication of this notice of final rulemaking constitutes final Agency action for the purposes of judicial review under Section 307(b) of the Act.

U.S. EPA has determined that the Order shall be effective upon publication of this notice because of the need to immediately place CEI on a schedule for compliance with the Ohio State Implementation Plan.

(42 U.S.C. 7413(d), 7601)

Dated: January 17, 1979.

DOUGLAS M. COSTLE,
Administrator.

In consideration of the foregoing, Chapter I of Title 40 of the Code of Federal Regulations is amended as follows:

PART 65—DELAYED COMPLIANCE ORDERS

I. By amending § 65.400 to read as follows:

§ 65.400 Federal Delayed Compliance Orders issued under Section 113(d)(1), (3), and (4) of the Act.

Source	Location	Order No.	Date or FR Proposal	SIP Regulation Involved	Final Compliance Date
Cleveland Electric Illuminating Company.	Eastlake, Ohio ...	EPA-5-79-A-9.....	Aug. 14, 1978.	AP-3-11.....	Apr. 15, 1980

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Gen. Docket No. 78-290; FCC 79-3]

PART 83—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

Implementing changes in the Technical Regulations annexed to the Agreement between the United States of America and Canada for Promotion of Safety on the Great Lakes by Means of Radio, 1973

AGENCY: Federal Communications Commission.

ACTION: Final Order.

SUMMARY: The FCC is amending its regulations on the 1973 agreement between the United States and Canada concerning the Promotion of Safety on the Great Lakes by Means of Radio, to implement amendments to the technical regulations which are annexed to the Agreement.

EFFECTIVE DATE: February 1, 1979.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Nicholas G. Bagnato, Safety and Special Radio Services Bureau (202-632-7197).

SUPPLEMENTARY INFORMATION: *Report and Order* (Proceeding Terminated). In the Matter of Amendment of Part 83 of the rules to implement changes in the Technical Regulations annexed to the Agreement Between the United States of America and Canada for Promotion of Safety on the Great Lakes by Means of Radio, 1973; Gen Docket No. 78-290.

Adopted: January 8, 1979.

Released: January 18, 1979.

BACKGROUND

1. On September 20, 1978, the Commission released a Notice of Proposed Rule Making which would amend Part 83 of the rules to implement changes to the Technical Regulations annexed to the Agreement Between the United States of America and Canada for Promotion of Safety on the Great Lakes by Means of Radio, 1973 (GLA). At the time of the release of the Notice, amendment of the GLA had not yet been completed.

2. This rulemaking was initiated as a result of meetings and exchange of correspondence with Canada to amend the Technical Regulations. The procedure for amending the Technical Regulations is by an exchange of diplomatic notes. The exchange of diplomatic notes has been accomplished and the amendments will be effective February 1, 1979.

3. The general substance of the rule amendments in the Appendix is as follows:

a. An additional requirement for all ships over 38 meters (124 feet) in length to be equipped with a second VHF installation which fully complies with the rules has been established.

b. The required frequencies are amended to allow the ship to install the necessary ship movement frequencies for the ship's area of operation.

c. Regulation 15 (bis) (c), Chapter IV of the Safety Convention establishes a 10 watt RF carrier power minimum power requirement applicable to foreign ships. This 10 watt minimum requirement is now made applicable to ships subject to the GLA.

d. The definition of the Great Lakes has been amended to reflect the connecting and tributary waters contained in the new Regulation 8.

COMMENTS AND COMMENTERS

4. Comments were submitted by the Lake Carriers Association (LCA), Lorain Electronics Corporation (LORAIN) and the Great Lakes Towing Company (GLT). No reply comments were submitted.

5. All of the commenters supported the amendments. However, several suggested some minor clarification and wording changes as follows:

a. LORAIN has made the following comments:

(1) Suggested that the wording of Section 83.539(b) might be misconstrued as limiting the number of VHF radiotelephones to two installations only and suggested the following wording "shall be fitted with at least two VHF radiotelephone installations • • •";

(2) The required channelization proposed in Section 83.539(c) is not clear and suggested the following;

"(c) The term "radiotelephone installation" for the purpose of the Great Lakes Agreement, means a ship radio station (including the source of energy necessary to energize the apparatus) of which each of the VHF installations in (b) above are capable of transmitting and receiving speech on at least the following VHF channels;

Channel 16—156.8 MHz—Distress, Safety and Calling.

Channel 6—156.3 MHz—Primary intership.

In addition the station shall be equipped with those of the following vessel traffic channels appropriate • • • etc."; and

(3) While Section 83.547(a) was not included in the proposal, LORAIN was concerned that certain vessels had the operating controls on the bridge, but not at the conning position, and suggested that dial lights only be required at the principal operating position.

b. LCA associated its comments with those of LORAIN.

c. GLT is concerned with the requirement for any public correspondence frequencies on their harbor tugs. These tugs operate within the confines of the harbor and their operation is under the control of the GLT limited coast station.

DISCUSSION

6. With respect to the comments, we make the following observations:

a. We agree with LORAIN regarding the required channelization. We did not intend that each radiotelephone have all of the proposed channels installed as long as the radiotelephone station has the required channels and each radiotelephone is capable of operation on Channels 6 and 16.

b. With respect to LORAIN's concern that there is any implication that two radiotelephones is the maximum number permitted, we are amending our rules to make this clear. It should be noted, however, that the Commission specifies the minimum requirements for compliance with the various acts or agreements but does not re-

V 4 4 / 1 6 J A 2 3 7 9 UMI

strict the licensee from installing any additional equipment deemed necessary for its efficient operation.

c. LORAIN's suggestion concerning dial lights was not a part of this proceeding. The rules now make provisions for an alternate means of lighting the operating controls and no further consideration is necessary.

d. Concerning the GLT comment on the requirement for a public correspondence frequency on harbor tugs, we believe that this comment is not generally applicable to the operations on the Great Lakes. However, in consideration of the number of channels installed for ship movement, ship service and the automated VHF system on the Great Lakes, the necessity for a public correspondence channel is minimized. Therefore, we are deleting this requirement.

7. Pursuant to Article XVIII of the Great Lakes Agreement amendment to the technical regulations, which the subject rules implement, shall enter into force on February 1, 1979. Orderly administration dictates that our rules shall be in effect on the same date. Accordingly, good cause is found to make the rules effective on February 1, 1979, less than the 30 days specified in 5 USCA 553(d).

8. Regarding questions on matters covered in this document, contact Nicholas G. Bagnato, telephone (202) 632-7197.

CONCLUSION

9. Accordingly, IT IS ORDERED, THAT, pursuant to the authority contained in Section 4(i) and 303(c), (e) and (r) of the Communications Act of 1934, as amended, the Commission's rules ARE AMENDED, as set forth in the attached Appendix, effective February 1, 1979.

10. *It is further ordered*, That this proceeding IS TERMINATED.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

FEDERAL COMMUNICATIONS COMMISSION
WILLIAM J. TRICARICO,
Secretary.

Part 83 of Chapter I of Title 47 of the Code of Federal Regulations is amended to read as follows:

PART 83—STATIONS ON SHIPBOARD IN THE MARITIME SERVICE.

1. The introductory portion of § 83.536 which precedes paragraph (a) is amended to define applicable waters of the Great Lakes and paragraphs (a) and (b) are amended to reflect the length in meters as follows:

§ 83.536 Applicability to vessels.

The Agreement Between the United States of America and Canada for Promotion of Safety on the Great Lakes by Means of Radio, 1973, applies to vessels of all countries when navigated on the Great Lakes. The Great Lakes Agreement defines the Great Lakes as "all waters of Lakes Ontario, Erie, Huron (including Georgian Bay), Michigan, Superior, their connecting and tributary waters and the River St. Lawrence as far east as the lower exit of the St. Lambert Lock at Montreal in the Province of Quebec, Canada, but shall not include such of the connecting and tributary waters as may be specified in the Technical Regulations." The Technical Regulations do not include any connecting and tributary waters except the St. Mary's River, the St. Clair River, Lake St. Clair, the Detroit River and the Welland Canal. A vessel to which the Great Lakes Agreement applies and which falls into the specific categories by paragraphs (a), (b) or (c) of this section and not excepted by paragraphs (d) or (e) of this section shall comply with this subpart while navigated on the Great Lakes.

(a) Every vessel of 20 meters (65 feet) or over in length (measured from end to end over the deck, exclusive of sheer).

(b) Every vessel engaged in towing another towing vessel or floating object, except:

(1) where the minimum length of the towing vessel, measured from end to end over the deck exclusive of sheer, is less than 8 meters (26 feet) and the length or breadth of the tow, exclusive of the towing line is less than 20 meters (65 feet);

(2) where the vessel towed complies with this subpart;

(3) where the towing vessel and tow are located within a booming ground (an area in which logs are confined); or

(4) where the tow has been undertaken in an emergency and neither the towing vessel nor the tow can comply with this part.

* * * * *

(2) Section 83.539 is amended by amending paragraph (a), adding a new paragraph (b), amending existing paragraph (b) and redesignating as (c), and redesignating existing paragraph (c) as (d) to read as follows:

§ 83.539 Radiotelephone installation.

(a) Each vessel of the United States of less than 38 meters (124 feet) registered length while subject to the requirements of the Great Lakes Radio Agreement shall be fitted with a radiotelephone in effective operating condition meeting the provisions of this subpart in addition to the provisions of such other rules in this part, governing ship stations using telephony, as are applicable.

(b) Each vessel of the United States of 38 meters (124 feet) or more while subject to the requirements of the Great Lakes Radio Agreement shall be fitted with a minimum of two VHF radiotelephone installations in effective operating condition meeting the provisions of this subpart in addition to the provisions of such other rules in this part, governing ship stations using telephony, as are applicable. The second VHF installation shall be electrically separate from the first VHF installation; however, both may be connected to the main source of energy provided one installation can be operated from a separate source of energy located as high as practicable on the vessel.

(c) The term "radiotelephone installation", for the purpose of the Great Lakes Agreement, means a ship radio station (including the source of power necessary to energize the apparatus) capable of transmitting and receiving F3 emission as follows:

(1) Each VHF radiotelephone installation.

(i) Channel 16—156.8 MHz—Distress, Safety and Calling.

(ii) Channel 6—156.3 MHz—Primary intership.

(2) The radiotelephone station shall have additional frequencies as follows:

(i) Those ship movement frequencies appropriate to the vessel's area of operation: Channel 11—156.55 MHz, Channel 12—156.60 MHz, Channel 13—156.65 MHz or Channel 14—156.7 MHz.

(ii) Such other frequencies as required for the vessel's service.

(iii) One channel for receiving marine navigational warnings for the area of operation.

(3) Nothing contained in this paragraph shall be construed to require or prohibit the availability of other frequencies for use by the same "radiotelephone installation" for communication authorized by this part on other frequencies.

(d) Every radiotelephone station shall include one or more transmitters, one or more receivers, one or more sources of electrical energy; and associated antennas and control equipment. The radiotelephone station, exclusive of the antennas and source of electrical energy, shall be located as high as practicable on the vessel, preferably on the bridge, and suitably protected from the harmful effects of water, temperature, electrical and mechanical noise.

3. Section 83.542(b) is amended to reduce the minimum power requirement as follows:

§ 83.542 Radiotelephone transmitter.

* * * * *

(b) The transmitter shall be of a type which has been demonstrated in the process of type acceptance as being capable of delivering a carrier power of at least 10 watts, but not more than 25 watts, on each of the frequencies 156.8 MHz and 156.3 MHz into 50 ohms effective resistance, when operated with its applied primary supply voltage. The transmitter shall be capable of readily reducing the carrier power to one watt or less.

Title 49—Transportation

SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

[OST Docket No. 48; Amdt. 2]

PART 5—RULEMAKING PROCEDURES

Revision of Regulations Governing National Highway Traffic Safety Administration Financial Assistance Program

AGENCY: Department of Transportation (DOT).

ACTION: Final rule.

SUMMARY: The Department of Transportation revises its regulations governing the administration of a program of financial assistance to qualified participants in rulemaking proceedings of the National Highway Traffic Safety Administration (NHTSA). The revisions are intended to improve administration of the Department's public participation program to be conducted through NHTSA rulemaking, while the consideration of permanent regulations for the entire Department continues.

DATES: The amendments to the existing regulations are effective January 23, 1979. Comments should be received on or before April 2, 1979.

ADDRESSES: Comments should be addressed to: Docket Clerk; OST Docket No. 48, Amendment 2; Office of the General Counsel; Department of Transportation; Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard M. Lorr, Office of the General Counsel, Department of Transportation, Washington, D.C. 20590 (202) 426-4710.

SUPPLEMENTARY INFORMATION: DOT promulgated regulations in 1977 (42 FR 2864; January 13, 1977) establishing a one-year initial program to test the value of providing financial assistance to potential participants in DOT rulemaking whose viewpoints were not being represented or were being underrepresented because they were unable to bear the costs of effective participation. Based on a favorable finding by NHTSA, whose rulemakings were used for the one-year initial program, the Department extended the initial program until a decision on issuance of final departmental regulations was reached (43 FR 10918; March 16, 1978). Subsequently, the Appropriations Committees of Congress directed that the Secretary conduct a specifically funded public participation demonstration program in NHTSA rulemaking during FY 1979, with a final report on the project to be submitted to Congress (H. Rep. 95-1329, at 10). Congress directed that $125,000 be made available during FY 1979 for this one-year demonstration program of citizen participation.

While the Department continues to consider the appropriate scope and nature of a permanent regulation governing public participation for the Department as a whole, it has decided the NHTSA's experience to date with public participation justifies revisions in the present regulations. These revisions are based largely on NHTSA's evaluation and recommendations submitted to the Secretary upon the conclusion of the first year of the demonstration program. It is believed that these revisions will enable the Department to fulfill the Congressional direction properly. Although public comment has been solicited and received on the promulgation of permanent regulations, the procedural nature of these revisions justifies the immediate amendment of the existing program regulations, and is published without general notice of proposed rulemaking pursuant to 5 U.S.C. 553(b)(A). Final action is particularly important because less than 9 months of the FY 1979 program remain and several impending rulemaking proceedings may be candidates for funding.

The following paragraphs set forth an explanation of the more important revisions from the earlier regulation.

SCOPE OF THE PROGRAM

Consonant with the direction from Congress, the "Purpose" section of the regulation is revised to permit funding only of rulemaking proceedings rather than all administrative proceedings. It is clarified that no new right of intervention or participation is created by the financial participation program.

Some definitions have been revised for clarity. The rule now clearly defines "rulemaking proceeding" to mean any phase of a rulemaking process of NHTSA that is open to public participation, so long as it is commenced by publication of a notice in the FEDERAL REGISTER requesting comment. Previously, the definition of a "proceeding" might have been construed as only involving actual rulemakings under specific statutes administered by the NHTSA or defect determination hearings under the National Traffic and Motor Vehicle Safety Act of 1966. The definition of an Evaluation Board now clearly indicates it is an independent panel not subject to the authority of other officials in the evaluation of applications. Under the new regulations, it is also made clear that local, State, or Federal agencies are not considered eligible applicants. Other definitions have been streamlined in a similar fashion, and necessary new definitions have been added.

NOTICE OF AVAILABILITY OF COMPENSATION

Section 6 of the previous regulation has been expanded (in the new §§ 5.47 and 5.51) to improve notice of the availability of compensation and increase the time available for applying, consideration of the application, and opportunity to prepare comments when funded. A serious deficiency in the agency's one-year initial program was the limited time available in the normal course of rulemaking (1) to alert potential participants, particularly individuals who do not normally deal with Federal rulemaking proceedings, of the availability of compensation, (2) to prepare applications, (3) to evaluate applications, (4) and to prepare and deliver comments when funding is provided. This schedule was particularly tight when a public meeting occurred midway through a 45-day comment period.

With this in mind, the regulations establish that the notice of the availability of financial assistance in a particular proceeding must (with limited exceptions) appear in the rulemaking notice, with a minimum 30-day period for filing applications and a 90-day comment period for the notice itself. Copies of the notice will be mailed directly to any parties that request to be put on NHTSA's mailing list or who are identified by the NHTSA Office of Consumer Participation as persons or organizations particularly affected by a particular proceeding. To assure complete consideration of all applications received by the stated deadline, the period for agency consideration of applications has been extended to 15 days.

The new § 5.47 also contains the criteria by which the choice of funded proceedings is made. In this regard, interested persons are advised that the NHTSA has published a tentative list of those rulemakings in which it may offer compensation during the FY 1979 program (43 FR 53522; November 16, 1978). Under the new regulations, the Department's Semi-Annual Regu-

V 4 4 / 1 6 J A 2 3 7 9 UMI

lations Agenda may be used as a substitute means of calling attention to proceedings in which funding may be made available. Members of the public need not wait for the announcement of a specific proceeding in the FEDERAL REGISTER, but are encouraged to apply in response to the announcements of anticipated proceedings in the Semi-Annual Regulations Agenda.

CONTENT OF APPLICATIONS

The provisions governing the content of applications have been improved most significantly by more clearly specifying the type of information that is helpful in determining an applicant's financial situation. At the same time, redundant submissions of financial information are largely eliminated by providing that such information need be submitted only once in six months, except for material changes in the data that occur sooner.

The regulation now requires a listing of current and long-term assets and liabilities (as of the close of the preceding fiscal year and as of the date of the application) along with an explanation of why net assets will not be used for participation; a revenue and expense statement for the preceding fiscal year and current fiscal year, including, in the case of a group, association, partnership or corporation, a list of planned projects and the amounts to be expended on each. Individuals applying only for funds for travel, subsistence, and miscellaneous expenses are not required to supply financial data, as a determination regarding the individual's financial resources is not required for this type of assistance.

The new regulations also require an applicant to provide more specific information regarding the positions it plans to take at the proceeding, including how the applicant plans to address relevant issues, and a description of the evidence, studies, methodologies, and information to be developed and presented. Failure to provide this, and other required information, may result in disqualification of the application.

In addition to dropping certain duplicative or unessential items from the application, the regulation now makes more specific the requirements for information on the economic interest of applicants in the outcome of the proceeding. Copies of applications will be available for public inspection at NHTSA's Washington office.

SELECTION CRITERIA

Although an applicant must generally demonstrate to the satisfaction of the Evaluation Board that it does not have sufficient resources to participate effectively without financial assistance, such a determination is no longer a prerequisite with respect to an application by an individual solely for reimbursement of travel, subsistence and related expenses (See DOT Order 1500.6).

Another substantive change of importance permits the funding of more than one applicant representing the same interest, without a showing of significant differences in viewpoint or proposals, if participation by additional funded applicants would promote the presentation of a fair balance of views in the proceeding. The need to redress an imbalance of views at a proceeding arises when it is apparent that the presentations of many participants, representing one or two points of view, by sheer repetition could obscure appropriate consideration of the views of a single funded participant. At the same time, to assure that as wide as possible a range of viewpoints are presented, no single group will be permitted to receive more than 20% of the funds awarded during the fiscal year.

RECOVERABLE COSTS

An important area of the regulations in which important modifications have been made is the description of costs for which reimbursement may be claimed. In accordance with General Accounting Office policy, reimbursable expenses including salaries remain limited to actual and reasonable costs (See, Decision of the Comptroller General, B-139703, July 30, 1978, Attorney Fees-Federal Trade Commission). Participant's contractors may be paid at prevailing market rates. However, such compensation may not exceed rates paid to comparable DOT employees. Compensation for staff services, paid by participating groups and organizations is limited to rates of reimbursements normally paid by the organization and, also, may not exceed rates paid to comparable DOT employees. Travel, subsistence and related miscellaneous expenses must conform to the types and rates prescribed by the DOT "Travel Manual," (See DOT Order 1500.6).

Of major importance, however, is the deletion of the restrictions on reimbursement for staff time expended on an organization's own behalf (Sec. 7(b)(2)(i)) and for hiring outside personnel (Sec. 7(b)(2)(ii)). These provisions had proven to be confusing and difficult to apply in practice.

Due to restrictions imposed by the Federal Reports Act on the use of Federal funds to conduct surveys, surveys were deleted from the list of recoverable expenses. In order to assure that limited program funds are allocated as productively as possible, expenses incurred in preparation of applications, with the exception of first time applications, are no longer reimbursable, nor are costs incurred in answering inquiries, or conducting negotiations relating to claims for compensation.

Interested parties should also note that claims for compensation under the new regulation must be submitted to NHTSA within 90 days following the completion of the applicant's participation in the subject proceeding. Payment of compensable expenses will be made by NHTSA within 90 days of the applicant's submission of a completed claim, unless NHTSA determines that the claim, or some portion, will be audited within 90 days of the submission of the claim. In that event, payment of claims may be delayed until completion of the audit. In conformance with Departmental policy concerning grants and contracts, the Secretary, Administrator, or other appropriate Federal officals may conduct audits of awards of financial assistance for a period of three years after receipt of compensation. For that reason, applicants are required to retain all pertinent records for a period of three years after receipt of compensation.

Further guidelines relating to allowable costs, financial statements, accounting, and recordkeeping may be established by the Department.

SUPPLEMENTARY COMPENSATION

NHTSA has from time to time accepted supplementary applications when it became apparent that initial awards were inadequate to cover applicants' expenses of participation, although the regulations contained no mention of supplementary applications and some participants may not have been aware that supplemental funds could be requested. Supplementary compensation is not provided for work performed or costs incurred by an applicant or its contractors in advance of the Board's decision to provide supplementary compensation. Section 5.55 of the new regulations lists the circumstances under which supplementary compensation may be available.

Although this notice is in the form of a final rule, DOT seeks public comment on the regulations as amended to assist in future revisions and to aid in consideration of Department-wide public participation regulations. All comments should be addressed to the DOT Docket Clerk at the address noted above and should be received before the close of business on the comment closing date indicated.

The lawyer principally responsible for the development of this rulemaking document is Richard Lorr, Office of the General Counsel.

In consideration of the foregoing, title 49, Subtitle B, Chapter V of the Code of Federal Regulations is amended by deletion of the appendix *Financial Assistance to Participants in Administrative Proceedings* and Title 49, Subtitle A, Part 5 is amended by addition of a Subpart D as set forth below, effective January 23, 1979.

BROCK ADAMS,
Secretary of Transportation.

Subpart D—Financial Assistance to Participants in Rulemaking Proceedings

Subpart D—Financial Assistance to Participants in Rulemaking Proceedings

§ 5.41 Purpose.

This part establishes procedures governing the compensation of participants in Department of Transportation (DOT) rulemaking proceedings in the National Highway Traffic Safety Administration (NHTSA).

§ 5.43 Applicability.

This part applies to any individual, group, association, partnership, or corporation seeking financial assistance for participation in a rulemaking proceeding of NHTSA. This part does not, however, create any new right to intervene or otherwise participate in any proceeding.

§ 5.45 Definitions.

As used herein—

(a) "Administrator" means the Administrator of NHTSA or his or her delegate.

(b) "Applicant" means any individual, or any profit or nonprofit group, association, partnership, or corporation seeking compensation under this part, but does not include a local, state, or Federal agency.

(c) "Application" means a document or proposal that complies with § 5.49 and is submitted to the Evaluation Board.

(d) "Evaluation Board"—means an independent panel which is not subject to the authority of other officials when evaluating applications under this part, and is composed of the Assistant Director for Consumer Affairs, the Associate Administrator for Plans and Programs of NHTSA, and the Chief Counsel of NHTSA, or their respective delegates.

(e) "Qualified applicant" means an applicant the Evaluation Board has determined is eligible under the criteria of § 5.51(b).

(f) "Rulemaking" has the meaning given in 5 U.S.C. 551.

(g) "Rulemaking proceeding" ("proceeding") means any phase of a NHTSA rulemaking process that is open to public participation, including any advance notice or notice of proposed rulemaking, or any meeting, hearing, or solicitation of comments in contemplation of rulemaking. A proceeding is commenced by publication of a notice in the FEDERAL REGISTER announcing that NHTSA is soliciting comment for a proceeding.

(h) "Secretary" means the Secretary of Transportation or his or her delegate.

§ 5.47 Notice of the Availability of Compensation.

(a) The Administrator determines which proceedings will be funded upon an evaluation of their (1) contribution to fulfilling agency goals; (2) costliness or controversiality to consumers, regulated parties, and other affected parties; (3) the availability of funds; (4) the time available to complete the proceeding; and (5) the likelihood that funds would enhance effective public participation. When feasible, the public's views are considered regarding which proceedings should be funded.

(b) When the Administrator determines that compensation will be available for participation in a proceeding, he or she directs that notice of the availability of compensation be published in the FEDERAL REGISTER as part of the notice commencing the proceeding. The NHTSA Office of Consumer Participation maintains a list of groups and individuals to be directly notified of the proceeding. This list is composed of those who have requested notice of the proposed proceeding or who have been identified by the Office as being particularly affected by the proceeding. The Office mails the notice directly to all persons on the list, once the notice has been posted by the FEDERAL REGISTER.

(c) Except in the case of a proceeding held to meet a congressional or judicial deadline or resolve exigent problems, the notice of the availability of compensation sets a deadline for submission of applications of not less than 30 days following publication of the notice and indicates to whom applications are submitted. In the case of a proceeding held to meet a congressional or judicial deadline or resolve exigent problems, when a deadline of 30 days or more is not feasible, the notice of the availability of compensation sets a deadline of not less than 15 days.

(d) Except in the case of a proceeding held to meet a congressional or judicial deadline or resolve exigent problems, the comment period for a proceeding in which compensation is made available is not less than 90 days. In the case of a proceeding held to meet a congressional or judicial deadline or resolve exigent problems, when it is not feasible to set the comment period at not less than 90 days, the comment period is extended by the number of days between the deadline for submission of applications and the decision of the Evaluation Board on all of the timely received applications.

(e) The Secretary indicates in the Department's Semi-Annual Regulations Report, published in the FEDERAL REGISTER, pursuant to Executive Order 12044, the proceedings in which funding under this part is contemplated. the Administrator mails copies of this report to all persons on the list maintained pursuant to paragraph (b) of this section.

(f) The minimum period required under paragraph (c) of this section need not be provided if:

(1) The Semi-Annual Regulations Agenda is published at least 30 days or, in the case of a proceeding held to meet a congressional or judicial deadline or resolve exigent problems, at least 15 days prior to the commencement of the proceeding;

(2) The Agenda describes the issues of these proceedings with reasonable accuracy and completeness;

(3) Invitations have been mailed to the interested public; and

(4) At least three qualified applicants have responded, and the Evaluation Board will approve or deny these applicants before the commencement of the proceeding.

§ 5.49 Contents of the application.

Each application shall contain, in a sworn statement, the information requested below, in the order specified. Failure to include the requested information may result in a delay in the Evaluation Board's consideration of the application and may also result in disqualification of the application. Applications shall be directed to the NHTSA Office of Consumer Participation.

(a) The applicant's name and address, and in the case of an organization, the names, addresses, and titles of the members of its governing body and a description of the organization's general purpose, structure, and Federal income tax status.

(b) An identification of the proceeding for which funds are requested.

(c) A description of the applicant's economic, social and other interests in

V 4 4 / 1 6 J A 2 3 7 9 UMI

the outcome of the proceeding, including any effect the outcome of the proceeding may have on the income of the applicant or the applicant's members.

(d) A description of any contracting, consulting or other income producing relationship of the applicant with an organization having an economic interest in the regulation which is the subject of the proceeding.

(e) A discussion of the reasons why the applicant is an appropriate representative of those interests, including the expertise and experience of the applicant, and any consultants it intends to employ, in the matters involved in the proceeding, and evidence of the applicant's prior general performance and the applicant's relation to the interest it seeks to protect or represent.

(f) A description and explanation of the position(s) the applicant proposes to present at the proceeding, including a description of the evidence, studies, viewpoints, methodologies, and information to be developed or used in supporting the applicant's position(s). The applicant should describe the issues it plans to address, how the applicant plans to resolve these issues, and how the issues affect the applicant's interest in the proceeding. This discussion should explain which ideas or viewpoints the applicant believes are novel or significant, and why the applicant believes that the presentation of these ideas and viewpoints would contribute to a full and fair determination of the issues involved in the proceeding.

(g) An itemized statement of the total amount of funds requested, which shall clearly state for each task: the identity of persons performing the task and their hourly rates of pay, the total cost of the task, and the total hours required to perform the task.

(h) Except for individuals applying for funds only for travel, subsistence, and related miscellaneous expenses—

(1) A listing of the applicants' current and long term assets and liabilities as of the close of the preceding fiscal year, and as of the date of application, with an explanation of why the applicant cannot use any excess of assets over liabilities in order to participate in the proceeding.

(2) A statement of the applicants' revenues and expenses for the preceding fiscal year, and an estimate of the applicant's anticipated revenues and expenses for the current fiscal year, including, in the case of a group, association, partnership or corporation, a list of planned projects and the amounts to be expended on each.

(3) Where an applicant has previously submitted an application for financial assistance under this program during the preceding six months of the current fiscal year, the applicant need only inform the agency of any material changes in the financial data previously submitted.

(i) A list of all proceedings of the Federal Government in which the applicant has participated during the past year (including the interest represented and the contribution made) any amount of financial assistance received from any agency of the Federal Government in connection with these proceedings.

§ 5.51 Processing applications.

(a) The Evaluation Board accepts applications from the time notice is published until the time for public participation in a proceeding has ended; however, applications received after the specified deadline are not assured full consideration. The Board may request applicants to provide additional written or oral information necessary to full consideration of the application. Such additional written information, summaries of such oral information, and copies of each application are available for public inspection at NHTSA's Washington office.

(b) Within 15 working days following the deadline for receipt of applications, the Evaluation Board receives any technical comments from the official most directly responsible for the development of NHTSA's position on the substantive issues of the proceeding, and the Evaluation Board then approves or denies, in whole or in part, each application submitted. If the Board requests an applicant to provide additional information, the time period for Board action on the application is suspended for the period of time specified by the Board for receipt of the additional information. The Evaluation Board may approve an application, if it finds that:

(1) The applicant's participation would contribute or could reasonably be expected to, contribute substantially to a full and fair determination of the issues involved in the proceeding, taking into consideration the novelty, complexity, and significance of the ideas advanced by the applicant, and taking into account the ability of the applicant to represent the interests it espouses competently, when assessed under the following criteria:

(i) The applicant's, or its consultant's or attorney's, experience and expertise in the substantive area at issue in the proceeding;

(ii) The applicant's, or its consultant's or attorney's, prior general performance and competence; and

(iii) Evidence of the applicant's relationship to the interest it seeks to protect or represent.

(2) The applicant has demonstrated that it does not have sufficient resources available to participate effectively in the proceeding in the absence of an award under this part. If an individual applies for reimbursement only for reasonable travel, subsistence, and permitted miscellaneous expenses to participate in the proceeding, the Board does not make the finding otherwise required by this subparagraph.

(c) (1) When two or more qualified applicants seek to represent the same or similar interest but would present significant differences in viewpoint or proposals, the Evaluation Board may partially or completely grant funds to one or more of them.

(2) When two or more qualified applicants seek to represent the same or similar interest without significant differences in viewpoint or proposals, the Evaluation Board may select all or some of these qualified applicants if the Board determines their selection would promote the presentation of a fair balance of views at the proceeding.

(3) To preclude duplicative presentations, other than those qualifying under § 5.51(c)(2), the Evaluation Board selects the qualified applicant it considers most competent under the criteria of § 5.51(b)(1), and whose proposals are the most specific, significant, and novel.

(d) The Evaluation Board is not required to select a qualified applicant if the Board determines that selection of an otherwise qualified applicant would be impracticable or unreasonable. In deciding to deny an otherwise qualified applicant, the Board may consider the following and other factors:

(1) Whether an applicant's proposal can be reasonably developed and presented within the time allotted for the rulemaking proceeding;

(2) The availability of funding under this part;

(3) The significance of the proceeding in question and the amount of funds needed by the applicant; and

(4) The reasonableness of the sums requested.

(e) No applicant may be awarded more than 20% of the total amount of funds to be allocated by NHTSA for public participation for a Fiscal Year.

(f) A written decision of the Evaluation Board, stating why assistance has either been granted or denied in light of the criteria in paragraphs (b) through (e) of this section mailed to each applicant. Copies of each decision of the Board are *available for public inspection at NHTSA's Washington office.*

(g) Upon good cause timely shown by an applicant, the decision of the Evaluation Board regarding its application may be reconsidered by the Board.

§ 5.53 Recoverable costs.

(a) Expenses compensable under this regulation include but are not limited to reasonable attorneys' fees; expert witness fees; the expenses of clerical services, travel, subsistence, studies, demonstrations and other reasonable costs of participation actually incurred.

(b) Compensation of an applicant is limited to the actual and reasonable costs of its participation. Compensation paid to the staff of any participating group or organization is limited to the rate of reimbursement normally paid by the participant for staff services and may not exceed the rates paid to DOT employees for providing comparable services. Compensation of a participant's contractor may be valued at the prevailing market rates for the kind and quality of service provided, but may not exceed the rates paid to DOT employees for providing comparable services.

(c) Reimbursement for travel, subsistence, and miscellaneous expenses must conform to the types and rates prescribed by the DOT "Travel Manual," (DOT Order 1500.6).

(d) Except as otherwise noted in this paragraph, compensation is not provided for work performed or costs incurred prior to approval of an application by the Evaluation Board. Compensation is not provided for negotiating claims, answering NHTSA inquiries, or preparing an application, other than a participant's first approved application.

§ 5.55 Supplementary compensation.

(a) Applicants may apply to the Evaluation Board for supplementary compensation if the initial award is insufficient to permit the applicant to complete its proposal and if:

(1) The Board requested the applicant to perform work in addition to that contained in the approved proposal, or

(2) The applicant demonstrates it has been subject to an unforeseeable and material change in its circumstances, or

(3) The applicant or the Board substantially underestimated the probable cost of participation.

(b) Compensation is not provided for work performed or costs incurred by an applicant or its contractors in advance of the Board's decision to provide supplementary compensation.

(c) The Board provides supplementary compensation under the criteria of § 5.51 and paragraphs (a) and (b) of this section.

§ 5.57 Payments to applicants.

An applicant shall submit a claim for compensation to NHTSA's Office of Consumer Participation within 90 days of the applicant's completion of participation in the proceeding. Such claims shall include bills, receipts, or other proofs of costs incurred. Within 60 days of receipt of a completed claim, NHTSA's Office of Consumer Participation, after consultation with NHTSA's Office of Financial Management, directs the Office of Financial Management to make payment for compensable expenses. For good cause shown, payment to an applicant may be expedited, and requests for partial payment may be submitted for compensation of part performance. Payment of claims is delayed, or relevant portions withheld, if it is determined that a claim or any portion of a claim will be audited within 90 days of the submission of the claim.

§ 5.58 Audits.

For the purpose of conducting an audit, the Secretary, the Administrator, or other appropriate Federal official shall have access to any relevant records of a participant awarded compensation under this part. Applicants shall retain all records, books of account, bills, receipts, and any other relevant records supporting a claim for compensation for a period of three years after receipt of such compensation.

§ 5.59 Guidelines.

The Secretary establishes guidelines to explain further the criteria to be used by the Evaluation Board in assessing financial data under § 5.51(b)(2) and for determining reasonable allowable costs under § 5.53. The Secretary may establish additional guidelines governing applicants' accounting and recordkeeping procedures.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Ex Parte No. 342]

PART 1008—PROCEDURES GOVERNING THE PROCESSING, INVESTIGATION AND DISPOSITION OF OVERCHARGE, DUPLICATE PAYMENT, OR OVERCOLLECTION CLAIMS

AGENCY: Interstate Commerce Commission.

ACTION: Modification of Final Rules; Proceeding held open for further comment on one aspect of proposed rules.

SUMMARY: Regulations adopted in 358 I.C.C. 114 are clarified on appeal. The regulation, as modified, will improve carrier practices by providing uniform procedures for the efficient processing, investigation and timely disposition of overcharge, duplicate payment and overcollection claims by motor common carriers and freight forwarders. Rule 1008.9(a) providing for disposition of unidentified payments is stayed, pending additional proceedings.

DATES: 1. Regulations published September 14, 1978, 43 FR 41040, as modified, shall be effective February 22, 1979.

2. Further comments on Rule 1008.9(a) due March 9, 1979; reply comments due April 9, 1979.

FOR FURTHER INFORMATION CONTACT:

Janice M. Rosenak (202) 275-7693 or Harvey Gobetz (202) 275-7656.

SUPPLEMENTARY INFORMATION: In our prior decision, 358 I.C.C. 114, served September 1, 1978, the Commission adopted regulations providing uniform procedures for the expeditious processing and disposition by motor carriers and freight forwarders of claims for overcharge duplicate payment, and overcollection. By subsequent decision served October 11, 1978, the effective date of those regulations was stayed pending completion of administrative review.

It is evident from the limited number of appeals[1] that the rules have been favorably received by most shippers and carriers. However, there is merit in two requests for minor modification. Accordingly, the regulations as published at 43 F.R. 41040 are amended as follows.

§ 1008.4 [Amended]

Section 1008.4(e) is modified to read as follows:

. . . . . .

(e) A carrier shall accept copies instead of the original documents required to be submitted in this section where the carrier is furnished with an agreement entered into by the claimant which indemnifies the carrier for subsequent duplicate claims which might be filed and supported by the original documents.

. . . . . .

§ 1008.9 [Amended]

To avoid ambiguity, § 1008.9(b) is modified to read as follows:

. . . . . .

[1] 5 petitions for administrative review and 3 replies were filed.

V 4 4 / 1 6 J A 2 3 7 9 UMI

(b) When a carrier which participate in a transportation movement, but did not collect the transportation charges, finds that an overpayment has been made, that carrier shall immediately notify the collecting carrier. When the collecting carrier (whether single or joint line haul) discovers or is notified by such a participating carrier that an overcharge, duplicate payment, or overcollection exists for any transportation charge which has not been the subject of a claim, the carrier shall create a file as if a claim had been submitted and shall record in the file the date it discovered or was notified of the overpayment. The carrier that collected the charges shall then refund the amount of the overpayment to the person who paid the transportation charges or to the person that made duplicate payment within 30 days from the date of such discovery or notification.

. . . . .

Several petitioners object to the procedures provided for handling unidentified payments, and characterize the requirement of a single notification and request for information as inadequate and lacking in specificity. They argue that § 1008.9(a) would create a windfall for the carriers and place the burden on the shipper to establish that the carrier is not entitled to keep an unidentified payment. They suggest that § 1008.9(a) goes beyond establishing standardized procedures, and into the area where the Commission found jurisdiction lacking "to settle or adjudicate these claims." 358 I.C.C. 114 at page 117. While they support all uniform procedures designed to elicit information which is necessary to resolve unidentified payments, they object to what they perceive as an ulitmate disposition on the merits in favor of the carrier. If the Commission permits the retention of such funds and their use in overall carrier operations, National Industrial Traffic League (NITL) suggests that, at a minimum, the total dollar amount of those funds should be treated as non-investor supplied capital, or deducted from any property investment base.

The rule places the initial burden upon the carrier for notification and verification of an unidentified payment. When such notification does not elicit the requested information, the carrier may conditionally retain the unidentified payment as payment of freight charges owing to it, subject to refund under normal claims procedures. Shippers are afforded ample protection by the provision for application of regular claims procedures following the 90-day period.

Although we are satisfied as to our jurisdiction in this area, we feel that a limited reopening of the record on the subject of unidentified payments is desirable. This subject was not addressed in the proposed rules nor was it originally contemplated at the time this proceeding was instituted. We believe that a more comprehensive analysis is necessary to ascertain the scope and significance of this complex and controversial area. Additionally, we feel that the proposal advanced by NITL is entitled to further consideration by the parties.

Parties and other interested persons are requested to file with the Commission information concerning the nature, handling, and disposition of unidentified payments. Participant's comments should address the following

(1) Their frequency and volume.
(2) Their origin and nature.
(3) Types of shippers, carriers, and clearinghouses experiencing them.
(4) Existing carrier practices.
(5) The party who should bear the burden of identification.
(6) Suggested procedures for disposition, including the NITL recommendation.
(7) Refinement of the definition of unidentified payments.
(8) Other relevant data.

Dated: December 20, 1978.

By the Commission, Chairman O'Neal, Vice Chairman Christian, Commissioners Brown, Stafford, Gresham, and Clapp.

H. G. HOMME, Jr.,
Secretary.

[7035-01-M]

[Ex Parte No. MC-43 (Sub-No. 7)]

PART 1057—LEASE AND INTERCHANGE OF VEHICLES

AGENCY: Interstate Commerce Commission.

ACTION: Final rules.

SUMMARY: The regulations promote full disclosure between the carrier and owner-operator in the leasing contract, promote the stability and economic welfare of the independent trucker segment of the motor carrier industry, and eliminate or reduce the opportunity for skimming and other illegal practices. The existing lease and interchange regulations have been rewritten so as to be simpler and easier to understand.

EFFECTIVE DATE: February 22, 1979.

FOR FURTHER INFORMATION CONTACT:

Bruce Kasson (202) 275-7723.

SUPPLEMENTARY INFORMATION: By notice of proposed rulemaking published in the FEDERAL REGISTER on November 23, 1977, 42 FR 59984, this proceeding was instituted to revise and rewrite the Commission's leasing regulations in Title 49 of the Code of Federal Regulations, Chapter X, Part 1057—Lease and Interchange of Vehicles (49 CFR Part 1057). Because the initial notice did not include formal rules, but rather discussed the proposals generally, a second notice consisting of proposed rules was published in the FEDERAL REGISTER on July 11, 1978, 43 FR 29812.

The final rules provide that the cost of various operating expenses such as fuel, permits, tolls, and licenses must be allocated in the lease. The lease must also identify all items that may be charged-back to the lessor, clearly state the insurance costs and responsibilities of each party, and specify the terms of any equipment purchase plan or rental contract that gives the carrier the right to make deductions from the lessor's compensation. These provisions promote a "truth in leasing concept" and will ensure that the carrier and owner-operator fully disclose the obligations and responsibilities of each party.

Because the rules require that (1) the compensation due the owner-operator be stated on the face of the lease, or in an addendum, and (2) the owner-operator be provided a copy of the freight bill, owner-operators will be able to have an accurate and complete accounting of the monies earned under leasing arrangements. Payment of compensation to lessors within 15 days of submission of paperwork, as required by the rules, assures carriers that necessary paperwork will be submitted, and, at the same time, assures owner-operators that compensation will be timely if the paperwork is submitted.

Provisions have also been added relating to the handling and return of any escrow funds held by the carrier. Interest must be paid on escrow funds, the funds must be returned within 45 days, and the owner-operator must receive a full accounting of escrow fund transactions and deductions.

The rules set forth in Appendix A are adopted under authority of 49 U.S.C. 304 (e) and (f), and 5 U.S.C. 552, 553, and 559.

Dated: January 9, 1979.

By the Commission, Chairman O'Neal, Vice Chairman Brown, Commissioners Stafford, Gresham, Clapp and Christian. Commissioner Stafford would not require the carrier to pay interest on the escrow account

(§ 1057.12(e)(5)), and he would delete § 1057.12(j)).

H. G. HOMME, Jr.,
Secretary.

APPENDIX A

Part 1057 is revised and reorganized to read as follows:

Part 1057—Lease and Interchange of Vehicles

Subpart A—General Applicability and Definitions.

Sec.
1057.1 Applicability.
1057.2 Definitions.

Subpart B—Leasing Regulations

1057.11 General leasing requirements.
1057.12 Written lease requirements.

Subpart C—Exemptions for the Leasing Regulations

1057.21 General exemptions.
1057.22 Exemption for trip leasing between authorized carriers.
1057.23 Exemption for trip leasing specialized equipment.
1057.24 Exemption for trip leasing equipment used in agricultural operations.
1057.25 Recordkeeping for agricultural exemption.
1057.26 Exemption from requirement of exclusive possession and control.

Subpart D—Interchange Regulations

1057.31 Interchange of equipment.

Subpart E—Private Carriers and Shippers

1057.41 Rental of equipment to private carriers and shippers.

AUTHORITY: 49 U.S.C. 304(e) and (f) and 5 U.S.C. 552, 553, and 559.

Subpart A—General Applicability and Definitions

§ 1057.1 Applicability.

The regulations in this part apply to the following actions by motor carriers holding permanent or temporary operating authority from the Commission to transport property:

(a) The leasing of equipment with which to perform transportation regulated by the Commission.

(b) The leasing of equipment to motor private carrier or shippers.

(c) The interchange of equipment between motor common carriers in the performance of transportation regulated by the Commission.

§ 1057.2 Definitions.

(a) *Authorized carrier.*—A person or persons authorized to engage in the transportation of property as a common or contract carrier under the provisions of 49 U.S.C. 10921, 10922, 10923, 10928, 10931, or 10932.

(b) *Equipment.*—A motor vehicle, straight truck, tractor, semitrailer, full trailer, any combination of these and any other type of equipment used by authorized carriers in the transportation of property for hire.

(c) *Interchange.*—The receipt of equipment by one motor common carrier of property from another such carrier, at a point which both carriers are authorized to serve, with which to continue a through movement.

(d) *Owner.*—A person (1) to whom title to equipment has been issued, or (2) who, without title, has the right to exclusive use of equipment for a period longer than 30 days, or (3) who has lawful possession of equipment, registered and licensed in any State in the name of that person.

(e) *Lease.*—A contract or arrangement in which the owner grants the use of equipment, with or without driver, for a specified period to an authorized carrier for use in the regulated transportation of property, in exchange for compensation.

(f) *Permanent lease.*—A lease in which the authorized carrier acquires the use of equipment, with or without driver, from an owner for a period of 30 days or more.

(g) *Trip lease.*—A lease in which an authorized carrier acquires the use of equipment, with or without driver, from an owner for a period of time less than 30 days.

(h) *Lessor.*—In a lease, the party granting the use of equipment, with or without driver, to another.

(i) *Lessee.*—In a lease, the party acquiring the use of equipment with or without driver, from another.

(j) *Sublease.*—A written contract in which the lessee grants the use of leased equipment, with or without driver, to another.

(k) *Addendum.*—A supplement to an existing lease which is not effective until signed by the lessor and lessee.

(l) *Private carrier.*—A person, other than a motor carrier, transporting property by motor vehicle in interstate or foreign commerce when (1) the person is the owner, lessee, or bailee of the property being transported; and (2) the property is being transported for sale, lease, rent, or bailment, or to further a commercial enterprise.

(m) *Shipper.*—A person who sends or receives property which is transported in interstate or foreign commerce.

(n) *Escrow fund.*—Money deposited by the lessor with either a third party or the lessee to guarantee performance, to repay advances, to cover repair expenses, to handle claims, to handle license and State permit costs, and for any other purposes mutually agreed upon by the lessor and lessee.

(o) *Detention.*—The holding by a consignor or consignee of a trailer, with or without power unit and driver, beyond the free time allocated for the shipment, under circumstances not attributable to the performance of the carrier.

Subpart B—Leasing Regulations

§ 1057.11 General leasing requirements.

Other than through the interchange of equipment as set forth in § 1057.31, and under the exemptions set forth in subpart C of these regulations, the authorized carrier may perform authorized transportation in equipment it does not own only under the following conditions:

(a) *Lease.*—There shall be a written lease granting the use of the equipment and meeting the requirements contained in § 1057.12.

(b) *Receipts for equipment.*—Receipts, specifically identifying the equipment to be leased and stating the date and time of day possession is transferred, shall be given as follows:

(1) When possession of the equipment is taken by the authorized carrier, it shall give the owner of the equipment a receipt.

(2) When possession of the equipment by the authorized carrier ends, it shall obtain a receipt from the owner.

(3) Authorized representatives of the carrier and the owner may take possession of leased equipment and give and receive the receipts required under this subsection.

(c) *Identification of equipment.*—The authorized carrier acquiring the use of equipment under this section shall identify the equipment as being in its service as follows:

(1) During the period of the lease, the carrier shall identify the equipment in accordance with the Commission's requirements in Part 1058 of this chapter (Identificaiton of Vehicles). Upon termination of the lease, the authorized carrier shall remove all identification showing it as the operating carrier before giving up possession of the equipment.

(2) Unless a copy of the lease is carried on the equipment, the authorized carrier shall keep a statement with the equipment during the period of the lease certifying that the equipment is being operated by it. The statement shall also specify the name of the owner, the date and length of the lease, any restrictions in the lease relative to the commodities to be transported, and the address at which the original lease is kept by the authorized carrier. This statement shall be prepared by the authorized carrier or its authorized representative.

(d) *Records of equipment.*—The authorized carrier using equipment leased under this section shall keep records of the equipment as follows:

(1) If the equipment is being leased for periods of less than 30 days, the authorized carrier shall prepare and keep documents covering each trip for

V 4 4 / 1 6 J A N 2 3 7 9 UMI

which the equipment is used in its service. These documents shall contain the name and address of the owner of the equipment, the point of origin, the time and date of departure, and the point of final destination. Also, the authorized carrier shall carry papers with the leased equipment during its operation containing this information and identifying the lading and clearly indicating that the transportation is under its responsibility. These papers shall be preserved by the authorized carrier as part of its transportation records. Trip leases which contain the information required by the provisions in this paragraph may be used and retained instead of such documents or papers.

(2) If the equipment is being leased for periods of 30 days or more, the authorized carrier shall comply with the provisions of paragraphs (d)(1) of this section, but it may keep the required information at its terminals or principal office as part of its records rather than with the leased equipment.

§ 1057.12 Written lease requirements.

Except as provided in the exemptions set forth in Subpart C of these regulations, the written lease required under § 1057.11(a) shall contain the following provisions:

(a) *Parties.*—The lease shall be made between the authorized carrier and the owner of the equipment. The lease shall be signed by these parties or by their authorized representatives.

(b) *Duration to be specific.*—The lease shall specify the time and date or the circumstances on which the lease begins and ends. These times or circumstances shall coincide with the times for the giving of receipts required by § 1057.11(b).

(c) *Minimum duration of 30 days when operated by owner.*—The period for which the lease applies shall be for 30 days or more when the equipment is to be operated for the authorized carrier by the owner or an employee of the owner.

(d) *Exclusive possession and responsibilities.*—The lease shall provide that the authorized carrier lessee shall have exclusive possession, control, and use of the equipment for the duration of the lease. The lease shall further provide that the authorized carrier lessee shall assume complete responsibility for the operation of the equipment for the duration of the lease.

(e) *Compensation to be specified.*—The amount to be paid by the authorized carrier for equipment and driver's services shall be clearly stated on the face of the lease or in an addendum which is attached to the lease. Such lease or addendum shall be delivered to the lessor prior to the commencement of any trip in the service of the authorized carrier. An authorized representative of the lessor may accept these documents. The amount to be paid may be expressed as a percentage of gross revenue, a flat rate per mile, a variable rate depending on the direction traveled or the type of commodity transported, of by any other method of compensation mutually agreed upon by the parties to the lease. The compensation stated on the lease or in the attached addendum may apply to equipment and driver's services either separately or as a combined amount.

(f) *Items specified in lease.*—The lease shall clearly specify the responsibility of each party with respect to the cost of fuel, fuel taxes, empty mileage, permits of all types, tolls, ferries, detention and accessorial services, base plates and licenses, and any unused portions of such items.

(g) *Payment period.*—The lease shall specify that payment to the lessor under permanent or trip lease to the authorized carrier shall be made within 15 days after submission of the necessary delivery documents and other paperwork concerning a trip in the service of the authorized carrier. The lease shall clearly specify the delivery documents and other paperwork that must be submitted before the lessor can receive payment.

(h) *Copies of freight bill.*—Subject to the right of the authorized carrier to delete the names of shippers and consignees shown on the freight bill, the lease shall specify that the authorized carrier shall give a copy of the rated freight bill before or at the time of settlement to those lessors whose revenue is based on a percentage of the gross revenue for a shipment. The lease shall clearly specify the right of the lessor, regardless of method of compensation, to examine copies of the carrier's tariff.

(i) *Charge-back items.*—The lease shall clearly specify all items that may be initially paid for by the authorized carrier, but ultimately deducted from the lessor's compensation at time of payment or settlement.

(j) *Products, equipment, or services from authorized carrier.*—The lease shall specify that the lessor is not required to purchase or rent any products, equipment, or services from the authorized carrier as a condition of entering into the lease arrangement. The lease shall specify the terms of any agreement in which the lessor is a party to an equipment purchase or rental contract which gives the authorized carrier the right to make deductions from the lessor's compensation for purchase or rental payments.

(k) *Insurance.*—(1) The lease shall clearly specify the legal obligation of the authorized carrier to maintain insurance coverage for the protection of the public pursuant to Commission regulations under 49 U.S.C. 10927. The lease shall further specify who is responsible for providing any other insurance coverage for the operation of the leased equipment, such as bobtail insurance. If the authorized carrier will make a charge back to the lessor for any of this insurance, the lease shall specify the amount which will be charged-back to the lessor.

(2) If the lessor purchases any insurance coverage for the operation of the leased equipment from or through the authorized carrier, the lease shall specify that the authorized carrier will provide the lessor with a copy of each policy upon the request of the lessor. Also, where the lessor purchases such insurance in this manner, the lease shall specify that the authorized carrier will provide the lessor with a certificate of insurance for each such policy. Each certificate of insurance shall include the name of the insurer, the policy number, the effective dates of the policy, the amounts and types of coverage, the cost to the lessor for each type of coverage, and the deductible amount for each type of coverage for which the lessor may be liable.

(3) The lease shall clearly specify the conditions under which deductions for cargo or property damage may be made from the lessor's settlements. The lease shall further specify that the authorized carrier must provide the lessor with a written explanation and itemization of any deductions for cargo or property damage made from any compensation of money owed to the lessor. The written explanation and itemization must be delivered to the lessor before any deductions are made.

(l) *Escrow funds.*—If escrow funds are required, the lease shall specify:

(1) The amount of any escrow fund or performance bond required to be paid by the lessor to the authorized carrier or to a third party.

(2) The specific items to which the escrow fund can be applied.

(3) That while the escrow fund is under the control of the authorized carrier, the authorized carrier shall provide an accounting to the lessor of any transactions involving such fund. The carrier shall perform this accounting in one of the following ways:

(i) By clearly indicating in individual settlement sheets the amount and description of any deduction or addition made to the escrow fund; or

(ii) By providing a separate accounting to the lessor of any transactions involving the escrow fund. This separate accounting shall be done on a monthly basis.

(4) The right of the lessor to demand to have an accounting for transactions involving the escrow fund at any time.

(5) That while the escrow fund is under the control of the carrier, the carrier shall pay interest on the escrow fund on at least a quarterly basis. For purposes of calculating the balance of the escrow fund on which interest must be paid, the carrier may deduct a sum equal to the average advance made to the individual lessor during the period of time for which interest is paid. The interest rate shall be established on the date the interest period begins and shall be at least equal to the average yield or equivalent coupon issue yield on 91-day, 13-week Treasury bills as established in the weekly auction by the Department of Treasury.

(6) The conditions the lessor must fulfill in order to have the escrow fund returned. At the time of the return of the escrow fund, the authorized carrier may deduct monies for those obligations incurred by the lessor which have been previously specified in the lease, and shall provide a final accounting to the lessor or all such final deductions made to the escrow fund. The lease shall further specify that in no event shall the escrow fund be returned later than 45 days from the date of termination.

(m) *Copies of the lease.*—An original and two copies of each lease shall be signed by the parties. The authorized carrier shall keep the original and shall place a copy of the lease on the equipment during the period of the lease unless a statement as provided for in § 1057.11(c)(2) is carried on the equipment instead. The owner of the equipment shall keep the other copy of the lease.

Subpart C—Exemptions for the Leasing Regulations

§ 1057.21 General exemptions.

Except for § 1057.11(c) which requires the identification of equipment, the leasing regulations in this part shall not apply to:

(a) Equipment used in substituted motor-for-rail transportation of railroad freight moving between points that are railroad stations and on railroad billing.

(b) Equipment used in transportation performed exclusively within any commercial zone as defined by the Commission.

(c) Equipment leased without drivers from a person who is principally engaged in such a business.

(d) Any type of trailer not drawn by a power unit leased from the same lessor.

§ 1057.22 Exemption for trip leasing between authorized carriers.

Regardless of the leasing regulations set forth in this part, an authorized carrier may lease equipment to or from another authorized carrier under the following conditions:

(a) The identification of equipment requirements in § 1057.11(c) must be complied with.

(b) The lessor must own the equipment or hold it under a lease of 30 days or more.

(c) The lessor must regularly use the equipment in the service it is authorized by the Commission to perform.

(d) The equipment must be leased for transportation in the direction of a point which the lessor is authorized to serve.

(e) There must by a written agreement between the authorized carriers concerning the equipment as follows:

(1) It must be signed by the parties or their authorized representatives.

(2) It must provide that control and responsibility for the operation of the equipment shall be that of the lessee from the time possession is taken by the lessee and the receipt required under § 1057.11(b) is given to the lessor until: (i) Possession of the equipment is returned to the lessor and the receipt required under § 1057.11(b) is received by the authorized carrier; or (ii) Possession of the equipment is returned to the lessor or given to another authorized carrier in an interchange of equipment.

(3) A copy of the agreement must be carried in the equipment while it is in the possession of the lessee.

§ 1057.23 Exemption for trip leasing specialized equipment.

The requirement in § 1057.12(c) concerning the minimum duration of a lease for equipment with driver, does not apply where:

(a) The equipment is owned by an authorized automobile carrier and is leased or subleased to another authorized automobile carrier for use in transporting motor vehicles.

(b) The equipment is owned by an authorized tank truck carrier and is leased or subleased to another authorized tank truck carrier for use in transporting commodities in bulk.

(c) The equipment is dump equipment leased or subleased for use in transporting salt and calcium chloride, in bulk, for ice and snow control purposes during the period from November 1 through April 30 of each year.

§ 1057.24 Exemption for trip leasing equipment used in agricultural operations.

The requirement in § 1057.12(c) concerning the minimum duration of a lease for equipment with driver, does not apply where the authorized carrier complies with the provisions of § 1057.25 and where:

(a) A farmer or a cooperative association or federation of cooperative associations under 49 U.S.C. 10526(a)(4) or (5).

(b) A private carrier and the equipment is used regularly in the transportation of (1) property referred to in 49 U.S.C. 10526(a)(6), or (2) perishable products manufactured from perishable property referred to in that section.

(c) The equipment has completed a movement covered by 49 U.S.C. 10526(a)(6) and is leased to the authorized carrier for use next in one of the following:

(1) A loaded movement in any direction.

(2) One or more of a series of movements, loaded or empty, in the general direction of the place where the equipment is based.

(3) A movement described in paragraph (1) of this section and then a movement described in paragraph (2) of this section.

§ 1057.25 Recordkeeping for agricultural exemption.

To qualify for the exemption in § 1057.24, prior to leasing the equipment, the authorized carrier shall receive and retain a statement signed by the owner, or authorized representative of the owner, which includes:

(a) Authorization for the driver to lease the equipment for such movements.

(b) Certification that the equipment meets the qualifications in paragraph (a) or (b) of § 1057.24.

(c) Specification of the origin, destination, and the time of beginning and ending of the last movement which brought the equipment within the exemption of § 1057.24.

§ 1057.26 Exemption from requirement of exclusive possession and control.

The requirements in § 1057.12(d) concerning exclusive possession and control of leased equipment by the authorized carrier lessee do not apply where:

(a) The parties provide in the lease that the authorized carrier lessee be considered the owner of the equipment for the purpose of subleasing the equipment to other authorized carriers under the regulations in this part during the length of the lease.

(b) An authorized carrier of household goods has leased equipment for the transportation of household goods, as defined by the Commission, and the equipment is not being operated by or for the authorized carrier lessee at that time.

Subpart D—Interchange Regulations

§ 1057.31 Interchange of equipment.

Authorized common carriers may interchange equipment under the following conditions:

(a) *Interchange agreement.*—There shall be a written contract, lease, or

V 4 4 / 1 6 J A 2 3 7 9 UMI

other arrangement providing for the interchange and specifically describing the equipment to be interchanged. This written agreement shall set forth the specific points of interchange, how the equipment is to be used, and the compensation for such use. The interchange agreement shall be signed by the parties or by their authorized representatives.

(b) *Operating authority.*—The carriers participating in the interchange shall hold certificates of public convenience and necessity which authorize the transportation of the commodities at the point where the physical exchange occurs.

(c) *Through bills of lading.*—The traffic transported in interchange service must move on through bills of lading issued by the originating carrier. The rates charged and the revenues collected must be accounted for in the same manner as if there had been no interchange. Charges for the use of the interchanged equipment shall be kept separate from divisions of the joint rates or the proportions of such rates accruing to the carriers by the application of local or proportional rates.

(d) *Identification of equipment.*—The authorized common carrier receiving the equipment shall identify equipment operated by it in interchange service as follows:

(1) The authorized common carrier shall identify power units in accordance with the Commission's requirements in Part 1058 of this chapter (Identification of Vehicles). Before giving up possession of the equipment, the carrier shall remove all identification showing it as the operating carrier.

(2) Unless a copy of the interchange agreement is carried on the equipment, the authorized common carrier shall carry a statement with each vehicle during interchange service certifying that it is operating the equipment. The statement shall also identify the equipment by company or State registration number and shall show the specific point of interchange, the date and time it assumes responsibility for the equipment, and the use to be made of the equipment. This statement shall be signed by the parties to the interchange agreement or their authorized representatives. The requirements of this paragraph shall not apply where the equipment to be operated in interchange service consists only of trailers or semitrailers.

(e) *Connecting carriers considered as owner.*—An authorized carrier receiving equipment in connection with a through movement shall be considered to the owner of the equipment for the purpose of leasing the equipment to other authorized carriers in furtherance of the movement to destination or the return of the equipment after the movement is completed.

Subpart E—Private Carriers and Shippers

§ 1057.41 Rental of equipment to private carriers and shippers

Authorized carriers may rent equipment to private carriers and shippers only as follows:

(a) Authorized carriers may rent equipment, with or without drivers, to private carriers or shippers where the vehicles are to be used for transportation which is exempt under 49 U.S.C. 10526 (a)(7) or (b)(1).

(b) Authorized carriers may rent equipment with drivers to private carriers or shippers where their operating authorities specifically allow such service.

(c) Authorized carriers may rent equipment without drivers to private carriers or shippers where the authorized carriers are transporting property wholly for and on the billing of railroads.

(d) Authorized contract carriers may rent equipment without drivers to private carriers and shippers where approval of the rental contracts has been obtained from the Commission.

Title 50—Wildlife and Fisheries

CHAPTER VI—FISHERY CONSERVATION AND MANAGEMENT, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 611—FOREIGN FISHING

PART 672—GROUNDFISH OF THE GULF OF ALASKA

Apportionment of Reserve Amounts

AGENCY: National Oceanic and Atmospheric Administration, Department of Commerce.

ACTION: Final Regulations.

SUMMARY: These regulations make additional amounts of fish available to foreign fishing in accordance with the provisions of the fishery management plan (FMP) for Groundfish of the Gulf of Alaska and the regulations implementing this FMP (see 50 CFR 672.20(c) (43 FR 56238), and 50 CFR 611.92(b)(1)(ii) (43 FR 59322)). These regulations apply to vessels of foreign nations fishing for groundfish in the Gulf of Alaska.

EFFECTIVE DATE: January 17, 1979.

FOR FURTHER INFORMATION CONTACT:

Harry L. Rietze, Director, Alaska Region, National Marine Fisheries Service, P.O. Box 1668, Juneau, Alaska 99802, Telephone: (907) 586-7221.

SUPPLEMENTARY INFORMATION:

I. Background

Because of uncertainties about specifications of U.S. capacity, particularly the extent to which U.S. catcher vessels delivering fish to foreign processors at sea would harvest groundfish, the FMP established a reserve of fish which could be released during the season to foreign harvesting vessels if U.S. vessels did not harvest at anticipated levels.

On August 23, 1978, the North Pacific Fishery Management Council (the Council) adopted an amendment to the FMP for groundfish which increased the reserve of pollock to 133,800 metric tons and added to reserves appropriate amounts of species taken incidental to fishing for pollock. The purpose of this reserve amount of fish was to assure that an adequate supply of fish was available to U.S. vessels wishing to sell U.S.-caught fish to foreign processing vessels at sea. The amendment was approved by the Assistant Administrator for Fisheries on September 22, 1978 (43 FR 46349).

Final regulations were published on December 1, 1978 (43 FR 56233). The final regulations established the criteria and timing of any reserve release. The final regulations also established a procedure for public comment on the extent to which vessels of the United States would harvest reserve amounts during the remainder of the fishing year.

II. Determination of Amount of Reserve Release

In accordance with the requirements of 50 CFR 672.20(c) and 50 CFR 611.92(b)(1)(ii), the Regional Director has determined that U.S. vessels will not harvest any of the twenty-five percent reserve for all species except sablefish scheduled to be released on or as soon as possible after January 2, 1979, for the following reasons:

1. The domestic annual harvests (DAHs) specified by the FMP are sufficient to provide for U.S. catches expected to be delivered to U.S. processors.

2. The reserves remaining after this release are sufficient to provide for U.S. catches expected to be delivered to foreign processing vessels (joint venture catches).

During the public comment period, no testimony was received indicating that the capacity and intended activities of the U.S. fishing fleet and U.S. processors are greater than those originally declared when DAH was established. Further, no testimony substantiated future expansion of the U.S. fishing fleet and U.S. processing facilities beyond that originally declared when DAH was established. It is, therefore, determined that the DAHs will not be exceeded by U.S. catches delivered to U.S. processors and that the DAHs will not need to be supplemented by the reserves.

The reserves originally established by the FMP were equal to twenty (20) percent of the Optimum Yields (OYs). The reserves were subsequently increased from 65,100 metric tons to 180,200 metric tons to provide for joint venture catches. Such catches to date have been minor and fishing has temporarily ceased. From the record, it is determined that the joint venture catches will not exceed the reserve balance (136,175 metric tons) remaining after this release. Action with respect to release of sablefish reserves is being delayed until after the January 1979, North Pacific Fishery Management Council meeting. There is pending action by the Council with respect to the sablefish OY which may change the sablefish reserve, making it inappropriate to release any of that reserve at this time.

In making this determination, the Regional Director considered the factors set out in 50 CFR 611.92(b)(1)(ii) and the comments received on the proposed action.

III. Response to Public Comments

Only one comment was received during the comment period on the action. This comment is summarized and is responded to below:

Comment; Request that the entire Pacific cod apportionment authorized for release on January 2, 1979 (25 percent of the total Pacific cod reserve), be made as scheduled.

Response: It has been deemed appropriate for the reasons stated above to release 25 percent of the Pacific cod reserves.

IV. Other Matters

An environmental impact statement was prepared for the FMP for Groundfish of the Gulf of Alaska and is on file with the Environmental Protection Agency. A negative assessment of environmental impact prepared for the reserve release provisions of the groundfish FMP is also on file with the Environmental Protection Agency.

The Regional Director has determined that these regulations should be effective immediately for the following reasons:

A. The regulations implementing the FMP provide adequate advance notice and invite public comment on this action;

B. No regulatory restrictions are imposed on any person as a result of this action;

C. This action relates to the extension of a benefit; and

D. Immediate implementation is required to achieve full utilization of the fishery resources concerned.

Signed at Washington, D.C. this 16th day of January, 1979.

(16 U.S.C. Section 1801 *et seq.*)

WINFRED H. MEIBOHM,
Acting Executive Director,
National Marine Fisheries Service.

§ 611.20 [Amended]

1. 50 CFR 611.20 is amended by amending Table I as follows:

Change all entries under Gulf of Alaska Groundfish to read as follows:

Fishery	Species	Species Code	TALFF (Metric tons)
Gulf of Alaska Groundfish	Cod, Pacific	702	[1]11,802
Do	Flounders, including yellowfin sole	129	[1]19,025
Do	Mackerel, Atka	207	[1]20,675
Do	Perch, Pacific Ocean (POP)	780	[1]17,975
Do	Pollock	701	[1]54,250
Do	Rockfishes, other than POP	849	[1]2,975
Do	Sablefish	703	[1]4,900
Do	Squid	509	[1]1,250
Do	Other species	499	[1]12,175

2. 50 CFR 611.92 is amended by replacing Table I—GULF OF ALASKA GROUNDFISH FISHERY: TALFF AND RESERVE BY SPECIES AND FISHING AREA FOR 1978/1979 with the following:

§ 611.92 Gulf of Alaska Groundfish fishery.

. . . . . .

(b) • • •
(1) • • •

V 4 4 / 1 6 J A 2 3 7 9 UMI

TABLE I.—*Gulf of Alaska Groundfish Fishery: TALFF and Reserve [1] by Species and Fishing Area for 1978/1978*

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

[3410-08-M]

DEPARTMENT OF AGRICULTURE

Federal Crop Insurance Corporation

[7 CFR Part 418]

PROPOSED WHEAT CROP INSURANCE REGULATIONS

AGENCY: Federal Crop Insurance Corporation.

ACTION: Proposed rule.

SUMMARY: This notice proposes regulations to prescribe procedures for insuring wheat effective with the 1980 crop year. In addition, the Commission has combined all previous regulations for insuring wheat in a shorter, clearer, and more simplified document. These regulations include several changes which will make the program more effective administratively and relieve some restrictions on policyholders. These regulations are proposed under the authority contained in the Federal Crop Insurance Act, as amended.

DATE: Written comments, data, and opinions must be submitted not later than February 22, 1979, to be sure of consideration.

ADDRESS: Written comments on this proposed rule should be sent to James D. Deal, Manager, Federal Crop Insurance Corporation, Room 4096, South Building, U.S. Department of Agriculture, Washington, D.C., 20250.

FOR FURTHER INFORMATION CONTACT:

Peter F. Cole, Secretary, Federal Crop Insurance Corporation, U.S. Department of Agriculture, Washington, D.C., 20250, 202-447-3325.

SUPPLEMENTARY INFORMATION: Under the authority contained in the Federal Crop Insurance Act, as amended (7 U.S.C. 1501 et seq.), it is proposed that there be hereby established a new Part 418 of Chapter IV in Title 7 of the Code of Federal Regulations to be known as 7 CFR Part 418, Wheat Crop Insurance. This part is entirely new and is issued by the Federal Crop Insurance Corporation to provide the regulations for insuring wheat effective with the 1980 crop year. This part is subject to amendment from time to time in the light of insuring experience under the authority contained in the Federal Crop Insurance Act, as amended. Any such amendment will be published in the FEDERAL REGISTER and codified in Title 7 of the Code of Federal Regulations.

The proposed part 418 Wheat Crop Insurance outlined below will supersede all previous regulations applicable to insuring wheat as found in 7 CFR § 401.126 (33 FR 2376, January 31, 1968), as amended (41 FR 23387-23388, June 10, 1976), and as found in 7 CFR § 401.153 (41 FR 23388-23389, June 10, 1976), effective as to the 1980 and subsequent crops.

The Corporation has determined that combining all previous regulations for insuring wheat would result in a program that is more effective administratively with shortened, simplified, and clarified regulations. In addition, the proposed Part 418 would eliminate the large acreage discount provision, which benefits producers with acreages over 200 acres by permitting discounts up to 20 percent on such acreage insured, while charging the grower with smaller acreages on a higher premium in order to provide a discount for the larger acreage insured. This practice could only be justified from an insurance concept if it could be shown that larger acreage units were better risks. This is not the case. Experience has shown that in states where the premium is discounted the most for large acreage, the insuring experience is significantly worse than average.

The bushel reserve provision, which provides for a 50 percent discount when the accumulated balance (expressed in bushels) of premium over indemnities on consecutively insured wheat crops exceeds the guarantee, is also being deleted from the proposed regulations. This provision is complex, confusing, inequitable, and in some areas, a deterrent to participation. It is not uncommon for an insured with a large premium deficit (indemnities have exceeded premium) to receive a 50 percent premium discount. It is possible, in some high rate areas, for an insured to have several years of loss followed by three or four good years and obtain the discount while the total insuring experience is in a substantial deficit. An insured is also subject to having or not having the bushel reserve discount due to acreage, share, or guarantee changes. When acreage increases, many insureds no longer qualify for the 50 percent discount even though they may not have had a loss. Again the premium rate must be weighted to make allowance for the expected discount. Discounts for good experience, from 5 to 25 percent, are currently provided based on years of "no loss". The 20 and 25 percent discounts are given after six or seven years of the no loss experience. It is possible for insureds who had received more in indemnities than they have paid in premiums to have a discount for good experience of 20 or 25 percent.

The proposed regulations provide a rate adjustment table which adjusts premiums based on the actual individual insuring experience (loss ratio, years insured, and number of losses). It is possible to earn up to 50 percent premium discount for good experience under this table. This method more accurately reflects the premium rate for the individual insured as it is based on the insured's actual insuring experience.

Other proposed changes in the regulations for insuring wheat under the provisions of the proposed 7 CFR Part 418 include: (1) The termination date for indebtedness in the winter wheat areas will now be a date in the current calendar year after the end of the normal harvest period for the State and County; (2) An increase by 9 percent of any premium not paid by the termination date for indebtedness and a 9 percent interest charge on any unpaid premium balances yearly thereafter; (3) An extension of the time period for submitting the notice of damage or loss from 15 days to 30 days which will provide the insured with additional time to notify the Corporation of such damage or loss; (4) The production guarantee being shown on the actuarial table on a harvested basis with a reduction of the lesser of 3 bushels or 20 percent of the guarantee for any acreage which is unharvested instead of the current provision increasing the guarantee by 1.5 bushels on acreage on which 1.5 or more bushels were harvested; (5) Increasing the limitation from $5,000 to $20,000 in those cases involving good faith reliance on misrepresentation (as found in 7 CFR Part 418.6 of the proposed regulations) wherein the Manager of the Corporation is authorized to take action to grant relief without such case being approved by the Board of Directors of the Corporation. This increase reflects the trend toward larger acreages of the modern farms

V 4 4 / 1 6 J A 2 3 7 9 UMI

which could result in cases in excess of $5,000.

Editorial changes have been made in the proposed Wheat Crop Insurance Regulations (7 CFR Part 418) to combine and simplify the documents held by the insured. This has been accomplished by combining the application and policy, formerly separate items, and transferring several less used items to an Appendix to the policy, which results in shortening the basic policy.

The cancellation date for all current wheat endorsements in Colorado, Kansas, Oklahoma, Nebraska, New Mexico, Texas, and Wyoming is March 15. Such regulations as are contained in this part, and any amendments thereto, must be placed on file in the Corporation's office for the county by not later than 15 days prior to March 15 in order to be effective for the crop year. Effective with the 1980 and succeeding crop years, the cancellation date for the above mentioned States shall be April 30, as indicated in the date table found in 7 CFR 418.12(15(c) below.

The Federal Crop Insurance Corporation, in accordance with the provisions of the Administrative Procedure Act (7 U.S.C., 553(b) and (c)), relative to notice and public participation, has determined that such regulations as are printed below in the proposed new 7 CFR Part 418 shall be published in the FEDERAL REGISTER as a notice of proposed rulemaking; however, in view of the fact that such regulations are required to be placed on file in the Corporation's office for the county in wheat crop insurance counties, in order to be applicable to 1980 crop wheat, it will not be possible to provide the required 60 days for public comment and still meet the deadline for filing. In this case, the Corporation is allowing 30 days in which the public is invited to submit written comments, data, or views for consideration in connection with the proposed Wheat Crop Insurance Regulations in the proposed Part 418. Such written submissions must be delivered or postmarked by not later than February 22, 1979, to be sure of consideration and must be submitted to James D. Deal, Manager, Federal Crop Insurance Corporation, Room 4096, South Building, U.S. Department of Agriculture, Washington, D.C. 20250.

All written submissions made pursuant to this notice will be available for public inspection at the Office of the Manager during regular business hours, 8:15 a.m. to 4:45 p.m., Monday through Friday (7 CFR 1.27(b)).

PROPOSED RULE

Accordingly, pursuant to the authority contained in the Federal Crop Insurance Act, as amended, (7 U.S.C. 1501 et seq.), the Federal Crop Insurance Corporation proposes to delete and reserve 7 CFR §§ 401.126 and 401.153, and to issue a new Part 418 in Chapter IV of Title 7 of the Code of Federal Regulations effective with the 1980 and subsequent crops of wheat to read as follows:

PART 418—WHEAT CROP INSURANCE

Subpart—Regulations for the 1980 and Succeeding Crop Years

Sec.

418.1 Availability of Wheat Insurance
418.2 Premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed
418.3 Public notice of indemnities paid
418.4 Creditors
418.5 Good faith reliance on misrepresentation
418.6 The contract
418. The application and policy

AUTHORITY: (Secs. 506, 516, 52 Stat. 73, as amended, 77, as amended; (7 U.S.C. 1506,1516))

§ 418.1 Availability of wheat insurance.

Insurance shall be offered under the provisions of this subpart on wheat in counties within limits prescribed by and in accordance with the provisions of the Federal Corp Insurance Act, as amended. The counties shall be designated by the Manager of the Corporation from those approved by the Board of Directors of the Corporation. Before insurance is offered in any county, there shall be published by appendix to this chapter the names of the counties in which wheat insurance will be offered.

§ 418.2 Premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed.

(a) The Manager shall establish premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed for wheat. Such premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed shall be shown on the county actuarial table on file in the office for the county and may be changed from year to year.

(b) At the time the application for insurance is made, the applicant shall elect a coverage level and price election at which indemnities shall be computed from among those levels and prices shown on the actuarial table for the crop year.

§ 418.3 Public notice of indemnities paid.

The Corporation shall provide for posting annually in each county at each county courthouse a listing of the indemnities paid in the county.

§ 418.4 Creditors

An interest of a person in an insured crop existing by virtue of a lien, mortgage, garnishment, levy, execution, bankruptcy, or an involuntary transfer shall not entitle the holder of the interest to any benefit under the contract except as provided in the policy.

§ 418.5 Good faith reliance on misrepresentation.

Notwithstanding any other provision of the wheat insurance contract, whenever a person insured under these regulations who is indebted to the Corporation or who has suffered a loss to a crop which is not insured, or for which the insured is not entitled to an indemnity because of failure to comply with the terms of the insurance contract, but which the insured believed to be insured, or believed the terms of the insurance contract to have been complied with or waived, because of a misrepresentation or other erroneous action or advice by an agent or employee of the Corporation and the Board of Directors of the Corporation, or the Manager in cases involving not more than $20,000.00, finds (a) that an agent or employee of the Corporation did in fact make such misrepresentation or take other erroneous action or give erroneous advice, (b) that said insured person relied thereon in good faith, and (c) that to require payment of indebtedness or to deny said insured's claim for indemnity would not be fair and equitable, such insured person shall be granted relief the same as if otherwise entitled thereto.

§ 418.6 The contract

The insurance contract shall become effective upon the acceptance by the Corporation of a duly executed application for insurance on a form prescribed by the Corporation. The contract shall cover the wheat crop as provided in the policy. The contract shall consist of the application, the policy, the accompanying appendix, and the provisions of the county actuarial table showing the production guarantees, coverage levels, premium rates, prices for computing indemnities, insurable and uninsurable acreage, and applicable dates. Any changes made in the contract shall not affect the continuity from year to year. Copies of forms referred to in the contract are available at the office for the county.

§ 418.7 The application and policy

(a) Application for insurance on a form prescribed by the Corporation may be made by any person to cover such person's insurable share in the wheat crop as landlord, owner-operator, or tenant. The application shall be submitted to the Corporation at the

office for the county on or before the applicable closing date on file in the office for the county.

(b) The Corporation reserves the right to discontinue the acceptance of applications in any county upon its determination that the insurance risk involved is excessive, and also, for the same reason, to reject any individual application. The Manager of the Corporation is authorized in any crop year to extend the closing date for acceptance of applications or contract changes in any county, by placing the extended date on file in the office for the county and publish a notice in the FEDERAL REGISTER upon his determination that no adverse selectivity will result during the period of such extension: *Provided, however,* That if adverse conditions should develop during such period, the Corporation will immediately discontinue the acceptance of applications.

(c) A contract in the form provided for under this subpart, without the filing of a new application, as a continuation of a continuous contract issued under Federal Crop Insurance Regulations for the 1969 and Succeeding Crop Years, shall come into effect in accordance with the provisions governing changes in the contract of the applicable policies issued under said 1969 regulations.

(d) The provisions of the application and Wheat Insurance Policy for the 1980 and Succeeding Crop Years, and the Appendix to the Wheat Insurance Policy are as follows:

(NAME AND ADDRESS) (ZIP CODE) (COUNTY) (STATE)

TYPE OF ENTITY_____ APPLICANT IS OVER 18 YES__ NO__

A. The applicant, subject to the provisions of the regulations of the Federal Crop Insurance Corporation (herein called "Corporation"), applies to the Corporation for insurance on the applicant's share in the wheat planted on insurable acreage as shown on the county actuarial table for the above-stated county. The applicant elects from the actuarial table the coverage level and price at which indemnities shall be computed. THE PREMIUM RATES AND PRODUCTION GUARANTEES SHALL BE THOSE SHOWN ON THE APPLICABLE COUNTY ACTUARIAL TABLE FILED IN THE OFFICE FOR THE COUNTY FOR EACH CROP YEAR.

B. UPON ACCEPTANCE OF THIS APPLICATION BY THE CORPORATION, the contract shall be in effect for the first crop year specified above, unless the time for submitting applications has passed at the time this application is filed, AND SHALL CONTINUE FOR EACH SUCCEEDING CROP YEAR UNTIL CANCELED OR TERMINATED as provided in the contract. This accepted application, the following wheat insurance policy, the attached appendix, and the provisions of the county actuarial table showing the production guarantees, coverage levels, premium rates, prices for computing indemnities, insurable and uninsurable acreage, and applicable dates, shall constitute the contract. Additional information regarding contract provisions can be found in the county regulations folder on file in the office for the county. No term or condition of the contract shall be waived or changed except in writing by the Corporation.

WHEAT CROP INSURANCE POLICY

TERMS AND CONDITIONS

Subject to the provisions in the attached appendix:

1. *Causes of loss.* (a) Causes of loss insured against. The insurance provided is against unavoidable loss of production resulting from adverse weather conditions, insects, plant disease, wildlife, earthquake or fire occurring within the insurance period subject to any exceptions, exclusions or limitations with causes of loss that are shown on the actuarial table.

(b) Causes of loss not insured against. The contract shall not cover any loss of production due to (1) the neglect or malfeasance of the insured, any member of his household, his tenants, or employees, (2) failure to follow recognized good farming practices, (3) damage resulting from the backing up of water by any governmental or public utilities dam or reservoir project, or (4) any cause not specified as an insured cause in this policy as limited by the actuarial table.

2. *Crop and acreage insured.* (a) Upon acceptance of an application for insurance, the crop insured shall be wheat which is seeded for harvest as grain and for which the actuarial table shows a guarantee and premium rate per acre.

(b) The acreage insured for each crop year shall be that acreage seeded to wheat on insurable acreage, as shown on the actuarial table and as reported by the insured or as determined by the Corporation, whichever the Corporation shall elect, in which the insured has a share: *Provided,* That insurance shall not attach or be considered to have attached as determined by the Corporation to any acreage (1) where premium rates are established by farming practices on the actuarial table, and the farming practices carried out on any acreage are not among those for which a premium rate has been established, (2) not reported for insurance as provided in section 4 if such acreage is irrigated and an irrigated practice is not provided for such acreage on the actuarial table, (3) which is destroyed and after such destruction it was practical to replant to wheat and such acreage was not replanted, (4) initially planted after the date established by the Corporation and placed on file in the office for the county as being too late to initially plant and expect a normal crop to be produced, (5) of volunteer wheat, (6) seeded to a type or variety of wheat not established as adapted to the area or shown as noninsurable on the actuarial table, or (7) seeded with another crop.

(c) Insurance may attach only by written agreement with the Corporation on acreage which is seeded for the development or production of hybrid seed or for experimental purposes.

3. *Responsibility of insured to report acreage and share.* The insured shall submit to the Corporation on a form prescribed by the Corporation, a report showing all acreage of wheat seeded in the county (including a designation of any acreage to which insurance does not attach) in which the insured has a share and the insured's share therein at the time of seeding. Such report shall be submitted each year not later than a date on file in the office for the county.

4. *Production guarantees, coverage levels and prices for computing indemnities.* (a) For each crop year of the contract, the production guarantees, coverage levels, and prices at which indemnities shall be computed shall be those shown on the actuarial table.

(b) The production guarantee per acre shall be reduced by the lesser of 3 bushels or 20 percent for any unharvested acreage.

5. *Annual premium.* (a) The annual premium is earned and payable at the time of seeding and shall be determined by multiplying the insured acreage times the applicable premium per acre, times the insured's share at the time of seeding, times the premium adjustment percentage in paragraph (c) of this section.

(b) For premium adjustment purposes, only the years during which premiums were earned shall be considered.

(c) The premium shall be adjusted as shown in the following table:

[3410-08-C]

% ADJUSTMENTS FOR FAVORABLE CONTINUOUS INSURANCE EXPERIENCE:

*Only the most recent 15 crop years will be used to determine the number of "Loss Years" (A crop year is determined to be a "Loss Year" when the amount of indemnity for the year exceeds the premium for the year)

1/ Loss Ratio means the ratio of indemnity(ies) paid to premium(s) earned.

V 44 / 16 JA 23 79 UMI

V 4 4 / 1 6 JAN 23 79 UMI

(d) If any premium for any crop year is not paid on or before the termination date for indebtedness for such crop year, such unpaid premium balance shall be increased by an interest rate of 9 percent; *Provided,* When notice of loss has been timely filed by the insured as provided in section 7 of the policy and if the Corporation has approved a claim for loss between 20 days before the termination date and any time after the date of termination, the 9 percent increase for unpaid premium balance shall not apply until 30 days after the date of such approval by the Corporation; and, if any premium is not paid within the twelve months immediately following the termination date, interest charges of 9 percent per year will attach each year thereafter to any unpaid balance. Any unpaid amount due the Corporation may be deducted from any indemnity payable to the insured by the Corporation or from any loan or payment to the insured under any Act of Congress or program administered by the U.S. Department of Agriculture, when not prohibited by law.

6. *Insurance period.* Insurance on insured acreage shall attach at the time the wheat is seeded and shall cease upon the earlier of (1) final adjustment of a loss, (2) combining, threshing, or removal of the wheat from the field, (3) October 31 of the calendar year in which wheat is normally harvested, or (4) total destruction of the insured wheat crop.

7. *Notice of damage or loss.* (a) Any notice of damage or loss shall be given promptly in writing by the insured to the Corporation at the office for the county.

(b) Notice shall be given promptly if, during the period before harvest, the wheat on any unit is damaged to the extent that the insured does not expect to further care for the crop or harvest any part of it, or if the insured wants the consent of the Corporation to put the acreage to another use. No insured acreage shall be put to another use until the Corporation has made an appraisal of the potential production of such acreage and consents in writing to such other use. Such consent shall not be given until it is too late to replant the wheat. Notice shall also be given when such acreage has been put to another use.

(c) In addition to the notices required in paragraph (b) of this section, if a loss is to be claimed on any unit, the insured shall give written notice thereof to the Corporation at the office for the county not later than *30 DAYS* after the earlier of (1) the date harvest is completed on the unit, (2) the calendar date for the end of the insurance period, or (3) the date the entire wheat crop on the unit is destroyed, as determined by the Corporation. The Corporation reserves the right to provide additional time if it determines there are extenuating circumstances.

(d) Any insured acreage which is not to be harvested shall be left intact until the Corporation makes an inspection.

8. *Claim for indemnity.* (a) It shall be a condition precedent to the payment of any indemnity that the insured (1) establish the total production of wheat on the unit and that any loss of production has been directly caused by one or more of the insured causes during the insurance period for the crop year for which the indemnity is claimed and (2) furnish any other information required regarding the manner and extent of loss as may be required by the Corporation.

(b) Indemnities shall be determined separately for each unit. The amount of indemnity for any unit shall be determined by (1) multiplying the insured acreage of wheat on the unit by the applicable production guarantee per acre, which product shall be the production guarantee for the unit, (2) subtracting therefrom the total production of wheat to be counted for the unit, (3) multiplying the remainder by the applicable price for computing indemnities, (4) multiplying the result obtained in step (3) by the insured share: *Provided,* That if the premium computed on the determine acreage and share is more than the premium computed on the reported acreage and share, the amount of indemnity shall be computed on the determined acreage and share and then reduced proportionately.

(c) The total production to be counted for a unit shall be determined by the Corporation and shall include all harvested and appraised production from acreage seeded for harvest as grain and any *harvested* production from acreage initially seeded for purposes other than grain.

(1) Mature production which grades No. 4 or better shall be reduced .12 percent for each .1 percent point of moisture in excess of 13.5 percent, and if, due to insurable causes any wheat does not grade No. 4 or better, or is graded smutty, garlicky, or ergoty, in accordance with the Official U.S. Grain Standards, the production shall be adjusted by dividing the value per bushel of the damaged wheat (as determined by the Corporation) by the price per bushel of U.S. No. 2 wheat and multiplying the result by the number of bushels of such wheat. The applicable price for No. 2 wheat shall be the local market price on the earlier of: the day the loss is adjusted or the day the damaged wheat was sold.

(2) Any harvested production from volunteer crops growing with the seeded wheat crop or small grains seeded in the growing wheat crop on acreage which the Corporation has not given consent to be put to another use shall be counted as wheat on a weight basis.

(3) Appraised production shall include: (i) the greater of the appraised production or 50 percent of the applicable guarantee for any acreage which, with the consent of the Corporation, is seeded before wheat harvest becomes general in the current crop year to any other crop insurable on such acreage (excluding small grains maturing for harvest in the following calendar year), (ii) any appraisals by the Corporation for potential production on harvested acreage and for poor farming practices, (iii) not less than the applicable guarantee for any acreage which is abandoned or put to another use without prior written consent of the Corporation or damaged solely by an uninsured cause, and (iv) only the appraisal in excess of the lesser of 3 bushels or 20 percent of the production guarantee for all other unharvested acreage.

(d) The appraised potential production for acreage for which consent has been given to be put to another use shall be counted as production in determining the amount of loss under the contract. However, if consent is given to put acreage to another use and the Corporation determines that any such acreage (1) is not put to another use before harvest of wheat becomes general in the county, (2) is harvested, or (3) is further damaged by an insured cause before the acreage is put to another use, the indemnity for the unit shall be determined without regard to such appraisal and consent.

(e) The Corporation may reject any claim for indemnity if any of the requirements of this section are not met.

9. *Misrepresentation and fraud.* The Corporation may void the contract without affecting the insured's liability for premiums or waiving any right, including the right to collect any unpaid premiums if, at any time, the insured has concealed or misrepresented any material fact or committed any fraud relating to the contract, and such voidance shall be effective as of the beginning of the crop year with respect to which such act or omission occurred.

10. *Transfer of insured share.* If the insured transfers any part of the insured share during the crop year, protection will continue to be provided according to the provisions of the contract to the transferee for such crop year on the transferred share, and the transferee shall have the same rights and responsibilities under the contract as the original insured for the current crop year. Any transfer shall be made on an approved form.

11. *Records and access to farm.* The insured shall keep or cause to be kept for two years after the time of loss, records of the harvesting, storage, shipments sale or other disposition of all wheat produced on each unit including separate records showing the same information for production from any uninsured acreage. Any persons designated by the Corporation shall have access to such records and the farm for purposes related to the contract.

12. *Life of contract: Cancellation and termination.* (a) The contract shall be in effect for the crop year specified on the application and may not be canceled for such crop year. Thereafter, either party may cancel insurance for any crop year by giving a signed notice to the other on or before the cancellation date preceding such crop year.

(b) The contract will terminate as to any crop year if any amount due the Corporation is not paid on or before the termination date for indebtedness preceding such crop year: *Provided,* That the date of payment for premium (1) deducted from an indemnity claim shall be the date the insured signs such claim or (2) deducted from payment under another program administered by the U.S. Department of Agriculture shall be the date such payment was approved.

(c) Following are the cancellation and termination dates:

State and County	Cancellation Date	Termination Date for Indebtedness
Colorado, Kansas, Nebraska, New Mexico, Oklahoma, Texas, and Wyoming.	Apr. 30	Aug. 31
Idaho, Montana, Oregon, and Washington	Jun. 30	Nov. 30
Minnesota, North Dakota, and Spring Wheat only counties in South Dakota.	Dec. 31	Mar. 31
All other States and counties	Jun. 30	Oct. 10

(k) "Unit" means all insurable acreage of wheat in the county on the date of seeding for the crop year (1) in which the insured has a 100 percent share, or (2) which is owned by one entity and operated by another entity on a share basis. Land rented for cash, a fixed commodity payment, or any consideration other than a share in the wheat crop on such land shall be considered as owned by the lessee. Land which would otherwise be one unit may be divided according to applicable guidelines on file in the office for the county or by written agreement between the Corporation and the insured. The Corporation shall determine units as herein defined when adjusting a loss, notwithstanding what is shown on the acreage report, and has the right to consider any acreage and share reported by or for the insured's spouse or child or any member of the insured's household to be the bona fide share of the insured or any other person having the bona fide share.

(d) In the absence of a notice from the insured to cancel, and subject to the provisions of subsections (a), (b), and (c) of this section, the contract shall continue in force for each succeeding crop year.

Appendix to the Wheat Insurance Policy

(Additional Terms and Conditions)

1. *Meaning of Terms.* For the purposes of wheat crop insurance, including this appendix and the policy which this appendix is accompanying (hereinafter called "the policy"), and the application for the policy:

(a) "Actuarial table" means the forms and related material for the crop year approved by the Corporation which are on file for public inspection in the office for the county, and which show the production guarantees, coverage levels, premium rates, prices for computing indemnities, insurable and uninsurable acreage, and related information regarding wheat insurance in the county.

(b) "County" means the county shown on the application and any additional land located in a local producing area bordering on the county, as shown on the actuarial table.

(c) "Crop year" means the period within which the wheat crop is normally grown and shall be designated by the calendar year in which the wheat crop is normally harvested.

(d) "Harvest" means the severance of matured wheat from the land for combining or threshing.

(e) "Insurable acreage" means the land classified as insurable by the Corporation and shown as such on the county actuarial table.

(f) "Insured" means the person who submitted the application accepted by the Corporation.

(g) "Office for the county" means the Corporation's office serving the county shown on the application for insurance or such office as may be designated by the Corporation.

(h) "Person" means an individual, partnership, association, corporation, estate, trust, or other business enterprise or legal entity, and wherever applicable, a State, a political subdivision of a State, or any agency thereof.

(i) "Share" means the interest of the insured as landlord, owner-operator, or tenant in the insured wheat crop at the time of seeding as reported by the insured or as determined by the Corporation, whichever the Corporation shall elect, and no other share shall be deemed to be insured: *Provided,* That for the purpose of determining the amount of indemnity, the insured share shall not exceed the insured's share at the earlier of (1) the date of beginning of harvest on the unit, (2) the calendar date for the end of the insurance period, or (3) the date the entire crop on the unit is destroyed, as determined by the Corporation.

(j) "Tenant" means a person who rents land from another person for a share of the wheat crop or proceeds therefrom.

2. *Acreage Insured.* (a) The Corporation reserves the right to limit the insured acreage of wheat to any acreage limitations established under any Act of Congress, provided the insured is so notified in writing prior to the seeding of wheat.

(b) If the insured does not submit an acreage report on or before the date on file in the office for the county, the Corporation may elect to determine by units the insured acreage and share or declare the insured acreage on any unit(s) to be "zero". If the insured does not have a share in any insured acreage in the county for any year, he shall submit a report so indicating. Any acreage report submitted by the insured may be revised only upon approval by the Corporation.

3. *Irrigated Acreage.* (a) Where the actuarial table provides for insurance on an irrigated practice, the insured shall report as irrigated only the acreage for which the insured has adequate facilities and water to carry out a good irrigation practice at the time of seeding.

(b) Where irrigated acreage is insurable, any loss of production caused by failure to carry out a good irrigation practice, except failure of the water supply from an unavoidable cause occurring after the beginning of seeding, shall be considered as due to an uninsured cause. The failure or breakdown of irrigation equipment or facilities shall not be considered as a failure of the water supply from an unavoidable cause.

4. *Annual Premium.* (a) If there is no break in the continuity of participation, any premium-adjustment applicable under subsection (c) of the policy shall be transferred to (1) the contract of the insured's estate or surviving spouse in case of death of the insured, (2) the contract of the person who succeeds the insured if such person had previously participated in the farming operation, or (3) the contract of the same insured who stops farming in one county and starts farming in another county.

(b) If there is a break in the continuity of participation, any reduction in premium earned under subsection (c) of this section shall not thereafter apply; however, any previous premium percentage adjustment factor(s) for unfavorable insurance experience shall apply following a break in continuity.

5. *Claim for and Payment of Indemnity.* (a) Any claim for indemnity on a unit shall be submitted to the Corporation on a form prescribed by the Corporation.

(b) In determining the total production to be counted for each unit, production from units on which the production has been commingled will be allocated to such units in proportion to the liability on each unit.

(c) There shall be no abandonment to the Corporation of any insured wheat acreage.

(d) In the event that any claim for indemnity under the provisions of the contract is denied by the Corporation, an action on such claim may be brought against the Corporation under the provisions of 7 U.S.C. 1508(c): *Provided,* That the same is brought within one year after the date notice of denial of the claim is mailed to and received by the insured.

(e) Any indemnity will be payable within 30 days after a claim for indemnity is approved by the Corporation. However, in no event shall the Corporation be liable for interest or damages in connection with any claim for indemnity whether such claim be approved or disapproved by the Corporation.

(f) If the insured is an individual who dies, disappears, or is judicially declared incompetent, or the insured is an entity other than an individual and such entity is dissolved after the wheat is seeded for any crop year, any indemnity will be paid to the person(s) the Corporation determines to be beneficially entitled thereto.

(g) The Corporation reserves the right to reject any claim for loss if any of the requirements of this section are not met and the Corporation determines that the amount of loss cannot be satisfactorily determined.

6. *Subrogation.* The insured (including any assignee or transferee) assigns to the Corporation all rights of recovery against any person for loss or damage to the extent that payment hereunder is made by the Corporation. The Corporation thereafter shall execute all papers required and take appropriate action as may be necessary to secure such rights.

7. *Termination of the Contract.* (a) The contract shall terminate if no premium is earned for five consecutive years.

(b) If the insured is an individual who dies or is judicially declared incompetent, or the insured entity is other than an individual and such entity is dissolved, the contract shall terminate as of the date of death, judicial declaration, or dissolution; however, if such event occurs after insurance attaches for any corp year, the contract shall continue in force through such crop year and terminate at the end thereof. Death of a partner in a partnership shall dissolve the partnership unless the partnership agreement provides otherwise. If two or more persons having a joint interest are insured jointly, death of one of the persons shall dissolve the joint entity.

8. *Coverage Level and Indemnity Price.* (a) If the insured has not elected on the application a coverage level and price election at which indemnities shall be computed from among those shown on the actuarial table, the applicable coverage level and price which shall be applicable under the contract, and which the insured shall be deemed to have elected, shall be as provided on the actuarial table for such purposes.

(b) The insured may, with the consent of the Corporation, change the coverage level and/or price election for any crop year on or before the closing date for submitting applications for that crop year.

9. *Collateral Assignment.* Upon approval of a form prescribed by the Corporation, the insured may assign to another party the right to an indemnity for the crop year and such assignee shall have the right to submit the loss notices and forms as required by the contract.

10. *Contract Changes.* The Corporation reserves the right to change any terms and provisions of the contract from year to year. Any changes shall be mailed to the insured or placed on file and made available for public inspection in the office for the county at least 15 days prior to the cancellation date preceding the crop year for which the changes are to become effective, and such mailing or filing shall constitute notice to the insured. Acceptance of any changes will be conclusively presumed in the absence of any notice from the insured to cancel the contract as provided in section 12.

NOTE.—The reporting requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942, and OMB Circular No. 840.

Approved by the Board of Directors on December 20, 1978.

Dated: December 20, 1978.

PETER F. COLE,
Secretary, Federal Crop Insurance Corporation.

Approved by:

JAMES D. DEAL,
Manager, Federal Crop Insurance Corporation.

Dated: December 20, 1978.

Agricultural Marketing Service

[7 CFR Part 1011]

[Docket No. AO-251-A21]

MILK IN THE TENNESSEE VALLEY MARKETING AREA

Recommended Decision and Opportunity To File Written Exceptions on Proposed Amendments to Tentative Marketing Agreement and To Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This decision recommends certain changes in the order provisions pertaining to pooling standards for supply plants based on industry proposals considered at a public hearing held September 13, 1978. The recommended amendments would allow a pool supply plant to meet its shipping requirements through both transfers and diversions of milk from the supply plant to pool distributing plants, rather than just through transfers. However, no more than half of the required shipments could be by diversions. The changes would permit milk to be moved more efficiently from farms to distributing plants for fluid use.

DATE: Comments are due on or before February 12, 1979.

ADDRESS: Comments (four copies) should be filed with the Hearing Clerk, Room 1077, South Building, U.S. Department of Agriculture, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT:

Richard A. Glandt, Marketing Specialist, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250 (202) 447-4829.

SUPPLEMENTARY INFORMATION: Prior documents in this proceeding:

Notice of Hearing—Issued August 23, 1978; published August 28, 1978 (43 FR 38412).

PRELIMINARY STATEMENT

Notice is hereby given of the filing with the Hearing Clerk of this recommended decision with respect to proposed amendments to the tentative marketing agreement and order regulating the handling of milk in the Tennessee Valley marketing area, and of the opportunity to file written exceptions thereto. This notice is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

Interested parties may file written exceptions to this decision with the Hearing Clerk, Room 1077, South Building, United States Department of Agriculture, Washington, D.C., 20250, by the 20th day after publication of this decision in the FEDERAL REGISTER. Four copies are required. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order as amended, were formulated, was conducted at Knoxville, Tennessee, on September 13, 1978, pursuant to notice thereof.

The material issues on the record of the hearing relate to:

1. Pooling standards for supply plants.
2. Diversions of producer milk.
   (a) Diversions between pool plants.
   (b) Diversions to nonpool plants.
   (c) Identification of overdiverted milk.
3. Conforming changes.

FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Pooling standards for supply plants.* The order should provide that a supply plant may qualify for pool status on the basis of both transfers and diversions of milk from the supply plant to pool distributing plants. However, such qualification credit for diversions should be limited to not more than one-half of the total required shipments.

The order currently affords pool status to any plant that transfers to pool distributing plants not less than 50 percent of its milk receipts from dairy farmers and cooperative association bulk tank handlers. A plant that so qualifies each month during August through March may retain pool status during the following months of April through July without shipping any milk to pool distributing plants.

Kraft, Inc., a proprietary handler, proposed that milk moved directly from producers' farms to pool distributing plants by a supply plant operator be considered as qualifying shipments in determining pool status for such supply plant. As part of a package of proposals to provide for this, Kraft proposed amending the order to allow unlimited diversions between pool plants. A discussion of this proposal appears elsewhere in this decision. Proponent also proposed certain other conforming changes in order provisions.

A witness for proponent testified that Kraft operates a pool supply plant located at Greeneville, Tennessee, that receives milk from farms located in nine Tennessee counties. The milk is then reloaded and transferred from the supply plant to a pool distributing plant at Knoxville, Tennessee. According to the Kraft spokesman, approximately 50 percent of the supply plant's milk is obtained from farms located such that the milk could move more economically directly from the farms to the Knoxville plant. He noted, however, that under current order provisions Kraft cannot be the handler on milk that is direct-shipped to another handler's pool plant.

The spokesman testified that Kraft has an agreement to supply milk to the Knoxville plant. He stated that it was Kraft's intent ot utilize in its nonpool cheese manufacturing plant, also located in Greeneville, Tennessee, any milk produced by the supply plant's regular producers that is not needed for fluid use at the Knoxville distributing plant. Thus, Kraft wishes to be the handler on the milk associated with its supply plant operation in

order to maintain the payrolling function on its milk, even when delivered directly from farms to the Knoxville distributing plant. The witness testified that allowing milk to be diverted to the Knoxville distributing plant would eliminate about 2,400 truck miles weekly, thus improving the overall efficiency of the supply plant operation. He also claimed that the elimination of unnecessary pumping would help maintain the quality of the milk.

Dairymen, Inc. (DI), a dairy farmer cooperative whose members supply more then 85 percent of the producer milk on the market, opposed the adoption of the Kraft proposals. The cooperative's spokesman contended that marketing conditions do not warrant the order changes proposed by Kraft. He maintained that adoption of the proposals would merely make it easier for Kraft to pool a Grade A milk supply for its cheese plant.

DI's witness expressed the view that marketing efficiency was not the major concern here. To support this, he maintained that conditions in this market do not require milk to move through a supply plant in order to be delivered to a distributing plant. He held that milk supplies can move directly from the farm to plants located in, or near, the Tennessee Valley marketing area. He stated that "the operation of a supply plant in conjunction with a manufacturing grade milk plant is not a necessary or an efficient procedure for supplying milk to handlers." The DI spokesman maintained that if a distributing plant operator wants a supply of milk from producers who are not members of a cooperative the distributor should be the responsible handler for the milk rather than a supply plant operator and the milk should be received directly from farms.

DI's witness contended that adoption of the proposals would permit the operator of a supply plant to pool its milk in effect on the same basis as now provided for pooling a balancing plant of a cooperative association, i.e., on the basis of the total performance of the handler rather than just on the performance of the handler's plant. He noted, however, that under the proposed provisions a cooperative would be able to pool its balancing plant as a supply plant under the less stringent pooling standards proposed for supply plants. He opposed this on the basis that current marketing conditions do not warrant a reduction in the present order requirements for qualifying a balancing plant as a pool plant. In addition, how noted that a balancing plant must be located in the marketing area in order to be a pool plant. He pointed out that this requirement would not apply to a supply plant under the Kraft proposals. The cooperative's witness expressed concern that the proponent, as well as other handlers, including DI, thus could "ride the pool" by pooling plants that otherwise would have no association with the Tennessee Valley market.

It may be, as DI contends, that moving milk directly from farms to distributing plants is the most efficient way to handle producer milk associated with the Tennessee Valley order. Nevertheless, the order provides for the pooling of supply plants and Kraft is operating a supply plant that meets the pooling standards of the order. The present pooling standards require a supply plant operator to transfer at least 50 percent of his receipts at the supply plant to pool distributing plants. Stated another way, 50 percent of the supply plant's milk must be made available to meet the fluid milk needs of the market. Once this requirement is met, the supply plant's total supply of milk has pool status, and the supply plant operator may dispose of the remaining 50 percent in whatever way he desires. Whether this kind of pooling standard is inappropriate for this market was not an issue at this hearing.

The Kraft supply plant first became a pool plant in September 1977 and at the time of the hearing had been a pool plant for one year. During that time, the plant's total supply of Grade A milk was received at the supply plant and then transferred to the distributing plant at Knoxville. A number of the farms that deliver milk to the supply plant are located between Greeneville and Knoxville. Many are closer to the distributing plant than they are to the supply plant. One such farm is approximately three miles from the distributing plant, and about 75-80 miles from the supply plant.

At the time of the hearing, Kraft was obtaining Grade A milk from farms located in nine Tennessee counties, which include territory around Greeneville and also between Geeneville and Knoxville. Kraft indicated that if its proposals were adopted, milk from farms in Greene, Hawkins and Washington Counties would continue to be moved to the supply plant, and then be shipped to Knoxville when needed. Milk produced on farms in Claiborne, Cocke, Hamblen, Jefferson, Knox and Sevier Counties, on the other hand, would then be moved directly to the Knoxville distributing plant. The milk from these six counties approximates 50 percent of the total Grade A supply currently pooled by Kraft. when not needed in Knoxville for fluid use, Kraft indicated that this latter milk would be moved to either the supply plant or the manufacturing plant at Greeneville.

The order should promote efficient milk handling practices by permitting a supply plant operator to move part of his milk supplies directly from farms to distributing plants and count them as part of his supply plant shipments. There are obvious savings in hauling costs that could be achieved in this market under such an arrangement. In addition, extra pumping of milk in reloading operations could be avoided, which would help preserve the high quality of the milk that distributors demand.

Adoption of this provision should not lessen in any way the effectiveness of the pooling standards. A supply plant operator would still have to make available to pool distributing plants not less than 50 percent of his Grade A milk that is associated with the supply plant.

Although the order should recognize a supply plant operator's deliveries of milk directly from producers' farms to pool distributing plants, a supply plant should not be able to qualify for pooling solely on the basis of such deliveries. Otherwise, there would be little discernible difference from an operational standpoint between a supply plant and a cooperative association balancing plant. Yet, the pooling standards for the two types of plants would be different.

Adoption of Kraft's proposal without any limitation on diversions would enable a supply plant to qualify as a pool plant without being required to transfer any milk from the supply plant to distributing plants. Pooling status could be achieved as long as the plant operator delivered at least half of his milk supply to pool distributing plants, which could be entirely by deliveries directly from farms. A similar method of pooling is now available to a cooperative association in the case of its balancing plant. However, the plant must be located in the marketing area and the cooperative must deliver at least 60 percent of its members' milk to pool distributing plants during each month of the year. No automatic pooling status is provided during the heavy production months, as is the case for supply plants.

Since there presumably would be little difference in the supply arrangements of the two types of handlers, the question arises as to whether any difference in the pool plant performance standards for a cooperative's balancing plant and for a handler's supply plant can be justified. The record does not support the pooling of a balancing plant under the pool standards now applicable to supply plants. On the other hand, it must be presumed that Kraft did not contemplate for its supply plant the establishment of the higher or more stringent

V 4 4 / 1 6 J A 2 3 7 9 UMI

performance level that now applies to balancing plants.

When a cooperative has a high overall level of performance in supplying and balancing the fluid milk needs of handlers, its balancing plant may have pool status without meeting specific plant performance criteria. This recognizes that a balancing plant provides an efficient means whereby handlers buying milk from the cooperative may adjust their receipts from day-to-day to fit their bottling needs and at the same time have assurance through arrangements with the cooperative that milk will always be available for fluid use as needed.

Accordingly, to maintain some distinction between the two types of plants, the order should not permit more than one-half of the milk movements by a supply plant operator to be in the form of diversions to distributing plants. Under the current operating situation, this should still basically accommodate the needs of Kraft. At the same time, the order would continue to base a supply plant's eligibility for pooling to a significant degree on transfers of milk from the supply plant to distributing plants.

2. *Diversions of producer milk.* In connection with its proposal to change the supply plant pooling standards, Kraft proposed that the order be amended to (a) permit a pool plant operator to divert milk from such plant to other pool plants on a unlimited basis, (b) increase the amount of milk a handler may divert to nonpool plants, and (c) provide a procedure for determining which milk shall not be pooled under the order when a handler overdiverts milk to nonpool plants.

a. *Diversions between pool plants.* The order should be amended to allow the operator of a pool plant to divert milk from such plant to another pool plant on any number of days during the month.

At the hearing, Kraft's witness testified that under the current order provisions Kraft must physically receive the milk of a producer at its pool supply plant in Greeneville, Tennessee, and then transfer the milk to a pool distributing plant in Knoxville, Tennessee, in order to maintain the payroll responsibility and accountability for such milk. Kraft contended that this method of operation has resulted in additional expense for the handler since the farms of some producers are closer to Knoxville than Greeneville. Kraft proposed, therefore, that the order be amended so that milk of producers associated with the Greeneville supply plant could be diverted from such plant to the Knoxville distributing plant as needed. Thus, Kraft could be the handler, even though the milk moved directly from the farm to another pool plant.

The order should promote the efficient handling of milk by permitting diversions between pool plants. This change will implement the supply plant modification adopted in this decision, as described earlier. It also will facilitate simplified accounting procedures with respect to producer milk weights, butterfat tests and payrolling. Under this procedure, the diverting handler may retain payroll responsibility for a producer's total monthly milk production, irrespective of the plant to which the milk may actually be delivered. This additional operating flexibility will permit a pool plant operator to avoid uneconomic movements of milk for the purpose of being the accountable handler and paying the producer for all of his milk deliveries during the month.

Diversions to pool plants should be distinguished from diversions to nonpool plants in that when milk is diverted to another pool plant there is no question about its eligibility for pooling. Thus, no purpose would be served by placing a limitation on diversions of milk between pool plants and none is provided.

The pricing point for milk diverted from a pool plant to another pool plant should be the same as currently provided under the order for milk diverted to a nonpool plant, as was proposed by Kraft. Hence, the milk would be priced at the location of the plant to which it is diverted.

The order now excludes milk received at a supply plant by diversion from plants regulated under other orders and by transfer from other plants in determining how much of a pool supply plant's receipts must be shipped to distributing plants. Thus, a supply plant that is a manufacturing plant may receive surplus milk from other plants without affecting its qualification as a pool plant under the order. For the same reason, milk received at a supply plant by diversion from other pool plants should be excluded as a receipt for determining the pool status of the supply plant.

(b) *Diversions to nonpool plants.* A proposal to base allowable diversions to nonpool plants by pool plant operators and cooperatives on a handler's total producer milk supply, thereby increasing the limit on such diversions, should not be adopted. However, in conjunction with the change described earlier that would permit diversions between pool plants, such diversions by a pool plant operator should be counted along with the producer milk that he physically receives at his pool plant in determining how much milk he can divert to nonpool plants.

The current order provides that the total quantity of milk diverted to nonpool plants by a cooperative may not exceed one-third of the producer milk that the cooperative caused to be delivered to pool plants during the month. The operator of a pool plant may divert an amount of milk equal to not more than one-third of the producer milk that is physically received during the month at such plant that is eligible for diversion by the plant operator.

Kraft, Inc., proposed that a cooperative association be permitted to divert to nonpool plants up to one-third of the producer milk it caused to be delivered to or diverted from pool plants during the month. Also, a pool plant operator would be permitted to so divert up to one-third of his total producer milk supply, i.e., milk physically received at such plant plus diversions from the plant to pool and nonpool plants.

In supporting the adoption of the proposal, Kraft's witness testified that at the present time all of the producer milk associated with the Greeneville supply plant is needed to supply the distributing plant in Knoxville. He indicated, however, that Kraft expected to divert milk off the market in the near future as its Grade A supplies increase, and eventually in quantities greater than could be accommodated under the present provisions. This anticipation was the basis for the proposal to increase allowable diversions to nonpool plants.

Dairymen, Inc. (DI), opposed the adoption of the proposal on the basis that it would increase allowable diversions to nonpool plants. A witness for the association testified that an increase is not needed since such diversions generally have been far below the level currently permissible under the order.

Kraft's operation has been such that up to the time of the hearing, no milk had been diverted from the supply plant. Any increase in the diversion limits should be based on actual operating experience. Only in this way can there be a proper assessment of whether such a change is in fact needed.

It is noted that other information on the record does not suggest a need for increasing the diversion limits. An exhibit entered by DI set forth the quantity of the association's diversions to nonpool plants each month since the merged order became effective on October 1, 1976. During such months when diversions were limited (October 1976–March 1977 and August 1977–March 1978), DI's diversions averaged only 16 percent of its deliveries to pool plants. During those same months, the market's Class I utilization averaged 77 percent. Since DI supplies over 85 percent of the milk pooled under the order, it is evident that the present limit on allowable diversions is accommodating the handling of a very large proportion of the milk on the market. Therefore, current marketing conditions do not indicate that an increase in the base for computing allowable diversions to nonpool plants is warranted. Accordingly, the Kraft proposal is denied.

With the adopted change that would permit diversions between pool plants, a pool plant operator's "base" for computing allowable diversions to nonpool plants would be reduced by the quantity of producer milk diverted to other pool plants in the absence of any corollary change in what the base should include. In recognition of this, the base for determining allowable diversions to nonpool plants should include all of the pool plant operator's producer milk that is received at pool plants, i.e., physical receipts at the plant plus diversions from such plant to other pool plants. This is consistent with present order provisions that permit a cooperative to divert milk to nonpool plants based on its total producer milk deliveries that are physically received at pool plants.

Since a pool plant operator that diverts milk to another pool plant would be accountable to the pool for such milk, the operator should get credit for such milk as a basis for diversions to nonpool plants. Conversely, the operator of the pool plant where the milk is physically received should not be eligible to divert milk on the basis of such receipts of milk.

Assuming a given amount of producer milk, this change would not allow a handler to divert any more milk to nonpool plants under the proposed amended order than may be so diverted under the present order provisions. It would, however, maintain the present level of allowable diversions to nonpool plants, which the record demonstrates is adequate to efficiently dispose of the market's reserve milk supplies. For the foregoing reasons, this modification should be adopted.

(c) *Identification of overdiverted milk.* The order should be amended to provide a procedure for identifying the milk that would lose pool status if a handler overdiverts milk to nonpool plants. As provided herein, the quantity of milk diverted in excess of the diversion allowance would not be producer milk. Also, if the diverting handler fails to designate the dairy farmers' deliveries that are not producer milk, no milk diverted to nonpool plants by the handler would be producer milk.

The current order does not specify which milk shall be depooled in the event a handler's total diversions to nonpool plants exceed the maximum allowance specified in the order. The order now covers only the situation where diversions by a cooperative from a pool plant of another handler would cause such plant to be a nonpool plant. In such cases, the order provides that the cooperative shall designate the dairy farmer deliveries that are not producer milk. If the cooperative fails to make such designation, no milk diverted by the handler to nonpool plants shall be producer milk.

Kraft, Inc., proposed that if total diversions exceed the allowance, then the diverting handler may designate the dairy farmers whose diverted milk will not be considered producer milk. If a handler fails to make such designation, the milk last diverted—in lots of an entire day's production—would be excluded first in determining which milk should not be producer milk.

Dairymen, Inc., supported the current order provisions. A spokesman for the cooperative pointed out that Kraft's proposal would not provide a procedure for identifying which milk would lose pool status when diversions by a cooperative from a pool plant of another handler would result in nonpool status for such plant. He also maintained that no marketing conditions exist or are expected to occur that would justify such a change.

The order should continue to provide the present method of determining which producers' milk should not be qualified as producer milk when a cooperative's diversions to nonpool plants would cause a plant to lose pool status. This procedure apparently has served the market well and should be retained. The same procedure should be adopted for determining which milk will not be producer milk in the case of any handler—proprietary or cooperative—that overdiverts milk to nonpool plants, i.e., the diverting handler should be responsible for specifying which dairy farmers' milk shall not be producer milk. The diverting handler is accountable to the pool for the producers' milk and therefore is in the best position to select the producer deliveries which should not be producer milk.

If the diverting handler fails to designate the dairy farmers' deliveries that are to be excluded as producer milk, no milk diverted by the handler to nonpool plants should be producer milk. This procedure is consistent with present provisions and would adequately provide a means for disqualifying milk when over-diversions occur. It represents a feasible alternative to the procedure that Kraft proposed.

3. *Conforming changes.* The current order does not provide for diversions between pool plants, and thus the classification and shrinkage provisions do not cover this type of milk movement. Since such diversions are provided in this decision, certain corollary changes in the classification and shrinkage provisions, as proposed by Kraft, are warranted and the order is appropriately revised to reflect these considerations.

Kraft proposed a conforming change in a paragraph dealing with the classification of transfers to producer-handlers and transfers and diversions to governmental agency plants (§ 1011.42(c)(1)). The order changes adopted in this decision would in no way change the application of that paragraph. For this reason, no change appears to be warranted.

The present order provides that a cooperative may qualify a balancing plant for pooling on the basis of shipments directly from the farm to pool distributing plants. This decision would also permit a supply plant to count such shipments for qualification purposes. Since a cooperative could operate both a balancing plant and a supply plant, it is necessary to provide that the same shipments not be used to qualify two plants of the cooperative for pooling. The changes in the balancing plant definition provided herein will assure this.

A change should be made in the definition of a handler with respect to a cooperative association as a handler for bulk tank milk delivered to pool plants of other handlers (§ 1011.9(c)). Since a cooperative may choose to utilize diversions to pool plants for qualifying a supply plant that it operates, the paragraph specified above is revised to exclude such milk. Also, the handler definition with respect to a cooperative association as a handler on milk diverted for its account to nonpool plants (§ 1011.9(b)) is revised to exclude milk that the cooperative diverts to a nonpool plant from a pool plant operated by the cooperative. These changes are necessary to make it clear that milk diverted to any other plant from a pool plant operated by the cooperative should be reported as a receipt and a disposition from the pool plant, and not on a report otherwise filed by the cooperative in any other capacity as a handler.

Rulings on Proposed Findings and Conclusions

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

GENERAL FINDINGS

The findings and determinations hereinafter set forth supplement those that were made when the order was first issued and when it was amended. The previous findings and determinations are hereby ratified and confirmed, except where they may conflict with those set forth below.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

RECOMMENDED MARKETING AGREEMENT AND ORDER AMENDING THE ORDER

The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as hereby proposed to be amended. The following order amending the order, as amended, regulating the handling of milk in the Tennessee Valley marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out:

1. In § 1011.7, paragraphs (b) and (d) are revised to read as follows:

§ 1011.7 **Pool plant.**

* * * * *

(b) A plant, other than a plant described in paragraph (a) of this section, from which not less than 50 percent of the total quantity of milk approved by a duly constituted regulatory agency for fluid consumption that is physically received from dairy farmers (except by diversion from other plants) and handlers described in § 1011.9(c) at such plant or diverted therefrom pursuant to § 1011.13 during the month is shipped from such plant as fluid milk products, except filled milk, to pool plants pursuant to paragraph (a) of this section. The operator of such a plant may include milk diverted pursuant to § 1011.13(c) from such plant to plants described in paragraph (a) of this section as qualifying shipments in meeting up to one-half of the shipping percentage specified in this paragraph.

* * * * *

(d) A plant located in the marketing area that is operated by a cooperative association if pool plant status under this paragraph is requested for such plant by the cooperative association and during the month 60 percent or more of the producer milk of members of such cooperative association, excluding such milk that is received at or diverted from pool plants described in paragraph (b) of this section but including milk delivered by such cooperative as a handler described in § 1011.9(c), is delivered directly from their farms to pool plants described in paragraph (a) of this section or is transferred to such plants as a bulk fluid milk product from the plant of the cooperative association, subject to the following conditions:

(1) The plant does not qualify as a pool plant under paragraph (a), (b) or (c) of this section or under the provisions of another Federal order applicable to a distributing plant or a supply plant; and

(2) The plant is approved by a duly constituted regulatory agency to handle milk for fluid consumption.

* * * * *

2. In § 1011.9, paragraphs (b) and (c) are revised to read as follows:

§ 1011.9 **Handler.**

* * * * *

(b) A cooperative association with respect to milk of producers diverted to nonpool plants for the account of such association pursuant to § 1011.13, excluding the milk of producers diverted by the association as a handler pursuant to paragraph (a) of this section;

(c) Any cooperative association with respect to milk, excluding the milk of producers diverted to pool plants by the association as a handler pursuant to paragraph (a) of this section, that it receives for its account from the farm of a producer for delivery to a pool plant of another handler, in a tank truck owned and operated by, or under the control of, such cooperative association, unless both the cooperative association and the operator of the pool plant notify the market administrator prior to the time that such milk is delivered to the pool plant that the plant operator will be the handler of such milk and will purchase such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples. Milk for which the cooperative association is the handler pursuant to this paragraph shall be deemed to have been received by the cooperative association at the location of the pool plant to which such milk is delivered;

* * * * *

3. Section 1011.13 is revised to read as follows:

§ 1011.13 **Producer milk.**

"Producer milk" means the skim milk and butterfat contained in milk of a producer that is:

(a) Received at a pool plant directly from such producer by the operator of the plant, excluding such milk that is diverted from another pool plant;

(b) Received by a handler described in § 1011.9(c); or

(c) Diverted from a pool plant for the account of the handler operating such plant to another pool plant or diverted from a pool plant to a nonpool plant (other than a producer-handler plant) for the account of the handler operating such pool plant or for the account of a handler described in § 1011.9(b), subject to the following conditions:

(1) A producer's milk may be diverted to another pool plant without limit in any month, and may be diverted to a nonpool plant without limit during any month of April through July;

(2) In any month of August through March, a producer's milk shall not be eligible for diversion to a nonpool plant unless at least two days' production from such producer is physically received at a pool plant during the month;

(3) In any month of August through March, the total quantity of milk diverted to nonpool plants during the month by a cooperative association shall not exceed one-third of the producer milk that the cooperative association caused to be delivered to, and is physically received at, pool plants during the month;

(4) The operator of a pool plant that is not a cooperative association may divert any milk that is not under the control of a cooperative association that diverts milk during the month pursuant to paragraph (c)(3) of this section. In any month of August through March, the total quantity of milk so diverted to nonpool plants shall not exceed one-third of the milk that is physically received at pool plants as producer milk for which the plant operator is the handler;

(5) Any milk diverted to nonpool plants in excess of the limits prescribed in paragraph (c) (3) and (4) of this section shall not be producer milk. The diverting handler shall designate the dairy farmer deliveries that will not be producer milk pursuant to paragraph (c) (3) or (4) of this section. If the handler fails to make such designation, no milk diverted by such handler to a nonpool plant shall be producer milk;

(6) To the extent that it would result in nonpool status for the pool plant from which diverted, milk diverted for the account of a cooperative association to nonpool plants from the pool plant of another handler shall not be producer milk;

(7) The cooperative association shall designate the dairy farmer deliveries that are not producer milk pursuant to paragraph (c)(6) of this section. If the cooperative association fails to make such designation, no milk diverted by it to a nonpool plant shall be producer milk; and

(8) Diverted milk shall be priced at the location of the plant to which diverted.

4. In § 1011.41, paragraph (b)(2) is revised to read as follows:

§ 1011.41 **Shrinkage.**

* * * * *

(b) * * *

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk received from a handler described in § 1011.9(c) and in milk diverted to such plant from another pool plant, except that in either case, if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be two percent;

* * * * *

5. In § 1011.42, paragraph (a) is revised to read as follows:

§ 1011.42 **Classification of transfers and diversions.**

(a) *Transfers and diversions to pool plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant shall be classified as Class I milk unless the operators of both plants request the same classification in another class. In either case, the classification of such transfers or diversions shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant or divertee-plant after the computations pursuant to § 1011.44(a)(12) and the corresponding step of § 1011.44(b).

(2) If the transferor-plant or divertor-plant received during the month other source milk to be allocated pursuant to § 1011.44(a)(7) or the corresponding step of § 1011.44(b), the skim milk or butterfat so transferred or diverted shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor-handler or divertor-handler received during the month other source milk to be allocated pursuant to § 1011.44(a)(11) or (12) or the corresponding steps of § 1011.44(b) the skim milk or butterfat so transferred or diverted, up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant or divertee-plant.

* * * * *

(This recommended decision constitutes the Department's Draft Impact Analysis Statement for this proceeding.)

Signed at Washington, D.C., on January 18, 1979.

JAMES E. SPRINGFIELD,
Acting Deputy Administrator,
Marketing Program Operations.

CIVIL AERONAUTICS BOARD

[14 CFR Part 300]

[PDR-60, Docket 34512, Dated January 18, 1979]

RULES OF CONDUCT IN BOARD PROCEEDINGS

AGENCY: Civil Aeronautics Board.

ACTION: Notice of Proposed Rulemaking.

SUMMARY: The Board, on its own initiative, is inviting public comment on an amendment to the Board's *ex parte* rules, which appears in this issue of the FEDERAL REGISTER. The amendment permits Board employees in nonhearing cases to consult with other federal agencies and in certain small community air service cases to consult with interested persons. A written summary of any such communication will have to be placed in the docket for the case. In addition, the amendment would conform the definition of the class of communications barred by the rule to match the definition given in the Administrative Procedure Act of proscribed *ex parte* communications.

DATES: Comments by February 23, 1979. Comments and other relevant information received after this date will be considered by the Board only to the extent practicable.

ADDRESSES: Twenty copies of comments should be sent to Docket 34512, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428. Individuals may submit their views as consumers without filing multiple copies. Comments may be examined in Room 711, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C., as soon as they are received.

FOR FURTHER INFORMATION CONTACT:

Thomas L. Ray, Office of the General Counsel, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C., 20428, 202-673-5424.

(Sections 204 and 1001 of the Federal Aviation Act of 1958 as amended, 72 Stat. 743, 788, 49 U.S.C. 1324, 1481).

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

DEPARTMENT OF COMMERCE

National Bureau of Standards

[15 CFR Parts 200, 275]

APPEARANCE OF NBS EMPLOYEES AS WITNESSES IN PRIVATE LITIGATION

Proposed Policies and Procedures

AGENCY: National Bureau of Standards, Department of Commerce.

ACTION: Proposed rulemaking.

SUMMARY: These proposed rules would prescribe NBS policy governing the appearance of NBS employees as witnesses in private litigation. The

V 4 / 16 JA 23 79 UMI

rules would establish the general principle against the appearance of NBS employees in such litigation, and would prescribe procedures to be followed by private litigants in seeking appearances by NBS employees and procedures for considering and responding to requests or orders for their appearance. The purpose of these rules is to maintain NBS' neutrality among private litigants and to ensure that NBS employees adhere to the performance of their official duties.

DATE: Comments must be received on or before March 9, 1979.

ADDRESS: Send comments to Allen J. Farrar, Office of the Legal Adviser, National Bureau of Standards, Washington, D.C. 20234.

FOR FURTHER INFORMATION CONTACT:

Allen J. Farrar, Office of the Legal Adviser, National Bureau of Standards, Washington, D.C. 20234, telephone 301-921-2425.

SUPPLEMENTARY INFORMATION: This proposed rulemaking would amend title 15 of the Code of Federal Regulations by adding a new Subchapter H and a new Part 275 prescribing policies and procedures governing the appearance of NBS employees as witnesses in private litigation, and by making a conforming amendment to Part 200.

While these rules relate to agency personnel practices and, as such, are not subject to the notice-and-comment requirements of the Administrative Procedure Act or the procedures of Executive Order 12044, the impact of these rules on persons outside NBS is recognized. Accordingly, interested persons are invited to participate in the proposed rulemaking by submitting comments in accordance with the foregoing information.

Dated: January 17, 1979.

ERNEST AMBLER,
Director.

The following proposals are under consideration:

PART 200—POLICIES, SERVICES, PROCEDURES AND FEES

1. Amending 15 CFR Part 200 by revising paragraph (a) of § 200.104 to read as follows:

§ 200.104 Consulting and advisory services.

(a) In areas of its special competence, the National Bureau of Standards offers consulting and advisory services on various problems related to measurement, e.g., details of design and construction, operational aspects, unusual or extreme conditions, methods of statistical control of the measurement process, automated acquisition of laboratory data, and data reduction and analysis by computer. Brief consultation may be obtained at no charge; the fee for extended effort will be based upon actual costs incurred. The services outlined in this paragraph do not include services in connection with legal proceedings not involving the United States as a named party, nor to testimony or the production of data, information or records in such legal proceedings, which is governed by the policies and procedures set forth in Part 275 of this title.

• • • • •

2. Amending Chapter II of 15 CFR by adding a new Subchapter H and a new Part 275, reading as follows:

SUBCHAPTER H—REGULATIONS GOVERNING APPEARANCE OF NBS EMPLOYEES IN PRIVATE LITIGATION

PART 275—POLICIES AND PROCEDURES GOVERNING THE APPEARANCE OF NBS EMPLOYEES AS WITNESSES IN PRIVATE LITIGATION

Sec.
275.1 Purpose and policy.
275.2 Testimony or production of records by NBS employees in legal proceedings not involving the United States as a named party.
275.3 Certification of records.
275.4 Request or order for testimony or production of records.
275.5 Response to request or order for testimony or production of records.

AUTHORITY: The provisions of this Part 275 issued under sec. 9, 31 Stat. 1450, as amended; 15 U.S.C. 277.

§ 275.1 Purpose and policy.

(a) This part prescribes the policies and procedures of the National Bureau of Standards (NBS) with respect to testimony by NBS employees and production of data, information and records, in legal proceedings not involving the United States as a named party.

(b) NBS is the Federal agency responsible for the custody, maintenance, and development of the national standards of measurement, and the impartial development and application of measurement technologies upon which the flow of interstate and foreign commerce must necessarily depend (15 U.S.C. 272).

(c) To carry out its statutory mission effectively, NBS must apply the expertise of the many scientific and technical experts it employs exclusively to the performance of its official duties, including providing scientific and technical advisory services to other Federal agencies. It is essential that NBS also maintain a policy of strict impartiality among private litigants, and that it ensure that its employees adhere to the responsibilities for which they were employed. To these ends, it is the policy of NBS that its employees shall not testify nor otherwise appear in legal proceedings not involving the United States or its officers or employees in their official capacity as a named party in order to produce data, information, or records which concern matters related to official duties of NBS employees or the functions of NBS.

(d) For purposes of this part, "legal proceeding" includes any civil or criminal proceeding before a court of law, administrative board or commission, hearing officer, or other body conducting a legal or administrative proceeding, or any discovery proceeding in support thereof, including depositions and interrogatories.

§ 275.2 Testimony or production of records by NBS employees in legal proceedings not involving the United States as a named party.

No NBS employee shall give testimony in any legal proceeding in which the United States Government or an agency or department in the Executive Branch is not a named party, concerning official duties of an NBS employee or any function of NBS, nor produce any data, information, or record created or acquired by NBS as a result of the discharge of its official duties, without the prior written authorization of the NBS Legal Adviser.

§ 275.3 Certification of records.

Certified copies of NBS records will be provided upon request and payment of the applicable fees. Requests for certification should be addressed to the NBS Legal Adviser, National Bureau of Standards, Washington, D.C. 20234. The applicable fees include charges for certification and reproduction, the amounts of which are set out in § 4.9(a) (3) and (5) of title 15 of the Code of Federal Regulations. Other reproduction costs and postage fees, as appropriate, will also be borne by the requester.

§ 275.4 Request or order for testimony or production of records.

(a) A request or order for testimony of, or the production of data, information, or records by, an NBS employee in a legal proceeding not involving the United States as a named party shall be addressed to the NBS Legal Adviser, National Bureau of Standards, Washington, D.C. 20234. A request or order for testimony shall be accompanied by an affidavit or, if that is not feasible, a statement setting forth the title of the case, the forum, the party's interest in the case, a recitation of the reasons for desiring and the intended use of the testimony, a general summary of the testimony desired, and a showing that (1) the desired testimony is not reasonably available from other sources (including an explanation of such circumstances), and (2) no NBS record in certified form provided under § 275.3 could be introduced in evidence in lieu of the testimony or other appearance requested.

(b) Any employee of NBS who is served with a supoena or other order for or who receives a request for, testimony or the production of data, information, or records shall immediately report the service or request to the NBS Legal Adviser.

§ 275.5 Response to request or order for testimony or production of records.

(a) Except for the production of payroll, leave, or similar administrative records that may be involved in legal proceedings involving an employee of NBS in other than that employee's official capacity, testimony or the production of data, information, or records in a legal proceeding not involving the United States shall be authorized only as a rare exception. Such exception shall be based only upon a determination by the NBS Legal Adviser that NBS has a significant interest in the legal proceeding and that the outcome may affect the implementation of present policies, or where other circumstances or conditions (including the showing required in paragraph (a) of § 275.4) make it necessary to provide the data, information, or records in the public interest.

(b) When an NBS employee receives a request or order for testimony or the production of data, information, or records, the NBS Legal Adviser shall determine whether such request or order is legally binding on the employee and whether compliance with such request or order is authorized. Upon making such determination, the NBS Legal Adviser shall accordingly instruct the employee who received such request or order.

(c) Unless otherwise expressly authorized by the NBS Legal Adviser, an employee who is requested or ordered to testify or produce data, information, or records in a legal proceeding not involving the United States as a named party shall respectfully decline to comply on the ground of the prohibition against compliance contained in this part. If a subpoena or other order is involved, the employee shall decline by appearing at the time and place specified (unless the NBS Legal Adviser determines, in consultation with the party seeking the testimony or other appearance, or the authority conducting the legal proceeding, as appropriate, that a written submission will be sufficient), accompanied by a representative of the Office of the NBS Legal Adviser, the United States Attorney's office, or the Department of Justice, as appropriate, and explaining to the authority conducting the legal proceeding that this part prohibits the employee from complying.

(d) If an employee who follows the procedure in paragraph (c) of this section is ordered to show cause why he or she should not be cited for contempt, the NBS Legal Adviser shall request the Department of Justice to represent the employee.

(e) If the NBS Legal Adviser authorizes the testimony of an NBS employee, the Legal Adviser may arrange for the taking of the testimony by methods that are less disruptive of official activities of the employee than providing testimony in court or at a hearing. Testimony may, for example, be provided by affidavits, answers to interrogatories, written depositions, or depositions transcribed, recorded, or preserved by any other method allowable by law. Costs of providing testimony, including transcripts, will be borne by the party requesting the testimony.

Industry and Trade Administration

[15 CFR Parts 370, 371, 385, 390, and 399]

EMBARGO OF UGANDA

Extension of Date for Commenting on Proposed Implementation Rules

AGENCY: Industry and Trade Administration, Department of Commerce.

ACTION: Extension of comment period.

SUMMARY: On December 15, 1978 (43 FR 58571), the Department issued proposed regulations to implement the embargo on export trade with Uganda contained in Public Law 95-435 (which added section 4(m) to the Export Administration Act of 1969, as amended) and invited comments to be submitted through January 15, 1978. Because of the significant issues addressed in the proposed regulations, the Department is amending its former deadline to permit submission of comments through February 5, 1979. Comments are especially invited on the proposed definition of "person subject to the jurisdiction of the United States," both in the context of the Uganda embargo contained in section 4(m) of the Export Administration Act, as well as the general discretionary export control authority contained in section 4(b)(1) of that Act.

DATE: Comments must be received on or before February 5, 1979.

ADDRESSES: Written comments (six copies when possible) should be sent to Stanley J. Marcuss, Deputy Assistant Secretary, for Trade Regulation, U.S. Department of Commerce, Post Office Box 7138, Ben Franklin Station, Washington, D.C. 20044.

FOR FURTHER INFORMATION CONTACT:

Oral communications or requests for further information should be directed to: Seymour Goodman, Office of Export Administration, U.S. Department of Commerce, Washington, D.C. 20230, 202-377-4351.

NOTE.—Written public comments which are accompanied by a request that part or all of the material be treated confidentially because of its business proprietary nature or for any other reason will not be accepted. Such comments and materials will be returned to the submitter and will not be considered in the development of the regulations.

All public comments to be considered in the development of these regulations will be a matter of public record and will be available for public inspection and copying in accordance with regulations published in Part 4 of Title 15 of the Code of Federal Regulations. This procedure shall not, however, apply to communications from agencies of the United States or foreign governments.

(Sec. 4 Pub. L. 91-184, 83 Stat. 842 (50 U.S.C. App. 2403), as amended; sec. 5(d), Pub. L. 95-435, 92 Stat. 1501; E. O. 12002, 42 FR 35623 (1977); Department Organization Order 10-3, dated December 4, 1977, 42 FR 64721 (1977); and Industry and Trade Administration Organization and Function Order 45-1, dated December 4, 1977, 42 FR 64716 (1977).)

STANLEY J. MARCUSS,
Deputy Assistant Secretary for Trade Regulation.

SECURITIES AND EXCHANGE COMMISSION

[10 CFR Part 240]

[Release No. 34-15503; File No. S7-769]

OPTIONS TRADING BY USE OF THE FACILITIES OF A NATIONAL SECURITIES EXCHANGE

Notice of Proposed Rules

AGENCY: Securities and Exchange Commission.

ACTION: Proposed rulemaking.

SUMMARY: The Commission is publishing for comment two rule proposals which, if each is adopted, would: (1) Prohibit trading rotations in exchange-traded options from being conducted in a manner which the Commission believes may be unfair to the public, and (2) prohibit exchange options trading past a specified hour. The second rule proposal includes two alternative proposals addressing the

V 4 / 16 JA 23 79 UMI

Commission's concerns about closing hours for options exchanges. These rules are being proposed, in part, to prevent unfair discrimination against public options orders during trading rotations and to promote fair and orderly markets in both exchange-traded options and their underlying securities.

DATE: Comments must be received on or before February 21, 1979.

ADDRESS: All comments should refer to File No. S7-769 and should be sent in triplicate to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Washington, D.C. 20549. All submissions will be made available for public inspection at the Commission's Public Reference Room, Room 6101, 1100 L Street, N.W., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Beverly Jones or Janet Zimmer, Division of Market Regulation, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549, (202) 755-7527 or 755-7718.

SUPPLEMENTARY INFORMATION: This release invites public comment concerning the following rules proposed under the Securities Exchange Act of 1934 (the "Exchange Act") [15 U.S.C. 78a et seq., as amended by Pub. L. 94-29 (June 4, 1975)]: (1) proposed Exchange Act Rule 9b-3 [17 CFR 240.9b-3] which, if adopted, would prohibit any national securities exchange from conducting or employing any trading rotation in an option class if, during the rotation, new options orders could not be placed on the limit order book or existing limit orders could not be cancelled, adjusted or replaced; and (2) two alternative rule proposals concerning options exchange closing hours as follows: (i) proposed Exchange Act Rule 9b-4(A) [17 CFR 240.9b-4(A)] which, if adopted, would prohibit exchange trading in options past 4 p.m. New York time; or (ii) proposed Exchange Act Rule 9b-4(B) [17 CFR 240.9b-4(B)] which, if adopted, would prohibit exchange trading in options past 4:10 p.m. New York time.

On October 18, 1978, the Commission invited comment on several related issues concerning daily options closing procedures and trading hours of the five national securities exchanges which list and trade standardized options (the "options exchanges").[1] The Commission also announced the experimental implementation of uniform daily closing procedures and uniform closing times among the options exchanges.

The Commission approved this experimental program, in part, because of its concern about the manner in which daily closing rotations in non-expiring options[2] were conducted by some of the options exchanges. The Commission was also concerned about the problems created by the disparity in options exchange trading hours resulting from the use of closing rotations by some of those exchanges after the close of regular options trading. Since use of daily after-hours closing rotations could be resumed after the uniform closing trial period, the Commission announced that, during that four-month period, it might initiate steps to eliminate closing rotations through the exercise of its broad rule-making authority under the Exchange Act (particularly Section 9 thereof, 15 U.S.C. 78i) to mandate a uniform closing time and/or uniform closing procedures for all options exchanges.

Although proposed Rules 9b-4(A) and 9b-4(B) contained herein would, in effect, establish uniform closing hours for the options exchanges, none of the rule proposals would prohibit the use of closing rotations. Instead, the proposed rules would only prohibit the exchanges from conducting closing rotations or any other trading rotations in options in a manner which the Commission believes may be inimical to the public interest or otherwise inconsistent with the protection of investors.

These rules are being proposed pursuant to the Exchange Act and particularly Sections 2, 6(b), 9(b), 10(b), 11A, 15(c), and 23(a) thereof.[3]

Background and Purpose

A trading rotation is a procedure by which bids and offers are made and orders are executed in one option series at a time. During a rotation, the board broker (CBOE), order book official (MSE, CBOE and PSE), or specialist (Amex and Phlx) calls for bids and offers from the trading crowd for each options series in his assigned classes, one series at a time. Once a market is established in that series, any orders on the limit order book (the "book")[4] at that price are executed, either by crossing the book orders or by trading with market participants on the floor. Until the rotation of a class is completed, usually only one options series at a time in that class is traded.

All of the exchanges currently conduct rotations to open options trading each day promptly after trading in the underlying security begins (hereinafter referred to as "opening rotations"). The exchanges conduct similar opening rotations to re-open trading in a particular options class after a trading halt or suspension of trading. Under unusual circumstances, generally involving a large influx of orders, the exchanges occasionally employ additional trading rotations in one or more options classes. In addition, commencing one hour before the close of regular options trading, all of the exchanges except for the Phlx conduct closing rotations in expiring options[5] series on the third Friday of each month, the day preceding the expiration date of the options (hereinafter referred to as "expiration Friday closing rotations"). Finally, prior to the uniform closing hour experiment, the CBOE, MSE and PSE conducted daily closing rotations after the close of regular options trading at 4:00 p.m. New York time.[6]

[1] See Securities Exchange Act Release No. 15241 (October 18, 1978), 43 FR 49867 (October 25, 1978). The options exchanges are the American Stock Exchange, Inc. ("Amex"); Chicago Board Options Exchange, Incorporated ("CBOE"); Midwest Stock Exchange, Incorporated ("MSE"); Philadelphia Stock Exchange, Inc. ("Phlx"); and the Pacific Stock Exchange Incorporated ("PSE"). *See* File Nos. SR-Amex-78-22, SR-CBOE-78-30, SR-MSE-78-26, SR-PSE-78-17 and SR-Phlx-78-18.

[2] A closing rotation is a procedure by which a board broker (CBOE) or order book official (MSE, CBOE and PSE) calls for bids and offers from the crowd for each option series in his or her assigned classes, one series at a time, after the close of regular options trading. (The CBOE will initiate the use of order book officials in the near future. *See* Securities Exchange Act Release No. 15490, (January 11, 1979)) A "daily closing rotation" is a closing rotation conducted on a daily basis in non-expiring options (all options contracts which do not expire the following day).

[3] 15 U.S.C. 78b, 78f(b), 78i(b), 78j(b), 78k-1, 78o(c) and 78w(a).

[4] A "limit order book" contains all limited price orders entrusted for execution to the board broker (CBOE), order book official (MSE, CBOE and PSE), or specialist (Amex and Phlx). This procedure enables on-floor market participants to place on the book public or principal limit orders which are away from the market for execution at a later time. Some of the exchanges permit only public orders to be placed on the book, while others also permit orders of securities professionals on the book.

[5] Expiring options consist of all options contracts expiring the following day.

[6] The rules of CBOE, MSE and PSE state that closing rotations shall commence at the close of trading hours (CBOE Rule 6.2.01(b); MSE Article XLII, Rule 1.01(b); and PSE Rule VI, Section 36). These rules have been suspended during the trial period. Daily closing rotations generally last for only a few minutes; in some instances, however, they have lasted for as long as 40 minutes after the close of regular options trading.

Amex and Phlx also filed, pursuant to Section 19(b)(1) of the Exchange Act [15 U.S.C. 78s(b)(1)], and Rule 19b-4 thereunder [17 CFR 240.19b-4], rule proposals (SR-Amex-78-6 and SR-Phlx-78-6) to adopt daily closing rotation procedures. Phlx has withdrawn its proposal pending the outcome of the extended trading hours experiment. Notice of SR—Amex-78-6 was given by publication of a Commission release (Securities Exchange Act Release No. 14550

Footnotes continued on next page

During each of the above trading rotations, some of the exchanges have not permitted new options orders to be placed on the book or existing book orders to be cancelled, adjusted or replaced. Exchange members on the trading floor, however, have been permitted to trade against customer orders already on the book. The Commission is concerned that this practice may not be in the public interest or consistent with the protection of investors.[7]

The Commission also is concerned about the problems created by the disparity in options exchange trading hours resulting from the use of after-hours closing rotations by some of the exchanges and not by others. Prior to the uniform closing hours experiment, the Amex and Phlx did not conduct daily closing rotations, but instead ceased all options trading at 4:00 p.m. New York time. In contrast, options trading on the CBOE, PSE and MSE continued throughout the closing rotations conducted by these exchanges after 4:00 p.m. The Commission is concerned that this situation might not be consistent with the maintenance of fair and orderly markets in exchange-listed options or in the securities underlying such options.[8]

On October 18, 1978, as an interim solution to some of these concerns, the Commission published notice of filing and announced the approval of rule proposals by the five options exchanges to extend, on an experimental basis, the regular trading hours for non-expiring options by ten minutes until 4:10 p.m. (E.S.T.) and also to suspend the use of daily closing rotations.[9] The four-month trial period for this experiment started on October 23, 1978 and will terminate on February 28, 1979.

In addition, the Commission announced that, during the trial period, it intended to explore the issues underlying its concerns in order to determine what closing procedures on options exchanges would best serve the public interest and ensure the maintenance of fair and orderly markets. The Commission, therefore, invited comment upon certain issues relating to options closing procedures.[10] The Commission again invites comment on these issues.

The Commission today also invites public comment upon proposed Exchange Act Rules 9b-3, 9b-4(A) and 9b-4(B). The proposed rules are intended to promote a uniform closing time for exchange options trading [11] and to eliminate certain discriminatory practices which seem to occur during daily closing rotations and other trading rotations conducted on options exchanges. After the termination of the uniform closing hours experiment, therefore, options exchanges would be permitted to resume the use of daily closing rotations on a basis which the Commission believes would further the purposes of the Exchange Act.

Discussion of the Proposed Rules

A. Proposed Exchange Act Rule 9b-3

Proposed Exchange Act Rule 9b-3 would prohibit an exchange from conducting or permitting to be conducted any trading rotation in options if, during such rotation, new orders could not be placed on the limit order book or existing book orders could not be cancelled, replaced or adjusted. During the rotation, however, an exchange would be permitted to preclude the entry of new book orders, or the cancellation or replacement of existing book orders, in any options series for which bids and offers had already been called in the rotation or which was in the process of being traded in the rotation.

The rule is designed to prevent options exchanges from conducting trading rotations in a manner which the Commission believes is unfair and discriminatory to the public. As discussed above, some of the options exchanges do not permit outstanding customer orders on the book at the commencement of a trading rotation to be replaced, cancelled or adjusted during the rotation;[12] at the same time, exchange members on the floor participating in the rotation may trade against those orders.[13] The Commission believes that customers whose orders are "locked" into the book under these circumstances may be unfairly disadvantaged.

During closing rotations, for instance, exchange members on the floor could adjust their options orders after the close to reflect their assessment of last sale information in the underlying securities and of corporate or other news announced between 4:00 p.m. New York time and completion of the closing rotation. Customers, however, could not similarly change their orders on the book in response to this information. Therefore, professionals on the floor could trade against those customer orders under circumstances especially favorable to the professionals.

In addition, opening rotations, rotations during unusual circumstances, and expiration Friday closing rotations are conducted while the markets in the underlying securities are open. Thus, customer orders on the book during such rotations are exposed to the risk of execution at a time when the market may move against the customer.

During trading rotations, some exchanges also preclude new options orders from being placed on the book. A customer can participate to a limited extent in a trading rotation in options by submitting an order to be placed on the book prior to the rotation or by submitting a new order to be represented in the trading crowd during the rotation.[14] The Commission does not believe, however, that the present means by which customers may participate in trading rotations mitigate the basic unfairness of permitting exchange members on the floor to adjust their orders and to trade against public orders "locked" into the book during trading rotations.

Footnotes continued from last page
(March 10, 1978)) and by a statement of the terms of substance in the Federal Register (43 FR 11625 (March 20, 1978)). Notice of SR-Phlx-78-6 was given by publication of a Commission release (Securities Exchange Act Release No. 14789 (May 22, 1978)) and by a statement of the terms of substance in the Federal Register (43 FR 23067 (May 30, 1978)). No comments were received on either rule filing.

[7] *See* discussion of proposed Rule 9b-3, *infra*.

[8] *See* discussion of proposed Rules 9b-4(A) and 9b-4(B), *infra*.

[9] *See* Exchange Act Release No. 15241.

[10] These issues are as follows:

(1) Whether daily closing rotations as conducted on the CBOE, MSE and PSE were in the public interest and consistent with the protection of investors;

(2) Whether there is a legitimate public interest to be served by permanently extending options trading hours beyond the close of the principal exchange markets in the underlying securities (4:00 p.m. (E.S.T.)); and

(3) Whether the purposes of the [Exchange] Act, and in particular the goal of maintaining fair and orderly markets in options and their underlying securities, would best be served by a uniform 4:00 p.m. (E.S.T.) close of options trading.

See Exchange Act Release No. 15241. No comments have been recieved on these issues.

[11] While the proposed rules would not prevent the options exchanges from establishing closing hours earlier than those provided by the rules, it is likely that the business interests of the exchanges would encourage them to uniformly adopt the specified closing hour.

[12] This practice is a matter of exchange policy and is not contained in the rules of the options exchanges; except that, the rules of the CBOE, MSE and PSE provide a cut-off time for entry of orders onto the book prior to an opening rotation. Rule 7.4.02, CBOE Guide (CCH) ¶2224; Art. XLV, Rule 2.02, MSE Guide (CCH) ¶2082; Rule VI, Sec. 66(b) .02, PSE Guide (CCH) ¶4265.

[13] Such persons may be trading as principal or as an agent for a customer.

[14] Some of the exchanges permit customers to participate in opening and closing rotations through means of opening rotation orders or market-on-close orders. An "opening rotation order" is a market order which is to be executed in whole or in part during the opening rotation of an options series or not at all. *See* e.g., Rule 6.53 (K), CBOE Guide (CCH) ¶2183. A market-on-close order is a market or limit order which is to be executed as close as possible to the closing bell or during the closing rotation. *See* e.g., Rule 6.53(c)(ii), CBOE Guide (CCH) ¶2183.

V 4 / 16 J A 23 79 UMI

The Commission recognizes that there may be overriding practical considerations which require the establishment of a cut-off time for the entry of new orders on the book or for the cancellation or adjustment of existing book orders. The exchanges which do maintain such a cut-off time before a trading rotation argue that this procedure is necessary in order to process and accommodate options orders in a fair and orderly manner. They assert that it is difficult for the book official to determine accurately a market in a particular options series if new orders are continuously coming in or if existing orders are rapidly being cancelled or replaced. The Commission, therefore, invites comment as to what practical problems proposed Rule 9b-3, if adopted, would create. In particular, the Commission is interested in whether there are special circumstances which would necessitate distinguishing between the entry of new orders and the cancellation, adjustment or replacement of existing book orders during trading rotations.

B. PROPOSED RULES 9b-4(A) AND 9b-4(B)

As noted previously, the Commission approved the experimental extension of trading hours, in part, because of its concern that the disparity in daily closing hours which existed among the options exchanges might not be consistent with the maintenance of fair and orderly markets in exchange listed options or in the underlying securities

The Commission believes that uniformity in closing hours might help lessen closing price disparities in options dually traded on exchanges with different trading hours. Price disparities could result, for example, if significant news developments were announced after the close of trading on one exchange but before the close on the other. Uniform closing times also might prevent confusion with respect to trading hours by providing investors and members of the securities industry with a definite cut-off time for all options trading.

A closing hour of 4:10 p.m. New York time was selected for the extended trading hours experiment because some of the options exchanges maintained that, in view of the derivative nature of exchange-traded options, it was desirable to trade options beyond the close of the principal markets in the underlying stocks. This, they asserted, would permit options market participants to adjust their options positions to accurately reflect closing sale prices in the underlying stock.[15] The Commission was concerned, however, that, after the close of trading in the underlying securities, options could lose their derivative character if options trading continued after the close of the primary markets for the underlying securities.[16]

Accordingly, in its order approving the extended trading hours experiment, the Commission invited comment on whether there is any public interest to be served by permitting options trading to continue beyond the close of the primary exchange markets in the underlying securities, or whether the purposes of the Exchange Act would best be served by a uniform 4:00 p.m. (E.S.T.) closing of options trading.[17] The Commission again invites comment on these issues.

Proposed Securities Exchange Act Rules 9b-4(A) and 9b-4(B) present alternative methods of adressing the above concerns about options, closing hours. Although either proposed rule, if adopted, would promote a uniform closing hour for options trading, one rule would permit options trading after the close of trading on the primary markets for the underlying security while the other rule would not.

Various arguments have been raised in support of each approach taken by these rules. The Commission has not determined which of these approaches, if either, would best serve the purposes of the Exchange Act and, therefore, invites public comment not only on both rule proposals but also on whether, in lieu of a Commission rule, each of the exchanges should be permitted to determine independently their own closing hours.

Proposed Exchange Act Rule 9b-4(A) would require that no options trading take place through the facilities of a national securities exchange after 4:00 p.m. New York time, the time trading closes on the principal exchanges on which securities underlying options are traded.

A 4:00 p.m. closing hour for options trading might minimize the advantages which exchange members on the floor have over customers. To a degree, the exchange member on the floor always has an inherent advantage over the public customer because he can react to price information or other significant news almost immediately and adjust his positions in response to such information. this advantage might be accentuated to an unacceptable degree if professionals on exchange floors are permitted to trade in options with certainty as to the closing prices in underlying stocks while members of the public cannot. This would seem to be particularly true when customers with existing limit orders on the book cannot cancel or adjust those orders in response to closing stock prices.

A closing time of 4:00 p.m. New York time for options trading would result, in most cases, in the termination of options trading prior to the reporting of closing prices in the underlying stocks. this would appear to minimize the floor members' advantage over customers with regard to last sale price information. The Commission solicits comments on the merits of this approach in reducing the advantage which floor professionals have over customers at the close of options trading.

Proposed Rule 9b-4(B) would require that no options trading take place through the facilities of a national securities exchange after 4:10 p.m. New York time. Like proposed rule 9b-4(A), this rule would provide a uniform closing time for exchange trading in options. Unlike proposed rule 9b-4(A), however, this rule would permit options market participants to adjust their options positions in response to last sale price information in the primary market for the underlying securities. Since public investors may not be able to use the final ten minutes of trading to adjust their options positions in response to last sale information, however, this approach may not be appropriate in light of the purposes of the Exchange Act.

The Commission, therefore, wishes to receive comment on whether it is necessary or appropriate to the goals of the Exchange Act to provide a trading period for the adjustment of options positions in response to closing stock prices, notwithstanding the possible accentuation of the advantages floor professionals have over the public.

TEXT OF THE PROPOSED RULES

The text of proposed Exchange Act Rules 9b-3, 9b-4(A) and 9b-4(B) is set forth below.

17 CFR Part 240 is proposed to be amended by adding new §§ 240.9b-3 and 240.9b-4 to read as follows:

OPTIONS TRADING ON EXCHANGES

§ 240.9b-3 Options trading rotations.

It shall be unlawful for any national securities exchange to conduct or permit to be conducted any trading rotation in any class of options if, during the rotation, new limit orders in an options series in that class, and for which bids and offers in such series have not yet been called, are precluded by rule, policy or practice from being entrusted for execution to the exchange board broker, order book official, specialist, or any other person designated by the exchange to be responsible for the limit order book; or if orders in such options series which have previously been entrusted to such persons for execution are similarly precluded from being cancelled, adjusted or replaced. For the purposes of this rule, a "trading rotation" shall mean any procedures by which bids, offers and transactions in options contracts of the same class are permitted to occur in only one options series at a time.

§ 240.9b-4(A) Options Trading Hours

No options trading shall take place through the facilities of a national securities exchange after 4:00 p.m. New York time.

§ 240.9b-4(B) Options trading hours.

No options trading shall take place through the facilities of a national securities exchange after 4:10 p.m., New York time.

(Secs. 6(b), 11A, 15(c) and 23(a), 89 Stat. 104-105, 111, 125-126, 156 (15 U.S.C. 78f(b), 78k-1, 78o(c), 78w(a)); Secs. 2, 9(b), 10(b), 48 Stat. 881, 889, 891 (15 U.S.C. 78b, 78i(b), 78j(b).)

STATUTORY AUTHORITY FOR PROPOSED RULES

Rules 9b-3, 9b-4(A) and 9b-4(B) are being proposed by the Commission pursuant to the Exchange Act, particularly Sections 2, 6(b), 9(b), 10(b), 11A, 15(c) and 23(a) thereof.

SPECIFIC INQUIRIES

Pursuant to Section 23(a) of the Exchange Act, the Commission has considered the effect that the proposals would have on competition and is not aware, at this time, of any burdens that the proposals, if adopted, would impose on competition not necessary or appropriate in furtherance of the purposes of that Act. However, the Commission specifically invites comment as to the anti-competitive effects, if any, that the proposals would likely engender.

In addition, the Commission specifically invites comment on the following issues:

(1) Whether options trading rotations are in the public interest and consistent with the maintenance of fair and orderly markets or whether they should be prohibited as inconsistent with these goals of the Exchange Act;

(2) Whether, for the purposes of the above determination or of proposed Exchange Act Rule 9b-3, there are special circumstances which necessitate distinguishing among opening rotations, daily closing rotations, expiration Friday closing rotations, and rotations conducted during unusual market conditions;

(3) Whether proposed Rule 9b-3 should differentiate between the entry of new options orders and the cancellation, adjustment or replacement of existing options orders on the limit order book;

(4) Whether permanently extending options trading hours beyond 4:00 p.m. New York time is in the public interest and consistent with the maintenance of fair and orderly markets; and, if so, whether these goals are better served by establishing a uniform closing hour among the options exchanges or by permitting each exchange to determine independently its own trading hours; and

(5) Whether, if a uniform closing hour after 4:00 p.m. New York time is desirable, a specified time later than 4:10 p.m. (such as 4:15 p.m., 4:20 p.m., etc.), would better serve the public interest by, among other things, providing the public with additional time in which to react to last sale price information in the primary market for the underlying securities.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

JANUARY 17, 1979.

[FR Doc. 79-2276 Filed 1-22-79; 8:45 am]

[15] Closing sale prices in the underlying securities are available promptly to persons using interrogation devices; however, such prices often are not reported on moving ticker displays until a few minutes after 4:00 p.m. New York time.

[16] In order to mitigate this possibility during the trading hours experiment, the Commission requested the Board of Governors of the Federal Reserve System to delay its major news announcements normally made at 4:00 p.m. until 4:10 p.m. (E.S.T.). The Commission also requested the New York Stock Exchange to advise the issuers of underlying securities listed on that exchange to refrain from making major news announcements normally delayed until 4:00 p.m. until 4:10 p.m. (E.S.T.)

[17] *See* Release No. 15241. No comments have been received.

To assist the Commission in making these determinations, the options exchanges agreed to monitor the ten-minute extension of trading to determine, among other things: (1) the extent to which options trading after the close of the principal exchange markets in underlying securities enables the last quotation and/or last sale in the options market to reflect the last sale in the underlying stock; and (2) the extent to which having the last sale and/or the last quotation in the options reflect last sale information in the underlying securities serves the public interest and to maintain fair and orderly markets in both options and their underlying securities.

Other factors which the options exchanges are considering in monitoring the extension or trading hours include: (1) the extent to which firms are permitting the entry of customers' orders after 4:00 p.m. (E.S.T.); (2) the extent to which public news announcements made at or after 4:00 p.m. (E.S.T.) have affected the options markets; (3) the extent to which agency orders and principal orders for options are affected during the last ten minutes of trading; and (4) the volume of options transactions executed in the last ten minutes of trading.

The results of these monitoring efforts have not yet been furnished to the Commission. The Commission will consider this information, however, when determining what action to take on proposed Rules 9b-3, 9b-4(A) and 9b-4(B).

CRITERIA FOR SOURCE MATERIAL OF ALLERGENIC PRODUCTS

Extension of Comment Period and Notice of Public Meeting

AGENCY: Food and Drug Administration.

ACTION: Extension of Comment Period on Proposed Rule.

SUMMARY: This document extends the period for submitting comments on proposed additional criteria for source material of Allergenic Products and announces that a public meeting will be held to give interested persons an opportunity to participate in a discussion of the proposed criteria. The action is being taken in response to a request by several licensed manufacturers of Allergenic Products.

DATES: Written comments by March 8, 1979; the meeting will be held Tuesday, February 6, 1979, and interested persons may submit in writing, by January 31, 1979, topics for inclusion in the agenda of the meeting.

ADDRESSES: Written comments to the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65,

V 4 4 / 1 6 J A 2 3 7 9 UMI

5600 Fishers Lane, Rockville, MD 20857; the meeting will be held in Rm. 115, Bldg. 29, Bureau of Biologics, 8800 Rockville Pike, Bethesda, MD 20014; meeting agenda topics should be submitted to Steven F. Falter at the address below.

FOR FURTHER INFORMATION CONTACT:

Steven F. Falter, Bureau of Biologics (HFB-620), Food and Drug Administration, Department of Health, Education, and Welfare, 8800 Rockville Pike, Bethesda, MD 20014, 301-443-1306.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of September 26, 1978 (43 FR 43472) the Commissioner of Food and Drugs proposed to establish additional criteria for source material used in the manufacture of licensed Allergenic Products.

Interested persons were given until November 26, 1978, to submit written comments on the proposal. In response to a request by several licensed manufacturers of Allergenic Products, the Bureau of Biologics will hold a public meeting to discuss the proposed rule. Interested persons are invited to submit specific topics concerning the proposal for possible inclusion in the agenda of the meeting. In anticipation that the results of this meeting may generate additional comments to the subject document, the Commissioner is extending the comment period to March 8, 1979.

Persons planning to attend or to submit topics for the agenda should contact Steven Falter by January 31, 1979. The meeting will begin at 9 a.m. on February 6, 1979, in Rm. 115, Bldg. 29, Bureau of Biologics, 8800 Rockville Pike, Bethesda, MD 20014.

Therefore, under the Public Health Service Act (sec 351, 58 Stat. 702 as amended (42 U.S.C. 262)) and under authority delegated to him (21 CFR 5.1), the Commissioner extends the comment period on the proposed additional criteria for source material of Allergenic Products to March 8, 1979.

Interested persons may, on or before March 8, 1979, submit to the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857, written comments regarding this proposal. Four copies of all comments shall be submitted, except that individuals may submit single copies of comments, and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this document. Received comments may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

Dated: January 18, 1979.

JOSEPH P. HILE,
Associate Commissioner for Regulatory Affairs.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Unincorporated Areas of Marion County, Ala.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Unincorporated Areas of Marion County, Ala. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the County Clerk's Office, Marion County Courthouse, Hamilton, Ala. Send comments to: Mr. C. S. Pidwell, Chairman, County Commission, P.O. Box 460 or Mr. E. L. Pearce, County Engineer, P.O. Box 160, Hamilton, Ala. 35570.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Unincorporated areas of Marion County, Ala., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Luxapallila Creek near Winfield.	Just upstream of third Avenue North.	464
	Just downstream of Ninth Avenue North.	468

[Docket No. FI-4938]

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Moulton, Lawrence County, Ala.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Moulton, Lawrence County, Ala. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Office of the City Clerk, City Hall, 202 West Street, Moulton, Ala. 35650. Send comments to: Honorable H. A. Alexander, Mayor of Athens or Ms. Barbra Coffey, City Clerk, City Hall, 202 West Street, Moulton, Ala. 35650.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Moulton, Lawrence County, Ala., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a). These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Almon Branch	Just upstream of Court Street (Alabama Hwy. 24).	626
	Just upstream of Byler Road.	630
Crow Branch	Benson Street (Extended).	620
	Just upstream of Court Street.	627
	Just upstream of College Street.	629
Lateral No. 8-14	Just upstream of Main Street.	625
	Just upstream of East Street.	634
	Just upstream of Court Street (Alabama Hwy. 24).	640
Lateral No. 12	Approximately 530 feet upstream of confluence with lateral No. 8-14.	629
	Just upstream of Betty Street.	644
Lateral No. 11	Just upstream of Main Street.	627

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued: January 5, 1979.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Winfield, Marion County, Ala.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Winfield, Marion County, Alabama. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at Mayor's Office, Winfield City Hall, P.O. Box 579, Winfield, Alabama 35594. Send comments to: Mayor Joe R. Carothers, or Ms. Edrell S. Reed, City Clerk, City Hall, P.O. Box 579, Winfield, Alabama 35594.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Winfield, Marion County, Alabama in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change

any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
East Branch	Southern corporate limits.	444
	Confluence of Tributary 1.	450
	First Street West	451
	U.S. Highway 43	452
	Trull Drive	457
	Confluence of Tributary 2.	463
	Confluence of Tributary 8.	483
	Northern corporate limits.	483
Tributary 1	Confluence with East Branch.	450
	First Avenue South	462
	Just upstream of Third Avenue North.	485
	Just downstream of Fourth Avenue North.	491
Tributary 2	Confluence with East Branch.	463
	Northern corporate limits.	467
Tributary 8	Confluence with East Branch.	463
	Just upstream of St. Louis San Francisco Railway.	471

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: January 8, 1979.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Marianna, Lee County, Ark.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Marianna, Lee County, Arkansas. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Office of the Building Inspector, Marianna City Hall. Send comments to: Honorable John Oxder, Mayor of the City of Marianna or Mr. A. Haskell, Code Enforcement Officer, City Hall, Marianna, Arkansas.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Marianna, Lee County, Arkansas, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
L'Anguille River (backwater from the Mississippi River).	Chestnut Street extended.	202
Chestnut Street (backwater from the Mississippi River).	Just downstream of the Missouri Pacific Railroad.	202

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for The City of Waterbury, New Haven County, Conn.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Waterbury, New Haven County, Connecticut. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Office of the Building Official, Waterbury, Connecticut. Send comments to: Mr. Nicholas Tetrault, Administrative Aide to the Mayor, Waterbury City Hall, 235 Grant Street, Waterbury, Connecticut 06702

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Waterbury, New Haven County, Connecticut in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Naugatuck River	Upstream Bristol Street.	219
	Upstream Platt Brothers Dam.	229

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for The Borough of Stonington, new London County, Conn.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Borough of Stonington, New London County, Connecticut. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Borough Hall, Stonington, Connecticut. Send comments to: Mr. Robert McGivern Borough Warden of Stonington Stonington Borough Hall Stonington, Connecticut 06378

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Borough of Stonington, New London County, Connecticut in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Fishers Island Sound.	Church Street and Water Street.	12
	Hancock Street and Trumbull Street.	12

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Town of Malabar, Brevard County, Florida. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Office of the City Clerk, City Hall, P.O. Box 245, Malabar, Florida 32950. Send comments to: Honorable John E. Yust or Mr. John Kenyon, Town Planner, City Hall, P.O. Box 245, Malabar, Florida 32950.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Town of Malabar, Brevard County, Florida, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Channel A	Just upstream of U.S. 1	7
	Just upstream of Florida East Coast Railroad.	16
Channel B	Approximately 200 feet upstream of Malabar Road.	19
	Just upstream of Corey Road.	19
Channel C	Approximately 100 feet upstream of Malabar Road.	20
Channel D	Just downstream of Malabar Road.	17
Channel E	Approximately 100 feet downstream of Malabar Road.	20
Indian River	Just upstream of Malabar Road.	7

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued: January 5, 1979.

GLORIA M. JIMENEZ,
Federal Insurance Administrator.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Melbourne, Brevard County, Fla.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Melbourne, Brevard County, Florida. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Office of the City Clerk, 900 E. Strawbridge Avenue, Melbourne, Florida 32901. Send comments to: Honorable Vernon Dicks, Mayor of the City of Melbourne, or the Office of the City Clerk, 900 E. Strawbridge Avenue, Melbourne, Florida.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insur-

V 4 / 1 6 J A 2 3 7 9 UMI

ance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Melbourne, Brevard County, Florida, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Crane Creek	Approximately 100 feet upstream of Babcock Street.	14
	Approximately 100 feet upstream of Dubber Road.	17
	Approximately 100 feet upstream of New Haven Avenue.	18
Channel A	Just upstream of Espanola Way.	21
	Just downstream of Eddie Allen Road.	22
Channel B	Just upstream of Vassar Street.	16
	Approximately 200 feet upstream of South Fairway Drive.	17
	Just downstream of Dairy Road.	26
Channel B-1	Approximately 100 feet downstream of Dairy Road.	23
Channel C	Just downstream of Walker Street (Extended).	11
Channel D	Just downstream of Sherwood Boulevard.	24
Eau Gallie River	Just upstream of Eau Gallie Boulevard.	11
	Approximately 200 feet downstream of Wickham Road.	19
Elbow Creek	Just downstream of U.S. 1.	6
Horse Creek	Just upstream of Florida East Coast Railroad.	9
	Just upstream of Croton Road.	16
	Just downstream of Parkway Drive.	19
Atlantic Ocean	At Florida State Highway 518.	8
Indian River	Just upstream of Parkway Drive.	6
	Just upstream of U.S. 192.	7
St. John's River	Just upstream of Sarno Road.	22
Channel E	Just upstream of Mill Street.	18
Channel F	At Fairview Drive (Extended).	21

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Oviedo, Brevard County, Fla.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Oviedo, Brevard County, Florida. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Office of the City Clerk, City Hall, P.O. Box 297, Oviedo, Florida. Send comments to: Honorable Ben Beasley, Mayor of the City of Oviedo or Richard T. Stacey, City Planner, P.O. Box 297, Oviedo, Florida.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Oviedo, Brevard County, Florida, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Lake Charm	Entire Shoreline	48
Round Lake	Entire Shoreline	48
Long Lake	Entire Shoreline	47
Sweetwater Creek	Approximately 300 feet downstream of Magnolia Drive.	27
	Just downstream of Franklin Street.	33
	Just upstream of SR 419 (Chapel Street).	39

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued: January 5, 1979.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Village of Peoria Heights, Peoria County, Ill.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Village of Peoria Heights, Peoria County, Ill. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Village Hall, 4901 North Prospect Road, Peoria Heights, Illinois. Send comments to: Mr. Raymond L. Picl, Village President, Village of Peoria Heights, Village Hall, 4901 North Prospect Road, Peoria Heights, Illinois 61614.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Village of Peoria Heights, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Illinois River	Southern corporate limit.	460
	Northern corporate limit.	460
East Branch Dry Run Creek	West corporate limit, about 100 feet north of Glen Avenue.	704

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and the Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719).

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comments.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Pontiac, Livingston County, Ill.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Pontiac, Livingston County, Illinois. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at Pontiac City Hall, 321 North Main Street, Pontiac, Illinois. Send comments to: Honorable Joseph S. Trainor, Mayor of Pontiac, 321 North Main Street, Pontiac, Illinois 61764.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Pontiac, Livingston County, Illinois in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more

stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Vermilion River.....	Pontiac Corporate Limits.	642
	Norfolk and Western Railway.	642
	Footbridge along Riverview Drive.	641
	Dam near Mill Street.....	640
	Vermilion Street.....	640
	Illinois Central Gulf Railroad.	639
	Ladd Street.....	638
	Dam near Ladd Street....	638
	U.S. Route 66.....	638
	Pontiac Corporate Limits.	636
	Illinois Central Gulf Railroad.	635
	Pontiac Corporate Limits.	634

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of Housing and Urban Development Act, Section 324 of the Housing and Community Development Amendments of 1978, Public Law 95-557, 92 Statute 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued: January 8, 1979.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Unincorporated Areas of Elkhart County, Ind.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the unincorporated areas of Elkhart County, Indiana. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at Elkhart County Planning Commissioners Office, Elkhart County Courthouse, Elkhart, Indiana. Send comments to: Mr. Tom Romburger, President of the Elkhart County Commissioners or Mr. Dennis Harney, Elkhart County Planning Director, Elkhart County Court House, Goshen, Indiana.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the unincorporate areas of Elkhart County, Indiana, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
St. Joseph River....	Confluence of Cobus Creek.	719
	Confluence of Trout Creek.	760
Elkhart River	Just upstream of Hively Avenue.	750
	Just upstream of County Road 17.	767
	Just upstream of County Road 142.	801
	Just upstream of U.S. 33	828
Little Elkhart River.	Approximately 200 feet upstream TU-CO Campground Bridge.	764
	Just downstream of County Road 16.	820
Baugo Creek	Just upstream of County Road 1.	747
	Just upstream of County Road 11.	772
Berlin Court Ditch.	Just upstream of County Road 19.	833
	Just upstream of State Road 19.	857
Christiana Creek...	Just upsteam of County Road 6.	763
Cobus Creek.....	Just downstream of U.S. 20.	733
	Approximately 100 feet upsteam of County Road 8.	756
Pine Creek.....	Just upstream of County Road 17.	762
	Just upstream of County Road 18.	778
	Just downstream of State Road 19.	807
Puterbaugh Creek	Just upstream of Indiana East-West Bound Toll Bridges.	765
Rock Run Creek....	Just downstream of County Road 34.	809
	Just upstream of County Road 34.	812
Turkey Creek.....	Just upstream of County Road 142.	800
Yellow Creek	Approximately 300 feet upstream of Hammond Street.	757
	Just downstream of County Road 28.	782

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Hobart, Lake County, Ind.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Hobart, Lake County, Indiana. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Hobart City Hall, 414 Main Street, Hobart, Indiana 46342. Send comments to: Honorable Calvin Green, Mayor of Hobart, 414 Main Street, Hobart, Indiana 46342.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Hobart, Lake County, Indiana in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Deep River.....	Downstream Corporate Limits.	603
	39th Avenue (Upstream Side).	604
	ConRail (Upstream Side).	610
	Hobart Dam (Upstream Side).	610
	3rd Street (Upstream Side).	612
	Norfolk and Western Railway (Upstream Side).	613
	Wisconsin Street.....	613
	Elgin, Joliet and Eastern Railway (Upstream Side).	613
	Decatur Street	613
	Bracken Road	614
	Upstream Corporate Limits.	614
Duck Creek	Front Street	610
	Elgin, Joliet and Eastern Railway.	610
	10th Street (Upstream Side).	611
	County Line Road	612
Turkey Creek.....	Confluence with Deep River.	613
	Liverpool Road	613
	Corporate Limits	613

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of Housing and Urban Development Act, Section 324 of the Housing and Community Development Amendments of 1978, Public Law 95-557, 92 Statute 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued: January 8, 1979.

[Docket No. FI-4976]

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Town of New Chicago, Lake County, Ind.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Town of New Chicago, Lake County, Indiana. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at New Chicago Town Hall, New Chicago, Indiana. Send comments to: Mr. Maxie Morris, President of the Board of New Chicago, 122 Huber Boulevard, New Chicago, Indiana 46342.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Town of New Chicago, Lake County, Indiana in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more

stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Deep River	Grand Boulevard	599
	Michigan Street Bridge	599

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued: January 8, 1979.

GLORIA M. JIMENEZ,
Federal Insurance Administrator.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of West Des Moines, Polk County, Iowa

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of West Des Moines, Polk County, Iowa. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Hall, 318 5th Street, West Des Moines, Iowa. Send comments to: Mr. Elmer P. True, City Administrator, City of West Des Moines, City Hall, 318 5th Street, Des Moines, Iowa 50265.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of West Des Moines, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Raccoon River	At 63rd Street	814
	Just upstream of Interstate 35.	827
	Approximately 8,800 feet upstream from Interstate 35, at county boundary.	831
Walnut Creek	Approximately 1,600 feet downstream from Grand Avenue.	814
	Just upstream from Chicago, Milwaukee and St. Paul Railroad.	819
	Just upstream from 63rd Street.	821
	Approximately 500 feet upstream from Center Street.	825
	Just upstream from 73rd Street.	833
	Approximately 1,600 feet upstream from Chicago, Milwaukee and St. Paul Railroad.	836
	Just upstream from 22nd Street.	840

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued: January 5, 1979.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Easton, Leavenworth County, Kans.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Easton, Leavenworth County, Kansas. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Hall, Easton, Kansas. Send comments to: The Honorable Harry Moulden, Mayor, City of Easton, City Hall, Easton, Kansas 66021

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Easton, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Dawson Creek	450 feet Downstream of 3rd Street.	903
	Just Upstream of Kickapoo Street.	904
	900 feet Upstream of Kickapoo Street.	906

remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Hall, Easton, Kansas. Send comments to: The Honorable Harry Moulden, Mayor, City of Easton, City Hall, Easton, Kansas 66021

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Easton, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Stranger Creek	1,500 feet Downstream of State Highway 192.	903
	650 feet Upstream of State Highway 192.	905

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendment of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Hesston, Harvey County, Kans.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Hesston, Harvey County, Kansas. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Hesston City Hall, P.O. Box 100, Hesston, Kansas. Send comments to: The Honorable Milton R. Miller, Mayor, City of Hesston, Hesston City Hall, P.O. Box 100, Hesston, Kansas 67062.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Hesston, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Middle Emma Creek	Just upstream of Hickory Street.	1451
	Approximately 525 feet upstream of Hickory Street.	1453
	Approximately 2430 feet downstream of Interstate 135.	1454
	Just upstream of Interstate 135.	1456
	Approximately 1270 feet upstream of Interstate 135.	1458
	Just downstream of Lincoln Bolevard.	1459
Dry Creek	Just upstream of Hickory Street.	1460
	Approximately 260 feet downstream of Weaver Street.	1463
	Approximately 150 feet upstream of Pine Street.	1465
	Just upstream of Academy Street.	1467
	Approximately 80 feet downstream of U.S. 81.	1469

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
	Just upstream of U.S. 81	1474
	Just upstream of Missouri Pacific Railroad.	1476

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719).

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Riley, Riley County, Kans.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Riley, Riley County, Kansas. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the home of Phil Pheifley, City Clerk, Riley Kansas. Send comments to: The Honorable Leland Heikas Mayor, City of Riley, City Hall, Riley, Kansas 66531.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Riley, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Wildcat Creek Tributary.	Downstream corporate limits approximately 1,850 feet above mouth.	1,268
	Upstream side of Chestnut Street.	1,270
	Upstream side of Cedar St.	1,274
	Upstream side of Kansas Avenue.	1,276
	Approximately 1,200 feet above Kansas Avenue.	1,278
	Upstream corporate limits.	1,283

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719).

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Taylor Mill, Kenton County, Ky.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Taylor Mill, Kenton County, Kentucky. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Municipal Building, 5225 Taylor Mill Road, Taylor Mill, Kentucky 41015. Send comments to: Honorable Afton H. Kordenbrock, Mayor or Mr. Ray Rucker, City Coordinator Municipal Building, 5225 Taylor Mill Road, Taylor Mill, Kentucky 41015.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Taylor Mill, Kenton County, Kentucky, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Banklick Creek (backwater effects of Licking River).	Just upstream of Kentucky Highway 18.	503
Licking River	Just downstream of western corporate limits.	503
Holds Branch	Just upstream of western corporate limits.	545
	Just downstream of Private Bridge.	546
	Just upstream of Private Bridge.	547

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of Housing and Urban Development Act, Section 324 of the Housing and Community Development Amendments of 1978, Public Law 95-557, 92 Statute 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued: January 5, 1979.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for The Town of Clinton, East Feliciana Parish, La.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Town of Clinton, East Feliciana Parish, La. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Office of the Town Clerk, P.O. Box 513—Town Hall, Clinton, Louisiana 70722. Send comments to: Honorable R. C. Graham, Mayor of the Town of Clinton or Ms. Emily Bentley, Town Clerk, town Hall—P.O. Box 513, Clinton, Louisiana.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Town of Clinton, East Feliciana Parish, Louisiana, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Pretty Creek	Louisiana Highway 10	183
	Just upstream Woodville Street.	185
Lewis Creek	Just upstream Bank Street.	188
	Just upstream Louisiana Highway 67 (Bridge Plank Road).	209

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposd rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

[Docket No. FI-4952]

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determinations for the Town of Franklinton, Washington Parish, La.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Town of Franklinton, Washington Parish, Louisiana. These base (100-year) flood elevations are the basis for the flood plain management measures

V 4 4 / 1 6 J A 2 3 7 9 UMI

that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at Franklinton City Hall, 301 11th Avenue, Franklinton, Louisiana. Send comments to: Honorable Warren P. Greer, Mayor of the Town of Franklinton, or Mr. H. G. Minairk, Town Superintendant, 301 11th Avenue, P.O. Box 584, Franklinton, Louisiana.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Town of Franklinton, Washington Parish, Louisiana, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Bouge Chitto River.	Southern Corporate Limits.	144
	Just downstream of State Highway 10.	147
Mile Branch	Approximately 100 feet downstream of Main Street.	153
	Just downstream of State Highway 430.	159
	Sixteenth Avenue	168
Jones Branch	Approximately 80 feet upstream Lee Street Bridge.	150
	Just downstream of 15th Avenue.	155

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued: January 5, 1979.

GLORIA M. JIMENEZ,
Federal Insurance Administrator.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Town of Milo, Piscataquis County, Maine

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Town of Milo, Piscataquis County, Maine. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Milo Town Hall, Milo, Maine. Send comments to: Mr. Steve Law, Manager of the Town of Milo, Milo Town Office, Milo, Maine 04463.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Town of Milo, Piscataquis County, Maine, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Piscataquis River	Corporate Limits	278
	Confluence of Stinking Brook.	279
	Route 16	283
	Railroad Bridge	287
	Ferry Road	287
	Confluence of Morrison Brook.	289
	Milo and Sebec Townline.	290
Pleasant River	Corporate Limits Downstream.	278
	Howland-Medford Road (Pleasant Street).	285
	Gaging Station	307
	Corporate Limits	328

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Sebec River	Confluence with Piscataquis River.	285
	Route 16	288
	Bangor and Aroostook Railroad.	290
	Corporate Limits	292

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of Housing and Urban Development Act, Section 324 of the Housing and Community Development Amendments of 1978, Public Law 95-557, 92 Statute 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued: January 8, 1979.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Town of Greensboro, Caroline County, Md.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the town of Greensboro, Caroline County, Maryland. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Town Hall, North Main Street, Greensboro, Maryland. Send comments to: Honorable Irving Ober, Mayor of Greensboro, P.O. Box 130, Greensboro, Maryland 21639.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Town of Greensboro, Caroline County, Maryland in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Choptank River	Downstream Corporate Limits.	12
	State Route 314 Bridge	12
	Upstream Corporate Limits.	13

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of Housing and Urban Development Act, Section 324 of the Housing and Community Development Amendments of 1978, Public Law 95-557, 92 Statute 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Township of Mundy, Genesee County, Mich.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Township of Mundy, Genesee County, Michigan. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Township Hall, 3478 Mundy Avenue, Swartz Creek, Michigan. Send comments to: The Honorable Edward Morey, Township Supervisor, Township of Mundy, 3478 Mundy Avenue, Swartz Creek, Michigan 48473.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Township of Mundy, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title

V 4 4 / 1 6 J A 2 3 7 9 UMI

XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Swartz Creek	Downstream corporate limits.	782
	Just upstream of Jennings Road.	768
	Just upstream of Hill Road.	775
	At confluence of Johnson Branch.	782
	Just upstream of Torrey Road.	790
	Just upstream of confluence of Brewer Drain.	797
	Just upstream of Grand Blanc Road.	803
	Approximately 1,000 feet downstream of confluence of Indian Creek.	808
	Just upstream of Cook Road.	823
	Just upstream of Baldwin Road.	834
	Upstream corporate limits.	846
Seaver Drain	Mouth at Swartz Creek	822
	Upstream corporate limits.	824

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued: January 5, 1979.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Belmont, Gaston County, N.C.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Belmont, Gaston County, North Carolina. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at Belmont City Hall, 115 North Main Street, Belmont, North Carolina 28012. Send comments to: Mayor Billy Joye, Jr., or Carl W. Howie, City Manager City Hall, P.O. Box 431, Belmont, North Carolina 28012.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Belmont, Gaston County, North Carolina, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance

V 4 4 / 1 6 J A 2 3 7 9 UMI

Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Abbey Creek	Just downstream of Neely Chevrolet Drive.	627
	Just downstream of Hawley Avenue.	637
	Just upstream of Hawley Avenue.	647

[Docket No. FI-4982]

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of High Point, Guilford County, N.C.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of High Point, Guilford County, North Carolina. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Office of the City Clerk, 211 South Hamilton Street, High Point, North Carolina 27261. Send comments to: Mr. Cyrus L. Brooks, City Manager, P.O. Box 230, High Point, North Carolina 27261.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of High Point, Guilford County, North Carolina, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Deep River	Just upstream of the confluence of Stream No. 26.	734
	Just downstream of Southern Railroad.	735
Stream No. 26	Approximately 100 feet downstream of North Scientific Street.	770
	Just upstream of confluence of Stream No. 27.	773
Stream No. 27	Just upstream of Southern Railroad.	787
	Just downstream of Rosecrest Drive.	810
West Fork Deep River.	Just upstream of High Point Dam.	761
	Just downstream of Deep River Road.	777
Stream No. 18	Just downstream of Willard Road.	801
	Just upstream of Willard Road.	806
Boulding Branch	Approximately 200 feet upstream of Lexington Avenue.	816
	Approximately 100 feet downstream of Montilieu Avenue.	822
Stream No. 20	Just downstream of Terrell Drive.	819
	Just upstream of East College Drive.	829
	Just downstream of North Centennial Street.	842
Stream No 13	Just upstream of confluence of Oak Hollow Lake.	807
Hiatt Branch	Just downstream of Hillside Drive.	810
Horney Branch	Just upstream of Aberdeen Road.	811
	Approximately 150 feet upstream of Fairlane Street.	817
	Just downstream of Old Mill Road.	834
	Just upstream of Old Mill Road.	840
Richland Creek	Approximately 200 feet upstream of Kersey Valley Road.	704
	Approximately 200 feet upstream of Jackson Lake Road.	710
	Just upstream of Baker Road.	729
	Just upstream of Brentwood Street.	782
	Just upstream of West Linden Avenue.	831
	Just upstream of South Elm Street.	837
Mile Branch	Approximately 150 feet downstream of Jackson Lake Road.	740

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Stream No. 34	Approximately 100 feet upstream of U.S. 29 and 70.	746
	Just upstream of East Green Drive.	784
	Approximately 100 feet downstream of Habersham Road.	817
Stream No. 33	Approximately 150 feet upstream of Nathan Hunt Drive.	789
	Just downstream of Wise Avenue.	808
Stream No. 31	Just upstream of Carolina and Northwestern Railroad.	841
	Approximately 100 feet downstream of West Ward Avenue.	850
	Just downstream of Vail Avenue.	855
Stream No. 99	Just downstream of Westchester Drive.	825
Stream No. 97	Approximately 100 feet downstream of Nottingham Road.	800
	Just upstream of Nottingham Road.	808
Stream No. 95	Approximately 150 feet upstream of Sweetbriar Road.	789
	Just downstream of Westchester Drive.	799
	Just upstream of Westchester Drive.	809
	Approximately 200 feet upstream of Rockford Road.	816
Stream No. 92	Just upstream of the Western Guilford County Line.	781
	Approximately 200 feet downstream of the confluence of stream No. 93.	790
Stream No. 29A	Just upstream of Bales Chapel Road.	725
Stream No. 93	Just upstream of Cherokee Avenue.	822
	Just downstream of Westchester Drive.	823
	Just upstream of Westchester Drive.	833

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of Housing and Urban Development Act, Section 324 of the Housing and Community Development Amendments of 1978, Public Law 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Lexington, Davidson County, N.C.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Lexington, Davidson County, North Carolina. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Engineer's Office, 907 Talbert Boulevard, Lexington, North Carolina 27292. Send comments to: Mayor Dwight D. Hinkle or Mr. Wade Gibbs, City Engineer, City Hall, 28 West Center Street, Lexington, North Carolina 27292.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Lexington, Davidson County, North Carolina, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the township of Reed, Dauphin County, Pa.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Township of Reed, Dauphin County, Pennsylvania. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Township Municipal Building, Reed Township, Pennsylvania. Send comments to: Mr. Steve Williams, Sr., Chairman of the Township of Reed, R.D. 2, Duncannon, Pennsylvania 17020.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Township of Reed, Dauphin County, Pennsylvania in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Susquehanna River.	Confluence of Cove Creek.	349
	Confluence of Sherman Creek.	353
	Clarksbury Road (Route 22/322).	360
	Powell Creek	363
Juniata River	State Route 274	359
	U.S. Route 11/15	362
Powell Creek	Confluence with Susquehanna.	363
	Conrail R.R.	363
	Tributary to Powell Creek 1,200 yards upstream of Conrail.	378
	Shoop Road (Township Route 547).	394

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of Housing and Urban Development Act, Section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued: January 8, 1979.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Borough of Stockertown, Northampton County, Pa.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Borough of Stockertown, Northampton County, Pennsylvania. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at Borough Hall, Stokertown, Pennsylvania. Send comments to: Honorable Sherman Metzgar, Mayor of Stockertown, 115 Main Street, Stockertown, Pennsylvania 18083.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Borough of Stockerton, Northampton County, Pennsylvania in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Bushkill Creek	Downstream Corporate Limit.	335
	Confluence of Little Bushkill Creek.	338
	Bushkill Street	344
	Conrail Bridge Upstream from State Route 33.	351
	West Centre Street (Downstream).	362
	West Centre Street (Upstream).	367
	State Route 191	370
	Upstream Corporate Limit.	373

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, Public Law 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued: January 8, 1979.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Borough of Tatamy, Northampton County, Pa.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Borough of Tatamy, Northampton County, Pennsylvania. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Municipal Building, Tatamy, Pennsylvania. Send comments to: Honorable B. James Williams, Mayor of Tatamy, 107 North 7th Street, Tatamy, Pennsylvania 18085.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Borough of Tatamy, Northampton County, Pennsylvania in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Bushkill Creek	At downstream corporate limits near L.R. 48021.	312
	Confluence with Little Bushkill Creek.	339

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of Housing and Urban Development Act, Section 324 of the Housing and Community Development Amendments of 1978, Public Law 95-557, 92 Statute 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the County of Giles, Va.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in

the County of Giles, Virginia. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the County Administration Building, 120 North Main Street, Pearisburg, Virginia. Send comments to: Mr. Daniel W. Hickey, County Administrator, 120 North Main Street, Pearisburg, Virginia 24134.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the County of Giles, Virginia in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
New River	U.S. 460 East Bound	1,523
	U.S. 460	1,563
	State Route 623	1,625
	State Route 730	1,647
Wolf Creek	State Route 671 (Extended).	1,577
	State Route 675	1,680

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Warroad, Roseau County, Minn.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Warroad, Roseau County, Minnesota. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Hall, Warroad, Minnesota. Send comments to: The Honorable Richard Roberts, Mayor, City of Warroad, City Hall, P.O. Box 50, Warroad, Minnesota 56763.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Warroad, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Warroad River	At the confluence with Lake of the Woods.	1,064
	At Canadian National Railroad.	1,064
	1.30 miles upstream of Canadian National Railroad.	1,064

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

[29 CFR Part 1601]

706 AGENCIES

Proposed Designations

AGENCY: Equal Employment Opportunity Commission.

ACTION: Proposed rule.

SUMMARY: The Equal Employment Opportunity Commission proposes to amend its regulations on designation of certain State and local agencies so that they may handle employment discrimination charges filed with the Commission. Proposed are State and local agencies that requested deferral designation as provided under the authority of Title VII of the Civil Rights Act of 1964, as amended. The proposal would authorize the agencies listed to process charges deferred to them by the Commission.

DATES: Comments must be received by February 7, 1979.

ADDRESS: Comments should be sent to: Equal Employment Opportunity Commission, Office of Field Services (State and Local), 2401 E Street, N.W., Washington, D.C. 20506.

FOR FURTHER INFORMATION CONTACT:

Boyce Nolan, Equal Employment Opportunity Commission, Office of Field Services (State and Local), 2401 E Street, N.W., Washington, D.C. 20506, telephone 202/634-6040.

SUPPLEMENTARY INFORMATION: Pursuant to § 1601.71, Title 29, Chapter XIV of the Code of Federal Regulations as revised and published in the FEDERAL REGISTER, 42 FR 55388, October 14, 1977, the Equal Employment Opportunity Commission (hereinafter referred to as the Commission) proposes that each of the agencies listed below be designated as a "706 Agency", § 1601.70(a). Three (3) purposes for such designation are as follows: First, that the agencies receive charges deferred by the Commission pursuant to Section 706 (c) and (d) of Title VII of the Civil Rights Act of 1964, as amended; second, that the Commission accord "substantial weight" to the final findings and orders of the agencies pursuant to Section 706(b) of Title VII of the Civil Rights Act of 1964, as amended; and third, to commence the 15 day period within which any person or organization may file written comments as provided for under § 1601.71(l).

At the expiration of the 15 day period, the Commission may effect designation of the agencies by publishing them as an amendment to § 1601.74(a).

With the limitation set forth in the footnote below, the proposed "706 Agencies" are as follows:

[1]Corpus Christi (Texas) Human Relations Commission, Tennessee Commission for Human Development.

Written comments pursuant to this notice must be filed with the Commission on or before February 7, 1979.

Signed at Washington, D.C. this 18th day of January, 1979.

For the Commission.

ELEANOR HOLMES NORTON,
Chair, Equal Employment Opportunity Commission.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

[FRL 1041-3]

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

New Mexico Regulation 402, Woodwaste Burners

AGENCY: Environmental Protection Agency (EPA)

ACTION: Proposed rule.

SUMMARY: This action proposed to disapprove New Mexico Regulation 402, Woodwaste Burners, as revised by the State on January 10, 1975. The intent of the regulation is to control particulate matter emissions from woodwaste burners through visible emission limits. However, the lack of a definition of opacity and lack of test methods and procedures makes the regulation unenforceable by EPA.

DATES: Interested persons are invited to comment on this proposed rule. Comments must be received on or before February 22, 1979 to be considered by EPA in the final approval/disapproval decision.

ADDRESSES: Comments on this proposed rule should be submitted to the address below.

Environmental Protection Agency, Region 6, Air Program Branch, 1201 Elm Street, Dallas, Texas 75270.

Copies of the State's submittal are available for inspection during normal business hours at the address above and at the following address:

Environmental Protection Agency, Public Information Reference Unit, Room 2922, 401 M Street, SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

Jerry Stubberfield, Environmental Protection Agency, Air Program Branch, 1201 Elm Street, Dallas, Texas 75270, 214-767-2742.

SUPPLEMENTARY INFORMATION: On November 6, 1975, after adequate notice and public hearing, the Governor of New Mexico submitted a revision to Regualtion 402, Regulation to Control Woodwaste Burners.

The revised regulation specifies control requirements in terms of opacity. The degree of control is not changed for normal operation, but a provision is added which permits a less stringent opacity during daily burndown periods. These changes are considered approvable. However, the regulation fails to provide a definition for opacity, and no definition is included in Regulation 100, Definitions. While this deficiency alone may not warrant a disapproval of the regulation, the lack of a definition of opacity in conjunction with the lack of specification of testing methods and procedures prevents a determination of compliance status. Consequently, EPA considers the regulation to be unenforceable.

CURRENT ACTION

This action proposes disapproval of New Mexico Regulation 402, Regulation to Control Woodwaste Burners, as adopted by the Environmental Improvement Board on January 10, 1975 and submitted by the Governor on November 6, 1975.

This rulemaking is issued under the authority of Section 110(a) of the Clean Air Act, as amended, 42 U.S.C. 7410-(a).

Dated: January 5, 1979.

EARL N. KARI,
Deputy Regional Administrator.

It is proposed to amend Part 52 of Chapter 1, Title 40 of the Code of Federal Regulations as follows:

Subpart GG—New Mexico

1. In § 52.1620, paragraph (c) is amended by adding a new paragraph (12) to read as follows:

§ 52.1620 Identification of plan.

* * * * *

(c) * * *

(12) Regulation 402, Regulation to Control Woodwaste Burners, as adopted by the New Mexico Environmental Improvement Board on January 10, 1975, was submitted by the Governor on November 6, 1975 (see § 52.1625).

2. In Subpart GG, § 52.1625 is amended by adding a new paragraph (c) to read as follows:

§ 52.1625 Control strategy and regulations: Particulate matter.

* * * * *

(c) Regulation 402, submitted by the Governor on November 6, 1975, is disapproved since no definition of opacity is provided, and since no compliance testing procedures were specified. These deficiencies make Regulation 402 unenforceable.

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Approval of an Administrative Order Issued by Ohio Environmental Protection Agency to General Motors Corporation, Delco Products Division

AGENCY: U.S. Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: U.S. EPA proposes to approve an Administrative Order issued by the Ohio Environmental Protection Agency to General Motors Corporation, Delco Products Division. The Order requires the company to bring air emissions from its facility in Kettering, Ohio, into compliance with certain regulations contained in the federally approved Ohio State Implementation Plan (SIP) by July 1, 1979. Because the Order has been issued to a major source and permits a delay in compliance with provisions of the SIP, it must be approved by U.S. EPA before it becomes effective as a Delayed Compliance Order under the Clean Air Act (the Act). If approved by U.S. EPA, the Order will constitute an addition to the SIP. In addition, a source in compliance with an approved Order may not be sued under the Federal enforcement or citizen suit provisions of the Act for voilations of the SIP regulations covered by the Order. The purpose of this notice is to invite public comment on U.S. EPA's proposed approval of the Order as a Delayed Compliance Order.

DATE: Written comments must be received on or before February 22, 1979.

ADDRESS: Comments should be submitted to Director, Enforcement Division, U.S. EPA, Region V, 230 South Dearborn Street, Chicago, Illinois 60604. The State Order, supporting material, and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Cynthia Colantoni, Enforcement Division, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604. (312) 353-2082.

SUPPLEMENTARY INFORMATION: General Motors Corporation, Delco Products Division operates a facility at Kettering, Ohio. The Order under consideration addresses emissions from Boiler No. 3 at the facility, which is subject to OAC 3745-17-7 and OAC 3745-17-10. The regulations limit the emissions of particulate matter and visible emissions, and are part of the federally approved Ohio State Implementation Plan. The Order requires final compliance with the regulations by July 1, 1979, through installation of appropriate control equipment on Boiler No. 3 which will control emissions of particulate matter from Delco to a rate of not greater than 0.14 pounds per million Btu input.

Because this Order has been issued to a major source fo particulate matter emissions and visible emissions permits a delay in compliance with the applicable regulations, it must be approved by U.S. EPA before it becomes effective as a Delayed Compliance Order under Section 113(d) of the Act. U.S. EPA may approve the Order only if it satisfies the appropriate requirements of this subsection.

If the Order is approved by U.S. EPA, source compliance with its terms against the source for violations of the regulations covered by the Order during the period the Order is in effect. Enforcement against the source under the citizen suit provision of the Act (Section 304) would be similarly precluded. If approved, the Order would also constitute an addition to the Ohio SIP.

All interested persons are invited to submit written comments on the proposed Order. Written comments received by the date specified above will be considered in determining whether U.S. EPA may approve the Order. After the public comment period, the Administrator of U.S. EPA will publish in the FEDERAL REGISTER the Agency's final action on the Order in 40 U.S.C. Part 65.

(42 U.S.C. 7413, 7601)

Dated: January 11, 1979.

JOHN MCGUIRE,
Regional Administrator, Region V.

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Approval of Delayed Compliance Order Issued by the North Carolina Environmental Management Commission to Columbus Forest Industries

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve a delayed compliance order issued by the North Carolina Environmental Management Commission to Columbus Forest Industries in Rieglewood, North Carolina. The delayed compliance order requires Columbus Forest Industries to bring air emissions from the wood waste boiler in Rieglewood, North Carolina, into compliance with an applicable regulation contained in the North Carolina State Implementation Plan (SIP) by June 30, 1979. Because the order has been issued to a major source and permits a delay in compliance with the provisions of the SIP, it must be approved by EPA before it becomes effective as a delayed compliance order under the Clean Air Act (the Act). If approved by EPA, the order will constitute an addition to the SIP. In addition, a source in compliance with an approved order may not be sued under the federal enforcement or citizen suit provisions of the Act for violations of the SIP regulations covered by the order. The purpose of this notice is to invite public comment on EPA's proposed approval of the order as a delayed compliance order.

DATE: Written comments must be received on or before February 22, 1979.

ADDRESSEES: Comments should be submitted to Director, Enforcement Division, EPA, Region IV, 345 Courtland Street, N.E., Atlanta, Georgia 30308. The State order, supporting material, and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Floyd Ledbetter, U.S. Environmental Protection Agency, Region IV, 345 Courtland Street, NE., Atlanta, Georgia 30308, Telephone Number: 404-881-4298.

SUPPLEMENTARY INFORMATION: Columbus Forest Industries operates a sawmill and kiln in Rieglewood, Columbus County, North Carolina. The order under consideration addresses emissions from the wood waste boiler, which is subject to North Carolina Administrative Code (NCAC), Title 15, Chapter 2D, Section 0.0504. This regulation limits the particulate emissions from indirect wood burning heat exchangers, and is part of the federally-approved North Carolins State Implementation Plan. The order requires compliance with the regulation by June 30, 1979, through the implementation of the following schedule for the construction or installation of control equipment:

(1) Submit an "Application for Permit to Construct and Operate Air Pollution Abatement Facilities" to the Commission on or before November 1, 1978.

(2) Let purchase orders and contracts for the abatement facilities on or before January 1, 1979.

(3) Begin installation of emission control equipment on or before April 15, 1979.

(4) Complete construction of emission control equipment on or before June 1, 1979.

(5) Achieve and document compliance with Emission Standard 15 NCAC 2D .0504 on or before June 30, 1979.

The source has consented to the terms of the order and has agreed to meet the order's increments during the period of this informal rulemaking. As an interim limit, the particulate emissions shall not exceed 0.89 pounds/million BTU's and visible emissions shall not exceed 20% opacity, prior to attainment of the last milestone.

Because this order has been issued to a major source of particulate matter emissions and permits a delay in compliance with the applicable regulation, it must be approved by EPA before becoming effective as a delayed compliance order under Section 113(d) of the Clean Air Act (the Act). EPA may approve the order only if it satisfies the appropriate requirements of this subsection. EPA has tentatively determined that the order satisfies these requirements.

If the order is approved by EPA, source compliance with its terms would preclude federal enforcement action under Section 113 of the Act against the source for violations of the regulation covered by the order during the period the order is in effect. Enforcement against the source under the citizen suit provision of the Act (Section 304) would be similarly precluded. If approved, the order would also constitute an addition to the North Carolina SIP. Compliance with the proposed order will not exempt the company from complying with applicable requirements contained in any subsequent revisions to the SIP which are approved by EPA.

All interested persons are invited to submit written comments on the proposed order. Written comments received by the date specified above will be considered in determining whether EPA may approve the order. After the public comment period, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the order in 40 CFR Part 65.

(Authority: 42 U.S.C. 7413, 7601.)

Dated: January 12, 1979.

PAUL TRAINA,
Regional Administrator, Region IV.

[Special Order by Consent, AQ-78-204]

NORTH CAROLINA, COLUMBUS COUNTY

In the matter of unauthorized discharges of air pollutants into the ambient atmos-

V 4 4 - 1 6

phere by Columbus Forest Industries, Riegelwood, North Carolina, Columbus County.

This order by consent made and entered into pursuant to North Carolina General Statute 143-215.110 and in accordance with the requirements of Section 113 of the Clean Air Act by Columbus Forest Industries, hereinafter referred to as the Company, with the North Carolina Environmental Management Commission, an agency of the State of North Carolina, hereinafter known as the Commission.

Witnesseth:

I. The Commission finds as follows:

A. The Company is now operating a wood-waste-fired boiler equipped with a multicyclone at its facility located at Riegelwood, North Carolina.

B. The Company was issued Permit No. 2248R for the operation of this boiler on April 7, 1978 which stipulated that the unit would be tested for compliance and results submitted to the Commission by August 1, 1978.

C. The Company has tested the boiler and submitted the results of the tests to the Commission on July 27, 1978. The results of the tests indicate that the Company is discharging particulate emissions from the boilers in violation of Emission Standard 15 NCAC 2D .0504 "Particulates from Wood Burning Indirect Heat Exchangers".

II. The Company desiring to comply with the legal requirements of the Commission regarding particulate emissions to the ambient atmosphere and with all pertinent provisions of the law and applicable rules and regulations of the Commission does hereby agree to do and perform the following on or before the dates hereinafter set out:

A. Submit an "Application for Permit to Construct and Operate Air Pollution Abatement Facilities" to the Commission on or before November 1, 1978.

B. Let purchase orders and contracts for the abatement facilities on or before January 1, 1979.

C. Begin installation of emission control equipment on or before April 15, 1979.

D. Complete construction of emission control equipment on or before June 1, 1979.

E. Achieve and document compliance with Emission Standard 15 NCAC 2D .0504 on or before June 30, 1979.

III. The Company shall operate and maintain the boiler utilizing the best available engineering practices so as to minimize the impact of particulate emissions during the period between the date this order is executed by the Company and the date specified in this Order for achieving compliance with 15 NCAC 2D .0504. In no case shall the particulate emissions from the boiler exceed .89 pounds per million BTU input except during start-ups or shut-downs. In no case shall visible emissions exceed 20% opacity as specified in Permit No. 2248R.

IV. On or before June 30, 1979, when particulate emissions due to a malfunction are or may be in excess of the interim emission limit contained in Section III of this Order for more than one continuous hour, the Company shall notify the Director, Division of Environmental Management as promptly as possible but in no case later than eighteen (18) hours following the start of such malfunction. Such notice shall specify the nature and cause of the malfunction, the time when such malfunction was first observed, the expected duration and an estimate of the rate of emission. The term malfunction shall not be construed to include normal start-up or shut-down periods.

V. In the event the Company fails to achieve final compliance with any emission limitation, emission standard, or compliance schedule in this Order or under the North Carolina Implementation Plan by July 1, 1979, the Company will be required to pay a mandatory non-compliance penalty pursuant to Section 120 of the Clean Air Act, 42 U.S.C. Section 7420, or North Carolina General Statute 143-215.114(a), if the Environmental Protection Agency has delegated authority to collect and assess such a penalty to the State of North Carolina. Nothing contained herein shall prevent the United States Environmental Protection Agency from taking enforcement action pursuant to Section 113(b) or the Commission from assessing a civil penalty pursuant to North Carolina General Statute 143-215.114(a) as implemented by 15 NCAC 2J or from taking other enforcement action pursuant to North Carolina General Statute 143-215.114 for violating any term or condition of this Order including failure to achieve any compliance date which is scheduled to be achieved in this Order prior to July 1, 1979.

VI. The Company agrees that this Special Order shall pertain only to that equipment or source described in Section IA of this Order. Unless an applicable Special Order or Permit has been issued by the Commission, any violations of Air Quality Standards, resulting from other sources or equipment for which the Company is responsible shall subject the Company to all sanctions provided by North Carolina General Statute 143-215.114.

VII. The findings of the Commission as set forth above are not admitted or denied by the Company, but the Company does submit to the jurisdiction of the Commission for the purpose of the entry of this Consent order.

VIII. The Company hereby agrees to waive any rights it may have to seek judicial review to challenge this Special Order by Consent, or the Environmental Protection Agency's approval thereof, or to seek a stay of enforcement of this order in connection with any judicial review of the State Implementation Plan. However, it is acknowledged that this waiver does not prohibit the Company from seeking modification of this Order if any regulatory standards upon which the Order is based are changed subsequent to its execution. In such a case the Company may petition that the Order be modified to reflect these regulatory changes.

This the 27th day of September 1978.

Attested by: L. T. Boet.

Colunbus Forest Industries.

R. R. RICHARDSON
Woodlands Vice President.

Approved and accepted by:

H. W. WHITLEY,
Chairman, Environmental Management Commission.

Attested by:

A. F. McRORIE,
Secretary, Environmental Management Commission.

Dated: October 13, 1978.

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Approval of Delayed Compliance Order Issued by the North Carolina Environmental Management Commission to Duke Power Company

AGENCY: Environmental Protection Agency.

ACTION: Proposed Rule.

SUMMARY: EPA proposes to approve a delayed compliance order issued by the North Carolina Environmental Management Commission to Duke Power Company, Belews Creek Steam Station in Walnut Cove, North Carolina. The delayed compliance order requires Duke Power Company, Belews Creek Steam Station, to bring air emissions from the Number 2 coal fired boiler in Walnut Cove, North Carolina, into compliance with an applicable regulation contained in the North Carolina State Implementation Plan (SIP) by July 1, 1979. Because the order has been issued to a major source and permits a delay in compliance with the provisions of the SIP, it must be approved by EPA before it becomes effective as a delayed compliance order under the Clean Air Act (the Act). If approved by EPA, the order will constitute an addition to the SIP. In addition, a source in compliance with an approved order may not be sued under the federal enforcement or citizen suit provisions of the Act for violations of the SIP regulations covered by the order. The purpose of this notice is to invite ublic comment on EPA's proposed approval of the order as a delayed compliance order.

DATE: Written comments must be received on or before February 22, 1979.

ADDRESSEES: Comments should be submitted to Director, Enforcement Division, EPA, Region IV, 345 Courtland Street, N.E., Atlanta, Georgia 30308. The State order, supporting material, and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Floyd Ledbetter, U.S. Environmental Protection Agency, Region IV, 345 Courtland Street, N.E., Atlanta, Georgia 30308, Telephone Number: (404) 881-4298.

SUPPLEMENTARY INFORMATION: Duke Power Company operates an electric generating station (Belews Creek) in Walnut Cove, Stokes County, North Carolina. The order under consideration addresses emissions from the Number 2 coal fired boiler, which are subject to the North Carolina Administrative Code (NCAC), Title 15, Chapter 2d, Section .0503. This regulation limits the emissions of particulate matter from fossil fuel burning boilers, and is part of the federally-approved North Carolina State Implementation Plan. The order requires final compliance with the regulation by July 1, 1979, through the implementation of the following schedule for the construction or installation of control equipment:

1. Begin construction of devices to implement the control plan on or before March 1, 1979.

2. Complete construction of all devices to implement the control plan on or before May 1, 1979.

3. Show by applicable testing that the Number 2 Unit of Belews Creek Steam Station meets 15 NCAC 2D.0503 and 15 NCAC 2D.0521 emission limits on or before July 1, 1979.

The source has consented to the terms of the order and has agreed to meet the order's increments during the period of this informal rulemaking. As an interim limit, the Number 2 coal fired boiler shall not emit more than 1.00 pounds/million BTU's and visible emissions shall not exceed 60% opacity averaged over any continuous six (6) hour period, prior to the attainment of the last milestone.

Because this order has been issued to a major source of particulate matter and visible emissions and permits a delay in compliance with the applicable regulation, it must be approved by EPA before becoming effective as a delayed compliance order under Section 113(d) of the Clean Air Act (the Act). EPA may approve the order only if it satisfies the appropriate requirements of this subsection. EPA has tentatively determined that the order satisfies these requirements.

If the order is approved by EPA, source compliance with its terms would preclude federal enforcement action under Section 113 of the Act against the source for violations of the regulation covered by the order during the period the order is in effect. Enforcement against the source under the citizen suit provision of the Act (Section 304) would be similarly precluded. If approved, the order would also constitute an addition to the North Carolina SIP. Compliance with the proposed order will not exempt the company from complying with applicable requirements contained in any subsequent revisions to the SIP which are approved by EPA.

All interested persons are invited to submit written comments on the proposed order. Written comments received by the date specified above will be considered in determining whether EPA may approve the order. After the public comment period, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the order in 40 CFR Part 65.

(Authority: 42 U.S.C. 7413, 7601.)

Dated: January 12, 1979.

PAUL TRAINA,
Acting Regional Administrator, Region IV.

SPECIAL ORDER BY CONSENT (AQ-76-173R2)

In the matter of unauthorized discharges of air pollutants to the ambient atmosphere by Duke Power Company, Belews Creek Steam Station, Walnut Cove, Stokes County, North Carolina.

This order by consent made and entered into pursuant to North Carolina General Statute 143-215.110 and in accordance with the requirements of Section 113 of the Clean Air Act by Duke Power Company, hereinafter referred to as the Company, with the North Carolina Environmental Management Commission, and agency of the State of North Carolina, hereinafter known as the Commission.

Witnesseth:

I. The Company does hereby stipulate as follows:

A. The Company has operated and is now operating two (2) coal fired, steam generating boilers (referred to as Unit No. 1 and Unit No. 2) at its facility located near Walnut Cove, North Carolina.

B. The Company has discharged and is now intermittently discharging to the ambient atmosphere particulate and visible emissions from the Unit No. 2 coal fired, steam generating boiler in violation of 15 NCAC 2D .0503, "Control of Particulates from Fuel Burning Sources," and 15 NCAC 2D .0521, "Control of Visible Emission."

C. The Company received on May 14, 1974, Permits No. 1982R and 1983R to construct and operate visible and particulate matter emission control equipment on the two (2) coal fired, steam generating boilers in A. above.

D. The Company performed source tests on the two (2) coal fired, steam generating boilers as specified in Permits No. 1982R and 1983R. The source tests indicated violations of 15 NCAC 2D .0503.

E. The Company has modified the control equipment on Unit No. 1 and achieved compliance with 15 NCAC 2D .0503. Compliance documentation is contained in the results of a source test which was conducted on March 29 and 30, 1978.

F. The Company submitted plans for control equipment modifications on Unit No. 2 on May 31, 1978.

G. The Company let contracts for control equipment modications on Unit No. 2 on February 15, 1978.

II. The Company desiring to comply with the legal requirements of the Commission regarding particulate emissions to the ambient atmosphere and with all pertinent provisions of the low and applicable rules and regulations of the Commission does hereby agree to do and perform all of the following things on or before the dates hereinafter set out:

1. Begin construction of control equipment additions or modifications on Unit No. 2 on or before March 1, 1979.

2. Complete the additions and modifications to the control equipment on Unit No. 2 proposed by the Company in F above on or before May 1, 1979.

3. Achieve compliance and submit a source test documenting compliance with 15 NCAC 2D .0503 and 15 NCAC 2D .0521 for Unit No. 2 on or before July 1, 1979.

III. The Company shall operate and maintain its Unit No. 2 coal fired, steam generating boiler so as to minimize the impact of particulate and visible emissions during the period between the date this Order is executed by the Company and the date specified in this Order for compliance with 15 NCAC 2D .0503, and 15 NCAC 2D .0521. Except during start-ups and shut-downs, the visible emissions from Unit No. 2 shall not exceed sixty percent opacity (corrected to stack exit value) averaged over any continuous six hour period, nor shall particulate emissions from Unit No. 2 exceed 1.00 pounds per million BTU input.

IV. Within 45 days after approval of this order by the Commission the Company shall have continuous monitors for opacity installed on Unit No. 2, and calibrated as specified in 40 CFR 60. Subsequent to this approval, the continuous opacity monitoring charts shall be provided on request by the Commission for use in compliance and non-compliance determinations. Such monitors shall be maintained and recalibrated in accordance with 40 CFR 60 to insure that quality data is being reported. An automatic calibration cycle will be performed at least daily for each monitor.

V. Within 30 days after the period set forth in paragraph IV the Company shall commence reporting any excess emissions as follows: The Company shall notify the Director, Division of Environmental Management of any excess emissions within eighteen (18) hours. The Company shall forward a written report to the Director, Division of Environmental Management within 14 days of such excess emissions setting out the cause, duration, and remedy of such excess emissions. For the purpose of this order "excess emissions" means emissions in excess of 60% opacity (corrected to stack exit value) for six continuous hours. Excess emissions do not include those emissions associated with normal start-up or shut-down periods.

VI. The reported excess emissions shall be based on the following: The opacity on Unit No. 2 shall be measured by four visible emission monitoring instruments which meet the specifications as outlined in 40 CFR Part 60 dated October 6, 1975. The signal from each of the four instruments shall be combined and averaged for the purpose of determining unit opacity. Values shall be corrected to correspond to stack exit values. Periods exceeding 60% opacity will be evaluated by hand to determine if the six hour/60% opacity limit has been exceeded. The six hour averaging period will be a running six hour average.

VII. The Company shall submit no later than five days after the deadline for completing each increment required in Section II, certification to the Director, Division of Environmental Management, whether such increment has been performed. The Company shall submit no later than fifteen days

A 2 3 7 9 UMI

after the end of each quarter, commencing with the July 1 to September 30 quarter of 1978, a progress report for achieving compliance with the requirements of this Special Order.

VIII. In the event the Company fails to achieve final compliance with any emission limitation, emission standard, or compliance schedule in this Order or under the North Carolina Implementaion Plan by July 1, 1979, the Company will be required to pay a mandatory noncompliance penalty pursuant to Section 120 of the Clean Air Act, 42 U.S.C. Section 7420, or North Carolina General Statute 143-215.114(a), if the Environmental Protection Agency has delegated authority to collect and assess such a penalty to the State of North Carolina. Nothing contained herein shall prevent the United States Environmental Protection Agency from taking enforcement action pursuant to Section 113 of the Clean Air Act or the Commission from assessing a civil penalty pursuant to North Carolina General Statute 143-215.114(a) as implemented by 15 NCAC 2J or from taking other enforcement action pursuant to North Carolina General Statute 143-215.114 for violating any term or condition of this Order, including failure to achieve any compliance date which is scheduled to be achieved in this Order prior to July 1, 1979.

IX. The Company agrees that this Special Order shall pertain only to that equipment or source described in Section I.B. of this Order. Unless an applicable Special Order or Permit has been issued by the Commission, any violation of Air Quality Standards, resulting from other sources or equipment for which the Company is responsible, shall subject the Company to all sanctions provided by North Carolina General Statute 143-215.114.

X. Failure of the Company to comply with any provisions contained herein, including Section III, or discharges from the two (2) coal fired, steam generating boilers after the applicable compliance dates contained in Section II in excess of applicable standards shall subject the Company to all sanctions provided by North Carolina General Statute 143-215.114.

XI. The Company hereby agrees to waive any rights it may have to seek judicial review to challenge this Special Order by Consent, or the Environmental Protection Agency's approval thereof, or to seek a stay of enforcement of this Order in connection with any judicial review of the State Implementation Plan. However, the Commission acknowledges that this waiver does not prohibit the Company from seeking modification of this Order if any regulatory standards upon which the Order is based are changed subsequent to its execution. In such a case the Company may petition that the Order be modified to reflect these regulatory changes.

This the 12th day of September, 1978.

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Approval of Delayed Compliance Order Issued by the North Carolina Environmental Management Commission to Duke Power Co.

AGENCY: Environmental Protection Agency.

ACTION: Proposed Rule.

SUMMARY: EPA proposes to approve a delayed compliance order issued by the North Carolina Environmental Management Commission to Duke Power Company, Marshall Steam Station in Terrell, North Carolina. The delayed compliance order requires Duke Power Company, Marshall Steam Station, to bring air emissions from the Number 1 and 2 coal fired boilers in Terrell, North Carolina, into compliance with an applicable regulation contained in the North Carolina State Implementation Plan (SIP) by January 31, 1979. Because the order has been issued to a major source and permits a delay in compliance with the provisions of the SIP, it must be approved by EPA before it becomes effective as a delayed compliance order under the Clean Air Act (the Act). If approved by EPA, the order will constitute an addition to the SIP. In addition, a source in compliance with an approved order may not be sued under the federal enforcement or citizen suit provisions of the Act for violations of the SIP regulations covered by the order. The purpose of this notice is to invite public comment on EPA's proposed approval of the order as a delayed compliance order.

DATE: Written comments must be received on or before February 22, 1979.

ADDRESSES: Comments should be submitted to Director, Enforcement Division, EPA, Region IV, 345 Courtland Street, N.E., Atlanta, Georgia 30308. The State order, supporting material, and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Floyd Ledbetter, U.S. Environmental Protection Agency, Region IV, 345 Courtland Street, N.E., Atlanta, Georgia 30308, Telephone Number: (404)-881-4298.

SUPPLEMENTARY INFORMATION: Duke Power Company operates an electric generating station (Marshall) in Terrell, Catawba County, North Carolina. The order under consideration addreses emissions from the Number 1 and 2 coal fired boilers, which are subject to the North Carolina Administrative Code (NCAC), Title 15, Chapter 2D, Section .0503. This regulation limits the emissions of particulate matter from fossil fuel burning boilers, and is part of the federally-approved North Carolina State Implementation Plan. The order requires final compliance with the regulation by January 31, 1979, through the implementation of the following schedule for the construction or installation of control equipment.

1. Complete installation and optimization of the Ash Conditioning System for the first unit precipitator on or before November 30, 1978.

2. Achieve compliance and submit source test documenting compliance with 15 NCAC 2D.0503, "Control of Particulates from Fuel Burning Sources," for the first unit before December 31, 1978.

3. Complete installation and optimization of the Ash Conditioning System for the second unit precipitatior on or before December 31, 1978.

4. Achieve compliance and submit source test documenting compliance with 15 NCAC 2D.0503, "Control of Particulates from Fuel Burning Sources," for the second unit on or before January 31, 1979.

The source has consented to the terms of the order and has agreed to meet the order's increments during the period of this informal rulemaking. As an interim limit, the Number 1 and 2 coal fired boilers shall not emit more than 0.15 pounds/million BTU's and visible emissions shall not exceed the limits contained in 15 NCAC 2D.0521, prior to the attainment of the last milestone.

Because this order has been issued to a major source of particulate matter emissions and permits a delay in compliance with the applicable regulation, it must be approved by EPA before becoming effective as a delayed compliance order under section 113(d) of the Clean Air Act (the Act). EPA may approve the order only if it satisfies the appropriate requirements of this subsection. EPA has tentatively determined that the order satisfies these requirements.

If the order is approved by EPA, source compliance with its terms would preclude federal enforcement action under Section 113 of the Act against the source for violations of the regulation covered by the order during the period the order is in effect. Enforcement against the source under the citizen suit provision of the Act (Section 304) would be similarly precluded. If approved, the order would also constitute an addition to the North Carolina SIP. Ccompliance with the proposed order will not exempt the company from complying with applicable requirements contained in any subsequent revisions to the SIP which are approved by EPA.

All interested persons are invited to submit written comments on the proposed order. Written comments received by the date specified above will be considered in determining whether EPA may approve the order. After the public comment period, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the order in 40 CFR Part 65.

(Authority: 42 U.S.C. 7413, 7601.)

Dated: January 12, 1979.

PAUL TRAINA,
Acting Regional Administrator, Region IV.

SPECIAL ORDER BY CONSENT (AQ-76-177R)

In the matter of unauthorized discharges of air pollutants to the ambient atmosphere by Duke Power Company, Marshall Steam Station, Terrell, Catawba County, North Carolina.

This order by consent made and entered into pursuant to North Carolina General Statute 143-215.110 and in accordance with the requirements of Section 113 of the Clean Air Act by Duke Power Company, hereinafter referred to as the Company, with the North Carolina Environmental Management Commission, an agency of the State of North Carolina, hereinafter known as the Commission.

Witnesseth:

I. The Company does hereby stipulate as follows:

A. The Company has operated and is now operating two (2) coal fired, steam generating boilers (referred to as Unit 1 and Unit 2) controlled by multicyclones and electrostatic precipitators at its facility located in Terrell, North Carolina.

B. The Company has discharged and is now intermittently discharging to the ambient atmosphere particulate emissions from Unit 1 and Unit 2 coal fired, steam generating boilers in violation of 15 NCAC 2D .0503, "Control of Particulates From Fuel Burning Sources."

C. The Company was issued Special Order by Consent AQ-76-177 on September 8, 1976 which specified that the Company was to achieve and demonstrate compliance by December 31, 1977. Modifications, including ash conditioning, proposed by the Company to attain compliance were completed, however, the required source tests of January 10-12, 1978 for Unit 1 and April 4-11, 1978 for Unit 2 disclosed continued violation of the applicable standard.

D. The Company continued its ash conditioning test program and requested additional time to complete improvements involving installation and optimization of a dual chemical feed system to further enhance the precipitator collection efficiency by modifying the fly ash resistivity and agglomeration tendency.

II. The Company, desiring to comply with the legal requirements of the Commission regarding particulate emissions to the ambient atmosphere and with all pertinent provisions of the law and applicable rules and regulations of the Commission, does hereby agree to do and perform all of the following things on or before the dates hereinafter set out:

A. Complete installation and optimization of the ash conditioning system for the first unit on or before November 30, 1978.

B. Achieve compliance and submit a source test documenting compliance with 15 NCAC 2D .0503, "Control of Particulates From Fuel Burning Sources," for the first unit on or before December 31, 1978.

C. Complete installation and optimization of the ash conditioning system for the second unit on or before December 31, 1978.

D. Achieve compliance and submit a source test documenting compliance with 15 NCAC 2D .0503, "Control of Particulates From Fuel Burning Sources," for the second unit on or before January 31, 1979.

III. The Company shall operate and maintain its Unit 1 and Unit 2 coal fired, steam generating boilers so as to minimize the impact of particulate and visible emissions during the period between the date this Order is executed by the Company and the date specified in this Order for compliance with 15 NCAC 2D .0503, "Control of Particulates From Fuel Burning Sources." Except during start-ups and shut-downs, the visible emissions from the two units shall not exceed those limits contained in 15 NCAC 2D .0521, "Control of Visible Emissions," nor shall particulate emissions from the two units exceed 0.15 pounds per million BTU input.

IV. On or before January 31, 1979 when particulate or visible emissions due to malfunctions are or may be in excess of those interim emission limits specified in Section III of this Order for more than one continuous hour, the Company shall notify the Director, Division of Environmental Management, as promptly as possible but in no case later than eighteen (18) hours following the start of such malfunction. Such notice shall specify the nature and cause of the malfunction, the time when such malfunction was first observed, the expected duration, and an estimate of the rate of emission. The term malfunction shall not be construed to include normal start-up or shut-down periods.

V. The Company shall submit no later than five days after the deadline for completing each increment required in Section II certification to the Director, Division of Environmental Management, whether such increment has been performed. In addition to this, a complete report of progress shall be made on or before October 15, 1978.

VI. On or before October 18, 1978, the Company shall install and commence operation of continuous visible emission monitors on Unit No. 1 and Unit No. 2. Operation, calibration, maintenance, and performance specifications of these monitors shall conform to those contained in 40 CFR Part 51. Excess emissions shall be reported quarterly to the Commission in accordance with 40 CFR Part 51.

VII. In the event the Company fails to achieve final compliance with any emission limitation, emission standard, or compliance schedule in this Order or under the North Carolina Implementation Plan by July 1, 1979, the Company will be required to pay a mandatory noncompliance penalty pursuant to Section 20 of the Clean Air Act, 42 U.S.C. Section 7420, or North Carolina General Statute 143-215.114(a), if the Environmental Protection Agency has delegated authority to collect and assess such a penalty to the State of North Carolina. Nothing contained herein shall prevent the United States Environmental Protection Agency from taking enforcement action pursuant to Section 113 of the Clean Air Act or the Commission from assessing a civil penalty pursuant to North Carolina General Statute 143-215.114(a) as implemented by 15 NCAC 2J or from taking other enforcement action pursuant to North Carolina General Statute 143-215.114 for violating any term or condition of this Order, including failure to achieve any compliance date which is scheduled to be achieved in this Order prior to July 1, 1979.

VIII. The Company agrees that this Special Order shall pertain only to that equipment or source described in Section I.A. of this Order. Unless an applicable Special Order or Permit has been issued by the Commission, any violation of Air Quality Standards, resulting from other sources or equipment for which the Company is responsible, shall subject the Company to all sanctions provided by North Carolina General Statute 143-215.114.

IX. Failure of the Company to comply with any provisions contained herein, including Section III, or discharges from the two (2) coal fired, steam generating boilers after the applicable eipliance dates contained in Section II in excess of applicable standards shall subject the Company to all sanctions provided by North Carolina General Statute 143-215.114.

X. The Company hereby agrees to waive any rights it may have to seek judicial review to challenge this Special Order by Consent, or the Environmental Protection Agency's approval thereof, or to seek a stay of enforcement of this Order in connection with any judicial review of the State Implementation Plan. However, the Commission acknowledges that this waiver does not prohibit the Company from seeking modification of this Order if any regulatory standards upon which the Order is based are changed subsequent to its execution. In such a case the Company may petition that the Order be modified to reflect these regulatory changes.

This the 25th day of September, 1978.

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Proposed Tolerance for the Pesticide Chemical Gibberellins

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This notice proposes that a tolerance be established for residues of the plant growth regulator gibberellins A_1 and A_3. The proposal was submitted by Abbott laboratories. This amendment will establish a maximum permissible level for residues of gibberellins A_1 and A_3 in or on apples.

DATE: Comments must be received by February 22, 1979.

ADDRESS: Address comments to: Federal Register Section, Program Support Division (TS-757), Office of Pesticide Programs, EPA, Rm. 401, East Tower, 401 M St. SW, Washington DC 20460.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert Taylor, Product Manager (PM) 25, Registration Division (TS-767), Office of Pesticide Programs, Environmental Protection Agency (202/755-7013).

SUPPLEMENTARY INFORMATION: On March 21, 1977, notice was given (42 FR 15361) that Abbott Laboratories, Chemical and Agricultural Products Div., 14th Street and Sheridan Road, N. Chicago, IL 60064, had filed a petition (PP 7F1911) with the EPA. This petition proposed to amend 40 CFR 180.224 by establishing a tolerance for combined residues of the herbicide gibberellin A_4 and gibberell in A^7 in or on the raw agricultural commodity apples at 0.15 part per million (ppm). No comments were received in response to this notice of filing. Subsequently, the petitioner amended the petition by increasing the proposed tolerance from 0.15 ppm to 0.5 ppm. It has also been determined that rather than "herbicide," the term "plant growth regulator" should be used to describe gibberellins A_4 and A_7. Because of the potential increase in exposure of humans to gibberellin residues resulting from the higher tolerance, the tolerance is being proposed at this time to provide an opportunity for public comment.

The data submitted in the petition and other relevant material have been evaluated. The toxicological data considered in support of the proposed tolerance included at rat oral acute toxicity study with a lethal dose (LD_{50}) in excess of 3.6 grams (g)/kilogram (kg) of body weight (bw). The chief considerations in granting the proposed tolerance are: (1) Gibberellins are naturally found on apples, (2) The use of these compounds will not change the endogenous gibberellin content of the apples, and (3) Since the residue level will not be increased, the risk to the consumer of apples will not be increased.

Tolerances have previously been established for residues of gibberellic acid in or on artichokes, blueberries, citrus fruit, grapes, hops, leafy vegetables, stone fruits, sugarcane and sugarcane fodder and forage at 0.15 ppm (negligible residues). Since the levels of A_4 and A_7 are the same on both sprayed and unsprayed apples, consideration of the acceptable daily intake (ADI) and the maximum permissible intake (MPI) is not relevant to this petition. Also, since there is no discernible difference in the A_4 and A_7 level in treated vs. control samples, there will be no problem with secondary residues in eggs, meat, milk, or poultry.

The metabolism of the gibberellins is adequately understood, and an analytical method (combined TLC/fluorometry) is available for enforcement purposes. No desirable data are lacking, no regulatory actions are pending against continued registration of the plant growth regulator, and no other considerations are involved in establishing the proposed tolerance.

The pesticide is considered useful for the purpose for which a tolerance is sought, and it is concluded that the tolerance of 0.5 ppm on apples established by amending 40 CFR 180.224 will protect the public health. It is proposed, therefore, that the tolerance be established as set forth below.

Any person who has registered or submitted an application for the registration of a pesticide, under the Federal Insecticide, Fungicide, and Rodenticide Act, which contains any of the ingredients listed herein, may request by February 22, 1979 that this rulemaking proposal be referred to an advisory committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on the proposed regulation. The comments must bear a notation indicating both the subject and the petition/document control number, "PP 7F1911/P99". All written comments filed in response to this notice of proposed rulemaking will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

(Sec. 408(e), Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(e)).

Dated: January 17, 1979.

DOUGLAS D. CAMPT,
Acting Director,
Registration Division.

It is proposed that Part 180, Subpart C, § 180.224 be revised in its entirety to read as follows:

§ 180.224 Gibberellins; tolerances for residues.

(a) Tolerances are established for negligible residues (N) of the plant growth regulator gibberellin A_3 in or on the following raw agricultural commodities:

Commodity and Parts per million	
Artichokes	0.15 (N)
Blueberries	0.15 (N)
Citrus fruits	0.15 (N)
Grapes	0.15 (N)
Hops	0.15 (N)
Leafy vegetables	0.15 (N)
Stone fruits	0.15 (N)
Sugarcane	0.15 (N)
Sugarcane fodder	0.15 (N)
Sugarcane forage	0.15 (N)

(b) A tolerance is established for combined residues of the plant growth regulator gibberellin A_4 and A_7 in or on the following raw agricultural commodity:

Commodity and parts per million	
Apples	0.5

[FRL 1043-8; PP 7F1979/P102]

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Proposed Exemption From Requirement of a Tolerance for the Pesticide Chemical Chlorotoluene

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This notice proposes that an exemption from the requirement of a tolerance be established for the inert ingredient chlorotoluene. The proposal was submitted by Monsanto Co. This regulation would permit the use of chlorotoluene as a solvent or consolvent in pesticide formulations.

DATE: Comments must be received by February 22, 1979.

ADDRESS: Federal Register Section, Program Support Division (TS-757), Office of Pesticide Programs, EPA, Rm. 401, East Tower, 401 M Street, SW, Washington DC 20460.

FOR FURTHER INFORMATION CONTACT:

Mr. David L. Ritter, Hazard Evaluation Division (TS-767), Office of Pesticide Programs, EPA (202/426-2680).

SUPPLEMENTARY INFORMATION: Monsanto Agricultural Products Co., 800 N. Lindbergh Blvd., St. Louis, MO 63166, and Hooker Chemicals and Plastics Corp., Niagara Falls, NY 14302, have submitted a joint pesticide petition (PP 7F1979) to the EPA. This petition requests that the Administrator propose that 40 CFR 180 be amended by the establishment of an exemption from the requirement of a tolerance for residues of the inert ingredient chlorotoluene, an isomeric mixture predominantly of ortho- and para-monochlorotoluene with up to 6% unreacted toluene and a boiling range of 110 degrees C to 162 degrees C, when used as a solvent or consolvent in pesticide formulations with the following restrictions: (a) not for use after edible parts of the plant begin to form and (b) do not graze livestock in treated areas within 48 hours after application.

Inert ingredients are all ingredients which are not active ingredients as defined in 40 CFR 162.3(c), and include, but are not limited to the following types of ingredients (except when they have pesticidal efficacy of their own): Solvents such as water; baits such as sugar, starches, and meat scraps; dust carriers such as talc and clay; fillers; wetting and spreading agents; propellants in aerosol dispensers; and emulsifiers. The term inert is not intended to imply nontoxicity; the ingredient may or may not be chemically active.

The data submitted in the petition and other relevant material have been evaluated. The toxicological data considered in support of the proposed exemption from the requirements of a tolerance included a 90-day rat feeding study with a no-observable-effect level (NOEL) of 6,000 parts per million (ppm) based on systemic effects and a 90-day dog feeding study with an NOEL of 4,000 ppm based on systemic effects. These data satisfy toxicological requiremetns for granting an exemption from a tolerance requirement under Subpart D of 40 CFR 180. A closely related substance, chlorobenzene, is listed in 40 CFR 180.1001(d) with some restrictions on proposed uses.

Since chlorotoluene is an inert ingredient, no tolerances or exemptions from requirement of a tolerance have been previously established for its residues. No data are available to determine whether residues will occur in meat, milk, eggs, or poultry from the proposed uses. Since there is no reasonable expectation of residues on edible parts of crops, potential residues, if any, from the proposed use are not considered to be of toxicological significance.

Based on the 90-day dog feeding study and a 2,000-fold safety factor the acceptable daily intake (ADI) is 0.05 milligram (mg)/kilogram (kg) of body weight (bw)/day. The maximum permissible intake (MPI) is 3 mg/day. The nature of the residue is adequately understood, and an adequate analytical method (gas chromatography) is available for enforcement purposes. No actions are currently pending against chlorotoluene, nor are other considerations involved in establishing this exemption.

Based on the above information, available information on the chemistry of chlorotoluene, and a review of its use, it has been found that when used in accordance with good agricultural practice, chlorotoluene is useful and does not pose a hazard to the environment. It is concluded, therefore, that the proposed amendment to 40 CFR 180 will protect the public health and it is proposed that the regulation be established as set forth below.

Any person who has registered or submitted an application for the registration of a pesticide, under the Federal Insecticide, Fungicide, and Rodenticide Act, which contains any of the ingredients listed herein, may request on or before February 22, 1979 that this rulemaking proposal be referred to an advisory committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on the proposed regulation. The comments must bear a notation indicating both the subject and the petition/document control number, "PP 7F1979/P102". All written comments filed in response to this notice of proposed rulemaking will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

(Sec. 408(e), Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(e)).)

Dated: January 18, 1979.

HERBERT S. HARRISON,
Acting Director,
Registration Division.

It is proposed that Part 180, Subpart D, be amended by adding the new § 180.1045 to read as follows:

§ 180.1045 Chlorotoluene; exemption from the requirement of a tolorance.

Chlorotoluene, an isomeric mixture predominantly of ortho- and para-monochlorotoluene with up to 6 percent unreacted toluene and a boiling range of 110 degrees C to 162 degrees C, is exempted from the requirement of a tolerance when used as a solvent or cosolvent in pesticide formulations with the following restrictions:

(a) Not for use after edible parts of the plant begin to form.

(b) Do not graze livestock in treated areas within 48 hours after application.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Health Care Financing Administration

[42 CFR Parts 402, 405 and 433]

UNIFORM REPORTING SYSTEMS FOR HEALTH SERVICES FACILITIES AND ORGANIZATIONS

AGENCY: Health Care Financing Administration (HCFA), HEW.

ACTION: Proposed rule.

SUMMARY: This proposal requires all hospitals participating in the Medicare or Medicaid program to report cost-related information in a prescribed uniform manner. It implements certain provisions of section 19 of the Medicare-Medicaid Anti-Fraud and Abuse Amendments (Pub. L. 95-142). The purpose is to obtain comparable cost and related data on all participating hospitals for reimbursement, effective cost and policy analysis, assessment of alternative reimbursement mechanisms and health planning.

DATES: We will consider written comments or suggestions received by April 23, 1979.

ADDRESSES: Address comments to: Administrator, Health Care Financing Administration, Department of Health, Education, and Welfare, Post Office Box 2382, Washington, D.C. 20013.

In commenting, please refer to File Code PCO-185-P. Comments will be available for public inspection in Room 5231 of the Department's offices at 330 C Street, SW., Washington, D.C. 20201 on Monday through Friday of each week from 8:30 AM to 5:00 PM. (202-245-0950).

FOR FURTHER INFORMATION CONTACT:

Maurice Click, (301) 594-8544.

SUPPLEMENTARY INFORMATION:

STATUTORY BASIS

Section 19 of Pub. L. 95-142 (Section 1121 of the Social Security Act; 42 U.S.C. 1320(a)) requires the establishment of uniform reporting systems for providers participating in Medicare and Medicaid. The systems are to be established by October 24, 1978, for hospitals, skilled nursing facilities and intermediate care facilities; and by October 24, 1979, for home health agencies, health maintenance organizations, and other types of health serv-

V 4 4 - 1 6

ices facilities and organizations. The uniform reporting systems must provide information on (1) costs and volume of services; (2) rates; (3) capital assets; (4) discharge data; and (5) billing data.

Section 19 also requires (1) monitoring of the systems; (2) assistance with and support of demonstrations and evaluations of the systems; (3) encouragement to States to adopt the uniform systems for purposes in addition to Medicaid; (4) periodical revison to the systems to make them more effective and less costly; and (5) the provision of information obtained from the reports to appropriate agencies and organizations, including health planning agencies.

The law also requires:

1. Consideration of appropriate variations in applying the uniform systems to different classes of facilities; and

2. Making the system, to the extent practicable, consistent with systems already in effect under section 306(e)(1) of the Public Health Service Act.

Regulatory Implementation

HCFA will be phasing in the required reporting systems as they are developed. The reporting system covered by this proposed rule applies only to hospitals. Moreover, it applies only to those portions of the reporting system dealing with costs and volume of services and with capital assets. The remainder of the system, dealing with rates, discharge data and billing data, will be covered by a subsequent Notice of proposed Rulemaking.

This proposed regulation establishes a System for Hospital Uniform Reporting (SHUR). However, the proposed regulation does not set forth the details of SHUR. It merely sets forth the basic reporting requirements and the provisions for public disclosure of SHUR information. The details of the reporting requirements, including forms and instructions, are contained in the SHUR manual, which is also available for public comment.

Major Provisions

1. REPORTING REQUIREMENTS

This proposed rule would require all Medicare and Medicaid hospitals to report on the costs of their operation and the volume of their services, both in the aggregate and by functional accounts. It would also require them to report their capital assets.

In accordance with section 19, a hospital would be required to file SHUR reports for fiscal years that begin at least 6 months after the effective date of the regulation.

The hospital would be required to submit its report no later than 3 months following the close of its fiscal year. The hospital could, however, obtain a 30-day extension of its reporting deadline for good cause. Based on our previous experience, good cause would be found, for example, if a CPA could not complete his review or if the hospital had to replace lost or destroyed records.

These SHUR reports will incorporate and replace the present cost reports used by Medicare fiscal intermediaries to calculate reimbursement. Although the statute authorizes the reports to be submitted to the Secretary, we have concluded that since they are used by the fiscal intermediaries for cost settlement, they should be sent there directly. Hospitals participating in Medicare (including those participating in both Medicare and Medicaid) would submit the report to their regular fiscal intermediary, or the Medicare Division of Direct Reimbursement. Those hospitals participating only in Medicaid would submit the report to a fiscal intermediary designated by HCFA. We believe that having these Medicaid only reports collected by the fiscal intermediaries will facilitate the analysis and compilation of SHUR data.

2. DISCLOSURE OF SHUR INFORMATION

We are proposing that information contained in the uniform reports, that does not contain patient identifiers, be made available to health systems agencies, state health planning agencies, and upon request, to any other agency or organization. The decision to make this information available to any other agency or organization is predicated on the fact that section 1121(c) of the Act, which was added by Pub. Law 95-142, provides that we make the information available to "appropriate agencies and organizations," including State health planning agencies designated under section 1521 of the Public Health Act (42 U.S.C. 300m). We note, however, that State health planning agencies are required, by section 1522(b)(6)(C) of the Public Health Act, to make their records and data available upon request to the general public. Therefore, since we would be releasing the information to the State health planning agency, and since the public can obtain the information from the State health planning agency upon request, we propose to release the information directly to any requesting agency or organization. We are proposing to interpret "appropriate agencies and organizations" to mean any agency or organization that requests this information.

The issue of whether cost report data should be made available to the public has been the subject of litigation under the Freedom of Information Act. Our regulations, at 20 CFR 422.435, currently make hospital Medicare cost reports available to the general public upon request. Several courts have enjoined the release of these reports, based upon the Freedom of Information Act. However, these cases have been decided prior to the passage and implementation of section 1121(c). In our view, the implementation of section 1121(c) will form a basis for the Department to request that the courts reconsider their prior orders and to oppose successfully future suits.

The information covered by this proposed regulation would be provided by HCFA, or, as a matter of administrative convenience, directly by the fiscal intermediaries. When this regulation is amended to include further reporting requirements concerning rates of payment, discharge and bill data, we will review the question of disclosing that information and will solicit public comment. We would normally require an agency requesting information to pay for the cost of reproducing copies of the information.

The SHUR Manual

The draft SHUR manual sets forth the definitions, principles, and statistics to be used in preparing and submitting reports. It also contains a detailed, functional chart of accounts which must be used to reconcile a hospital's internal books and records in order to file the SHUR report. However, the chart of accounts would not be required as the hospital's day-to-day accounting system.

In order to avoid duplication, and to be consistent with section 1861(v)(1)(F), this draft manual would incorporate the current Federal cost report required for Medicare and Medicaid.

The manual contains special provisions for certain hospitals. We recognize that some hospitals, typically public hospitals, currently maintain a cash basis of accounting. The SHUR system, however, is based on an accrued basis of accounting. To give these hospitals time to convert to an accrual basis, they would be permitted to phase in the new reporting requirements over a 2-year period.

We are also concerned that the full reporting requirements of SHUR might be unnecessarily burdensome on small hospitals. Consequently, we would allow a less detailed report to be submitted by hospitals that, for the 3 accounting periods preceding the reporting period, have had average annual admissions of less than 4,000.

Regulatory Analysis

We have made every effort to minimize the cost and reporting burden associated with this proposed regulation. We estimate that the portion of implementation costs to be borne by the hospital industry will be between $21 million and $45 million. the factors considered in calculating these estimates include: (1) The experience of States which have implemented systems similar to SHUR (based on their experience, we estimate that total implementation costs will range between $35 million and $75 million); and (2) that implementation and operational costs will be considered allowable costs and subject to reimbursement by all third party payors including Medicare and Medicaid. (For FY 1976, Federal programs covered approximately 40 percent of all hospital costs.) These estimates do not take into account any savings that might be realized as a result of combining new and existing requirements.

Nevertheless, because of the possibility that implementation costs may exceed present estimates, we are undertaking a study to establish more precisely the cost of implementing and operating the system. The study will also assess any additional reporting burden placed on the hospital by implementing the proposed system. The study will examine the hospitals' effort to meet existing requirements and the resultant change in burden effort to meet the SHUR requirements. Our staff has worked closely with American Hospital Association and the Blue Cross Association in structuring this study. We believe that it will provide an objective analysis of the cost and burden of complying with this proposed regulation. Based on the results of this study, the Department will decide if a regulatory analysis is needed.

Concurrent with this study and as an ongoing responsibility, HCFA will continue to examine the system and make changes, requiring only pertinent and necessary information to keep the costs and burden associated with the system to a minimum. We are particularly concerned about the extent to which SHUR would impose a new burden on providers. We specifically request suggestions on how to reduce burden in a manner consistent with the legislative requirements in the following areas:

- Level of detail
- Modification, consolidation, or elimination of specific reporting requirements or forms
- Eliminate requirements to directly assign such costs as fringe benefits
- Forms
- Forms design
- Alternatives to hard copy reporting
- Standard Units of Measure
- Modification or identification of alternate standard units of measure

We also welcome comments that identify potential omission or areas in which more detailed reporting is necessary to meet the intention of Pub. L. 95-142.

Prior to issuing final regulations, the proposed system will be evaluated on the basis of study results, HCFA's internal assessment and public comment. Changes will be made to SHUR which reduce burden to the degree possible, within the legislative mandate and the needs of the Department.

Opportunity to Comment

The draft SHUR manual was previously distributed to various hospital professional organizations and to selected State agencies for their views and suggestions. Copies of the draft manual are available for review and may be obtained by writing to:

Chief, Printing and Publications Branch, Division of Administrative Services, OMB, Health Care Financing Administration, DHEW, Room G-215 B, Mary E. Switzer Building, 330 C Street, S.W., Washington, D.C. 20201.

In order to assure that comments are fully considered, they should be submitted on or before April 23, 1979.

As further portions of this system are developed, we will provide a public notice that they are available for comment.

42 CFR Chapter IV is amended as set forth below:

1. The table of contents is amended to read as follows:

CHAPTER IV—HEALTH CARE FINANCING ADMINISTRATION DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL PROVISIONS

Part
400-401 [Reserved]
402 Uniform Reporting Systems
403-404 [Reserved]

SUBCHAPTER B—MEDICARE PROGRAMS

405 Federal Health Insurance for the Aged and Disabled

. . . . . .

2. A new Part 402 is added, to read as follows:

PART 402—UNIFORM REPORTING SYSTEMS

Subpart A—Hospital Reporting

Sec.
402.1 Definitions.
402.2 Statutory provisions.
402.3 Applicability.
402.8 Reporting requirements.
402.10 Availability of information.

AUTHORITY: Secs. 1121, 1861(v)(1)(F), and 1902(a)(40) of the Social Security Act (42 U.S.C. 1320a, 1395x(v)(1)(F) and 1396a(a)(40)).

§ 402.1 **Definitions.**

"Act" means the Social Security Act.

"HCFA" means the Health Care Financing Administration.

§ 402.2 **Statutory provisions.**

(a) Section 1121(a) of the Act requires that the Secretary establish a uniform system for reporting of:

(1) Costs and volume of health care services;

(2) Rates charged for those services;

(3) Capital assets of health care facilities and organizations;

(4) Discharge data; and

(5) Billing data.

(b) Sections 1861(v)(1)(F) and 1902(a)(40) of the Act require Medicare and Medicaid providers to report in accordance with the system established under section 1121(a) of the Act.

§ 402.3 **Applicability.**

This subpart applies to all hospitals participating in the Medicare or Medicaid program.

§ 402.8 **Reporting requirements.**

The System for Hospital Uniform Reporting (SHUR), established by HCFA, requires hospitals to meet the following requirements:

(a) *Information to be reported.* Hospitals shall report: (1) Costs of operation and volume of services, both in aggregate and by functional accounts; and

(2) Capital assets.

(b) *Manner of reporting.* The hospital shall report in accordance with the forms and instructions prescribed by SHUR.

(c) *Timing and submission of reports.* (1) *Initial report.* The initial report under SHUR shall be for the hospital's first fiscal year that begins more than 6 months after the effective date of these regulations.

(2) *Submittal.* The hospital shall submit SHUR reports no later than the last day of the third month following the close of its fiscal year to:

(i) its Medicare intermediary (or the Medicare Division of Direct Reimbursement); or

(ii) if the hospital is participating only under Medicaid, to the Medicare intermediary designated by HCFA.

(3) *Extension.* The intermediary, after obtaining HCFA's approval, may, for good cause shown by the hospital, grant a 30-day extension for submitting the report.

§ 402.10 **Availability of information.**

HCFA or its agents will, in a timely manner, provide information collected under this subpart to:

(a) health systems agencies and State health planning and development agencies that need it to carry out their functions; and

(b) upon request, to any other agency or organization.

PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

3. Part 405, Subpart J, is amended by adding a new § 405.1050 to read as follows:

§ 405.1050 Conditions of participation: Uniform reporting.

The hospital complies with the requirements of Part 402, Subpart A, of this chapter, with respect to uniform reporting.

PART 433—STATE FISCAL ADMINISTRATION

4. Part 433 is amended by adding a new § 433.39 to read as follows:

§ 433.39 Uniform reporting: State plan requirements.

A State plan for medical assistance must provide that the State agency will require providers that are specified in Part 402 of this chapter to meet the applicable requirements of Part 402 with respect to uniform reporting.

(Secs. 1121, 1861(v)(1)(F) and 1902(a)(40) of the Social Security Act (42 U.S.C. 1320a, 1395x(v)(1)(F) and 1396a(a)(40)).
(Catalog of Federal Domestic Assistance Program No. 13.714, Medical Assistance Program; No. 13.773, Medicare-Hospital Insurance.)

Dated: September 25, 1978.

ROBERT A. DERZON,
Administrator, Health Care Financing Administration.

Approved: January 12, 1979.

HALE CHAMPION,
Acting Secretary.

[Gen. Docket No. 78-365]

PROTECTION OF FCC MONITORING STATIONS, FROM RADIO INTERFERENCE

Order Extending Time To File Comments and Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Order Extending Time to File Comments and Reply Comments.

SUMMARY: Order extending time to file comments from January 22, 1979 to March 22, 1979 and reply comments from February 21, 1979 to April 23, 1979 to the Notice of Proposed Rulemaking proposing Amendments to Parts 0, 5, 21, 23, 25, 73, 74, 78, 81, 87, 89, 91, 93, 94, 95, 97, and 99 of the Commission's Rules Relative to the Protection of FCC Monitoring Stations, from Radio Interference—GEN Docket No. 78-365.

DATES: Comments must be filed on or before March 22, 1979. Reply comments must be filed on or before April 23, 1979.

ADDRESSES: Federal Communications Commission, 1919 M Street, NW., Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

William A Luther, Chief, Engineering Division, Field Operations Bureau, Room 738, 1919 M St., NW., Washington, D.C. 20554 (202-632-7593).

SUPPLEMENTARY INFORMATION:

Adopted: January 15, 1979.

Released: January 17, 1979.

In the matter of amendments to Parts 0, 5, 21, 23, 25, 73, 74, 78, 81, 87, 89, 91, 93, 94, 95, 97, and 99 of the Commission's rules relative to the protection of FCC monitoring stations, from radio interference, GEN Docket No. 78-365. See 43 FR 54106, November 20, 1978.

1. The Commission has before it a Petition to Extend the Time for Filing Comments in General Docket No. 78-365[1] in the above captioned matter submitted by The American Radio Relay League, Incorporated, represented about 150,000 full or associate members.

2. The petitioner states that the orginial sixty-seven days provided for submitting comments is insufficent to disseminate the FCC proposals to League membership, and to permit publishing the Notice in the January, 1979 issue of their monthly Journal, *QST*.

3. In review of the fact that the Commission is most interested in securing a widespread base for comments in this rulemaking proceeding so that final determinations could be founded on as complete a record as possible, it appears that an extension of time is warranted.

4. Accordingly, under authority delegated by Section 0.311 of the Commission's Rules, it is ordered that the time for the filing of comments in General Docket No. 78-365 is extended until March 22, 1979, and for reply comments until April 23, 1979.

C. PHYLL HORNE,
Chief, Field Operations Bureau.

Order Extending Time For Filing Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Order extending time.

SUMMARY: Action taken herein extends the time for filing reply comments in a proceeding involving FM channel assignments in the states of New Hampshire, Vermont and Maine. The additional time is given so that parties can make a response to the counterproposals to assign channels to Concord, New Hamphire, and Lyndon, Vermont.

DATE: Reply comments must be filed on or before January 25, 1979.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mark N. Lipp, Broadcast Bureau (202) 632-7792.

SUPPLEMENTARY INFORMATION:

ORDER EXTENDING TIME FOR FILING REPLY COMMENTS

Adopted: January 16, 1979.

Released: January 17, 1979.

In the matter of amendment of § 73.202(b), *Table of Assignments*, FM Broadcast Stations. (Franklin and Keene, New Hampshire and Bennington and Brattleboro, Vermont, also Conway, Littleton, Meredith, Plymouth, Rochester, and Wolfeboro, New Hampshire, and Skowhegan, Maine.), Docket No. 20576. RM-2467, RM-2468, RM-2578.

1. On October 27, 1978, the Commission adopted a *Further Notice of Proposed Rule Making and Orders to Show Cause*, 43 FR 51652, concerning the above-entitled proceeding. The date for filing reply comments is presently January 16, 1979.

2. On December 28, 1978, two petitions were filed: (1) Lloyd F. Simon and Edward F. Perry, Jr., requesting the assignment of either Channel 287 or Channel 288A to Concord, New Hampshire; and (2) Lyndon State College requesting the assignment of Channel 288A to Lyndon, Vermont.

3. Public Notice of these conterproposals (Concord, New Hampshire RM-3301, and Lyndon, Vermont RM-3300) was given on January 10, 1979. Since these petitions are entitled to be considered as timely filed counterproposals in this proceeding, we are consolidating them and on our own motion, are extending the time for filing reply comments in order to give all parties an opportunity to prepare a response to these counterproposals.

4. *Accordingly, it is ordered*, That the date for filing reply comments in Docket No. 20576 is extended to and including January 25, 1979.

5. This action is taken pursuant to authority found in Sections 4(i), 5(d)(1) and 303(r) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 17]

ENDANGERED AND THREATENED WILDLIFE AND PLANTS

Proposed Rulemaking To Provide for the Establishment of Manatee Protection Areas

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed Rulemaking.

SUMMARY: The Service proposes to provide a means for the Director to establish manatee protection areas. Within these areas certain waterborne activities, such as boating and swimming, would be restricted or prohibited.

Research conducted by the National Fish and Wildlife Laboratory of the U.S. Fish and Wildlife Service and the University of Miami indicate that human activities, such as the operation of motor boats and swimming, in areas where manatees may congregate are a significant cause of manatee injuries and deaths. Any areas established under the proposed rules, if finalized, would reduce the incidence of manatee injuries and deaths by using the provisions of the Marine Mammal Protection Act of 1972 and the Endangered Species Act of 1973 to lessen the likelihood that manatees will encounter boats and people.

DATES: Public comment on this proposed rulemaking is invited. To be considered, comments must be received by February 22, 1979.

ADDRESSES: Comments should be submitted to the Director (FWS/LE), U.S. Fish and Wildlife Service, P.O. Box 19183, Washington, D.C. 20036. Comments should include the file number, REG 17-02-76. Comments and materials received will be available for public inspection during normal business hours at the Service's Division of Law Enforcement, Suite 600, 1612 K Street, NW., Washington, D.C. 20006

FOR FURTHER INFORMATION CONTACT:

Mr. Marshall L. Stinnett, Special Agent in Charge, Branch of Regulations and Penalties, Division of Law Enforcement, Fish and Wildlife Service, Suite 600, 1612 K Street, NW., Washington, D.C. 20006, 202-343-9237.

SUPPLEMENTARY INFORMATION:

BACKGROUND

The West Indian manatee, *Trichechus manatus*, is a protected marine mammal which has also been listed as an Endangered species. The only sizeable manatee population in the United States inhabits inland and coastal waters of the State of Florida. During warmer months some of the animals move into coastal waters of neighboring states. Currently available data suggests there is a manatee population in Florida of between 800 and 1,000. Available population estimates have been evaluated in light of the known level of manatee mortality in Florida, based on information gathered by the National Fish and Wildlife Laboratory of the U.S. Fish and Wildlife Service, and the University of Miami. Estimates indicate that the population is undergoing a serious decline. The high rate of mortality could also indicate a larger population than has been assumed. Until better data are available, however, it is prudent to base management policies on the most conservative estimates of population size.

Results of the cooperative manatee salvage and mortality study conducted by the University of Miami and the National Fish and Wildlife Laboratory of the U.S. Fish and Wildlife Service indicate that human activities are by far the greatest identifiable cause of manatee mortality in Florida. More than 50 percent of human-caused deaths investigated during the salvage program were attributed to boat or barge collisions. Furthermore, a high percentage of living manatees bear wounds and deformities caused by propellers. Additional human-related causes of manatee mortality are the tangling of manatees in nets and discarded fishing lines, and the harassment of manatees by apparently well-meaning, as well as vandalous, swimmers and divers. Such harassment will often force manatees away from warm springs and into colder water, where they become stressed and are more prone to disease. Harassment also causes disruption of the relationship between females and their nursing calves.

The major source of the above information is Brownell, Robert L., Jr., Katherine Ralls, and Randal R. Reeves (editors), *Report of the West Indian Manatee Workshop*, Orlando, Florida, March 27-29, 1978, 37 pp.

EFFECT OF THE RULEMAKING

The problem of manatee mortality caused by people and their activity was one of the concerns of Congress when it passed the Marine Mammal Protection Act of 1972. House Report 92-707 states that "• • • H.R. 10420 would provide the Secretary of the Interior with adequate authority to regulate or even to forbid the use of power boats where manatees are found • • •" (H.R. Rep. No. 707, 92d Cong., 2d Sess. 17-18 (1972)).

The proposed regulations are intended to exercise this authority. They would allow the Director to establish areas of water under the jurisdiction of the United States, both inland and coastal, within which certain waterborne activities would be restricted or prohibited. Such restrictions could include limits on the speed of boats, as well as other restrictions on activities such as boating, swimming, fishing, water skiing, and skin and scuba diving. The purpose of the regulations, the protection of manatees, is stated in § 17.100.

Section 17.101, Scope, explains that the subpart applies to the West Indian manatee (*Trichechus manatus*). Section 17.102 defines the terms "manatee sanctuary," "manatee refuge," "manatee protection area," "waterborne activity," and "water vehicle." These terms are all crucial to the establishment of areas within which manatees can be protected from harmful interaction with people and their activities.

Section 17.103 provides for the actual establishment of manatee protection areas. The Director, by regulations, may establish sanctuaries within which all waterborne activities, such as boating and swimming, would be prohibited. The Director may also establish refuges in which only certain activities would be prohibited or restricted. As an example, within a particular area boat speed could be limited or the number of swimmers allowed in the water at one time could be restricted.

Section 17.104 states the prohibitions applicable to the protection areas. It explains that it is uniawful to engage in any waterborne activity within a manatee sanctuary, or to engage in any waterborne activity in a manner contrary to that permitted within a manatee refuge by regulations applicable to that refuge. This

V 4 4 / 1 6 J A 2 3 7 9 UMI

section also makes it unlawful to engage in any waterborne activity prohibited by or in a manner contrary to that permitted by any State law or regulation the primary purpose of which is the protection of manatees. finally, the section allows an exception to the prohibitions when engaging in any prohibited activity which is reasonably necessary to prevent the loss of life or property due to weather conditions or other reasonably unforseen circumstances.

Section 17.105 provides for the issuance of permits to allow permit holders to engage in activities otherwise prohibited by this subpart.

Emergency establishment of manatee protection areas is provided for in § 17.106. This section would allow the emergency establishment of a protection area if substantial evidence shows there is imminent danger of a taking of one or more manatees.

The final section, § 17.107, is reserved for the listing of designated manatee protection areas.

AUTHORITY

This rulemaking and the establishment of manatee protection areas are authorized by sections 101(a), 102(a)(2), 104, 105, and 112(a) of the Marine Mammal Protection Act of 1972, 86 Stat. 1027 (16 U.S.C. 1371(a), 1372(a)(2), 1374, 1375, and 1382(a)); and by sections 4(d) and (f), 9(a)(1)(G), and 11(a) of the Endangered Species Act of 1973, 87 Stat. 884 (16 U.S.C. §§ 1533(d) and (f), 1538(a)(1)(G), and 1540(a)(1)).

NOTE.—The Service has determined that this roposed rulemaking is not a major Federal action which would significantly affect the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969. The Department has determined that this is not a significant rulemaking and does not require a regulatory analysis under Executive Order 12044 and 43 CFR Part 14.

The primary author of this proposal is Kenneth J. Hirsh, Legal Specialist, Division of Law Enforcement, U.S. Fish and Wildlife Service, 202-343-9237.

REGULATION PROMULGATION

Accordingly, it is hereby proposed to amend Title 50, Chapter I, Subchapter B, Part 17 in the following manner:

1. The table of sections for Part 17 is amended by adding the following, after Subpart J:

• • • • •

Subpart J—Manatee Protection Areas

17.100 Purpose.
17.101 Scope.
17.102 Definition.
17.103 Establishment of protection areas.
17.104 Prohibitions.
17.105 Permits.
17.106 Emergency establishment of protection areas.
17.107 List of designated manatee protection areas [RESERVED]

AUTHORITY: Marine Mammal Protection Act of 1972, 86 Stat. 1027, as amended, §§ 101(a), 102(a)(2), 104, 105, and 112(a) [16 U.S.C. §§ 1371(a), 1372(a)(2), 1374, 1375, and 1382(a)]; Endangered Species Act of 1973, 87 Stat. 884, as amended, §§ 4(d) and (f), 9(a)(1)(G), and 11(a)(1) [16 U.S.C. §§ 1533(d) and (f), 1538(a)(1)(G), and 1540(a)(1)].

2. Part 17 is amended by adding the following new subpart immediately after § 17.95:

• • • • •

Subpart J—Manatee Protection Areas

§ 17.100 Purpose.

This subpart provides a means for establishing areas of water under the jurisdiction of the United States within which certain waterborne activities will be restricted or prohibited for the purpose of preventing the taking of manatees.

§ 17.101 Scope.

This subpart applies to the West Indian manatee (*Trichechus manatus*), also known as the Florida manatee and as the sea cow. The provisions of this subpart are in addition to, and not in lieu of other regulations contained in this subchapter B which may require a permit or prescribe additional restrictions on the importation, exportation, transportation, or taking of wildlife, and the regulations contained in Title 33, Code of Federal Regulations, which regulate the use of navigable waters.

§ 17.102 Definitions.

In addition to definitions contained in the Act and in Part 10 of this subchapter, and unless the context otherwise requires, in this subpart: "Manatee sanctuary" means an area in which the Director has determined that any waterborne activity would result in a taking of one or more manatees, including but not limited to a taking by harassment.

"Manatee refuge" means an area in which the Director has determined that certain waterborne activity would result in the taking of one or more manatees, or that certain waterborne activity must be restricted to prevent the taking of one or more manatees, including but not limited to a taking by harassment.

"Manatee protection area" means a manatee refuge or a manatee sanctuary.

"Waterborne activity" includes, but is not limited to, swimming, diving (including skin and scuba diving), snorkeling, water skiing, surfing, fishing, and the use of water vehicles.

"Water vehicle" includes, but is not limited to, boats (whether powered by engine, wind, or other means), ships (whether powered by engine, wind, or other means), barges, surfboards, water skis, or any other device or mechanism the primary or an incidental purpose of which is locomotion on, across, or underneath the surface of the water.

§ 17.103 Establishment of protection areas.

The Director may, by regulation issued in accordance with 5 U.S.C. 553 and 14 CFR Part 14, establish manatee protection areas whenever there is substantial evidence showing such establishment is necessary to prevent the taking of one or more manatees. Any regulation establishing a manatee protection area shall state the following information:

(a) Whether the area is to be a manatee sanctuary or refuge.

(1) If the area is to be a manatee sanctuary, the regulation shall state that all waterborne activities are prohibited.

(2) If the area is to be a manatee refuge, the regulation shall state which, if any, waterborne activities are prohibited, and it shall state the applicable restrictions, if any, on permitted waterborne activities.

(b) a description of the area sufficient enough so that its location and dimensions can be readily ascertained without resort to means other than published maps, natural or man-made physical reference points, and posted signs.

(c) The dates of the year during which the designation as a protection area shall be in effect.

§ 17.104 Prohibitions.

Except pursuant to a permit issued under the provisions of section 17.105 below,

(a) *Manatee sanctuary.* It is unlawful for any person to engage in any waterborne activity within a manatee sanctuary.

(b) *Manatee refuge.* It is unlawful for any person within a particular manatee refuge to engage in any waterborne activity which has been specifically prohibited within that refuge, or to engage in any waterborne activity in a manner contrary to that permitted by regulation within that area.

(c) *State law.* It is unlawful for any person to engage in any waterborne activity prohibited by, or to engage in any waterborne activity in a manner contrary to that permitted by, any State law or regulation the primary purpose of which is the protection of manatees.

(d) *Exceptions.* Any waterborne activity otherwise prohibited by this section may be engaged in if doing so is reasonably necessary to prevent the loss of life due to weather conditions or other reasonably unforeseen circumstances.

§ 17.105 Permits.

The Director may issue permits allowing the permittee to engage in any activity otherwise prohibited by this subpart. Such permits shall be issued in accordance with the provisions of section 17.22 of this Part 17.

§ 17.106 Emergency establishment of protection areas.

(a) The Director may establish manatee protection area under the provisions of subsections (b) and (c) below at any time he determines there is substantial evidence that there is imminent danger of a taking of one or more manatees, and that such establishment is necessary to prevent such a taking.

(b) The establishment of a manatee protection area under this section shall become effective immediately upon completion of the following requirements:

(1) Publication of a notice containing the information required by § 17.103 above in a newspaper of general circulation in each county, if any, in which the protection area lies; and

(2) Posting of the protection area with signs clearly marking its boundaries.

(c) Simultaneously with the publication required by subsection (b) above, the Director shall publish the same notice in the FEDERAL REGISTER. If simultaneous publication is impractical, because of the time involved or the nature of a particular emergency situation, failure to publish notice in the FEDERAL REGISTER simultaneously shall not delay the effective part of the emergency establishment. In such a case, notice shall be published in the FEDERAL REGISTER as soon as possible.

(d) No emergency establishment of a protection area shall be effective for more than 120 days. Termination of an emergency establishment of a protection area shall be accomplished by publishing notice of the termination in the FEDERAL REGISTER and in a newspaper of general circulation in each county, if any, in which the protection area lies.

§ 17.107 List of designated manatee protection areas [Reserved]

Dated: January 17, 1979.

LYNN A. GREENWALT,
Director,
Fish and Wildlife Service.

[FR Doc. 79-2296 Filed 1-22-79: 8:45 am]

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

Forest Service

SUPERIOR NATIONAL FOREST LAND AND RESOURCE MANAGEMENT PLAN, COOK, LAKE AND ST. LOUIS COUNTIES, MINNESOTA

Intent To Prepare an Environmental Statement

The Superior National Forest (Forest Service, Department of Agriculture) will prepare an Environmental Statement for its Land and Resource Management Plan, pursuant to Section 102(2)(c) of the National Environmental Policy Act, Agriculture Department Policy as expressed in proposed CFR 36:219, and Forest Service Manual Section 1952.22a.

The Superior National Forest, located in northeastern Minnesota, is one of the ten forests in the National Forest System chosen to develop a model Land and Resource Management Plan for the other 144 National Forests across the Country. The planning process is outlined in a work plan developed by the Planning Team.

Several problems have been identified as needing attention in the planning process. These have been scrutinized and amplified in a series of Issues Identification workshops which were held between October 24 and November 8, 1978, in Grand Marais, Virginia, Duluth, and St. Paul, Minnesota. In order to arrive at a specific list of issues to be addressed in the Land and Resource Management Plan, the public has been invited to rank the identified issues in order of importance and submit ranked lists by January 26 to the Forest Supervisor, Superior National Forest, P.O. Box 338, Duluth, Minnesota 55801.

It is anticipated that the project will take approximately 18 months. A Draft Environment Statement (DES) is planned for October 1979, with the Land and Resource Management Plan and Final Environmental Statement being published approximately 6 months later.

Steve Yurich, Regional Forester of the Eastern Region, is the responsible official and Robert O. Rehfeld, Forest Supervisor of the Superior National Forest, is the person in charge of the project.

Comments or questions on this Notice of Intent or the planning process should be addressed to: Forest Supervisor, Superior National Forest, P.O. Box 338, Duluth, Minnesota 55801.

STEVE YURICH,
Regional Forester.

BASIN ELECTRIC POWER COOPERATIVE

Draft Environmental Impact Statement

Notice is hereby given that the Rural Electrification Administration (REA) has prepared a Draft Environmental Impact Statement (DEIS) with inputs from the Department of Energy (DOE) in accordance with Section 102(2)(c) of the National Environmental Policy Act of 1969 (NEPA) in connection with proposed applications from the Basin Electric Power Cooperative, 1717 East Interstate Avenue, Bismarck, North Dakota, 58501, to finance, construct, and operate transmission facilities to be located in portions of Burke, Divide, Williams, Mountrail and Ward Counties, North Dakota. Under agreement between REA and DOE, REA has served as lead agency for purposes of complying with the NEPA. DOE has adopted the Environmental Impact Statement to satisfy its responsiblities under NEPA.

This statement examines the impacts of 135 miles of 230 kV transmission line to effect an internation transmission connection with Canada and to help strengthen the existing transmission system. The proposed line would be constructed from Basin Electric's Logan Substation near Minot (Ward County) to the Montana-Dakota Utilitys' substation at Tioga (Williams County) and then to a point in Divide County on the United States-Canadian Border. 45 miles due north of Tioga. This project as planned would provide a 100 MW seasonal interchange of power between Basin Electric Power Cooperative and Saskatchewan Power Corporation as well as improve transmission service in the Tioga area.

Additional information may be secured on request, submitted to the Assistant Administrator-Electric, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250, or Mr. James M. Brown, Jr., System Reliability and Emergency Response Branch, Economic Regulatory Administration, Department of Energy, Room 4070, Vanguard Building, Washington, D.C. 20461, telephone number: (202) 634-5620.

Comments are particularly invited from State and local agencies which are authorized to develop and enforce environmental standards and from Federal agencies having jurisidiction by law or special expertise with respect to any environmental impact involved from which comments have not been requested specifically.

Copies of the REA Draft Environmental Impact Statement have been sent to various Federal, State, and local agencies, as outlined in the Council on Environmental Quality guidelines. The Draft Environmental Impact Statement may be examined during regular business hours at the office of REA in the South Agriculture Building, 12th Street and Independence Avenue, SW., Washington, D.C., Room 1268, or the Department of Energy Public Docket Room B110, 2000 M Street, NW., Washington, D.C., or at the borrower's address indicated above. Copies of the REA DEIS may be obtained upon request to the REA at the above address.

Comments concerning the DEIS should be addressed to the Assistant Administrator-Electric at the address given above. Comments must be received on or before March 26, 1979, to be considered in connection with the proposed action.

Final REA and DOE action with respect to this matter (including any release of funds) will be taken only after REA and DOE have reached satisfactory conclusions with respect to its environmental effects and after procedural requirements set forth in the National Environmental Policy Act of 1969 have been met.

Dated at Washington, D.C., this 16th day of January 1979.

JOSEPH VELLONE,
Acting Administrator, Rural Electrification Administration.

CIVIL AERONAUTICS BOARD

[Docket 33712]

TIGER INTERNATIONAL-SEABOARD ACQUISITION CASE

Postponement of Prehearing Conference

Notice is hearby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that the prehearing conference in the above-entitled matter, originally scheduled for January 25, 1979, Hearing Room D (44 FR 2187, January 10, 1979), will now be held on February 1 and 2, 1979, at 9:30 a.m. (local time) in Room 1003, Hearing Room A, 1875 Connecticut Avenue, NW., Washington, D.C., before the undersigned judge.

Dated at Washington, D.C., January 16, 1979.

JOHN J. MATHIAS,
Administrative Law Judge.

COMMISSION ON CIVIL RIGHTS

ILLINOIS, INDIANA, MICHIGAN, MINNESOTA, OHIO, WISCONSIN

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a press conference of THE Illinois, Indiana, Michigan, Minnesota, Ohio, Wisconsin Advisory Committees (SACs) of the Commission will convene at 9:30 am and will end at 11:00 am, on February 20, 1979, at the Dirksen Federal Building, 219 South Dearborn, Room 572, Chicago, Illinois 60604.

Persons wishing to attend this press conference should contact the Committee Chairperson, or the Midwestern Regional Office of the Commission, 230 South Dearborn Street, 32nd Floor, Chicago, Illinois 60604.

The purpose of this conference is to release a report—*Insurance Redlining: Fact, Not Fiction.*

This meeting will be conducted pursuant to the provisions of the Rules and Regulations of the Commission.

Dated at Washington, D.C., January 18, 1979.

JOHN I. BINKLEY,
Advisory Committee Management Officer.

[6335-01-M]

KANSAS ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a factfinding meeting of the Kansas Advisory Committee (SAC) of the Commission will convene at 1:00 pm, February 15, 1979 and will end at 5:00 pm, February 16, 1979, at the U.S. Post Office and Courthouse, 401 North Market, Second Floor Conference Room, Wichita, Kansas 67201.

Persons wishing to attend this factfinding meeting should contact the Committee Chairperson, or the Central States Regional Office of the Commission, Old Federal Office Building, Room 3103, 911 Walnut Street, Kansas City, Missouri 64106.

The purpose of this meeting is to conduct an "open meeting" on the Wichita Police Department and the Sedgwick County Sheriff's Department relative to the use of force and their employment practices.

This meeting will be conducted pursuant to the provisions of the rules and Regulations of the Commission.

Dated at Washington, D.C., January 18, 1979.

JOHN I. BINKLEY,
Advisory Committee Management Officer.

[6335-01-M]

MONTANA ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil rights, that a press conference of the Montana Advisory Committee (SAC) of the Commission will convene at 10:00 a.m. and will end at 12:00 noon on February 6, 1979 and will convene again at 7:00 p.m. and will end at 10:00 p.m. on February 7, 1979, at the Federal Building, Room 289, Helena, Montana.

Persons wishing to attend this press conference should contact the Committee Chairperson, or the Rocky Mountain Regional Office of the Commission, Executive Tower, 1405 Curtis Street, Suite 1700, Denver, Colorado 80202.

The purpose of this press conference is to release the Montana Advisory Committee Report on Corrections in the State of Montana.

This meeting will be conducted pursuant to the Rules and Regulations of the Commission.

Dated at Washington, D.C., January 18, 1979.

JOHN I. BINKLEY,
Advisory Committee Management Officer.

[6335-01-M]

PENNSYLVANIA ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Pennsylvania Advisory Committee (SAC) of the Commission will convene at 10;30 a.m. and will end at 5:00 p.m., on February 15, 1979, at the Federal Building, 600 Arch Street, Room 7306, Philadelphia, Pennsylvania 19106.

Persons wishing to attend this open meeting should contact the Committee Chairperson, or the Mid-Atlantic Regional Office of the Commission, 2120 L Street, N.W., Room 510, Washington DC 20037.

The purpose of this meeting is to discuss the primary program planning agenda items, which include Lewisburg Prison Study, Mushroom workers report—update, school desegregation in Pittsburgh, briefing on upcoming hearings on police practices in Philadelphia, and orientation of new members will precede meeting.

This meeting will be conducted pursuant to the provision of the Rules and Regulations of the Commission.

Dated at Washington, D.C., January 18, 1979.

JOHN I. BINKLEY,
Advisory Committee Management Officer.

[6335-01-M]

VIRGINIA ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Virginia Advisory Committee (SAC) of the Commission will convene at 6:30 p.m. and will end at 9:30 p.m., on February 15, 1979, at City Hall, Fifth Floor, Conference Room, Richmond, Virginia.

Persons wishing to attend this open meeting should contact the Committee Chairperson, or the Mid-Atlantic Regional Office of the Commission, 2120 L Street, N.W., Room 510, Washington DC 20037.

The purpose of this meeting is to discuss program planning for 1979.

This meeting will be conducted pursuant to the provisions of the Rules and Regulations of the Commission.

Dated at Washington, D.C., January 18, 1979.

JOHN I. BINKLEY,
Advisory Committee Management Officer.

DEPARTMENT OF COMMERCE

National Bureau of Standards

ROTATING MASS STORAGE SUBSYSTEMS

Proposed Federal Information Processing Standards

Under the provisions of Public Law 89-306 (79 Stat. 1127; 40 U.S.C. 759(f)) and Executive Order 11717 (38 FR 12315, dated May 11, 1973), the Secretary of Commerce is authorized to establish uniform automatic data processing (ADP) standards. A single standard is proposed for Federal use which encompasses three distinct classes of rotating mass storage subsystems.

This standard for rotating mass storage subsystems will be used with two other proposed standards. The first of these, the I/O Channel Interface, was originally proposed in a notice published in the FEDERAL REGISTER on December 30, 1976 (41 FR 56877), with subsequent revisions in notices published on August 22, 1977 (42 FR 42242) and on June 19, 1978 (43 FR 26341). The second of these standards, the Channel Level Power Control Interface, was originally proposed in a notice published in the FEDERAL REGISTER on March 4, 1977 (42 FR 12452) with subsequent revisions in notices published in the FEDERAL REGISTER on March 25, 1977 (42 FR 16169) and on June 19, 1978 (43 FR 26341).

The announcement of the two proposed standards for the I/O Channel Interface and the Channel Level Power Control Interface, published in the FEDERAL REGISTER on June 19, 1978 (43 FR 26341) stated: "It is the Government's intent to propose a standard for operational specifications for magnetic disk subsystems within the next 12 months." This proposed standard for rotating mass storage subsystems completes that planned action.

Prior to submission of this proposed standard to the Secretary of Commerce for approval as a Federal Information Processing Standard, it is essential to assure that proper consideration is given to the needs and views of the public, state and local governments, and manufacturers. It is appropriate at this time to solicit such views.

The technical specifications contained in this proposed standard were prepared under the auspices of the American National Standards Institute, Technical Subcommittee X3T9. They consist of four documents. The first of these, ANSI document number X3T9/848, Rev. 2, "Draft Proposed Operational Specification for Rotating Mass Storage Subsystems," defines the overall standard. This document is in turn supplemented by three documents, each of which provides supplemental track format definition and specifies the sense information format and content for three classes of rotating mass storage devices: (1) American National Standards Institute document X3T9/904 Rev. 1, Draft Proposed American National Standard, Class A Rotating Mass Storage Device Specification, (2) American National Standards Institute document X3T9/905 Rev. 1, Draft Proposed American National Standard, Class B Rotating Mass Storage Device Specification, and (3) American National Standards Institute document X3T9/906 Rev. 1, Draft Proposed American National Standard, Class C Rotating Mass Storage Specification.

The proposed Federal Information Processing Standard contains two basic sections: (1) An announcement section which provides information concerning the applicability and implementation of the standard, and (2) a specification section which defines the technical parameters of the standard. Only the announcement section is provided in this notice.

Interested parties may obtain a copy of the specification section of this standard from the Director, Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D.C. 20234.

Written comments on this proposed standard should be submitted to the Director, Institute for Computer Sciences and Technology at the above address. Comments to be considered must be received on or before March 30, 1979.

Dated: January 17, 1979.

ERNEST AMBLER,
Director.

FEDERAL INFORMATION PROCESSING STANDARDS PUBLICATION

Date ———

ANNOUNCING THE STANDARD FOR OPERATIONAL SPECIFICATIONS FOR ROTATING MASS STORAGE SUBSYSTEMS

Federal Information Processing Standards Publications are issued by the National Bureau of Standards pursuant to the Federal Property and Administrative Services Act of 1949, as amended, Public Law 89-306 (79 Stat. 1127), Executive Order 11717 (38 FR 12315, dated May 11, 1973) and Part 6 of Title 15 Code of Federal Regulations (CFR).

Name of Standard. Operational Specifications for Rotating Mass Storage Subsystems (FIPS PUB).

Category of Standard. Interface.

Explanation. This standard defines the peripheral device dependent operational interface specifications for connecting rotating mass storage equipment as a part of automatic data processing (ADP) systems. It is to be used together with FIPS PUB , I/O Channel Interface and FIPS PUB , Channel Level Power Control Interface. This standard, together with these two referenced standards, provides for full plug-to-plug interchangeability of rotating mass storage equipment as a part of ADP systems.

The Government's intent in employing this standard for Operational Specifications for Rotating Mass Storage Subsystems is to reduce the cost of satisfying its data processing requirements through increasing its available alternative sources of supply for computer system components at the time of initial system acquisition, as well as in system replacement augmentation and in system component replacement. This standard is also expected to lead to improved reutilization of system components.

When acquiring ADP systems and system components, Federal agencies shall cite this standard in specifying the interface for connecting rotating mass storage peripheral equipment as a part of ADP systems.

Approving Authority. Secretary of Commerce.

Maintenance Agency. Department of Commerce, National Bureau of Standards (Institute for Computer Sciences and Technology).

Cross Index. American National Standards Institute document X3T9/848, Rev. 2, Draft Proposed Operational Specifications for Rotating Mass Storage Subsystems. This operational specification is in turn supplemented by three draft proposed American National Standards, each of which provides supplemental track format definition and specifies the sense information format and content for a particular class of rotating mass storage devices: (1) American National Standards Institute document X3T9/904 Rev. 1, Draft Proposed American National Standard Class A Rotating Mass Storage Device Specification, (2) American National Standards Institute document X3T9/905 Rev. 1, Draft Proposed American National Standard Class B Rotating Mass Storage Device Specification, and (3) American National Standards Institute document X3T9/906 Rev. 1, Draft Proposed American National Standard Class C Rotating Mass Storage Specification.

Applicability. This standard is applicable to the acquisition of all rotating mass storage equipment whenever the use of Federal Information Processing Standard I/O Channel Interface (NBS-FIPS-PUB) is required.

Verification of the correct operation of all interfaces that are required to conform to this standard shall, through demonstration or other means acceptable to the Government, be provided prior to the acceptance of all applicable ADP equipment.

Specifications. This standard incorporates by reference the technical specifications of ANSI documents X3T9/848 Rev. 2, X3T9/904 Rev. 1, X3T9/905 Rev. 1, and X3T9/906 Rev. 1. Either paper of microfiche copies of this Federal Information Processing Standard, including the technical specifications, may be purchased from the National Technical Information Service (NTIS) by ordering Federal Information Processing Standard Publication (NBS-FIPS-PUB-). Operational Specifications for Rotating Mass Storage Subsystems. Ordering information, including prices and delivery alternatives, may be obtained by contacting the National Technical Information Service (NTIS), U.S. Department of Commerce, Springfield, Virginia 22161, Telephone: (703) 557-4630.

Implementation. The provisions of this standard are effective on May 23, 1979. All applicable equipment ordered on or after the effective date, or procurement actions for which solicitation documents have not been issued by that date, must conform to the provisions of this standard unless a waiver has been granted in accordance with the procedure described elsewhere in this publication.

Regulations concerning the specific use of this standard in Federal procurement will be issued by the General Services Administration to be a part of the Federal Property Management Regulations.

This standard shall be reviewed by NBS within three years after its effective date, taking into account technological trends and other factors, to determine whether the standard should be affirmed, revised, or withdrawn.

Waivers. Heads of agencies desiring a waiver from the requirements stated in this publication, so as to acquire ADP equipment that does not conform to this standard, shall submit a request for such a waiver to the Secretary of Commerce for review and approval. Approval will be granted if, in the judgment of the Secretary based on all available information, including that provided in the waiver request, a major adverse economic or operational impact would occur through conformance with this standard.

Requests for waivers shall include: (1) A description of the existing or planned ADP system for which the waiver is being requested, (2) a description of the system configuration, identifying those items for which the waiver is being requested, and including a description of planned expansion of the system configuration at any time during its life cycle, and (3) a justification for the waiver, including a description and discussion of the major adverse economic or operational impact that would result through conformance to this standard as compared to the alternative for which the waiver is requested.

The request for waiver shall be submitted to the Secretary of Commerce, Washington, D.C. 20230, and labeled as a Request for Waiver to a Federal Information Processing Standard. Waiver requests will normally be processed within 45 days of receipt by the Secretary. No action shall be taken to issue solicitation documents or to order equipment for which this standard is applicable and which does not conform to this standard prior to receipt of a waiver approval response from the Secretary.

National Oceanic and Atmospheric Administration

WESTERN PACIFIC FISHERY MANAGEMENT COUNCIL, SPINY LOBSTER AND BOTTOMFISH ADVISORY SUBPANEL

Public Meetings

AGENCY: National Marine Fisheries Service, NOAA.

SUMMARY: The Western Pacific Fishery Management Council's Spiny Lobster Advisory Subpanel and Bottomfish Advisory Subpanel will conduct public meetings to discuss progress on fishery management plans in the Council's area of concern.

DATE: February 5, 1979.

ADDRESS: The meetings will take place at the Southwest Fisheries Center, Honolulu Laboratory, 2570 Dole Street, Honolulu, Hawaii.

FOR FURTHER INFORMATION CONTACT:

Ms. Kitty Simonds, Executive Secretary, Western Pacific Fishery Management Council, 1164 Bishop Street, Honolulu, Hawaii 96813, Telephone: (808) 523-1368.

SUPPLEMENTARY INFORMATION: The Western Pacific Fishery Management Council was established by the Fishery Conservation and Management Act of 1976 (Public Law 94-265), and the Council has established Advisory Subpanels for Spiny Lobster and Bottomfish to assist the Council in carrying out its responsibilities. These Subpanels will meet to discuss progress in development of fishery management plans for the spiny lobster fishery of the Northwest Hawaiian Islands and for the bottomfish fishery.

V 4 4 / 1 6 JAN 23 79 UMI

V 4 4 / 1 6 J A 2 3 7 9 UMI

The Bottomfish Advisory Subpanel meeting will convene on Monday, February 5, 1979, at 8:30 a.m. and adjourn at approximately 1:30 p.m. to discuss the bottomfish management plan. The Spiny Lobster Advisory Subpanel meeting will convene on Monday, February 5, 1979, at 1:30 p.m. and adjourn at approximately 5:30 p.m. to discuss the spiny lobster management plan. Both meetings are open to the public.

Dated: January 18, 1979.

WINFRED H. MEIBOHM,
Acting Executive Director,
National Marine Fisheries Service.

COMMODITY FUTURES TRADING COMMISSION

SEMIANNUAL AGENDA OF REGULATIONS

AGENCY: Commodity Futures Trading Commission.

ACTION: Publication of Commission agenda.

SUMMARY: The Commodity Futures Trading Commission is providing public notice of the approved Commission calendar for the second quarter of fiscal year 1979. Major rulemaking activities which the Commission currently anticipates have also been included in this notice. In an attempt to broaden public participation in the Commission's rulemaking process, supplementary information is included on the major rulemaking efforts planned for fiscal year 1979.

FOR FURTHER INFORMATION CONTACT:

Office of the Secretariat, Commodity Futures Trading Commission, 2033 K Street N.W., Washington, D.C. 20581.

SUPPLEMENTARY INFORMATION:

MAJOR REGULATORY INITIATIVES

1. LEVERAGE TRANSACTIONS POLICY

Need/Objective: The Commission has taken action on its previous proposal to adopt a rule establishing a temporary moratorium on the entry of new firms into the business of offering and selling standardized contracts commonly known as leverage contracts after June 1, 1978. In addition the Commission plans to meet the requirements of new Section 19 of the Commodity Exchange Act, by determining whether or not trading leverage contracts in certain commodities should be permitted and, if so, under what conditions.

Legislative Authority: Section 19 of the Commodity Exchange Act, as amended, by the Futures Trading Act of 1978, Pub. L. No. 95-405, section 23, 92 Stat. 876-77.

Agency Contact: David Merrill, Office of General Counsel, 2033 K Street, N.W., Washington, D.C. 20581, 202-254-5387.

Outstanding F.R. Notices. Proposed Rule, 43 F.R. 23729; June 1, 1978, MORATORIUM ON THE OFFER AND SALE OF LEVERAGE CONTRACTS; Offering and Selling Standardized Contracts; Final Rule, 43 FR 56885; December 5, 1978, TEMPORARY MORATORIUM REGARDING GOLD AND SILVER LEVERAGE TRANSACTIONS.

2. TITLE III/STANDARDS FOR SELF REGULATORY ASSOCIATIONS

Need/Objective: With the objective of strengthening self-regulatory efforts within the futures industry, the CFTC has proposed standards to be applied in determining whether to register any applicant futures association(s) under Section 17 of the Commodity Exchange Act.

Legislative Authority: Section 17 of the Commodity Exchange Act, 7 U.S.C. 21 (1976).

Agency Contact: Mark D. Young, Office of General Counsel, 2033 K Street, N.W., Washington, D.C. 20581, 202-254-5716.

Outstanding FR Notice. Proposed Rulemaking, 43 FR 46039; October 5, 1978, REGISTERED FUTURES ASSOCIATIONS; Proposed Standards Governing Commission Review of Applications for Registration As a Futures Association, Form of Registration Statement.

3. FOREIGN TRADER POLICY/REPORTING REQUIREMENTS

Need/Objective: The Commission's objective in developing a foreign trader policy is to insure that parity of treatment is provided for both foreign and domestic market participants. Further consideration will be given to the issues of foreign government participation, foreign omnibus accounts, the publication of data on foreign participation in U.S. markets, and requiring foreign traders to designate U.S. agents for filing information and service of process.

Legislative Authority: Sections 4g(1), 4g(3), 4g(4), 4i, and 8a(5) of the Commodity Exchange Act, 7 U.S.C. 6g(1), 6g(3), 6g(4), 6i and 12a(5) (1976).

Agency Contact: Lamont L. Reese, Economics and Education, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581 202-254-7446.

Outstanding FR Notice. Proposed Revision of Forms and Proposed Rulemaking, 42 FR 62147 (December 9, 1977), GENERAL REGULATIONS UNDER THE COMMODITY EXCHANGE ACT; REPORTS BY FUTURES COMMISSION MERCHANTS AND FOREIGN BROKERS; REPORTS BY TRADERS; Proposed Revision of Forms.

4. SPREAD TRADING

Need/Objective: The Commission's objective is to assess the practice of spread trading as well as the procedures under which it takes place to determine whether or not comprehensive regulations are required to insure the integrity and competitiveness of the market place.

Legislative Authority: Sections 4c(a) and 8a(5) of the Commodity Exchange Act, 7 U.S.C. 6c(a) and 12a(5) (1976).

Agency contact: Patricia Gillman, Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581, 202-254-5200.

Outstanding FR Notice. Advance Notice of Proposed Rulemaking; 43 FR 32092 (July 24, 1978); SPREAD TRADING.

5. COMMODITY OPTIONS PILOT PROGRAM

Need/Objective: The Commission plans to adopt regulations to test, within the context of a limited, rigidly controlled pilot program, the economic benefits provided by commodity option trading and to determine whether or not adequate customer protection can be provided. Several program issues, including criteria for selecting commodities, must be resolved before final regulations are adopted.

Legislative Authority: Sections 2(a)(1), 4c(b) and 8a(5) of the Act, 7 U.S.C. 2, 9, 6c(b) and 12a(5) (1976), as amended by Pub. L. 95-405, section 3, 92 Stat. 867-869 (September 30, 1978).

Agency Contact: Frank Moore, Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581, 202-632-5110.

Outstanding FR Notice. Proposed Rule Change, 42 FR 55538 (October 17, 1977), GENERAL REGULATIONS UNDER THE COMMODITY EXCHANGE ACT; Regulation of Commodity Option Transactions.

6. DEALER OPTIONS

Need/Objective: Congress has directed the Commission to issue regulations permitting grantors and futures commission merchants to grant, offer and sell options on physical commodities subject to certain conditions specified by statute and such other uniform and reasonable requirements as the Commission may prescribe.

Legislative Authority: Sections 2(a)(1), 4c and 8a(5) of the Act, 7 U.S.C. 2, 6c and 12a(5) (1976), as amended by Pub. L. 95-405, section 3, 92 Stat. 867-869 (September 30, 1978).

Agency Contact: Mark Rae, Office of General Counsel, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581, 202-254-7285.

Outstanding FR Notice. Proposed Reissuance of and Amendments to Commodity Option Regulations, 43 FR 59396 (December 20, 1978).

COMMODITY FUTURES TRADING COMMISSION CALENDAR

The following calendar represents the current projection of anticipated Commission discussion of specified topics. The final Commission agenda will continue to be published weekly in the FEDERAL REGISTER.

JANUARY CALENDAR

Tuesday, January 16	S & A	Proposed FY 1979 Schedule of Contract Review Calls (Regulation 1.50).
Tuesday, January 23	OGC	Prohibition of Leverage Contracts on Commodities Other Than Gold, Silver bullion and Bulk Coins—Proposed FEDERAL REGISTER Notice.
Tuesday, January 30	OCE	CFTC Foreign Trader Policy Discussion: Parity of treatment for foreign and domestic market participants. Foreign government participation in domestic futures markets. Proposed reporting requirements for foreign traders. Foreign omnibus accounts. Designation of U.S. Agents of foreign participants for the purpose of filing information and service of process.
	OGC	Title III: Review of public comments. Policy discussion.
	OCE	Uniform Reporting of Daily Futures Prices (Part 16).

FEBRUARY CALENDAR

Tuesday, February 6	OPR	Update of Long-Term Planning Projections and Priorities.
	T & M	Commodity Option Pilot Program: Proposed CFTC Management Plan.
Tuesday, February 13	T & M	Spread Trading Policy Discussion: Review of public comments.
	T & M	Regulation 1.31—Availability of FCM and Exchange Books and Records.
	OED	First Quarterly Review.
	OGC	Procedures for Expedited Adjudicatory Proceedings.
Wednesday, February 21	T & M	Proposed Revision of Registration Program and review of refunding fees policy.
Tuesday, February 27	OCE	Aggregation Policy Discussion

MARCH CALENDAR

Tuesday, March 6	OCE	CME—4 Year Notes.
Tuesday, March 13		Open.
Tuesday, March 20	T & M	Review and Discussion of CFTC Rule Enforcement Review Program.
	OGC	Advisory Committee Report on State Jurisdiction.
Tuesday, March 27		Open.

The following issues are regulatory matters scheduled for discussion during the third and fourth quarters of FY 79. More complete calendars will be published prior to April and July 1979. They will include follow-up discussions on many of the topics scheduled for first and second quarter consideration as well as discussions on several internal organizational and administrative matters.

DRAFT CALENDAR, THIRD QUARTER-FISCAL YEAR 1979, APRIL-JUNE

OCE	Research Program: Priorities and Projects.
T & M	Report on Timetable for Review of exchange Rules and Implementation by Exchanges of Disciplinary Rules and Financial Rules.
T & M	Proposed Regulations Relating to Associated Person Registration Program.
OED	Second Quarterly Review.
OCE	Review of CFTC and Exchange Surveillance Programs: Cash market studies. Improved quantitative techniques for market surveillance.

DRAFT CALENDAR, FOURTH QUARTER—FISCAL YEAR 1979, JULY-SEPTEMBER

OCE	Study of Dual Trading and Market Liquidity.
OCE	Research Reports: Market survey of participation: studies on market functions and performance.
T & M	Evaluation and Assessment of Customer Protection Rules.
OED	Third Quarterly Review.
OED	Development and Review of Fiscal Year 1981 Budget and Plan.

Issued in Washington, D.C. on January 18, 1979 by the Commission.

GARY L. SEEVERS,
Acting Chairman,
Commodity Futures Trading Commission.

DEPARTMENT OF DEFENSE

Department of the Air Force

M-X: MILESTONE II

Supplement to Final Environmental Impact Statement

This notice expands on the January 8, 1979, FEDERAL REGISTER notice announcing the Department of the Air Force's intent to supplement the Final Environmental Impact Statement (EIS), "M-X Milestone II," published on October 6, 1978. This supplement will be an analysis of an air mobile alternative. This notice, a description of proposed actions and alternatives, provides advance information to the public; to federal, state and local agencies and to interested groups on the supplement now in preparation.

Volume IV of the "M-X: Milestone II" Final EIS included two air mobile options which were found to be less suitable than other candidate basing modes for a mobile intercontinental ballistic missile (ICBM) system. Subsequently, a reanalysis of data and new studies indicated that additional consideration should be given to other air mobile options. This has resulted in a delay in the decision on the most suitable basing mode. The planned supplement will add environmental impact information regarding the air mobile alternative to that described in the FEIS for the buried trench, vertical and horizontal shelter and pool alternatives.

The proposed action evaluated in the final EIS and the planned supplement will lead to a full scale engineering development (FSED) decision. FSED includes fabrication of a number of prototype (test) missiles, and the testing of the missiles and basing concepts. FSED does not include selection of deployment areas or bases for the operational missile system nor does it include production of operational missiles, missile carriers or other basing components.

Study of mobile missile concepts is the result of intelligence estimates which show that the present land-based ICBM force is becoming more vulnerable to attack. The introduction of mobility is the means proposed to improve the survivability of the ICBM force. The M-X Milestone II Final EIS described several ground-based, mobile systems which, together with a new missile, offer greater survivability than present ICBM systems. These were called multiple aiming point (MAP) systems and are now known as multiple protective structure (MPS) systems. A description of the air mobile alternative contained in the planned supplement to the Final EIS will be added to the MPS alternatives so that decisionmakers will have a broader choice at the planned late March 1979 date for selection of the preferred basing mode(s).

The air mobile alternative as now envisioned consists of a transport aircraft, a missile similar to those described in the Final EIS and a structure of air bases. The missile could be launched from the aircraft in flight. Three levels of bases might be used. Main operating bases from which the transport/missile force would be logistically supported; perhaps several times as many alert bases, to which two or four aircraft with missiles, crews and minimum support personnel would be rotated from the main operating bases; and possible existing airfields or other locations to which the alert base aircraft would be randomly sent in the event of an actual or expected missile attach on the United States. Other options within this alternative may be studied. The Air Force intends to make maximum use of existing bases and airfields in this concept.

The draft of the supplement to the M-X Milestone II Final EIS will be published and filed with the EPA about mid-February 1979. The public comment period will extend 25 days from the date of the filing. The final supplement to the Final EIS will be filed with the EPA about two weeks after close of the comment period. It will contain the substantive public comments and the Air Force's responses to them. The supplement does not constitute an EIS for the purpose of siting or deployment of M-X. Any comments or questions should be directed to the Deputy for Environment and Safety, Office of the Secretary of the Air Force, Room 4C-885, the Pentagon, Washington, DC. 20330. Telephone: 202/697-9297.

Dated: January 18, 1979.

CAROL M. ROSE,
Air Force Federal Register Liaison Officer.

FEDERAL RESERVE SYSTEM

AMERICAN STATE FINANCIAL CORP.

Acquisition of Bank

American State Financial Corporation, Lubbock, Texas, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent of the voting shares (less directors' qualifying shares) of Liberty State Bank, Lubbock, Texas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit views in writing to the Reserve Bank to be received not later than February 9, 1979. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, January 17, 1979.

[6210-01-M]

THIRD NATIONAL CORP.

Proposed Acquisition of Third National Life Insurance Co.

Third National Corporation, Nashville, Tennessee, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to acquire voting shares of Third National Life Insurance Company, Phoenix, Arizona. Notice of the application was published on December 14, 1978 in *The Arizona Republic*, a newspaper circulated in the County of Maricopa, Arizona, and on December 2, 1978 in *The Nashville Banner*, a newspaper circulated in Nashville, Tennessee.

Applicant states that the proposed subsidiary would engage in the activities of underwriting, as reinsurer, credit life and credit accident and health insurance which is directly related to extensions of credit by Third National Bank and Friendly Finance, Inc., both subsidiaries of applicant. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Atlanta.

Any views or requests for hearing should be summitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than February 16, 1979.

Board of Governors of the Federal Reserve System, January 16, 1979.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

[6210-01-M]

NORTHWESTERN FINANCIAL CORP.

Proposed Retention of First Atlantic Corp.

Northwestern Financial Corporation, North Wilkesboro, North Carolina, has applied, pursuant to Section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to retain voting shares of First Atlantic Corporation, Charlotte, North Carolina. Notice of the application was published in newspapers of general circulation in each of the communities served by the offices of First Atlantic Corporation.

Applicant states that the proposed subsidiary engages in the activities of originating, acquiring, selling and servicing loans secured by mortgages, including construction, development and permanent loans on residential and commercial properties and acting as agent in the sale of credit life and credit accident and health insurance and property and casualty insurance sold in connection with its lending activities. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Richmond.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than February 16, 1979.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on January 16, 1979. See 44 U.S.C. 3512(c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed FCC and ICC requests are invited from all interested persons, organizations, public interest groups, and affected business. Because of the limited amount of time GAO has to review the proposed requests, comments (in triplicate) must be received on or before February 12, 1979, and should be addressed to Mr. John M. Lovelady, Assistant Director, Regulatory Reports Review, United States General Accounting Office, Room 5106, 441 G Street, NW, Washington, DC 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202-275-3532.

FEDERAL COMMUNICATIONS COMMISSION

The FCC requests clearance of revisions to Form 701, Application for Additional Time to Construct Radio Station. The FCC is revising Form 701 to include Form 321, Application for Construction Permit to Replace Expired Permit. The revised Form 701 will be titled "Application for Extension of Construction Permit or to Replace Expired Construction Permit" and will be used by broadcaster's to apply for an extension of time in which to construct a station or to apply for a construction permit to replace an expired permit. Form 701 is required by Section 1.534 of the Commission's Rules. The FCC estimates there are approximately 550 applications filed annually and that respondent burden averages 2 hours and 55 minutes per application.

INTERSTATE COMMERCE COMMISSION

The ICC requests an extension without change of Form OP-F-240, Issuance of Securities or Assumption of Obligations, pursuant to the provisions of 4 CFR Part 10. Form OP-F-240 is a special report required to be filed by carriers issuing securities on Commission approval, which shows the disposition made of such securities and the application of the proceeds thereof. Reports are required by Section 11301(e), formerly Section 20a(10) of the Interstate Commerce Act. There has been no revision in form content since the previous clearance. The only change proposed is that which refers to the newly codified section of the Act.

The ICC estimates respondents number approximately 550 and that reporting burden averages 5 hours per report.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

Food and Drug Administration

CONSUMER PARTICIPATION

Open Meeting

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This document announces a forthcoming Consumer Exchange Meeting to be chaired by the Commissioner of Food and Drugs.

DATE: The meeting will be held at 1:30 p.m., Wednesday, January 31, 1979.

ADDRESS: The meeting will be held at the HEW North Building, Room 5051, 330 Independence Avenue SW., Washington, DC 20201.

FOR FURTHER INFORMATION CONTACT:

Alexander Grant, Special Assistant to the Commissioner for Consumer Affairs (HF-7), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857, 301-443-1547.

SUPPLEMENTARY INFORMATION: The purpose of the meeting is to exchange information between Food and Drug Administration (FDA) officials and consumer representatives, by providing an opportunity for consumer representatives to present their views directly to the Commissioner and to top managers of FDA, by seeking solutions to any problems agreed on during this exchange, and by giving the agency an opportunity to discuss and communicate vital health and policy issues to the concerned public.

Dated January 17, 1979.

JOSEPH P. HILE,
Associate Commissioner for Regulatory Affairs.

Office of Education

NATIONAL ADVISORY COUNCIL ON THE EDUCATION OF DISADVANTAGED CHILDREN

Meeting

Notice is hereby given, pursuant to PL 92-463, that the next meeting of the National Advisory Council on the Education of Disadvantaged Children will be held on Friday and Saturday, February 23 and 24, 1979. On Friday, the meeting will convene at 9 a.m. and recess at 5 p.m., and on Saturday, the meeting will reconvene at 9 a.m. and adjourn at 12 noon. The two-day meeting will be held at 425 Thirteenth Street, N.W., Suite 1012, Washington, D.C. 20004.

The National Advisory Council on the Education of Disadvantaged Children is established under Section 148 of the Elementary and Secondary Act (20 U.S.C. 2411) to advise the President and the Congress on the effectiveness of compensatory education to improve the educational attainment of disadvantaged children.

The meeting is being held in order for members to discuss and review: final drafts of special reports and the draft annual report; annual report section prepared by Council consultant; and, upcoming Council activities.

The entire meeting will be open to the public. Because of limited space, all persons wishing to attend should call for reservations by February 20, 1979, area code 202/724-0114.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the National Advisory Council on the Education of Disadvantaged Children located at 425-13th Street, N.W., Suite 1012, Washington, D.C., 20004.

Signed at Washington, D.C. on January 17, 1979.

ROBERTA LOVEHEIM,
Executive Director.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

INDIAN EDUCATION

Acceptance of Nominations for Membership on the National Advisory Council on Indian Education; Closing Date

1. *Introduction.* In accordance with 20 U.S.C. 1221g, "National Advisory Council on Indian Education", notice is hereby given that nominations of Indians, as defined below, will be accepted by the Commissioner of Education from Indian tribes and organizations in order to make to the President of the United States recommendations of individuals for membership on the National Advisory Council on Indian Education. The Council consists of fifteen (15) members appointed by the President from lists of nominees furnished, from time to time, by Indian tribes and organizations, and who must represent diverse geographic areas of the country.

(Pub. L. 92-318, section 442(a), 20 U.S.C. 1221g(a))

Nominations submitted to the Commissioner of Education by Indian tribes and organizations must be received no later than March 5, 1979. Nominations are being requested in order to make recommendations for five (5) membership positions, which will begin on September 30, 1979. Each Presidential appointment will be for a term of three years ending September 29, 1982.

(20 U.S.C. 1233b(a)(1))

2. *Definition.* "Indian" means any individual who (a) is a member of a tribe, band, or other organized group of Indians, including those tribes, bands, or groups terminated since 1940 and those recognized by the State in which they reside, or who is a descendant, in the first or second degree, of any such member, or (b) is considered by the Secretary of the Interior to be an Indian for any purpose, or (c) is an Eskimo or Aleut or other Alaska Native.

(Pub. L. 92-318, section 453(a), 20 U.S.C. 1221h(a))

3. *Functions of the Council.* The Council is directed to: (a) Submit to the Commissioner of Education a list of nominees for the position of Deputy Commissioner of Indian Education;

(20 U.S.C. 1221f(a))

(b) Advise the Commissioner of Education with respect to the administration (including the development of regulations and of administrative practices and policies) of any program in which Indian children or adults participate from which they can benefit, including Title III of the Act of September 30, 1950 (Pub. L. 81-874) and section 1005 of Title X of the Elementary and Secondary Education Act of 1965 (both as added by Title IV of Pub. L. 92-318 and as amended), and with respect to adequate funding therof;

(c) Review applications for assistance under Title III of the Act of September 30, 1950 (Pub. L. 81-874), section 1005 of Title X of the Elementary and Secondary Education Act of 1965, and section 316 of the Adult Education Act (all as added by Title IV of Pub. L. 92-318 and as amended), and make recommendations to the Commissioner with respect to their approval;

(d) Evaluate programs and projects carried out under any program of the Department of Health, Education, and Welfare in which Indian children or adults can participate or from which they can benefit, and disseminate the results of such evaluations;

V 4 4 / 1 6 JA 23 79 UMI

(e) Provide technical assistance to local educational agencies and to Indian educational agencies, institutions, and organizations to assist them in improving the education of Indian children;

(f) Assist the Commissioner in developing criteria and regulations for the administration and evaluation of grants made under section 303(b) of the Act of September 30, 1950 (Pub. L. 81-874) (as added by Title IV, Part A, of Pub. L. 92-318); and

(g) Submit to the Congress not later than June 30 of each year a report on its activities, including any recommendations it may deem necessary for the improvement of Federal education programs in which Indian children or adults participate, or from which they can benefit, and including a statement of the Council's recommendatons to the Commissioner with respect to the funding of any such programs.

(Pub. L. 92-318, section 442(b); 20 U.S.C. 1221g(b))

4. *Nomination categories.* Nominations submitted to the Commissioner of Education should be made according to the following categories: (a) *Professional educators.* Indians with active experience as professionals in the areas of early childhood, elementary, secondary, higher, special, vocational, and adult education, such as, teachers, professors, administrators, specialists (e.g., curriculum, language, math, etc.), counselors, and researchers.

(b) *Laypersons involved in education.* Indians with active experience as laypersons involved with education such as, school board members, Parent-Teacher Association members, parents of school-age children, or those with other lay involvement.

(c) *Students.* Indians who are college students or who have reached their junior year of high school at the time of nomination.

(d) *Individuals with other than education experience.* Indians who do not have education experience, preferably those individuals who have experience in a field involving Indian affairs.

5. *Nomination review procedure.* The Deputy Commissioner of Indian Education will gather members of the Office of Indian Education staff to screen nominations received and address appropriate criteria including those set out below. A list of recommended individuals will be compiled as a result of this screening and will be forwarded to the Commissioner of education for review. This list will be accompanied by a list of all individuals nominated.

The Commissioner of Education will make recommendations to the Secretary of Health, Education, and Welfare and forward the list of recommended individuals, as well as the complete list of all individuals nominated.

The Secretary of Health, Education, and Welfare will then make recommendations to the President of the United States and forward a list of recommended individuals, as well as the complete list of all individuals nominated, for the President's review and necessary action

6. *Criteria for recommendations.* To maintain a balanced representation on the Council, priority consideration will be given to nominees in categories other than professional educators. Every effort will be made to recommend individuals representing diverse geographic areas of the country, particularly from those areas with large Indian populations. Consideration will also be given to the balance on the Council interms of sex, and urban and rural (reservation and non-reservation) representation during the screening process.

The following factors will be considered in selecting individuals to be recommended for appointment: Indian education experience; general education experience; education expertise in the areas of early childhood, elementary, vocational, special and adult education; education background; previous council or committee experience; honors and awards received; and organizational memberships.

Nominees will also be considered on the basis of their knowledge of and experience with both local community and national issues.

7. *Nomination procedure.* Nominations must be submitted to the Commissioner of Education on Office of Education Form OE-543, which may be obtained by writing or telephoning the Office of Indian Education, U.S. Office of Education, FOB-6, Room 2177, 400 Maryland Avenue SW., Washington, D.C. 20202, telephone 202-245-8060.

(a) Nominations delivered by mail. A nomination sent by mail must be addressed as above and mailed on or before March 5, 1979. The use of registered or at least first class mail is encouraged. Proof of mailing must consist of a legible U.S. Postal Service dated postmark or a legible mail receipt with the date of mailing stamped by the U.S. Postal Service. Private metered postmarks or mail receipts will not be accepted without a legible date stamped by the U.S. Postal Service.

NOTE.—The U.S. Postal Service does not uniformly provide a dated postmark. Nominating Indian tribes or organizations should check with the local post office before relying on this method.

Each late nominating Indian tribe or organization will be notified that its nomination will not be considered in the current recommendations.

(b) Nominations delivered by hand. A nomination to be hand delivered must be taken to the Office of Indian Education, Room 2177, Federal Office Building Six, 400 Maryland Avenue SW., Washington, D.C. Hand-delivered nominations will be accepted daily between the hours of 7:30 a.m. and 4:00 P.m., Washington, D.C., time, except Saturdays, Sundays, and Federal holidays. Nominations will not be accepted after 4:00 p.m. on March 5, 1979.

8. *Incomplete forms.* Incomplete forms will be returned to the nominating Indian tribe or organization accompanied by a checklist detailing information necessary for completion. Completed forms must be returned to the Office of Indian Education no later than March 5, 1979, or fifteen (15) days aftr the date on the checklist (whichever is later), in order to be considered for recommendation by the Commissioner. Proof of mailing will be the same as stated in paragraph 7 above.

Dated: January 15, 1979.

ERNEST L. BOYER,
U.S. Commissioner of Education.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[U-41840]

UTAH

Application

JANUARY 15, 1979.

Notice is hereby given that pursuant to Section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the CCCo. has applied for a 2⅞-inch natural gas pipeline right-of-way across the following lands:

SALT LAKE MERIDIAN, UTAH

T. 21 S., R. 23 E.,
Sec. 14, NE¼NW¼.

The needed right-of-way is a portion of applicant's gas gathering system located in Grand County, Utah.

The purpose of this notice is to inform the public that the Bureau will be proceeding with the preparation of environmental and other analyses necessary for determining whether the application should be approved, and if so, under what terms and conditions.

Interested persons should express their interest and views to the Moab District Manager, Bureau of Land Management, P.O. Box 970, Moab, Utah 84532.

DELL T. WADDOUPS,
Chief, Branch of Lands and Minerals Operations.

[Wyoming 66226]

WYOMING

Application

JANUARY 12, 1979.

Notice is hereby given that pursuant to Section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Powder River Pipeline Corporation of Casper, Wyoming 82602 filed an application for a right-of-way to construct a 4½ inch pipeline for the purpose of transporting crude oil across the following described public lands:

SIXTH PRINCIPAL MERIDIAN WYOMING

T. 45 N., R. 77 W.,
Sec. 22, SW¼.

The pipeline will transport crude oil produced from the Davis-No. 1 American Federal Well located in the NE¼SW¼ sec. 22, to a point in the NW¼SW¼ sec. 22, all in T. 45 N., R. 77 W., 6th P.M. in Johnson County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, 951 Union Boulevard, Casper, Wyoming 82601.

HAROLD G. STINCHCOMB,
Chief, Branch of Lands and Minerals Operations.

[Wyoming 66327]

WYOMING

Application

JANUARY 12, 1979.

Notice is hereby given that pursuant to Section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Colorado Interstate Gas Company of Colorado Springs, Colorado, filed an application for a right-of-way to construct a 4½ inch O.D. pipeline and related facilities for the purpose of transporting natural gas across the following described public lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 19 N., R. 94 W.,
Sec. 22, S½NE¼, N½SW¼, SE¼SW¼, and NW¼SE¼.

The pipeline with related facilities will transport natural gas produced from the Unit 4-22 Well located in the SW¼ of sec. 22, to a point of connection with Colorado Interstate Gas Company's existing pipeline in the SW¼ of sec. 23, all within T. 19 N., R. 94 W., Sweetwater County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, 1300 Third Street, P. O. Box 670, Rawlins, Wyoming 82301.

Heritage Conservation and Recreation Service

NATIONAL REGISTER OF HISTORIC PLACES

Notification of Pending Nominations

Nominations for the following properties being considered for listing in the National Register were received by the Heritage Conservation and Recreation Service before January 12, 1979. Pursuant to section 60.13(a) of 36 CFR Part 60, published in final form on January 9, 1976, written comments concerning the significance of these properties under the National Register criteria for evaluation may be forwarded to the keeper of the National Register, Office of Archeology and Histroic Preservation, U.S. Department of the Interior, Washington, DC 20240. Written comments or a request for additional time to prepare comments should be submitted by February 2, 1979.

Geological Survey

[Int FES 79-1]

ENVIRONMENTAL IMPACT STATEMENT

Availability of Final Statement Coal Creek Mine, Campbell County, Wyo.

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental impact statement on the proposed Coal Creek surface coal mining operation by the Atlantic Richfield Company in Campbell County, Wyoming. The final statement assesses the environmental impacts of the lessee's plan for the surface mining of federally owned coal and the concurrent reclamation and revegetation of surface lands. The proposed action is on Federal coal lease W-3446, located 25 miles (40km) southeast of Gillette, Wyoming, in Campbell County.

The mine plan contained in this final environmental impact statement was submitted prior to the promulgation of interim regulations by the U.S. Office of Surface Mining, pursuant to the Surface Mining Control and Reclamation Act of 1977. It has not been reviewed for compliance with those requirements. Prior to making any decision on approval of the mining and reclamation plan, the Department will perform a technical review for compliance with the Surface Mining Regulations. Once the mine plan is conformed to meet those regulations, the Department will evaluate whether this final environmental impact statement is adequate for the mine plan approval action or whether a supplemental to this impact statement needs to be prepared and distributed.

Comments received on the draft environmental statement during the comment period were considered in the preparation of the final environmental statement and are reproduced in the appendix.

The proposed mining and reclamation plan assessed in this statement was one of the mining proposals identified in the preparation of the regional analysis (Part I) of the Department's final environmental statement, FES 74-55, entitled "Proposed Development of Coal Resources in the Eastern Powder River Coal Basin in Wyoming," which was filed with the Council on Environmental Quality on October 18, 1974. Public hearings on the draft of the FES 74-55 statement were held as follows: June 24-25, 1974, at Cheyenne, Wyo.; June 26, 1974, at Casper, Wyo.; and June 27-28, 1974, at Gillette, Wyo.

The final environmental impact statement is available for public review in the U.S. Geological Survey Library, 1526 Cole Blvd., Golden, Colo.; the U.S. Geological Survey Library, Room 4A100, National Center, Reston, Va.; the Converse County Library, 300 Walnut St., Douglas, Wyo.; the George Amos Memorial Library, 412 South Gillette Ave., Gillette, Wyo.; the Library of Natrona County, 307 East Second, Casper, Wyo.; and the State Library, State of Wyoming, Supreme Court Bldg., Cheyenne, Wyo. A limited number of copies are available on request from the U.S. Geological Survey, Land Information and Analysis Office, Federal Center, Stop 701, Denver, CO 80225.

Dated: January 18, 1979.

LARRY E. MEIEROTTO,
Deputy Assistant Secretary of the Interior.

Law Enforcement Assistance Administration

MULTIJURISDICTIONAL SENTENCING GUIDELINES FIELD TEST

Solicitation for Competitive Research Grant Program

The National Institute of Law Enforcement and Criminal Justice announces a competitive research grant program to evaluate the Multijurisdictional Sentencing Guidelines Field Test.

The basis for the test is the Program Test Design, a document with detailed specification of selected program elements. The goals of each field test site (a state) are to determine the effectiveness of these elements or program strategies in multiple settings, and to examine their transferability to other states.

The major objectives of the evaluation are:

To test the effectiveness of guidelines within a state as a method for increasing sentencing consistency;

To assess the feasibility of developing and implementing sentencing guidelines as a policy tool in a multijurisdictional setting;

To examine the impact of guidelines on sentencing practices and on other components of the criminal justice system; and

To provide a descriptive account of the guideline development and implementation process for use by other jurisdictions interested in this process.

The solicitation asks for the submission of draft proposals. A formal application will be requested following a peer review process in accordance with the criteria set forth in the solicitation. In order to be considered all papers must be postmarked no later than April 1, 1979. This grant is planned for award in July, 1979 with funding support not to exceed $400,000 or 30 months in duration.

Further information and copies of the solicitation can be obtained by contacting Rosemary Murphy or Jay Merrill, Office of Program Evaluation, NILECJ, 633 Indiana Avenue, N.W.,

Mine Safety and Health Administration

[Docket No. M-78-66-M]

CLEGHORN & WASHBURN MINING CO.

Petition for Modification of Application of Mandatory Standard

Cleghorn & Washburn Mining Company, P.O. Box 2604, Grand Junction, Colorado 81501, has filed a petition to modify the application of 30 CFR 57.5-50 (noise) to its Pandora Mine in La Sal, Utah and its Rex Mine and C-LP-22A in Uravan, Colorado. The Petition is filed under Section 101(c) of the Federal Mine Safety and Health Act of 1977, Pub. L. 95-194.

The substance of the petition follows:

(1) The petitioner has found that currently available add-on mufflers do not appreciably decrease the noise levels of its rock drills.

(2) In addition, these add-on mufflers are difficult to maintain, cause freezeups, slow drilling operations, and cause poor handling characteristics and loss of drill balance, thereby increasing the probability of an accident to the drill operator.

(3) The petitioner's employees wear both ear plugs and ear muffs while drilling. The petitioner believes that together these types of ear protection provide better protection than that provided by the mufflers.

(4) The petitioner states that if the mufflers were removed, drill performance would improve, thereby decreasing the driller's exposure time to drilling noise.

(5) For these reasons, the petitioner requests relief from the application of the standard to its rock drills until manufacturers can build satisfactory add-on mufflers.

REQUEST FOR COMMENTS

Persons interested in this petition may furnish written comments on or before February 22, 1979. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: January 16, 1979.

ROBERT B. LAGATHER,
Assistant Secretary
for Mine Safety and Health.

[4510-43-M]

[Docket No. M-78-38]

MID-CONTINENT COAL AND COKE CO.

Final Action Granting a Petition for Modification of Application of Mandatory Safety Standard

The Mine Safety and Health Administration (MSHA) has granted in part the petition (43 FR 8191) of the Mid-Continent Coal and Coke Co. to modify the application of 30 CFR 75.501 to its Dutch Creek No. 1 and L. S. Wood No. 3 Mines located in Pitkin County, Colorado, in accordance with Section 101(c) of the Federal Mine Safety and Health Act of 1977, Pub. L. 95-164. MSHA has determined that an alternative method exists that will guarantee at all times no less than the same measure of protection given miners of the mine by the standard.

MSHA based its determination on the following findings:

1. The intent of the modification is to provide 480 volt power to the tailgate entry of the longwalls by use of a 1/0 trailing cable in excess of 800 feet, the maximum length allowed by Schedule 2G. Cable length of 1100 feet is needed to span both the 500 foot maximum length from the power center to the head gate and the 550-600 foot face.

2. Inspection of the advancing longwall face of Dutch Creek No. 1 mine showed it to be as described in the petition with but two exceptions. The electrical distribution box described in 6(b) of the petition was not secured to a chock, but was hanging freely by chains. MSHA investigation saw the intended installation at the L. S Wood No. 3 mine, and it appeared adequate for the purpose. A steel shelf was welded to a chock, and the distribution box welded to the shelf. The second exception was that electrical protection proposed in 6(d) of the petition had not been specified or considered. Information was provided to MSHA to permit MSHA to recommend maximum short circuit protection settings.

3. Installation of the advancing longwall in the L. S. Wood No. 3 mine was incomplete at the time of MSHA's investigation. The tailgate chocks were still above ground. Inspection did show the installation to be similar to that of the Dutch Creek No. 1 mine, however, and similar mining problems and need for this petition are expected.

4. Heaving is indeed a problem in the tailgate entries of these advancing longwall sections, and electric power is required to adequately brush the area. Maintenance of ventilation and escapeways would be impractical without such brushing.

5. Equivalent protection to that provided by Section 75.501 will be attained by additional safeguards. Electrical protection can be provided by reduced settings of short circuit protective devices. Physical protection can be provided by routing the 1/0 cable with other suitably protected longwall trailing cables, and by securing the distribution box in a protected area at the tailgate. The less protected cables used in the tailgate entry will no more subject to damage than those used in other normal mining applications.

6. The settings for protection of the 1/0 AWG cables extending from the power center to the distribution box and from the distribution box to the loading or dinting machine have been reduced in accordance with the IEEE paper, "Instantaneous Circuit Breaker Settings for the Short Circuit Protection of Three Phase 480,600 and 1040 Volt Trailing Cables." Settings for protection of the No. 4 and No. 8 AWG cables safely could be raised from the maximum allowed by Schedule 2G, but need not be for the loads expected.

7. MSHA investigators recommended that this petition for modification be approved with the plan and safeguards described in the petition if the following conditions are met:

a. Cable sizes shall be no smaller and lengths no longer than the following for circuits originating at the tailgate distribution box:

(1) the loading machine or dinting machine circuit, 1/0 AWG, 400 feet;

(2) the chain transfer conveyer circuit, No. 4 AWG, 100 feet;

(3) the hydraulic power-pack and circulating pump circuits, No. 8 AWG, 100 feet.

b. These same circuits shall be protected by instantaneous trip circuit breakers set no higher than the following:

(1) the loading machine or dinting machine circuit, 620 amperes;

(2) the 40 hp chain transfer conveyor circuit, 500 amperes;

(3) the 10 hp hydraulic power-pack and 10 hp circulating pump circuits, 200 amperes for each circuit.

Because of these findings, the Administrator for Coal Mine Safety and Health, under authority delegated by the Secretary of Labor, ordered that the petition be granted, conditioned on compliance with the terms stated in the petition and with the recommendations made by MSHA's investigators.

A copy of the decision is available for inspection by the public at the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203.

Dated: January 12, 1979.

ROBERT B. LAGATHER,
Assistant Secretary
for Mine Safety and Health.

NUCLEAR REGULATORY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS, SUBCOMMITTEE ON EVALUATION OF LICENSEE EVENT REPORTS

Meeting

The ACRS Subcommittee on Evaluation of Licensee Event Reports will hold an open meeting on February 7, 1979, in Room 1046, 1717 H Street, N.W., Washington, DC 20555. Notice of this meeting was published on January 19, 1979.

In accordance with the procedures outlined in the FEDERAL REGISTER on October 4, 1978, (43 FR 45926), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The agenda for subject meeting shall be as follows: *Wednesday, February 7, 1979, 8:30 a.m. until the conclusion of business.*

The Subcommittee may meet in Executive Session, with any of its consultants who may be present, representatives of the NRC Staff and the Nuclear Safety Information Center (NSIC), and their consultants, to plan its review of Licensee Event Reports submitted during the period 1976-1978.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the Designated Federal Employee for this meeting, Mr. Robert L. Wright, Jr., (telephone 202/634-3314) between 8:15 a.m. and 5:00 p.m., EST.

Background information concerning items to be considered at this meeting can be found in documents on file and available for public inspection at the NRC Public Document room, 1717 H Street, N.W., Washington DC 20555.

Dated: January 17, 1979.

JOHN C. HOYLE,
Advisory Committee
Management Officer.

[7590-01-M]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS; SUBCOMMITTEE ON PROCEDURES AND ADMINISTRATION

Meeting

The ACRS Subcommittee on Procedures and Administration will hold a meeting on February 7, 1979, in Room 1046, 1717 H Street, NW., Washington, DC 20555. Notice of this meeting was published January 19, 1979.

In accordance with the procedures outlined in the FEDERAL REGISTER on October 4, 1978, (43 FR 45926), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The agenda for subject meeting shall be as follows: *Wednesday, February 7, 1979, 4:00 p.m. until the conclusion of business.*

The Subcommittee will meet in Executive Session to discuss work assignments of ACRS fellows and appointments of individuals as ACRS fellows.

In addition, it may be necessary for the Subcommittee to hold one or more closed sessions for the purpose of discussing the qualifications of candidates for appointments as ACRS fellows. I have determined, in accordance with Subsection 10(d) of Public Law 92-463, that, should such sessions be required, it is necessary to close these sessions to protect information, the release of which would represent an unwarranted invasion of personal privacy, (5 U.S.C. 552(c)(6)).

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a period telephone call to the Designated Federal Employee for this meeting, Mr. Marvin C. Gaske, (telephone 202/634-3265) between 8:15 a.m. and 5:00 p.m., EST.

Dated: January 17, 1979.

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on January 16, 1979 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes:

The name of the agency sponsoring the proposed collection of information;

The title of each request received;

The agency form number(s), if applicable;

The frequency with which the information is proposed to be collected;

An indication of who will be the respondents to the proposed collection;

The estimated number of responses;

The estimated burden in reporting hours; and

The name of the reviewer or reviewing division or office.

Requests for extension which appear to raise no significant issues are to be approved after brief notice thru this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C 20503, (202-395-4529), or from the reviewer listed.

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by The Office of Management and Budget on January 11, 1979 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes

The name of the agency sponsoring the proposed collection of information;

The title of each request received;

The agency form number(s), if applicable;

The frequency with which the information is proposed to be collected;

An indication of who will be the respondents to the proposed collection;

The estimated number of responses;

The estimated burden in reporting hours; and

The name of the reviewer or reviewing division or office.

Requests for extension which appear to raise no significant issues are to be approved after brief notice thru this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, (202-395-4529), or from the reviewer listed.

SMALL BUSINESS ADMINISTRATION

[License No. 09/09-0239]

BRENTWOOD CAPITAL CORP.

Application for a License as a Small Business Investment Company

Notice is hereby given concerning the filing of an application with the Small Business Administration (SBA) pursuant to § 107.102 of the Regulations governing small business investment companies (13 CFR Section 107.102(1979)) under the name of Brentwood Capital Corporation, 11661 San Vicente Boulevard, Los Angeles, California 90049, for a license to operate in the State of California as a small business investment company under the provisions of the Small Business Investment Act of 1958, as amended

(15 U.S.C. 661 et seq.)

The proposed officers, directors and principal stockholders are:

Timothy M. Pennington III, 1101 North Bundy Drive, Los Angeles, California 90049, President, Treasurer and Director.
Berge K. Hagopian, 11048 Cashmere Street, Los Angeles, California 90049, Vice President, Secretary and Director.
Frederic J. Warren, 12319 19th Helena Drive, Los Angeles, California 90063, Chairman of the Board of Directors.
Brentwood Associates II, 11661 San Vicente Boulevard, Los Angeles, California 90049, 100%.

Brentwood Associates II (the applicant's parent) is a California limited partnership engaged in the business of venture capital investment. The voting securities of Brentwood Associates II are held by its three general partners who will be the three directors of the Applicant and its three officers. These three general partners will also be limited partners.

In addition to the three general partners and limited partners noted above, Brentwood Associates II has 15 other limited partners none of whom takes or is permitted to take any part in the management or control of the affairs or business of Brentwood Associates II. One of the limited partners has more than a ten percent partnership interest. They are: American Express Company, American Express Plaza, New York, New York 10004.

This request for a license also requires approval under § 107.702 (Common control) of the Regulations governing SBICs because Messrs. Hagopian, Pennington and Warren also control another SBIC, namely, Brentwood Associates, Inc., 11661 San Bicente Boulevard, Los Angeles, California 90049, as officers, directors and general partners of a California limited partnership (Brentwood Associates).

The company will begin operations with an initial capitalization of $5,010,000. No concentration in any particular industry is planned. The applicant intends to make investments in small business concerns, with growth potential, located primarily within the State of California

The new partnership with the same management and general partners is being formed because Brentwood Associates will soon be dissolved. The future status of Brentwood Associates, Inc., is undecided.

Matters involved in SBA's consideration of the applicant include the general business reputation and character of the proposed owners and management, and the probability of successful operations of the new company under their management, including adequate profitability and financial soundness, in accordance with the Act and Regulations.

Notice is further given that any interested person may, not later than February 7, 1979, Submit to SBA, in writing, relevant comments on the proposed company. Any communication should be addressed to: Deputy Associate Administrator for Investment, Small Business Administration, 1441 L Street N.W., Washington, D.C. 20416.

A copy of this Notice shall be published in a newspaper of general circulation in Los Angeles, California

Dated: January 11, 1979.

PETER F. MCNEISH,
Deputy Associate Administrator for Investment.

SMALL BUSINESS CONFERENCE COMMISSION

White House Conference on Small Business

In accordance with Section 10(a) of the Federal Advisory Committee Act (5 USC appendix I), announcement is made of the following national commission meeting.

Small Business Conference Commission, February 13, 1979—9:00 a.m. to 1:00 p.m., New Executive Office Building, Room 2010, 726 Jackson Place, N.W., Washington, D.C. 20506.

OPEN MEETING

Purpose: The Small Business Conference Commission was established by Executive Order to provide advice with respect to the holding of a White House Conference on Small Business in early 1980. In pursuit of the goal of a strong small business community, the Commission shall recommend issues to be considered by the conference including those related to fostering of small business and the expansion of opportunities for entry into small business enterprise. The Commission shall make recommendations for legislative and policy changes primarily based upon the findings of the White House Conference on Small Business.

Agenda: The Commission shall address the above issues in an introductory meeting.

Contact: Cynthia Howar, Commission Liaison, White House Conference on Small Business, 730 Jackson Place, N.W., Washington, D.C. 20506.

Please write before February 6, 1979, if you wish to attend this meeting. Attendance by the public will be limited to space available. Summaries of the transcripts of the meeting will be made available to the public upon request.

Dated: January 16, 1979.

K DREW,
Deputy Advocate for Advisory Councils, U.S. Small Business Administration.

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

DEPARTMENT OF ENERGY

Office of the Secretary

[OST File No. 61; Notice 79-2]

NATIONAL ENERGY TRANSPORTATION STUDY

Public Meeting with Industry

AGENCIES: Department of Transportation (DOT) and Department of Energy (DOE).

ACTION: Notice of public meeting with industry.

SUMMARY: As part of the President's National Energy Plan, DOT and DOE are conducting a joint study to determine if the Nation's transportation system is adequate to accommodate the future energy needs of the United States. A meeting among representatives of DOT, DOE, and the petroleum industry will be held to discuss the capability of this industry to transport the energy materials that will be needed in the period 1985-2000. The public is invited to this meeting.

DATE: Thursday, January 25, 1979, 10 AM to 12 noon eastern time. The meeting will be held at DOT Headquarter (Nassif) Building, 400 Seventh Street, SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

Thomas E. Marchessault, Staff Member, National Energy Transportation Study (NETS), Office of Intermodal Transportation, DOT (202-426-4168). Since available space for the public is limited, those wishing to attend should contact Mr. Marchessault not later than the day before the meeting.

SUPPLEMENTARY INFORMATION: By 1985 and beyond it appears likely that the Nation will experience numerous changes in the historical patterns of energy supply and demand which in turn will require changes in the way energy is transported. The changing energy patterns include dwindling domestic oil and natural gas production, regional shifts in supply and demand, and shifts in national and regional fuel use, including new energy sources.

The joint DOT-DOE study team will look at important aspects of the movement of coal, crude oil and petroleum products, natural gas, nuclear fuel, and electrical power to 1985 and beyond. This will be done to determine what adjustments are needed in the present transportation network.

In the first phase of the study, DOE is to select alternative national energy scenarios based on different assumptions about future energy supply and demand. These scenarios will be broken down into 173 geographical regions for the fuels listed above.

In the second phase of the study, DOT is to determine how energy would be moved from supply areas to energy-consuming areas by all modes of the transportation network. DOT will use the assistance of a computer model to compare the present capacity with future needs and identify potential bottlenecks.

In the third phase of the study, the joint study team is to examine a number of issues that may affect the transportation of energy. While the major emphasis of the study is transportation needs in 1985, the study team will also look at 1990 and 2000.

The final report is expected to identify constraints on the efficient transportation of energy and to recommend any Federal actions that may be necessary.

To gain the widest possible range of information and opinion concerning this undertaking, DOT and DOE have established an "open file" for the submission of comments from interested groups and individuals. (See 43 FR 38795; August 30, 1978.) To provide more detailed information in certain areas, representatives of DOT and DOE will be holding a number of meetings with representatives of industries affected by the study. The one with petroleum industry representatives will be held from 10 AM to 12 noon eastern time Thursday, January 25, 1979, at DOT Headquarters (Nassif) building, 400 Seventh Street, SW., Washington, D.C.

The topic for discussion at this meeting will include the capability of the petroleum industry to transport increased amounts of energy materials.

This meeting will be open to the public on a space available basis. Anyone who wishes to attend should contact the NETS staff member identified above. There will be an opportunity at the conclusion of each meeting for the public to make comments. Minutes of each meeting will be available for public inspection and copying in the NETS open file in the office of the Assistant General Counsel for Regulation and Enforcement, room 10421, Department of Transportation Headquarters (Nassif) Building, 400 Seventh Street, SW, Washington, D.C. 20590 (202-426-4723), from 9 AM to 5:30 PM eastern time, Monday through Friday, except Federal holidays.

Issued in Washington, D.C. on January 16, 1979.

CHESTER DAVENPORT,
Chairman, NETS, Assistant Secretary for Policy and International Affairs, Department of Transportation.

ALVIN ALM,
Deputy Chairman, NETS, Assistant Secretary for Policy and Evaluation, Department of Energy.

[FR Doc. 79-2288 Filed 1-22-79; 8:45 am]

[4810-25-M]

DEPARTMENT OF THE TREASURY

Office of the Secretary

NEW AND ADJUSTED TRIGGER PRICES AND EXTRAS FOR IMPORTED STEEL MILL PRODUCTS

I am hereby announcing (1) new trigger base prices and "extras" for a wide variety of stainless steel wire products; (2) more complete coverage and additional "extras" for carbon wire products; and (3) an adjustment to the previously announced trigger price for continuous buttwelded pipe.

Accordingly, a number of pages in the Steel Trigger Price Handbook are being reissued and additional pages added to reflect these actions.

Description of the trigger price mechanism may be found in the

V 4 4 / 1 6 J A 2 3 7 9 UMI

V 4 4 / 1 6 J A 2 3 7 9 UMI

"background" to the final rulemaking which amended regulations to require the filing of a Special Invoice (SSSI) with all entries of imported steel mill products (43 FR 6065).

These base prices, extras, and adjustments are based upon information made available to the Treasury Department by the Japanese Ministry of International Trade and Industry, as well as other information available to the Department.

All of the trigger prices announced here will be used by the Customs Service to collect information at the time of entry on all shipments of the products covered which are exported after the date of publication of this notice. However, the following rules will be applied to entries of these products covered by contracts with fixed price terms concluded before the publication of this notice.

1. Contracts with fixed price terms between unrelated parties. If the exporter documents at or before the time of entry that the shipment is being imported under such a contract with an unrelated party, the entry will not trigger an investigation even if the sales price is below the trigger price, provided that product is exported on or before February 28, 1979. However, failure to initiate an investigation will not diminish the right of affected interested persons to file a complaint with respect to such imports under the established procedures of antidumping cases.

2. Contracts between related parties. If the importer documents at the time of entry that the shipment is to be resold to an unrelated purchaser in the United States under a contract with fixed price terms concluded before the publication of this notice, the entry will not trigger an investigation even if the sales price is below the trigger price, provided the product is exported on or before February 28, 1979.

While these "grace period" sales will not as a rule trigger a self-initiated antidumping investigation, information concerning such sales will be kept as a part of the information in the Customs Service monitoring system and will be available in the event an antidumping petition is filed with respect to such products sold by that producer or the Treasury Department decides to self-initiate an antidumping investigation based in subsequent sales.

Dated: January 16, 1978.

ROBERT H. MUNDHEIM,

General Counsel.

NOTE: All Stainless Steel Wire product trigger prices on p. 16-9 through 16-15F are 1st Quarter 1979 prices.

GROUP I - ANNEALED WIRE

Annealed: The condition of soft wire in which there is no further cold drawing after the last annealing treatment. Wire of this temper is made by annealing in open fired furnaces or molten salt followed by pickling, which produces a clean gray matte finish. It is also made with a bright finish by annealing wet, oil or grease drawn wire in a protective atmosphere, and is sometimes described as bright annealed wire.

GROUP III - SOFT/INTERMEDIATE WIRE

Soft/Intermediate: A condition of wire drawn one or more drafts after annealing as required to produce minimum strength or hardness. The properties of such wire can be varied between those of soft temper and those approaching spring temper wire. Wire in this temper is usually produced in a variety of dry drawn tempers. Cold heading wire, by example, belongs in this group.

VETERANS ADMINISTRATION

COOPERATIVE STUDIES EVALUATION COMMITTEE

Meeting

The Veterans Administration gives notice pursuant to Public Law 92-463 that a meeting of the Cooperative Studies Evaluation Committee, authorized by 38 USC 4101, will be held at the Holiday Inn—Airport Lakes, 1101 NW 57th Avenue, Miami, Florida, on February 12 and 13, 1979. The meeting will be for the purpose of reviewing proposed cooperative studies and advising the Veterans Administration on the relevance and feasibility of the studies, the adequacy of the protocols, the scientific validity and the propriety of technical details, including involvement of human subjects. The Committee advises the Director, Medical Research Service, through the Chief of the Cooperative Studies Program, on its findings.

The meeting will be open to the public up to the seating capacity of the room from 8 to 8:30 a.m., February 12 and 13 to discuss the general status of the program. To assure adequate accommodations, those who plan to attend should contact Dr. James A. Hagans, Coordinator of the Committee, Veterans Administration Central Office, Washington, DC. (202-389-3702) prior to January 26.

The meeting will be closed from 8:30 a.m. to 5:00 p.m., on February 12 and 8:30 to 1:00 p.m. on February 13 for consideration of specific proposals in accordance with provisions set forth in Subsection 10(d) of Public Law 92-463, as amended by Public Law 94-409, and Subsection 552b(c)(6) of Title 5, United States Code. During this portion of the meeting, discussion and decisions will deal with qualifications of personnel conducting the studies and the medical records of patients who are study subjects, the disclosure of which would constitute a clearly unwarranted invasion of person privacy.

Dated: January 17, 1979.

By direction of the Administrator.

RUFUS H. WILSON,
Deputy Administrator.

INTERSTATE COMMERCE COMMISSION

[Notice No. 12]

ASSIGNMENT OF HEARINGS

JANUARY 18, 1979.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 120257 (Sub-41), K. L. Breeden & Sons, Inc., now assigned for hearing on January 25, 1979, at Birmingham, Alabama, is postponed indefinitely.

MC-F 13566, George W. Kugler, Inc.,—Purchase (Portion)—Fischbach Trucking Co., No. MC-125533, (Sub-No. 23F), George W. Kugler Inc., now assigned for hearing on March 1, 1979, (2 days), at Columbus, Ohio in a hearing room to be later designated.

MC 114632(Sub-179F), Apple Lines, Inc., now assigned for hearing on February 26, 1979, (1 day), in Room B-44, Federal Building & U.S. Courthouse, 110 South Fourth Street, Minneapolis, Minnesota.

MC 118159 (Sub-280F), National Refrigerated Transport, Inc., now assigned February 9, 1979, at Washington, DC., is postponed indefinitely.

MC 114632 (Sub-171F), Apple Lines, Inc., now assigned February 27, 1979, (1 day), in Room B-44, Federal Building & U.S. Courthouse, 110 South Fourth Street, Minneapolis, Minnesota.

MC 4943 (Sub-36F), Central Express, Inc., now being assigned countinued hearing January 29, 1979, (2 weeks), in the Ramada Inn., 33 N.W. Loop 410, San Antonio, Texas.

MC 134477 (Sub-241F), Schanno Transportation, Inc., now assigned February 26, 1979, at St. Paul, Mn., is postponed indefinitely.

[Released Rate Application No. 1934]

BANGOR AND AROOSTOOK RAILROAD CO.

AGENCY: Interstate Commerce Commission.

ACTION: Notice. Released Rate Application No. 1934.

SUMMARY: The Bangor and Aroostook Railroad Company wants authority to publish joint rail-motor commodity rates on toilet preparations, NOIBN; viz: cologne or toilet water, from Madawaska, Maine to Taunton, Massachusetts released to a value not exceeding 50 cents per pound. The net effect will be to limit the carriers' liability for any cologne or toilet water they may lose or damage to 50 cents per pound.

ADDRESSES: Anyone seeking copies of this application should contact: Mr. Hugh G. Goodness, General Freight Traffic Manager, Bangor and Aroostook Railroad Company, Northern Maine Junction Park, R. R. 2, Bangor, Maine 04401, telephone (207) 848-5711.

FOR FURTHER INFORMATION CONTACT:

Max Pieper, Bureau of Traffic, Interstate Commerce Commission, Washington, D.C. 20423 telephone (202) 275 75553.

SUPPLEMENTARY INFORMATION: Relief is sought from 49 U.S.C. 10730, formerly Section 20(11) of the Interstate Commerce Act for and on behalf of carriers parties to Bangor and Aroostook Tariff I.C.C. 4477.

H. G. HOMME, JR.,
Secretary.

[Notice No. 5 TA]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 8, 1978.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calender day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

NOTE.—All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

MOTOR CARRIERS OF PROPERTY

MC 56270 (Sub-17TA), filed November 30, 1978. Applicant: LEICHT TRANSFER & STORAGE CO., 1401—55 State Street, P.O. Box 2385, Green Bay, WI 54306. Representative: Dennis L. [Notice No. 6]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

January 9, 1979.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the Federal Register publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the Federal Register. One copy of the protest must be served on

V 4 4 / 1 6 J A 2 3 7 9 UMI

the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make avilable for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

NOTE.—All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

MOTOR CARRIERS OF PROPERTY

MC 2202 (Sub-575TA), filed November 24, 1978. Applicant: ROADWAY EXPRESS, INC., 1077 Gorge Blvd., P.O. Box 471, Akron, OH 44309. Representative: William O. [M-190 amdt 3, Jan. 17, 1979]

ADDITION OF ITEMS TO THE JANUARY 18, 1979 MEETING AGENDA

CIVIL AERONAUTICS BOARD.

TIME AND DATE: 10 a.m., January 18, 1979.

PLACE: Room 1027, 1825 Connecticut Avenue, NW., Washington, D.C. 20428.

SUBJECT: 9b. Docket 33776, Application of Northwest Airlines for unused authority (Detroit-Boston)—Motion of North Central Airlines for a stay of Order 78-12-166 pending judicial review (BPDA, Memo No. 8444). 16a. Dockets 34138, 34100, 34089 and 34132 Commuter/Certificated carrier joint fares (OGC, BPDA, Memo No. 8311B).

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: North Central's motion for stay by the Board was filed in the late afternoon of January 11. On January 12 North Central filed in the court of appeals a motion for summary reversal or judicial stay of Order 78-12-166. The Litigation Division of OGC advises BPDA they consider it essential that the court should have the benefit of the Board's own views on the legal points raised concerning this staff-issued order. Since it will not be possible to prepare and clear an order disposing of these points in time for this week's meeting, OGC has asked BPDA to prepare and have placed on the January 18 agenda an order denying the stay but taking review of Order 78-12-166 on the Board's own motion, with the order on review to follow. Because of the timing of North Central's filing, the first order could not have been prepared any earlier. Item 16a is being added to the January 18, 1979 agenda since the order, if adopted, will extend both the uniform method of constructing, and, on an interim basis, the uniform method of dividing joint fares to commuter/certificated carrier connections as of January 22, 1979. Because the expedited schedule in this proceeding and the need to coordinate OGC's recommendation with the Director of BPDA, the staff recommendation could not be provided to the Board in time for inclusion in the published calendar. Accordingly, the following Members have voted that agency business requires the addition of Items 9b and 16a to the January 18, 1979 agenda and that no earlier announcement of these additions was possible:

Chairman, Marvin S. Cohen
Member, Richard J. O'Melia
Member, Elizabeth E. Bailey
Member, Gloria Schaffer

[6320-01-M]

[M-190 amdt 4, Jan. 18, 1979]

DELETION OF ITEM FROM THE JANUARY 18, 1979 MEETING AGENDA

CIVIL AERONAUTICS BOARD.

TIME AND DATE: 10 a.m., January 18, 1979.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: 18. Docket 30777, IATA agreement proposing a four percent currency related surcharge on fares from the United States to Japan, and for percent discount on fares from Japan to the United States. The Embassy of Japan has submitted comments, through the Department of State, arguing that the surcharge is justified to reduce the present directional differential in U.S./Japan fares; (Memo 8071-B, BPDA, OGC, BIA).

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: Item 18 was deleted from the January 18, 1979 agenda in order to give the Board Members additional time to review the case and also to consider whether this item should be taken up in closed session. Accordingly, the following Members have voted that agency business requires the deletion of Item 18 from the January 18, 1979 agenda and that no earlier announcement of this deletion was possible:

Member, Richard J. O'Melia
Member, Elizabeth E. Bailey
Member, Gloria Schaffer

[M-191, Jan. 18, 1979]

SHORT NOTICE OF MEETING FOR JANUARY 24, 1979

CIVIL AERONAUTICS BOARD.

TIME AND DATE: 10 a.m., January 24, 1979.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT:

1. Ratification of items adopted by notation.
2. Docket 32318—Deregulation of freight forwarders and cooperative shippers associations. (OGC, Memo No. 7828-A)
3. Docket 32828, Application of North Central Airlines, Inc. for Milwaukee-Toronto nonstop authority (Memo No. 8447, BIA, OGC)
4. Dockets 33703, 33744, 33934 and 34437; Braniff's Motion for Hearing on its Certificate Application for Dallas/Fort Worth-Cincinnati/Indianapolis Nonstop Authority and Allegheny's Ozark's, and Texas International's applications respectively, requesting similar authority and Motions to Consolidate (Memo No. 8442, BPDA, OGC BALJ)
5. Dockets 33527, 33615, 33923, 33901, 33666, 33826, 33659 and 33890. Petitions of Frontier, Northwest, American, Ozark, Western, Continental, and Trans World for Amendments of Certificates of Public Convenience and Necessity and Application of Hughes Airwest for an exemption (Memo 8443, BPDA, OGC and BALJ)
6. Dockets 31496 and 33280, Piedmont's and Southern's applications for authority between the coterminals Charleston and Columbia, South Carolina, on the one hand, and the coterminals Miami and Ft. Lauderdale, on the other. (Memo No. 8160-B, BPDA)
7. Dockets 28944, 29085 and 33970. Application of Allegheny for Deletion of Youngstown, Ohio; Petition for Reconsideration of Order 77-7-62 denying suspension at Youngstown, Ohio and Notice of termination of Allegheny's service at Youngstown under Section 401(j) (BPDA, OCCR)
8. Dockets 33971 and 33302, TXI's notice of intent to suspend service at Hot Springs (BPDA, OCCR)
9. Docket 33927; National's 90-day Notice to Suspend service at Providence (Memo 8445, BPDA, OCCR)
10. Dockets 33075, 34057, and 34068, Frontier's application for a three year suspension of service at Columbus, Hastings, Kearney, and McCook, Nebraska; Frontier's application for an exemption to reduce the minimum 90-day notice requirements of section 401(j) and 419(a)(3) of the Act, so as to coordinate its termination of service with the commencement of replacement service by Pioneer at these Nebraska cities; Petition of the City of Kearney and the Kearney Municipal Airport Corporation for the determination of its essential air transportation and the prohibition of any reduction of certificated service pending such determination and establishment of acceptable replacement service and Frontier's application and notice of intent to suspend service at Columbus, Hastings, Kearney, and McCook under section 401(j) and 419(a)(3) of the Act. (BPDA, OCCR)
11. Draft Notice of Proposal Rulemaking to expand the current exemption to air carriers from sections 408(a)(2) and (a)(3) contained in Part 299 of the Board's Regulations and to extend the exemption to other persons (BPDA, OGC, BCP, BIA)
12. Docket 30226, Final Future Subsidy Mail Rate for Kodiak-Western Alaska Airlines, Inc. (BPDA, OC, OCCR, OGC)

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: The Chairman's schedule has been changed in order that he be able to attend the CAB Regional Hearings in Atlanta, and therefore a quorum will not be present at the regularly scheduled Board Meeting on Thursday, January 25. As a result, the Sunshine meeting will be held on Wednesday, January 24, 1979. Accordingly, the following Members have voted that agency business requires that the Board meet on less than seven days' notice and that no earlier announcement of this meeting was possible:

Chairman, Marvin S. Cohen
Member, Richard J. O'Melia
Member, Elizabeth E. Bailey
Member, Gloria Schaffer

PRIVACY ACT OF 1974

Systems of Records; Annual Publication

V 4 4 / 1 6 J A 2 3 7 9 UMI

[8230-01-M]

INTERNATIONAL COMMUNICATION AGENCY

PRIVACY ACT OF 1974

Transfer of Systems of Records Existing and Proposed

AGENCY: International Communication Agency

ACTION: Notice of transfer and adoption of new systems of records.

SUMMARY: Systems of records of the United States Information Agency and the Bureau of Educational and Cultural Affairs of the Department of State have been transferred to the International Communication Agency. The Agency's systems of records have been amended to reflect those changes made necessary by its reorganization.

In addition to the amendments, US/ICA proposes to adopt the following new records systems:

USICA—54

System name: Incentive Awards File-MGT/P-USICA

USICA—55

System name: Educational and Cultural Exchange Program Records-ECA-USICA

USICA—56

System name: Exchange Visitor Waiver Records-GC-USICA

EFFECTIVE DATE: The new systems shall become effective without further notice in 30 calendar days (February 21, 1979) unless comments are received on or before February 21, 1979, which would result in a contrary determination.

ADDRESS: Written comments should be directed to: Mr. Michael Pistor, Office of Congressional and Public Liaison, Room 1019, International Communication Agency, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

FOR FURTHER INFORMATION CONTACT: Mr. Charles Jones, Access to Information Officer, International Communication Agency, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547, phone (202) 724-9130.

SUPPLEMENTARY INFORMATION: The International Communication Agency was established by Reorganization Plan No. 2 of 1977, which was made effective April 1, 1978, by Executive Order 12048, dated March 28, 1978. Reorganization Plan No. 2 provided for the transfer of all functions of the United States Information and Educational Exchange Act of 1948, as amended, P.L. 80-402, and the Mutual Educational and Cultural Exchange Act of 1961, as amended, P.L. 87-256, from the United States Information Agency and the Bureau of Educational and Cultural Affairs of the Department of State to the International Communication Agency.

By Determination Orders dated April 5, 1978, the Director of the Office of Management and Budget transferred all records of the United States Information Agency which had not been forwarded to the Archives for retention and active records of the Bureau of Educational and Cultural Affairs, Department of State, to the International Communication Agency.

All systems of records of the United States Information Agency have therefore been amended to reflect this transfer to the International Communication Agency.

The records of the Bureau of Educational and Cultural Exchange of the Department of State which were subject to the Privacy Act were contained in the system State-08 Educational and Cultural Exchange Program Records (42 FR 49703, September 27, 1977). when these records were transferred to the International Communication Agency, a portion of the records was transferred to the General Counsel and the remainder was retained by the Associate Director for Educational and Cultural Affairs. The systems of records of the International Communication Agency have therefor been amended to adopt the records transferred from the Bureau of Educational and Cultural Affairs of the Department of State by adding USICA-55 Educational and Cultural Exchange Program Records-ECA-USICA and USICA-56 Exchange Visitor Waiver Records-GC-USICA. No information not previously maintained in the system State-08 is maintained in USICA-55 or USICA-56.

The International Communication Agency also proposes to establish a new system of records USICA—54 Incentive Awards File—MGT/P—USICA. The information in this file was formerly contained in USIA—9 Employee Awards, Health Programs, Retirement and Out-Placement records—IPT—USIA. Due to internal reorganization of the Agency, the Agency proposes to remove the data relating to employee awards, establish a separate system of records for this material, and rename the former system USICA—9 Retirement and Insurance Records—MGT/P—USICA.

Public comment is invited on the proposed new records systems.

The prefatory statement containing general routine uses applicable to all of the Agency's systems of records was published at 42 FR 48245 (September 22, 1977).

Issued at Washington, D.C., October 22, 1978.

CHARLES W. BRAY III,
Deputy Director.

USICA—1

System name: Americans Residing in Foreign Countries—USICA

The International Communication Agency maintains establishments overseas in 120 foreign countries, which are designated as mission posts, branch posts, regional service centers, VOA relay stations and media extensions. A current listing of names and addresses of overseas establishments is not considered practical for Privacy Act purposes, due to the fact that such a list would require frequent amendment. Changing of office locations, opening of new offices, closing of established offices and realignment of geographic areas have become practical realities in conducting the Agency's mission overseas. Individuals who feel that records pertaining to themselves are maintained at any of our overseas locations may contact the Agency's Office of Congressional and Public Liaison, Room 1019, 1750 Pennsylvania Avenue, N.W., Washington, D.C., 20547. The Agency maintains an index of its records, including a current listing of overseas posts, which is available to the public as indicated in 22 CFR Ch. V, Sec. 504.2

American citizens and aliens admitted for permanent U.S. residence, who are residing Overseas, i.e., journalists, businessmen, scholars, artists, representatives of other U.S. Government agencies, missionaries.

Names and addresses.

Public Law 402, Information and Educational Exchange Act of 1948; Federal Records Act, 44 U.S.C. 3101.

Distribution of printed matter; invitation lists of official social functions and programs; selection of candidates for temporary employment, as needed; location of specialist to arrange, conduct, appear in or appraise Agency programs organized overseas; press briefings for American journalists residing in foreign countries; appraisal of American specialists whose services are utilized in Agency programming overseas.

Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Information in these records is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other government agencies having statutory or other legal authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Addressograph plates or paper records in file folders.

Retrievability: By name of the individual.

Safeguards: Records are kept in locked file cabinets or in locked rooms when not in use.

Retention and disposal: Records are updated regularly, and metal plates or paper files no longer useful or current are destroyed.

System manager(s) and address: See "System Location" above.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C., 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Information obtained from the individual concerned.

USICA—2

System name: Artists and Speakers-NEA

System location: Office of the Assistant Director of North African, Near Eastern and South Asian Affairs, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Artists and speakers considered qualified to conduct programs at USICA's overseas posts in the Near East, North Africa and South Asia.

Categories of records in the system: Biographic data on speakers and artists; evaluation reports of past service with USICA; travel arrangements; program arrangements.

Authority for maintenance of the system: The Federal Records Act, 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To provide basic personnel and program information in order to arrange regional schedules for speakers and artists. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their offical duties.

Information in these records is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: By the name of the individual concerned.

Safeguards: Maintained in locked file cabinets.

Retention and disposal: Records are held as long as the individual is a prospective speaker or artist needed for or willing to conduct programs overseas.

System manager(s) and address: Office of Director, North African, Near Eastern and South Asian Affairs, 1750 Pennsylvania Avc., N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Information provided by the individual artists and speakers; evaluation of speaker or artist by overseas posts; public documents and publications.

USICA—3

System name: Bidders Mailing List Application-MGT/AC

System location: International Communication Agency, Contract and Procurement Division, 1717 H Street, NW., Washington, D.C. 20547.

Categories of individuals covered by the system: Prospective Government contractors and Agency contractors.

Categories of records in the system: Information is contained on a standard form which requests the individual's name and address, type of business, number of employees, average annual sales or receipts, facilities (space), net worth, security clearances held, and a certification of the accuracy of the information provided on the form.

Authority for maintenance of the system: Federal Procurement Regulations (41 CFR 1-2.205-1(c) and 1-16.802).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To prepare the Agency's Bidders Mailing List and for use of contracting specialists to determine adequacy of facilities, and financial responsibility of prospective contractors. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

The information may also be released to other government agencies who have statutory or other lawful authority to maintain such information.

The principal user of this information outside the International Communication Agency is the General Services Administration.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information included on Standard Form 129, and maintained in binders.

Retrievability: By the name of the individual.

Safeguards: Maintained in combination lock file cabinet, available only to authorized personnel.

Retention and disposal: A routine update of information is conducted approximately every five years. Outdated information disposed of by burning.

System manager(s) and address: Agency Contracting Officer, Contract and Procureent Division, 1717 H Street, N.W., Washington, D.C. 20547.

V 4 / 16 J A 23 79 UMI

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Assistant Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Information provided by individuals, companies and corporations.

USICA—4

System name: Contract Talent and Employee Recruitment Files-PGM/T

System location: International Communication Agency, Television and Film Service, 601 "D" Street, N.W., Washington, D.C. 20547. International Communication Agency, Television and Film Service, 1657 Broadway, New York, New York 10019.

Categories of individuals covered by the system: Job applicants; professional talent specialists in languages, camera, acting, etc., contractual motion picture and television producers.

Categories of records in the system: Records on individuals who have applied for employment as free-lance talent; correspondence between contractual motion picture and television producers; film review sheets; producer questionnaire forms; duplicate copies of security clearance information on talent vendors and contractual producers; card files on applicants for employment with USICA's Television Service and Film Service.

Authority for maintenance of the system: Federal Records Act, 44 USC 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To identify sources for contract productions; to identify individuals who have applied to USICA for employment as free-lance talent vendors; to fill vacant positions in production and/or technical positions as they become vacant; to determine security clearance status of contractual individuals or companies. Also see Prefatory Statement of General Routing Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Information in these files is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Card records and paper records in file folders.

Retrievability: By name of the individual concerned.

Safeguards: Maintained in locked file cabinets and available only to authorized personnel.

Retention and disposal: Records on talent vendors and contractual producers retained indefinitely; records on job applicants retained for ten years, and disposed of in accordance with internal schedules for rentention and disposal of files.

System manager(s) and address: Chief, Television and Film Service, 601 "D" Street, N.W., Washington, D.C. 20001. Executive Officer, Television and Film Service, 601 "D" Street, N.W., Washington, D.C. 20001.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Provided by vendors, contractors and job applicants concerned; by employees of USICA's Television and Film Service.

USICA—5

System name: Contract Talent Vendor Files-VOA

System location: International Communication Agency, Voice of America, HEW North Building, 330 Independence Ave., S.W., Washington, D.C. 20547.

International Communication Agency, Voice of America, 25 "M" Street, S.W., Washington, D.C. 20547.

Categories of individuals covered by the system: All contract talent vendors who perform free-lance services in the U.S. for the Voice of America.

Categories of records in the system: Records and information pertaining to the testing and qualifications of vendors; security clearance applications and approvals; copies of contracts, and detailed record of services performed by vendors and payments made by VOA for these services.

Authority for maintenance of the system: Public Law 402: United States Information & Educational Exchange Act of 1974, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Provide necessary reference information for use by VOA administrative offices in meeting their daily responsibilities of advising on and coordinating programming and fiscal activities relating to the recruitment and contracting of free-lance talent vendors. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties. These records are not normally available to individuals and agencies outside the International Communication Agency, but information may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: All information is retained in document form in file folders.

Retrievability: Files are indexed alphabetically by vendor.

Safeguards: All files are locked in security-approved file cabinets. Access to files is permitted only to administrative staffs and other top management officials having a need to know such information in the normal performance of their duties.

Retention and disposal: Files are retained for three to four years after last date of services rendered by vendor, after which time files are then destroyed in accordance with established USICA records-disposal procedures.

System manager(s) and address: Director of Administration, Voice of America, Room 3360, HEW North Building, 330 Independence Ave., S.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Information is received from vendor (application forms); from USICA Security Office (approval of security clearance request); from documents generated through the normal process of using a vendor and making payments for services rendered (purchase orders and payment records).

USICA—6

System name: Office of Cultural Centers and Resources Recruitment Files-ECA/F

System location: International Communication Agency, Educational and Cultural Affairs, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: American Scholars who may be used as consultants or specialists in American studies domestically or overseas; applicants for employment, contracts or grants with regard to USICA's Library Program and Library Fellows; applicants for employment, contracts or grants with regard to USICA's English Teaching Program; other applicants for employment, contracts or grants with regard to specific positions in overseas cultural operations.

Categories of records in the system: Biographic data on American Scholars provided by the individuals themselves upon request; biographic data on applicants for employment, contracts and grants including previous employment, education, recommendations and security clearance status; library field reports, comments and evaluation on library visits written by Public Affairs Officers, and letters of correspondence between supervisors and librarians.

Authority for maintenance of the system: Executive Order 11034, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Screening of applicants for employment, contracts or grants, for appraisal by Agency's geographic area offices and Public Affairs Officers located overseas; evaluation by Library Program Staff of candidates for librarian positions; to develop work requirements for regional librarians; to identify scholars with skills related to academic projects. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

The principal user of this information outside the International Communication Agency is the U.S. Department of State.

The information may also be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: By name of the individual.

Safeguards: Maintained in locked file cabinets.

Retention and disposal: Files retained as long as they are of active interest or the individual is employed. Inactive files destroyed by burning.

System manager(s) and address: Director, Office of Cultural Centers and Resources, 1717 H St., N.W., Washington D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., NW., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., NW., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Records on American Scholars provided by applicants; records on all other applicants are submitted to the Agency or authorized by the applicants.

USICA—7

System name: Director's Secretariat Staff Files D/SS

System location: International Communication Agency, Executive Secretariat, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Members of the White House Staff, Congressmen, heads of other executive agencies of the Federal Government, Federal Judges and members of the general public.

Categories of records in the system: Correspondence addressed to the director of USICA, and copies of responses to requests for reports, information and/or assistance of various kinds prepared by the Director or his or her designated representative.

Authority for maintenance of the system: The Federal Records Act of 1950, as amended, 44 USC 3101-3107; Records Disposal Act of 1943, as amended, 44 USC 3301-3314.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Reference file to provide oversight of the flow of requests to the USICA Director for reports, information and/or assistance of various kinds, and to monitor the accomplishment of responses to such requests. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

The information may also be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are stored in a computer maintained by and located within the U.S. Department of State, and maintained as paper records in file folders in USICA.

Retrievability: Records are cross-indexed by individual name and by computer reference number.

Safeguards: Computer records are accessible only to authorized employees of the International Communication Agency or the Department of State. Paper records are kept in locked file cabinets.

Retention and disposal: Records are maintained indefinitely.

System manager(s) and address: Chief, Executive Secretariat, International Communication Agency, 1750 Pennsylvania Ave., N.W. Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Unsolicited correspondence from U.S. Government officials and members of the general public addressed to the Director of USICA.

Systems exempted from certain provisions of the act: Certain records contained within this system of records may be exempted from 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4) (G), (H) and (f). See amendments to 22 CFR, Chapter V, Sec. 505.15 as published in the proposed rules section of the Federal Register for December 10, 1976.

USICA—8

System name: Employee Administrative Files VOA.

System location: International Communication Agency, Voice of America, HEW North Building, 330 Independence Avenue, S.W., Washington, D.C. 20547.

International Communication Agency, Voice of America, Engineering Division, 25 "M" Street, S.W., Washington, D.C., 20547. Also see Appendix II for locations of domestic relay stations.

Categories of individuals covered by the system: Voice of America domestic employees and overseas American employees.

Categories of records in the system: Records and information pertaining to testing, recruitment and appointment of employees (application forms, fiscal documents covering related expenses); records concerning post-appointment changes in employee skills, qualifications, and experience; copies of SF-50 "Notice of personnel Action" and payrool change slips.

Authority for maintenance of the system: Public Law 402, United States Information and Educational Exchange Act of 1948, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Files maintained for convenience due to physical separation from Personnel Office; provide necessary background/reference information for use by VOA Administrative Offices in meeting their daily responsibilities of advising on and co-ordinating programming, personnel and fiscal activities relating to recruitment, hiring and employment of staff employees. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

These records are not normally available to individuals and agencies outside the International Communication Agency, but information may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: All information is retained in document form in file folders

Retrievability: Files are indexed alphabetically by employee name.

Safeguards: All files are locked in security-approved file cabinets. Access to files is permitted only to administrative staffs and other top management officials having a need-to-know such information in the normal performance of their duties.

V 4 4 / 1 6 J A 2 3 7 9 UMI

Retention and disposal: Files may be retained for up to ten years after departure of employee, then destroyed in accordance with established USICA records disposal procedures. Copies of documents for which originals exist in Official Personnel Folders and which are removed from official personnel folders when an employee resigns, are also removed from administrative files and destroyed.

System manager(s) and address: Director of Administration, Voice of America, Room 3360, HEW North Building, 330 Independence Avenue, S.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Information is received from employees (application forms); from employees' supervisors (employees' experience, performance, and recommendations for promotions, etc.); from organizational personnel and fiscal elements (SF-50 personnel actions, payroll change slips, etc.).

USICA-9

System name: Retirement and Insurance Records—MGT/P-USICA.

System location: International Communications Agency, Office of Personnel Services, 1776 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Agency employees in retirement processing; approaching mandatory retirement, or actually retired from the Agency.

Categories of records in the system: Retirement service history (Agency only); computer listing of (1) persons retiring mandatorily within 90 days; (2) persons who are projected to retire within 5 years. Lists give name, DOB, SCD, Grade/Step, Salary, Location code, Retirement code.

Authority for maintenance of the system: FPM Supplement 831-1, 51, 58-2, 3 FAM 670; 44 USC 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Processing retirement applications and counselling prospective retirees on annuities and other benefits. Also see Prefatory Statement of General Routing Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties. The information may also be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Manually by name of employee.

Safeguards: Maintained in locked file cabinets.

Retention and disposal: Retirement files retained indefinitely. Old computer listing destroyed when updated; individual retirement computation worksheets filed in employee's retirement file.

System manager(s) and address: Chief, Retirement and Insurance Branch, Office of Personnel Services (MGT/PDR), 1776 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Notification procedure: Office of Congressional and Public Liaison (CPL), 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Record access procedures: Requests from individual should be addressed to: Office of Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access, contesting contents, and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Employees; official personnel folder; supervisors; Agency's payroll and leave office; Civil Service Commission; Foreign Service Retirement Board.

USICA—10

System name: Employee Indentification Card and Photograph File-MGT/S

System location: International Communication Agency, Office of Security, 1425 K Street, N.W. Washington, D.C. 20547.

Categories of individuals covered by the system: Current and past employees of the International Communication Agency.

Categories of records in the system: Personal description; date of birth; height; weight; color of hair and eyes; color photograph of full face.

Authority for maintenance of the system: Executive Order 11652 dated March 8, 1972.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Personal proof of employee identity; to provide Passport photos of employee and dependents for official use; provide photographs for official use by the office of Congressional and Public Liaison (USICA) and other Agency elements having official need to have visual identification records, such as a Senior Officer Staffing display. Photographs are also available to employees for official uses. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to presonnel of the International Communication Agency as may be required in the performance of their official duties

The principal user of this information outside the International Communication Agency is the U.S. Department of State.

The information may also be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Written form record and photograph film.

Retrievability: By name of the individual employee.

Safeguards: Access by security-cleared employees having a need-to-know. When not in personal custody during processing, stored in combination-locked security container.

Retention and disposal: Records of former employees destroyed after five years under security controls. Records of current employees retained indefinitely, or until employee is separated.

System manager(s) and address: Director (USICA) Office of Security, 1925 K Street, N.W., Washington, D.C., 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, DC 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Applicant and employment records (with verification from the individual concerned).

USICA—11

System name: Employee Payroll and Retirement System-MGT/CF

System location: International Communication Agency, Financial Operations Division, 1717 H ST. NW., Washington, D.C. 20547.

Categories of individuals covered by the system: Employees currently on Agency rolls.

Categories of records in the system: Civil Service and Foreign Service individual retirement records, time and attendance records (domestic employees only), master employee registers (domestic only), payroll folders, overseas pay cards for foreign service employees.

Authority for maintenance of the system: Section 113 of the Budget and Accounting Procedures Act of 1950 as amended

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To assure proper salary payment to employees and for reference regarding salary history; master record of employee accumulation and use of annual and sick leave; recording of employee contributions to the Civil Service and Foreign Service Retirement Systems. Also see Prefatory Statement of General Routine Uses.

Information is made available to personnel of the International Communication Agency on a need-to-know basis or as may be required in the the performance of their official duties.

The principal users of this information outside the International Communication Agency are the U.S. Treasury, the Civil Service Commission, and the Director General of the Foreign Service, U.S. Department of State.

The information may also be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Time and attendance cards maintained on punched cards; retirement records are recorded on 5 x 7 cards and maintained in a file cabinet; the master employee register is a computer report; payroll records are maintained in manila folders; overseas pay cards are manually prepared or maintained as a computer report, depending upon the facilities available at various overseas locations.

Retrievability: By the name of the individual employee.

Safeguards: Records maintained in various types of containers; security provided by surveillance of responsible employees during working hours, and by building security guards during non-working hours.

Retention and disposal: Retirement records are forwarded to the Civil Service Commission for domestic employees, and the State Department for foreign service employees, upon retirement, resignation or transfer of employee. Payroll records are retired to Federal records Center, St. Louis, after two years.

System manager(s) and address: Chief, Financial Operations Division, 1717 H St., NW., Washington, D.C. 29547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., NW., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., NW., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Various forms provided by individual and by USICA's Office of Personnel Services, i.e., personnel action forms, payroll change forms, Federal and state withholding exemption certificates, employee allotment deduction forms, time and attendance cards.

USICA—12

System name: Employee Relations Files—MGT/P—USICA

System location: Internatinal Communication Agency, Office of Personnel Services, 1776 Pennsylvania Avenue, N.W., Washington, D.C. 20547

Categories of individuals covered by the system: Employees who have filed informal grievances or complaints, or formal grievances for Agency level review; employees affected by workforce or element reorganization; employees for whom special disciplinary actions are in process.

Categories of records in the system: All appropriate documents necessary in the processing of a grievance, such as position descriptions, performance evaluations, grievance investigation reports statements of supervisors, witnesses, representatives of grievant, and miscellaneous housekeeping records.

Authority for maintenance of the system: Agency's Manual of Operations and Administration; FPM 511—Subchapter 6; 44 USC 3101; P.L. 93-181; FPM Letter 630-22, FPM Chapters 335, 752, 831.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Investigation and resolution of employee grievances; provide information to the Foreign Service Grievance Board or Federal Appeals Boards as appropriate or necessary; provide investigatory or background materials to grievants or their representatives; provide information to the Agency's General Counsel in connection with the processing of a grievance, the prosecution of an appeal, or the processing of an adverse action. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency (ICA) in the performance of their offical duties. The principal users of this information outside the International Communication Agency are: the Civil Service Commission, the Department of Justice; other federal, state and local law enforcement or agencies or accredited investigators. Information may also be released to other government agencies which have statutory or other legal authority to access or maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: By name of individual.

Safeguards: Maintained in locked file cabinets; grievance files are extremely confidential and are protected as such.

Retention and disposal: Records retained indefinitely or unitl no longer needed.

System manager(s) and address: Chief, Labor Relations Branch((MGT/PPL), Office of Personnel Services, International Communication Agency, 1776 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Notification procedure: Office of Congressional and Public Liaison, International Communication Agency, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Office of Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Individual to whom the record pertains; Agency officials; affidavits or statements from employees; testimony of witnesses; correspondence from specific organizations or persons; employee's representative; and official documents relating to the appeal grievance or complaint.

Systems exempted from certain provisions of the act: Certain records contained within this system of records may be exempted from 5 U.S.C. 552a (c)(3), (d), (e)(1), (e)(4)(G), (H), (I), and (f). See 22 CFR Part 505.15 as published in the Federal Register in July 21, 1976 (41 FR 30029).

USICA—13

System name: Employee Training Files—MGT/PT—USICA

System location: International Communication Agency, Office of Personnel Services, Training and Development Division, 1425 K Street, N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Agency employees receiving training: workshops, languages, lectures or seminars, university or service colleges; personnel and management interns.

Categories of records in the system: Employee training applications, biographic data, educational background, record of training received by the Agency, outline of training program, performance evaluation extracts; language proficiency and test scores, course grade, and employee's evaluation of training courses.

Authority for maintenance of the system: P.L. 85-507, 72 Stat. 335, Reorganization Plan No. 8 of 1953, 22 U.S.C. 1461, 67 Stat. 642, P.L. 79-724, Foreign Service Act of 1946, as amended, FPM 410, Subch. 3.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Background material used to determine eligibility for training; assignment and progress in language courses; used by career counselors to determine training needs; justification of training reports and record-keeping; evaluation of intern training and potential for job growth; used to evaluate and select lecturers for agency workshops or seminars; preparation of reports to Congress and other government agencies on training provided and costs, as well as projected training needs and costs. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

The principal users of this information outside the Agency are: the Civil Service Commission; personnel officers in other government agencies as a result of transfer of the individual to whom the records pertain; other agencies considering employees for detail purposes; accredited investigators.

The information may also be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Manually retrieved by name, by computer generated lists of training statistics, or by training course title.

V 4 4 / 1 6 J A 2 3 7 9 UMI

Safeguards: File maintained in locked cabinets or protected by routine office safeguards, i.e., surveillance by responsible personnel and disclosure only to authorized individuals.

Retention and disposal: Training records maintained until employee is separated, at which time records are included with official personnel folder; other records are retained indefinitely or until no longer needed; budget records and cost statistics retained indefinitely.

System manager(s) and address: Chief, Training & Development Division (MGT/PT), Office of Personnel Services, 1425 K Street, N.W., Washington, D.C. 20547.

Notification procedure: Office of Congressional and Public Liaison, International Communication Agency, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Office of Congressional and Public Liaison, International Communication Agency, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determination by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: The employee; employment applications; official personnel records; personnel action forms; personnel officers; training officers and other officers, involved in personnel management; supervisors; training records; application for training; trainee evaluations of courses.

Systems exempted from certain provisions of the act: Certain records contained within this system of records may be exempted from 5 U.S.C. 552a (c)(3), (d), (e)(1), (e)(4)(G), (H), (I), and (f). See 22 CFR Part 505.15 as published in the Federal Register on July 21, 1976 (41 FR 30029).

USICA—14

System name: Employee's Confidential Statement of Employment and Financial Interests-GC

System location: International Communication Agency, Office of the General Counsel, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Experts or consultants, employees paid at the Executive Schedule level; employees classified at GS-13, FSIO-4, FSR-5, FSS-2, or above, who are in positions of responsibility for a Government decision or taking a Government action in regard to: (1) contracting or procurement; (2) Administering or monitoring grants or subsidies; (3) regulating or auditing private or other non-Federal enterprise; or required to report employment and financial interests in order to avoid possible conflicts of interest.

Categories of records in the system: Statements of personal and family shareholdings and other interest in business enterprises; copies of blind trust and other agreements pertaining to such interests; correspondence as to insulation of control or conflicts of interest; opinions of counsel, including recommendations on waivers.

Authority for maintenance of the system: E.O. 11222; 5 U.S.C. 7301; 18 U.S.C. 208.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Review by Assistant General Counsel for possible conflict of interest. Provide necessary reference information should allegations of conflict of interest arise. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Information in these records is not normally made available to individuals or agencies outside the International Communication Agency, but records may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Alphabetically by name and by Agency element or geographic area.

Safeguards: Maintained in bar-lock cabinet.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Disposed of 2 years after employee leaves a position in which a statement is required, or 2 years after the employee is separated from the Agency, whichever is earlier.

System manager(s) and address: General Counsel, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director, (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: From the individual who filed the statement.

USICA—15

System name: Equal Empoyment Opportunity Complaint Files—MGT/E.

System location: Office of Equal Employment Opportunity, International Communication Agency, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Any aggrieved employee or applicant for employment with USICA who believes he or she has been discriminated against because of race, color, religion, sex, national origin, and/or age, and who has consulted with an Equal Opportunity Counselor of the Agency or a member of the EEO Staff about the matter.

Categories of records in the system: Communications of EEO Counselor with aggrieved person, written report of precomplaint counseling efforts by the EEO Counselor, the complaint, the investigative file, written records of adjustment of complaint; written record of complaint withdrawal by complainant, Agency letter proposing disposition of the case, transcripts of hearing, Agency letter advising of final disposition of the case.

Authority for maintenance of the system: FPM Suppl. 990-1 (Part 713).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To record actions taken, with verifying statements, regarding employees' and employment applicants' complaints of discrimination. Also see Prefatory Statement of General Routine Uses.

Information is made availabe on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

The principal users of this information outside the International Communication Agency are the Civil Service Commission and the Department of Justice.

The information may also be released to other Government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Indexed by the individual's last name.

Safeguards: Records are stored in cabinets with bar locks. Except for copy of individual file provided to complainant and/or his or her representative, and copies furnished as needed to the office of the USICA General Counsel, and to officials of the Civil Service Commission and the Department of Justice, files are not removed from the EEO Office.

Retention and disposal: Records are maintained indefinitly.

System manager(s) and address: Director (USICA), Equal Employment Opportunity, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Personal interviews, affidavits, USICA personnel and employment records and procedures, transcript of hearings, and related correspondence.

Systems exempted from certain provisions of the act: Certain records contained within this system of records may be exempted from 5 U.S.C. 552a (c)(3), (d), (e)(1), (e)(4)(G), (H), and (I), and (f). See 22 CFR Part 505.15 as published in the Federal Register on July 21, 1976 (41 FR 30029).

USICA—16

System name: Equal Employment Opportunity General Files MGT/E

System location: International Communication Agency, Office of Equal Employment Opportunity, 1750 Pennsylvania Ave., N.W., D.C. 20547.

Categories of individuals covered by the system: Employees of the Office of Equal Employment Opportunity; employees selected for employment and applicants for positions with USICA; significant women, minority group members, and specialists in the area of Equal Employment Opportunity.

Categories of records in the system: Copies of applications and resumes of women and minority group members seeking employment with USICA; biographical materials describing significant women, minority group members and specialists in the area of Equal Employment Opportunity who can be used as speakers, selection board members, and consultants; miscellaneous information about individual employees and job applicants involved in the USICA Equal Employment Opportunity Affirmative Action Plan; training requests, travel documents, and notices of personnel actions for employees of the Office of Equal Employment Opportunity.

Authority for maintenance of the system: FPM Supplement 990-1, Part 713.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To supply names of women and minority group candidates to USICA recruitment officers; determine effectiveness of Agency's female and minority recruitment programs; select significant Equal Employment Opportunity speakers, consultants, and selection board members; maintain records of significant personnel actions involving employees in the Office of Equal Employment Opportunity. Also see Prefatory Statement of General Routine uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

This information is available upon request to the Civil Service Commission.

The information may also be released to other Government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Indexed by individual name and types of activity; e.g., speaker's file, Affirmative Action Plan file, travel file.

Safeguards: Maintained in locked file cabinets.

Retention and disposal: Records maintained indefinitely.

System manager(s) and address: Director (USICA), Equal Employment Opportunity, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Correspondence; memos of conversation; Agency records of personnel actions; published biographical sources.

Systems exempted from certain provisions of the act: Certain records contained within this system of records may be exempted from 5 U.S.C. 552a (c)(3), (d), (e)(1), (e)(4)(G), (H), and (I), and (f). See 22 CFR, Part 505.15 as published in the Federal Register on July 21, 1976 (41 FR 30029).

ICA-17

System name: Foreign Service Selection board Files-MGT/P-USICA

System location: International Communication Agency, Office of Personnel Services, 1776 Pennsylvania Avenue, N.W., Washington, D.C., 20547.

Categories of individuals covered by the system: Foreign Service employees of the Agency.

Categories of records in the system: Preprinted 5 x 8 cards containing data such as name, class, specialty code, position, date OER received by MGT/P; as appropriate, letters of commendation or low-ranking and comments of the selection boards on foreign service promotions contained in letter files.

Authority for maintenance of the system: Foreign Service Act of 1946, as Amended, Sec. 611; 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: preparaton of promotion projections and foreign service information officer nominations lists; used to monitor and control receipt of Officer Evaluation Reports by MGT/P; used to prepare files and other information for Selection Boards may be used by Agency's Equal Employment Opportunity Officer, or the Labor Relations Branch (grievance examiners) in the event of an employee grievance. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

The principal user of this information outside the USICA is the Director General of the Foreign Service, U.S. Department of State.

The information may also be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper and card records in file folders or metal card files.

Retrievability: Manually retrieved by individually name and class.

Safeguards: Maintained in locked file cabinets.

Retention and disposal: Maintained during period of employment with the Agency; records destroyed upon separation of the employee.

System manager(s) and address: Chief, Policies and Services Staff, Office of Personnel Services (MGT/PPS), 1776 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Notification procedure: Office of Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Office of Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in Rules Section of the Federal Register.

Record source categories: Reports of Selection Boards on the review of pertinent promotion documentation such as officer evaluation; notifications of personnel actions; foreign service residency and dependency reports; notifications to officers of low ranking; materials submitted by officer on his or her own behalf.

USICA—18

System name: Congressional Correspondence—CPL/USICA

System location: International Communication Agency, Office of (USICA) Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Current and former Members of Congress.

Categories of records in the system: Incoming and outgoing correspondence to Members of Congress, including requests for information and referral of job applicants by Members.

Authority for maintenance of the system: Federal Records Act of 1950, as amended, 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Reference file for oversight of Congressional requests. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency, as may be required in the performance of their duties.

Information in these records is not normally available to individuals or agencies outside the International Communication Agency,

V 4 4 / 1 6 J A 2 3 7 9 UMI

but records may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Indexed alphabetically by individual name.

Safeguards: Maintained in bar-lock file cabinets.

Retention and disposal: Records are kept as long as the individual is a Member of Congress, or the files are of active interest. Thereafter the records are destroyed.

System manager(s) and address: Director, Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Communications from Members of Congress and copies of responses generated by various Agency personnel.

USICA—19

System name: Legal Files—GC

System location: International Communication Agency, Office of the General Counsel, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Individuals who have filed grievances or discrimination complaints; employees separated or considered for separation for cause; officers selected out; individuals taking legal action against the Agency or its employees; tort claimants and accident victims; employees and related persons for whom legislative action is sought; personal property loss claimants; employees and applicants raising legal issues concerning rights or benefits.

Categories of records in the system: Investigatory reports; litigation reports; pre-hearing and trial preparatory materials; evidence for discovery and submission to hearing officers or courts; pleadings, briefs, transcripts, decisions and other related documents.

Authority for maintenance of the system: The Federal Records Act as amended, 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To represent the Agency in claims and other actions; to issue legal opinions or determinations on further Agency action. Also see Prefatory Statement of General Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their offical duties.

The principal users of this information outside the Agency are the Department of Justice, Department of State, Civil Service Commission, Foreign Service Grievance Board and the Employee Management Relations Committee.

Records contained in these files may be released to agencies outside the International Communication Agency who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: By the name of the individual, and the nature of the legal action.

Safeguards: Maintained in locked file cabinets.

Retention and disposal: Records may be retained indefinitely or disposed of when no longer useful or current.

System manager(s) and address: General Counsel, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Information provided by the individuals and their attorneys or representatives, and by employees of the Agency; information produced in the processing of a claim, grievance, legal action or issue.

Systems exempted from certain provisions of the act: Pursuant to 5 U.S.C. 552a(k)(2) and (k)(5), all investigatory material in the record which meets the criteria of these subsections is exempted from the notice, access and contest requirements (under 5 U.S.C. 552(a)(c)(3), (d), (e)(1), (e)(4)(G), (H), and (I), and (f) of the Agency regulations in order for the Agency's legal staff to properly perform its functions. See also 22 CFR Part 505.15 as published in the Federal Register on July 21, 1976 (41 FR 30029).

USICA—20

System name: Locator Cards—MGT/AA

System location: International Communication Agency, Domestic Support Division, Administrative Office, 1717 H Street, N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Past and present domestic employees of USICA.

Categories of records in the system: Locator card prepared for each domestic employee, containing the name, office location, telephone number, home address and telephone number of person to contact in case of emergency.

Authority for maintenance of the system: USICA's Manual of Operations and Administration, Part-II 495.2.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To assist USICA elements and others in locating employees; basic input source for telephone directory; also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

The information may also be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Material maintained on index cards.

Retrievability: Filed alphabetically by name, sorted as to active and inactive.

Safeguards: Cards maintained in index card boxes which are locked in bar-lock cabinets after working hours.

Retention and disposal: Cards retained for one year after departure of employee and disposed of by shredding.

System manager(s) and address: Chief, Office of Administrative Services, Room 600, 1717 H Street, N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: The individual on whom information is maintained.

USICA—21

System name: Employee Master Personnel Recrods—MGT/P-USICA.

System location: International Communication Agency, Office of Personnel Services, 1776 Pennsylvania Avenue, N.W., Washington, D.C. 20547; and International Communication Agency, 300 "C" Street, S.W., Washington, D.C. 20547. Computer tape and disc records are located in the Automatic Data Processing Division (MGT/AP), International Communication Agency, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: All Agency employees and reimbursables from other agencies.

Categories of records in the system: Data on employee's work experience, assignments, promotions, transfers, within-grade increases, personnel actions, commendations, evaluations of work performance, medical information, training certificates, home address, next-of-kin information, information related to security clearances, suspense reports on various events, such as appointment expiration dates, date probation ends, date promotion eligibility, expiration of LWOP, etc.

Authority for maintenance of the system: Executive Order 10561; FPM Chapter 291-93; 5 U.S.C. 13-2, 2951, 4118, 4308, 4506, FPM Chapter 713, Subchapter 3; Executive Order 14492; 44 U.S.C. 3101; FPM Chapter 732.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To prepare reports required by the Civil Service Commission, Congress and OMB; used by the Civil Service Commission and investigatory agencies to verify employee statements on applications for employment with other agencies; investigation of discrimination complaints; statistical reporting to the CSC on minority employment, handicap programs, and other special programs; control of personnel ceilings; project and assess personnel movement dynamics; conducting security check and updating security clearances; preparation of employee performance rating and evaluations; evaluation of work performance are reviewed by Officer Evaluation Report Review Panel to correct technical deficiencies in reporting and improving quality of evaluation; used by Selection Boards and Merit Promotion Panels to determine whether employees should be recommended for promotion; used for routine personnel management and administration. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Principal users of this information outside the International Communication Agency are: The Civil Service Commission, the Department of State, the Office of Management and Budget, the General Accounting Office, and personnel offices of other government agencies when an employee seeks transfer or detail; accredited investigators.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Computer disc and magnetic tape; computer printouts, visual card files, paper records in file folders.

Retrievability: By employee name, agency element, employee ident. number, grade/class, tenure code, and other data elements.

Safeguards: Computer files are stored internally in the computer or in locked tape file cabinets and cannot be physically accessed except by authorized personnel; paper files and card trays locked in metal cabinets; room holding files is secured; access controlled by "sign out" records; computer access to EEO related or minority identification data strictly controlled by written direction of Director, Office of Equal Employment Opportunity.

Retention and disposal: Computer printouts destroyed by shredding or burning when new listings are produced; computer tapes retained indefinitely; other records retained until employee is separated, and then disposed of by transfer to the Civil Service Commission, other employing agency, Federal Records Center, or destruction as directed by internal agency regulations.

System manager(s) and address: Chief, Transactions and Files Staff (MGT/PDT), Office of Personnel Services, 1776 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Notification procedure: Office of Congressional and Public Liaison, International Communication Agency, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Office of Congressional and Public Liaison, International Communication Agency, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules to access, for contesting contents, and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Employee; employment applications; official personnel records, personnel action forms; administrative file; budget and personnel authorizations; employees' supervisors; USICA Office of Security; training officers and other officials involved in personnel management.

Systems exempted from certain provisions of the act: Certain records contained within this system of records may be exempted from 5 U.S.C. 552a (c)(3), (d), (e), (1), (e)(4) (G), (H), (I), and (f). See 22 CFR Part 505.15 as published in the Federal Register on July 21, 1976 (41 CFR 30029).

USICA—22

System name: Non-Offical Personnel Files—USICA

System location: International Communication Agency, 1776 Pennsylvania Ave., N.W. Washington, D.C. 20547.

International Communication Agency, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

International Communication Agency, 1717 "H" Street, N.W., Washington, D.C. 20547.

International Communication Agency, 601 "D" Street, N.W., Washington, D.C. 20547.

International Communication Agency, 1425 "K" Street, N.W., Washington, D.C. 20547.

See Appendix I for details of offices located in Washington, D.C.

See Appendix II for the locations of Agency offices located outside of Washington, D.C.

Categories of individuals covered by the system: Current employees and employees of other agencies detailed to USICA, and who are assigned to any of the following Agency elements:

Office of the Director
Associate Directorate for Programs
Office of Research and Evaluation
Television and Film Service
Press and Publications Service
Exhibits Service
Associate Directorate for Management
Office of Equal Employment Opportunity
Office of Security
Office of Personnel Services
Office of Administrative Services
Associate Directorate for Educational and Cultural Affairs
Office of Cultural Centers and Resources
Office of Congressional and Public Liaison
Office of General Counsel
Office of the Director of African Affairs
Office of the Director of American Republics Affairs
Office of the Director of East Asian and Pacific Affairs
Office of the Director of European Affairs
Office of the Director of North African, Near Eastern and South Asian Affairs

(Note: For non-Official Personnel Records maintained by the Associate Directorate for Broadcast see USICA—8 Employee Administrative Files—VOA.)

Categories of records in the system: Job descriptions; personnel action forms; payroll change slips; service record cards; employee locator cards; letters of commendation and other correspondence; material related to employment, experience, training, special qualifications and skills; salary and leave records. (Note: The record material listed above may not be contained in the files of all Agency elements listed under "Categories of Individuals Covered by the System".)

Authority for maintenance of the system: FPM-293-31, Subch. S-8; USICA's Manual of Operations and Administration. Part III—520.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To prepare requests for personnel action; to provide convenient access to information about employees, in view of the office's physical separation from the Office of Personnel Services, which maintains Official Personnel Files.

Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the Performance of their official duties.

Information in these files is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Indexed by individual name.

Safeguards: Maintained in locked file cabinets.

Retention and disposal: When employee separates from the Agency, file is forwarded to the Office of Personnel Services for screening and disposal.

V 4 4 / 1 6 J A 2 3 7 9 UMI

System manager(s) and address: Chief, Secretariat Staff, Office of the Director, 1750 Pennsylvania Ave., N.W., Washington D.C. 20547.

Records Control Officer, Associate Directorate for Programs, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Executive Officer, Office of Research and Evaluation, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Records Control Officer, Office of Equal Employment Opportunity, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Access to Information Officer, Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Paralegal Specialist, Office of the General Counsel, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Chief, Personnel Security Division, Office of Security, 1425 K Street, N.W., Washington, D.C. 20547.

Program Coordinator, Office of the Director (African Affairs), 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Program Coordinator, Office of the Director (East Asia and Pacific Affairs), 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Program Coordinator, Office of the Director (European Affairs), 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Program Coordinator, Office of the Director (American Republics Affairs), 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Resource Coordinator, Office of the Assistant Director (North African, Near Eastern and South Asian Affairs), 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Records Control Officer, Associate Directorate Management, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Records Control Officer, Office of Personnel Services, 1776 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Records Control Officer, Office of the Director, Cultural Centers and Resources, 1717 "H" Street, N.W., Washington, D.C. 20547.

Executive Officer, Television and Film Service, Patrick Henry Building, 601 "D" Street, N.W., Washington, D.C. 20547.

Executive Officer, Press and Publications Service, 1776 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individual should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: From the individual concerned; copies of actions originated by the USICA Office of Personnel Services; USICA Payroll Office; supervisors of employees on whom records are maintained.

USICA—23

System name: Overseas Personnel Files and Records—USICA

System location: International Communication Agency maintains establishments overseas in 120 foreign countries which are designated as mission posts, branch posts, regional service centers, VOA relay stations, and media extensions. A current listing of names and addresses of overseas establishments is not considered practical for Privacy Act purposes, due to the fact that such a list would require frequent amendment. Changing of office locations, opening of new offices, closing of established offices and realignment of geographic areas have become practical realities in conducting the Agency's mission overseas. Individuals who feel that records pertaining to themselves are maintained at any one of our overseas locations may contact the Agency's Congressional and Public Liaison, Room 1019, 1750 Pennsylvania Ave., NW., Washington, D.C. 20547. The Agency maintains an index of its records, including a current listing of overseas posts, which is available to the public as indicated in 22 CFR Ch. V, Rules for Implementing the Freedom of Information Act.

Categories of individuals covered by the system: Foreign Service employees of the International Communication Agency who are serving or have served at any of the Agency's overseas establishments.

Categories of records in the system: Personnel evaluation reports, travel orders, personnel action forms, payroll change forms, travel vouchers, residence and dependency reports, correspondence related to transfer of duty station or training assignments.

Authority for maintenance of the system: The Foreign Service Act of 1946.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Maintained for convenience due to separation from main office; for use by senior USICA officers at overseas establishments in evaluating the performance of subordinate officers; for planning future staffing requirements; dates of reassignment of officers; entitlement to foreign service allowances; home address and next of kin in the United States in case of emergency; settlement of personal business after departure of employee from the overseas establishment. Also see Prefatory Statement of General Routing Uses.

Information in these files is available only to American foreign service employees on a need-to-know basis as may be required in the performance of their official duties.

The principal user of this information outside the International Communication Agency is the U.S. Department of State.

The information may also be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: By name of the individual.

Safeguards: Maintained in locked file cabinets.

Retention and disposal: Destroyed after three years after employee's departure from the post. (Reference USICA's Manual of Operations and Administration, Part III, Exhibit 630A-3, Page 3).

System manager(s) and address: See "System Location" above.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., NW., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., NW., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: All documents contained in these records are duplicates of material originated by other elements of the International Communication Agency or, in some instances, by the Department of State.

USICA—24

System name: Personnel Security and Integrity Records—MGT/S

System location: Office of Security, Room 662, International Communication Agency 1425 K. St., N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: All persons currently or formerly employed or used under contract in the U.S.; all Americans currently or formerly employed or used under contract in other countries; some but not all foreign nationals currently or formerly employed or used under contract in other countries; former applicants who were not employed; persons whose services are or were otherwise utilized by a component of USCIA, whether compensated or not; prospective spouses of USICA employees; and other persons who are significantly identified with persons whose services have at one time or another been utilized or considered by the Agency in one or more of the manners indicated herein. Names are also cross-indexed on persons not so identified but who are or were significantly involved in non-security related administrative inquiries conducted by the Security Office of USICA, such as malfesance, nonfesaance, misfesance, conflicts of interest, tort matters, equal employment opportunity inquiries and other administrative investigations conducted at the request of other elements of the Agency, and on persons of intelligence and counterintelligence interest whose names appeared in the press, or are contained in documents furnished by the FBI, CIA and other intelligence and counterintelligence agencies of the U.S. Government.

Categories of records in the system: Reports of Investigation conducted by the Security Office of USICA and by other government agencies, inter-office correspondence, relevant correspondence and memoranda originated by other elements of USICA, other federal agencies, other governmental entities (i.e., state and local authorities), corporate and private entities and by individuals. Additionally, records are maintained of security violations and consequent recommendations for disciplinary action. The system contains reports of briefings and debriefings of employees and other performing services for USICA at overseas posts and evaluative summaries of individuals files. Not all files, however, contain all of the above elements.

Authority for maintenance of the system: The authority of the Office of Security to collect and maintain security data is based on Section 1001 of the United States Information and Education Exchange Act of 1948, 62 Stat. 13, 22 U.S.C. Section 1434, as amended, 66 Stat. 43, (1952), Reorganization Plan No. 8 of 1953, 67 Stat. 642, Executive Order 10477 of August 1, 1953 as amended, the Act of August 26, 1950 64 Stat. 476, 5 U.S.C.A. 3571, 7312, 7501, 7512 and 7532, Executive Order No. 10450 of April 27, 1953 as amended, and Executive Order 11652 of March 8, 1972.

The authority of the Office of Security to collect and maintain certain administrative data, as the investigative arm of the Agency, is based on 22 USC 1434; Foreign Service Act of 1946, Sec. 611; Reorganization Plan No. 8; Executive Order 10477; 5 USC Chap. 33.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Making security decisions on applicants for employment. In certain cases data in security files is used by the Personnel Office and the Foreign Service Board of Examiners to determine the qualifications and suitability of an applicant.

Making security decisions on Agency employees to determine whether previously granted security clearances may remain in effect.

Making advisory opinions on individuals used by the Agency in a limited or unlimited contractual manner or otherwise and granting exceptions to the Agency's regulations governing such usage under a delegation of authority from the Director.

Giving security certifications in writing or orally to other Security Offices of the Federal Government.

Making security decisions as to the advisability of assigning employees to certain areas of the world or to certain positions within the Agency.

Making security decisions as to the advisability of certain promotions as required by Agency regulations.

Making security decisions as to granting an employee a cryptographic clearance under regulations for such clearance enforced by the Department of State.

Making an advisory opinion as to the effect on an employee's security clearance of a marriage to a non-U.S. citizen.

Reviewing the files in certain cases of non-citizen employees of USICA abroad to determine whether they may be granted a security certification.

Reviewing the files of former Agency employees and applicants never employed to determine what investigative material must be returned to the Civil Service Commission as required by that Commission.

Forwarding the investigative material to certain designated employees of the Personnel Office and of other offices of USICA.

Advising duly authorized security officers of other agencies of significant security data in the file of an Agency employee or applicant.

Advising the Civil Service Commission that significant security or suitability data was developed during a pre-employment investigation of an applicant, or during an investigation of an Agency employee who left the Agency's employment prior to a final adjudication of the case.

To determine whether the Office of Security has previous record of individuals or organizations of interest to the Agency as potential employees, contractors or in some non-compensated activity, or previous record of individuals or organizations becoming of interest as the result of significant identification with person or organizations of current interest to the Agency.

To determine what investigation might be required in the processing of individuals or organizations of interest to the Agency as potential employees or contractors, or in non-compensated use.

To determine specific areas of inquiry by agents of the Office of Security or agents of other federal agencies acting in our behalf, engaged in the various types of security/suitability investigations conducted by the office, i.e., applicant interviews, applicant update investigations, employee investigations, administrative inquiries, debriefings and employee interviews.

To determine whether periodic updating of employee security clearances are required and further determine the appropriate scope of update investigations.

To assist in determining the extent to which allegations against employees or applicants should be investigated.

Review of MGT/SI investigative material by authorized representatives of other U.S. government agencies having security or suitability interests.

Furnish to the Department of Justice information indicating possible violation of criminal laws.

Review for research projects originating from within and outside MGT/SI i.e., surveys of exhibit guide debriefings, and statistical surveys regarding the conduct of various types of investigations and the results thereof.

To determine whether debriefings are indicated.

To furnish biographical data to other elements of the agency.

To furnish data, to the extent necessary to identify the individual adequately, to any other record custodian in order to obtain information relevant to a legitimate investigative or intelligence interest of the International Communication Agency.

To provide guidance for employees having had and anticipating contacts with certain foreign nationals.

To assess recommendations for disciplinary action based on violations of security regulations.

Also see Prefatory Statement of General Routine Uses.

Individual files are used by the Director, Office of Security, as reference in contacts and correspondence with USICA Director, Deputy Director, General Counsel, Associate Directors and other USICA personnel when necessary to resolve specific personnel security matters. In addition, files are also used by him in correspondence and contacts with other government agency officials when necessary to inform them of information available in USICA Office of Security files.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Various written-entry document forms.

Retrievability: Indexed by serial file number through card index by name.

Safeguards: Persons having access are security-cleared and must establish a "need-to-know" the information under routine use policies and practices established by Statute, Executive Order, and Agency Regulation. When not in personal custody, files are stored in combination-locked containers or intrusion alarmed area.

Retention and disposal: Records are retained indefinitely, with CSC investigate reports returned to that agency and the balance of records sent to archival storage when no longer active.

System manager(s) and address: Director, Office of Security, International Communication Agency, 1425 K Street, N.W., Washington D.C. 20547.

Notification procedure: Director, Congressional and Public Liaison, International Communication Agency, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director, Congressional and Public Liaison, International Communication Agency, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Biographic and personal history information furnished voluntarily by applicants and employees.

Reports of Investigation conducted by the Civil Service Commission, the Federal Bureau of Investigation, the Department of State and other government investigative agencies.

Reports of Investigation conducted by the Office of Security, USICA.

Investigative sources include information furnished by the subject of the investigation during personal interviews, record checks at other government agencies, records of professional organizations, real estate and rental agencies, baptismal records, police and credit records, interviews of former and present employers, supervisors, references, teachers, neighbors and other acquaintances. Educational and medical records are also checked when appropriate.

Intelligence reports relating to USICA interests which are furnished by other Federal agencies.

Various public records and indices such as those produced by committees of Congress.

Information furnished by employees of USICA, employees of other Government agencies, nongovernmental entities or members of the public at large who occasionally furnish information to USICA in the interests of national security or the integrity of the Federal service.

Systems exempted from certain provisions of the act: Certain records contained within this system of records may be exempted from 5 U.S.C. 552a (c)(3), (d), (e)(1), (e)(4)(G), (H), and (I), and (f). See 22 CFR, Part 505.15 as published in the Federal Register on July 21, 1976 (41 FR 30029).

USICA—25

System name: Press Service Contributors—PGM/P

System location: International Communication Agency, Press and Publication Service, 1776 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Free-lance writers, photographers and artists who are available to USICA on an intermittent, fixed-fee basis to perform services for the Agency outside of Washington, D.C.; authors of newspaper and magazine articles.

Categories of records in the system: Copies of purchase orders issued to contributors; biographic data on contributors, including addresses, phone numbers, type of security clearances, specialties, foreign languages; data on number of times contributors have been used and fees paid for services; cross-indexed records, by author, of newspaper and magazine articles for which reprint/translation rights have been obtained covering republication by USICA and/or the local press outside the United States.

Authority for maintenance of the system: IAPR—191.103 issued under authority of 5 U.S.C., Chap. 3 and Federal Property and Administrative Services Act of 1949 (P.L. 152, 81st Congress) as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Reference material used to select writers, artists and/or photographers, as required, to provide coverage of newsworthy events, such as, interviews with foreign visitors and students, and coverage of conferences outside of Washington, D.C.; also used to determine the type of security clearance held by contributor before granting an assignment; used to check on completion of assignment before payment for services is approved; for office reference in identifying articles, locating authors, checking the extent of right previously obtained and for use in the Agency's Overseas Information Program. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Information in these files is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other Government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Purchase order paper records in file folders. Biographic data is kept on 3x5 cards.

Retrievability: By name and geographic location of the contribution; author files maintained alphabetically by name.

Safeguards: Maintained in locked file cabinets.

Retention and disposal: Purchase orders retained for 2 years and then destroyed. Biographic data retained until contributor is no longer available, has died or moved; author index retained indefinitely.

System manager(s) and address: Executive Office, Press and Publications Service, 1776 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Record access procedures: Request from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Referrals by city editors of local newspapers; other free-lance contributors; biographic data provided by individual concerned; data on authors obtained from the newspaper or magazine article in which the original article appeared, from the author directly or from standard references such as "Who's Who" and "Editor and Publisher."

USICA—26

System name: Press Service Photographer File—PGM/P

System location: International Communication Agency, Press and Publications Service, 1776 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Free-lance photographers and picture agents; prominent Americans.

Categories of records in the system: Personal data on free-lance photographers such as name, address, telephone number, price charged for services, specialties, availability of rights, previous USICA assignments, evaluations of photographer's work; photographs of prominent Americans.

Authority for maintenance of the system: IAPR—191.103 issued under authority of 5 U.S.C., Chap. 3 and the Federal Property and Administrative Services Act of 1949 (P.L. 152, 81st Congress), as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To acquire existing pictures; to select photographers for specific assignments; for general photo research; for use in the Agency's Overseas Information Program. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Information in these files is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Card file and paper records in file folders; mounted and unmounted prints; 3 x 5 index cards and 35 mm and 4 x 5 transparencies.

Retrievability: By name of the individual concerned.

Safeguards: Maintained in locked file cabinets.

Retention and disposal: Paper records on photographers are maintained indefinitely, or until individual is no longer available for assignment; picture files retained indefinitely or until no longer useful; outdated pictures retired to Federal Records Center.

System manager(s) and address: Executive Office, Press and Publication Service, 1776 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: From the individuals concerned; from publications, photo agencies, and photographer association; photos taken by USICA photographers or obtained from various news services.

USICA—27

System name: Printout of Minority Group Designator (MGD) Data System—MGT/E.

System location: International Communication Agency, Office of Equal Employment Opportunity, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: All current employees of USICA.

Categories of records in the system: Computer printout containing names of all USICA employees identified by name, sex, race, national origin, age, grade, and wage scale.

Authority for maintenance of the system: Draft FPM 713, and Public Law 93-571, 5 U.S.C. 552 as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To compile statistical records of minority and female employment and promotion within the Agency; for inclusion in Agency's Equal Employment Opportunity Affirmative Action Plan; for determinations in complaints of discrimination.

Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Information in these records is not normally available to individuals or agencies outside the International Communication Agency,

but records may be released to other government agencies who have statutory or other lawful authority to maintain such information.

The principal user of this information outside the International Communication Agency is the Civil Service Commission.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders (computer reports).

Retrievability: By name, sex, race, national origin, age, grade, and wage scale.

Safeguards: Maintained in locked file cabinets.

Retention and disposal: Records maintained indefinitely.

System manager(s) and address: Director (USICA), Equal Employment Opportunity, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: From the employee concerned; USICA personnel data; visual inspection of the employee.

USICA—28

System name: Recruitment, Contractor and Vendor File—PGM/R

System location: International Communication Agency, Office of Research and Evaluation, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Job applicants; prospective contractors or vendors (or principals of firms); and any other individuals from whom services (whether compensated or not) may be formally solicited by the Office of Research and Evaluation.

Categories of records in the system: Resumes, employment inquiries and related correspondence; records on the security clearance status of prospective contractors or vendors.

Authority for maintenance of the system: USICA Manual of Operations and Administration, Part VIII; Federal Records Act, 44 USC 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To review qualifications of candidates for employment; to comply with security regulations in procurement actions or when soliciting services from outsiders. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

This information is not normally available to individuals or agencies outside the International Communication Agency, but it may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records maintained in file folders.

Retrievability: Indexed alphabetically by the name of the individual.

Safeguards: Files are kept in bar-lock file cabinets.

Retention and disposal: Security clearance status records on contractors and vendors maintained indefinitely; employment applications and inquiries are retained for two years or as long as there is an interest or prospect of employment of the individual, at which time, records are disposed of in accordance with internal disposal requirements.

System manager(s) and address: Executive Officer, Office of Research and Evaluation, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: From the individuals concerned and from USICA's Office of Security.

USICA—29

System name: Recruitment Records—GC

System location: International Communication Agency, Office of the General Counsel, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Applicants for legal and summer intern positions.

Categories of records in the system: Inquiries from attorneys and law students seeking employment with the Office of the General Counsel, resumes and responses to inquiries.

Authority for maintenance of the system: Federal Records Act of 1950, as amended, 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: For reference and screening of candidates for vacancies on the Agency's legal staff. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Information in these records is not normally made available to individuals or agencies outside the International Communication Agency, but records may be released to other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Filed alphabetically by name.

Safeguards: Maintained in locked file cabinets.

Retention and disposal: Records are kept one year and then destroyed by shredding.

System manager(s) and address: Paralegal Specialist, Office of the General Counsel, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Unsolicited inquiries and job applications received from individuals who are seeking employment with USICA's legal staff.

USICA—30

System name: Recruitment Records—MGT/P—USICA

System location: International Communication Agency, Office of Personnel Services, 1776 Pennsylvania Avenue, N.W., Washington, D.C. 20547, and 300 "C" Street, S.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Applicants for foreign service or domestic employment; applicants for personnel or management intern positions; employees hired under the worker-trainee program; individuals certified by the Civil Service Commission for appointment consideration.

Categories of records in the system: Employment application forms; resumes and replies to employment inquiries; personnel security data forms; results of written examinations; notes on interviews by selection panels; records on availability of job applicants; CSC employment certificates.

Authority for maintenance of the system: 44 USC 3101; FPM 333 Subch. 1-1; FPM Chap. 713, FPM Bulletin 713-31, FPM 332, Appendix B, FPM Chap. 731, FPM Chap. 732.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used for recruitment and evaluating employment applicants; to determine Agency employment needs; evaluation of minority hiring practices; selection of candidates for intern and other programs; evaluation of progress of employees on worker-trainee programs; monitor status of pre-employment secu-

V 4 4 / 1 6 J A 2 3 7 9 UMI

rity investigation. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

The principal users of this information outside the International Communication Agency are: the Civil Service Commission; the Director General of the Foreign Service; U.S. Department of State; accredited investigators; Board of Examiners for the Foreign Service.

The information may also be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: By name of the individual.

Safeguards: Maintained in locked file cabinets.

Retention and disposal: Records of successful employment candidates transferred to official personnel folder; records of unsuccessful candidates destroyed after 2 years; CSC certificates retained indefinitely; security files destroyed after candidate is given security clearance; other records retained indefinitely or disposed of in accordance with Agency's internal regulations.

System manager(s) and address: Chief, Employment Branch (MGT/PDE), Office of Personnel Services, 1776 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Notification procedure: Office of Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to; Office of Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section. of the Federal Register.

Record source categories: Employment applicants; college transcripts and other recruitment sources; test scores provided by testing Agency; notes prepared by selection panels; the Civil Service Commission; U.S. ICA Office of Security.

Systems exempted from certain provisions of the act: Certain records contained within this system of records may be exempted from 5 U.S.C. 552 (c)(3), (d), (e)(1), (e)(4)(G), (H), (I), and (f). See 22 CFR Part 505.15 as published in the Federal Register on July 21, 1976 (41 FR 30029).

USICA—31

System name: Senior Officer and Prominent Employee Information CPL/USICA

System location: International Communication Agency, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Leaders of the International Communication Agency and other prominent employees.

Categories of records in the system: Photographs, biographic data sheets and past press releases.

Authority for maintenance of the system: The Federal Records Act, 44 USC 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: For responding to press inquires and in the preparation of Agency press releases concerning leaders of the International Communication Agency and Prominent employees. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

While this information is generally available to the public upon request, it may also be released to other government agencies who have statutory of other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records and photographs in file folders.

Retrievability: By name of the individual employee.

Safeguards: Maintained in locked file cabinets.

Retention and disposal: Records are disposed of upon separation of the employee.

System manager(s) and address: Director, (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: The Department of State's Biographic Register; from the individual concerned; copies of press releases concerning the individual.

USICA—32

System name: Senior Officer Files—MGT/P

System location: International Communication Agency, Office of Personnel and Services, 1776 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Employees in grades GS-14, 15, 16, 17, 18 and foreign service officer class equivalents (FSIO, FSR, FSLR—1, 2, 3.2)

Categories of records in the system: Biographical, professional and experience information on employees nominated for senior level positions, position descriptions and position evaluations.

Authority for maintenance of the system: FPM 305, Supp. 305—1, FPM—300 subch. 3.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Reference material for the Director's staff, element heads and personnel officers; placement of high level employees in proper management positions and to insure their consideration for vacancies government-wide; used by personnel officers for personnel management functions; requested from time to time by CSC, OMB, and Congress for position control of supergrade employees. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

The principal users of this information outside the International Communication Agency are: the Civil Service Commission; the Office of Management and Budget; the Congress; personnel officers in other government agencies as a result of a transfer or potential transfer of the individual to whom the records pertain.

The information may also be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: By name and grade of individual, or combinations of name and grade.

Safeguards: Maintained in locked file cabinets.

Retention and disposal: Records maintained indefinitely, or until employee is separated, at which time pertinent information is filed in the official personnel folder; all other material is destroyed as provided in Agency internal regulations.

System manager(s) and address: Chief, Operations Branch 1776 Pennsylvania Ave., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director, (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Official Personnel Folders; from the employee; element heads; position classifiers.

USICA—33

System name: Speaker File—AF

System location: Office of the Director, African Affairs, International Communication Agency. 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Artists and Speakers considered qualified to conduct programs at USCA's oversea posts in sub-Sahara Africa.

Categories of records in the system: Biographic data on speakers and artists; evaluation of reports of past service; intineraries.

Authority for maintenance of the system: The Federal Records Act, 44 USC 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To provide basic personnel and program information in order to arrange regional schedules for speakers and artists. Also see Prefatory schedules for speakers and artists. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties. Information in these records is not normally made available to individuals or agencies outside USCA, but records may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: By the name of the individual concerned.

Safeguards: Maintained in locked file cabinets.

Retention and disposal: Records are held as long as the individual is a prospective speaker or artist.

System manager(s) and address: Regional Cultural Affairs Officer, Office of the Director, African Affairs, International Communication Agency, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Notification procedure: Director, (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director, (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Originated through correspondence with speakers and correspondence with individual USICA posts overseas.

USICA—34

System name: Speaker File—EA

System location: International Communication Agency, Office of the Director, East Asian and Pacific. Affairs 1750 Pennsylvania Ave., NW., Washington, D.C. 20547.

Categories of individuals covered by the system: Prospective individual and actual speakers at USICA overseas posts in the East Asia and Pacific geographic area. Speakers may include volunteers, U.S. Government officials, and others.

Categories of records in the system: Biographic data on prospective speakers, including lists of topics, dates of previous service to USICA, travel vouchers processed, amounts charged Agency and method of payment, and in some cases, evaluations of speakers by overseas posts.

Authority for maintenance of the system: Federal Records Act, 44 USC 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Biographic data and evaluations of speakers and their sutiability to engage in Agency programs. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

The principal user of this information outside the International Communication Agency is the U.S. Department of State.

The information may also be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Indexed by name of the individual.

Safeguards: Maintained in locked file cabinets, available only to authorized persons.

Retention and disposal: Retained as long as the speaker has topicality for area programs. Records are destroyed thereafter in accordance with Agency's internal records retirement procedures.

System manager(s) and address: Program Coordinator, Office of the Director, East Asian and Pacific Affairs, 1750 Pennsylvania Ave., NW., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., NW., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., NW., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Originated through correspondence with speakers and correspondence with individual USICA posts overseas.

USICA—35

System name: Speaker Name Files—PGM

System location: International Communication Agency, 1750 Pennsylvania Ave., NW., Washington, D.C. 20547.

Categories of individuals covered by the system: American specialists and experts in a variety of fields who have participated or been considered for participation in the Volunteer Speakers Program.

Categories of records in the system: A typical file contains the following information on or about speakers and prospective speakers in the Volunteer Speakers Program administered by the International Communication Agency; Biographic data including education and professional experience, correspondence between the speaker and PGM and communications between the Agency and its overseas posts regarding the speaker's participation in the program. Many of these files also include the results of requests for security information from the Office of Security, USICA.

Authority for maintenance of the system: Executive Order No. 11034 and Executive Order 11034 as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Speakers files are used routinely by program development officers, program assistants and clerical personnel in the daily conduct of the speaker program. They are occassionally consulted by other Agency personnel for such purposes as preparing advance publicity on speakers who will lecture abroad under USICA auspices. Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Information in these files is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: The files are stored in individual folders by name and consist of the types of information specified under "Category of Record."

Retrievability: File folders are indexed alphabetically by name and filed under five major subjects: Arts and Humanities, Economics, International Political and Security Affairs, Political and Social Processes, and Science and Technology.

Safeguards: The files are kept in locked file cabinets and, when open during office hours, are always tended by one or more employees. Only appropriate personnel are normally allowed to consult these files routinely. Other Agency personnel wishing to consult them are asked to identify themselves. U.S. government personnel other than USICA very rarely seek access to these files. When they do, they are asked to produce specific identification.

Retention and disposal: These records are normally maintained for approximately 3 years. Afterward, they are retired to the USICA archives for a period of from 5-7 years.

V 4 4 / 1 6 JA 23 79 UMI

System manager(s) and address: International Communication Agency Associate Director for Programs, 1750 Pennsylvania Ave., NW., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., NW., Washington, D.C. 20547

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., NW., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Without significant exceptions, the information on individuals maintained in these files has come from the individual concerned or, occasionally, from others at the request of that individual.

USICA—36

System name: Advisory, Referral and Counseling Records—MGT/P-USICA.

System location: International Communication Agency, Office of Personnel Services, 1776 Pennsylvania Avenue, N.W., Washington, D C 20547

Categories of individuals covered by the system: Employees with serious personal, job-related or medical problems such as alcoholism, drug abuse or behavioral problems.

Categories of records in the system: Confidential statements relating to specific problems.

Authority for maintenance of the system: Public Law 91-616, Sec. 201 (Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970); Public Law 92-255, Sec. 413 (Drug Abuse Treatment Act of 1972).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used on occasion to provide necessary background to medical personnel to arrange for medical examinations, treatment of employees, or for counseling purposes within. The program is a confidential resource within the Agency available voluntarily to employees for assistance with personal or job-related problems. Employees are advised of rights, obligations as well as benefits available; referrals of employees to professional resources within the government and in the community; continuing on-the-job counseling available. Also see Prefatory Statement of General Routine Uses. Without the express written consent of the employee, this information is not available to other personnel of the International Communication Agency. The only users of this information outside the International Communication Agency are appropriate medical personnel of the Department of State, Office of Medical Services, and appropriate health professionals in the community, only with the employee's consent.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: By the employee's name.

Safeguards: Records are maintanined in a combination barlock cabinet at all times, accessible only to the Advisory, Referral and Counseling personnel.

Retention and disposal: Records retained as long as individual is an employee of the Agency; file destroyed by shredding when employee is separated, or when ARCS personnel considers there is no need to retain file, or when incumbent counselor is separated from the Agency; exceptions to rules for retention can be made only with the concerned employee's specific approval.

System manager(s) and address: Chief, Policies and Services Staff (MGT/PPS), Office of Personnel Services, 1776 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Notification procedure: Office of Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Office of Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Principally from the individual concerned; background information provided by the person who initiates referral of the employee, such as supervisors or medical personnel.

USICA—37

System name: Book Adaptation Files—ECA/FB

System location: International Communication Agency, Associate Directorate For Educational and Cultural Affairs, Washington, D.C. 20547.

Categories of individuals covered by the system: Authors of books selected for inclusion in the Current Thought Series and the Ladder Series; contractual adapters of books.

Categories of records in the system: Correspondence with authors; rights agreements for use of books; USICA book appraisals and reviews; biographic data on authors; correspondence with and biographic data and namecheck forms on adapters; correspondence with contracting agency concerning contractual arrangements with adapters, qualifying tests and sample material submitted by adapters.

Authority for maintenance of the system: Executive Order 11034, as amended, Public Law 87-256, Mutual Educational and Cultural Exchange Act of 1961.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Reference material for determination of suitability of books for use in the Agency's Current Thought Series and Ladder Series; to arrange for clearances to use books in Agency programs; for the selection of adapters who can adapt books for use by foreign nationals; final clearance of adaptation by authors of books.

Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication agency as may be required in the performance of their official duties.

Information in these records is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Card records and paper records in file folders.

Retrievability: By individual name, by date of assignment, or both.

Safeguards: Maintained in bar-lock file cabinets.

Retention and disposal: Biographic data and personnel statistical data subject to update periodically; old records destroyed by shredding when no longer needed.

System manager(s) and address: Chief, Foreign Service Personnel Division, 1776 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Notification procedure: Director, USICA, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director, Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Officer Evaluation Reports; official administrative file (OPP); records of interviews and correspondence with officers; minutes of meetings held to discuss assignment of Foreign Service Officers by the career management staff.

USICA—38

System name: Career Counseling Records—MGT/P-USICA

System location: International Communication Agency, Office of Personnel Services, 1776 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: All foreign service officers of the Agency.

Categories of records in the system: Computer listing of work experience; biographic data; assignment history date; education data; position data; grade; title; post of assignment; date of employment; dependents', proposed position detail to "pipeline" complement; roster of personnel available for domestic assignments; notes of personnel discussions between counselors and individual clients on preferences and other factors bearing on assignments.

Authority for maintenance of the system: The Foreign Service Act of 1946, as amended; 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used by career counselors and personnel officers for assignment, detail or rotation of Agency foreign service officers, within USICA or to other federal agencies. Also see Prefatory Statement of General Routine Uses. Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties. The information may also be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Card records and paper records in file folders.

Retrievability: By individual name, by date or place of assignment, or both.

Safeguards: Maintained in bar-lock file cabinets.

Retention and disposal: Biographic data and personnel statistical data subject to update periodically; old records destroyed by shredding when no longer needed or when employee separates.

System manager(s) and address: Chief, Career Counselors Staff, Office of Personnel Services, 1776 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Notification procedure: Office of Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Office of Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Officer Evaluation Reports. Official administrative file (OPF); records of interviews and correspondence with officers; minutes of meeting of the career management staff held to discuss assignment of Foreign Service officers.

USICA—39

System name: Employee Parking—USICA

System location: International Communication Agency, Office of Administrative Services, General Services Branch, 1776 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Voice of America, 330 Independence Ave., S.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Agency employees assigned USICA controlled parking spaces; employees awaiting assignment of vacated parking spaces.

Categories of records in the system: Names, office locations and telephone numbers of employees assigned parking space; participants in car-pools; records of payments for parking space use; records on employees with physical handicaps and doctors or others to contact in case of emergency; waiting list of employees desiring assignment of official parking space.

Authority for maintenance of the system: General Services Administration Regulations dated February 6, 1974, prescribing regulations regarding the use of federally controlled parking spaces.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Assignment of parking space to Agency executives; to assure fairness in the assignment of parking space to employees and to give priority to the handicapped and to car-pools; to assure timely payment of fees for parking space.

Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

The information may also be released to other government agencies who have statutory or other lawful authority to maintain such information.

The principal user of this information outside the International Communication Agency is the General Services Administration.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records maintained in file folders.

Retrievability: By name of the employee.

Safeguards: Maintained in bar-lock cabinets.

Retention and disposal: Records destroyed when employee relinquishes assigned parking space or is separated from the Agency.

System manager(s) and address: Director of Administration, Voice of America, Room 3360, HEW-N Bldg., 330 Independence Ave., N.W., Washington, D.C. 20547.

Chief, General Services Branch, 1776 Pennsylvania Ave., S.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: All information obtained from individuals concerned.

USICA—40

System name: Employment Requests—MGT/P—USICA

System location: International Communication Agency, Office of Personnel Services, 1776 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Certain individuals seeking employment with the Agency such as Congressional referrals, referrals of Director, etc.

Categories of records in the system: Letters, memos, resumes, recommendations, biographic data and referrals submitted to the Director, Office of Personnel Services, for the purpose of soliciting employment with the Agency.

Authority for maintenance of the system: The Federal Records Act, 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To answer inquiries from Members of Congress regarding employment opportunities for constituents; referrals to Agency elements for qualification evaluations. Also see Prefatory statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Information in these records is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: By name of the individual.

Safeguards: Maintained in bar-lock file cabinets.

Retention and disposal: Records retained until no longer useful, or until after 2 years from date of submission, whichever is first. Records are destroyed by shredding.

System manager(s) and address: Director, Office of Personnel Services, 1776 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Notification procedure: Office of Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Record access procedures: Requests for individuals should be addressed to: Office of Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Unsolicited information or referrals submitted to the Agency by individuals seeking information on employment possibilities.

USICA—41

System name: Exhibit Guide Training File—PGM/E

System location: International Communication Agency Service, 1425 "K" Street, N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Translators and various instructors hired periodically by the Exhibits Service to train Exhibit Guides before assignment overseas.

V 4 / 16 J A 23 79 UMI

Categories of records in the system: Biographic data, security namecheck forms, history of assignments with the Agency, and routine correspondence.

Authority for maintenance of the system: Executive Order 11034, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: A ready reference file for locating specialists and translators, evaluating their qualifications and determining their availablilty to train individuals hired by the Agency for overseas assignments as Exhibit Guides.

Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Information in these records is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: By name of the individual.

Safeguards: Records maintained in bar-lock cabinets, available only to authorized personnel.

Retention and disposal: Records kept as long as person is of employment interest and/or employed. Files are destroyed by burning when no longer needed.

System manager(s) and address: Records Control Officer, Creative Services Branch, Exhibits Service, International Communication Agency, 1425 "K" Street, N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Information including in these records is submitted or authorized by the individual concerned and is available for his her review.

USICA—42

System name: Exhibit Specialist Grantees—PGM/E.

System location: International Communication Agency, Exhibit Service, 1425 "K" Street, N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Private individuals under grant or contractual agreement with the Agency, or Government employees on temporary duty assignments with USICA, to provide services to Agency exhibits as expert specialists, usually involving overseas travel.

Categories of records in the system: Name, address, itinerary of travel, description of services, records of security clearance and of grants or orders, resume of career and list of publications, correspondence, informal evaluations of performance as an exhibit specialists, photographs, publications by the concerned individuals.

Authority for maintenance of the system: Executive Order 11034, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used for the purpose of selecting specialists in various fields to assist in the design of exhibits for use overseas; as consultants during fabrication of exhibits; to assist USICA personnel overseas to construct exhibits.

Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Information in these records is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other Government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: By show name, the word "specialist," followed by individual's name.

Safeguards: Maintained in bar-lock file cabinets.

Retention and disposal: Records kept as long as individual is of employment interest and/or employed. Files are destroyed by burning when no longer needed.

System manager(s) and address: Records Control Officer, Creative Services Branch Exhibits Service, International Communication Agency, 1425 "K" Street, N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Information included in records was either submitted or authorized by the individual concerned, or was available from public sources, such as book reviews or material printed in various publications; National Agency namecheck information is obtained through the Agency's Office of Security.

USICA—43

System name: Foreign Service Location File—MGT/P—USICA

System location: International Communication Agency, Office of Personnel Services, 1776 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: All Agency foreign service employees and foreign service retirees.

Categories of records in the system: Foreign service employees' place of assignment overseas, position held, home address, address of next-of-kin, employee's personal bank (if requested the Agency deposit payroll checks); last home address of retirees.

Authority for maintenance of the system: The Federal Records Act, 44 U.S.C. 3101; Foreign Service Act of 1946, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used by USICA officials to locate a Foreign Service employee; make salary deposits; informing next-of-kin in emergency situations.

Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Information in these records is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other Government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information maintained on 5x8 index cards in metal cabinets.

Retrievability: By the officer's name.

Safeguards: Records are under surveillance by authorized employees during working hours; in locked metal cabinets after hours.

Retention and disposal: Locator information destroyed when employee separates, except by retirement, in which case card maintained indefinitely.

System manager(s) and address: Chief, Administrative Staff (MGT/PA), Office of Personnel Services, 1776 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Notification procedure: Office of Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Office of Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: From the officer concerned; copies of Personnel Action Forms (SF-50); travel memos.

USICA—44

System name: Office of Cultural Centers and Resources ECA/F

System location: International Communication Agency, Associate Directorate for Educational and Cultural Affairs, 1717 "H" Street, N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Private individuals who are under grant or contractual agreement with the Agency's Office of Cultural Centers and Resources to provide goods or services required in conducting cultural programs.

Categories of records in the system: Name, address, itinerary of travel, goods and/or services to be provided to the Office of Cultural Centers and Resources under grant, contract or purchase order grant; records of payments for services rendered or goods delivered.

Authority for maintenance of the system: Executive Order 110477 of August 1, 1953; Executive Order 10822 of May 20, 1953, implementing Section 2(d) of the Reorganization Plan No. 8 of 1953.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Files are used by the Budget Office and the Executive Office staffs of the Agency's Office of Cultural Centers and Resources as reference material to assure proper expenditure of agency funds, to monitor the completion of grant or contractual arrangements, and to assure proper payment for goods delivered or services rendered.

Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Information in these records is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records maintained in file folders.

Retrievability: By document number cross-referenced by a name card file.

Safeguards: Maintained in bar-lock file cabinets.

Retention and disposal: Records of transactions over 10,000 dollars retained for six years, then sent to the Federal Records Center. For transactions under 10,000 dollars, records retained for three years, then sent to Federal Records Center.

System manager(s) and address: Records Control Officer, ECA/F, Associate Directorate for Educational and Cultural Affairs, 1717 "H" Street, N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: From the individual concerned; copies of contracts and grants; travel authorizations provided by Agency Transportation Branch; copies of invoices for payment.

USICA—45

System name: Mailing Lists—MGT/AGR

System location: International Communication Agency, Office of Administrative Services Reproduction and Graphics Branch, 1776 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: USICA domestic and Foreign Service officers; radio station managers, and technicians; foreign correspondents; American and foreign diplomats; librarians; scholars; Members of Congress; information counselors of other Federal agencies and the military; officers of international organizations; American journalists; newspaper and magazine editors and publishers; public relations officers; musicians; historians.

Categories of records in the system: Records contain name, address, occupation, title and profession of individuals who need to have access to, or have requested information concerning: Agency publications, news pictures, reports on current issues and other reports; messages for overseas distribution; press releases; USICA Manual of Operations and Administration; adaptations and condensations; current events picture packs; FYI kits; VOA frequency schedule; standby officer lists; special packets; Music USA packets; VOA program highlights.

Authority for maintenance of the system: Public Law 402.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Mailing lists are used by Agency elements to distribute printed materials to Agency personnel who need access to such information in the performance of their duties, and to members of the public listed under Categories of Individuals covered by the system as shown above who have re quested such information, or who have a professional need and interest in acquiring such information.

Also see Prefatory statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Information in these records is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Addressograph plates filed in special drawers.

Retrievability: By code number of the distribution list and the subject matter of the printed material, and then by name arranged alphabetically.

Safeguards: Maintained in locked cabinets when not in use.

Retention and disposal: Plates are updated frequently, with old plates removed from the system and destroyed.

System manager(s) and address: Chief, Reproduction and Graphics Branch, International Communication Agency, 1776 Pennsylvania ave., N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: From the individual concerned and from public documents such as Congressional and professional directories and journals.

USICA—46

System name: Officer Assignment Requests MGT/P

System location: International Communication Agency, Office of Personnel Services, 1776 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Agency officers who have written or spoken to the Director, Office of Personnel Services, regarding assignment preferences or problems.

Categories of records in the system: Letters, memos, and occasionally biographic data submitted by the individual seeking particular assignments; written answers to specific requests.

Authority for maintenance of the system: The Federal Records Act, 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used exclusively by the Director and the Deputy Director, Office of Personnel Services, for discussion of officer assignments and officer career interests.

Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Information in these records is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper Records in file folders.

Retrievability: By the name of the individual.

V 4 / 1 6 J A 2 3 7 9 UMI

Safeguards: Maintained in metal bar-lock file cabinets.

Retention and disposal: Usually retained until officer is assigned or for longer period depending upon the assignment actions; destroyed when no longer needed.

System manager(s) and address: Assistant Director, Office of Personnel Services, International Communication Agency, 1776 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: From the officer requesting assignment consultation, replies of the Director, Office of Personnel Services, to such requests.

USICA-47

System name: Official Travel Records-MGT/ADT

System location: International Communication Agency Office of Administrative Services, Travel and Transportation Branch 1776 Pennsylvania Ave. N.W., Washington D.C. 20547

Categories of individuals covered by the system: Past and present USICA employees and private citizens who have traveled under Agency auspices.

Categories of records in the system: Travel authorizations documents related to shipment and storage of personal effects and automobiles worksheets on itineraies and correspondence related to the above. Records of active passports and passports issued. Records of temporary duty travel. Location and cost of storage of personal effects.

Authority for maintenance of the system: Supplemental Appropriations act of 1955, Public Law 663, Section 1311 (83d Congress) (31 U.S.C. 200). Section 3679 of the Revised Statutes, as amended, Antideficiency Act (31 U.S.C. 665).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used as reference materal by the staff of the Agency's Travel and Transportation Branch, and as authorization for issuance of transportation requests, travel advances, and passports, for payment to carriers for transportation of travelers and their personal effects, for payment to storage and transfer companies for the packing and storage of household effects.

Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their offical duties.

Information in these records is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records maintained in file folders and in index boxes.

Retrievability: Indexed alphabetically by name.

Safeguards: Passports and related material such as correspondence and messages are kept in bar-lock cabinets. Other records are kept in unlocked cabinets which are under surveillance of authorized employees during the working day, and by security guards after official working hours.

Retention and disposal: Temporary duty travel authorizations are maintained for four years and then sent to a Federal records center. All other records are retained indefinitely, or until after an employee has been separated from the Agency for six months.

System manager(s) and address: Cheif. Travel and Transportation Branch, International Communication Agency, 1776 Pennsylvania Ave, N.W, Washington, D.C. 20547

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave, N.W., Washington, D.C. 20547

Record access procedures: Requests from individuals should be Addressed to Director (USICA), Congressional and Public Liaison 1750 Pennsylvania Ave, N W, Washington, DC 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register

Record source categories: Travel request forms initiated by various Agency elements, information regarding personal and household effects obtained from the tarveler and from carriers, passport information received from the Department of State's Passport Office.

USICA—48

System name: Photographers and Photographs for Exhibits Use—PGM/E

System location: International Communication Agency, Exhibits Service, 1425 K Street, N.W., Washington, D.C. 20547

Categories of individuals covered by the system: Names and addresses of photographers hired by the Exhibits Service to provide photographs suitable for use in the Agency's overseas Exhibits Program, collection of photographs for possible use in Exhibits programs with the names and addresses of the individuals holding copyrights.

Categories of records in the system: Correspondence with individuals concerning employment with the Exhibits Service to perform photographic services, personal data on photographers such as name, address, telephone number, price charged for service, specialties, availability of rights, previous USICA assignments, evaluation of photographer's work, names and addresses of persons owning rights to photographic work considered suitable for overseas exhibits.

Authority for maintenance of the system: Excutive Order 11034, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To acquire existing pictures, to select photographers for specific assignments, for general photo reserch, for use in the Agency's Exhibits Program.

Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their offical duties.

Information in these records is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records and photographs maintained in file folders.

Retrievability: By name of the individual.

Safeguards: Maintained in combination bar-lock cabinets.

Retention and disposal: Records kept as long as person's photographs are of interest for use in particular exhibits. Files are destroyed by burning when no longer useful.

System manager(s) and address: Records Control Officer, Exhibits Service International Communication Agency, 1425 K Street, N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Information included in records is provided or authorized by the individual concerned and is available for his or her review.

USICA—49

System name: Records on Shipment of Effects, Unaccompanied Baggage and Automobile—MGT/CF

System location: International Communication Agency, Office of Comptroller Services, Financial Operations Division, 1717 H St., N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Foreign service employees authorized to ship effects and automobiles overseas at USICA expense.

Categories of records in the system: Paper cards listing payments made to packers, carriers, etc., in connection with shipments of effects, baggage and automobiles pursuant to travel authorizations.

Authority for maintenance of the system: 31 U.S.C. 66a.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To determine if unauthorized charges were incurred due to excess shipments, indirect routing, or other reasons.

Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Information in these records is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records maintained in tub file.

Retrievability: Filed alphabetically by individual name.

Safeguards: Records are under surveillance by authorized employees during the working day, and by security guards after official working hours.

Retention and disposal: Records destroyed four years after the fiscal year in which shipment is authorized.

System manager(s) and address: Chief, Financial Operations Division, International Communications Agency, 1717 H St., N.W., Washinton, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547

Record access procedures: Requests from individuals should be addressed to Assitant Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealjng initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: USICA offices issuing travel authorizations, travel vochers submitted by employees; invoices submitted by carriers for payment.

USICA—50

System name: Salary Computation Records—MGT/CB

System location: International Communication Agency, Office of Comptroller Services, Budget Operations Division, 1776 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Persons employed by the Agency during any past fiscal year, and the current fiscal year.

Categories of records in the system: Personnel Action Forms, Standard Forms 50.

Authority for maintenance of the system: Executive Order 10477 of August 1, 1953; Executive Order 10822 of May 20, 1953, implementing Section 2(d) of the Reorganization Plan No. 8 of 1953; Budget-Treasury Regulation No. 1 (revised); The Economy Act (31 U.S.C. 686), Section 601; Section 3679 of the Revised Statutes as amended (31 U.S.C. 665).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: For the use of the Budget Operations Division only, for salary computations for Agency budget purposes.

Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Information in these records is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records maintained in files.

Retrievability: By name of individual.

Safeguards: Security provided by surveillance of authorized employees during working hours and by security guards after working hours.

Retention and disposal: Retained until no longer needed.

System manager(s) and address: Chief, Program Support Branch, Budget Operations Division, International Communication Agency, 1776 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Office Personnel Services.

USICA—51

System name: Travel Authorization Obligation File—MGT/CF

System location: International Communication Agency, Office of Comptroller Services, Financial Operations Division 1717 H St., N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Individuals authorized to travel for which costs of travel are chargeable to USICA appropriations.

Categories of records in the system: Copies of travel authorizations and copies of paid vouchers and/or abstracts or other documents relating to payments for authorized travel.

Authority for maintenance of the system: 31 U.S.C. 66a.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To support recording of obligations of funds for travel; for audit of travel and transportation vouchers prior to certification and payment; control to avoid duplicate payment of claims.

Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Information is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Storage: Paper files maintained in three-ring binders and in file folders.

Retrievability: By name; cross-reference to travel authorization number filed by appropriation/allotment chargeable.

Safeguards: Records are under surveillance by authorized employees during the working hours, and by security guards after official working hours.

Retention and disposal: Alphabetical copy of travel authorizations destroyed 3 years after close of fiscal year in which issued. Folders destroyed between 4 and 10 years after close of fiscal year, depending upon the type of travel.

System manager(s) and address: Chief, Financial Operations Division, International Communication Agency, 1717 H St., N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Standard forms and Agency forms prepared in connection with official travel by personnel.

USICA—52

System name: Source File—PGM/T

System location: Television and Film Service, International Communication Agency, 601 D Street, N.W., Washington, D.C. 20547.

V 4 / 16 JA 23 79 UMI

Categories of individuals covered by the system: Individuals in the audio-visual field who are in contact with the International Communications Media Staff on attestation, film festivals and other activities.

Categories of records in the system: Biographical data, press releases, routine correspondence, and similar material.

Authority for maintenance of the system: To provide a source of information file for the Office of Acquisitions on subjects such as attestation and film festivals.

Also Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Information in these records is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other government agencies who have statutory or other lawful legal authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: By name individual concerned.

Safeguards: Maintained in locked file cabinets and available only to authorized personnel.

Retention and disposal: Files are reviewed approximately every 5 years and retained, retired or destroyed as appropriate.

System manager(s) and address: Chief, Office of Acquisitions Media Staff, International Communication Agency, 601 D Street, N.W., Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Information is provided by the individual concerned or from published sources.

In addition, the Agency proposes to adopt the following system of records, "USICA-53-Privacy Act/Freedom of Information Act File-CPL-USICA," which has not been announced heretofore because of administrative oversight.

USICA—53

System name: Privacy Act-Freedom of Information Act file—CPL-USICA

System location: Congressional and Public Liaison, International Communication Agency, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Individuals who have requested documents, records or other information concerning themselves from the Agency pursuant to the Freedom of Information Act (5 U.S.C. 552), or the Privacy Act of 1974 (5 U.S.C. 552a).

Categories of records in the system: Personal information that may be contained in reports, memoranda, letters, or any other official or unofficial documents that are relevant to the request.

Authority for maintenance of the system: 5 U.S.C. 552 and 5 U.S.C. 552a.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

For processing of requests received pursuant to the Freedom of Information and Privacy Acts.

Also see Prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

Information in these records is not normally available to individuals or agencies outside the International Communication Agency, but records may be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: By name of individual requesting the information.

Safeguards: Records are under surveillance by authorized employees during working hours, and are stored in combination-lock cabinets when not in use.

Retention and disposal: Retired and destroyed in accordance with schedules of the International Communication Agency.

System manager(s) and address: Access to Information Officer, Congressional and Public Liaison, International Communication Agency, Washington, D.C. 20547.

Notification procedure: Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Assistant Director (USICA), Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing initial determinations by the individual concerned appear at 22 CFR, Chapter V, Part 505 and were published in the Federal Register on October 21, 1975 (40 FR 49278) and on September 22, 1976 (41 FR 11424) (and on April 4, 1978 (43 FR 14298).

Record source categories: Compiled as a result of requests under the Freedom of Information Act and the Privacy Act.

Systems exempted from certain provisions of the act: Certain records contained within this system of records may be exempted from 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4) (G), (H), and (I), and (f). See amendments to 22 CFR, Chapter V, Part 505.15 as published in the proposed rule section of the Federal Register for December 10, 1976.

USICA—54

System name: Incentive Awards File—MGT/P-USICA

System location: International Communications Agency, Office of Personnel Services, 1776 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Employees who are nominated for Special, Honor, Unit, Cash or other incentive awards; employees who are to receive Length-of-Service Certificates.

Categories of records in the system: Nomination forms or narratives; copies of award certificates with citations: cards containing name, award, and date awarded.

Authority for maintenance of the system: 3 FAM 640; 5 CFR 451; FPM Chapter 451; MOA V-A/B 570.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used only by awards staff, selection committee and approving officials to process and record nominations and for presentation of incentive and length of service awards; used to prepare annual statistical reports for the Civil Service Commission. Also see prefatory Statement of General Routine Uses.

Information is made available on a need-to-know basis to personnel of the International Communication Agency as may be required in the performance of their official duties.

The information may also be released to other government agencies who have statutory or other lawful authority to maintain such information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Temporary paper records in file folders; 3x5 cards in card files.

Retrievability: Manually by name and/or type of award.

Safeguards: File folders maintained in locked file cabinets.

Retention and disposal: Cards and copy of nomination and if an award includes a certificate maintained indefinitely.

System manager(s) and address: Chief, Policies and Services Staff (MGT/PPS), Office of Personnel Services, 1776 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Notification procedure: Office of Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Record access procedures: Requests from individuals should be addressed to: Office of Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and contesting contents and appealing initial determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: Nominations; supervisors; official personnel folders; awards committee and approving officials.

USICA—55

System name: Educational and Cultural Exchange Program Records: ECA—USICA

System location: Associate Directorate for Educational and Cultural Affairs, 1776 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Applicants, recipients, and prospective recipients of Educational and Cultural Exchange grants; members of the Board of Foreign Scholarships; American Executive Secretaries of Fulbright Foundations and Commissions; members of the U.S. Advisory Commission on International Educational and Cultural Affairs; members of the Government Advisory Committee on International Book and Library Programs; members of the former National Review Board of the East-West Center; faculty members of U.S. educational institution participating in student counseling workshops conducted in various countries.

Categories of records in the system: Biographic information; project descriptions; forms relating to the individual's security clearance; evaluations of the performances of former grantees; evaluations of performing artists who may be potential grantees; copies of press releases; news clippings; information related to the grant; related correspondence; academic transcripts; letters of reference.

Authority for maintenance of the system: Mutual Educational and Cultural Exchange Act of 1961; 22 U.S.C. 2451-58; 22 U.S.C. 2054-57; 22 U.S.C. 1431.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary function of the Educational and Cultural Exchange Program records is the aiding in the selection of individuals for educational and cultural exchange grants and for the administration of such grants. Information from these records is also used to develop statistics for use in the operation of the exchange program. The principal users of this information outside the International Communication Agency are: Civil Service Commission; Central Intelligence Agency; Immigration and Naturalization Service; Department of Justice; Smithsonian Institution; Congress; the news media; relatives of the grantee trying to reach the individual for bona fide personal reasons; the grantee. In connection with the selection process, information may be released to: binational commissions; the Board of Foreign Scholarships; foreign host institutions; contract agencies. Fulbright-Hays alumni names and addresses may be made available to American institutions, organizations or individuals assisting in the organizing and functioning of an association of alumni of the exchange program. Excerpts from the files may be used by non-governmental panels of experts in rating candidates. This information may also be released to other government agencies having statutory or other lawful authority to maintain such information. Also see Routine Uses paragraphs of Prefatory Statement.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Hard copy; magnetic computer media.

Retrievability: By individual name.

Safeguards: Records are maintained in secured file cabinets or in restricted areas, access to which is limited to authorized personnel.

Retention and disposal: Retention of these records varies from three years to an indefinite period of time, depending upon the specific kind of record involved. (Records of non-recommended candidates are only maintained for up to twelve months after submission of the application.) They are retired or destroyed in accordance with published schedules of the International Communication Agency.

System manager(s) and address: Associate Director, (USICA), Associate Directorate for Educational and Cultural Affairs, 1776 Pennsylvania, Avenue, N.W., Washington, D.C. 20547.

Notification procedure: Individuals who have cause to believe that the Educational and Cultural Affairs might have records pertaining to them should write to the Director, Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547. The individual must specify that he/she wishes the records of the Bureau of Educational and Cultural Affairs to be checked. At a minimum, the individual must include: name; date and place of birth; current mailing address and zip code; signature. If the individual is or was a grantee or an applicant for a grant, he/she must specify the type of grant and the dates of the grant which he/she received or for which he/she applied.

Record access procedures: Individuals who wish to gain access to or amend records pertaining to themselves should write to Director, Congressional and Public Liaison, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the Rules Section of the Federal Register.

Record source categories: The individual; public references; other offices within the Department; other government agencies; other public and professional institutions possessing relevant information.

Systems exempted from certain provisions of the act: Certain records contained within this system of records are exempted from 5 U.S.C. 552a (c)(3), (d), (e)(1), (e)(4)(G), (H), (I), and (f).

USICA—56

System name: Exchange Visitor Waiver Records—GC—USICA

System location: USICA, Office of the General Counsel, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Categories of individuals covered by the system: Applicants for extensions or waivers or foreign-residence requirements.

Categories of records in the system: Biographic data; information from the Immigration and Naturalization Service regarding hardship or persecution; evalutions of applicants' performances; copies of published materials; newsclippings; academic transcripts; letters of reference; related correspondence.

Authority for maintenance of the system: Mutual Educational and Cultural Exchange Act of 1961, as amended, Sec. 109, P.L. 87-256.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the Exchange Visitor Waiver Records is in recommending to the Immigration and Naturalization Service if the foreign residency requirements should be waived or visas extended. Information from these records is also used to develop statistics for use in the operation of the cultural and educational exchange program. The principal users of this information outside the Internatinal Communication Agency are: Immigration and Naturalization Service; Department of Justice; the Diplomatic Corps of the foreign embassies in Washington; Department of State; Congress; relatives of the applicant trying to reach the individual for bana fide personal reasons; the applicant; foreign host institutions; contract agencies. This information may also be released to other Government agencies having statutory or other lawful authority to maintain such information. Also see Routine Uses paragraphs of Prefatory Statement.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Manually by name of applicant.

Safeguards: Records are maintanined in secured cabinets.

Retention and disposal: Retention of these records varies from three years to an indefinite period of time, depending on the specific kind of record involved. they are destroyed in accordance with Agency's internal regulations.

System manager(s) and address: General Counsel, USICA, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Notification procedure: Individuals who have cause to believe that the Office of General Counsel might have records pertaining to them should write to the Director, Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547. The individual must specify that he/she wishes the Exchange visitor Waiver Records to be checked. At a minimum, the individual must include: name; date and place of birth, current mailing address and zip code; signature.

Record access procedures: Individuals who wish to gain access to or amend records pertaining to themselves should write to Director, Congressional and Public Liaison, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547.

Contesting record procedures: The Agency's rules for access and for contesting contents and appealing determinations by the individual concerned appear in the rules Section of the Federal Register.

Record source categories: The individual applicants; foreign embassies, applicants' sponsors and attorneys; Department of State; Immigration and Naturalization Service; other offices within the Agency.

APPENDIX I

Prefatory Statement of General Routine Uses

The following routine uses apply to, and are incorporated by reference into, each system of records set forth above.

V 4 4 / 1 6 J A 2 3 7 9 UMI

1. In the event that a system of records maintained by the Agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

2. A record from this system of records may be disclosed, as a routine use, to a federal, state, or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an Agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

3. A record from this system of records may be disclosed, as a routine use, to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

4. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.

5. A record in this system of records which contains medical information may be disclosed, as a routine use, to the medical advisor of any individual submitting a request for access to the record under the Act and 22 CFR 505 if, in the sole judgment of the Agency, disclosure could have an adverse effect upon the individual, under the provision of 5 U.S.C. 552a(f)(3) and implementing regulations at 22 CFR 505.6.

6. The information contained in this system of records will be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

7. A record from this system of records may be disclosed to an authorized appeal grievance examiner; a formal complaints examiner; an equal employment opportunity investigator; an arbitrator or other duly authorized official engaged in investigation or settlement of a grievance, complaint or appeal filed by an employee. A record from this system of records may be disclosed to the U.S. Civil Service Commission in accordance with the Agency's responsibility for evaluation and oversight of federal personnel management.

8. A record from this system of records may be disclosed to authorized employees of a federal agency for purposes of audit.

9. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

10. A record from this system of records may be disclosed, as a routine use, to the Department of State and its posts abroad for the purpose of transmission of information between organizational units of the Agency, or for purposes related to the responsibilities of the Department of State in conducting foreign policy or protecting United States citizens, such as the assignment of employees to positions abroad, the reporting of accidents abroad, evacuation of employees and dependents, and other purposes for which officers and employees of the Department of State have a need for the records in the performance of their official duties.

11. A record in this system of records may be disclosed, as a routine use, to a foreign government or international agency when necessary to facilitate the conduct of U.S. relations with that government or agency through the issuance of such documents as visas, country clearances, identification cards, drivers' licenses, diplomatic lists, licenses to import or export personal effects, and other official documents and permits routinely required in connection with the official service or travel abroad of the individual and his or her dependents.

12. A record in this system of records may be disclosed, as a routine use to Federal agencies with which the Agency has entered into an agreement to provide services to assist the Agency in carrying out its functions under the Foreign Assistance Act of 1961, as amended. Such disclosures would be for transmitting information between organizational units of the Agency, for providing to the original employing agency information concerning the services of its employee while under the supervision of the Agency, including performance evaluations, reports of conduct, awards and commendations and information normally obtained in the course of personnel administration and employee supervision, or for providing other information directly related to the purpose of the inter-agency agreement as set forth therein, and necessary and relevant to its implementation.

13. A record in this system of records may be disclosed, as a routine use, to the Department of Justice to determine whether disclosure thereof is required by the Freedom of Information Act (5 U.S.C. 552).

14. A record in this sytem of records may be disclosed, as a routine use, when the information is subject to exemption under the Freedom of Information Act (5 U.S.C. 552) but the Agency, in its discretion, determines not to assert the exemption.

15. A record from this system of records may be disclosed, as a routine use, only to State and local taxing authorities with which the Secretary of the Treasury has entered into agreements and only to those State and local taxing authorities for which the employee is subject to tax (whether or not tax is withheld).

DEPARTMENT OF DEFENSE

Defense Mapping Agency

■

PRIVACY ACT OF 1974

Systems of Records; Deletions and Amendments

federal register

V 4 4 / 1 6 J A 2 3 7 9 UMI

DEPARTMENT OF DEFENSE
Defense Mapping Agency
PRIVACY ACT OF 1974
Notice of Systems of Records: Deletions and Amendments

AGENCY: Defense Mapping Agency (DMA)

ACTION: Notification of deletions and amendments to systems of records due to an internal Agency realignment which combined the DMA Hydrographic Center and the DMA Topographic Center into a single organizational element, the DMA Hydrographic/Topographic Center located at Brookmont, MD. Simultaneously, a new, administratively defined Component separately identified from existing personnal and resources in DMA named the DMA Office of Distribution Services became operational.

SUMMARY: The Defense Mapping Agency proposes to delete 91 and amend 90 systems of records subject to the Privacy Act of 1974. The deleted systems and reasons for their deletions are specifically set forth below under "Deletions". The 90 amended systems being amended are set forth below under "Amendments".

DATES: These systems shall be deleted and amended as proposed without further notice on February 21, 1979, unless comments are received on or before February 21, 1979 which would result in a contrary determination and require republication for further comments.

ADDRESS: Privacy Act Officer, Defense Mapping Agency, ATTN: Administration Office, Building 56, U.S. Naval Observatory, Washington, D.C. 20305.

FOR FURTHER INFORMATION CONTACT: Ms. Mary Jane Stafford, telephone 202-254-4401.

SUPPLEMENTARY INFORMATION: The Defense Mapping Agency's systems of records notices inventory subject to the Privacy Act of 1974 (5 USC 552a) Pub. L. 579 have been published in the Federal Register as follows:

FR Doc. 77-28255 (42 FR 50670) September 28, 1977
FR Doc. 78-25819 (43 FR 42375) September 20, 1978
FR Doc. 78-34821 (43 FR 58405) December 14, 1978

The proposed amendments are not within the purview of the provisions of the Office of Management and Budget (OMB) Circular A-108, Transmittal Memoranda No. 1 and No. 3 dated September 30, 1975 and May 17, 1976, respectively, which provide supplemental guidance to Federal Agencies regarding the preparation and submission of reports of their intention to establish or alter systems of personal records as required by the Privacy Act. This OMB guidance was set forth in the Federal Register (40 FR 45877) on October 3, 1975.

January 10, 1979.

Maurice W. Roche,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

Deletions

Notice is given that the following Defense Mapping Agency systems of records published in the September 28, 1977 issue of the Federal Register are deleted.

B0102-01 HQ THASI

System name: Office General Personnel Files (42 FR 50672) September 28, 1977

Reason: This system has been redesignated as B0102-02 HQ HT ASID appearing with minor revisions in the amendments section of this document.

B0102-03 HQ THASI

System name: Office Personnel Locator Files (42 FR 50672) September 28, 1977

Reason: This system has been redesignated as B0102-03 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0102-04 HQ HASI

System name: Employee Record Card Files (42 FR 50672) September 28, 1977

Reason: This system has been redesignated as B0102-04 HQ HT ASID appearing with minor revisions in the amendments section of this document.

B0102-08 HQ THASI

System name: Office Personnel Information Files (42 FR 50673) September 28, 1977

Reason: This system has been redesignated as B0102-08 HQ HT ASID appearing with minor revisions in the amendments section of this document.

B0102-09 HQ THASI

System name: Duty Roster Files (42 FR 50673) September 28, 1977

Reason: This system has been redesignated as B0102-09 HQ HT ASID appearing with minor revisions in the amendments section of this document.

B0102-09-2 HQ THASI

System name: Duty Roster Files (42 FR 50673) September 28, 1977

Reason: This system has been redesignated as B0102-09-2 HQ HT ASID appearing with minor revisions in the amendments section of this document.

B0102-10 HQ THASI

System name: Standard of Conduct Files (42 FR 50674) September 28, 1977

Reason: This system has been redesignated as B0102-10 HQ HT ASID appearing with minor revisions in the amendments section of this document.

B0102-11 HQ THASI

System name: Temporary Duty Travel Files (42 FR 50674) September 28, 1977

Reason: This system has been redesignated as B0102-11 HQ HT ASID appearing with minor revisions in the amendments section of this document.

B0104-02 HQ THASI

System name: Records Access Files (42 FR 50675) September 28, 1977

Reason: This system has been redesignated as B0104-02 HQ HT ASID appearing with minor revisions in the amendments section of this document.

B0104-12 HQ THASI

System name: Security Awareness Files (42 FR 50675) September 28, 1977

Reason: This system has been redesignated as B0104-12 HQ HT ASID appearing with minor revisions in the amendments section of this document.

B0104-13 HQ THASI

System name: Personnel Security Clearance Information Files (42 FR 50675) September 28, 1977

Reason: This system has been redesignated as B0104-13 HQ HT ASID appearing with minor revisions in the amendments section of this document.

B0201-05 HQ

System name: DMA Central Clearance Group Pre-Employment Files (42 FR 50675) September 28, 1977

Reason: This system is covered by B0302-21-2 HQ HT A, DMA Central Clearance Group Pre-Employment Files, appearing with minor revisions in the amendments section of this document. The system identifier B0201-05 is not a system of records as defined in 5 U.S.C. 552(a)(5), since they are not accessed by name or other personal identifier.

B0201-07 HQ

System name: DMA HQ Military Personnel Reference Paper Files (42 FR 50676) September 28, 1977

Reason: This system is covered by B0201-07-1 HQ HT ASDI, Military Personnel Reference Paper Files, appearing with minor revisions in the amendments section of this document.

B0201-07 HQ T

System name: Communications Center Release Authorization (42 FR 50676) September 28, 1977

Reason: This system has been redesignated as B0201-07 HQ HT appearing with minor revisions in the amendments section of this document.

B0201-07 HQ THASI

System name: Military Personnel Reference Files (42 FR 50677) September 28, 1977

Reason: This system has been redesignated as B0201-07-1 HQ HT ASID appearing with minor revisions in the amendments section of this document.

B0210-06 HQ THASI

System name: Inspector General Investigative Files (42 FR 50677) September 28, 1977

Reason: This system has been redesignated as B0210-06 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0210-07 HQ THASI

System name: Inspector General Complaint Files (42 FR 50677) September 28, 1977

Reason: This system has been redesignated as B0210-07 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0228-04 T

System name: AR 228-04 Historic Photographic Files (42 FR 50678) September 28, 1977

Reason: This system has been redesignated as B0228-04 HT appearing with minor revisions in the amendments section of this document.

B0228-10 T

System name: AR 22-10 Installation Historical Files (42 FR 50678) September 28, 1977

Reason: This system has been redesignated as B0228-10 HT appearing with minor revisions in the amendments section of this document.

B0302-21 THA

System name: Record of Travel Payments (42 FR 50679) September 28, 1977

Reason: This system has been redesignated as B0302-21 HT A appearing with minor revisions in the amendments section of this document.

B0302-21-2 THA

System name: DMA Central Clearance Group Pre-Employment Files (42 FR 50679) September 28, 1977

Reason: This system has been redesignated as B0302-21-2 HQ HT A appearing with minor revisions in the amendments section of this document.

B0303-02 TA

System name: Compensation Data Request Files (42 FR 50680) September 28, 1977

Reason: This system has been redesignated as B0303-02 HT A appearing with minor revisions in the amendments section of this document.

B0303-03 THA

System name: Individual Retirement Record Control Files (42 FR 50680) September 28, 1977

Reason: This system has been redesignated as B0303-03 HT A appearing with minor revisions in the amendments section of this document.

B0303-21 TA

System name: Decedent Claim Files (42 FR 50681) September 28, 1977

Reason: This system has been redesignated as B0303-21 HT A appearing with minor revisions in the amendments section of this document.

B0401-02 HQ TA

System name: Statements of Employment and Financial Interest Files (42 FR 50681) September 28, 1977

Reason: This system has been redesignated as B0401-02 HQ HT A appearing with minor revisions in the amendments section of this document.

B0401-03 HQ THA

System name: Legal Assistance Care Files (42 FR 50682) September 28, 1977

Reason: This system has been redesignated as B0401-03 HQ HT A appearing with minor revisions in the amendments section of this document.

B04002-05 HQ TA

System name: Personnel Property Claim Files (42 FR 50682) September 28, 1977

Reason: This system has been redesignated as B0402-05 HQ HT A appearing with minor revisions in the amendments section of this document.

B0402-06 HQ T

System name: Tort Claims File (42 FR 50682) September 28, 1977

Reason: This system has been redesignated as B0402-06 HQ HT appearing with minor revisions in the amendments section of this document.

B0402-13 HQ T H A

System name: Agency Claim Files (42 FR 50683) September 28, 1977

Reason: This system has been redesignated as B0402-13 HQ HT A appearing with minor revisions in the amendments section of this document.

B0403-12-13-14 HQ T H A S I

System name: Patent Files (42 FR 50683) September 28, 1977

Reason: This system has been redesignated as B0403-12 HQ HT A S I, Patent and Invention Files, and incorporates three systems of records into one system. It appears with minor revisions in the amendments section of this document.

B0407-03 HQ THASI

System name: Congressional Correspondence Files (Civilian Personnel—Congressional Inquiries) (42 FR 50684) September 28, 1977

Reason: This system has been redesignated as B0407-03 HQ HT ASID appearing with minor revisions in the amendments section of this document.

B0408-11 HQ THASI

System name: Biography Files (42 FR 50684) September 28, 1977

Reason: This system has been redesignated as B0408-11 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0502-03 HQ THA

System name: Master Billet/Access Records (42 FR 50684) September 28, 1977

Reason: This system has been redesignated as B0502-03 HQ HT A appearing with minor revisions in the amendments section of this document.

B0502-03-2 HQ THASI

System name: Classified Material Access Files (42 FR 50686) September 28, 1977

Reason: This system has been redesignated as B0502-03-2 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0502-15 HQ THASI

System name: Security Compromise Case Files (42 FR 50686) September 28, 1977

Reason: This system has been redesignated as B0502-15 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0503-01 THASI

System name: Security Identification Issue Files (42 FR 50687) September 28, 1977

Reason: This system has been redesignated as B0503-02 HQ ASI appearing with minor revisions in the amendments section of this document.

B0503-03 TA

System name: Firearms Authorization Files (42 FR 50687) September 28, 1977

Reason: This system has been redesignated as B0503-03 HT A appearing with minor revisions in the amendments section of this document.

B0503-04 HQ THASI

System name: Parking Permit Control Files (42 FR 50687) September 28, 1977

Reason: This system has been redesignated as B0503-04 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0503-05 HQ TASI

System name: Vehicle Registration and Driver Record Files (42 FR 50688) September 28, 1977

Reason: This system has been redesignated as B0503-05 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0503-07 TA

System name: Traffic Law Enforcement Files (42 FR 50688) September 28, 1977

Reason: This system has been redesignated as B0503-07 HQ A appearing with minor revisions in the amendments section of this document.

B0503-09 HQ THASI

System name: Key Accountability Files (42 FR 50688) September 28, 1977

Reason: This system has been redesignated as B0503-09 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0504-01 HQ TAH

System name: Personnel Security Files (42 FR 50689) September 28, 1977

Reason: This system has been redesignated as B0504-01 HQ HT A appearing with minor revisions in the amendments section of this document.

B0504-01-2 HQ THASI

System name: Personnel Security Files (42 FR 50689) September 28, 1977

Reason: This system has been redesignated as B0504-01-2 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0504-01-3 HQ HA

System name: Personnel Security Investigative Files (42 FR 50690) September 28, 1977

Reason: This system has been redesignated as B0504-01-3 HQ HT A appearing with minor revisions in the amendments section of this document.

B0504-02 HQ TGASI

System name: Security Briefing and Debriefing Files (42 FR 50690) September 28, 1977

Reason: This system has been redesignated as B0504-02 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0504-02-2 HQ THA

System name: Special Security Briefing and Debriefing Files (42 FR 50690) September 28, 1977

Reason: This system has been redesignated as B0504-02-2 HQ HT A appearing with minor revisions in the amendments section of this document.

B0601-01 HQ TASI

System name: Civilian Personnel Program Reporting Files (42 FR 50691) September 28, 1977

Reason: This system has been redesignated as B0601-01 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0601-01-2 TA

System name: Civilian Personnel Program Reporting Files (Employment Retirement Records) (42 FR 50691) September 28, 1977

Reason: This system has been redesignated as B0601-01 HQ HT A appearing with minor revisions in the amendments section of this document.

B0601-03 HQ THASI

System name: Advanced Personnel Data System—Civilian (APDS-C) (42 FR 50692) September 28, 1977

Reason: This system has been redesignated as B0601-03 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0602-03 HQ THASI

System name: Organization File (42 FR 50692) September 28, 1977

Reason: This system has been redesignated as B0602-03 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0604-03 HQ HTASI

System name: Active Application Files (Applicant Supply Files) (42 FR 50693) September 28, 1977

Reason: This system has been redesignated as B0604-03 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0604-04 TA

System name: Pending Application Files (42 FR 50693) September 28, 1977

Reason: This system has been redesignated as B0604-04 HT A appearing with minor revisions in the amendments section of this document.

B0605-01 HQ THASI

System name: Equal Employment Opportunity Reporting Files (42 FR 50694) September 28, 1977

Reason: This system has been redesignated as B0605-01 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0605-03 HQ THASI

System name: Equal Employment Opportunity Complaint Case Files (42 FR 50694) September 28, 1977

Reason: This system has been redesignated as B0605-01 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0606-01 HQ THASI

System name: Official Personnel Folder Files (42 FR 50694) September 28, 1977

Reason: This system has been redesignated as B0606-01 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0606-02 HQ THAI

System name: Employee Service Record Files (42 FR 50695) September 28, 1977

Reason: This system has been redesignated as B0606-02 HQ HT AI appearing with minor revisions in the amendments section of this document.

B0606-03 HQ THA

System name: Expert and Consultant Data Files (42 FR 50695) September 28, 1977

Reason: This system has been redesignated as B0606-03 HQ HT A appearing with minor revisions in the amendments section of this document.

B0606-05 HQ THASI

System name: Adverse Action Files (42 FR 50695) September 28, 1977

Reason: This system has been redesignated as B0606-05 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0607-01 HQ THASI

System name: Personnel Locator Files (Alpha Listing) (42 FR 50696) September 28, 1977

Reason: This system has been redesignated as B0607-01 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0607-03 HQ TASI

System name: Chronological Journal Files (42 FR 50696) September 28, 1977

Reason: This system has been redesignated as B0607-03 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0608-06 HQ THASI

System name: Civilian Training Reporting Files (42 FR 50696) September 28, 1977

Reason: This system has been redesignated as B0608-06 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0608-07 THA

System name: Civilian Training Program Files (42 FR 50697) September 28, 1977

Reason: This system has been redesignated as B0608-07 HT A appearing with minor revisions in the amendments section of this document.

B0608-08 HQ THASI

System name: Training Files (42 FR 50697) September 28, 1977

Reason: This system has been redesignated as B0608-08 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0608-09 HQ THASI

System name: Contract Training Files (42 FR 50697) September 28, 1977

Reason: This system has been redesignated as B0608-09 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0601-10 HQ THASI

System name: Record of Training Files (42 FR 50698) September 28, 1977

Reason: This system has been redesignated as B0608-10 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0609-01 HQ THASI

System name: Referral and Selection Files (42 FR 50698) September 28, 1977

Reason: This system has been redesignated as B0609-01 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0609-07 HQ THAI

System name: Individual Overseas Employment Referral Files (42 FR 50699) September 28, 1977

Reason: This system has been redesignated as B0609-07 HQ HT AI appearing with minor revisions in the amendments section of this document.

B0610-01 HQ THASI

System name: Hours of Work Files (42 FR 50700) September 28, 1977

Reason: This system has been redesignated as B0610-01 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0610-03 HQ THASI

System name: Appeals Files (42 FR 50700) September 28, 1977

Reason: This system has been redesignated as B0610-03 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0610-03-2 HQ THASI

System name: Grievance Files (42 FR 50700) September 28, 1977

Reason: This system has been redesignated as B0610-03-2 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0611-01 THAI

System name: Reduction in Force Card Files (42 FR 50701) September 28, 1977

Reason: This system has been redesignated as B0611-01 HT AI appearing with minor revisions in the amendments section of this document.

B0611-03 THAI

System name: Retention Register Files (42 FR 50701) September 28, 1977

Reason: This system has been redesignated as B0611-03 HT AI appearing with minor revisions in the amendments section of this document.

B0612-01 HQ THASI

System name: Basic Labor Relations Files (42 FR 50701) September 28, 1977

Reason: This system has been redesignated as B0612-02 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0612-01 HQ THASI

System name: Basic Labor Relations Files (42 FR 50701) September 28, 1977

Reason: This system has been redesignated as B0612-01 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0613-05 HQ THASI

System name: Incentive Awards (42 FR 50701) September 28, 1977

Reason: This system has been redesignated as B0613-05 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0614-01 T

System name: Official Records (Military) Files and Extracts (42 FR 50702) September 28, 1977

Reason: This system has been redesignated as B0614-01 HT appearing with minor revisions in the amendments section of this document.

B0614-02 TA

System name: Military Services Administrative Record Files (42 FR 50702) September 28, 1977

Reason: This system has been redesignated as B0614-02 HT A appearing with minor revisions in the amendments section of this document.

B0615-02 HQ THASI

System name: Federal, State, and Professional Safety Councils and Committees Files (42 FR 50702) September 28, 1977

Reason: This system has been redesignated as B0615-02 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0615-07 HQ THASI

System name: Safety Award Files (42 FR 50703) September 28, 1977

Reason: This system has been redesignated as B0615-07 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0615-11 HQ THASI

System name: Accidental Injury/Death Reporting Records Files (42 FR 50703) September 28, 1977

Reason: This system has been redesignated as B0615-11 HQ HT ASI appearing with minor revisions in the amendments section of this document.

B0901-04 TA

System name: Civilian Employee Health Clinic Record Files (42 FR 50703) September 28, 1977

Reason: This system has been redesignated as B0901-04 HT A appearing with minor revisions in the amendments section of this document.

B0901-06 THAS

System name: Blood Donor Files (42 FR 50704) September 28, 1977

Reason: This system has been redesignated as B0901-06 HT AS appearing with minor revisions in the amendments section of this document.

B0901-07 HQ THAI

System name: Alcoholism and Drug Abuse Files (42 FR 50704) September 28, 1977

Reason: This system has been redesignated as B0901-07 HQ HT AI appearing with minor revisions in the amendments section of this document.

B1202-17 TA

System name: Contracting Officer Designation Files (42 FR 50706) September 28, 1977

Reason: This system has been redesignated as B1202-17 HT A appearing with minor revisions in the amendments section of this document.

B1205-05 TA

System name: Property Officer Designation Files (42 FR 50706) September 28, 1977

Reason: This system has been redesignated as B1205-05 HT A appearing with minor revisions in the amendments section of this document.

V 4 4 / 1 6 J A 2 3 7 9 UMI

B1205-23 THASI

System name: Report of Survey Files (42 FR 50707) September 28, 1977

Reason: This system has been redesignated as B1205-23 HT ASI appearing with minor revisions in the amendments section of this document.

B1206-02 TA

System name: Self-Service Store Authorization Card Files (42 FR 50707) September 28, 1977

Reason: This system has been redesignated as B1206-02 HT A appearing with minor revisions in the amendments section of this document.

B1208-06 TA

System name: Motor Vehicle Operator's Permits and Qualifications Files (42 FR 50707) September 28, 1977

Reason: This system has been redesignated as B1208-06 HT A appearing with minor revisions in the amendments section of this document

B1211-03 HQ TAI

System name: Passport Files (42 FR 50708) September 28, 1977

Reason: This system has been redesignated as B1211-03 HQ HT AI appearing with minor revisions in the amendments section of this document.

B1211-06 HQ TA

System name: Transportation Officer Appointment Files (42 FR 50708) September 28, 1977

Reason: This system has been redesignated as B1211-06 HQ HT A appearing with minor revisions in the amendments section of this document.

B1211-07 HQ TA

System name: Individual Government Transportation Files (42 FR 50708) September 28, 1977

Reason: This system has been redesignated as B1211-07 HQ HT A appearing with minor revisions in the amendments section of this document.

AMENDMENTS

Following the identification code of the records systems and the specific changes made therein, the complete revised record systems, as amended, are published in their entirety. Citations are to the September 28, 1977 issue of the Federal Register for all of the DMA systems of records.

B0102-01 HQ HT ASID

System name: Office General Personnel Files (42 FR 50672) September 28, 1977

Changes:

System location: Delete entire entry and insert "DMA Headquarters (HQ), DMA Hydrographic/Topographic Center (HT), DMA Aerospace Center (A), Defense Mapping School (S), Inter American Geodetic Survey (I), Office of Distribution Services (D). Staff offices, departments, divisions, and branch offices, all Components. See DMA Directory for complete address listing."

B0102-03 HQ HT ASI

System name: Office Personnel Locator Files (42 FR 50672) September 28, 1977

Changes:

System location: Delete entire entry and insert "DMA Headquarters (HQ), DMA Hydrographic/Topographic Center (HT), DMA Aerospace Center (A), Defense Mapping School (S), Inter American Geodetic Survey (I). Staff offices, departments, divisions, and branch offices, all Components. See DMA Directory for complete address listing."

System manager(s) and address: Delete entire entry and insert "Defense Mapping Agency, ATTN: Personnel Office, Building 56, U.S. Naval Observatory, Washington, D.C. 20305, telephone area code 202-254-4066."

B0102-04 HQ HT ASID

System name: Employee Record Card Files (42 FR 50672) September 28, 1977

Changes:

System location: Delete entire entry and insert "DMA Headquarters (HQ), DMA Hydrographic/Topographic Center (HT), DMA Aerospace Center (A), Defense Mapping School (S), Inter American Geodetic Survey (I), Office of Distribution Services (D). DEFENSE MAPPING AGENCY

B0102-01 HQHTASID

System name:

102-01 Office General Personnel Files

System location:

DMA Headquarters (HQ), DMA Hydrographic/Topographic Center (HT), DMA Aerospace Center(A), Defense Mapping School(S), Inter American Geodetic Survey(I), Office of Distribution Services (D). Staff Offices, Departments, Division and Branch Offices, all Components. See DMA Directory for complete address listing.

Categories of individuals covered by the system:

Employees of DMA Civilian and Military

Categories of records in the system:

Consist of copies of and papers relating to time and attendance reports, leave reports, overtime work, work attendance, holidays, athletic events, employee unions, medical services, training, duty assignments, emergency information and similar data on related subjects. List of individuals authorized to receive these services will also be included.

Authority for maintenance of the system:

Executive Order 10561, 9/15/54; Designating Official Personnel Folders in Government Agencies as Records of the Civil Service Commission and Prescribing Regulations Relating to the Establishment, Maintenance and Transfer thereof.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Supervisory personnel in their day-to-day personnel actions for; promotion, adverse actions, training and other related actions. File subject to civil service review.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Paper record in file folders and/or Kardex book.

Retrievability:

Filed alphabetically by last name of employee

Safeguards:

Buildings or facilities employ security guards. Records are maintained in areas accessible only to authorized personnel that are properly screened, cleared, and trained.

Retention and disposal:

Temporary records. Destroy after 1 year or on discontinuance, whichever is first.

System manager(s) and address:

Defense Mapping Agency, ATTN: Personnel Office, Building 56, U.S. Naval Observatory, Washington, D.C. 20305, TELEPHONE: Area Code 202/254-4066

Notification procedure:

Information may be obtained from DMA Directory

Record access procedures:

Requests from individuals should be addressed to appropriate organization of address list.

Written requests for information should contain the full name of the individual current address and telephone number, social security number. Visits are limited to normal working hours.

For personal visits the individual should be able to provide some acceptable identification, that is, drivers license, employing office's identification card, and give some verbal information that could be verified.

Contesting record procedures:

The Agencys rules for contesting contents and appealing initial determination may be obtained from: System Manager.

Biographical data furnished by individual

Systems exempted from certain provisions of the act:

NONE

B0502-03 HQHTA

System name:

502-03 Master Billet/Access Record

System location:

Primary System - Security - Special Security/Activities Division, Department of Computer Services, DMA Hydrographic/Topographic Center. Decentralized segments - HQ DMA, DMA Aerospace Center. See DMA Directory for complete address listing.

Categories of individuals covered by the system:

All DMA employees and contractor personnel authorized and indoctrinated for access to Sensitive Compartmented Information (SCI). In addition, employees of other Government Agencies are included for the period during which their SCI access status is permanently certified to DMA.

Categories of records in the system:

File may contain for an individual the following: name, rank/grade, military component or civilian status, social security number, SCI billet number and title, SCI accesses authorized and held, date Background Investigation completed, date indoctrinated or debriefed, date and state of birth, DMA badge number and expiration date, and whether an authorized courier of SCI material.

Transcript and IBM card inputs are submitted to and batch produced output is received from the computer system and terminal operation.

Authority for maintenance of the system:

E.O. 11652 - Classification and Declassification of NS Information and Materials 3/10/72

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

File used to produce Confidential rosters of personnel authorized SCI to access for control of access to areas accredited for use of this information and for certification of SCI access status to other Government agencies; for updating of Defense Intelligence Agency (DIA) Security Management Information System (SMIS) file.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Policies and practices for storing, retrieving, accessing, retaining and disposing of records in the system.

Storage:

Records filed on magnetic tape.

Retrievability:

Information recorded alphabetically by last name and numerically by billet number

Safeguards:

Secured in alarmed vault in guarded building. Vault accessible only to properly cleared, authorized personnel. Transmission of system data between DMAAC and DMATC is by Secure (encrypted) teletype circuit.

Retention and disposal:

Active records only are maintained. Records of personnel debriefed for SCI access are dumped on a debrief tape which is printed as an alphabetical listing cumulatively each month for one year, then the tape is erased. Old printed listing is destroyed when replaced by new printed listing (weekly).

System manager(s) and address:

Director, Defense Intelligence Agency (DS-6C2), The Pentagon, Washington, D. C. 20301

Notification procedure:

Information may be obtained from Defense Mapping Agency, ATTN: Security Office,Building 56, U.S. Naval Observatory, Washington, D.C. 20305, TELEPHONE: Area Code 202/254-4411

Record access procedures:

Requests from individuals should be addressed to above.

Written requests for information should contain the full name of the individual Social Security Nmber, current address and telephone number.

For personal visits, the individual should be able to furnish personal identification containing his/her full name, Social Security Number, physical description, photograph, and signature.

Contesting record procedures:

The agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the Defense Mapping Agency, ATTN: Security Office, Building 56, U.S. Naval Observatory, Washington, D.C. 20305, TELEPHONE: Area Code 202/254-4411

Record source categories:

Information originated by maintaining office. Bases of billet entries are approval messages or correspondence from DIA; bases for incumbent entries are indoctrination oaths executed by incumbents at time of indoctrination.

System name:

504-01 Personnel Security Files

System location:

Special Security/Activities Division - DMA Headquarters (HQ), DMA Hydrographic/Topographic Center (HT), DMA Aerospace Center (A) - See DMA Directory for complete address

Categories of individuals covered by the system: ES

DMA Military or civilian employees who have been assigned to positions that require access to Sensitive Compartmented Information (SCI).

Categories of records in the system:

Files consist of Special Security Office (SSO) security indoctrination and termination oaths; clearance and access certification messages; SSO security violation investigative reports if applicable.

Authority for maintenance of the system:

E.O. 11652 Classification and Declassification of NS Information and Material 3/10/72

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

To provide central file repository for all SSO security forms pertaining to the individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Paper records in file folders

Retrievability:

Filed alphabetically by last name of file subject.

Safeguards:

Buildings, facilities employ security guards. Records are maintained in areas accessible only to authorized personnel that are properly screened, cleared and trained.

Retention and disposal:

Retained in active file during period subject is assigned to or employed by DMA, retained in inactive file for one year following reassignment or termination of employment, then destroyed.

System manager(s) and address:

See Defense Mapping Agency, ATTN: Security Office, Building 56, U.S. Naval Observatory, Washington, D.C. 20305, TELEPHONE: Area Code 202/254-4411

Notification procedure:

Information may be obtained from above.

Record access procedures:

Requests from individuals should be addressed to system manager.

Written requests for information should contain the full name of the individual current address and telephone number, social security number.

For personal visits the individual should be able to provide some acceptable identification, that is, drivers license, employing office's identification card and give some verbal information that could be verified.

Contesting record procedures:

The Agency's rules for contesting contents and appealing initial determination may be obtained from System Manager.

Record source categories:

Information obtained from such sources as review of birth records; education records; credit and former employment records; interviews of named and developed references; check of local police and FBI files & check of subversive files.

Systems exempted from certain provisions of the act:

Parts of this system may be exempt under 5 U.S.C. 522a (j) or (k), as applicable. For additional information, contact the Systems Manager.

B0504-01-2 HQHTASI

System name:

504-01 Personnel Security Files

System location:

Primary System - Security Office, DMA Headquarters (HQ), DMA Hydrographic/Topographic Center (HT), DMA Aerospace Center (A), Defense Mapping School (S), Inter American Geodetic Survey (I). See DMA Directory for complete address.

Decentralized Segments - Cross reference index cards (i.e., Badge Requests Cards, Identification Cards, Guard Desk Roladex Identification Cards) with extracts of information contained in primary files are maintained on file in Security Office of each DMA element.

Categories of individuals covered by the system:

Those military, civilian, and industrial personnel who are assigned to, employed by DMA; whose official duties, responsibilities and/or contracts require that they have access to classified defense information which has been entrusted to or is under the Defense Mapping Agency.

Categories of records in the system:

File Contains individual's certificate of clearance indicating level of access individual is cleared for, date clearance was issued, type of

V 4 4 / 1 6 J A 2 3 7 9 UMI

investigation conducted, date investigation was completed and identification of agency that conducted the investigation. Additionally, contained in the file are; copy of Statement of Personal History (DD Form 398), individual's certification that he/she has read and understands both the Department of Defense and Agency security directives and instructions regarding the protection of classified defense information; individual certification that he/she understands responsibilities for protection of North Atlantic Treaty Organization (NATO), Central Treaty Organization (CENTO), material to a lesser extent some files will contain individuals certification that he/she has been briefed for access to NATO Top Secret (COSMIC); NATO Top Secret Restricted Data (ATOMAL); Top Secret CENTO; Single Integrated Operational Plan (SIOP); Extremely Sensitive Information (ESI); Atomic Energy Commission, Restricted Data (RD); and Atomic Energy Commission, Critical Nuclear Weapons Design Information (CNWDI).

Authority for maintenance of the system:

Section 6, Section 7, (B) (3); and Section 12 of Executive Order 11652; Classification and Declassification of National Security Information and Material - 3/10/72

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

DMA SO - This information is maintained as a means to insure that each and every individual assigned to, employed by or contracting with the HQ DMA has been cleared for the level of access to classified information that is necessary for accomplishment of his official duties. These records further insure that each individual is made aware of his responsibilities regarding the protection and safe guarding of any classified information entrusted to him.

Other Governmental Agencies - Information regarding any individual's clearance and level of access. This enables DMA personnel to conduct official business requiring security clearance, with other governmental agencies.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Paper records in file folders

Retrievability:

Alphabetically by name of individual

Safeguards:

Buildings are located on guarded government installation with security guards and alarms. Records are maintained in areas accessible only to authorized personnel that are properly screened, cleared and trained.

Retention and disposal:

Records are maintained in an active status only for the period of time that the individual is actually assigned to, employed by or contracting with DMA. When the individual terminates his association with DMA, the records are maintained in an inactive status for the period of one year and then destroyed.

System manager(s) and address:

SDefense Mapping Agency, ATTN: Security Office, Building 56, U.S. Naval Observatory, Washington, D.C. 20305, TELEPHONE: Area Code 202/254-4411

Notification procedure:

Information may be obtained from above.

Record access procedures:

Requests from individuals should be addressed to System Manager. Written requests for information should contain the full name of the individual, current address and telephone number, social security number.

For personal visits the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, and give some verbal information that could be verified.

Contesting record procedures:

The agencies' rules for contesting contents and appealing initial determinations may be obtained from System Manager.

Record source categories:

Individual's certificate of clearance originates in HQ DMA Special Security Office (SSO) based on notification of personnel investigation by either the Civil Service Commission or the Defense Investigative Agency. Certification of clearance for military personnel will be certified by the individuals' parent service. Much of the routine information in these records such as name, date and place of birth, etc., is obtained during the individual's initial processing which is usually accomplished on his first duty day. Other information such as type of investigation, date of investigation, etc., is obtained from such investigating agencies as the Civil Service Commission (CSC), Defense Investigative Service (DIS), etc. The records are updated as new information is received regarding the individual's clearance and access.

Systems exempted from certain provisions of the act:

NONE

B0504-01-3 HQHTA

System name:

504-01 Personnel Security Investigative Files

System location:

Primary System - Security Offices, DMA Headquarters (HQ), DMA Hydrographic/Topographic Center (HT), DMA Aerospace Center (A) - See DMA Directory for complete address.

Categories of individuals covered by the system:

Those military and civilian personnel who are assigned to or employed by the Defense Mapping Agency and whose duties require access to classified defense information and who have therefore been investigated under the provisions of Department of Defense regulations.

Categories of records in the system:

Files consist of two parts, one part subject two exemption of 552a(K)(5) from review one part available for review. Part (I) Exempted consists of National Agency Checks with Written Inquiries (NACI); Background Investigations (BI) Special Background Investigations (SBI); Bring-up Investigations (BU). Part (2) Available for review consists of National Agency Checks (NAC).

Authority for maintenance of the system:

E.O. 11652 - Classification and Declassification of National Security Information and Material - 3/10/72.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Defense Mapping Agency - to determine eligibility for access to classified defense information and to conduct continuing Security Program

Defense Intelligence Agency - to determine eligibility for access to Sensitive Compartmented Information, applicable to Special Security Office access.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Paper records in file folders.

Retrievability:

Filed alphabetically by last name of file subject.

Safeguards:

Buildings, facilities employ security guards. Records are maintained in areas accessible only to authorized personnel that are properly screened, cleared and trained.

Retention and disposal:

Retained in active file during period subject is assigned to or employed by DMA, retained in inactive file for one year following termination of subject's assignment or employment, then destroyed.

System manager(s) and address:

601-03 Advanced Personnel Data System - Civilian (APDS-C)

System location:

Civilian Personnel Offices - See DMA Directory for complete address listing.

Categories of individuals covered by the system:

Current and former DMA civilian employees.

Categories of records in the system:

Civilian employment information including authorization for position, personnel data, suspense information; position control information; projected information and historical information; civilian education and training data; performance appraisal, ratings, evaluation of potential; civilian historical files covering job experinece, training and transactions; civilian awards information, merit promotion plan work files; career programs files for such functional areas as procurement, logistics, civilian personnel, etc., civilian separation and retirement data for reports and to determine eligibility; adverse and disciplinary data for statistical analysis and employee assistance; stand-along file, as for complaints, enrollee programs; extract files from which to produce statistical reports in hard copy, or for immediate access display on remote computer terminals; miscellaneous files.

Authority for maintenance of the system:

5U.S. Code 301 and 44 U.S. Code 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

To provide automated system support to DMA officials at all levels from that part of the Civil Service Commission required personnel management and records keeping system that pertains to evaluation, authorization and position control, position management, staffing skills inventory, career management, training, retirement, employee services, rights and benefits, merit promotions, demotions, reductions in force, complaints resolution, labor management relations, and the suspensing and processing of personnel actions; to provide for transmission of such records between employing activities within the Defense Mapping Agency; to provide reports to the Civil Service Commission; to provide reports of military reserve status to other armed services for contingency planning; to obtain statistical data on the work force to fulfill internal and external report requirements and to provide DMA offices with information needed to plan for and evaluate manpower, budget and civilian personnel programs, to provide minority group designator codes to the U.S. Civil Service Commission's automated data file, to provide the Office of the Assistant Secretary of Defense, Manpower and Reserve Affairs, with data to assess the effectiveness of the program for employment of women in executive level positions; to provide data to DMA officials to facilitate the assessment of the DMA Affirmative Action Plan for minorities and women; to obtain listings of employees by function or area for locator and inventory purposes; disclosed to officials of labor organizations recognized under Executive Order 11491, as amended, when relevant and necessary to their duties of exclusive representation concerning personnel policies and practices and matters affecting working conditions.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Maintained in visible file binders/cabinets, card files, computer magnetic tapes, disks or drums, computer paper printouts, microfiche.

Retrievability:

Filed by name, Social Security Account Number (SSAN), other identification number or system identifier. The primary individual record identifier in APDS-C is SSAN. There is the added capability of selecting an individual's record or certain preformatted information by SSAN on an immediate basis using a teletype or cathode ray tube display device.

Safeguards:

Records are accessed by custodian(s) of the record system. Records are accessed by person(s) responsible for servicing the record system in performance of their official duties. Records are accessed by authorized personnel who are properly screened and cleared for need-to-know. Records are stored in security file containers/cabinets. Records are stored in safes. Records are stored in vaults. Records are stored in locked cabinets or rooms. Records are protected by guards. Records are controlled by computer system software.

Retention and disposal:

Analog output products are retained in office files until superseded, obsolete, no longer needed for reference, or inactivated. They are then destroyed by tearing into pieces, shredding, pulping, macerating, or burning. Data stored digitally within system is retained only for the period required to satisty recurring processing requirements and/or historical requirements. The Notification of Personnel Action, Standard Form 50, is disposed of as directed by the Civil Service Commission, work files and records such as the employee career brief, position survey work sheet, retention register work sheet, alphabetic and social security account number locator files, and personnel and position control register are destroyed after use by tearing into pieces, shredding, macerating, or burning work sheets pertaining to qualification and retention registers are disposed of as directed by the Civil Service Commission; transitory files such as pending files, and recovery files are destroyed after use by degaussing files and records retrieved through general retrieval systems are destroyed after use by tearing into pieces, shredding, pulping, macerating, or burning. The separated employee file retains employee information at time of separation for five years after which the employee's record is destroyed by degaussing.

ORDER NOW!

Guide to Record Retention Requirements

[Revised as of January 1, 1978]

Latest Edition

Price: $2.50

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

Order from Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402

This useful reference tool, compiled from agency regulations and U.S. Statutes, is designed to assist industry and the public with their Federal record-keeping obligations.

The various digests in the "Guide" tell the user (1) what records must be kept, (2) who must keep them, and (3) how long they must be kept.

In addition, the "Guide" contains the names, addresses, and phone numbers of contact persons within each agency who can answer substantive questions about the requirements.

Each digest also carries a reference to the full text of the basic law or regulation providing for such retention.

The booklet's index lists for ready reference the categories of persons, groups, and products affected by Federal record retention requirements.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/COAST GUARD	USDA/ASCS		DOT/COAST GUARD	USDA/ASCS
DOT/NHTSA	USDA/APHIS		DOT/NHTSA	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/OHMO	USDA//FSQS		DOT/OHMO	USDA/FSQS
DOT/OPSO	USDA/REA		DOT/OPSO	USDA/REA
CSA	MSPB*/OPM*		CSA	MSPB*/OPM*
	LABOR			LABOR
	HEW/FDA			HEW/FDA

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

***NOTE: As of January 1, 1979, the Merit Systems Protection Board (MSPB) and the Office of Personnel Management (OPM) will publish on the Tuesday/Friday schedule. (MSPB and OPM are successor agencies to the Civil Service Commission.)**

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 7—Agriculture

CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK), DEPARTMENT OF AGRICULTURE

[Milk Order No. 62; Docket No. AO-10-A53]

PART 1062—MILK IN THE ST. LOUIS-OZARKS MARKETING AREA

Order Amending Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This action changing present order provisions is based on industry proposals considered at a public hearing held June 21-22, 1978. The amendments provide that a distributing plant which meets the pooling standards of the St. Louis-Ozarks milk order and one or more other Federal milk orders shall continue to be regulated under the St. Louis-Ozarks order until the third consecutive month in which it has more than 50 percent of its Class I sales in another Federal order marketing area. This change would apply only to plants that had been regulated under the St. Louis-Ozarks order for at least the previous 13 months. The current pooling standards would continue to apply for those plants regulated under the order less than that time. Another major change increases the funding rate for the Advertising and Promotion program and also tie such rate to the level of the blend price to producers. The amendments are necessary to reflect current marketing conditions and to insure orderly marketing in the area.

EFFECTIVE DATE: The order provisions set forth herein shall become effective April 1, 1979, except that the provisions amending §§ 1062.7(d), 1062.13, 1062.85, and 1062.121 (e) and (f) shall become effective on February 1, 1979.

FOR FURTHER INFORMATION CONTACT:

Robert F. Groene, Marketing Specialist, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-4824.

SUPPLEMENTARY INFORMATION: Prior documents in this proceeding:

Notice of hearing: Issued May 31, 1978, published June 6, 1978 (43 FR 24540). Recommended decision: Issued November 17, 1978, published November 22, 1978 (43 FR 54642). Partial final decision: Issued January 3, 1979, published January 8, 1979 (44 FR 1741).

FINDINGS AND DETERMINATIONS

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings.* A public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the St. Louis-Ozarks marketing area. The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure (7 CFR Part 900).

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in a marketing agreement upon which a hearing has been held; and

(4) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 4 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to milk specified in § 1062.85.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order partially effective not later than February 1, 1979. Any delay beyond that date would tend to disrupt the orderly marketing of milk in the marketing area.

The provisions of this order are known to handlers. The recommended decision of the Deputy Administrator, Marketing Program Operations, was issued November 17, 1978, and the decision of the Assistant Secretary containing all amendment provisions of this order was issued January 3, 1979. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order partially effective not later than February 1, 1979, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (Sec. 553(d), Administrative Procedure Act, 5 U.S.C. 551-559.)

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in Sec. 8c (9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as hereby amended;

V 4 4 / 1 7 J A 2 4 7 9 UMI

(3) The issuance of the order amending the order, except for the advertising and promotion program is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area; and

(4) The issuance of the order amending the order relative to provisions of the advertising and promotion program is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the market area.

ORDER RELATIVE TO HANDLING

It is therefore ordered, That on and after the effective dates hereof, the handling of milk in the St. Louis-Ozarks marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

1. In § 1062.7, paragraph (d) is revised to read as follows:

§ 1062.7 Pool plant.

* * * * *

(d) The term "pool plant" shall not apply to:

(1) A producer-handler plant or governmental agency plant;

(2) A distributing plant that meets the requirements specified in paragraph (a) of this section and also meets the pooling requirements of another Federal order and has greater route disposition, except filled milk, during the month in such other Federal order marketing area than in this marketing area unless one of the following conditions applies:

(i) If the plant was a pool plant under this order in each of the immediately preceding 13 months, it shall continue to be a pool plant under this order until the third consecutive month in which more than 50 percent of such route disposition is made in such other marketing area unless, notwithstanding the provisions of this paragraph, it is regulated under such other order; or

(ii) Except as provided in paragraph (d)(2)(i) of this section, if the plant was a pool plant under this order in the immediately preceding month, it shall continue to be a pool plant under this order until the third consecutive month in which a greater proportion of such route disposition is made in such other marketing area unless, notwithstanding the provisions of this paragraph, it is regulated under such other order;

(3) A distributing plant which meets the pooling requirements of another Federal order and from which route disposition, except filled milk, during the month in this marketing area is greater than in such other Federal order marketing area but which plant is, nevertheless, fully regulated under such other Federal order; and

(4) A supply plant meeting the requirements of paragraph (b) of this section which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made during the month to plants regulated under such other order than are made to plants regulated under this part, except during the months of March through August if such plant retains automatic pooling status under this part.

2. Section 1062.13 is revised to read as follows:

§ 1062.13 Producer milk.

"Producer milk" means the skim milk and butterfat in milk of a producer which is:

(a) Received at a pool plant directly from such producer by the operator of the plant;

(b) Received by a handler described in § 1062.9(c); or

(c) Diverted from a pool plant for the account of the handler operating such pool plant to another pool plant or diverted from a pool plant to a nonpool plant (other than a producer-handler plant) for the account of the handler operating such pool plant or for the account of a handler described in § 1062.9(b), subject to the following conditions:

(1) Milk from a dairy farmer shall not be eligible for diversion during any of the months of September through February unless at least one day's production is physically received during the month at a pool plant;

(2) The total quantity of milk diverted by a cooperative association to nonpool plants during each of the months of September through February may not exceed 50 percent of the quantity of producer milk that the cooperative association causes to be delivered to or diverted from pool plants during the month;

(3) The total quantity of milk diverted by the operator of a pool plant (other than a cooperative association) to nonpool plants during each of the months of September through February may not exceed 50 percent of the quantity of milk received at or diverted from such pool plant during the month that is not under the control of a cooperative association that diverts milk pursuant to paragraph (c)(2) of this section;

(4) Any milk diverted to nonpool plants in excess of the limits prescribed in paragraph (c) (2) and (3) of this section shall not be producer milk. The diverting handler may designate the dairy farmers whose diverted milk will not be producer milk, otherwise the milk last diverted—in lots of an entire day's production—shall be excluded first in determining which milk should not be producer milk; and

(5) For pricing purposes, milk diverted from one pool plant to another pool plant or milk diverted to a nonpool plant that is located more than 120 miles from the nearer of the city halls in St. Louis and Springfield, Mo. (by the shortest highway distance as determined by the market administrator using the most current issue of the Household Carriers Guide), shall be priced at the location of the plant to which diverted. Milk diverted to a nonpool plant located less than 120 miles from the city hall in St. Louis or Springfield shall be priced at the location of the plant from which diverted.

3. Section 1062.61 is revised to read as follows:

§ 1062.61 Computation of uniform price (including weighted average price).

For each month the market administrator shall compute the uniform price per hundredweight of milk of 3.5 percent butterfat content received from producers as follows:

(a) Combine into one total the values computed pursuant to § 1062.60 for all handlers who filed the reports prescribed by § 1062.30 for the month and who made the payments pursuant to §§ 1062.71 and 1062.73 for the preceding month;

(b) Deduct the amount of the plus adjustments and add the amount of the minus adjustments which are applicable pursuant to § 1062.75;

(c) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(d) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1062.60 (f) and (g); and

(e) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The result shall be the "weighted average price".

(f) For the months of January, February, and August, subtract from the weighted average price computed in paragraph (e) of this section the withholding rate for the Advertising and Promotion program as computed in § 1062.121(e). The result shall be the uniform price for the applicable month.

(g) For the months specified in paragraphs (h) and (i) of this section, subtract from the amount resulting from the computations pursuant to paragraphs (a) through (c) of this section an amount computed by multiplying the hundredweight of milk specified in paragraph (d)(2) of this section by the weighted average price;

(h) From the remaining amount in paragraph (g) of this section subtract for each of the months of March and July an amount equal to 15 cents per hundredweight, and for each of the months of April, May, and June an amount equal to 25 cents per hundredweight, of the total amount of producer milk included in these computations for each respective month. This amount shall be retained in the producer-settlement fund and disbursed according to the provisions of paragraph (i) of this section;

(i) To the remaining amount in paragraph (g) of this section add for each of the months of September and December an amount equal to 20 percent, and for each of the months of October and November an amount equal to 30 percent, of the total amount subtracted pursuant to paragraph (h) of this section;

(j) Divide the resulting sum by the total hundredweight of producer milk included in these computations;

(k) Subtract the withholding rate for the Advertising and Promotion program as computed in § 1062.121(e); and

(l) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The result shall be the "uniform price" for milk received from producers for the applicable month.

§ 1062.71 [Amended]

4. In § 1062.71(a)(2)(ii), the words "plus 5 cents" are deleted.

§ 1062.75 [Amended]

5. In § 1062.75(b), the words "plus 5 cents" are deleted.

§ 1062.76 [Amended]

6. In § 1062.76(a)(4), the words "plus 5 cents" are deleted.

§ 1062.85 [Amended]

7. In the preamble of § 1062.85, the number "2.5" is changed to read "4".

8. In § 1062.120, paragraph (c) is revised to read as follows:

§ 1062.120 Procedure for requesting refunds.

* * * * *

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the end of the ensuing calendar quarter may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such calendar quarter pursuant to § 1062.121(b).

* * * * *

9. In § 1062.120(d), the reference "§ 1062.61(d)" is changed to read "§ 1062.121(b)."

10. In § 1062.121, the introductory text of paragraph (b) and paragraph (b) (2) and (3) are revised and new paragraphs (e) and (f) are added, to read as follows:

§ 1062.121 Duties of the market administrator.

* * * * *

(b) Each month set aside into an advertising and promotion fund, separately accounted for, an amount equal to the withholding rate for the month as set forth in paragraph (e) of this section times the amount of producer milk included in the uniform price computation for such month. The amount set aside shall be disbursed as follows:

* * * * *

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed the rate per hundredweight determined pursuant to paragraph (e) of this section on the volume of milk pooled by any such producer for which deductions were made pursuant to this paragraph.

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1062.120. Such refund shall be computed by multiplying the rate specified in paragraph (e) of this section by the hundredweight of such producer's milk pooled for which deductions were made pursuant to this paragraph for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to paragraph (b)(2) of this section.

* * * * *

(e) As soon as possible after the beginning of each year, compute the rate of withholding by multiplying the simple average of the monthly "weighted average prices" for the last quarter of the preceding year by 0.75 percent and rounding to the nearest whole cent. This rate shall apply during the 12-month period beginning with April of the current year.

(f) As soon as possible after the rate of withholding is computed, notify in writing each producer currently on the market and any new producer that subsequently enters the market of the withholding rate. This notification shall be repeated annually thereafter only if there is any change in the rate from the previous period.

(Secs. 1-19, 48 Stat. 31, as amended; (7 U.S.C. 601-674))

Effective date. The order provisions set forth herein shall become effective April 1, 1979, except that the provisions amending §§ 1062.7(d), 1062.13, 1062.85, and 1062.121 (e) and (f) shall become effective on February 1, 1979.

Signed at Washington, D.C., on January 18, 1979.

P. R. "BOBBY" SMITH,
Assistant Secretary for Marketing Services.

Title 8—Aliens and Nationality

CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

PART 238—CONTRACTS WITH TRANSPORTATION LINES

Addition to Preinspection Ports and Transportation Lines to Listing

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Final rule.

SUMMARY: This document amends the regulations of the Immigration and Naturalization Service to add Calgary, Alberta, Canada and Freeport, Bahamas to the list of locations outside the United States at which passengers bound for the United States may avail themselves of immigration preinspection. It also adds several airlines to the listing which have entered into preinspection agreements, as provided by regulation, at those locations. The amendments are necessary because the preinspection ports and signatory transportation lines are published in the Service's regulations. The amendments are intended for the information of the affected and interested public.

EFFECTIVE DATE: January 24, 1979.

FOR FURTHER INFORMATION CONTACT:

James G. Hoofnagle, Jr., Instructions Officer, Immigration and Naturalization Service, 425 Eye Street, NW., Washington, D.C. 20536. Telephone: (202) 633-3048.

SUPPLEMENTARY INFORMATION: Recently, the United States entered into agreements with the Government of the Bahamas and the Government of Canada to provide for the immigra-

V 4 4 / 1 7

J A 2 4

7 9

UMI

tion preinspection of passengers and crews departing Freeport, Bahamas and Calgary, Alberta, Canada, respectively.

Also, Bahamas Air Holdings Ltd., Delta Air Lines Inc., and Eastern Air Lines Inc., entered into agreements with the Commissioner of Immigration and Naturalization on Form I-425 for immigration inspection of their passengers and crews at Freeport, Bahamas. In addition, Air Canada, Hughes Air West and Western Airlines Inc., entered similar agreements for the immigration preinspection of their passengers and crews at Calgary, Alberta, Canada.

Accordingly, the Service regulations at 8 CFR 238.4 will be amended to add Calgary and Freeport and the signatory transportation lines to the listing.

In the light of the foregoing, Chapter I of Title 8 of the Code of Federal Regulations is hereby amended as follows:

§ 238.4 [Amended]

In § 238.4, *Preinspection outside the United States*, the listing of places and signatory lines is amended by inserting the following two listings immediately following the listing for "At Bermuda", and immediately preceding the listing for "At Montreal":

* * * * *

AT CALGARY

Air Canada
Hughes Air West
Western Airlines Inc.

AT FREEPORT

Bahamas Air Holdings Ltd.
Delta Air Lines Inc.
Eastern Air Lines Inc.

* * * * *

(Sec. 103 and 238(b); (8 U.S.C. 1103 and 1228(b)))

These amendments are published pursuant to 5 U.S.C. 552 as amended by Pub. L. 93-502 (88 Stat. 1561), and the authority contained in section 103 of the Immigration and Nationality Act (8 U.S.C. 1103), 28 CFR 0.105(b) and 8 CFR 2.1. Compliance with the provisions of 5 U.S.C. 553 as to notice of proposed rule making and delayed effective date is unnecessary in this instance because the amendments add preinspection ports and transportation lines to the listing, and are editorial in nature.

Effective date. The amendments contained in this order become effective on January 24, 1979.

Dated: January 19, 1979.

LEONEL J. CASTILLO,
Commissioner of Immigration and Naturalization.

Title 12—Banks and Banking

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER D—INSURANCE OF ACCOUNTS

PART 563—OPERATIONS

PART 571—STATEMENTS OF POLICY

Fidelity Bond Requirements for Insured Institutions

JANUARY 18, 1979.

AGENCY: Federal Home Loan Bank Board ("Bank Board").

ACTION: Final rule.

SUMMARY: These amendments change the maximum deductible amounts permitted for fidelity bonds of FSLIC-insured institutions and codify the Bank Board's policy regarding acceptable surety companies. The deductible amounts being demanded by surety companies today often exceed the maximum amounts permitted by the former regulation. Also, in some areas, there are few, if any, surety companies which are acceptable under the Bank Board's regulations and offer this coverage to FSLIC-insured institutions. The Bank Board believes that all FSLIC-insured institutions will be able to obtain bonds with deductible amounts within the limits permitted by this amendment and that additional acceptable surety companies will increase competition in writing the bonds, resulting in better rates and services to such institutions.

EFFECTIVE DATE: February 26, 1979.

FOR FURTHER INFORMATION CONTACT:

Harry W. Quillian, Associate General counsel, Federal Home Loan Bank Board, 1700 G Street, N.W., Washington, D.C. 20552. Telephone number: (202) 377-6440.

SUPPLEMENTARY INFORMATION: The Bank Board, as operating head of the Federal Savings and Loan Insurance Corporation ("FSLIC"), proposed by Resolution No. 78-453, dated August 9, 1978, to amend the Rules and Regulations for Insurance of Accounts by (1) revising § 563.19(b) (12 CFR 563.19(b)) regarding the maximum deductible amounts permitted in the fidelity bonds of FSLIC-insured institutions and (2) adding § 571.14 (12 CFR 571.14) stating the Bank Board's policy regarding acceptable surety companies. Notice of that proposal was published in the FEDERAL REGISTER on August 15, 1978 (43 FR 36107-36108), with an invitation to interested persons to submit written comments by September 30, 1978. Twenty-seven public comments were received: 14 approved, as proposed; 9 approved and suggested changes; 3 opposed; and 1 respondent stated that it is making a study of this matter and will comment at a later time. On the basis of those comments and all other relevant information available to it, the Bank Board deems it advisable to adopt the amendments as proposed.

EXPLANATION OF AMENDMENTS

A. *Deductible Amounts.* The revision of § 563.19(b) is designed primarily to provide room for negotiation between an insured institution and a surety company within regulatory limitations sufficiently restrictive to prevent unsafe and unsound practices by the institution. The general premise underlying the schedule is that a deductible should not exceed approximately two percent of an insured institution's net worth. The deductible is not tied directly to net worth since (a) that figure may fluctuate considerably over time and (b) it is desirable to retain the regulatory insurance "base" (insured institution's assets plus the unpaid balance of loans serviced for others). It is therefore assumed that "net worth" would be considered to be five percent of the base amount and the schedule is designed to set the maximum deductible at no more than two percent of such figure (i.e., 1/10 of 1% of the base). An exception is made for very small institutions because the Bank Board believes that a deductible up to $1000 may be acceptable even when strict application of the percentage schedule would dictate a lesser amount. Also, because the dollar amount represented by 1/10 of 1% of the base eventually becomes unacceptably large as the base increases, a sliding scale is imposed. For example, a three billion dollar base institution is subject to a maximum deductible of $412,500 or only 0.275 of 1% of the 5%-of-base-net-worth figure. The Bank Board believes that such an amount is large enough to allow a negotiated deductible without endangering the solvency of the institution. Of course, the negotiated deductible may be, and often should be, less than the maximum deductible.

B. *Acceptable Surety Companies.* The Bank Board has been unique among the Federal financial regulatory agencies in that it has attempted not only to prescribe the type and amount of bond coverage FSLIC-insured institutions must carry, but also to determine which insurance companies may write that bond coverage. This latter effort was never expressed

in the FSLIC regulations, but nevertheless has survived as a formal policy of the agency since its earliest days. At least as early as 1937, the FSLIC adopted the United States Treasury Department's list of casualty and surety companies approved by that department for writing bonds running to the Federal government as the authoritative index of insurers approved to write savings and loan blanket bonds. The Treasury Department's criteria are quite stringent, and as the number of insurers on the Treasury list still offering bonds to financial institutions has dwindled to only a few over the years, the desirability of retaining that list as the only index has become questionable. Lack of competition in the financial institution bond market, especially with respect to savings and loans, may be the prime cause of high premium rates and lack of interest in providing coverage to associations with an adverse loss history. Removing, or at least reducing, the criteria for approval of a surety encourages competition from insurance companies which currently do not qualify by Treasury standards to offer bonds on Federal projects, including certain domestic and foreign surplus lines insurers.

DISCUSSION OF MAJOR COMMENTS

One respondent suggested making no change in the schedule of permissible deductible amounts but permitting variances from that schedule when approved by the FSLIC. This suggestion is not adopted because the additional paper work which it would involve appears unjustified.

One respondent suggested retaining the former provision permitting an increase in the deductible amounts up to three times the scheduled amounts in those cases where high loss ratios have been experienced. This suggestion is not adopted because the new larger deductible limits provide adequate flexibility. The Bank Board expects that insured institutions will be able under the new regulation to obtain proper coverage at reasonable rates even where high loss ratios have been experienced, particularly since the new policy statement enlarges the number of acceptable surety companies.

One respondent suggested that the revised regulation call attention to the fact that there may be particular situations which would dictate bond coverage in excess of $3,000,000. Also, this respondent requested that the Bank Board point out that the deductible amounts specified are maximums, and that each institution is expected to obtain a deductible appropriate to its particular situation. The Bank Board believes the regulation is sufficiently clear on both points without further specificity or explanation.

Some respondents expressed apprehension that the new schedule will result in forcing insured institutions to accept much higher deductibles with only minimum relief in premium expense. One respondent recommended moving toward higher deductible amounts on a gradual basis over a period of time. One respondent noted that surety companies have recently excluded various types of losses without reducing premiums. The new policy statement, increasing the number of acceptable surety companies, is intended to increase competition which should mitigate these problems. The Bank Board's staff will monitor this situation.

Two respondents suggested that the deductible amounts for larger institutions appear excessive. One of these respondents suggested a maximum deductible amount of $100,000 and the other suggested further research before adopting a new schedule of deductible amounts. In finalizing the proposed schedule, the Bank Board points out that the regulation prescribes maximum deductible amounts, leaving the actual amounts to negotiation between an insured institution and its surety company.

Two respondents suggested that the acceptability of surety companies should be based on more than the fact that the companies are licensed in the various states, i.e. require a certain "rating" or specify some ratio of the policy limit to the surety company's surplus. The Bank Board has not adopted this suggestion because the administrative burden of monitoring such criteria would be substantial and does not appear justified. However, sound business judgment would dictate that an insured institution consider the financial soundness of its surety company prior to taking a bond written by that company.

Accordingly, 12 CFR Parts 563 and 571 of the Rules and Regulations for Insurance of Accounts are hereby amended by revising § 563.19(b) and adding § 571.14 to read as set forth below, effective February 26, 1979.

§ 563.19 Bonds for directors, officers, employees, and agents; form of and amounts of bonds.

* * * * *

(b) No insured institution shall be required to maintain such bond coverage in an amount greater than $3,000,000. Such bond coverage may provide for a deductible amount from any loss which otherwise would be recoverable from the bonding company. A deductible amount may be applied separately to one or more insuring agreements. The bond shall not provide for more than one deductible amount from all losses caused by the same person or caused by the same persons acting in collusion or combination in cases in which such losses result from dishonesty of employees (as defined in the bond). A deductible shall not exceed an amount determined according to the following schedule:

Base	Permissible deductible
$25,000,000 and under	.001 of base or $1,000, whichever is greater.
$25,000,001 to $250,000,000	$25,000 plus .0005 of base over $25 million.
Over $250,000,000	$137,500 plus .0001 of base over $250 million.

* * * * *

§ 571.14 Fidelity bonds; acceptable surety companies.

Section 563.19 of this subchapter in part requires each insured institution to maintain bond coverage with a bonding company acceptable to the Corporation. Any surety or insurer meeting one or more of the following criteria is acceptable:

(a) Underwriters holding certificates of authority as acceptable sureties on Federal bonds, as listed in the most recent issue of the United States Treasury Department Circular No. 570, to the limits established by such circular;

(b) Underwriters currently licensed to issue surety bonds by the State in which the home office of the insured institution is located, subject to all restrictions and requirements imposed by the licensing State; or

(c) Underwriters approved to do business as surplus lines insurers under the laws of the State in which the home office of the insured institution is located, subject to all restrictions and requirements imposed by the surplus lines laws of such State.

Title 12—Banks and Banking

CHAPTER VII—NATIONAL CREDIT UNION ADMINISTRATION

PART 701—ORGANIZATION AND OPERATIONS OF FEDERAL CREDIT UNIONS

Treasury Tax and Loan Accounts

AGENCY: National Credit Union Administration.Q04

ACTION: Final Rule.Q04

SUMMARY: This rule authorizes Federal Credit Unions to participate as depositaries for funds representing payments for certain United States obligations and payments of Federal taxes as authorized by Pub. L. 95-147 of October 28, 1977. This action is required to accommodate amendments to Treasury regulations which require the payment of interest on Treasury Tax and Loan Accounts and immediate availability of such funds upon demand.

EFFECTIVE DATE: January 22, 1979.

ADDRESS: National Credit Union Administration, 2025 M Street, NW., Washington, D.C. 20456.

FOR FURTHER INFORMATION CONTACT:

Mike Fischer, Special Assistant for Examination and Insurance at the above address. Telephone: (202) 254-8760.

SUPPLEMENTARY INFORMATION: Federal credit unions have long been authorized to act as fiscal agents of the United States under Section 121 of the Federal Credit Union Act. The enactment of Pub. L. 95-147 and the issuance of appropriate Treasury Regulations make it possible for FCUs to exercise that power by acting as depositaries for Treasury Tax and Loan Accounts. The regulatory changes to enable Federal credit unions to participate in the Treasury program include the establishment of two new types of share accounts which are not subject to the notice requirements of Article III, Section 5 of the FCU Bylaws.

Department of Treasury regulations provide that a Treasury Tax and Loan Depositary may elect to participate either under the "remittance option" or the "note option." Under the "remittance option" funds credited by the depositary to its Treasury Tax and Loan (TT&L) Account will be withdrawn by the Federal Reserve Bank immediately upon receipt of advices of credit supporting such deposits. Under the "note option" such funds will be held in an account (subject to call) which represents an investment in the depositary by Treasury, and will be evidenced by an open-ended interest-bearing note maintained at the Federal Reserve Bank of the district in which the depositary is located.

This rule provides that funds held under either the "remittance option" or the "note option" shall be considered public unit funds for share insurance purposes and as such are insured up to $100,000 in the aggregate by the National Credit Union Share Insurance Fund and are subject to share insurance premium charges.

Funds held under the "note option" are not considered borrowed funds for purposes of the limitation on borrowing in Section 107(9) of the FCU Act. The Administration believes that Congress, in passing Pub. L. 95-147, did not intend that an FCU's ability to borrow to meet the needs of its members be in any way inhibited by the FCU's participation in Treasury's program. Accordingly, the amendments approved today will promote Congress' purpose in enacting this legislation to provide Treasury with a direct means of obtaining interest on its cash balances while not impacting on an FCU's borrowing authority.

FCUs are cautioned that funds in TT&L accounts are highly volatile and should not be placed in long term investments. Treasury will call for the funds held in "note option" TT&L accounts as required to meet its cash needs. The frequency of the calls depends upon the depositary's class which is based upon the depositary's annual volume of activity in TT&L accounts. The frequency of Treasury calls will range from daily to 3 or 4 times a month. Newly designated depositaries will initially be placed in the low volume class (Class "A"—annual TT&L deposits of $7.5 million or less). The Treasury calls on Class "A" depositaries will generally be by mail and may take the form of requiring remittance of all deposits in TT&L accounts as of the call date within 5 days of the call date. In addition to their volatility, the requirement to pay the stipulated return to Treasury on note option TT&L accounts should cause FCUs to give serious consideration to the overall impact on operations that will result from such accounts before offering this service.

This rule also provides that FCUs may pledge specifically identified assets of the FCU as collateral for TT&L accounts and to enter into such custodial arrangements as may be necessary to meet Department of Treasury requirements for TT&L accounts.

Department of Treasury regulations set forth the requirements and conditions for TT&L depositaries. Interested parties are referred to 31 CFR Parts 203 and 214 and to the Treasury publication entitled "Procedural Instructions for Treasury Tax and Loan Depositaries." The latter publication is available from Federal Reserve Banks.

This rule aids in implementing new legislation and augments regulations of the Treasury which became effective November 2, 1978. The Administration believes that significant public benefit will result from its immediate adoption. The immediate adoption of the final rules will remove uncertainty concerning the nature of and insured status of TT&L accounts for FCUs. This will permit FCUs to prepare immediately for participation in the Treasury program. Consequently, the Administration has determined that the procedures for notice, public participation, and deferred effective date as provided in the Administrative Procedure Act (5 U.S.C. Section 553) are unnecessary and would not serve the public interest.

Accordingly, 12 CFR Part 701 is amended by adding a new section 701.37 as set forth below.

LAWRENCE CONNELL,
Administrator.

JANUARY 18, 1979.

(Sec. 120, 73 Stat. 635 (12 U.S.C. 1766); sec. 209, 84 Stat. 1104 (12 U.S.C. 1796); sec. 107(15), 82 Stat. 284 (12 U.S.C. 1757(15)); sec. 121, 73 Stat. 637 (12 U.S.C. 1767); sec. 207(c)(2), 88 Stat. 1501 (12 U.S.C. 1787(c)(2)); and sec. 210, 91 Stat. 1277 (12 U.S.C. 1789).)

§ 701.37 Treasury tax and loan accounts.

(a) 31 CFR Part 203, Department of Treasury Regulations states that every credit union insured by the Administrator of the National Credit Union Administration is eligible to be designated as a Treasury tax and loan (TT&L) depositary. The application procedures and requirements for designation as a TT&L depositary are as set forth in the Department of the Treasury Regulations.

(b) Definitions of terms as used in this part:

(1) TT&L Remittance Account—means an account, the balance of which is subject to the right of immediate withdrawal, established for receipt of payments of Federal taxes and certain United States obligations.

(2) TT&L Note Account—means an account subject to the right of immediate call, evidencing funds held by depositaries electing the note option under applicable U.S. Treasury Department regulations.

(c) Upon designation as a Treasury tax and loan depositary, a Federal credit union may establish a TT&L Remittance Account for the receipt of payments of Federal taxes and certain U.S. obligations. Funds in the TT&L Remittance Account are not eligible to receive dividends and are not subject to the 60 day notice requirement of Article III, Section 5 of Federal Credit Union Bylaws.

(d) Credit unions selecting the Note Option under 31 CFR Part 203.9 may hold funds in a TT&L Note Account in accordance with Department of Treasury Regulations. Funds held in the credit union's TT&L Note Account shall bear interest at the rate specified in the Department of Treasury regulations. Funds held in TT&L Note accounts are not considered borrowings for purposes of Section 107(9) of the FCU Act and are not subject to the 60 day notice requirement of Article III, Section 5 of Federal Credit Union Bylaws.

(e) The sum of the amounts held in the TT&L Remittance Account and the TT&L Note Account shall not exceed 10 per centum of the total assets of the credit union.

(f) For share insurance purposes, funds in the TT&L Remittance Account and the TT&L Note Account shall be considered public unit funds and as such are insured up to a maximum of $100,000 in the aggregate. The share insurance premium paid shall include a premium equal to one-twelfth of 1 per centum of the total amount of funds in the TT&L Remittance Account and the TT&L Note Account at the close of the preceding insurance year.

(g) A Federal credit union may pledge specifically identified assets as collateral for TT&L Remittance and Note Accounts and may enter into such custodial arrangements as may be necessary to meet Department of Treasury requirements for collateral on TT&L accounts.

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Docket C-2942. Lockheed Corporation

AGENCY: Federal Trade Commission.

ACTION: Final order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent agreement, among other things, requires a Burbank, Calif. aircraft manufacturer and its subsidiaries to cease offering or making payments to influential foreign entities for the purpose of preventing competition in the sale of their aircraft abroad; and to keep adequate documentation for all payments, brokerage fees, commissions, or political campaign contributions paid to any one foreign party which total annually in excess of $100,000. The firms would additionally be required to report to the Commission, within ten days, any corporate policy change which relates to foreign sales activities.

DATES: Complaint and order issued Dec. 21, 1978.[1]

FOR FURTHER INFORMATION CONTACT:

FTC/C, Jaime Taronji, Jr., Washington, D.C. 20580. (202) 376-2894.

SUPPLEMENTARY INFORMATION: On Monday, August 21, 1978, there was published in the FEDERAL REGISTER, 43 FR 36973, a proposed consent agreement with analysis In the Matter of Lockheed Corporation, a corporation, for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions, or objections regarding the proposed form of order.

No comments having been received, the Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered its order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

The prohibited trade practices and/or corrective actions, as codified under 16 CFR 13, are as follows: Subpart-Combining or Conspiring: § 13.410 To eliminate competition in conspirators' goods; § 13.470 To restrain or monopolize trade. Subpart-Corrective Actions and/or Requirements: § 13.533 Corrective actions and/or requirements; 13.533-45 Maintain records. Subpart-Discriminating In Price Under Section 2, Clayton Act—Payment or Acceptance of Commission, Brokerage, or Other Compensation Under 2(c): § 13.810 Buyers' corporate or other agent.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; Sec. 2, 49 Stat. 1526; 15 U.S.C. 45, 13.)

Title 31—Money and Finance: Treasury

SUBTITLE A—OFFICE OF THE SECRETARY, DEPARTMENT OF THE TREASURY

PART 10—PRACTICE BEFORE THE INTERNAL REVENUE SERVICE

Amendment of the Regulations Governing Solicitation by Practitioners Before the Internal Revenue Service

AGENCY: Department of the Treasury.

ACTION: Final Rule.

SUMMARY: The rule amends the advertising and solicitation provisions of the regulations governing practice by attorneys, certified public accountants, enrolled agents and others who represent clients before the Internal Revenue Service. The purpose of this amendment is to permit the expansion of advertising and solicitation by Internal Revenue Service practitioners. This change is based upon recent judicial determinations on the subject of advertising and solicitation by the professions. Consistent with this change, provisions relating to solicitation, formerly in § 10.24 of the regulations, have been incorporated in the provisions of Section 10.30.

EFFECTIVE DATE: This revision of Part 10 becomes effective on January 24, 1979.

FOR FURTHER INFORMATION, CONTACT:

Mr. Leslie S. Shapiro, Director of Practice, 202-376-0767.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On June 14, 1978, the Department of the Treasury (hereinafter referred to as the Department) published proposed amendments to the regulations governing practice before the Internal Revenue Service (31 CFR Part 10) in the FEDERAL REGISTER (43 FR 25695). The regulations in 31 CFR Part 10 (reprinted as Treasury Department Circular No. 230) govern the conduct of attorneys, certified public accountants, enrolled agents and others in their practice before the Internal Revenue Service. Section 10.30 of the current regulations prohibits advertising and solicitation of employment in matters related to the Internal Revenue Service. The proposed amendment expanded advertising and solicitation by those practitioners.

Amendment to the regulations allowing increased solicitation and advertising was deemed warranted because of the United States Supreme Court decision in *Bates* v. *State Bar of Arizona*, 433 U.S. 350, 97 S.Ct. 2691, 53 L.Ed. 2d 810 (1977). In *Bates*, the Court held that an absolute ban on lawyer advertising violated the freedom of speech clause of the First Amendment to the Constitution and that some forms of lawyer advertising are permissible.

Written comments on the proposal were invited and a public hearing was held on September 26, 1978. After consideration of all comments received, the proposal is adopted as revised by this document.

DISCUSSION OF MAJOR COMMENTS

GENERAL COMMENTS

1. *Scope of Regulations*

Some comments asserted that those practicing before the Internal Revenue Service should have greater freedom to advertise than the proposal provided. In doing so, the commenters believed that such a restriction would result in minimal regulation. Those asserting this position interpreted the *Bates* decision as standing for the proposition that all commercial information should be freely disseminated unless it is false or misleading.

The Department is of the view that this interpretation of *Bates* is not consistent with the Court's decision. The issue in *Bates* was limited to whether attorneys may advertise fees for routine legal services. The Court held that such fee advertising came within First Amendment protection, noting that the advertising allowed serves individual and societal interests in assuring informed and reliable decisionmaking. However, the Supreme Court did not hold that there may be no regulation of other aspects of solicitation, indicating some of them could be restricted as appropriate.

One of the issues the *Bates* opinion reserved was addressed in two subsequent Supreme Court decisions. In *Ohralik* v. *Ohio State Bar Association*, 46 USLW 4511 (May 30, 1978), the need to protect the consumer from the potential harms of solicitation was demonstrated by the Court. The Court upheld a prohibition on in-person solicitation by attorneys, stating "the aim and effect of in-person solicitation may be to provide a one-sided presentation and to encourage speedy and perhaps uninformed decision-making." The *Ohralik* decision therefore permits a prohibition on truthful in-person solicitation of employment for pecuniary gain under circumstances likely to pose dangers to the consumer. The Supreme Court, in *in Re Primus*, 46 USLW 4519 (May 30, 1978), also dealt with in-person solicitation by an attorney in behalf of a non-profit organization. It found that the First Amendment right of association afforded non-profit organizations the right to engage in such solicitation as a means of political expression and because of the unlikelihood of pecuniary gain. Although *Primus* permits non-profit organizations to engage in in-person solicitation, the Court noted there could be carefully tailored regulations governing such activity.

The Department believes the Supreme Court, in sanctioning certain advertising by professionals, was principally concerned with providing the public the opportunity to make informed decisions in selecting an attorney. The *Bates* decision recognizes that advertising can be a valuable tool for consumer education. However, the *Ohralik* and *Primus* decisions demonstrate that, on balance, not all forms of solicitation are desirable, and recognize the propriety of prohibitions on forms of solicitation which could be detrimental to the consumer, such as in-person solicitation.

2. *Application of Regulations*

The advertising and solicitation rules in the proposed regulations would expressly apply to all individuals eligible to practice before the Internal Revenue Service in any matter related to the Internal Revenue Service. Some commenters suggested that the advertising and solicitation provisions should apply only to practice before the Internal Revenue Service as defined by § 10.2(a) of the regulations. Section 10.2(a) defines "practice" as "all matters connected with presentation to the Internal Revenue Service or any of its officers or employees relating to a client's rights, privileges, or liabilities under the laws or regulations administered by the Internal Revenue Service." The preparation of tax returns is expressly excluded. If the advertising and solicitation provisions were limited only to practice before the Internal Revenue Service, practitioners could advertise tax return preparation services without coming under the regulations' restrictions. In evaluating these comments, the Department found that such a limitation would be inconsistent with the purpose of its regulations. Such regulations govern all aspects of professional services offered, including the preparation of Federal tax returns. Consequently, there is no basis for limiting the application of the regulations.

3. *Relationship With Other Regulations*

Two comments received addressed that portion of the preamble to the proposed rule which stated that "the proposed advertising and solicitation rules set forth will not supersede or preempt any advertising and solicitation rules applied to practitioners before the Internal Revenue Service by any national, state, or local organizations controlling the professional conduct of Internal Revenue Service practitioners." It was suggested that this language either be clarified or eliminated. The statement in the preamble reflected the Department's recognition that the professional conduct of many practitioners before the Internal Revenue Service is also circumscribed by rules adopted by national, state or local organizations. Its purpose was to place such practitioners on notice of the requirement to follow those rules where appropriate. Accordingly, it is not believed the language need be deleted or clarified.

SPECIFIC COMMENTS AND CHANGES

10.24—Assistance From Disbarred or Suspended Persons and Former Internal Revenue Service Employees

One commenter called our attention to the fact that proposed § 10.24(c) was inconsistent with the provision contained in § 10.26 of the regulations. Both prohibit a practitioner from accepting assistance from any former Government employee in any matter in which the former employee had "official responsibility" while with the Government. However, the prohibition in proposed § 10.24(c) would have been a lifetime bar while the prohibition in § 10.26 is for one year. This was not the intent of the proposal and the final regulation has been clarified in accordance with the comment.

10.30(a)—Advertising and Solicitation Restrictions

Two comments stated that the term "Solicitation Restrictions" as used in the heading was vague and misleading as to the scope of the provision's application. In order to clarify this, § 10.30(a) has been retitled "Advertising and Solicitation Restrictions."

10.30(a)(1)—General Restrictions

One comment suggested that the prohibition on advertising the "quality of services rendered" would prohibit the dissemination of useful information subject to factual verification and therefore should be deleted. The Department concurs that such information may assist taxpayers and believes that only the advertising of quality of services not subject to factual verification should be prohibited. Accordingly, the final rule has been revised to more clearly reflect this belief.

Several comments suggested that the prohibition of self-laudatory statements be eliminated because it is vague and ambiguous. The Department agrees and this prohibition has been deleted.

Consistent with the Supreme Court decisions in *Ohralik* and *Primus*, and to further reflect the Department's intent, the words "coercive" and "unduly influencing" have been added to the prohibition in § 10.30(a)(1).

10.30(a)(2)—Prohibition on Advertising Former Internal Revenue Service Employment

Comments suggested that the prohibition on making any written or oral statement referring to a past or present connection with, or relationship to, the Internal Revenue Service be deleted. The comments stressed that the prohibition would prevent taxpayers from receiving valuable information helpful in the selection of a tax practitioner. Further, the comments suggested that any abuses resulting from the deletion of this provision are addressed in other provisions of the regulations. The Department concurs, and the prohibition has been deleted from the final rule.

10.30(a)(3)—In-Person Solicitation

1. *General*

Some comments recommended the proposal's prohibition on in-person solicitation be deleted. The commenters believed that in-person solicitation is valuable to the public and would present no situations which could lead to overreaching and other "vexatious conduct" by practitioners.

As previously discussed, the Supreme Court addressed the issue of in-person solicitation by attorneys in the *Ohralik* case. The Court stated that in-person solicitation does not give the recipient opportunity to reflect or compare other information and could demand an immediate response, thereby exerting pressure on the potential client. The Department believes that the complexity of our tax laws and the anxiety which many taxpayers feel when confronted with matters such as examination of tax returns, imposition of tax liens and estate tax issues for bereaved family members of decedents, indicate that, at this stage of our experience, limitations be placed on in-person solicitation. Hence, to avoid the opportunity for overreaching, the invasion of a taxpayer's privacy and situations where the judgment of the practitioner on behalf of the client may be clouded by his own pecuniary self-interest, the prohibition on in-person solicitation is continued in the final regulations.

Two comments requested that the Department clarify the phrase "without the intervention of print or electronic media." This proposed phrase was intended to delineate various types of in-person solicitation from other types of solicitation. To eliminate any ambiguity, the phrase has been replaced and examples of activity which are deemed to constitute forms of in-person solicitation are given.

One comment suggested that the term "solicitation" be replaced with the phrase "uninvited solicitation" to make clear that an exchange of information which could be characterized as invited in-person solicitation would be proper. The Department is of the view that invited solicitation by its nature ordinarily would be outside the application of the restriction. However, to clarify any possible ambiguity, the word "uninvited" was added to the final regulation.

2. *Mailings*

Several comments requested clarification of in-person solicitation mailings which would be permitted by the regulations. One comment recommended it be deleted. The Department feels that general mailings will assist taxpayers and would be consistent with permitted advertising. The intent of the proposed regulations was to

JA 24 79 UMI

V 4 4 / 1 7

sanction such general mailings and to prohibit mail designed for a specific potential client which addresses specific circumstances unique to that individual. It is believed that specific mailings may present potentials for harm similar to those of oral in-person solicitation. To alleviate any misunderstanding, the final regulation has been reworded to permit mailings when the contents are designed for the general public.

One comment requested clarification of the meaning of the term "potential client", questioning the scope of possible communication with a current or former client. The regulations were not intended to prohibit a practitioner from any communication with existing or former clients in related matters and the final rule has been clarified accordingly. Thus, it would be permissible for a practitioner who had prepared a client's 1977 tax return to inquire about preparing his 1978 return. It should be noted, however, that when a practitioner attempts to expand the business relationship to an unrelated matter, the existing or former client is viewed as a new client. An example of such expansion would be an attorney who represented an individual in a negligence action arising from an automobile accident and then sought to prepare the individual's tax returns.

3. *Tax Exempt Organizations*

Although no comments were received in regard to in-person solicitation by tax exempt organizations, the Department believes it is necessary to clarify this provision in the final rule. The final rule therefore provides that in-person solicitation by a party in behalf of the specified tax exempt organizations is permissible if it is not coercive. This addition is consistent with the previously discussed Supreme Court opinions. Further, the tax exempt organizations referred to in the regulations have been modified to include only those non-profit groups which pursue litigation as a vehicle for advancing effective political expression and association in furtherance of a tax exempt purpose. This is deemed appropriate under the *Primus* case and reflects clarity and consistency on the subject.

10.30(b)—Permissible Advertising

The title of the paragraph in the final rule is revised to read "Permissible Advertising." This change reflects the parallelism of the regulation by having § 10.30(a) entitled "Advertising and Solicitation Restrictions" and by having § 10.30(b) entitled "Permissible Advertising."

10.30(b)(1) Contents of Advertisements

Section 10.30(b)(1) now refers to § 10.30(d) in order to clarify the modes of communication practitioners may utilize in permissible advertising.

A number of comments were received suggesting that the phrase "enrolled to practice before the Internal Revenue Service" in § 10.30 of the former regulations be retained. The proposed regulations, in § 10.30(b)(1)(ix), sanction the use of a new enrollment legend "enrolled to represent taxpayers before the Internal Revenue Service." Since reference to one's enrollment to practice before the Internal Revenue Service is a relevant statement of fact, there was no intent to eliminate the previously allowed enrollment legend. Rather, the proposed regulation was designed to give the enrolled agent an alternate choice. To clarify this matter, § 10.30(b)(1)(ix) of the final regulations has been modified to include reference to both legends.

One comment expressed concern with the proposal which would permit statements limiting an individual's or a firm's practice to certain areas by stating that practitioners should only be able to advertise a limited practice if the national or local bodies exercising authority over the practitioners recognized the speciality. The Department believes, however, that information informing the consumer of the limited areas of practice in which an individual engages is factual in nature and relevant to informed decision making by a taxpayer.

Two comments were received regarding proposed § 10.30(b)(1)(x), which provides flexibility in an advertisement by permitting one to use facts which would be relevant in selecting a practitioner before the Internal Revenue Service. One comment suggested that if the regulations were to be truly flexible, the list of nine items which precede subparagraph "x" should be eliminated. Another comment stated that § 10.30(b)(1)(x) should be deleted because it is too broad, and suggested additional items be added to the listing preceding it. It is believed that proposed § 10.30(b)(1)(i) through (ix) furnishes the practitioner guidance as to the type of facts relevant to the selection of a practitioner. Section 10.30(b)(1)(x) provides needed flexibility in addition to the guidance of the subparagraphs preceding it. The Department remains of the view that the regulation gives the practitioner necessary guidance without restriction to a finite list of items. Accordingly, proposed § 10.30(b)(1)(x) has been retained in the final regulations.

10.30(b)(2)—Provision Relating to Biographical Insertions, Professional Cards, Letterheads and Announcements

Section 10.30(b)(2) of the proposed regulations makes reference to certain provisions in the rules of professional conduct of the American Bar Association, the American Institute of Certified Public Accountants, the National Society of Public Accountants, and the National Association of Enrolled Agents. These provisions apply to the use of biographical insertions, professional cards, letterheads and announcements. Three comments indicated it was improper for the regulations to refer to any organization's advertising and solicitation provisions. The Department believes the references to these organizations' standards, to the extent they are consistent with the Department's regulations, are essential in order to avoid the presentation of minutia in the regulations for this limited area, standards which may be considered in the periphery of solicitation. In addition, this approach to regulating these matters is identical to that currently employed in the Department's regulations and reflects a recommendation of the Chief Counsel's (Internal Revenue Service) Advisory Committee on Rules of Professional Conduct in the Committee's September 2, 1976 report.

Some comments suggested the rules of the National Association of Enrolled Federal Tax Accountants be included in § 10.30(b)(2). The Department believes reference to the National Association of Enrolled Federal Tax Accountants' rules would not provide additional guidance to enrolled agents and has not included such reference in the section.

One comment indicated that § 10.30(b)(2)(iii) was inconsistent with the references in § 10.30(b)(2)(i) and (ii). The commenter questioned the propriety of addressing membership by enrolled agents in the National Society of Public Accountants or the National Association of Enrolled Agents when the proposal does not address membership by attorneys or by certified public accountants in their respective organizations. The intent of § 10.30(b)(2)(iii) is to require enrolled agents, in these limited areas, to adhere to the relevant rules of one of the two named organizations. To clarify the provision, the inconsistent language has been omitted from the regulations.

10.30(c)—Fee Information

Two comments were concerned with the provision that clients were entitled, without charge, to a written estimate of the fees likely to be charged if the practitioner advertised fee information. One comment stated it was not always feasible to give such a written estimate of fees likely to be charged; the other comment believed the requirement was of little value to the consumer but could pose serious hardships on a practitioner's ability to advertise fee information. The Department concurs in these comments and has deleted the requirement for free written estimates.

The proposed regulation requires that any advertisement or other communication of fixed fees for specific routine services be accompanied by a statement clearly indicating that the quoted fees are for services in matters of average complexity and that the actual fees for such services will depend upon the actual complexity of the client's particular matter. Two comments suggested that the statement be eliminated because it served no useful purpose and would result in an unneeded expense for the practitioner when advertising such fee information. The Department agrees, and the requirement has been deleted in the final rule.

10.30(d)—Communications

Some comments received questioned the necessity for the delineation of permissible forms of communications set forth in § 10.30(d). The Department believes the regulation is necessary to provide the practitioner with guidance as to the forms of communication allowable, and has retained it in the final rule.

Two comments objected to the failure of this provision to include mailings as a public communication, believing mailings would be beneficial to the consumer and essential for the practitioner. The Department recognizes the need for clarification and the need to be consistent with permissible mailings addressed in § 10.30(a)(2) of the final rule. The term "permissible mailings" therefore was added to this section.

One comment stated the term "print media" was ambiguous, and inquired as to whether mailings would be included as "print media." The term is used in this provision in the general sense of communication through means of the printed word. Inasmuch as the subject of permissible mailings is separately addressed in this section, the Department believes that the expressed ambiguity has been eliminated.

Two comments addressed the requirement in the proposed regulations that practitioners pre-record radio and television advertisements and retain the recordings. One suggested that retention of the written transcript was sufficient to assure that practitioners did not engage in false or misleading broadcasts. The other suggested that retention of the audio portion of the broadcast was sufficient. Both stated the proposed regulations would pose an unnecessary financial burden on the practitioner and could restrict the use of electronic media advertising if required to retain the video portion of a television transmission. The Department reviewed the submitted financial evidence which indicated that the retention of the video portion of a pre-recorded television broadcast would be burdensome. Accordingly, the final regulation requires only the retention of a pre-recording of the audio portion of a broadcast.

10.30(e)—Improper Associations

Although there were no direct comments on this provision, several comments indirectly indicated their belief that the prohibition on enrolled agents from accepting employment from or affiliating with certain entities was too harsh. For example, commercial tax return preparation entities indicated their desire to employ enrolled agents. These entities stated that by their employment of enrolled agents, the expertise of their service would be enhanced, thereby benefitting the public. The Department believes these comments have merit. The prohibition which would have been imposed by proposed § 10.30(e) has been modified to allow individuals authorized to practice before the Internal Revenue Service to be employed by those who advertise and solicit business contrary to the provisions in § 10.30, as long as those practitioners neither practice before the Internal Revenue Service nor are represented (held out) as being eligible to practice before the Internal Revenue Service. The regulations would permit those individuals to hold themselves out and/or practice before the Internal Revenue Service in a capacity other than that of such an employee or affiliate.

COMMENTS BEYOND SCOPE

A number of comments were received which went beyond the scope of the notice of proposed rulemaking. Accordingly, such comments were not incorporated into the final regulation. These comments included recommendations:

1. That Circular 230 be revised to have a continuing education program for practitioners;

2. That Circular 230 be revised to have jurisdiction over individuals practicing as unenrolled return preparers under Revenue Procedure 68-20; and

3. That Circular 230 be revised to contain instructions for the general public in reporting violations of § 10.30.

DRAFTING INFORMATION

The principal author of this amendment is Mr. Leslie S. Shapiro, Director of Practice, Office of the General Counsel, Department of the Treasury, and members of his staff. Personnel from other offices of the General Counsel, Department of the Treaury, and from the Internal Revenue Service also participated in developing this amendment.

AUTHORITY

This amendment is adopted under the authority of: Sec. 3, 23 Stat. 258, secs. 2-12, 60 Stat. 237 et seq.; 5 U.S.C. 301, 500, 551-559, 31 U.S.C. 1026, Reorg. Plan No. 26 of 1950, 15 F.R. 4935, 64 Stat. 1280, 3 CFR, 1949-1953 Comp., except as otherwise noted.

Accordingly, 31 CFR Part 10 is amended to read as follows:

Paragraph 1. § 10.24, is revised to read as set forth below:

§ 10.24 Assistance from disbarred or suspended persons and former Internal Revenue Service employees.

No attorney, certified public accountant or enrolled agent shall, in practice before the Internal Revenue Service, knowingly and directly or indirectly:

(a) Employ or accept assistance from any person who is under disbarment or suspension from practice before the Internal Revenue Service.

(b) Accept employment as associate, correspondent, or subagent from, or share fees with, any such person.

(c) Accept assistance from any former government employee where the provisions of § 10.26 of these regulations or any Federal law would be violated.

PARAGRAPH 2. Section 10.30, is revised to read as set forth below:

§ 10.30 Solicitation.

(a) *Advertising and Solicitation restrictions.* (1) No attorney, certified public accountant, enrolled agent, or other individual eligible to practice before the Internal Revenue Service shall, with respect to any Internal Revenue Service matter, in any way use or participate in the use of any form of public communication containing a false, fraudulent, misleading, deceptive, unduly influencing, coercive or unfair statement or claim. For the purposes of this subsection, the prohibition includes, but is not limited to, statements pertaining to the quality of services rendered unless subject to factual verification, claims of specialized expertise not authorized by State or Federal agencies having jurisdiction over the practioner, and statements or suggestions that the ingenuity and/or prior record of a representative rather than the merit of the matter are prin-

JAN 24 1979 UMI

V 4 4 / 1 7

cipal factors likely to determine the result of the matter.

(2) No attorney, certified public accountant, enrolled agent or other individual eligible to practice before the Internal Revenue Service shall make, directly or indirectly, an uninvited solicitation of employment, in matters related to the Internal Revenue Service. Solicitation includes, but is not limited to, in-person contacts, telephone communications, and personal mailings directed to the specific circumstances unique to the recipient. This restriction does not apply to: (i) Seeking new business from an existing or former client in a related matter; (ii) solicitation by mailings, the contents of which are designed for the general public; or (iii) non-coercive in-person solicitation by those eligible to practice before the Internal Revenue Service while acting as an employee, member, or officer of an exempt organization listed in sections 501(c) (3) or (4) of the Internal Revenue Code of 1954 (26 U.S.C.).

(b) *Permissible Advertising.* (1) Attorneys, certified public accountants, enrolled agents and other individuals eligible to practice before the Internal Revenue Service, may publish, broadcast, or use in a dignified manner through any means of communication set forth in paragraph (d) of this section:

(i) The name, address, telephone number, and office hours of the practitioner or firm.

(ii) The names of individuals associated with the firm.

(iii) A factual description of the services offered.

(iv) Acceptable credit cards and other credit arrangements.

(v) Foreign language ability.

(vi) Membership in pertinent, professional organizations.

(vii) Pertinent professional licenses.

(viii) A statement that an individual's or firm's practice is limited to certain areas.

(ix) In the case of an enrolled agent, the phrase "enrolled to represent taxpayers before the Internal Revenue Service" or "enrolled to practice before the Internal Revenue Service."

(x) Other facts relevant to the selection of a practitioner in matters related to the Internal Revenue Service which are not prohibited by these regulations.

(2) Attorneys, certified public accountants, enrolled agents and other individuals eligible to practice before the Internal Revenue Service may use, to the extent they are consistent with the regulations in this section, customary biographical insertions in approved law lists and reputable professional journals and directories, as well as professional cards, letterheads and announcements: *Provided*, That: (i) attorneys do not violate applicable standards of ethical conduct adopted by the American Bar Association, (ii) certified public accountants do not violate applicable standards of ethical conduct adopted by the American Institute of Certified Public Accountants, and (iii) enrolled agents do not violate applicable standards of ethical conduct adopted by either the National Society of Public Accountants or the National Association of Enrolled Agents.

(c) *Fee Information.* (1) Attorneys, certified public accountants, enrolled agents and other individuals eligible to practice before the Internal Revenue Service may disseminate the following fee information:

(i) Fixed fees for specific routine services.

(ii) Hourly rates.

(iii) Range of fees for particular services.

(iv) Fee charged for an initial consultation.

(2) Attorneys, certified public accountants, enrolled agents and other individuals eligible to practice before the Internal Revenue Service may also publish the availability of a written schedule of fees.

(3) Attorneys, certified public accountants, enrolled agents and other individuals eligible to practice before the Internal Revenue Service shall be bound to charge the hourly rate, the fixed fee for specific routine services, the range of fees for particular services, or the fee for an initial consultation published for a reasonable period of time, but no less than thirty days from the last publication of such hourly rate or fees.

(d) *Communications.* Communications, including fee information, shall be limited to professional lists, telephone directories, print media, permissible mailings as provided in these regulations, radio and television. In the case of radio and television broadcasting, the broadcast shall be pre-recorded and the practitioner shall retain a recording of the actual audio transmission.

(e) *Improper Associations.* An attorney, certified public accountant or enrolled agent may, in matters related to the Internal Revenue Service, employ or accept employment or assistance as an associate, correspondent, or subagent from, or share fees with, any person or entity who, to the knowledge of the practitioner, obtains clients or otherwise practices in a manner forbidden under this section: *Provided*, That a practitioner does not, directly or indirectly, act or hold himself out as an Internal Revenue Service practitioner in connection with that relationship. Nothing herein shall prohibit an attorney, certified public accountant, or enrolled agent from practice before the Internal Revenue Service in a capacity other than that described above.

NOTE.—The Department of the Treasury has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: January 17, 1979.

PART 10—PRACTICE BEFORE THE INTERNAL REVENUE SERVICE

Revision of the Provisions Governing Those Individuals Eligible To Practice Before the Internal Revenue Service

AGENCY: Department of the Treasury.

ACTION: Final Rule.

SUMMARY: The rule amends and revises the provision of 31 CFR Part 10, reprinted as Treasury Department Circular No. 230, which defines those individuals who are eligible to practice before the Internal Revenue Service. Currently, the regulations permit attorneys, certified public accountants and enrolled agents to practice before the Internal Revenue Service. The purpose of this rule is to permit enrolled actuaries to engage in practice before the Internal Revenue Service in connection with the provisions of the Internal Revenue Code involving pension plans under the Employee Retirement Income Security Act of 1974 (ERISA).

EFFECTIVE DATE: This revision of Part 10 becomes effective February 24, 1979.

FOR FURTHER INFORMATION CONTACT:

Mr. Leslie S. Shapiro, Director of Practice, 202-376-0767.

SUPPLEMENTARY INFORMATION: On August 3, 1978, the Department of the Treasury (Department) published a proposed rule (43 FR 34161) to amend the regulations governing practice before the Internal Revenue Service (31 CFR Part 10). A number of written comments were received regarding the proposed rule. Almost all parties submitting comments commended the regulations as proposed. One comment opposed the proposal, and several recommended technical amendments to the proposed regulation.

DISCUSSION OF MAJOR COMMENTS

GENERAL COMMENTS

The majority of comments strongly supported the proposed regulations as being a necessary element of the full service enrolled actuaries are qualified to provide. It was felt this would benefit their clients, the Internal Revenue Service, and pension plan participants.

COMMENT OPPOSING THE PROPOSAL

The comment opposing the proposed regulations stated that actuaries have no special qualifications to argue (before the Internal Revenue Service) questions of plan qualification, discrimination, and similar legal issues not related to funding. The implication of the comment appears to be that Internal Revenue Service appearances are adversary proceedings and that the questions addressed in the proposal are areas only attorneys should handle. Further, the comment disagreed with the premise that one can limit practice before the Internal Revenue Service to enumerated sections of the Internal Revenue Code because of those provisions' interrelationship with other Code sections.

The Department does not view Internal Revenue Service proceedings to be adversary in nature. Rather, it is the duty of the Internal Revenue Service to administer the Internal Revenue Code by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view. Under 31 CFR Part 10, attorneys, certified public accountants and enrolled agents are authorized to represent taxpayers before all administrative levels of the Internal Revenue Service. The fact that certified public accountants and enrolled agents are so authorized demonstrates that practice before the Internal Revenue Service does not involve a proceeding which necessarily requires the services of an attorney. The overwhelming consideration in proposing that enrolled actuaries practice in a limited area is that they possess an expertise in certain matters concerning pension plans that may be in issue in Internal Revenue Service proceedings. Consequently, there are significant benefits to the public and the Internal Revenue Service by permitting direct communication between enrolled actuaries and representatives of the Internal Revenue Service. The Department therefore has determined that enrolled actuaries are an appropriate class to engage in practice before the Internal Revenue Service within the ambit of their expertise.

The matter of how best to address practice by enrolled actuaries was carefully considered in drafting the proposed regulations. Such consideration included administrative issues and meaningful guidelines for enrolled actuaries. It was determined that limiting practice to specific statutory provisions was preferable to a more general authorization. It is believed that the interrelationship between those provisions under which enrolled actuaries would practice and other provisions of the Internal Revenue Code would not work a hardship on the sound administration of the revenue laws, and that the proposed regulations in this area should not be altered.

The comment further stated that under proposed § 10.51(g) of the regulations, enrolled actuaries could not be disbarred or suspended because they are not licensed by States. In addition, the absence of the term "enrolled" from the proposed amendment would not provide the Department authority to suspend or disbar an enrolled actuary who has his or her status as such suspended or terminated by the Joint Board for the Enrollment of Actuaries.

The Department does not concur in this interpretation. Under § 10.51 of Treasury Department Circular No. 230, one who practices before the Internal Revenue Service may be suspended or disbarred from such practice for an act of disreputable conduct. Proposed § 10.51(g) would include as disreputable conduct, suspension or disbarment as an actuary by any duly constituted authority of any State or Federal agency, body or board. The Department has found that certain States regulate the qualifications of actuaries who perform services under State laws and understands that the trends indicate growing regulation in this area. The proposal therefore should be considered prospective in nature to apply to any actuary who may be subject to State licensing. In addition, the Department is of the view that the absence of the word "enrolled" does not negate the Department's authority to disbar or suspend an enrolled actuary whose eligibility to perform actuarial services has been suspended or terminated by the Joint Board for the Enrollment of Actuaries. Such suspension or termination would preclude the individual from performing as an actuary those services his or her enrollment status authorizes. Accordingly, it is not believed any clarification is required.

PROPOSED AMENDMENTS

Several comments favored the proposed regulations, but recommended that practice by enrolled actuaries be expanded to include Internal Revenue Code provisions not delineated in the proposed rule.

(1) Two commenters recommended that the proposed regulation be expanded to permit practice before the Internal Revenue Service in matters involving Section 403(b) of the Internal Revenue Code (taxability of beneficiary under annuity purchased by a Section 501(c)(3) organization or public school). One of the comments pointed out that Section 403(b)(2)(A)(ii) may involve, in the case of unallocated contributions to a defined benefit plan, calculations that are distinctly actuarial in nature.

The Department did not adopt this recommendation. Section 403(b) concerns non-actuarial conditions for tax-sheltered annuity treatment. It was determined these conditions would not be within the ambit of actuarial services, regardless of certain actuarial aspects of the annuities. The calculation of an excludable amount under Section 403(b)(2)(A) was a part of the Internal Revenue Code before ERISA and has been treated as a matter that does not necessarily require an enrolled actuary's expertise. Hence, there is insufficient justification to bring all provisions of Section 403(b) within limited practice rules.

(2) Several comments recommended that the regulations include Section 410 (minimum participation standards), Section 411 (minimum vesting standards), and Section 415 (limitations on benefits and contributions under qualified plans) of the Internal Revenue Code.

These recommendations were not adopted because these Sections are already incorporated by reference in Section 401(a), a Section under which the proposed regulations would permit enrolled actuaries to practice. Since issues arising under Sections 410, 411, and 415 come under Section 401(a), the Department does not believe any amendment is required.

(3) Two comments recommended that the regulations include Section 501 of the Internal Revenue Code (exemption from tax on corporations, certain trusts, etc.). In addition, one comment recommended inclusion of Section 503 (denial of tax exemption for certain tax-exempt entities including qualified employee benefit plans which engage in prohibited transactions), and one comment recommended inclusion of Section 4972 (taxes on excess contributions for self-employed individuals) to the extent it deals with excess contributions under defined benefit plans. Section 501(a), in part, provides for tax-exempt status for plans qualified under Section 401(g); thus, this provision of Section 501 is already included in the enrolled actuaries' proposed limited practice area. Other provisions of Section 501 are

JA 24 79 UMI

V 4 4 / 1 7

concerned with the tax-exempt status of non-profit organizations and non-retirement employee benefit trusts, and are not particularly within an enrolled actuary's expertise. Similarly, Sections 503 and 4972 involve substantive areas that are not within the ambit of an enrolled actuary's expertise. The recommendations therefore were not adopted.

(4) Several comments recommended inclusion of Sections 6057, 6058, 6059, and 6692 of the Internal Revenue Code. These provisions concern reporting requirements and related penalties generally applicable to plan administrators. The Department agrees that these reporting requirements may involve actuarial computations. It is appropriate, therefore, that an enrolled actuary's practice include matters concerning the assessment of penalties against a plan administrator for failure to file accurate information. Accordingly, these provisions have been included in the final rule. In addition, Sections 6652 (e) and (f), which provide penalties for failure to comply with Sections 6057 and 6058, have been added to the regulations.

DRAFTING INFORMATION

The principal author of this amendment is Mr. Leslie S. Shapiro, Director of Practice, Office of the General Counsel, Department of the Treasury and members of his staff. Personnel from other offices of the General Counsel and from the Internal Revenue Service also participated in developing this amendment.

AUTHORITY

This amendment is adopted under the authority of: Sec. 3, 23 Stat. 258, secs. 2-12, 60 Stat. 237 et seq.; 5 U.S.C. 301, 500, 551-559, 31 U.S.C. 1026, Reorg. Plan No. 26 of 1950, 15 FR 4935, 64 Stat. 1280, 3 CFR, 1949-1953 Comp., except as otherwise noted.

Accordingly, 31 CFR Part 10 is amended to read as follows:

§ 10.3 [Amended]

1. Section 10.3 is amended as follows:

(a) By redesignating present paragraphs (d), (e) and (f) as paragraphs (e), (f) and (g) respectively;

(b) By adding a new paragraph (d), as follows:

* * * * *

(d) *Enrolled Actuaries.* (1) Any individual who is enrolled as an actuary by the Joint Board for the Enrollment of Actuaries pursuant to 29 U.S.C. 1242 may practice before the Internal Revenue Service upon filing with the Service a written declaration that he/she is currently qualified as an enrolled actuary and is authorized to represent the particular party on whose behalf he/she acts. Practice as an enrolled actuary is limited to representation with respect to issues involving the following statuatory provisions.

Internal Revenue Code (Title 26 U.S.C.) sections: 401 (qualification of employee plans), 403(a) (relating to whether an annuity plan meets the requirements of section 404(a)(2)), 404 (deductibility of employer contributions), 405 (qualification of bond purchase plans), 412 (funding requirements for certain employee plans), 413 (application of qualification requirements to collectively bargained plans and to plans maintained by more than one employer), 414 (containing definitions and special rules relating to the employee plan area), 4971 (relating to excise taxes payable as a result of an accumulated funding deficiency under section 412), 6057 (annual registration of plans), 6058 (information required in connection with certain plans of deferred compensation), 6059 (periodic report of actuary), 6652(e) (failure to file annual regustration and other notifications by pension plan), 6652(f) (failure to file information required in connection with certain plans of deferred compensation), 6692 (failure to file acuarial report), 7805(b) (relating to the extent, if any, to which an Internal Revenue Service ruling or determination letter coming under the herein listed statutory provisions shall be applied without retroactive effect); and 29 U.S.C. 1083 (relating to waiver of funding for nonqualified plans).

(2) An individual who practices before the Internal Revenue Service pursuant to this subsection shall be subject to the provisions of this part in the same manner as attorneys, certified public accountants and enrolled agents.

2. Section 10.51(g) is amended to include an actuary within the ambit of those covered, as follows:

§ 10.51 Disreputable conduct

* * * * *

(g) Disbarment or suspension from practice as an attorney, certified public accountant, public accountant, or actuary by any duly constituted authority of any State, possession, territory, Commonwealth, the District of Columbia, any Federal court of record, or any Federal agency, body or board.

* * * * *

NOTE.—The Department of the Treasury has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: January 17, 1979.

ROBERT H. MUNDHEIM,
General Counsel,
U.S. Department of the Treasury.

Title 32—National Defense

CHAPTER I—OFFICE OF THE SECRETARY OF DEFENSE

SUBCHAPTER R—CHARTERS

[DoD Directive 5129.1]

PART 351—UNDER SECRETARY OF DEFENSE FOR RESEARCH AND ENGINEERING

AGENCY: Office of the Secretary of Defense.

ACTION: Final Rule—Revision of DoD Charter Directive 5129.1.[1]

SUMMARY: The Secretary of Defense has changed the title of the Director for Research and Engineering to the Under Secretary of Defense for Research and Engineering and has revised the charter, adding responsibilities and realigning relationships and authorities with other OSD and Defense components. This will effect a more efficient OSD command structure in that it reduces the Secretary's span of control.

EFFECTIVE DATE: November 29, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Arthur H. Ehlers, Director for Organizational and Management Planning, Office of the Deputy Assistant Secretary of Defense (Administration), Washington, D.C. 20301, Telephone 202-695-4278.

SUPPLEMENTARY INFORMATION: This information is submitted in compliance with the requirements of section 552(a)(1) of Title 5, United States Code, and Recommendation 76-2 of the Administrative Conference of the United States.

Accordingly, Part 351 of Chapter I, 32 CFR is revised to read as follows:

Sec.
351.1 Purpose.
351.2 Responsibilities.
351.3 Functions.
351.4 Relationships.
351.5 Authorities.

AUTHORITY: 10 U.S.C. Chapter 4.

§ 351.1 Purpose.

Pursuant to the authority vested in the Secretary of Defense under the provisions of title 10, United States Code, the Under Secretary of Defense for Research and Engineering (hereafter "the USDRE") is hereby assigned responsibilities, functions, and authorities as prescribed herein.

§ 351.2 Responsibilities.

The USDRE is the principal adviser and assistant to the Secretary of Defense for Department of Defense scientific and technical matters; basic and applied research; environmental services; and the development and acquisition of weapon systems. The USDRE is also the Defense Acquisition Executive with responsibilities prescribed in DoD Directive 5000.30,[1] "Defense Acquisition Executive," August 20, 1976. For each assigned area the USDRE shall:

(a) Conduct analyses, develop policies, provide advice, make recommendations, and issue guidance on Defense plans and programs.

(b) Develop systems and standards for the administration and management of approved plans and programs.

(c) Initiate programs, actions, and taskings to ensure adherence to DoD policies and national security objectives; and to ensure that programs are designed to accommodate operational requirements.

(d) Review and evaluate programs for carrying out approved policies and standards.

(e) Inform appropriate organizations and personnel of new and significant scientific trends or initiatives.

(f) In conjunction with the Assistant Secretary of Defense (Comptroller), review proposed resource programs, formulate budget estimates, recommend resource allocations, and monitor the implementation of approved programs.

(g) Participate in those planning, programing, and budgeting activities which relate to USDRE responsibilities.

(h) Review and evaluate recommendations on requirements and priorities.

(i) Promote coordination, cooperation, and mutual understanding within the Department of Defense and between the DoD and other Federal agencies and the civilian community.

(j) Serve on boards, committees, and other groups pertaining to the USDRE's functional areas, and represent the Secretary of Defense on USDRE matters outside the Department of Defense.

(k) Perform such other duties as the Secretary of Defense may from time to time prescribe.

§ 351.3 Functions.

The USDRE shall carry out the responsibilities described in § 351.2 for the following functional areas:

(a) Scientific and technical information.

(b) Basic and applied research.

(c) Design and engineering, including life-cycle considerations.

(d) Development and acquisition of weapon systems, including procurement policy and production planning.

(e) Test and evaluation in accordance with DoD Directive 5000.3, "Test and Evaluation," April 11, 1978, to include review and approval of the T&E Master Plan (TEMP).

(f) Environmental services.

(g) Assignment and reassignment of research and engineering and acquisition responsibility for systems, activities, and programs.

(h) Coproduction and research interchange with friendly and allied nations, in conjunction with the Under Secretary of Defense for Policy.

(i) Contract placement and administration for research, development and weapon systems acquisition programs.

(j) Such other areas as the Secretary of Defense may from time to time prescribe.

§ 351.4 Relationships.

(a) In the performance of the duties, the USDRE shall:

(1) Exercise direction, control and authority over:

(i) The Assistant Secretary of Defense (Communications, Command, Control, and Intelligence), who shall also serve as the Principal Deputy Under Secretary of Defense for Research and Engineering;

(ii) The Assistant to the Secretary of Defense (Atomic Energy);

(iii) The Defense Advanced Research Projects Agency, the Defense Mapping Agency, the Defense Nuclear Agency, and, through the Assistant Secretary of Defense (Communications, Command, Control, and Intelligence), the Defense Communications Agency.

(2) Exercise, through the Assistant Secretary of Defense (Communications, Command, Control, and Intelligence), staff supervision on resource management matters over:

(i) The Defense Communications Agency, Defense Intelligence Agency, and National Security Agency;

(ii) Air Force and Navy special intelligence programs;

(iii) Defense communications and intelligence functions retained by the Military Departments.

(3) Coordinate and exchange information with other DoD organizations having collateral or related functions.

(4) Use existing facilities and services, whenever practicable, to achieve maximum efficiency and economy.

(b) All DoD organizations shall coordinate all matters concerning the functions cited in § 351.3 with the USDRE.

§ 351.5 Authorities.

The USDRE is hereby delegated authority to:

(a) Issue DoD Instructions and one-time directive-type memoranda which carry out policies approved by the Secretary of Defense, in assigned fields of responsibility as prescribed in DoD Directive 5025.1, "Department of Defense Directives System," November 18, 1977. Instructions to the Military Departments will be issued through the Secretaries of those Departments or their designees. Instructions to Unified and Specified Commands will be issued through the Joint Chiefs of Staff.

(b) Obtain such reports, information, advice, and assistance, consistent with the policies and criteria of DoD Directive 5000.19, "Policies for the Management and Control of Information Requirements," March 12, 1976 as the USDRE deems necessary.

(c) Communicate directly with heads of DoD organizations, including the Secretaries of the Military Departments, the Joint Chiefs of Staff, the Directors of Defense Agencies, and, through the Joint Chiefs of Staff, the Commanders of Unified and Specified Commands.

(d) Establish arrangements for DoD participation in those nondefense governmental programs for which the USDRE has been assigned primary cognizance.

(e) Approve, modify or disapprove research and development, environmental services and acquisition programs and projects of the Military Departments and other Department of Defense agencies in assigned fields.

(f) Communicate with other Government agencies, representatives of the legislative branch, and members of the public, as appropriate, in carrying out assigned functions.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

[FRL 1043-1]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Comprehensive Document Availability

AGENCY: Environmental Protection Agency.

ACTION: Notice of Availability of State Implementation Plan Documents.

SUMMARY: In compliance with Section 110(h) of the Clean Air Act, this action announces the availability of the comprehensive documents setting forth all requirements of each State's applicable implementation plan. Anyone wishing to submit comments regarding these documents or requiring more detailed information on any of the regulations contained therein should direct them to the appropriate Environmental Protection Agency (EPA) Regional Office. The address and area of responsibility for each Regional Office are presented elsewhere in this notice.

EFFECTIVE DATE: January 24, 1979.

ADDRESS: The comprehensive State Implementation Plan (SIP) documents are available for a nominal fee from the National Technical Information Service, U.S. Department of Commerce, 5285 Port Royal Road, Springfield, Virginia 22161. All requests should refer to the comprehensive document by the EPA document numbers listed below.

State	EPA Document No.
Alabama	EPA-450/3-78-050
Alaska	EPA-450/3-78-051
Arizona	EPA-450/3-78-052

Furthermore, the comprehensive SIP documents will be available for public inspection during normal business hours at the EPA Regional Offices, but for only those States or territories for which that office has jurisdiction. The address and area of responsibility for each Regional Office are as follows:

REGION I (Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont), John F. Kennedy Federal Building, Room 2303, Boston, Massachusetts 02203.
REGION II (New Jersey, New York, Puerto Rico, Virgin Islands), Federal Office Building, 26 Federal Plaza, New York, New York 10007.
REGION III (Delaware, District of Columbia, Maryland, Pennsylvania, Virginia, West Virginia), Curtis Building, Sixth and Walnut Streets, Philadelphia, Pennsylvania 19106.
REGION IV (Alabama, Florida, Georgia, Mississippi, Kentucky, North Carolina, South Carolina, and Tennessee), 345 Courtland, N.E., Atlanta, Georgia 30308.
REGION V (Illinois, Indiana, Michigan, Minnesota, Ohio, Wisconsin), 230 South Dearborn, Chicago, Illinois 60604.
REGION VI (Arkansas, Louisiana, New Mexico, Oklahoma, Texas), First International Building, 1201 Elm Street, Dallas, Texas 75270.
REGION VII (Iowa, Kansas, Missouri, Nebraska), 1735 Baltimore Avenue, Kansas City, Missouri 64108.
REGION VIII (Colorado, Montana, North Dakota, South Dakota, Utah, Wyoming), 1860 Lincoln Street, Denver, Colorado 80295.
REGION IX (Arizona, California, Hawaii, Nevada, Guam, American Samoa, Northern Mariana Islands), 215 Fremont Street, San Francisco, California 94105.
REGION X (Washington, Oregon, Idaho, Alaska), 1200 Sixth Avenue, Seattle, Washington 98101.

FOR FURTHER INFORMATION CONTACT:

Robert M. Scheli, EPA, Chief Plans Analysis Section (MD-15), Research Triangle Park, NC 27711, phone 919-541-5365 (FTS: 629-5365).

SUPPLEMENTARY INFORMATION: Section 110 of the Clean Air Act requires each State to adopt and to submit to the Administrator a plan which provides for the implementation, maintenance, and enforcement of the national ambient air quality standards (NAAQS) promulgated under Section 109 for any air pollutant. These plans are called State Implementation Plans (SIPs).

SIPs are dynamic in nature and are continuously being revised due to modifications and additions to State and local air pollution control programs. Furthermore, amendments to the Clean Air Act and revisions of the NAAQS, also necessitate revisions to the SIPs. The States are required to submit such SIP revisions to the Administrator for approval. After submittal to the Administrator, the SIP revisions are approved or disapproved in the FEDERAL REGISTER and codified under Part 52 of Title 40 of the Code of Federal Regulations (40 CFR Part 52).

In 40 CFR Part 52, a subpart has been designated for each State. All regulations promulgated by EPA under Section 110(c) of the Clean Air Act are printed in their entirety in Part 52. However, the State's own regulation submittals which EPA approves (or disapproves) under Section 110(a) do not appear in Part 52 because of the voluminous nature of the SIPs and the revisions thereto; these regulations are incorporated by reference into Part 52, however. State submitted regulations are briefly described in Part 52 under the "Identification of Plan" section for each State subpart and are generally referenced by the date of submittal to EPA. The complete texts of the State submissions listed in each "Identification of Plan" Section are available to the public at EPA headquarters in Washington, D.C., the appropriate Regional Office, and the appropriate State air pollution control agency.

The texts available at the above three locations consist of every submission listed in the "Identification of Plan" Section and do not distinguish whether the revision was disapproved or approved by EPA. It is necessary to go to each State's subpart under Part 52 to determine whether a regulation was approved or disapproved. Also, these State submissions vary widely in their organization, content, and language and are not available in a standard format, nor is it clear in many cases what portion of the SIP the revisions affect. This makes it difficult for routine usage and for interstate and intrastate comparison of SIP regulations.

Section 110(h) of the Clean Air Act requires that the Administrator assemble and publish a comprehensive document for each State setting forth the regulatory portions of each implementation plan. The purpose of this notice is to announce the availability of these documents. The Federally enforceable regulations have been compiled for 55 States and territories. The compilation for the Northern Mariana Islands which was recently included under the purview of the Clean Air Act will be prepared at a future date. The documents consist of the following, both as of January 1, 1978: (1) The Federally approved State and/or local air quality regulations; and (2) the Federally promulgated regulations for the State. As mandated by Congress, this document will be updated annually at a minimum, and will reflect any changes in the status of the SIP since January 1, 1978. Some of the documents updated since the date of this publication are expected to be available in the very near future.

Since State air quality regulations vary widely in their organization, content, and language, a standardized subject index is utilized in this document. Index listings consist of both pollutant and activity oriented categories to facilitate usage. For example, for regulations which apply to copper smelters, one might look under sulfur compounds, particulate matter process weight, or copper smelters. Federal regulations pertaining to a given State immediately follow the approved State and local regulations. The standard subject index will facilitate interstate and intrastate comparisons of the regulations and routine usage of the SIPs. Only the Federally promulgated and Federally *approved* State submitted regulations are documented. This negates the need to check Part 52 for the approval/disapproval status of a State submitted revision.

The standardized documentation of the regulatory portions of the SIPs provides EPA with a more efficient system for tracking SIP provisions. In addition, it provides the public with an up-to-date, organized compilation of Federally approved State air pollution regulations.

Dated: January 9, 1979.

DAVID S. HAWKINS,
Assistant Administrator for Air, Noise, and Radiation.

[6560-01-M]

[FRL 1034-1]

PART 65—DELAYED COMPLIANCE ORDERS

Delayed Compliance Order for Chrysler Casting Corp., Fostoria Foundry Division, Fostoria, Ohio

AGENCY: U.S. Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: By this rule, the Administrator of U.S. EPA approves a Delayed Compliance Order to Chrysler Casting Corporation, Fostoria Foundry Division. The Order requires the Company to bring air emissions from its three gray iron pouring lines at Fostoria, Ohio, into compliance with certain regulations contained in the federally approved Ohio State Implementation Plan (SIP). Chrysler Casting Corporation, Fostoria Foundry Division's compliance with the Order will preclude suits under the Federal enforcement and citizen suit provisions of the Clean Air Act (the Act) for violations of the SIP regulations covered in the Order.

DATES: This rule takes effect January 24, 1979.

FOR FURTHER INFORMATION CONTACT:

Arthur E. Smith, Jr., Attorney, United States Environmental Protection Agency, Region V, 230 South Dearborn Street, Chicago, Illinois 60604, Telephone: (312) 353-2082.

SUPPLEMENTARY INFORMATION: On September 25, 1975, the Acting Regional Administrator of U.S. EPA's Region V Office, published in the FEDERAL REGISTER (43 FR 43334), a notice setting out the provisions of a proposed State Delayed Compliance Order for Chrysler Casting Corporation, Fostoria Foundry Division. The notice asked for public comments and offered the opportunity to request a public hearing on the proposed Order. No public comments and no request for a public hearing were received in response to the proposed notice.

Therefore, a Delayed Compliance Order effective this date is approved to Chrysler Casting Corporation, Fostoria Foundry Division, by the Administrator of U.S. EPA pursuant to the authority of Section 113(d)(2) of the Clean Air Act, 42 U.S.C. 7413(d)(2). The Order places the Company on a schedule to bring its three gray iron pouring lines at Fostoria, Ohio, into compliance as expeditiously as practicable with Regulation OAC 3745-17-11(B)(5), a part of the federally approved Ohio State Implementation Plan. Chrysler Casting Corporation, Fostoria Foundry Division, is unable to immediately comply with these regulations. The Order also imposes interim requirements which meet Sections 113(d)(1)(C) and 113(d)(7) of the Act, and emission monitoring and reporting requirements. If the conditions of the Order are met, it will permit the Company to delay compliance with the SIP regulations covered by the order until June 30, 1979.

Compliance with the Order by Chrysler Casting Corporation, Fostoria Foundry Division, will preclude Federal enforcement action under Section 113 of the Act for violations of the SIP regulations covered by the Order. Citizen suits under Section 304 of the Act to enforce against the source are similarly precluded. Enforcement may be initiated, however, for violations of the terms of the Order, and for violations of the regulations covered by the Order which occurred before the Order was issued by U.S. EPA or after the Order is terminated. If the Administrator determines that the Company is in violation of a requirement contained in the order, one or more of the actions required by Section 113(d)(9) of the Act will be initiated. Publication of this notice of final rulemaking constitutes final Agency action for the purposes of judicial review under Section 307(b) of the Act.

U.S. EPA has determined that the Order shall be effective January 24, 1979 because of the need to immediately place Chrysler Casting Corporation, Fostoria Foundry Division, on a schedule for compliance with the Ohio State Implementation Plan.

(42 U.S.C. 7413(d), 7601)

Dated: January 18, 1979.

DOUGLAS M. COSTLE,
Administrator.

In consideration of the foregoing, Chapter I of Title 40 of the Code of Federal Regulations is amended as follows:

PART 65—DELAYED COMPLIANCE ORDERS

1. By adding the following entry to the table in § 65.401 to read as follows:

§ 65.401 U.S. EPA Approval of State Delayed Compliance Orders Issued to major stationary sources.

The State Order identified below has been approved by the Administrator in accordance with Section 113(d)(2) of the Act and with this part. With regard to this Order, the Administrator has made all the determinations and findings which are necessary for approval of the Order under Section 113(d) of the Act.

Source	Location	Date of FR proposal	SIP regulation involved	Final compliance date
Chrysler Casting Corp., Fostoria Foundry Division.	Fostoria, Ohio	Sept. 25, 1978	OAC 3745-17-11(B)(5)	June 30, 1979

Title 41—Public Contracts and Property Management

CHAPTER 101—FEDERAL PROPERTY MANAGEMENT REGULATIONS

SUBCHAPTER B—ARCHIVES AND RECORDS

[FPMR Temporary Reg. B-2]

APPENDIX—TEMPORARY REGULATIONS

Applicability of the General Records Schedules (GRS)

AGENCY: National Archives and Records Service (NARS), General Services Administration.

ACTION: Temporary regulation.

SUMMARY: This regulation requires mandatory application of the General Records Schedules (GRS). The GRS prescribe retention periods for records common to several or all Federal agencies. The regulation directs agencies to notify NARS of any agency records disposition instructions which deviate from the GRS and to request authority to supersede the GRS if the records must be maintained for a longer period than provided in the GRS. The intent of this regulation is to ensure that agencies do not retain records unnecessarily.

DATES: Effective date: January 24, 1979. Expiration date: September 30, 1980.

ADDRESS: General Services Administration (NCD), Washington, DC 20408.

FOR FURTHER INFORMATION CONTACT:

Thomas W. Wadlow, Records Disposition Division, (202-724-1625).

SUPPLEMENTARY INFORMATION: The General Services Administration has determined that this regulation will not impose unnecessary burdens on the economy or on individuals and, therefore, is not significant for the purposes of Executive Order 12044.

(Sec. 205(c), 63 Stat. 390; (40 U.S.C. 486(c)))

In 41 CFR Chapter 101, the following temporary regulation is added to the appendix at the end of Subchapter B to read as follows:

[Federal Property Management Reg.: Temporary Reg. B-2]

APPLICABILITY OF THE GENERAL RECORDS SCHEDULES (GRS)

1. *Purpose.* This regulation informs agencies that the General Records Schedules (GRS) are now mandatory.

2. *Effective date.* This regulation is effective January 19, 1979.

3. *Expiration date.* This regulation expires September 30, 1980, unless sooner revised or superseded.

4. *Background.* a. Federal law (44 U.S.C. 3303a(d)) authorizes the Administrator of General Services to issue General Records Schedules (GRS) to provide minimum records retention standards for records common to several or all Federal agencies. These schedules were permissive. Agencies which desired a shorter retention period for any of the records described in the GRS were required to submit a Standard Form (SF) 115, Request for Records Disposition Authority, following procedures prescribed by § 101-11.406, and to justify the shorter retention period.

b. On October 10, 1978, the President approved Pub. L. 95-440 that amended subsection 3303a(d) of title 44, United States Code, "• • • to require mandatory application of the General Records Schedules to all Federal agencies and to resolve conflicts between authorizations for disposal • • •." Under this law, the GRS are now mandatory, but any shorter retention period which has been approved for agencies' records by the Archivist of the United States will override the GRS provision.

Effect on agency schedules. Any item on an agency records schedule approved by the National Archives and Records Service (NARS) before October 10, 1978, which authorizes a shorter retention period than that provided for in the GRS shall take precedence. However, the GRS retention standards must now be applied to all other Federal records described therein, even if the agency has scheduled some records for a longer period than that specified in the GRS. The new law cancels any schedule or other records disposition instruction, whether or not it was approved by NARS, authorizing the retention of Federal records for periods longer than those prescribed by the GRS.

6. *Agency action.* a. By January 1, 1980, agencies shall inform the Office of Federal Records Centers (mailing address: General Services Administration (NCD), Washington, D.C. 20408) of any disposition instructions they have promulgated which deviate from the GRS.

(1) Agencies which have received authority from NARS to apply shorter retention periods shall submit the following information: Records series description, approved disposition instruction, and the NARS job and item numbers and/or agency printed manual and item numbers.

(2) Since the GRS now supersedes any authority to retain the records scheduled therein for periods longer than those specified in the GRS, agencies which have scheduled records for periods longer than those provided in the GRS shall, if they wish to continue to maintain those records for the longer period, submit an SF 115 to request authority to supersede the GRS. Approval of such requests will be contingent on the strength of the agency's justification for the deviation.

b. On a continuing basis, as a result of new GRS items or a reevaluation of agency needs, agencies wishing to deviate from the published GRS disposition standards for any series of records shall submit an SF 115. The SF 115 shall include the following information: GRS number and item number; agency schedule and item number, if any; and, if a shorter retention period is requested, a concurrence statement from any other Federal agency (such as the General Accounting Office or the Office of Personnel Management) which has an interest in the disposition of the records.

7. *NARS action.* In order to facilitate the application of the GRS to Federal records, the Records Disposition Division of the Office of Federal Records Centers is developing a training session which will be open to all Federal employees. Details on the presentation of these sessions will be announced in a GSA bulletin.

8. *Availability of the GRS.* The current and future editions of the GRS will be available from General Services Administration (NC), Washington, D.C. 20408, at no cost for a reasonable number of copies.

9. *Effect on other directives.* This regulation modifies the provisions of §§ 101-11.403-2(b) and 101-11.404-1(d).

Dated: January 11, 1979.

JAY SOLOMON,
Administrator of General Services.

Title 49—Transportation

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 74-7; Notice 4]

PART 573—DEFECT AND NONCOMPLIANCE REPORTS

Equipment Manufacturers' Delay of Effective Date

AGENCY: National Highway Traffic Safety Administration (NHTSA).

ACTION: Delay of effective date.

SUMMARY: This notice amends the effective date for the implementation of amendments to Part 573, *Defect and Noncompliance Reports*, extending its application to equipment manufacturers. The final rule on the Part 573 amendment was published on December 26, 1978, (43 FR 60165) and established an effective date of January 25, 1979. This effective date has proven, however, insufficient to complete the process of interdepartmental review of the amendment. Further, some equipment manufacturers may wish to petition for reconsideration of the amendment. Since such petitions can be received up to 30 days after publication of the regulation in the FEDERAL REGISTER and since this regulation is scheduled to become effective 30 days after publication, there may be insufficient time before that date to consider fully petitions, if any are received. For these reasons, the NHTSA extends the effective date to March 1, 1979.

This amendment is being adopted without notice and public procedure because of the impending effective date of the Part 573 amendments. Since the amendment will otherwise become effective on January 25, the agency concludes that notice and public procedure are impracticable and not in the public interest.

EFFECTIVE DATE: This amendment is effective immediately changing the December 26, 1978, FEDERAL REGISTER notice to state that Part 573 is effective on March 1, 1979.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Third Revised Service Order No. 1315]

PART 1033—CAR SERVICE

Decision on Demurrage and Free Time on Freight Cars

AGENCY: Interstate Commerce Commission.

ACTION: Emergency Order. Third Revised Service Order No. 1315.

SUMMARY: Third Revised Service Order No. 1315 establishes minimum periods for the detention of cars by shippers and receivers free of demurrage and increases demurrage charges for cars held beyond the free time. Class X—Boxcar type and Class H—Hopper Car type are removed from the order, and the expiration time is extended two months.

DATES: Effective 7:00 a.m., February 1, 1979. Expires 6:59 a.m., April 1, 1979.

FOR FURTHER INFORMATION CONTACT:

Charles C. Robinson, Chief, Utilization and Distribution Branch, Interstate Commerce Commission, Washington, D.C. 20423, telephone (202) 275-7840, telex 89-2742.

SUPPLEMENTARY INFORMATION: Decided on January 18, 1979. The Order is printed in full below.

An acute shortage of certain types of freight cars exists throughout the country. Certain carriers are unable to furnish adequate supplies of such freight cars to shippers located on their lines. These shortages of freight cars are impeding the movement of many commodities. Many freight cars are held by shippers for excessive periods awaiting loading, unloading, or disposition instructions immobilizing large numbers of freight cars needed by shippers for the transportation of other freight. Existing demurrage and detention rules, regulations, and practices of the railroads are ineffective to control such use of freight cars. It is, therefore, the opinion of the Commission that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, we find that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered,

§ 1033.1315 Demurrage and free time on freight cars.

(a) Each common carrier by railroad subject to the Interstate Commerce Act shall observe, enforce, and obey the following rules, regulations, and practices with respect to its car service:

(1) *Application:*

(i) The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

(ii) This order shall apply to all freight cars which are listed in the Official Railway Equipment Register, I.C.C. R.E.R. No. 409, issued by W. J. Trezise, or successive issues thereof, as having one of the mechanical designations shown on pages 1260-1262 inclusive, under the following headings:

"Class 'L'-Special Car Type" mechanical designation 'LO', covered hopper, only.[1]

(iii) This order shall apply to all detention of freight cars subject to freight car demurrage or detention rules which occurs on or after the effective date of this order and which may have been shipped, placed or constructively placed prior to that date.

(iv) *Exception:*

This order shall not apply to cars while such cars are subject to Section 1900, Items 1900-1950, inclusive, or to Section 2000, Items 2000-2005, inclusive, of General Car Demurrage Tariff 4-K, I.C.C. H-74, issued by D. M. Rogers, supplements thereto or reissues thereof.

(v) *Exception:*

This order shall not apply to cars held at or outside of ocean, Great Lakes, or river ports, for loading or unloading with freight requiring transfer between rail and water carriers.

(vi) *Exception:*

This order shall not apply to freight cars of Mexican ownership while held by or for shippers at Mexican border crossings, viz:

Brownsville, Texas; Laredo, Texas; Eagle Pass, Texas; Presidio, Texas; El Paso, Texas; Douglas, Arizona; Nogales, Arizona; Calexico, California

(vii) *Exception:*

This order shall not apply to cars subject to items 710, 720, 725, 730, 740, 750, 755, 760, or 765 or General Car Demurrage Tariff 4-K, I.C.C. H-74, issued by D. M. Rogers, supplements thereto or reissue thereof.

[1] Class "X" boxcar type and Class "H" hopper car type eliminated.

V 4 4 / 1 7

(viii) *Exception:*

The provisions of Section 1400, Items 1400-1440, inclusive, of General Car Demurrage Tariff 4-K, I.C.C. H-74, issued by D. M. Rogers, supplements thereto or reissues thereof, or similar provisions of other applicable demurrage, detention, or storage tariffs shall govern the adjustment, cancellation, or refund of demurrage assessed as a result of the causes described in such rules.

(ix) *Exception:*

Exceptions to this order may be authorized to carriers by the Railroad Service Board. Requests for exceptions must be submitted in writing to Chairman, Railroad Service Board, Interstate Commerce Commission, Washington, D.C. 20423. Each such request must specifically identify the type of cars for which an exception is desired and must clearly state the reasons why such cars cannot be utilized in other services.

(x) The terms "loading," "unloading," "constructive placement," and "forwarding directions" as defined in General Car Demurrage Tariff 4-K, I.C.C. H-74, issued by D. M. Rogers, supplements thereto or reissues thereof, shall apply to cars subject to this order.

(xi) The term "holidays" means holidays as listed in Item 525 of General Car Demurrage Tariff 4-K, I.C.C. H-74, issued by D. M. Rogers, supplements thereto or reissues thereof.

(2) *Free Time:*

(i) Not more than a total of 48 hours' free time, computed in accordance with the provisions of the applicable tariffs naming demurrage or detention rules and charges, shall be allowed for the complete unloading of each car.

(ii) Not more than a total of 24 hours' free time, computed in accordance with the applicable tariffs naming demurrage or detention rules and charges, shall be allowed for loading or for any purpose other than complete unloading.

(iii) If the maximum free time authorized in applicable tariffs is less than the periods described in paragraphs (i) or (ii) of this section, the free-time periods, if any, provided in such tariffs shall apply.

(3) *Demurrage, Detention, or Storage Charges—Cars Not Subject to Average Demurrage Basis:*

(i) After the expiration of the free-time period described in Part (2) of this Order, or without free-time allowance when none is provided, demurrage charges shall be assessed at the following rates, until car is released:

$10.00 per car per day, or fraction of a day, for each of the first two days
$20.00 per car per day, or fraction of a day, for each of the next two days.
$30.00 per car per day, or fraction of a day, for each of the next two days
$50.00 per car day, or fraction of a day, for each subsequent day

(ii) Except as provided in Item 1225, General Car Demurrage Tariff 4-K, I.C.C. H-74, the applicable demurrage charges provided herein will accrue on all Saturdays, Sundays, and holidays subsequent to the free time, or without free time when none is provided, including a Saturday, Sunday, or holiday immediately following the day on which the last day of free time begins, provided such last day of free time begins to run at or before 7:00 a.m., or expires at or before 11:59 p.m., of the day immediately prior to the Saturday, Sunday, or holiday.

(iii) If the demurrage rates published in applicable tariffs is greater than the demurrage rates named in paragraph (i) of this section, the rates provided in such tariffs shall apply.

(4) *Cars Subject to Average Demurrage Basis:*

(i) One credit will be allowed for each car released before the expiration of the first twenty-four (24) hours of free time. After the expiration of the free time (or the adjusted free time if provided in applicable tariffs), one debit per car per day, or fraction of a day, will be charged for each of the first two days. In no case shall more than one credit be allowed on any one car, and in no case shall more than four credits be applied in cancellation of debits accruing on any one car. When a car has accrued two debits, a charge of $20.00 per car per day, or fraction of a day, will be made for each of the next two days; $30.00 per car day, will be made for each of the next two days; and $50.00 per car per day, or fraction of a day, will be made for all subsequent detention. In computing time under this rule, all Saturdays, Sundays, and holidays will be counted after the free time, including a Saturday, Sunday, or holiday immediately following the day on which the last day of free time begins.

(ii) Credits earned on cars held for loading shall not be used in offsetting debits accruing on cars held for unloading, nor shall credits earned on cars held for unloading be used in offsetting debits accruing on cars held for loading.

(iii) An average agreement may not include cars held for:

(a) Purposes other then loading and unloading

(b) Loading or unloading in intraplant switching service.

(iv) Credits cannot be earned by private cars subject to Section 700, Item 765, of General Car Demurrage Tariff 4-K, I.C.C. H-74, issued by D. M. Rogers, supplements thereto or reissues thereof, or subject to similar rules in other tariffs, but debits charged such cars while under constructive placement may be offset by credits earned on other cars.

(v) At the end of the calendar month the total number of applicable credits will be deducted from the total number of debits at the ratio of two credits for one debit, and $10.00 per debit will be charged for the remainder. (See Note.) If the total number of debits are offset by credits through deduction at the above ratio of two credits for one debit, no charge will be made for the detention of the cars except as otherwise provided herein for detention beyond the second debit day, and no payment will be made by the railroad on account of such excess of credits; nor shall the credits in excess of the debits of any one month be considered in computing the average detention for another month.

NOTE.—For the purpose of applying Part (v) of this paragraph, when an odd number of credits is earned, one of such credits will be disregarded in the computation.

(vi) Credits earned on cars subject to this order shall not be used in offsetting debits accruing on cars not subject to this order; nor shall debits accruing on cars subject to this order be offset by credits earned on cars not subject to this order.

(5) Existing tariff rules requiring the placement or release, as a unit, of all cars in a multiple-car shipment shall remain in effect.

(6) The demurrage, detention, or storage rates provided herein shall supersede all published storage charges expressed in cents per hundredweight, per bushel, or other unit of measure, for all freight held in cars, in excess of the free-time periods provided in Paragraph (2) herein.

(7) If the demurrage, detention, or storage rates authorized in the applicable tariffs are greater than those described herein, such higher rates shall apply.

(8) *Notices of Arrival, Constructive Placement, etc:*

(i) Existing tariff provisions defining constructive placement and establishing the requirements for the placement, the giving of arrival of constructive placement notice of freight destined for unloading or transshipment, shall apply.

(ii) If no such rules with respect to arrival, or regarding constructive placement are published in the applicable tariffs, the rules published in General Car Demurrage Tariff 4-K, I.C.C. H-74, issued by D. M. Rogers, supplements thereto or reissues thereof, shall apply.

(b) *Rules and regulations suspended.* The operation of all rules and regulations, including rates, rules and free-time periods granted by authority of Sections 10721, 10723 and 10724 of the Interstate Commerce Act, insofar as they conflict with the provisions of this order, is hereby suspended.

(c) *Notification of shipper required.*

(1) Carriers shall send or deliver a written notice to shippers or consignees of the requirements of this order at or prior to the time of actual or constructive placement of cars for loading or unloading or at the time notice of arrival or of constructive placement is given. On cars held for instructions from the shipper or qualified owner of the freight, such notices must accompany or precede the arrival notice.

(2) If a notice described in paragraph (1) of this section has been given to a shipper or receiver at origin, destination, or hold point, no further notices of the requirements of this order need be given.

(3) Carriers are required to maintain a copy of all notices of the requirements of this order sent to shippers, receivers, or qualified owners of freight, at the station or point from which sent.

(4) Failure of a carrier to send and preserve copies of the notices required by paragraph (1) of this section shall not be deemed as nullifying the requirements of sections (a) and (b) of this order.

(d) *Effective date.* This order shall become effective at 7:00 a.m., February 1, 1979.

(e) *Expiration date.* This order shall expire at 6:59 a.m., April 1, 1979, unless otherwise modified, changed, or suspended by order of this Commission.

(49 U.S.C. (10304-10305 and 11121-11126).)

This order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement and upon the American Short Line Railroad Association. Notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members Joel E. Burns, Robert S. Turkington, and John R. Michael. Member Joel E. Burns not participating.

H. G. HOMME, Jr.,
Secretary.

[S.O. No. 1352; Amdt. 1]

PART 1033—CAR SERVICE

Chicago and North Western Transportation Co. Authorized to Operate Over Tracks of Chicago, Milwaukee, St. Paul & Pacific Railroad Co. at Fond du Lac, Wis.

AGENCY: Interstate Commerce Commission.

ACTION: Emergency Order, Amendment No. 1 to Service Order No. 1352.

SUMMARY: The lines of the Chicago, Milwaukee, St. Paul and Pacific Railroad Company (MILW) serving Fond du Lac, Wisconsin, are inoperable because of heavy snow at this location, which is depriving industries located adjacent to the MILW tracks at this location of railroad service. Service Order No. 1352 authorized the Chicago and North Western Transportation Company to operate over tracks of the MILW in Fond du Lac in order to restore railroad service to these shippers. The order is printed in full in Volume 44 of the FEDERAL REGISTER at page 3715. Amendment No. 1 extends the order until January 31, 1979.

DATES: Effective 11:59 p.m., January 19, 1979. Expires 11:59 p.m., January 31, 1979.

FOR FURTHER INFORMATION CONTACT:

C. C. Robinson, Chief, Utilization and Distribution Branch, Interstate Commerce Commission, Washington, D.C., 20423, telephone (202) 275-7840, telex 89-2742.

SUPPLEMENTARY INFORMATION: Decided January 19, 1979.

Upon further consideration of Service Order No. 1352 (44 F.R. 3715), and good cause appearing therefor:

It is ordered, That § 1033.1352 Service Order No. 1352 Chicago and North Western Transportation Company authorized to operate over tracks of Chicago, Milwaukee, St. Paul and Pacific Railroad Company at Fond du Lac, Wisconsin is amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Expiration date,* The provisions of this order shall expire at 11:59 p.m., January 31, 1979, unless otherwise modified, changed or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., January 19, 1979.

(49 U.S.C. (10304-10305 and 11121-11126).)

This amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association. Notice of this amendment shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission, at Washington, D.C., and by filing a copy with the Director, Office of the FEDERAL REGISTER.

By the Commission, Railroad Service Board, members Joel E. Burns, Robert S. Turkington and John R. Michael.

H. G. HOMME, Jr.,
Secretary.

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 33—SPORT FISHING

National Wildlife Refuges in Florida, Georgia, and South Carolina

AGENCY: Fish and Wildlife Service.

ACTION: Special regulations.

SUMMARY: The Director has determined that the opening to sport fishing of certain National Wildlife Refuges is compatible with the objectives for which the areas were established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public. These special regulations describe the condition under which sport fishing will be permitted on portions of certain National Wildlife Refuges in Florida, Georgia, and South Carolina.

DATES: Effective on date of publication for duration of calendar year 1979.

FOR FURTHER INFORMATION CONTACT:

The Area Manager or appropriate Refuge Manager at the address or telephone number listed below:

Donald J. Hankla, Area Office Manager, U.S. Fish and Wildlife Service, 900 San Marco Boulevard, Jacksonville, Fla. 32207. Telephone: 904-791-2267.

John P. Davis, Refuge Manager, Savannah (and Blackbeard Island) National Wildlife Refuge, P.O. Box 8487, Savannah, Ga. 31402. Telephone: 912-232-4321, Ext. 415.

Bruce Bilhovde, Refuge Manager, Lake Woodruff National Wildlife Refuge, P.O. Box 488, DeLeon Springs, Fla. 32028. Telephone: 904-

985-4673.

Thomas W. Martin, Refuge Manager, Loxahatchee National Wildlife Refuge, Route 1, Box 278, Boynton Beach, Fla. 33437. Telephone: 305-732-3684.

Stephen Vehrs, Refuge Manager, Merritt Island National Wildlife Refuge, P.O. Box 6504, Titusville, Fla. 32780. Telephone: 305-867-4820.

John R. Eadie, Refuge Manager, Okefenokee National Wildlife Refuge, P.O. Box 117, Waycross, Ga. 31501. Telephone: 912-283-258.

Ronnie L. Shell, Refuge Manager, Piedmont National Wildlife Refuge, Round Oak, Ga. 31080. Telephone: 912-986-5441.

Joe D. White, Refuge Manager, St. Marks National Wildlife Refuge, Box 68, St. Marks, Fla. 32355. Telephone: 904-925-6280.

Martin Perry, Refuge Manager, St. Vincent National Wildlife Refuge, P.O. Box 447, Apalachicola, Fla. 32320. Telephone: 904-653-8808.

SUPPLEMENTARY INFORMATION:

GENERAL

Sport fishing on portions of the following refuges shall be in accordance with applicable State and Federal regulations, subject to additional special regulations and conditions as indicated. Portions of refuges which are open to sport fishing are designated by signs and/or delineated on maps. Special conditions applying to individual refuges and maps are available at refuge headquarters or from the Office of the Area Manager (addresses listed above).

The Refuge Recreation Act of 1962 (16 U.S.C. 460k) authorizes the Secretary of the Interior to administer such areas for public recreation as an appropriate incidental or secondary use only to the extent that it is practicable and not inconsistent with the primary objectives for which the area was established. In addition, the Refuge Recreation Act requires that before any area of the refuge system is used for forms of recreation not directly related to the primary purposes and functions of the area, the Secretary must find that: (1) Such recreational use will not interfere with the primary purposes for which the area was established; and (2) funds are available for the development, operation, and maintenance of the permitted forms of recreation.

The recreational use authorized by these regulations will not interfere with the primary purposes for which these refuges were established. Funds are available for the administration of the recreational activities permitted by these regulations.

§ 33.5 Special regulations; sport fishing for individual wildlife refuge areas.

FLORIDA

LAKE WOODRUFF NATIONAL WILDLIFE REFUGE

Sport fishing on the Lake Woodruff National Wildlife Refuge, DeLeon Springs, Fla. is permitted on approximately 650 acres. The sport fishing season is open year-round on delineated refuge waters west of Norris Dead River, Lake Woodruff, Spring Garden Creek, Highland Park Canal, and the Canal bordering the east side of Norris Dead River. Refuge waters east of Norris Dead River Canal, Lake Woodruff and Spring Garden Creek will be open to fishing and access March 15 to October 15, 1979. Fishing and access on refuge waters are permitted during daylight hours only. Air thrust boats are prohibited.

LOXAHATCHEE NATIONAL WILDLIFE REFUGE

Sport fishing is permitted in all waters (61,352 acres) of the Loxahatchee National Wildlife Refuge, Delray Beach, Fla. except those marked by signs as being closed. All public entry onto the refuge for any purpose is limited to the following points: (a) S-5A (Twenty-Mile Bend) boat ramp; (b) headquarters area; (c) Loxahatchee Recreation Area. Sport fishing is permitted year-round. Fishing is restricted to 1½ hours before sunrise until 1 hour after sunset. Boats must enter or leave the refuge through the three public ramps: (a) S-5A (Twenty-Mile Bend) boat ramp; (b) Headquarters boat ramp; (c) S-39 (Loxahatchee Recreation Area) boat ramps. Method of fishing allowed is with attended rod and reel and/or pole and line. Air thrust boat use is authorized only by special permit issued by the refuge manager. Speed boats and racing craft are prohibited.

MERRITT ISLAND NATIONAL WILDLIFE REFUGE

Fishing is permitted in the open waters of the Indian River, Banana River and Mosquito Lagoon except for the Kennedy Space Center security areas.

No more than 20 total fish daily may be taken from the K.A.R.S. marina in the Banana River or Eddy Creek "trout hole" in Mosquito Lagoon during the period November 15-March 31 annually, by any individual sport fishermen.

Sport fishing is permitted from boats at night by those persons possessing a refuge special use permit.

Boat launching on the refuge for sport fishing between sunset and sunrise is permitted only at Beacon 42 Fish Camp and Bairs Cove. Air thrust boats are not allowed on refuge waters. Coast Guard approved life preservers shall be worn by persons in small craft less than 20 feet in length while these boats are in motion in the Indian River, Banana River, and Mosquito Lagoon within refuge boundaries.

The Refuge will be closed to fishing at certain unannounced times during Space Center operation. Local new sources will provide a security schedule for the Space Center.

ST. MARKS NATIONAL WILDLIFE REFUGE

Sport fishing on the St. Marks National Wildlife Refuge, St. Marks, Fla., is permitted on approximately 50,000 acres. The sport fishing season on the refuge extends from March 15 through October 15, 1979 with the exception of Otter Lake which is open year-round. Fishing is permitted ½ hour before sunrise until ½ hour after sunset during open season. Boats with electric motors and gasoline engines up to and including 4 horsepower are permitted. Trotlines shall be taken up daily prior to closing hours of fishing.

The taking of salt water species in Apalachee Bay and tidal creeks is subject to state regulations. Year-round launching of salt-water fishing boats from the lighthouse launch ramp is regulated. The launching of commercial boats and sport net boats is prohibited.

ST. VINCENT NATIONAL WILDLIFE REFUGE

Sport fishing on the St. Vincent National Wildlife Refuge, Franklin County, Apalachicola, Florida is permitted on 245 acres.

The sport fishing season extends from March 1 through October 30, 1979. Fishermen are permitted on the refuge from 1 hour before sunrise to 1 hour after sunset. Boats with electric motors permitted; all other motors prohibited. Private boats may not be left on the refuge overnight. Use of live minnows as bait is prohibited.

GEORGIA

BLACKBEARD ISLAND NATIONAL WILDLIFE REFUGE

Fresh water sport fishing on the Blackbeard Island National Wildlife Refuge, McIntosh County, Townsend, Georgia, is permitted on only two areas totaling 350 acres. The sport fishing season extends from March 15 through October 25, 1979. No one will be allowed on the refuge before sunrise and all persons must be off the refuge no later than one-half hour after sunset. Boats with electric motors permitted. Gasoline powered motors prohibited. Use of live minnows as bait prohibited. Private boats may not be left on the refuge overnight.

OKEFENOKEE NATIONAL WILDLIFE REFUGE

Sport fishing is permitted on the Okefenokee National Wildlife Refuge, Waycross, Ga. in the designated open water areas connected by established boat runs. Fishing permitted during posted hours only. Boats with motors not larger than 10 horsepower, canoes, and rowboats permitted. Use of live minnows as bait prohibited. Trotlines, limblines, nets and other set tackle prohibited. Persons entering refuge from main access points must register with the respective concessioner. Persons using the sill access ramp on the pocket and Kingfisher Landing access ramp are required to sign the respective registers when they enter the swamp and again when they leave.

PIEDMONT NATIONAL WILDLIFE REFUGE

Sport fishing on the Piedmont National Wildlife Refuge, Round Oak, Georgia is permitted on approximately 81 acres, during daylight hours. Fishing is allowed on the following areas in accordance with all applicable State regulations subject to the following restrictions. Open season: Falling Creek Bridge and Little Falling Creek Bridge—open daily March 12 through September 9, 1979. Pond 2A open May 15 through September 15, 1979, on Tuesdays, Saturdays and National Holidays. Boats allowed, electric motors permitted, all other motors prohibited; Ponds 6A, 11A, and 11B—open May through September 15, 1979, on Tuesdays, Saturdays and National Holidays. No boats allowed; 5 Points Lake open May 15 through September 15, 1979, fishing is permitted daily, no boats allowed; Ponds 21A and 22A—open May 15 through September 15, 1979, on Tuesdays, Saturdays and National Holidays. No boats allowed. Fishing on these two areas is restricted to youths 12 years of age or younger. Boats may not be left on the refuge overnight. No minnows allowed for bait. Littering and alcoholic beverages are prohibited. Fishing shall be with rod and reel and/or pole and line only. Bank fishing permitted within posted areas only.

GEORGIA AND SOUTH CAROLINA

SAVANNAH NATIONAL WILDLIFE REFUGE

Sport fishing on the Savannah National Wildlife Refuge, portions of Jasper County, South Carolina, and Chatham and Effingham Counties, Georgia is permitted only on designated impounded waters, tidal creeks, ditches and canals in an area comprising 26,000 acres. The sport fishing season extends from March 15 through October 25, 1979, for all impounded waters. No one will be allowed on the refuge before sunrise and all persons must be off the refuge no later than one-half hour after sunset. Only electric motors are permitted on impounded waters. Tidal creeks may be fished from boats only from February 1 through October 25. Rod and reel, pole and line, artificial and live baits are permitted. All areas posted with "closed area" signs are closed to all activities including fishing. Private boats may not be left on the refuge overnight.

(Sec. 2, 33 Stat. 614, as amended, sec. 5, 43 Stat. 651, secs. 5, 10, 45 Stat. 449, 1224, secs. 4, 2, 48 Stat. 402, as amended, 451, 1270, sec. 4, 76 Stat. 654; 5 U.S.C. 301, 16 U.S.C. 685, 725, 690d, 715i, 664, 718d, 43 U.S.C. 315a, 16 U.S.C. 460k; sec. 2, 80 Stat. 926; 16 U.S.C. 668bb)

PART 33—SPORT FISHING

Opening of Swan Lake National Wildlife Refuge, Mo., to Sport Fishing

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special Regulation.

SUMMARY: The Director has determined that the opening to sport fishing of Swan Lake National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: March 1, 1979, through September 30, 1979.

FOR FURTHER INFORMATION CONTACT:

Alfred O. Manke, P.O. Box 68, Sumner, Missouri 64681, Telephone—AC816/856-3323.

SUPPLEMENTARY INFORMATION:

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

Sport fishing is permitted on the Swan Lake National Wildlife Refuge, Missouri, only on the areas designated by signs as being open to fishing. These areas comprising 10,500 acres are delineated on maps available at the refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 25486, Denver, Colorado 80225. Sport fishing shall be in accordance with all applicable State regulations subject to the following conditions:

1. During daylight hours only.

2. Boats without motors may be used on Swan Lake, Silver Lake, and that portion of South Lake immediately adjacent to No. 5 Levee.

3. Travel is permitted on all roads except those posted with "Road Closed" signs.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50 Code of Federal Regulations, Part 33. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

(Sec. 2, 33 Stat. 614, as amended, sec. 5, 43 Stat. 651, secs. 5, 10, 45 Stat. 449, 1224, secs. 4, 2, 48 Stat. 402, as amended, 451, 1270, sec. 4, 76 Stat. 654; 5 U.S.C. 301, 16 U.S.C. 685, 725, 690d, 715i, 664, 718d, 43 U.S.C. 315a, 16 U.S.C. 460k; sec. 2, 80 Stat. 926; 16 U.S.C. 668bb)

Dated: January 16, 1979.

Title 13—Business Credit and Assistance

CHAPTER 1—SMALL BUSINESS ADMINISTRATION

[Amendment 7]

PART 124—PROCUREMENT AND TECHNICAL ASSISTANCE

The Section 8(a) Program; Completions and Terminations

AGENCY: SMALL BUSINESS ADMINISTRATION.

ACTION: Final rule.

SUMMARY: As a result of the provisions of Pub. L. 95-507 which amend the Small Business Act, SBA is clarifying the procedures by which SBA will determine 1) that a small business concern participating in its section 8(a) program (procurement and technical assistance for socially and economically disadvantaged) has completed its participation in the program, or 2) that the participation of a small business concern participating in its section 8(a) program should be terminated.

EFFECTIVE DATE: January 24, 1979.

SUPPLEMENTARY INFORMATION: Pursuant to the authority contained in section 8(a)(9) of the Small Business Act, 15 U.S.C. 637(a), as amended, notice is hereby given that SBA amends section 124.8-2(e) of Chapter 1 of Title 13 of the Code of Federal Regulations to read as indicated in the following rules.

Dated: January 22, 1979.

A. VERNON WEAVER,
Administrator.

§ 124.8-2 Procedures.

• • • • •

(e) *Program Completion.* (1) When a section 8(a) business concern has substantially achieved the objectives of the 8(a) program, including but not limited to, the achievement of the goals set forth in its business plan as approved and modified, and the attainment of demonstrated ability to compete in the market place without assistance from 8(a), its participation within the program shall be determined by SBA to be completed.

(2) In determining whether a concern has substantially achieved the goals of its business plan or has attained the ability to compete in the market place without 8(a) assistance, the following factors, among others, shall be considered by SBA. The factors cited above shall be determined with regard to the remedial purposes of the statute.

(i) Positive overall financial trends, including but not limited to:

(A) Profitability

(B) Sales, including improved ratio of non-8(a) sales

(C) Net Worth, financial ratios, working capital, capitalization, access to credit and capital

(D) Ability to obtain bonding

(ii) A comparison of the 8(a) business concern's business and financial profile with profiles of non 8(a) small businesses in the same area or similar business category.

(iii) Management capacity

(3) Upon determination by the SBA that a section 8(a) business concern's participation within the program has been completed pursuant to paragraph 124.1-1(e)(1), above, the section 8(a) business concern shall be afforded an opportunity for a hearing on the record in accordance with chapter 5 of Title 5 of the United States Code, at which hearing it may contest such determination. Such a hearing will be held pursuant to the SBA's Rules of Practice for Adjudicative Proceedings set forth at Part 101.10 et. seq. of SBA rules and regulations.

(4) Subsequent to the completion of such hearing, based upon the record established therein, and after consideration of the recommended decision of the examiner who has conducted the hearing, the AA/MSB&COD shall render a final decision regarding the completion of the section 8(a) business concern's participation in the program. Prior to a final decision, the subject 8(a) business concern may have full rights of participation in the 8(a) program.

(f) *Program Termination.* (1) Participation of a section 8(a) business concern in the program may be terminated by the SBA prior to the completion of the concern's business plan for good cause. Examples of good cause include, but are not limited to, the following:

(i) Failure of the 8(a) business concern to continue to meet the standards of eligibility set forth in these regulations.

(ii) Failure of the 8(a) business concern to maintain its status as a small business concern within the applicable regulations.

(iii) The failure of the section 8(a) business concern to exert reasonable efforts to attain commercial business.

(iv) Failure to maintain ownership and control by the person(s) who has been determined to be socially and economically disadvantaged.

(v) Inadequate management performance by the section 8(a) business concern.

(vi) Repeated inadequate performance of awarded section 8(a) procurement contracts by the section 8(a) business concern.

(vii) The concern has ceased its business operations. This constitutes automatic and immediate grounds for terminating a concern's participation in the program.

(viii) Failure to submit updated business plans within a reasonable time after its due date without approval by SBA.

(ix) Withholding notice from, or failure to provide notice to, SBA within 30 days of changes in ownership and management control.

(x) Noncompliance with substantial requirements of divestiture or management agreements as approved by the AA/MSB&COD.

(xi) Failure to comply with the reporting provisions required in management agreements. Compensating those providing management assistance in excess of that specified in the SBA approved management agreement. Having a management agreement either written or oral that has not been approved by the AA/MSB&COD. Willful violation of any of the requirements of the management agreement.

(xii) Failure or refusal to provide SBA with required quarterly and annual financial statements and reports within a reasonable time after the close of the quarter.

(xiii) Failure to achieve goals cited in the business plan, as modified, as a result of repeated refusal to accept or utilize SBA assistance.

(xiv) Failure to reasonably pursue commercial and competitive business in accordance with the business plan projection, or failure to otherwise make reasonable efforts to achieve competitive status.

(xv) Inability to make satisfactory progress, within a reasonable time, after receiving SBA's management and technical assistance, financial and technical assistance in achieving its business development objectives.

(xvi) Failure to request prior approval from SBA before subcontracting under an 8(a) contract.

(xvii) Failure to disclose to SPA the extent to which nondisadvantaged persons or firms will participate in the management of the 8(a) business concern.

(xviii) Failure to disclose to SBA fees paid or to be paid, costs incurred or committed to third parties, directly or indirectly, in the process of obtaining 8(a) contracts.

(xix) Willful failure to comply with applicable labor standards obligations.

(xx) Knowingly submitting false information to SBA.

(xxi) Whenever the concern is debarred by the Comptroller General, the Secretary of Labor or the Director of the Office of Federal Contract Compliance.

(xxii) Whenever the concern is debarred or suspended for cause by any contracting agency pursuant to FPR subpart 1-1.6 "Debarred Suspended and Ineligible Bidders" or DAR (ASPR) section I. Part 6, "Debarment, Ineligibility and Suspension".

(xxiii) Conviction for commission of a criminal offense as an incident to obtaining or attempting to obtain a public or private contract, or subcontract thereunder, or in the performance of such contract or subcontract.

(xxiv) Conviction under the Organized Crime Control Act of 1970, or conviction of embezzlement, theft, forgery, bribery, falsification or destruction of records, receiving stolen property, or any other offense indicating a lack of business integrity or business honesty which seriously and directly affects the question of present responsibility as a Government contractor.

(xxv) Conviction under the Federal Antitrust Statutes arising out of the submission of bids or proposals.

(xxvi) Violation of the subcontract provision against contingent fees and gratuities.

(2) Upon determination by the SBA that a section 8(a) business concern's participation in the program should be terminated for good cause, the section 8(a) business concern shall be afforded an opportunity for a hearing on the record in accordance with chapter 5 of Title 5 of the United States Code, at which hearing it may contest such determination. Such a hearing will be held pursuant to the SBA's Rules of Practice for Adjudicative Proceedings set forth at Part 101.10 et seq. of the SBA rules and regulations.

(3) Subsequent to the completion of such hearing, upon the record established therein, and after consideration of the recommended decision of the examiner who has conducted the hearing, the AA/MSB&COD shall render a final decision regarding the termination, for good cause, of the 8(a) business concern's participation in the program.

(4) After the effective date of a program termination as provided for herein, the 8(a) business concern is no longer eligible to receive 8(a) subcontracts and other 8(a) assistance. However, such concern is obligated to complete previously awarded 8(a) subcontracts.

[Revision 2, Amendment 3]

PART 101—ADMINISTRATION

Rules Of Practice For Adjudicative Proceedings To Be Used In Effecting the Completion or Termination Of A Section 8(a) Business Concern From Participating In The Section 8(a) Program

AGENCY: Small Business Administration.

ACTION: Final Rule.

SUMMARY: As a result of the provisions of Pub. L. 95-507 which amend the Small Business Act, SBA is clarifying the procedures by which SBA will determine 1) that a small business concern participating in its section 8(a) program (procurement and technical assistance for socially and economically disadvantaged) has completed its participation in the program, or 2) that the participation of a small business concern participating in its section 8(a) program should be terminated. SBA is providing rules under which administrative proceedings necessary to effect these determinations will be held.

EFFECTIVE DATE: January 24, 1979.

FOR FURTHER INFORMATION CONTACT:

Martin D. Teckler, Office of General Counsel, Small Business Administration, 1441 L Street, N.W., Washington, D.C. 20416. 202-653-6797.

SUPPLEMENTARY INFORMATION: Pursuant to the authority contained in section 8(a)(9) of the Small Business Act, 15 U.S.C. 637(a), as amended, notice is hereby given that SBA amends section 101, Chapter I of Title 13 of the Code of Federal Regulations to include the following rules.

Dated: January 22, 1979.

A. VERNON WEAVER,
Administrator.

PART 101—ADMINISTRATION

Sec.
101.10 Rules of Practice for Adjudicative Proceedings To Be Used In Effecting The Completion Or Termination Of A Section 8(a) Business Concern From Participating In The Section 8(a) Program.
101.10-1 Application of the rules in this part.
101.10-2 Definitions.
101.10-3 Appearances.
101.10-4 Consent order procedure.
101.10-5 Order to show cause and notice of hearing.
101.10-6 Answer.
101.10-7 Motions.
101.10-8 Amendments and supplemental proceedings.
101.10-9 Prehearing conferences.
101.10-10 Voluntary intervention.
101.10-11 Admissions as to facts and documents.
101.10-12 Evidence.
101.10-13 Presiding official.
101.10-14 Hearings; transcripts.
101.10-15 Witnesses and fees.
101.10-16 Proposed findings, conclusions, and order.
101.10-17 Interlocutory appeals.
101.10-18 Initial decision.
101.10-19 Petition for review.
101.10-20 AAMSB-COD review.
101.10-21 Decision on review.
101.10-22 Requirements as to form and filing of documents other than correspondence.
101.10-23 Time.
101.10-24 Service.
101.10-25 Ex parte communication.
101.10-26 Reports of compliance.
101.10-27 Reopening of proceedings.

AUTHORITY: Sec. 8(a)(9), Small Business Act (15 U.S.C. 637(a)).

§ 101.10 Rules of Practice for Adjudicative Proceedings To Be Used In Effecting The Completion Or Termination Of A Section 8(a) Business Concern From Participating In The Section 8(a) Program.

§ 101.10-1 Scope of the Rules in this Part.

The rules in this part govern procedure to be utilized in adjudicative proceedings conducted pursuant to the provisions of section 8(a)(9) of the Small Business Act, as amended (15 U.S.C. 631 *et seq.*). They do not apply to adjudicative or rulemaking proceedings under the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 *et seq.*) nor do they apply to investigations conducted under the Small Business Act (15 U.S.C. 631 *et seq.*).

§ 101.10-2 Definitions.

Administration. "Administration" means Small Business Administration (SBA).

AAMSB-COD. "AAMSB-COD" means the Associate Administrator for Minority Small Business and Capital Ownership Development of the SBA.

Respondent. "Respondent" means (a) a section 8(a) business concern which may be a corporation or a director or officer thereof, (b) a partnership, or a partner thereof, (c) a trust, or a trustee thereof, (d) an association, or a director or officer thereof, or (e) any other person against whom such proceedings are instituted.

Party. "Party" refers to a Regional Director of SBA and each respondent.

Examiner. "Examiner" means the Administrative Law Judge (ALJ) who presides over the conduct of hearings held pursuant to the rules of practice in this part.

Order to show cause. "Order to show cause" means the formal statement and notice of hearing issued by a Re-

V 4 4 / 1 7

gional Director under § 101.10–5 for the purpose of initiating adjudicative proceedings under these rules.

Regional Director. "Regional Director" means the Regional Director of the Region which is the principal location of a respondent.

Act. "Act" means the Small Business Act, as amended.

§ 101.10–3 Appearances.

(a) *By non-lawyers.* An individual may appear in his own behalf or may represent a sole proprietorship; a member of a partnership may represent the partnership; a bona fide officer of a corporation, trust or association may represent the corporation, trust or association upon a showing of adequate authorization.

(b) *By lawyers.* An individual, partnership, corporation, trust or association may be represented by an attorney at law who is a member of a bar of any Federal court or of the highest court of any State or Territory of the United States, and who is not disbarred or suspended by any court or administrative agency.

(c) *Restrictions as to former employees.* The restrictions as set forth in § 105.401 through 405 of the SBA Rules and Regulations shall apply to former employees with respect to their appearances as attorney or agent for any other than the United States in any proceeding conducted under the rules of practice in this part.

(d) *Notice of appearance.* Any attorney desiring to appear before the AAMSB–COD, a Regional Director or an examiner, on behalf of a respondent, shall file with the AAMSB–COD a written notice of such appearance, which shall contain a statement of such attorney's eligibility as provided in this section. No other application shall be required for admission to practice, and no register of attorneys shall be maintained.

(e) *Standards of conduct.* All counsel practicing before the Administration shall conform to the standards of ethical conduct required of practitioners in the courts of the United States and by the bars of which they are members.

(f) *Suspension or disbarment of attorneys.* (1) The examiner shall have the authority, for good cause stated on the record, to bar from participation in a particular proceeding any attorney who shall refuse to comply with his directions, or who shall be guilty of disorderly conduct, dilatory tactics, or contemptuous language in the course of such proceedings. Any attorney so barred shall have the right to appeal to the AAMSB–COD from such action of the examiner and take such action as he deems warranted by the circumstances.

(2) The Administrator of the SBA for good cause shown may, in accordance with the procedures set forth in Part 104 of this chapter, suspend or disbar any alleged offender from practice before the Administration.

§ 101.10–4 Consent order procedure.

(a) General policy; notice of proposed adjudicative proceedings. It is the policy of SBA to afford respondents and other persons an opportunity where it is proposed to terminate a section 8(a) business concern's participation in the 8(a) program to enter into voluntary settlement agreements pursuant to this section with regard to alleged violations, if it appears to a Regional Director that such procedure will satisfy the objective of the requirements allegedly violated and serve the purposes of the section 8(a) program. Accordingly, where time, the nature of the alleged violations, and other attendant circumstances indicate that it would be in the interest of the 8(a) program to do so, a Regional Director may notify a respondent and any other person concerned of SBA's intention to institute formal adjudicative proceedings. Such notice shall be served in the manner provided for in § 101.10–24, and shall be accompanied by a form of order to show cause which the Regional Director intends to issue, together with a proposed form of order.

(b) *Reply.* (1) Within 10 days after service of such notice, the party named therein may file with the Regional Director a reply stating whether or not such party is interested in having the proceeding disposed of by the entry of a consent order.

(2) If the reply is in the negative, or if no reply is filed within the time prescribed, the order to show cause will be issued and served forthwith.

(c) If the reply is in the affirmative, the party served will (as hereinafter set forth) be afforded an opportunity to execute an appropriate settlement agreement. The party may be represented by counsel who has entered an appearance in the manner set forth in § 101.10–3(d). The party will be afforded an opportunity to negotiate and submit, for the consideration and approval of counsel for the Regional Director, an executed agreement conforming to the requirements set forth in paragraph (d) of this section. Such agreement must be submitted within 30 days after the filing of the reply.

(d) *Agreements.* Every agreement shall (1) set forth the terms of an appropriate order to be entered by consent; (2) admit all jurisdictional facts; (3) expressly waive (i) further procedural steps, including any hearing, submission of proposed findings and conclusions, or an initial decision by a hearing examiner, (ii) the requirement that the Administration's decision contain findings of fact and conclusions of law, and (iii) all rights to seek judicial review or otherwise to challenge the validity of the consent order; (4) provide that the order to show cause may be used in construing the terms of the consent order; and (5) stipulate that the consent order shall have the same force and effect and shall become final and may be altered, modified, or set aside in the same manner and within the same time as other orders in adjudicative proceedings. In addition, the agreement may contain a statement that the signing thereof is for settlement purposes only and does not constitute an admission by any party that the Act or regulations pursuant thereto have been violated as alleged in the order to show cause. The agreement shall not become effective unless expressly approved by the Regional Director and made a part of the official record of the proceeding.

§ 101.10–5 Order to show cause and notice of hearing.

(a) *Commencement of proceeding.* Adjudicative proceedings are commenced by the issuance of an order to show cause in the case of proceedings against a respondent. A copy of the order to show cause will be served upon each respondent.

(b) *Form and notice of hearing.* The order to show cause shall be issued by the appropriate Regional Director and shall contain a statement of the matters of fact and law asserted by SBA and the legal authority and jurisdiction under which a hearing is to be held and shall inform the respondent of the time and place of hearing. The date of hearing shall not be earlier than 30 days after service on the respondent.

(c) *Revised hearing date.* The hearing shall be held on the date set forth in the order to show cause unless a different date is fixed by the Regional Director or the examiner at the request of any party and for good cause shown.

(d) *Motion for more definite statement.* If the statement in the order to show cause as to matters of fact and law, or legal authority and jurisdiction asserted by the Regional Director is so vague and ambiguous that a party cannot reasonably frame a responsive answer, the respondent may move for a more definite statement before filing an answer. Such motion shall be filed within 15 days after service of the order to show cause and shall point out the defects complained of and the details desired.

§ 101.10–6 Answer.

(a) *Time for filing.* A respondent shall have thirty days after service of the order to show cause within which

to file an answer thereto: Provided, however, that the filing of a motion for a more difinite statement alters this period of time as follows, unless a different time is fixed by the examiner: (1) if the motion is denied, the answer shall be filed within ten days after notice of such action; (2) if the motion is granted, in whole or in part, the answer shall be filed within ten days after service of the more difinite statement: Provided further, however, that in no event need of an answer be filed in less than thirty days after service of the order to show cause.

(b) *Content of answer.* An answer shall comform to the following:

(1) Contesting allegations of order to show cause. Such answer shall contain:

(i) A concise statement of the facts constituting the ground(s) of defense;

(ii) Specific admission, denial, or explanation of each fact alleged in the order to show cause, or if the respondent is without knowledge thereof, a statement to that effect.

(2) Admitting allegations of order to show cause. If the respondent elects not to contest the allegations of fact set forth in the order to show cause, the answer shall consist of a statement that respondent admits all material allegations to be true. Such an answer shall constitute a waiver of hearings as to facts so alleged, and an initial decision containing appropriate findings and conclusions and an appropriate order disposing of the proceeding shall be issued by the examiner. In such answer, the respondent may, however, reserve the right to submit proposed findings and conclusions and an appropriate order disposing of the proceeding shall be issued by the examiner. In such answer, the respondent may, however, reserve the right to submit proposed findings and conclusions and the right to petition for review under § 101.10–19.

(c) *Default.* Failure of the respondent to file an answer within the time provided shall be deemed to constitute a waiver of its right to appear and to authorize the examiner, without further notice to respondent, to find the facts to be as alleged in the order to show cause and to enter an initial decision containing such findings, appropriate conclusions and order.

(d) *Signature on answer.* Every answer filed pursuant to this section shall be signed by (1) the individual named as respondent, (2) an officer of the corporate respondent, (3) a partner of the partnership, (4) a trustee of the trust, or (5) the attorney who represents the respondent.

(e) *Consent order procedure.* A respondent may, within the time alloted for the submission of its answer or amended answer prior to any hearing, file an executed settlement agreement conforming to the requirements of § 101.10–4(c), which has been negotiated with and approved by the counsel for the Regional Director. In that event, the examiner shall, without delay or further action on his part, certify the proceedings to the AAMSB–COD for decision or other appropriate disposition.

§ 101.10–7 Motions.

(a) *Presentation and disposition.* During the time a proceeding is before an examiner, all motions, therein, except as provided in § 101.10–13(e), shall be addressed to and ruled upon by him, and if in writing, shall be filed with him. All motions addressed to the Regional Director shall be in writing and shall be filed with him.

(b) *Content.* All written motions shall state the particular order, ruling, or action desired and the grounds therefor.

(c) *Answers.* Within ten days after service of any written motion, or within such longer or shorter time as may be designated by the examiner or the Regional Director, the opposing party shall answer or be taken to have consented to the granting of the relief asked for in the motion. The moving party shall have no right to reply, except as permitted by the examiner or the Regional Director.

(d) *Motions for extensions.* As a matter of discretion, the examiner or the Regional Director may waive the requirements of this section as to motions for extensions of time, and may rule such requests ex parte.

(e) *Rulings on motions for dismissal.* When a motion to dismiss an order to show cause or for other relief is granted with the result that the proceeding before the examiner is terminated, the examiner shall make and file an initial decision in accordance with the provisions of § 101.10–18. When a motion to dismiss is made at the close of the evidence offered in support of the order to show cause based upon the alleged failure to establish a prima facie case, the examiner may, if he so elects, defer ruling thereon until the close of the case in order to permit the reception of evidence.

§ 101.10–8 Amendments and supplemental pleadings.

(a) *Amendments—(1) By leave.* If and whenever determination of a controversy on the merits will be facilitated thereby, the examiner may, upon such conditions as are necessary to avoid prejudicing the public interest and the rights of the parties, allow appropriate amendments to pleadings: provided, however, that an application for amendment of an order to show cause may be allowed only if the amendment is reasonably within the scope of the proceeding initiated by the original order to show cause.

(2) *Conformance to evidence.* When issues not raised by the pleadings, but reasonably within the scope of the proceeding initiated by the original order to show cause, are tried by express or implied consent of the parties, they shall be treated in all respects as if they had been raised in the pleadings; and such amendments of the pleadings as may be necessary to make then conform to the evidence and to raise such issues shall be allowed at any time.

(b) *Supplemental pleadings.* The examiner may, upon reasonable notice and such terms as are just, permit service of a supplemental pleading setting forth transactions, occurrences, or events which have happened since the date of the pleading sought to be supplemented and which are relevant to any of the issues involved.

§ 101.10–9 Prehearing conferences.

(a) The examiner upon motion of any party or upon his own motion may direct counsel for all parties to meet with him for a conference to consider:

(1) Simplification and clarification of the issues;

(2) Necessity or desirability of amendments to pleadings, subject, however, to the provisions of § 101.10–8(a)(1);

(3) Stipulations, admissions of fact and of the contents and authenticity of documents;

(4) Expedition in the presentation of evidence, including, but not limited to, restriction of the number of expert, economic or technical witnesses; and

(5) Such other matters as may aid in the orderly disposition of the proceeding, including disclosure of the names of witnesses or furnishing for inspection or copying of nonprivileged documents, papers, books or other physical exhibits, which constitute or contain evidence relevant to the subject matter involved and which are in the possession, custody, or control of any party to the proceeding.

(b) Prehearing conferences, in the discretion of the examiner, may be stenographically reported as provided in § 101.10–14(f), but shall not be public unless all parties so agree.

(c) The examiner shall enter in the record an order which recites the action taken, the amendments allowed and the agreements made at the conference; and such order shall control the subsequent course of the proceeding, unless modified at the hearing to prevent manifest injustice. If counsel for any party after proper direction fails or refuses to disclose the names of witnesses or to make available for inspection or copying nonprivileged documents, papers, books or other physical exhibits, the examiner, in his

JAN 24 79 UMI

V 4 4 / 1 7 J A 2 4 7 9 UMI

discretion, may also enter in the record an order providing, as appropriate:

(1) That the testimony of the witnesses whose names are not disclosed or the documents, papers, books or other physical exhibits which are not made available for inspection or copying in accordance with the direction shall not be introduced in evidence; or

(2) That counsel who fails or refuses to comply with the examiner's direction in respect to any of the foregoing shall be barred from participation in the proceeding in accordance with the provisions of § 101.10-3(f)(1).

§ 101.10-10 Voluntary intervention.

(a) Any individual, partnership, unincorporated association, or corporation desiring to intervene in an adjudicative preceeding shall make written application in the form of a motion setting forth the basis therefor. Such application shall have attached to it a certificate showing service thereof upon each party to the proceeding in accordance with the provisions of § 101.10-24(b). A similar certificate shall be attached to the answer filed by any party showing the service of such answer upon the applicant.

(b) The examiner or the Regional Director may be ordered to permit the intervention to such extent and upon such terms as are provided by law or as otherwise may be deemed proper. The examiner or the Regional Director shall consider, among other matters, whether the intervention will unduly delay or prejudice the adjudication of the rights of the parties.

§ 101.10-11 Admissions as to facts and documents.

(a) At any time after answer has been filed, any party may serve upon any other party a written request for the admission of the genuineness of any relevant documents described in the request, or the admission of the truth of any relevant matters of fact set forth in such documents. Copies of the documents shall be delivered with the request unless copies have already been furnished.

(b) Each requested admission shall be deemed made unless, within a period designated by the examiner, not less than ten days after service thereof, or within such further time as the examiner may allow, the party so served serves upon the party making the request either (1) a statement denying specifically the relevant matters of which an admission is requested or setting forth in detail the reasons why he can neither truthfully admit nor deny them, or (2) written objections on the ground that some or all of the matters involved are privileged or irrelevant or that the request is otherwise improper in whole or in part, together with a copy of a request to the examiner for a hearing on the objections at the earliest practicable time. Answers on matters to which such objections are made may be deferred until the objections are determined, but if written objections are made to only part of a request, the remainder of the request shall be answered within the period designated.

(c) Admissions obtained pursuant to this procedure may be used in evidence to the same extent and subject to the same objections as other admissions.

§ 101.10-12 Evidence.

(a) *Burden of proof.* Counsel supporting the order to show cause shall have the burden of proof, but the proponent of any factual proposition shall be required to sustain the burden of proof with reference thereto.

(b) *Admissibility.* Relevant, material, and reliable evidence, shall be admitted. Irrelevant, immaterial, unreliable, and unduly repetitious evidence shall be excluded. Immaterial or irrelevant parts of an admissible document shall be segregated and excluded so far as practicable.

(c) *Official notice of facts.* When any decision of an examiner or of the AAMSB-COD rests, in whole or in part, upon the taking of official notice of a material fact not appearing in evidence of record, opportunity to disprove such noticed fact shall be granted any party making timely motion therefor.

(d) *Objections.* Objections to evidence shall timely and briefly state the grounds relied upon and the transcript shall include argument or debate thereon except as ordered by the examiner. Rulings on all objections shall appear in the record.

(e) *Exceptions.* Formal exceptions to an adverse ruling by the examiner are not required.

(f) *Record of excluded evidence.* When an objection to a question propounded to a witness is sustained, the examining attorney may make a specific offer of what he expects to provide by the answer of the witness, or the examiner upon request shall receive and report the evidence in full, unless it clearly appears that the evidence is not admissible on any ground or that the witness is privileged. Similarly, rejected exhibits, adequately marked for identification, shall be retained in the record so as to be available for consideration by any reviewing authority.

§ 101.10-13 Presiding official.

(a) *Who presides.* All hearings in adjudicative proceedings shall be presided over by an examiner.

(b) *Powers and duties.* Examiners shall have the duty to conduct fair and impartial hearings, to take all necessary action to avoid delay in the disposition of proceedings, and to maintain order. They shall have all powers necessary to that end, including the following:

(1) To administer oaths and affirmations;

(2) To rule upon offers of proof and receive evidence;

(3) To regulate the course of the hearings and the conduct of the parties and their counsel therein;

(4) To hold conferences for simplification of the issues or any other proper purpose;

(5) To consider and rule upon all procedural and other motions appropriate in an adversary proceeding;

(6) To make and file initial decisions; and

(7) To take action authorized by the rules in this part or in conformance with the provisions of Chapter 5, Administrative Procedure of title 5 of the United States Code (5 U.S.C. 551-559).

(c) *Substitution of examiner.* In the event of substitution of a new examiner for the one originally designated, any motion predicated upon such substitution shall be made within five days thereafter.

(d) *Interference.* In the performance of their adjudicative functions, examiners shall not be responsible to, nor subject to the supervision or direction of, any officer, employee, or agent engaged in the performance of investigative or prosecuting functions for the administration, and all directions by the AAMSB-COD to examiners concerning any adjudicative proceeding shall appear in and be made a part of the record.

(e) *Disqualification of examiners.* When an examiner deems himself disqualified to preside in a particular proceeding, he shall withdraw therefrom by notice on the record and shall notify AAMSB-COD of such withdrawal.

(2) Whenever any party shall deem the examiner for any reason to be disqualified to preside, or to continue to preside, in a particular proceeding, that party shall file with the AAMSB-COD a motion to disqualify and remove such examiner, such motion to be supported by affidavits setting forth the alleged grounds for disqualification. A copy of such motion shall be served by the AAMSB-COD on the examiner whose removal is therein sought, who shall ten days from such service within which to reply thereto. If the examiner does not disqualify himself within ten days, then the AAMSB-COD shall promptly determine the validity of the grounds alleged, either directly or on the report of another hearing examiner appointed to conduct a hearing for that purpose.

§ 101.10-14 Hearings; transcripts.

(a) *Public hearings.* All hearings in adjudicative proceedings shall be public unless otherwise specified in the order to show cause or ordered by the examiner for good cause shown.

(b) *Rights of parties.* Every party shall have the right to due notice, cross-examination, presentation of evidence, objection, motion, argument and all other rights essential to a fair hearing.

(c) *Adverse witnesses.* An adverse party, or an officer, agent, or employee thereof, and any witness who appears to be hostile, unwilling, or evasive, may be interrogated by leading questions and may also be contradicted and impeached by the party calling him.

(d) *Expedition.* Hearings shall proceed with all reasonable expedition. Unless the AAMSB-COD otherwise orders upon a certificate of necessity therefor by the examiner, all hearings will be held at one place and will continue without suspension until concluded. (This shall not bar overnight, weekend, or holiday recesses, or other brief intervals of the sort normally involved in judicial proceedings.)

(e) *Notice.* Not less than ten days notice of the time and place of any hearing shall be given, and in setting such hearings due regard shall be had for the public interest and the convenience and necessity of all parties, witnesses, and counsel.

(f) *Transcripts.* Hearings shall be stenographically reported and transcribed by the official reporter of the Administration under the supervision of the examiner, and the original transcript shall be part of the record and the sole official transcript. Copies of transcripts are available to respondents and to the public from the reporter at rates not to exceed the maximum rates fixed by contract between the Administration and the reporter.

(g) *Corrections of the transcript.* Corrections of the official transcript may be made only when they involve errors relating substance and then only in the manner herein provided: Corrections ordered by the examiner or agreed to in a written stipulation signed by all counsel and approved by the examiner shall be included in the record, and such stipulations, except to the extent they are capricious or without substance, shall be approved by the examiner. Corrections shall not be ordered by the examiner except upon notice and opportunity for the hearing of objections. Corrections so ordered or approved shall be incorporated in the record as an appendix and when so incorporated the examiner shall make or cause to be made the necessary physical corrections in the official transcript so that it will incorporate the changes agreed upon or ordered. In making such physical corrections, there shall be no substitution of pages, but, to the extent practicable, such corrections shall be made by running a line through the matter to be changed, but without obliteration, and writing the matter as changed immediately above. Where the correction consists of an insertion, it shall be added, by rider or interlineation, as near as may be to the text which is intended to precede and follow it.

§ 101.10-15 Witnesses and fees.

(a) Witnesses at hearings shall be examined orally. Witnesses shall be paid the same fees and mileage as are paid witnesses in the courts of the United States.

(b) Witness fees and mileage shall be paid by the party at whose instance witnesses appear.

§ 101.10-16 Proposed findings, conclusions, and order.

At the close of the reception of evidence in an adjudicative proceeding, or within a reasonable time thereafter fixed by the examiner any party may file with the examiner for his consideration proposed findings of fact, conclusions of law, and order, together with reasons therefor and briefs in support thereof. Such proposals shall be in writing, shall be served upon all parties, and shall contain adequate references to the record and authorities relied on. The record shall show the examiner's ruling on each proposed finding and conclusion except when his order disposing of the proceeding otherwise informs the parties of the action taken by him thereon.

§ 101.10-17 Interlocutory appeals.

(a) Except as provided in § 101.10-3(f), interlocutory appeals from rulings of an examiner may be filed only after permission is first obtained from the Regional Director. Any request for such permission shall be in writing, not to exceed ten pages in length, and shall be filed within five days after notice of the ruling complained of. No such permission shall be granted by the Regional Director unless he finds that such ruling involves substantial rights and will materially affect a final decision and that determination of its correctness before the conclusion of the proceeding would better serve the interest of justice.

(b) Interlocutory appeals shall be in the form of a brief, not to exceed thirty pages in length, and shall be filed within five days after notice of the ruling complained of, in the case of appeals under § 101.10-3(f), or within five days after notice of permission to file, in the case of appeals under this section. Answer thereto may be filed within five days after service of the appeal brief. The appeal shall not operate to suspend the hearing unless otherwise ordered by the examiner or the Regional Director.

§ 101.10-18 Initial decision.

(a) When filed and when effective as agency decision. Within sixty days after completion of the reception of evidence in any proceeding, or within such further time as the Regional Director may allow on the examiner's written request, the examiner shall file an initial decision which shall become the decision of the Administration (i.e., the findings of fact, conclusions of law, and order contained in such initial decision shall become the final agency decision) thirty (30) days after service thereof upon each of the parties (except in the case of an order issued by consent, which shall become effective at the time specified therein), unless (1) within fifteen (15) days after service of the initial decision a petition for review thereof shall be filed pursuant to § 101.10-19, or (2) within such thirty day period the AAMSB-COD issues an order directing the case to be placed on his docket for review. In that event, a copy of such order in addition to a copy of the initial decision shall be served on each party and each counsel or other representative which has appeared in the proceeding pursuant to § 101.10-3.

(b) *Content.* An initial decision shall include a statement of (1) findings and conclusions, with the reasons or basis therefor, upon all the material issues of fact, law, or discretion presented on the record, and (2) an appropriate order specifying the effective date thereof. Initial decisions shall be based upon a consideration of the whole record and supported by reliable, probative and substantial evidence.

(c) *By whom made.* The initial decision in an adjudicative proceeding shall be made and filed by the examiner who presided therein, except when he shall have become unavailable to the Administration, in which event a substitute examiner shall be designated.

(d) *Reopening:* termination of examiner's jurisdiction. (1) At any time prior to the filing of his initial decision, an examiner may reopen the proceeding for the reception of further evidence.

(2) Except for the correction of clerical errors, the jurisdiction of the examiner is terminated upon the filing of his initial decision, unless and until the proceeding is remanded to him by the AAMSB-COD.

§ 101.10-19 Petition for review.

(a) *Who may file.* Any party to a proceeding may file a petition for review within the time prescribed by § 101.10-18.

V 4 4 / 1 7

(b) *Content.* The petition for review shall concisely and plainly state (1) the questions presented for review, (2) the facts in abbreviated form, and (3) the reasons why review by the AAMSB-COD is deemed to be in the public interest. Such petition shall not exceed ten pages in length.

(c) *Answer.* Within ten days after service upon the opposing party of a petition for review, such party may file in opposition thereto an answer not exceeding ten pages.

(d) *Disposition.* A petition for review will be granted where, on examination of the record, the petition for review, and the answer, the AAMSB-COD finds that the questions presented are substantial and that determination thereof by the AAMSB-COD is necessary or appropriate under the law to insure a just and proper disposition of the proceeding and to protect the rights of all parties. If the petition for review is denied, the initial decision of the examiner shall thereupon become the decision of the AAMSB-COD.

§ 101.10-20 AAMSB-COD review.

(a) Within thirty days after service of the AAMSB-COD's order granting the petition for review, the petitioner may file exceptions to the initial decision and a brief in support thereof.

(b) *Exceptions.* Each exception (1) shall relate only to substantive or procedural matters presented on the record, limited to the questions stated in the petition for review; (2) shall identify the part of the initial decision to which objection is made; (3) shall specify the portions of the record relied upon; and (4) shall state the grounds for the exception, including the citation of authorities in support thereof. Any objection to a ruling, finding, or conclusion which is not made a part of the exceptions shall be deemed to have been waived. Any exception which fails to present with accuracy, brevity and clearness whatever is essential to a ready and adequate understanding of the points requiring consideration may be disregarded.

(c) *Brief.* The brief in support of the exceptions shall contain, in the order indicated, the following:

(1) A subject index of the matter in the brief, with page references, and a table of cases, textbooks, statutes, and other material cited, with page references thereto;

(2) A concise statement of the case containing all that is material to the consideration of the questions presented;

(3) A specification of the assigned errors; and

(4) The argument presenting clearly the points of fact and law relied upon in support of the position taken on each question, with specific page references to the transcript and the legal or other material relied upon.

Material not included in the exceptions or brief may not be presented to the AAMSB-COD in oral argument or otherwise.

(d) *Answering brief.* Within thirty days after service of the brief upon the opposing party, such party may file an answering brief which shall also contain a subject index, with page references, and a table of cases, textbooks, statutes, and other material cited, with page references thereto. It shall be limited to the questions raised in the brief in support of the exceptions and shall present clearly the points of fact and law relied upon in support of the position taken on each question with specific page references to the transcript and legal or other material relied upon.

(e) *Reply brief.* Reply briefs, not in excess of ten pages and limited to rebuttal of matter in an answering brief, will be received if filed and served within seven days after receipt of the answering brief or the day preceding the oral argument, whichever comes first. No answer to a reply brief will be permitted.

(f) *Length of briefs.* No brief in excess of sixty pages, including any appendices, shall be filed without leave of the AAMSB-COD.

(g) *Oral argument.* The AAMSB-COD may permit oral argument in connection with agency review of any initial decision (1) upon request made by any party at the time of filing its brief and for good cause shown, or (2) on the AAMSB-COD's own motion. Oral argument before the AAMSB-COD shall be reported stenographically unless otherwise ordered by it.

§ 101.10-21 Decision on review.

(a) Upon review of an initial decision, the AAMSB-COD will consider such parts of the record as are cited or as may be necessary to resolve the issues presented; and in addition will, to the extent necessary or desirable, exercise all the powers which he could have exercised if he had made the initial decision.

(b) In rendering his decision, the AAMSB-COD will adopt, modify, or set aside the findings, conclusions and order contained in the initial decision, and will include in the decision a statement of the reasons or basis for his action.

(c) The final decision issued by the AAMSB-COD on review of the initial decision shall be served upon each party and each counsel or other representative who has appeared in the proceeding pursuant to § 101.10-3.

§ 101.10-22 Requirements as to form and filing of documents other than correspondence.

(a) *Filing.* All documents in proceedings hereunder before the AAMSB-COD shall be addressed to and filed with the Associate Administrator for Minority Small Business and Capital Ownership Development, Small Business Administration, Washington, D.C. 20416. All documents before a Regional Director in procedures hereunder shall be addressed and filed with that Regional Director.

(b) *Title.* All documents shall clearly show the docket number and title of the proceeding.

(c) *Copies.* Ten copies shall be filed of a petition for review and of all briefs; five copies of all other documents shall be filed with the exception of reports of compliance under § 101.10-26, in which case only two copies need be filed, and notices of appearances under § 101.10-3, in which case only one copy need be filed.

(d) *Form.* (1) Documents, other than briefs filed with the AAMSB-COD on petitions for review, shall be printed, typewritten or otherwise processed in permanent form and on good unglazed paper. The paper must not be less than eight (8) inches nor more than eight and one-half (8½) inches by not less than ten and one-half (10½) inches nor more than eleven (11) inches. The left margin must be one and one-half (1½) inches and the right margin one (1) inch. Documents must be bound on the left side. If printed, the type shall be not less than ten (10) point adequately leaded.

(2) Briefs before the AAMSB-COD on review shall be printed on good unglazed paper seven (7) inches by ten (10) inches. The type shall not be less than ten (10) point adequately leaded. Citations and quotations shall not be less than ten (10) point single leaded and footnotes shall not be less than eight (8) point single leaded. The printed line shall not exceed four and three-quarter (4¾) inches in length.

(e) *Signature.* (1) One copy of each document shall be signed by an attorney of record for the party or, in the case of respondents not represented by counsel, by an officer of respondent.

(2) Signing a document constitutes a representation by the signer that he has read it, that to the best of his knowledge, information, and brief, the statements made in it are true, and that it is not interposed for delay. If a document is not signed or is signed with intent to defeat the purpose of this section, it may be stricken as sham and false and the proceeding may go forward as though the document had not been filed.

J A 2 4 7 9 UMI

§ 101.10-23 Time.

(a) *Computation.* Computation of any period of time prescribed or allowed by these rules, by order of the AAMSB-COD, or an examiner, or by any applicable statute, shall begin with the first business day following that on which the act, event or development initiating such period of time shall have occurred. When the last day of the period so computed is a Saturday, Sunday, or national holiday, or other day on which the office of SBA is closed, the period shall run until the end of the next following business day. When such period of time, with the intervening Saturdays, Sundays and national holidays counted, is less than seven days, each of the Saturdays, Sundays, and such holidays shall be excluded from the computation. When such period of time, with the intervening Saturdays, Sundays, and national holidays counted, exceeds seven days, each of the Saturdays, Sundays and such holidays shall be included in the computation.

(b) *Extensions.* For good cause shown, the examiner may, in any proceeding before him, extend any time limit prescribed or allowed by these rules or by order to the AAMSB-COD or the examiner, except those governing interlocutory appeals and initial decisions and those expressly requiring AAMSB-COD action. Except as otherwise provided by law, the AAMSB-COD, for good cause shown, may extend any time limit prescribed by these rules or by order of the AAMSB-COD or the examiner: *Provided, however,* That in a proceeding pending before an examiner, the application shall first be made to him. Applications for extensions of time shall be made by motion.

§ 101.10-24 Service.

(a) *By SBA.* (1) Service of orders to show cause, orders and other processes of SBA may be effected as follows:

(i) *By registered mail.* A copy of the documents shall be addressed to the person, partnership, corporation or unincorporated association to be served at his or its residence or principal office or place of business, registered, and mailed; or

(ii) *By delivery to any individual.* A copy thereof may be delivered to the person to be served, or to a member of the partnership to be served, or to the president, secretary, or other executive officer or a director of the corporation or unincorporated association to be served; or

(iii) *By delivery to an address.* A copy thereof may be left at the principal office or place of business of the person, partnership, corporation or unincorporated association, or it may be left at the residence of the person or of a member of the partnership or of an officer or director of the corporation or unincorporated association to be served.

(2) Documents other than orders to show cause, orders and other processes of SBA, the service of which starts the running of prescribed periods of time provided or allowed by any of the rules in this part or by any order of SBA or an examiner for the performance of some act or the occurrence of some event or development, shall be served in the same manner as orders to show cause, orders and other processes of SBA, or by certified mail

(3) All other documents may be similarly served, or they may be served by ordinary first-class mail.

(b) *By other parties.* Service of documents by parties other than SBA shall be by delivering copies thereof as follows: Upon SBA by personal delivery or delivery by first-class mail to the office of the AAMSB-COD; upon any other party, by delivery to the party. If the party is an individual or partnership, delivery shall be to such individual or a member of the partnership; if a corporation or unincorporated association, to an officer or agent authorized to accept service of process therefor. Delivery to a party other than SBA means handing to the individual, partner, officer, or agent; leaving at his office with a person in charge thereof, or, if there is no one in charge or if the office is closed or if he has no office, leaving at his dwelling house or usual place of abode with some person of suitable age and discretion then residing therein; or sending by mail.

(c) *Proof of service.* (1) When service is by mail, registered or ordinary first-class, it is complete upon delivery of the document by the post office.

(2) When a party has appeared in a proceeding by a partner, officer, or attorney, service upon such partner, officer, or attorney of any document other than an order to show cause, order or other process of SBA shall be deemed service upon the party.

(3) The return post office receipt for a document registered and mailed, or the verified return or certificate by the person serving the document by personal delivery or ordinary mail, setting forth the manner of said service, shall be proof of the service of the document.

§ 101.10-25 Ex parte communication.

(a) In an adjudicative proceeding, no employee or agent of SBA who performs any investigative or prosecuting function in connection with the proceeding and no respondent in the proceeding, or agent, or counsel, or anyone acting on behalf of a respondent, shall communicate ex parte, directly or indirectly, with the AAMSB-COD, or the examiner, or any employee involved in the decisional process in such proceeding, with respect to the merits of that or a factually related proceeding.

(b) In an adjudicative proceeding, the AAMSB-COD, examiner or employee involved in the decisional process of such proceeding, shall not communicate ex parte, directly or indirectly, with any employee or agent of SBA who performs any investigative or prosecuting function in connection with the proceeding, or with any party respondent in the proceeding, or agent, or counsel, or anyone acting on behalf of a party respondent, with respect to the merits of that or a factually related proceeding.

(c) In an adjudicative proceeding, if any oral or written ex parte communication is made to or by the examiner, or employee involved in the decisional process, in violation of paragraph (a) or (b) of this section, such examiner or employee as the case may be, shall promptly deliver to the AAMSB-COD any such written communication or, in the case of an oral communication, a report giving the substance thereof in writing, together with a written statement of the circumstances under which it was made. If the AAMSB-COD determines that any such communication should, in fairness, be brought to the attention of all parties to the proceeding, the relevant written material pertaining thereto shall be made a part of the record of the proceeding to which it applies and the AAMSB-COD shall send copies thereto to all parties respondent.

(d) In any case where the AAMSB-COD determines that the dictates of fairness so require, any party requesting an opportunity to do so may rebut, on the record, any facts or contentions contained in any such ex parte communication.

(e) The AAMSB-COD may censure or may, in accordance with the procedures contained in Part 104 of this chapter, suspend or revoke the privilege of any person who makes or solicits the making of an unauthorized ex parte communication, to practice or appear before SBA.

§ 101.10-26 Reports of compliance.

Unless otherwise specifically provided in an order, in every proceeding in which SBA has issued an order, the respondent named in such order shall file with SBA within twenty days after service thereof, a report in writing, signed by the respondent, setting forth in detail the manner and form of his compliance with the order, and shall thereafter file with SBA such further signed, written reports of compliance as it may require. Reports of compliance shall be under oath if so requested. Where court review of an order of SBA is pending, respondent

V 4 4 / 1 7

shall file only such reports of compliance as the court may require. Thereafter, the time for filing a report of compliance shall begin to run de novo from the final judicial determination.

§ 101.10-27 Reopening of proceedings.

(a) In any case where an order has been issued by SBA it may, upon notice to the parties, modify or set aside, in whole or in part, its report of findings as to the facts or order in such manner as it may deem proper at any time prior to expiration of the time allowed for filing a petition for review.

(b) In any case where an order issued by SBA has become final, SBA may at any time after reasonable notice and opportunity for hearing as to whether changed conditions of fact or of law or the public interest so require, reopen and alter, modify or set aside, in whole or in part, its report of findings as to the facts or order therein whenever in the opinion of the AAMSB-COD such action is required by said changed conditions or by the public interest.

(c) After an order dismissing an order to show cause has been issued, SBA may, upon reasonable notice to the parties and opportunity for a hearing as to whether said proceeding should be reopened, issue an order reopening such proceeding whenever, in the opinion of the AAMSB-COD, changed conditions of fact or of law or the public interest so require.

Federal Insurance Administration

[24 CFR Part 1917]

[Docket No. FI-4957]

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Clearwater, Wright County, Minn.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Clearwater, Wright County, Minnesota. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Hall, Clearwater, Minnesota. Send comments to: The Honorable Curtis Heaton, Mayor City of Clearwater, Clearwater City Hall, Clearwater, Minnesota 55320.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Clearwater, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Mississippi River...	Downstream corporate limits.	947
	Upstream corporate limits.	948
Clearwater River...	Just upstream of Burlington Northern Railroad.	948
	Just upstream of County Highway 75 dam.	957
	Upstream corporate limits.	959

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional reveiw requirements in order to permit publication at this time for public comment.

Issued: January 5, 1979.

GLORIA M. JIMENEZ,
Federal Insuranace Administrator.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Monticello, Wright County, Minn.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Monticello, Wright County, Minnesota. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Hall, Monticello, Minnesota. Send comments to: The Honorable Conrad O. Johnson, Mayor, City of Monticello, City Hall, 250 East Broadway, P.O. Box 777, Monticello, Minnesota 55362; Attention: Mr. Gary Wieber.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Monticello, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act

V 4 4 / 1 7 J A 2 4 7 9 UMI

of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Mississippi River...	Downstream corporate limits.	897
	Just downstream of Pine Street bridge.	907
	At confluence with Otter Creek.	910
	Upstream corporate limits.	918
Otter Creek.....	Just downstream of West River Street bridge.	912
	Just upstream of West River Street bridge.	913
	1,200 feet upstream of West River Street bridge.	914
	Just downstream of Broadway Street bridge.	919
	400 feet upstream of Burlington Northern railroad bridge.	921
	Upstream corporate limits.	923

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued: January 5, 1979.

GLORIA M. JIMENEZ,
Federal Insurance Administrator.

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of St. Michael, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
School Lake Creek	Eastern corporate limits	883
	550 feet upstream of eastern corporate limits.	883
	2,600 feet upstream of eastern corporate limits.	898
	70 feet downstream of Main Street.	918
	Just upstream of Main Street.	926
	3,500 feet upstream of Main Street.	927

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued: January 5, 1979.

GLORIA M. JIMENEZ,
Federal Insurance Administrator.

[Docket No. FI-4955]

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Sartell, Stearns County, Minn.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Sartell, Stearns County, Minnesota. These base (100-year) flood elevations are the basis for the flood plain management measures

that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Sartell City Hall, 2nd Street South, Sartell, Minnesota. Send comments to: The Honorable Anthony Zakrajshek Mayor, City of Sartell, Sartell City Hall, 2nd Street South, Sartell, Minnesota 56377.
